INDEX

TO THE

Reports of The Chief of Engineers, U. S. Army (Including the Reports of the Isthmian Canal Commissions, 1899-1914)

1866-1912

VOLUME I—RIVERS AND HARBORS
VOLUME II—FORTIFICATIONS, BRIDGES
PANAMA CANAL, ETC.

Completed under the direction of
BRIG. GEN. DAN C. KINGMAN, Chief of Engineers, U. S. Army
By COLONEL GEORGE A. ZINN, Corps of Engineers
John McClure, Compiler

VOLUME II

FORTIFICATIONS, BRIDGES
PANAMA CANAL, ETC.

FEBRUARY 16, 1914.—Referred to the Committee on Rivers and Harbors
and ordered to be printed, with illustrations

CONTENTS.

VOLUME I.

| | Page. |
|--|--------------|
| Map, United States River and Harbor Districts (in colors)..... | Frontispiece |
| Letter of transmittal by Secretary of War..... | 5 |
| Letter of submittal by the Chief of Engineers, United States Army..... | 7 |
| Preface and guide to use of index..... | 9-22 |

PART I. RIVERS AND HARBORS.

NORTH ATLANTIC COAST.

District:

| | |
|--------------------------------|-----|
| A. Portland, Me..... | 23 |
| B. Boston, Mass..... | 67 |
| C. Newport, R. I..... | 105 |
| D. New London, Conn..... | 139 |
| E. New York, N. Y., No. 1..... | 175 |
| F. New York, N. Y., No. 2..... | 213 |
| G. New York, N. Y., No. 3..... | 245 |
| H. Philadelphia, Pa..... | 269 |
| I. Wilmington, Del..... | 295 |

SOUTH ATLANTIC COAST.

| | |
|--------------------------|-----|
| J. Baltimore, Md..... | 329 |
| K. Washington, D. C..... | 371 |
| L. Norfolk, Va..... | 409 |
| M. Wilmington, N. C..... | 451 |
| N. Charleston, S. C..... | 497 |
| O. Savannah, Ga..... | 531 |

GULF OF MEXICO COAST.

| | |
|---------------------------|-----|
| P. Jacksonville, Fla..... | 567 |
| Q. Montgomery, Ala..... | 609 |
| R. Mobile, Ala..... | 643 |
| S. New Orleans, La..... | 679 |
| T. Dallas, Tex..... | 715 |
| U. Galveston, Tex..... | 731 |

LOWER MISSISSIPPI SYSTEM.

| | |
|--|-----|
| V. New Orleans, La. (4th M. R. C.)..... | 779 |
| W. Vicksburg, Miss. (3d M. R. C.)..... | 781 |
| X. Vicksburg, Miss..... | 783 |
| Y. Little Rock, Ark..... | 815 |
| Z. Memphis, Tenn. (1st and 2d M. R. C.)..... | 841 |

OHIO RIVER SYSTEM.

| | |
|--|-------|
| District: | Page. |
| AA. Chattanooga and Nashville, Tenn..... | 843 |
| BB. Louisville, Ky..... | 889 |
| CC. Cincinnati, Ohio (Ohio River)..... | 905 |
| DD. Cincinnati, Ohio, No. 2..... | 957 |
| EE. Wheeling, W. Va..... | 981 |
| FF. Pittsburgh, Pa..... | 1001 |

MISSOURI RIVER SYSTEM.

| | |
|--------------------------|------|
| GG. Kansas City, Mo..... | 1023 |
|--------------------------|------|

MISSISSIPPI RIVER.

| | |
|----------|------|
| HH. | 1067 |
|----------|------|

UPPER MISSISSIPPI SYSTEM.

| | |
|---------------------------|------|
| II. St. Louis, Mo..... | 1227 |
| JJ. Rock Island, Ill..... | 1231 |
| KK. St. Paul, Minn..... | 1245 |

GREAT LAKES SYSTEM.

| | |
|-----------------------------|------|
| LL. Duluth, Minn..... | 1263 |
| MM. Milwaukee, Wis..... | 1295 |
| NN. Chicago, Ill..... | 1347 |
| OO. Grand Rapids, Mich..... | 1375 |
| PP. Detroit, Mich..... | 1417 |
| QQ. Cleveland, Ohio..... | 1459 |
| RR. Buffalo, N. Y..... | 1491 |

PACIFIC COAST.

| | |
|-------------------------------------|------|
| SS. Los Angeles, Cal..... | 1541 |
| TT. San Francisco, Cal., No. 1..... | 1553 |
| UU. San Francisco, Cal., No. 3..... | 1575 |
| VV. Portland, Oreg., No. 1..... | 1591 |
| WW. Portland, Oreg., No. 2..... | 1613 |
| XX. Seattle, Wash..... | 1653 |

INSULAR POSSESSIONS.

| | |
|----------------------------------|------|
| YY. Porto Rico, Hawaii, etc..... | 1683 |
|----------------------------------|------|

| | |
|---|------|
| Alphabetical finding list, United States waterways..... | 1693 |
|---|------|

VOLUME II.

| | |
|------------------------------|------|
| PART II. FORTIFICATIONS..... | 1793 |
|------------------------------|------|

PART III. MISCELLANEOUS.

| | |
|--|------|
| Miscellaneous (District of Columbia; Great Lakes Surveys; National Parks; Corps of Engineers, United States Army; Explorations, etc.)..... | 2035 |
|--|------|

PART IV. SPECIAL SUBJECTS.

| | |
|--|------|
| Special subjects (Bridges, Dams, Harbor lines, Wrecks, Contractors, Engineers, Abstract of laws, Floating plant, Summary of appropriations and commerce..... | 2137 |
|--|------|

| | |
|---|-------------|
| PART V. PANAMA CANAL. | Page. |
| Reports of the Isthmian Canal (Panama Canal) Commissions..... | 2357 |
| PART VI. TOPICAL INDEX. | |
| Topical index to engineering and physical data | 2623 |
| PART VII. GENERAL FINDING LIST. | |
| Consolidated finding list to Volumes I and II | 2849 |
| NOTES.—To pages 1-1791 | 2779 |

ILLUSTRATIONS.

| | |
|--|--------------|
| | Pages. |
| Colored map of the United States showing elevations and outlining districts under the care of the Corps of Engineers, United States Army..... | Frontispiece |
| District maps (see immediately following the title page of each engineering district in Volume I). | |
| The Panama Canal | 2357 |
| Engineering constructions. Seventy-two sets of photographs showing engi- neering constructions performed under the direction of the Corps of Engi- neers, United States Army | 2625 |

GUIDE TO USE OF INDEX.

Order of subjects.—The subjects considered are classified and appear in the following order:

- Rivers and harbors.
- Fortifications.
- Miscellaneous.
- Bridges.
- Dams, dolphins, and weirs.
- Harbor lines.
- Wrecks.
- Engineers.
- Contractors.
- Floating plant.
- Appropriations.
- Panama Canal.

Arrangement of data.—Rivers and harbors, and fortifications, are arranged in *geographical* order, other data in *special* or *alphabetical* order. Each subject is treated independently of the others.

Subdivisions of subjects.—Lists of titles of such subdivisions appear at the beginning of each subject. Page figures attached to data almost always refer to reports of Chief of Engineers; where they refer to other matter, this is made clear.

Explanatory notes appear at the beginning of each subject, the topical index, and the alphabetical finding lists.

Topical index.—This part of the index covers engineering, physical and miscellaneous information, the *subject names* arranged in alphabetical sequence, and is not otherwise indexed.

Alphabetical finding lists.—Several alphabetical finding lists are provided, as follows:

(a) A general or consolidated finding list for both volumes, at the back of Volume II, forming Part VII of the work, containing the names of important waterways, fortifications, bridges, etc., referred to in both volumes.

(b) A finding list at the back of Volume I, containing the names of waterways listed in Volume I, Part I of this work.

(c) A finding list for each of the following rivers—Ohio, Missouri, Mississippi, and Columbia—immediately preceding the abstracts of those rivers, containing references to each point and section mentioned in the abstracts.

Maps.—A map of the United States divided into districts appears at the beginning of Vol. I and district maps at the beginning of each river and harbor district. There is a map of the Panama Canal in Part V.

Illustrations.—Views of typical classes of construction appear in the topical part under the subject "Construction."

References.—References in all parts of the main index are to year and page of *reports* of the Chief of Engineers, etc., *except* in the alphabetical finding lists, where the paging refers to *this book*. Deviations from this rule are usually embraced in footnotes, or are inclosed in parenthesis.

ABBREVIATIONS.¹

The following is a list of the more important abbreviations employed:

| | | | |
|---------|--|-----------|-------------------------------------|
| au. | authority | misc. | miscellaneous |
| * | allotment | min. | minimum |
| an. | annual, annually | mainten. | maintenance, maintaining |
| approx. | approximate | mlw. | mean low water |
| B. | Bay, Board | n. | north |
| BE. | Board of Engineers | obstr. | obstruction |
| BERH. | Board of Engineers for Rivers and Harbors | orig. | original |
| break'r | breakwater | proj. | project |
| br. | bridge | pre. | preliminary |
| C. | commerce, commercial | pt. | point |
| constr. | construction | p. | pier |
| chan. | channel | P. | Panama |
| ¢ | cents | % | per cent |
| cy. | cubic yard | RR. | railroad |
| DO. | District Officer or Engineer | revet. | revetment |
| dw. | deep water | R. | (in blackface type) for Re- port |
| dr. | dredging | R. | river |
| DE. | Division Engineer | recom. | recommended, recommen- dations |
| e. | east | Sec. War | Secretary of War |
| est. | estimate | SS. | steamboats |
| estab. | establishment | s. | south, or supplement |
| ex. | examination | st. | stone |
| expend. | expenditures, expending | sur. | survey |
| Engrs. | Engineers (Chief of Engi- neers in full) | sq. | square |
| fav. | favorable | St. | street |
| h. | high | superstr. | superstructure |
| H. | Harbor | t. | ton, tonnage |
| imp. | improvement | Treas. | Treasury, Treasurer |
| j. | jetty | U.S. | United States, government |
| l. | long, length, lengthening | unfav. | unfavorable |
| l. & d. | lock and dam | vol. | volume |
| m. | miles | w. | west |
| max. | maximum | | |

There are other abbreviations, such as Capt. for Captain, and the like, but all these should require no explanation.

Waterway dimensions are in numerals, in the order of depth and width and length, as 18' x 100' x 12 m.

02, S49, means the annual report for 1902, supplement, page 49. P12, 403, means the report of the Panama or I. C. Commission for 1912, page 403. (See below.)

PAGE AND VOLUME REFERENCE.

The volume references are in black figures and the page references in ordinary roman. 88, 786 means the annual reports for 1888, page 786. 1900 is indicated by 00. The years from 1901 to 1912 are indicated by 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12. Some

¹ Not a few instances may be found where words are not abbreviated according to this list. These may be instances where a group of abbreviations might obscure the meaning. In most cases, however, the abbreviations in the list are employed.

of the earlier references have lower-case i's after them, in which case "i" means the first volume, "ii" the second volume, and so on. **R** always means Report.

PAGING OF THE ANNUAL REPORTS.

Table showing what page ends each part of the annual reports of the Chief of Engineers, U. S. Army, from 1866 to 1912.

| Year. | Part 1. | Part 2. | Part 3. | Part 4. | Part 5. | Part 6. | Part 7. | Part 8. |
|------------|---------|----------|---------|---------|-----------|-----------|---------|---------|
| 1866..... | a 1-58 | a 1-238 | a 1-40 | a 1-336 | | | | |
| 1867..... | 867 | | | | | | | |
| 1868..... | 1200 | | | | | | | |
| 1869..... | 650 | | | | | | | |
| 1870..... | 631 | | | | | | | |
| 1871..... | 1030 | | | | | | | |
| 1872..... | 1174 | | | | | | | |
| 1873..... | 1249 | | | | | | | |
| 1874..... | 897 | b 1-633 | | | | | | |
| 1875..... | 982 | b 1-1245 | | | | | | |
| 1876..... | 767 | b 1-700 | b 1-755 | | | | | |
| 1877..... | 836 | 1455 | | | | | | |
| 1878..... | 840 | 1354 | 1883 | | | | | |
| 1879..... | 950 | 1890 | 2399 | | | | | |
| 1880..... | 1047 | 1873 | 2556 | | | | | |
| 1881..... | 1042 | 1898 | 2877 | | | | | |
| 1882..... | 1068 | 1908 | 2856 | | | | | |
| 1883..... | 1045 | 1960 | 2413 | | | | | |
| 1884..... | 886 | 1530 | 2406 | 2903 | | | | |
| 1885..... | 916 | 1660 | 2533 | 3032 | | | | |
| 1886..... | 800 | 1392 | 2170 | | | | | |
| 1887..... | 962 | 1735 | 2525 | 3152 | | | | |
| 1888..... | 753 | 1417 | 2190 | 2941 | | | | |
| 1889..... | 845 | 1533 | 2208 | 2880 | | | | |
| 1890..... | 1035 | 1818 | 2854 | 3718 | | | | |
| 1891..... | 975 | 1499 | 1943 | 2606 | 3395 | 3948 | | |
| 1892..... | 1003 | 1958 | 2885 | 3545 | Atlas. | | | |
| 1893..... | 1140 | 1793 | 2649 | 3544 | 3919 | 4404 | | |
| 1894..... | 828 | 1332 | 2008 | 2896 | 3074 | 3591 | | |
| 1895..... | 1020 | 1724 | 2525 | 3070 | 3615 | 3956 | 4301 | |
| 1896..... | 680 | 1338 | 2060 | 2672 | 3401 | 4196 | | |
| 1897..... | 1190 | 1876 | 2648 | 3503 | 3835 | 4225 | | |
| 1898..... | 1374 | 1686 | 2414 | 3135 | 3458 | 3855 | | |
| 1899..... | 1206 | 2045 | 2724 | 3290 | 3653 | 4002 | | |
| 1900..... | 1072 | 1792 | 2306 | 2906 | 3946 | 4524 | 5008 | 5535 |

| 1911..... | 1314 | 2508 | 3365 | | | | | |
| 1912..... | 1404 | 2682 | 3988 | | | | | |

a Bound with the three other parts into one volume.

b Each part begins with page No. 1.

c Mississippi River Commission.

d Includes Missouri River Commission Reports.

* After this date there is a noticeable compression of volumes, due to less work on fortifications and to issue of reports on examination and surveys as congressional documents.

PART II.

FORTIFICATIONS.

NOTE.—The special and necessary form of the fortification reports is such that probably no two persons would index them alike in detail. This index will, however, be clearly intelligible to those who have charge of the works referred to.

GUIDE TO THE USE OF PART II.

1. Alphabetical finding list.
2. Order of arrangement of the data.
3. Explanation of subheads employed.

1. ALPHABETICAL FINDING LIST AT THE BACK OF THIS INDEX.

There is a general finding list at the back of this book, made up of names of the various localities named throughout this index, including, of course, the names of places at which fortification work has been done. Under each name of a locality reference is made to the pages of this index on which data pertaining to the place named will be found. The first page of the finding list presents details explaining further the uses of the finding list.

2. ORDER OF ARRANGEMENT OF FORTIFICATION DATA.

The data concerning fortifications, as found in the reports of the Chief of Engineers, are, in this index, arranged under the following two heads or classes:

Section 1. General data, arranged according to table below.

Section 2. Fortification works, arranged according to geographical situation (see table below).

SECTION 1—GENERAL DATA.

NOTE.—A combination of symbolic letters is given each related group of facts concerning fortifications. This is done for convenience in making reference and in arranging details.

The first letter is always F. This letter is the initial of "fortifications."

The second letter may be any one of the following:

M for Miscellaneous.

N for North Atlantic works.

S for South Atlantic works.

G for Gulf of Mexico works.

L for Great Lakes works.

P for Pacific coast works.

O for Insular or Oversea.

The third or the third and fourth letters refer to the waterways district in which the defenses are situated, and hence to the office in charge. (See frontispiece map.) An exception is made in the case of FM data, the third letter indicating sequence only.

Illustration: FMD means "fortifications," "miscellaneous data" concerning "preservation or repair," which is fourth or D in the list of general data.

Illustration: FNH refers to "fortifications," "North Atlantic Group," waterways district H.

Illustration: FPSS refers to "fortifications," "Pacific coast," waterways district SS.

MISCELLANEOUS.

| | |
|-----|---|
| FMA | Appropriations. |
| FMB | Boards. |
| FMC | Operations, general. |
| FMD | Preservation and repair. |
| FME | Range and position finders, and fire control. |
| FMF | Searchlights and electrical equipment. |
| FMG | Sites, batteries, and emplacements. |
| FMH | Supplies. |
| FMI | Torpedoes and mining. |
| FMJ | Sea walls and embankments. |

SECTION 2—FORTIFICATION WORKS.

North Atlantic works:

| | |
|-----|---------------------------------------|
| FNA | Maine and New Hampshire Group. |
| FNB | Boston Group. |
| FNC | Massachusetts and Rhode Island Group. |
| FND | Connecticut Group. |
| FNF | New York City Group. |
| FNH | Delaware River Group. |

South Atlantic works:

| | |
|-----|-----------------------|
| FSJ | Baltimore Group. |
| FSK | Washington Group. |
| FSL | Hampton Roads Group. |
| FSM | North Carolina Group. |
| FSN | South Carolina Group. |
| FSO | Georgia Group. |

Gulf of Mexico works:

| | |
|-----|---|
| FGP | East and south Florida and Tampa Group. |
| FGQ | Pensacola Group. |
| FGR | Mobile and Mississippi Sound Group. |
| FGS | New Orleans and Sabine Pass Group. |
| FGU | Galveston Group. |

Great Lakes works:

| | |
|------|----------------|
| FLPP | Detroit Group. |
| FLRR | Buffalo Group. |

Pacific coast works:

| | |
|-------|-----------------------|
| FPSS | San Diego Group. |
| FPTT* | San Francisco Group. |
| FPWW | Columbia River Group. |
| FPXX | Puget Sound Group. |

Oversea works:

| | |
|------|-----------------------------------|
| FOPR | Porto Rico Group. |
| FOPI | Philippines Group. |
| FOHI | Hawaiian Group. |
| FOPC | Panama Canal or Isthmian America. |

* In charge of a special office.

3. EXPLANATION OF SUBHEADS.

NOTE.

The names of centers of coast defense are arranged in groups in geographical order as shown in section 2, p. 1796 of this index.

Under each name the following subheads are arranged in the order in which they are placed below, and the data pertaining to each of these subheads are given in historical order, except in the case of engineering features, the latter being arranged alphabetically.

Contracts.—Important contracts, etc., the more important articles, prices, quantities, being mentioned.

Engineers.—Subdivided into: References to reports of the Chief of Engineers; Boards and their duties; Engineers in charge, showing term of service; Assistants.

Engineering features.—Cost of work, electric installations, arrangement of plant, these and other data under this head being arranged in alphabetical order.

Forts and batteries.—Such works are arranged separately in the order of mention. Under each work brief abstracts of operations by years are given.

Miscellaneous.—References to data not coming properly under the other subheads.

Preservation and repair.—References to work relating to preservation and repair.

Range and position finders.—Important items concerning these instruments.

Sea walls and embankments.—The more important data relating to these structures.

Sites.—Acquisition, lease, sale, etc., of sites.

Submarine mines.—Data relating to torpedo casemates, storehouses, cable tanks, searchlights, etc.

FORTIFICATIONS.

SECTION I.—INDEX TO GENERAL DATA.

| | |
|---|---|
| FMA APPROPRIATION. | FMG SITES, BATTERIES, AND EMPLACEMENTS. |
| FMB BOARDS. | FMH SUPPLIES. |
| FMC OPERATION—GENERAL. | FMI TORPEDOES AND MINING. |
| FMD PRESERVATION AND REPAIR. | FMJ SEA WALLS AND EMBANKMENTS. |
| FME RANGE AND POSITION FINDER AND FIRE CONTROL. | |
| FMF SEARCHLIGHTS AND ELECTRICAL EQUIPMENT. | |

FMA.

APPROPRIATIONS.

| Part. | Title. |
|-------|---|
| 1 | Appropriation, by States, etc., and by years. |
| 2 | Summary of totals for States. |

Part 1, FMA. Appropriations by States, Forts, etc., and by years.

| June 6, 1912 (Philippine Islands)..... | 500.00 | |
| | <hr/> | 2,500.00 |

Range and position finders—

Prior to 1905 appropriations for this work were made under the title
"Installation of range and position finders" (expended entirely by
the Engineer Department), as follows:

| | | |
|--------------------|------------|--------------|
| July 7, 1898..... | 150,000.00 | |
| May 25, 1900..... | 150,000.00 | |
| Mar. 1, 1901..... | 150,000.00 | |
| June 6, 1902..... | 325,000.00 | |
| Mar. 3, 1903..... | 223,500.00 | |
| Apr. 21, 1904..... | 225,000.00 | |
| | <hr/> | 1,223,500.00 |

Later appropriations have been made, under the title
"Fire control at fortifications," applicable to the
work of the Engineer and Ordnance Departments
and the Signal Corps. The amounts appropriated
and the portions thereof assigned to the Engineer
Department are as follows:

| | Appro- priated. | Assigned to Engineer Department. | |
|--------------------|--------------------|--|--------------|
| Mar. 3, 1905..... | \$1,000,000.00 | \$590,000.00 | |
| June 25, 1906..... | 700,000.00 | 217,631.37 | |
| Mar. 2, 1907..... | 900,000.00 | 432,784.81 | |
| May 27, 1908..... | 270,256.00 | 129,456.00 | |
| Mar. 3, 1909..... | 247,055.00 | 211,555.00 | |
| June 23, 1910..... | 200,000.00 | 98,690.39 | |
| Mar. 4, 1911..... | 100,000.00 | | |

Endicott Board.¹

BOARD OF ENGINEERS.

(Endicott Board.) Constituted by act of Mar. 3, 1885, to examine and report at what ports, fortifications, or other defenses mostly required, the

character and kind of defenses best adapted for each, with reference to armament and the utilization of torpedoes, mines, or other defensive appliances. R., 86, 499. (W. C. Endicott, Sec. of War, presi-

¹ This board might be considered the result of repeated invitations of the Chief of Engineers to the alarming lack of adequate fortifications in the United States. The following extracts serve as an index to the Reports of the Chief of Engineers upon the subject:

Annual report for 1880, pp. 4, 5, 6, 8, 9, 10, 11, 12, 14, 15. Report of the Chief of Engineers, United States Army, Washington, D. C., Oct. 16, 1880.

* * * * *
SEACOAST AND LAKE-FRONTIER DEFENSES.

The importance of early and reasonable expenditures for our seacoast defenses can not be more strongly urged than by reiterating what has been stated in former reports by this department, and therefore in the following remarks on the subject the arguments and the statements contained in these reports will, when necessary, be freely used.

The United States, separated from the rest of the world by wide oceans, pursuing toward all nations a policy strikingly characterized by its pacific tendency, its impartiality and justice, contracting no political alliances, confining her intercourse with the rest of the world rigidly to the letter of such temporary arrangements as are dictated by reciprocal commercial interests, might, at first view, be regarded as too remote physically and as politically too insulated to be endangered by the convulsions which from time to time disturb the nations of the earth.

Neither our geographical position, however, nor our forbearance, nor the equity of our policy can always avail us under the relation in which it is our destiny to stand to the rest of the world.

Experience has shown that even the intercourse of traffic, much as it conduces to our prosperity, can be indulged only at the risk of obliging the Nation occasionally to assume a belligerent attitude and of surrendering to the spirit of contention—which seems to govern nations as it does the natural man—a portion of its fruits. The certainty of the return of periods of embarrassment and strife with foreign nations similar in their origin to those which have visited this Nation affords a sufficient reason of itself for securing ourselves in the best manner against the more serious evils of these unavoidable collisions.

No one acquainted with our history can hesitate to ascribe much of the wantonness and duration of the wrongs we have endured to a knowledge on the part of the nations of the scantiness and inefficiency of our military and naval forces. It is certain that in our present condition injuries to our citizens abroad and insults to our flag could not be resented with that vigor and promptitude demanded by the dignity and honor of the Nation, and justified by a knowledge that our fine harbors, important navy yards, rich commercial cities, and depots for military and naval stores were guarded by impregnable fortifications and obstructions.

It concerns the honor of the United States, when involved in controversy with other powers, to be able to appeal to the sword, but that appeal should be accompanied by the consciousness that the weapon appealed to would not be inferior to that held by the adversary. This relation of inferiority may at present exist though the adversary be a comparatively weaker power.

* * * There is nothing so costly to a nation as a lack of preparation for war. In fact, to be prepared for war will often prevent it, and though we may not feel the daily imminence of war with great foreign powers, as England did, yet with incomplete or inadequately armed defenses for our great seaport cities, even the attitude of belligerency, which we not unfrequently have to assume, has not the imposing effect it should have, nor is it accompanied with a justly founded self-confidence on our own part. The neglect of suitable preparation cost France many millions of treasure, a portion of her territory, and a great humiliation. The same must inevitably happen to the United States if it does not push forward its coast defenses and provide them with guns like those possessed not only by the great powers, but even by smaller nations.

* * * * *

In the event of war with a maritime nation, if we had no well-digested system of fortifications ready for use, the cruisers and war vessels of the enemy could run into our harbors and, without landing, could

dent; Brig. Gen. S. V. Benet, Chief of Ordnance; Brig. Gen. J. Newton, Chief of Engineers; Lt. Col. H. L. Abbot, Corps of Engineers; Capt. C. S. Smith, Ordnance Department; Commanders W. T. Sampson and C. F. Goodrich, U. S. Navy, and J. E. Morgan, jr., of Pennsylvania, and E. Corning, of New York.)

Report dated Jan. 16, 1886: Contents—Where defenses are most urgent. Ports arranged in order of urgency. The defenses and their accessories. List of ports, etc. Guns on hand.

Est. for land defenses, exclusive of armament, \$55,483,000.

Est. for armament and mountings, \$37,965,000.

either destroy the property along our shores or else lay our cities under contribution. We have a seacoast line of more than 3,000 miles in extent on the Atlantic and Gulf of Mexico and 1,000 miles on the Pacific, not including Alaska, along both of which lie scattered all the great cities, all the depots of commerce, all the establishments of naval construction, outfit and repair, and towns, villages, and establishments of private enterprise without number. From these lines of seacoasts, navigable bays, estuaries, and rivers, the shores of which are similarly occupied, penetrate deep into the heart of the country. The accurate detailed charts of our harbors and channels published by the United States Coast Survey are accessible to all nations and are doubtless in their possession. There are foreign military and naval depots and arsenals in close proximity to our shores, and the arrival of armed vessels will follow in a few days or even hours the declaration of war.

* * * * *

In what way may a powerful enemy wage war against us? He may do so—

1. By attacking our commerce and navigation upon the ocean. As, however, no military preparations on the shore can avert this danger, and the means of meeting it must be purely naval, these means do not now fall under consideration; or,

2. By assailing one or more of the important points of the coast with a large military and naval force, with a view to immediate damage, or more or less protracted occupation; or,

3. By suddenly appearing with a large squadron of vessels before our principal commercial cities, laying them under contribution, and burning or carrying off the shipping, and by making powerful attacks upon our navy yards in order to destroy those establishments; or,

4. By attacks on smaller towns and establishments of the coast with small squadrons or single vessels, or with privateers, capturing or destroying the shipping therein, and levying contributions, and by like means intercepting the interior commerce within the bays, sounds, and estuaries of the coast, these lesser enterprises being often conducted under the countenance and support of considerable fleets.

The danger may take any of these forms, or all of them. And against any or all of these a naval force of equal or greater strength, if it could with any certainty be found at hand, might be an adequate resort, though it would not be the most economical. But, in the first place, we are yet, and shall be for years, inferior in our naval preparation to nations with which we are likely to be in conflict; and, next, if we were even far superior, it would be impossible to have at each of the points to be guarded a naval force sufficient to secure it, because a hostile squadron of powerful, fast-running armored steamers would fall with equal ease on either of the important points, and could with no more certainty be expected at one than at another; so that, to resist successfully, we must be ready at each and all with a force not less than that of the enemy; if less, an unavailing resistance would but augment the calamitous consequences.

* * * * *

It is truly an axiom in military science, and one fully illustrated by military history, that the worst mode of waging war, although strictly defensive, is to allow its field of action to be within the borders, and that the best is that which most frequently assumes an offensive attitude. In our case war can only be excluded from our territory by fortifications, and we can only assume the offensive through our Navy. The construction of the former secures the means of creating, equipping, and repairing the latter, and leaves it unencumbered with duties which it imperfectly performs, to the full exercise of its important and appropriate functions.

The opinion that the Navy is the true defense of the country has been so acceptable and popular that it demands a careful examination.

For the purpose of first considering this proposition in its simplest terms, we will begin by supposing the Nation to possess but a single seaport, and that this is to be defended by a fleet alone.

By remaining constantly within this port our fleet would be certain of meeting the enemy should he assail it. But if inferior to the enemy there would be no reason to look for a successful defense; and as there could be no escape for the defeated vessels, the presence of the fleet instead of averting the issue would only render it the more calamitous.

Should our fleet be equal to the enemy's, the defense might be complete, and probably it would be so. Still, hazard—some of the many mishaps liable to attend contests of this nature—might decide against us, and in that event the consequences would be even more disastrous than on the preceding supposition. In this case the chances of victory to the two parties would be equal, but the consequences very unequal. It might be the enemy's fate to lose his whole fleet, but he could lose nothing more, while we, in a similar attempt, would lose not only the whole fleet, but also the object that the fleet was designed to protect.

If superior to the enemy, the defense of the port would in all respects be complete. But instead of making an attack the enemy would in such case employ himself in cutting up our commerce on the ocean,

Est. for floating batteries, including armament,
\$18,875,000.

Est. for submarine mines and their adjuncts,
\$4,334,000.

Est. for torpedo boats, \$9,720,000.

Grand total estimate, \$126,377,800.

Appropriations recommended for first year,
\$21,500,000.

Annual appropriations thereafter, \$9,000,000.

and nothing could be done to protect this commerce without leaving the port in a condition to be successfully assailed.

In either of the above cases the fleet might await the enemy in front of the harbor instead of lying within. But no advantage is apparent from such an arrangement, and there would be superadded the risk of being injured by tempests, and thereby disqualified for the duty of defense, or of being driven off the coast by gales of wind, thus for a time removing all opposition.

In the same cases, also, especially when equal or superior to the enemy, our fleet, depending on having correct and timely notice as to the position and state of preparation of the enemy's forces, might think proper to meet him at the outlet of his own port, or intercept him on the way, instead of awaiting him within or off our own harbor. Here it must be noticed that the enemy, like ourselves, is supposed to possess a single harbor only, but having protected it by other means, that his navy is disposable for offensive operations. If it were attempted thus to shut him up within his own port, he, in any case but that of decided inferiority, would not hesitate to come out and risk a battle; because, if defeated, he could retire under shelter of his defenses to refit, and if successful he could proceed with a small portion of his force—even a single vessel would suffice—to the capture of our port, now defenseless, while with the remainder he would follow up his advantage over our defeated vessels, not failing to pursue them into their harbor should they return thither.

Actual superiority on our part would keep the enemy from volunteering a battle, but it would be indispensable that the superiority be steadily maintained and that the superior fleet be constantly present. If driven off by tempests or absent from any other cause, the blockaded fleet would escape, when it would be necessary for our fleet to fly back to the defense of its own port. Experience abundantly proves, moreover, that it is in vain to attempt to shut a hostile squadron in port for any length of time. It seems, then, that whether we defend by remaining at home or by shutting the enemy's fleet within his own harbor, actual superiority in vessels is indispensable to the security of our port.

With this superiority the defense will be complete, provided our fleet remain within its harbor. But then all the commerce of the country upon the ocean must be left to its fate, and no attempt can be made to react offensively upon the foe, unless we can control the chances of finding the enemy's fleet within his port, and the still more uncertain chance of keeping him there, the escape of a single vessel being sufficient to cause the loss of our harbor.

Let us next see what will be the state of the question on the supposition of numerous important ports on either side instead of a single one, relying on our part still exclusively on a navy.

In order to examine this question we will suppose our adversary to be fortified in all his harbors and possessed of available naval means equal to our own. This is certainly a fair supposition, because what is assumed as regards his harbors is true of all maritime nations except the United States, and as regards naval means it is elevating our own strength considerably above its present measure and above that it is likely to attain for years.

Being thus relatively situated, the first difference that strikes us is that the enemy, believing all his ports to be safe, without the presence of his vessels, sets at once about making our seas and shores the theater of operations, while we are left without choice in the matter; for if he think proper to come, and we are not present, he attains his object without resistance.

The next difference is, that while the enemy is certain to fall upon the single point, or the many points he may have selected, there will exist no previous indications of his particular choice, and consequently no reason for preparing our defense on one point rather than another; so that the chances of not being present and ready on his arrival are directly in proportion to the number of our ports; that is to say, the greater the number of ports, the greater the chances that he will meet no opposition whatever.

Another difference is, that the enemy can choose the mode of warfare as well as the plan of operations, leaving as little option to us in the one case as in the other. It will be necessary for us to act in the first instance on the supposition that an assault will be made with his entire fleet; because, should we act otherwise, his coming in that array would involve both fleet and coast in inevitable defeat and ruin. Being in this state of concentration, then, should the enemy have any apprehensions as to the result of a general engagement; should he be unwilling to put anything at hazard, or should he, for any other reason, prefer acting by detachments, he can, on approaching the coast, disperse his force into small squadrons and single ships, and make simultaneous attacks on numerous points. These enterprises would be speedily consummated, because as the single point occupied by our fleet would be avoided, all the detachments would be unopposed, and after a few hours devoted to burning cities, or shipping, or public establishments and taking in spoil, the several expeditions would leave the coast for some convenient rendezvous, whence they might return, either in fleet or in detachments, to visit other portions with the scourge.

Is it insisted that our fleet might, notwithstanding, be so arranged as to meet these enterprises?

As it can not be denied that the enemy may select his point of attack out of the whole extent of coast, where is the prescience that can indicate the spot? And if it can not be foretold, how is that ubiquity to be imparted that shall always place our fleet in the path of the advancing foe. Suppose we attempt to cover

Part 5, FMB. National Coast-Defense Board (Roosevelt Board, or "Taft Board").

Appointed by President Roosevelt, Executive order, Jan. 31, 1905. * * * "a joint board of officers of the Army and Navy 'to recommend the armament, fixed and floating, mobile torpedoes,

submarine mines, and all other defensive appliances that may be necessary to complete the harbor defense with the most economical and advantageous expenditure of money." * * * The board was

the coast by cruising in front of it, shall we sweep its whole length, a distance scarcely less than that which the enemy must traverse in passing from his coast to ours? Must the Gulf of Mexico be swept, as well as the Atlantic or, shall we give up the Gulf to the enemy? Shall we cover the southern cities, or give them up also?

The uncertainty of the point on which an enemy may direct his attack, the suddenness with which he may reach it, and the powerful masses which he can concentrate at a distance out of our reach and knowledge, or suddenly, and at the very moment of attack, require that every important point be duly prepared to repel his attempt, or retard it, until reinforcements can arrive and adequate means of resistance be organized. By land we are acquainted with the motions of an enemy, with the movements and direction of its columns; we know the roads by which he must pass; but the ocean is a vast plain without obstacle there his movements are made out of our sight, and we know nothing of his approach until he is already; within the range of the eye. We must, unquestionably, do one of two things—either relinquish a great extent of coast, confining our cruisers to a small portion only, or include so much that the chances of intercepting an enemy would soon be out of the question.

But what are the enemy's means? They consist of his whole seagoing force which he concentrates for the sake of inflicting the blow.

"From the nature of maritime operations, such a fleet could bring its whole strength to bear upon any particular position, and by threatening or assailing various portions of the coast, either anticipate the tardy movements of troops upon land and effect the object before their concentration, or render it necessary to keep in service a force far superior to that of the enemy, but so divided as to be inferior to it on any one point." [Secretary of War Cass.]

On the impracticability of covering even a small extent of coast by cruising in front of it, or in other words, the impossibility of anticipating an enemy's operations; of discovering the object of movements of which we get no glimpse and hear no tidings; and of seeing the impress of his footsteps on the surface of the ocean, it would be well to consult experience.

* * * * *

Our fortifications and torpedoes, then, must close all of our important harbors against an enemy, and secure them to our military and commercial marine; second, must deprive an enemy of all strong positions where, protected by naval superiority, he might fix permanent quarters in our territory, maintain himself during the war, and keep the whole frontier in perpetual alarm; third, must cover the great cities from attack; fourth, must prevent, as far as practicable, the great avenues of interior navigation from being blockaded at their entrances into the ocean; fifth, must cover the coastwise and interior navigation; and sixth, must protect the great naval establishments. In these places are to be found objects that are in every sense of the highest value. On the one hand we see accumulations of military and naval material, and structure for naval accommodation that could not be replaced during a war, which are of indispensable necessity and of great cost; and on the other hand, the untold wealth of great cities. As these objects must be great in the eyes of the enemy—great for him to gain and for us to lose—corresponding efforts on his part must be looked for and guarded against.

There should now be stated, in a few words, our system of seacoast defense, a system steadily pursued from the first by this department, but modified from time to time as new improvements in attack and defense of coasts have been introduced.

Fortifications must command from the shores exterior to our harbors all the waters from which the enemy can reach our cities and navy yards with his shot and shell; the harbor mouths and all the narrow passes within them, must also be occupied, and if nature has not afforded all the positions deemed requisite, others must, if practicable, be formed artificially. Fortifications should succeed each other along the channels of approach and in our harbors, so that the enemy may nowhere find shelter from our fire while lying within our harbors, should he succeed in passing the outer lines of works. The harbor mouths and channels must be obstructed by lines of electrical torpedoes for holding the enemy's vessels under fire of the fortifications, previously constructed and stored in the latter, and laid, on the advent of war, in systems, the plans of which have been carefully elaborated in time of peace, by studies of the local charts and tidal currents, each harbor having its own system recorded in this department. The wires, for conducting the current from the electric apparatus on shore, must at the same time be laid securely in subterranean galleries carried out to deep water, and the electric machines themselves—the hearts of the torpedo system—must be placed in chambers within the fortifications, hidden from the enemy, and secured beyond all peradventure from his direct and curved fire. These galleries and chambers must be covered with heavy masonry arches and great masses of earth, and the former, to be efficient, must be indurated, and the latter compacted by time. The torpedo lines must be served by officers selected from the Engineers and the Artillery, assisted by detachments from a torpedo corps of intelligent and skilled Engineer soldiers, and both officers and men must be thoroughly instructed in the theory and practice of electricity and torpedo obstructions, for they must know how to render the torpedoes instantly harmless for our own vessels, or active against an enemy's.

further instructed "to extend its examinations so as to include estimates and recommendations relative to defenses of the insular possessions" and to "recommend the order in which the proposed defense shall be completed, so that all the elements of harbor defense may be properly and effectively coordinated."

Report dated Feb. 1, 1906. Printed as Senate Document 248, 59th Congress, first session.

CONCLUSIONS OF THE BOARD:

The board, after carefully weighing the relative commercial and strategic importance of the ports and harbors of the United States and the insular possessions, modifies and revises the list of ports submitted by the Endicott Board as requiring defense. The revised list below is arranged in geographical order.

Heavy mortars must be placed in large numbers to command all those positions where an enemy is likely to anchor within their range, either for the purpose of tampering with, or destroying our torpedo lines, or shelling our cities and public depots of military and naval supplies. The efficiency of mortar batteries against shipping is acknowledged by all military engineers; it is fully appreciated by the navies of all nations and they are comparatively inexpensive.

Our guns and mortars must be capable of piercing the sides of his ironclads and of breaking in his decks, and they must be mounted in numbers sufficient to make it impossible for any of his fast-running war steamers to get past our works.

* * * * *

—H. G. WRIGHT, *Chief of Engineers, Brig. and Bvt. Major General.*

Annual report for 1884, 4, 5, 6, 7, 8, 9. Report of the Chief of Engineers, United States Army. Washington, D. C., Oct. 15, 1884.

* * * * *

SEACOAST AND LAKE-FRONTIER DEFENSES.

It would doubtless be superfluous at this late date to explain the principles upon which the system of our seacoast fortifications should be based but for the persistent misrepresentations made by individuals whose positions unfortunately enable them to mislead public opinion.

The sole object of seacoast forts and batteries, as constructed by the Corps of Engineers, has been to prevent hostile fleets from approaching near enough to our important seaports to destroy shipping, public establishments, such as navy yards, etc., and lay our cities under contribution. The contribution which could be levied from New York alone would probably pay four or five fold the cost of all the fortifications of the important harbors of the country.

* * * * *

The present system, by the use of torpedoes—that is, submarine mines anchored in the channels—enables the defense to stop the ingress of hostile fleets until the mines shall have been removed, or, at least, the means of exploding them destroyed.

These mines consist of a shell of iron inclosing a charge of dynamite, guncotton, or explosive gelatin, and are so arranged as to make it impossible for a vessel to enter without touching one or more.

The explosion is regulated by electric currents communicated from the shore through cables, so as to take place from simple contact of the vessel with the torpedo, or by the act of the electrician, as he may choose; so that a friendly vessel shall pass over unharmed, while that of an enemy immediately following would be destroyed.

But unless these lines of torpedoes are defended by guns of such power as to pierce the armor of ironclads, they may be countermined and removed with impunity, or the cables and other electrical communications may be dragged for and the whole system rendered innocuous.

The rooms which contain the electric apparatus and whence the cables start, as well as the tunnels through which these pass into the water and communicate with the mines, require to be shot and shell proof, for a solitary missile penetrating either the operating room or the cable tunnel might destroy electric connection with the mines and render the entire system useless.

* * * * *

The persons who tell us to wait for war, and then to improvise a sand heap as a fort without making any provision of emplacements for the guns or for their service, either assume the people to be profoundly ignorant, or are so themselves.

* * * * *

Some of the guns on land should at least equal the most powerful afloat on the fleet. The armor on land should be much heavier than that carried by ships. The heavier guns of the batteries should be so protected as not to be reached except by a shot coming through the port. It would be very bad judgment, in order to save a little armor, not to make the more important batteries invulnerable to the fire of the fleet.

* * * * *

Those persons are greatly in error who imagine that by diplomatic delays war may be averted until proper preparations for defense can be made. Were we as well prepared as many other nations, this might be true; but while a diplomatic delay of a few months might be necessary for a naval power to commission

its ships, it would require a great many years for us to get together modern guns, without reference to constructing forts and batteries for their reception.

Past events by no means justify the assertions made that our cotton and grain have become so necessary to the nations that they could not engage in war with us for a short period without the interruption of their supplies of these articles. It seems to be forgotten that a descent upon our coast, to hold our unprotected cities under the guns of a hostile fleet, would consume but a few months, and in the meantime cotton and grain in sufficient quantity might be obtained elsewhere. Let it be well understood that the modern system is to make war sudden, sharp, and decisive, and to make the beaten party pay expenses.

If a future struggle for the supremacy in shipping should result in war, let us at least enter into it with our harbors and cities well protected, so that our merchantmen, and even naval vessels, may have places of refuge without fear of capture at our wharves.

Should, however, the evil day come and find us without modern guns, without sufficiency of torpedoes, without fortifications except the sand heap which forms the staple quotation, without emplacements for the guns if we had them, or magazines, or machinery for loading or maneuver, or any facilities whatever for shelter of guns and cannoners against shells and machine guns, it is to be feared we would not cordially welcome the prophet who, having opposed timely preparations promised that in the supreme moment, when the hostile ironclads, whatever their strength and power, should approach the harbor of New York, they would be turned back somehow, without explaining how, by "Yankee energy, Yankee skill, Yankee inventive genius." It is to be feared that the first flash of the monster guns would dissipate this oratorical vapor emitted when the danger was far off, and leave the deluded hearers to realize the fate of the blind who follow the blind.

—JOHN NEWTON, *Chief of Engineers, Brig. and Bvt. Maj. Gen.*

Annual report for 1888, 5. Report of the Chief of Engineers, United States Army. Washington, D. C., Oct. 1, 1888.

SEACOAST AND LAKE-FRONTIER DEFENSES.

Neglect of any structure, however massive or well built, results in more or less rapid deterioration, and we find to-day everything connected with our permanent defenses, which are dependent upon annual appropriations for their maintenance and repair, going to rack and ruin; slopes overgrown with grass and weeds and gullied by the rain; walks and roads ragged and untrimmed and full of holes and breaks; ditches and drains filled up or fallen in, and pools of stagnant water on the parades and in the casemates; the sewers in bad order, with the consequent evils; mortar and cement falling from the joints of masonry for want of repointing; timber gun and ammunition platforms rotten or decayed, and permanent concrete or masonry platforms settling or out of plumb, thus preventing the proper service of the guns; casemates and quarters leaky, unhealthy, and uninhabitable; magazines damp and useless; revetment walls on water fronts falling down, and waves making serious and rapid encroachments on valuable ground, thus impairing eligible sites for future works, and generally about the ungarrisoned forts an appearance of total abandonment and decay, and from the commanders of garrisoned forts continued and urgent appeals to keep the works in proper repair for the comfort and convenience of the garrison and the efficient use of the armaments.

—THOS. LINCOLN CASEY, *Brig. Gen., Chief of Engineers.*

GUNS.

The gun defense of a port of first importance should consist of guns of not less than 12-inch caliber, 12-inch mortars, and suitable rapid-fire guns for the defense of the mine fields.

Ten-inch guns are sufficient to cover channels liable only to cruiser attack.

Six-inch guns should be used for the protection of places subject to naval raids and the special case of mine fields at distant ranges.

Three-inch guns should be used for the protection of mine fields at ordinary ranges.

No fixed rule for determining the number of guns required to give an adequate protection, and in arriving at a conclusion as to what should constitute the defense, the following considerations have been accepted, which tend to diminish the number recommended by the Endicott Board without decreasing in any way the protection to the harbors.

1. The development of a system of range finding, fire control and direction, much more efficient than could be anticipated at the time of the Endicott Board, which gives the land gun a very great advantage in accuracy of fire over the gun afloat, especially at the longer ranges.

2. The increased power developed in guns of a given caliber.

3. The adoption of the disappearing carriage for the higher-caliber guns, thereby attaining an increased rate of fire.

4. Ships engaged in an attack of a fortified position must have ample room in which to turn, and as war vessels are being constructed larger and of deeper draft, the defenses required for narrow and shallow channels, whether natural or dredged, may be diminished, since the heavier ships are excluded.

5. If the armament will compel the enemy to land in order to effect its capture, it has fulfilled its function, and any increase in armament thereafter is an unwarrantable expense in material and personnel.

SUBMARINE MINES AND TORPEDOES.

Are essential features. Suitably equipped boats and barges necessary. Boats already employed insufficient. Claims of Navy to command of seagoing defenses recognized, and also the general inadvisability of assigning naval units to special stations. Because of conditions in Long Island Sound, Puget Sound, and Golden Gate defenses, submarine mines can not be relied upon. Navy should assign submarine boats or other suitable vessels to such points.

Board recommended experiments with automatic torpedoes.

ELECTRICAL APPLIANCES.

Central plant obligatory, with reserve, scattered, or individual smaller units.

SYSTEM OF RANGE FINDING, FIRE CONTROL AND DIRECTION.

Central fire control essential. Expense a very small percentage of the cost of the whole fortifications controlled. Suitable boats and appliances necessary for submarine cable system.

SEARCHLIGHTS.

Experience has emphasized their importance.

SECURITY AND INFORMATION.

Defenses should communicate with each other with suitable signaling apparatus, including wireless telegraph, military, or commercial lines. Special report submitted laying stress on U. S. control of communications with Isthmian America.

GOVERNMENT ENCOURAGEMENT OF PRIVATE ESTABLISHMENTS IN THE SUPPLYING OF WAR MATERIAL FOR COAST DEFENSE.

Experience has not shown the necessity for the Government's embarking in the manufacture of any class of material which has thus far been furnished exclusively by private establishments.

There is certain ordnance material for which there is an increased need in time of war, and it is imperative that adequate provision should be made to supply the consequent demand. This can be accomplished only by establishing in advance plants in excess of peace requirements in which, of necessity, must be partially unemployed in time of peace. It is unreasonable to expect the private manufacturers to maintain such plants.

HARBOR FLOATING DEFENSE.

An adequate naval battle fleet required. Floating defense scheme advocated by the old Endicott Board deemed unwieldy and of little value.

ARMAMENT RECOMMENDED.

The board presents a table covering armament details ranging from 16-inch guns downward, embracing mortars, submarine defenses, power plants searchlights, etc.

Total of detailed estimates—home ports \$50,879,339; insular ports, \$19,873,895 (including ammunition, \$2,900,000); Isthmian Canal ports \$4,827,682.

ORDER IN WHICH DEFENSES SHOULD BE COMPLETED.

(a) Reserve ammunition supply; (b) fire-control and power installations for existing works; (c) torpedo defense to be completed. Urgent that additional guns and emplacements recommended for important channels should be commenced at an early date in view of the number of years required to complete such work.

Among the places recommended to be defended are the following, in the order desirable:

- Entrance to Chesapeake Bay.
- Eastern entrance to Long Island Sound.
- Puget Sound.
- Subic Bay.
- Guantanamo.
- Entrance to Manila Bay.

Adequate personnel should be provided.

Order in which the actual work should be taken up should be left to discretion of the Chief of Engineers, with cooperation, etc., of Chief Signal Officer, Chief of Ordnance, and Chief of Artillery.

MEMBERS OF THE BOARD.

Wm. H. Taft, Secretary of War, president of the board; Adna R. Chaffee, lieutenant general, U. S. Army; J. C. Bates, major general, U. S. Army, Chief of Staff; Charles M. Thomas, rear admiral, U. S. Navy; J. P. Story, major general, U. S. Army; A. W. Greely, brigadier general, Chief Signal Officer; William Crozier, brigadier general, Chief of Ordnance; A. Mackenzie, brigadier general, Chief of Engineers; Samuel M. Mills, brigadier general, Chief of Artillery; C. S. Sperry, captain, U. S. Navy; George W. Goethals, major, General Staff, secretary of the board.

CONTENTS OF REPORT.

Message of President Roosevelt to Congress, Mar. 5, 1906; letter from Secretary of War Wm. H. Taft, transmitting report of the board; report of the board.

Report of Committee No. 1 composed of: Maj. Gen. John P. Story, U. S. Army; Brig. Gen. William Crozier, Chief of Ordnance; Brig. Gen. Alexander Mackenzie, Chief of Engineers; Brig. Gen. Samuel M. Mills, Chief of Artillery; Capt. Charles S. Sperry, U. S. Navy; Maj. George W. Goethals, General Staff, recorder. Reporting on the following subjects: (1) The study of exposed ports of our sea-coast, including insular possessions, and information as to increase of existing defense required and additional ports and harbors to be defended. (2) The number and caliber of high-power and, rapid-fire guns necessary to be emplaced to give a reasonably good defense at all points recommended for defense,

with the cost of said guns, mounts, and emplacements. (3) Service and reserve ammunition supply and storage magazines. (4) The capacity of gun and gun-carriage works in the United States.

Report of Committee No. 2 composed of: Maj. Gen. John P. Story, U. S. Army; Brig. Gen. Adolphus W. Greely, Chief Signal Officer; Brig. Gen. William Crozier, Chief of Ordnance; Brig. Gen. Alexander Mackenzie, Chief of Engineers; Brig. Gen. Samuel M. Mills, Chief of Artillery; Capt. Charles S. Sperry, U. S. Navy; Maj. George W. Goethals, General Staff, recorder. Reporting on the following subjects: (1) Torpedo defense, fixed and automobile. (2) Power plants and use of electricity for posts, armament, and accessories. (3) Installations for fire control. (4) Searchlights. (5) Security and information.

Report of Committee No. 3 composed of: Rear Admiral Charles M. Thomas, U. S. Navy; Maj. Gen. John P. Story, U. S. Army; Brig. Gen. Adolphus W. Greely, Chief Signal Officer; Brig. Gen. Alexander Mackenzie, Chief of Engineers; Brig. Gen. Samuel M. Mills, Chief of Artillery; Capt. Charles S. Sperry, U. S. Navy; Maj. George W. Goethals, General Staff, recorder. Reporting on: Floating defenses, consisting of retired battleships, monitors, etc., for defense of harbors, particularly of wide entrances, and the auxiliary use of scout boats, torpedo boats, and submarine boats; the number and cost of such boats and other floating defenses.

FMC. OPERATIONS ON DEFENSES IN GENERAL, 1866-1912.

(See also FMA, p 1801, of this Index.)

1870. Results of a series of experiments with modern projectiles upon iron shields and earth and sand parapets. **70**, 4. Co. G. Barnard, Lt. Col. H. G. Wright, and Capt. P. S. Michie ordered to determine by actual inspection the extent to which iron has been introduced into seacoast defenses by the maritime powers of Europe. **70**, 10.

1872. BE. organized in June, 1865. The projects for the application of torpedoes to H. defense was considered, the commanding officer of the engineer battalion being a member for that purpose. **72**, 25.

1873. \$300,000 app. for torpedoes for H. defense and preservation of the same, and for obtaining the latest information concerning the electrical apparatus, experiments, conditions of service, and the systems of torpedo defense in other countries. Maj. T. L. Casey and H. L. Abbot ordered to Europe to obtain this information. **73**, 25.

1874. Some results of torpedo experiments. **74**, 30.

1875. Torpedo experiments continued, number of trained men necessary to plant mines. **75**, 29.

1876. Experiments with the iron target, torpedo crate, torpedo cases, etc. **76**, 30. Comparison of defensive armament with that of an enemy's offensive armament. Cost of some of the British ships of war. **76**, 5; **79**, 6.

1877. Torpedo trials: Submerged ring, torpedo target, torpedo material, and reduction of data, with recom. **77**, 25. Recom. of the board. **77**, 27; **78**, 31.

1878. Project for the year 1879-80 presented. **78**, 34. Torpedo trials, submerged ring, torpedo target, torpedo cases, circuit closers, the telephone, with recom. **78**, 30. Current observations in reference to torpedo defense, by Lt. A. H. Payson. **78**, 1304.

1879. Some results of the analysis of subaqueous explosions and of electrical fuses, with recom. **79**, 35.

1880. Seacoasts, proper method of defense. Comparison of the methods adopted by other countries for seacoast defenses. **80**, 4; **81**, 4. Results of investigations of the sympathetic explosions of dynamite and other experiments. **80**, 57. Plans for coast defenses, questions on R. and H. imp., torpedo defense, with results of the investigations and recom. of the board. **80**, 54; **81**, 56.

1881. Report by Lt. Col. Q. A. Gillmore on the condition of our seacoast defenses and the importance of strengthening them, involving the following subjects: An unprotected seacoast; character of the attack; requirements of a good defense; functions of the Regular Army and militia; defense by a H. fleet alone; defense by fortifications and their accessories; a perfect defense; torpedo boats and their achievements; with a brief description of Buffington's and King's counterpoise gun carriages, with drawings. **81**, 399.

1882. Report by Lt. W. H. Bixby of a journey made, 1881-82, in Belgium, Holland, Germany, and England, to obtain information in relation to turrets, armor plate, and the service of heavy guns of seacoast defenses. **82**, 435. Coast defenses, torpedo defenses, and other subjects considered. **82**, 56. Report, dated Nov. 30, 1881, on the condition of the fortifications, and what number of them, if any, could be dispensed with. **82**, 411.

1883. Seacoast and lake frontier defenses considered. Estimated cost of fortifications of eight principal ports, \$60,000,000. Itemized estimate of app. required for 1885-86. **83**, 4. Coast defense, torpedo defense, etc., considered. **83**, 15.

1884. Coast defenses, consideration of. Elements of defense for the entrance to a H. given, and est. cost of heavy guns and emplacements needed for localities mentioned. \$75,000 allotted for torpedo defense, experiments continued with explosives, with results and est. required. Summary of operations of the board: Aug. 30, 1884, the board submitted estimates for heavy guns and emplacements for the places given. **84**, 55.

1885. Preparation of report by Capt. Bixby upon his investigations in Europe. **84**, 421. Operations restricted to those necessary for the preservation and repair of existing works. The subject of the defensive system of the country, as far as regards the ports at which fortifications or other defenses were most urgently required, referred by Congress to a board of which the Sec. of War was president. Est. cost for the modification and repair of existing works for 1886-87, \$1,274,000. **85**, 4. Capt. Bixby's report upon investigations in Europe completed. **85**, 421. Fortifications, R. and H., coast defenses, and torpedo defense considered; experiments made with the Sims movable torpedo and new explosives. **85**, 48.

1886. Coast defense, torpedo defense, with results of experiments. **86**, 48. Comparisons of fortifications of the present day, both for offense

and defense, with those of 1880. The largest gun in service, 1860, was the 10-inch Rodman smooth bore, the energy of whose projectile was 2,000 f.-t., while the guns of the "present" day deliver 45,000 f.-t. of energy, and are steadily increasing in power. Discussions of a naval attack and coast defenses, localities given in order of urgency for defensive armament. The defenses and their accessories discussed, comparison of the U. S. 12-inch B. L. rifle, cast iron, and the Krupp's 12-inch B. L. rifle, steel; other calibers discussed; torpedo system considered among the most important means of conducting an active defense of the coast. List of ports, with description of fortifications and other defenses with reference to armament, mines, torpedoes, etc. Practical measures for obtaining the appliances for defenses. Recapitulation of est. 86, 499-525.

1887. Est. for constr. of gun and mortar batteries, torpedo casemates and galleries, and for purchase of torpedo material for the defense of the chief seaports. 87, 4.

1888. Acts of 1876-80 app. each year for the protection, preservation, and repair of fortifications and other works of defense, \$100,000; acts of 1881-84, an., \$175,000; and act of 1885, \$100,000. This latter was the last app. and was practically exhausted by the end of the year for which it was app. Est. of app. required for 1889-90, \$4,952,000. 88, 4.

1889. Extract from report of Board of Engineers with reference to the existing contracts for making armament. Main features of the proj. of the board on fortifications, 1885, and permanent Board of Engineers, with est.; \$200,000 app. for torpedoes for H. defense and \$250,000 for casemates and cable galleries for operating submarine mines. Repair and preservation of Fort Marion, St. Augustine, Fla., advised; \$117,000 app. for sea walls and embankments. Est. given of app. required. 89, 4.

1890. Est. for defensive works; \$117,000 app. for sea walls and earth embankments at Fort Niagara, Davids Isld., and Governors Isld., N. Y. 90, 4.

1891. Localities named at which app. are to be expended and where defensive works are in progress. 91, 4.

1892. Est. and proj. given. 92, 4.

1893. Proposed new works. Table giving locality and armament for which funds have been allotted. 93, 4.

1894. Allotments made. 94, 4, 11.

1895. Proj. for defense prepared for localities named. Places named where allotments have been made for emplacements and additional platforms; 25 casemates completed at places named, and 3 more being built; \$20,000 app. for submarine mine material and necessary appliances. 95, 4. Places named where allotments have been made for beginning new works. 95, 12. Places named where work of preservation and repair of fortifications

has been carried on during the year. 95, 13. \$150,000 app., 1894, for sites for defenses at Narragansett B., Baltimore H., and Charleston H. 95, 14.

1896. List of places named where detailed proj. for artillery defenses have been prepared. Use made of the existing old-type fortifications. 96, 7. \$500,000 app. for sites; negotiations in progress. Work in progress on sea walls and embankments. Emplacements named where allotments have been made. Statement showing the conditions of the various emplacements Sept. 15, 1896. Total armament proposed in the proj. for defenses. 96, 10. \$100,000 app. for submarine mine defense; 28 casemates completed, 1 more being built. 96, 11.

1897. Localities named where title to sites has been obtained. Table giving emplacements provided for. Work in progress at 22 ports. Objections given to the contract system as applied to fortifications. Statement showing the condition of the various emplacements at the close of the fiscal year. 97, 10. \$150,000 app. for submarine mine material; 4 casemates, 2 special torpedo storehouses and storerooms being built. 97, 11.

1898. Localities named where proj. for permanent and temporary coast defenses have been prepared. Statements of app. for gun and mortar batteries and of the type of gun, with total guns and total emplacements provided. Tables giving total number of emplacements provided for, and either completed or under constr. at the beginning of the year. Nearly all the guns mounted transferred to the artillery. 98, 8. Discussions of the duties of a fortress commander as applied to the defenses of New York H., by Brig. Gen. G. L. Gillespie. 98, 579.

Dynamite batteries: These batteries constr. under the Ordnance Department in past years at locations named; \$150,000 app. in 1898 for work in San Francisco H.; work in progress. Localities given where batteries will be erected. 98, 11.

Submarine mines: List of some of the torpedo material purchased.

Preservation and repair of fortifications: Necessary minor repairs made.

Sea walls and embankments: \$55,000 app. for repairs at places named.

Sites: Localities given where title has been obtained to sites.

National defense: Allotments and their objects for 1898 given. 98, 14.

1899. Thirty localities named where proj. for defense have been adopted, also places where considerable study has been given coast defenses of insular possessions. Work has been carried on at 25 localities, at nearly all of which sufficient heavy guns and mortars now installed permit of an effective defense against naval attack. Temporary batteries maintained till the close of the war with Spain. 99, 9.

Gun and mortar batteries: The contract work authorized by Congress completed except one contract. Discussion of contract work.

Dynamite batteries: Work completed at San Francisco; provision yet remains for work at Sandy Hook, and other places given where contracts have been made under act of Sept. 22, 1888.

Range and position finders: The question of the type of finder best adapted not yet definitely settled. 99, 12.

Preservation and repair of fortifications: Repairs confined mainly to engineer material in the new seacoast batteries. The question of waterproofing magazines to be further considered.

Supplies for seacoast defenses necessary for operating electric light and power plants, no funds available. 99, 14.

Sea walls and embankments: \$2,500 app. Work carried on at Fort Schuyler. 99, 14.

Sites: \$300,000 app., negotiations in progress at places given. 99, 14.

Submarine mines: \$1,386,000 app. for torpedo material and the planting and maintaining of the mine fields; \$50,000 app. for torpedoes for H. defense, and applied to purchase of additional torpedo material and constr. of additional storage facilities for material on hand, and torpedo experiments. The practical experience gained with the adopted torpedo system during the war with Spain invaluable. 99, 15.

National defense: App. and purposes given. 99, 15.

¹ 1900. Localities named where proj. for defense have been adopted. 00, 6. \$1,800,000, the est. cost for defense of San Juan, Porto Rico. Rapid increase in the resisting power of armor plate in ship constr., necessitating corresponding changes in the details of coast defenses. The seacoast defenses are now about 50% completed. 00, 7.

Gun and mortar batteries: App., 1890 to 1900, \$22,142,212.62, not including \$306,805.04 for national defense. Tables giving type of gun and carriage, with total number of each provided, also emplacements provided. Table giving total number of emplacements of every kind provided for by all app., also their condition. 00, 7.

Dynamite batteries: \$180,000 app. for pneumatic dynamite batteries; work begun at Sandy Hook, and plans in progress for other places given. 00, 10.

Range and position finders: \$150,000 app. for 2 additional range-finder stations; 30 previously constructed; total number projected, 177. 00, 10.

Preservation and repair of fortifications: Water proofing, and care of engineer material the principle work. 00, 11.

Supplies for seacoast defenses: \$25,000 app. for supplies for light and power plants. 00, 11.

Sea walls and embankments: \$200,000 app. for places named; work in progress. 00, 11.

Sites: \$200,000 app.; sites bought and proceedings instituted for others. 00, 12.

Submarine mines: \$50,000 app.; work in progress equipping all Hs. with a full complement of torpedoes. 00, 12.

1900-01. Continuance of study of existing torpedo system in the light of reports submitted by officers of the Corps of Engineers in charge of submarine-mine defenses during Spanish-American War. 01, 5, 695.

1900-01. Proj. for 31 localities adopted. Likewise given. Detailed proj. for defense of entrance to Chesapeake B. at Cape Henry, Va., approved Sec. of War. Several additional localities under consideration. Study of defenses of Porto Rico and Hawaiian Islands. Est. for San Juan, P. R. \$1,800,000 prepared, pre. proj. for Pearl H. at Honolulu, H. T., available. 01, 6. Defenses of U. S. about 50% done. During past year considerable progress made toward installation of adequate rapid-fire armament. Existing app. proj. for seacoast defense contemplate mounting about 464 heavy guns of 8, 10, 12, and 16 inch caliber; about 1,041 R. F. guns from 6-pounder to 6-inch caliber, and of about 704 mortars; total cost estimated \$50,000,000. Up to present time \$23,757,009.00 app. \$992,000 spent for reconstr. and repair of damaged fortifications at Galveston in hurricane of Sept. 8, 1900. Table showing guns and carriages provided for by Ordnance Department and emplacements provided for by Engineer Department. During year following armament added: Fifteen 12-inch, seven 10-inch, eleven 8-inch, 35 R. F. guns, and 23 mortars. Existing contract Venab Constr. Co., Atlanta, Ga., for constr. of gun and mortar batteries at Key West, Fla., abandoned. Work readvertised and let to L. L. Leach & Son.

¹ Up to June 30, 1900, provision had been made for emplacing 309 heavy guns, 368 rapid-fire guns, and 372 12-inch mortars.

The status of emplacements for which funds had been provided by Congress up to June 30, 1900, was as follows:

| | 12-inch. | 10-inch. | 8-inch. | Rapid fire. | 12-inch mortars |
|-------------------------|----------|----------|-----------------|------------------|-----------------|
| Guns mounted..... | 57 | 105 | ² 75 | 53 | 2 |
| Ready for armament..... | 23 | 8 | 16 | ³ 189 | |
| Under construction..... | 13 | 9 | 3 | 81 | |
| Not yet begun..... | | | | 45 | |
| Total..... | 93 | 122 | 94 | 368 | 3 |

² Ten of these, mounted temporarily, have since been dismounted.

³ Including seventy 6-pounders not requiring permanent emplacements.

Chicago, Ill. Est. of \$4,000,000 sub. for contr. work on gun and mortar batteries in accordance with proj. Table of guns provided and emplacement work done. 01, 5-10.

1901-02. Board on torpedo system dissolved. Records sent to Artillery School of Submarine Defense, Willets Point, N. Y. 02, 6. Defense of Great Lakes and St. Lawrence R. under consideration. Proj. for defense of Porto Rico, Hawaii, Guam, Manila, and Subig B. approv. by Sec. of War. Defense board similar to Endicott Board to devise a modern-defense scheme necessary due to rapid development of defense and attack methods since Endicott Board. Existing proj. for seacoast defenses comprise 356 heavy guns of 8, 10, and 12 inch caliber, 1,294 R. F. guns from 2.24 to 6 inch caliber, and 544 mortars. Total engineering cost, \$50,000,000. Act May 25, 1900, does not permit constr. of mortar batteries. Summer, 1901, satisfactory tests made of mortar batteries. 02, 8. Table of guns provided and emplacement done. 02, 9. Ordnance Department designing 5 R. F. guns to fit emplacements for Brown segmental guns. 02, 10. Added during year: Eight 12-inch guns, three 8-inch guns, 20 R. F. guns, and 34 mortars. 02, 11. Contract for Key West work let L. L. Leach & Son (failed), annulled. Work to be done by hired labor and charged against contractor's bondsmen. 02, 11. Est. \$4,000,000 made for continuing constr. gun and mortar batteries. 02, 11.

1902-03. In the absence of legislation, a mixed board of Engineer and Artillery officers by au. Sec. of War has partly planned and reported upon emergency defense of most important insular Hs. Suggested to add a naval officer and that board meet in Washington, D. C. 03, 8. Defenses more than 50% done. Existing proj. for defense comprise 358 guns of 8, 10, and 12 inch caliber, 1,294 R. F. guns from 2.24 to 6 inch caliber, and 532 mortars. 03, 9. Added during year: Twelve 12-inch, three 10-inch, four 8-inch, 70 R. F., and 31 mortars. 03, 12. Est. of \$4,250,000 for contr. work. 03, 12.

1904. Existing proj. calls for three hundred and sixty-four 8, 10, and 12 inch guns, 1,296 R. F. 2.24 to 6 inch, and 524 mortars. Provision made for emplacing 334 heavy guns (including 26 temporary emplacements), 587 R. F. (including 1 temporary emplacement), and three hundred and seventy-six 12-inch mortars. Added during the year: One 12-inch, four 10-inch, 7 R. F., and 22 mortars. Est., \$4,000,000. 04, 6, 7, 8.

1904-05. A board, known as the National Coast Defense Board, with Sec. of War as its president, to study modern defenses, constituted by Executive order. 05, 7. Guns added during year: Seventeen mortars, eight 12-inch guns, one 8-inch gun, and 46 R. F. guns. Est., \$4,000,000. 05, 8.

1905-06. Board submitted final report Feb. 1, 1906. 06, 5. (See Part 5, FMB, p. 1821, of this index.)

Est., \$16,052,431 will be required. 06, 6. Guns added during year: Eight mortars, four 12-inch guns, and 94 R. F. guns. 06, 6. Est., \$4,247,400. 06, 7.

1906-07. Guns added during year: One mortar, three 10-inch guns, and 130 R. F. guns. 07, 7. Est., \$4,247,400. 07, 7.

1907-08. Added during year: Four 10-inch guns and 51 R. F. guns. 07, 11. Table, status of permanent work completed, or in progress. 07, 10.

1908-09. Added during year: Three 8-inch guns and 28 R. F. guns. 09, 12.

1909-10. Added during year: Three 10-inch guns and 46 R. F. guns. 10, 14.

1910-11. Added: Four 10-inch guns and 23 R. F. guns. 11, 9.

1911-12. Total app., \$29,008,664.80. Est., \$100,000 submitted. 12, 8.

FMD. PRESERVATION AND REPAIR.

(See also FMA, p. 1801 of this Index.)

| Part. | Title. |
|-------|---|
| 1 | Preservation and repair. |
| 2 | Preservation and repair, insular. |
| 3 | Preservation and repair, torpedo structures. |
| 4 | Preservation and repair, torpedo structures, insular. |

Part 1, FMD. Preservation and Repair.

1900-01. Operations limited mainly to the preservation of engr. material in the new batteries, to the application of remedial measures for imp. the conditions of the magazines of the earlier works as regards dampness, and to the care and preservation of the torpedo material stored at each H. Est., \$300,000 for next year, as \$100,000 of past year inadequate. **01, 11.**

1901-05. \$300,000 additional urgently needed. **02, 12; 03, 12; 04, 9; 05, 10.**

1905-06. To keep fortifications in effective condition an average expenditure of not less than \$25,000 a month is essential. **06, 8; 07, 9; 08, 13; 09, 14; 10, 16; 11, 12; 12, 11.**

Part 2, FMD. Preservation and Repair of Fortifications, Insular Possessions.

1908-09. Est. prepared for preservation and repair of completed batteries, by minor repairs, painting, etc. \$900 for Guantanamo B., Cuba;

\$1,500 for Hawaiian Islds.; and \$14,000 for Philippine Islds. **09, 19; 10, 20; 11, 21; 12, 19.**

Part 3, FMD. Preservation and Repair of Torpedo Structures.

1904-05. New torpedo-defense structures are built of timber and corrugated iron, and are liable to more rapid deterioration and decay than the more costly structures of concrete and masonry.

An est. of \$50,000 submitted for preservation and repair. **05, 12; 06, 9; 07, 11; 08, 16; 09, 17; 10, 18; 11, 15.**

Part 4, FMD. Preservation and Repair, Torpedo-Defense Structures, Insular Possessions.

1908-09. In order to provide for maintenance in proper condition of the numerous structures already erected in connection with torpedo defense,

est. \$1,000 submitted for Philippine Islds., and \$500 for Hawaiian Islds. **09, 19; 10, 20; 11, 21; 12, 20.**

FME. RANGE AND POSITION FINDERS, AND FIRE CONTROL.

(See FMA, p. 1801 of this index.)

| Part. | Title. |
|-------|-------------------------------------|
| 1 | Range and position finders, etc. |
| 2 | Fire control at batteries, insular. |

Part 1, FME. Range and Position Finders.

1900-01. Objection made by experts to the use of high towers on low sites. Work on towers stopped till views of artillery could be obtained. Est. of \$150,000 submitted. **01, 11.**

1901-02. Progress made in systematizing matter of fire control. Division of authority among Engr., Ordnance, Signal, and Artillery Departments. Steelwork delayed by steel market. Nine fire comm., 45 battery comm. sta. done; 12 fire comm., 3 battery comm. sta. under contract. Experiments under way to make smaller towers. **02, 11, 12.**

1902-03. Eleven fire comm., 55 battery comm. sta. completed; 22 f. c. and 55 b. c. under constr. **03, 12.**

1904. Horizontal-base system of position finding recently adopted by Artillery; boards of 2

traveling Artillery officers, associated with local Artillery commanders, and district Engr. officers at each fortified H. on the Atlantic and Gulf coasts prepared necessary schemes of base-end stations. **04, 8.**

1904-05. Tentative fire-control schemes for existing batteries adopted by Chief of Artillery, and detailed plans covering engineering part of work prepared. **05, 9.**

1905-06. \$590,000 allotted from act Mar. 3, 1905, applied at New York, Boston, and Portland. Plans and est. for work to be done with app. of \$700,000, act June 25, 1910, in preparation. **06, 7.**

1906-07. Engr. work in progress under allotments. **07, 8; 08, 12; 09, 13; 10, 15; 11, 10; 12, 8, 9.**

Part 2, FME. Fire Control at Batteries, Insular Possessions.

1905-06. In order that the high-power batteries now building and those to be built during the next fiscal year may be equipped with adequate fire-control systems, an est. amounting to \$752,360 is submitted to cover cost of Engr. work.

\$96,480 for Guantanamo B., \$165,120 for Honolulu and Pearl H., \$329,480 for Manila, and \$161,280 for Subic B. **06, 11; 07, 12; 08, 17; 09, 18; 10, 20; 11, 22; 12, 20.**

FMF. SEARCHLIGHTS AND ELECTRICAL EQUIPMENT.

(See FMA, p. 1801 of this index.)

| Part. | Title. |
|-------|--|
| 1 | Searchlights and electrical connections. |
| 2 | Reserve lights. |
| 3 | Searchlights, insular. |
| 4 | Electrical installations. |
| 5 | Electrical installations, insular. |

Part 1, FMF. Searchlights and Electrical Connections.

1900-01. Work on installation of searchlights at defenses of New York H. well advanced. Becoming important to inaugurate systematic installation of searchlight apparatus for night defenses. Economy in installation and the keeping of electric plants in good order in time of peace are promoted by habitually using fortification plants for post illumination also. Ests. \$500,000 for installation of searchlights and \$500,000 for installation of post mains and conduits urgently reqdm. **01, 13.**

1901-06. Est. \$500,000 submitted. **02, 14; 03, 14; 04, 9; 05, 10; 06, 8.** National Coast Defense Board est. cost of sufficient searchlights for coast of U. S. as \$2,987,700. **06, 8.**

1906-07. Est. \$1,000,000 submitted. **07, 9.**

1907-08. Eight projectors of a new type developed abroad and 2 of domestic manufacture purchased and issued to troops for test. Est. \$907,000 submitted. **08, 13.**

1908-09. Est. \$897,000 submitted; reduced by Sec. of War to \$50,000. **09, 14.**

1909-10. Est. \$516,000 submitted; reduced to \$50,000. **10, 16.**

1910-11. Est. \$102,000 submitted. **11, 11.**

1911-12. Est. \$250,000 submitted. **12, 9.**

Part 2, FMF.**Reserve Lights.**

1908. An est. \$19,500 submitted to supply reserve electric lanterns in sufficient quantity to all

batteries. **09, 17; 10, 17; 11, 13; 12, 11.**

Part 3, FMF. Searchlights, Insular Possessions.

1906. For the purchase and installation of searchlights at the defenses of the insular possessions, est. of \$500,000 is submitted, \$84,000 to be applied to Guantanamo B., Cuba; \$57,000 to San

Juan, P. R.; \$95,000 to Pearl H. and Honolulu, Hawaii; \$57,000 to Guam; \$95,000 to Subic B., P. I.; and \$114,000 to Manila, P. I. **07, 12; 08, 17; 09, 18; 10, 21; 11, 20; 12, 18.**

Part 4, FMF.**Electrical Installations.**

1906-07. The National Coast Defense Board est. that \$5,216,031 would be required to furnish necessary electrical equipment for defenses in

addition to current required for searchlights. **07, 8; 08, 13; 09, 13; 10, 15; 11, 10; 12, 9.**

Part 5, FMF. Electrical Installations, Insular Possessions.

1906-07. National Coast Defense Board est. \$788,713 would be required to furnish necessary electrical equipment for defenses of insular possessions, in addition to current required for searchlights. Ests. \$103,727 for Guantanamo B., \$34,469 for Honolulu and Pearl H., \$259,080 for Manila, and \$105,716 for Subic B. submitted. **07, 12.**

1907-08. Funds provided; work in progress. For continuation est. \$230,638 submitted, \$14,469 for Hawaiian Islds. and \$216,169 for Philippines. **08, 17.**

1908-09. Est. \$127,346 for Philippines submitted. **09, 18.**

1909-10. Est. \$171,962 for Philippines submitted. **10, 19.**

1910-11. Est. \$25,000 for Hawaiian Islds., \$21,614 for Philippines. **11, 20.**

1911-12. Est. \$34,469 for Hawaiian Islds. **12, 18.**

FMG. SITES, BATTERIES, AND EMBLACEMENTS.

(See FMA p. 1801 of this Index.)

| Part. | Title. |
|-------|-------------------------------|
| 1 | Sites, etc. |
| 2 | Sites, insular. |
| 3 | Dynamite batteries. |
| 4 | Modernizing old emplacements. |

Part 1, FMG.**Sites.**

1900-01. Negotiations continued for acquisition of sites at Boston H. (2 sites), Narragansett B. (3 sites), New York H. (extension of Fort Newton), Port Royal, S. C., San Francisco H., San Diego H., St. Johns R., Fla., Fort St. Phillips, La., and Cape Henry, Va. Acquisition of 1 site at Narragansett B., 2 tracts at Fort Newton, 1 site at San Francisco, and remainder of site required at Port Royal, S. C. completed during year. Est. \$2,000,000 submitted. **01, 12.**

1901-02. Negotiations for site at Portland, Me. Est. \$2,000,000 submitted. **02, 13.**

1902-03. Site at entrance to Long Isld. Sound and 1 tract at Fort Hunt, Va. Est. \$2,000,000 submitted. **03, 13.**

1903-04. Negotiations for sites at defenses of Kennebec R., Me.; Charleston, S. C.; Mobile Ala.; the Columbia R., and Puget Sound. Est. \$650,000 submitted. **04, 9.**

1904-05. Est. \$500,000 submitted. **05, 10.**

1905-06. Est. \$3,310,500 submitted. **06, 8.**

1906-07. Est. \$3,478,500 submitted. **07, 8.**

1907-08. Constr. of wall at Boston by city in progress. Tract at Fort Armistead, Md., purchased. Est. \$250,000 submitted. **08, 13.**

1908-09. R. on defense of San Pedro, Cal. submitted. Est. \$400,000 inadequate. **09, 14.**

1909-10. Acquisition of land for San Pedro completed. **10, 15.**

1910-11. Est. \$150,000 for acquisition of land at Cape Henry. **11, 11; 12, 10.**

Part 2, FMG. Defenses of Insular Possessions.

1902-03. Imp. of providing for defenses of insular possessions. Est. \$2,000,000 for constr. gun and mortar batteries. Est. \$526,100 for land for sites. **03, 14.**

1903-04. Preparation of pre. projs., accurate surs. of sites completed. Funds applied in the Philippines. Negotiations under way for acquisition of land. **04, 10.**

1904-05. Installation of batteries for the defense of important naval station at Guantanamo B., Cuba. Important that remaining sites be obtained as soon as possible. **05, 12.**

1905-06. Act 1906 provided for batteries in the Hawaiian Islds. **06, 10.**

1906-07. Est. for next year, \$8,618,000. **07, 11.**

1905-06. Est. \$526,100 submitted for acquisition of sites in the Hawaiian Islds. **06, 11.**

1907-08. Suggest condemnation proceedings **08, 17.**

1907-08. Est. \$2,818,400. **08, 16.**

1908-09. Condemnation proceedings instituted; court decree rendered. **09, 18; 10, 21; 11, 21; 12, 19.**

1908-09. Batteries have been constr. at Guantanamo B., Cuba, and constr. work now in progress at Honolulu and Pearl H., Hawaii, and Manila and Subic B., P. I. **09, 17.**

1909-10. Est. \$262,200 (reduced to \$150,000 for Hawaiian Islds., and \$1,169,000 for Philippine for completion of projs. **10, 19; 11, 19; 12, 18.**

1910-11. For constr. of works of defense against landing parties in the Philippine Islds. app. as follows: Act Mar. 4, 1911, \$180,000. **11, 22, 12, 20.**

Part 3, FMG.

Dynamite Batteries.

1900-01. Work on battery at Sandy Hook completed; that at Fishers Isld. begun. On June 5, 1901, Board of Ordnance and Fortifications reported this type of battery obsolete. Sec. of War ordered discontinuance of work at Fishers Isld. and Port Royal. **01, 10.**

1901-02. Sec. of War directed sale of obsolete dynamite guns. No further reports to be submitted. **02, 11.**

Part 4, FMG. Modernizing the Older Emplacements.

1903-06. Proposed to bring older emplacements, first constr. under Endicott plan, up to date. Est. \$942,500 for 1,297 different emplacements. **04, 8; 05, 9; 06, 7.**

1906-12. Au. asked to apply \$165,261.36 to the initiation of mechanical powder service. **07, 8.** Au. granted; arrangements for manufacture and installation of machines in progress. **08, 12; 09, 13; 10, 14; 11, 8; 12, 8.**

FMH.**SUPPLIES.**

(See FMA. p. 1801 of this Index.)

| Part. | Title. |
|-------|--|
| 1 | Supplies for coast defense. |
| 2 | Supplies for coast defense, insular. |
| 3 | Equipment of Coast Artillery, armories, Organized Militia. |

Part 1, FMH. Supplies for Seacoast Defenses.

1900-01. Requisitions are made directly upon Chief of Engineers for tools and electrical and engine supplies for use of troops for maintaining light and power plants in gun and mortar batteries. Est. \$25,000 submitted for next year. 01, 11.

1901-03. Est. \$35,000 submitted. 02, 12; 03, 12.

1903-08. Est. \$40,000. 04, 10; 05, 11; 06, 9; 07, 10.

1907-08. Wattmeters being procured. As plants become worn, demands for supplies increase \$45,000 est. necessary for procurement of electrical supplies. In addition, issue of reserve electrical lights of a form approved after exhaustive test by the Artillery requested by Chief of Coast Artillery believed desirable by Chief of Engineers; est. \$19,500 additional to the \$45,000 above. 08, 15.

1908-12. Est. \$45,000 submitted for 1910 09, 16; 10, 17; 11, 12; 12, 11.

Part 2, FMH. Supplies for Seacoast Defenses, Insular Possessions.

1908-12. Est. \$5,000 submitted for necessary supplies and material for plants in Philippine

Islands, \$1,000 for Hawaiian Islands. 09, 19; 10, 20 11, 22; 12, 20.

Part 2, FMH. Equipment of Coast Artillery, Armories, Organized Militia.

The Army app. act approved Mar. 3, 1911, provided the sum of \$338,170 for the equipment of armory buildings provided by States for instructional purposes for Coast Artillery companies of the Organized Militia. With these funds equipments are being installed for the instruction of Coast Artillery militia at the following places:

Boston, Mass., South Armory.

Bridgeport, Conn.

New York City:

Ninth District Armory.

Thirteenth District Armory.

Savannah, Ga.

San Francisco, Cal.

For the work required of the Engineer Department in this connection the sum of \$105,426.50 has been assigned to this department for expenditure by the Sec. of War. At the close of the fiscal year the engineer work at the Boston Armory had been completed so far as possible pending the arrival of the armament and other equipment, and the work remaining to be done at this armory and the necessary work at the other armories had been placed under contract.

By the Army app. act of Aug. 24, 1912, the availability of this app. was extended to include obligations incurred during the fiscal year ending June 30, 1913.

12, 29.

FMI.**TORPEDOES, MINES, ETC.**

(See FMA. p. 1801 of this Index.)

| Part. | Title. |
|-------|---------------------------|
| 1 | Submarine mines. |
| 2 | Submarine mines, insular. |

Part 1, FMI.**Submarine Mines.**

1900-01. With few exceptions all Hs. equipped with torpedo storehouses, cable tanks, mining casemates. Experiments have been conducted. Est. \$100,000 made for continuing work. Work of transferring torpedo equipment to Artillery in progress under act Feb. 2, 1901. **01, 12.**

1901-02. Mining casemates and additional storage facilities required at several localities. Est. \$100,000 submitted. Act June 6, 1902, assigned to Artillery Corps purchase of torpedo material proper, such as cables, cases, floating plant, etc., and left the constr. of buildings, casemates, cable galleries, and cable tanks with the Corps of Engineers. **02, 13.**

1902-03. Est. \$225,000 for additional material. **03, 13.**

1903-04. Based on a list of new casemates, cable tanks, storehouses, and loading rooms prepared by Artillery board. Au. est. \$600,000 submitted. All apparatus has now been transferred to Artillery. **04, 10.**

1904-05. Est. \$540,700 submitted. **05, 12.**

1905-06. Est. \$1,352,819 submitted. **06, 10.**

1906-07. Est. \$464,964 submitted. **07, 11.**

1907-08. Est. \$289,964 submitted. **08, 16.**

1908-09. Est. \$189,964 (omitted). **09, 17.** Reduced to \$50,000. **10, 19; 11, 15.**

1911-12. Est. \$35,000 submitted. **12, 14.**

Part 2, FMI. Submarine Mines, Insular Possessions.

1905-07. Est. \$382,500 submitted for constr. torpedo structures. \$24,000 for Guantanamo B., Cuba; \$221,000 for Manila, P. I.; and \$137,500 for Subic B., P. I. **06, 11; 07, 12.**

1907-08. Detailed plans being prepared. **08, 17; 09, 18; 10, 20; 11, 22; 12, 20.**

FMJ. SEA WALLS AND EMBANKMENTS.

(See FMA. p. 1801 of this Index.)

1900-01. General constr. of sea walls and embankments. Work at Fort Schuyler, N. Y., Fort Monroe, Va., Fort Smallwood, Md., and Gardiners Point, N. Y., completed during year. Storm tide damaged reservation and provisions made for sea wall and filling in at Fort Caswell, N. C. At close of year concrete wall completed, contract for fill behind wall let. App. of Mar. 1, 1901, applied to work at entrance to Long Island Sound, N. Y. H., Narragansett B., Baltimore, Md., Hampton Roads, Va., and New Orleans, La. Est. \$150,000 submitted. **01, 11, 12.**

1901-02. Filling in at Fort Caswell, N. C., completed. App. of June 6, 1902, applied to constr. of sea walls at entrance to Long Island Sound, N. Y. H., Hampton Roads, Va., Tampa, Fla., Mobile, Ala., and San Diego, Cal. Est. \$160,000. **02, 13.**

1902-03. Est. \$200,000. **03 13.**

1903-04. Work at Delaware R., Baltimore Md., Cape Fear, N. C., Charleston, S. C., Tampa, Fla., Pensacola, Fla., Mobile, Ala., and New Orleans, La. Est. \$300,000 submitted. **04, 10.**

1904-05. Est. \$215,900 submitted. **05, 11.**

1905-06. Est. \$236,315 submitted. **06, 9.**

1906-07. Est. \$180,000 submitted. **07, 10.**

1907-08. Est. \$145,914 submitted. **08, 15.**

1908-09. Est. \$164,775 submitted. **09, 16.**

1909-10. Est. \$142,525 submitted. **10, 17.**

1910-11. Est. \$25,000 submitted. **11, 13.**

1911-12. Est. \$30,000 submitted. **12, 11.**

FORTIFICATIONS.

SECTION II.—INDEX TO DATA COVERING SPECIAL WORKS.

(See list of works on p. 1796 of this Index.)

FNA. MAINE COAST FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FNA.**Contracts.**

1897. Two 12-inch emplacements complete, \$55,065.20. 97, 593.

1898. Portland cement, \$2.05 and \$2.22 per barrel. Sand, 94¢ and \$1.20 per c. y. Natural cement, 98¢ per barrel. 98, 588.

1899. Electric-lighting plant for 16 mortars, \$5,300. Sand, 94¢ per c. y. Portland cement, \$2.09 per barrel. Rosendale cement, 90¢ per barrel. 99, 681, 688.

1900. Portland "Vulcanite" cement, \$2.35 per barrel; "Atlas," \$2.20 and \$2.50 per barrel. Rosen-

dale "Brooklyn Bridge" cement, \$1.10 and \$1.13¢ per barrel. 00, 757.

1901. Switchboards, \$1,677; accumulators, \$3,700. 01, 703.

1902. Magazine, \$3,895. 02, 627. Boiler, \$6,350; boiler set, \$162.50; boiler and feed-pump, \$73; generating set, \$2,387; misc. apparatus, \$1,387; wire, \$7,682.50. 02, 627. Broken stone, \$1.45 per ton. 02, 634. Portland cement, \$1.55 barrel. and \$1.49 barrel; coal, \$4.50, \$4.70, \$5.40 ton; water, 40¢ per 1,000 gallons; sand, 65¢ ton. 02, 638.

Part 2, FNA.

Engineering Features.

Air spaces, methods of securing ventilation and dryness with. **01**, 912.

Ammunition rooms, lining. **02**, 623.

Ceilings, of hollow tile. **03**, 2372 (pls.).

Cement. Portland cement advisable, because of climate. **01**, 911.

Concrete, cost of. **94**, 7; **97**, 587. Mixing and placing, description and cost. **00**, 757, 761, 762.

Superiority of wet concrete over dry concrete. **01**, 911. Composition, for various walls and masses. **01**, 911.

Condensation, remedies. **01**, 912.

Dampproofing, methods. **04**, 3709.

Drains. Floors. **01**, 912.

Forts, casemates. "One of the finest types." **02**, 621.

Leakage, stopping, methods. **01**, 623, 629; **02**, 623; **04**, 3710.

Linings (see Leakage), of various materials. **03**, 2372, 2373 (pls.).

Materials, cost of. **94**, 7; **97**, 583, 587; **99**, 698; **00**, 757. Methods of handling. **00**, 753.

Power house, electric. **04**, 3710.

Sewers, relaying. **02**, 625.

Stairways, improvements. **01**, 913.

Stone-crushing plant, description and cost. **00**, 757, 759, 765.

Telephones, booths for; details. **03**, 2371. Concrete steel. **03**, 2372 (pls.).

Walls, hollow tile. **03**, 2372 (pls.).

Waterproofing, methods of. **00**, 736, 738, 739, 763; **01**, 911; **02**, 2451.

Part 3, FNA.

Engineers.

Chief of Engineers. **R.**, 66, 4; **67**, 4; **68**, 7; **69**, 7; **70**, 12; **71**, 7; **72**, 4; **73**, 5; **74**, 6; **75**, 6; **76**, 7; **77**, 5; **78**, 7; **79**, 9; **80**, 19; **81**, 17; **82**, 12;

83, 8; **84**, 13; **85**, 7; **86**, 7; **91**, 6; **92**, 8; **93**, 5; **94**, 6; **95**, 6, 503; **96**, 11, 469; **97**, 11, 531; **98**, 14, 583; **99**, 16, 685; **00**, 13, 733; **01**, 13; **02**, 14.

Part 4, FNA.

Board of Engineers.

Constituted, 1882, to consider and report upon the condition of fortifications, and what number,

if any, could be dispensed with. **R.**, 82, 414.

Part 5, FNA.

Engineers in Charge.

Maj. T. L. Casey, 1866-68.

Lt. Col. G. Thom, 1866-69.

Lt. Col. B. S. Alexander, 1867.

Maj. G. Weitzel, 1867.

Lt. Col. J. C. Duane, 1869-79.

Col. C. E. Blunt, 1879-86.

Maj. J. A. Smith, 1886.

Lt. Col. P. C. Hains, 1893-95.

Lt. Col. D. P. Heap, 1895-96.

Lt. Col. A. N. Damrell, 1896-97.

Maj. R. L. Hoxie, 1897-99.

Maj. S. W. Roessler, 1899-02.

Part 6, FNA.

Assistants.

Lt. G. P. Howell, 1897-99.

Capt. C. Keller, 1899-1900.

Lt. T. H. Jackson, 1899-01.

Lt. C. W. Kutz, 1900-01.

Part 7, FNA.

Civilian Electricians.

1902. \$1,200 allotted for pay of an expert electrician. **02**, 638.

Part 8, FNA.—

FORTS AND BATTERIES.

Part 9, FNA. Portland Harbor, Me.—Fort Scammel.

1808. Original work—semicircular battery, with brick scarp and blockhouse in rear; a detached lunette northeast of it built. 80, 15.

1845. The work connected and inclosed with brick scarp and earthen parapet. 80, 15.

1862. Work on new plans begun. 80, 15.

1866. Six casemates, second tier of east bastion, completed; the other 7 platforms ready for armament. 66, 5.

1867. Five embrasures built in scarps of second tier of west bastion; 4 casemates for guns and 1 for flank howitzers completed in east bastion; 2 magazines in gorge nearly finished. 67, 5.

1868. Work on gorge wall, magazines, and excavation for foundations. 68, 9.

1869. Magazine traverse C built and drains completed; site for magazine traverse B excavated. 69, 9.

1870. Modification plans made. Care and preservation. 70, 13.

1871. \$50,000 app. Old building demolished to make way for new work; 6 magazines built and covered with earth; work on great magazine in old work. 71, 8.

1872. \$42,500 app. Stone piers in parade of west bastion built; parados built; communication through traverses of front 4 and the rock excavation for great magazine completed; minor work. 72, 5.

1873. \$50,000 app. Great magazine and concrete arches over parade of east bastion built; work on bombproof of west bastion, embankments of great magazine, and traverses of main work; site prepared for main magazine of new work. 73, 6.

1874. \$30,000 app. Concrete bombproof covering, breast-height walls, and concrete communications of east and west bastions completed; slopes of traverses and parados sodded; and all but one position made ready for platforms. 74, 7.

1875. \$20,000 app. Parapet and bombproof embankments, gun platform and service magazines and stairway communication completed at e. and w. bastions; passages about the great magazine entrance completed; and minor work. 75, 7.

1876. Sally port extension and second passage to extension in main work built in concrete; 2 gun platforms and all traverse and parados embankments of old part of main work completed, and parade graded. 76, 8.

1877-79. Care and preservation. 77, 6; 78, 8; 79, 10.

1885. Plans required revision. 85, 9.

1886. Six magazines put in serviceable order; care and preservation. 86, 9.

1901. Removing old ordnance. 01, 699; 02, 623.

Part 10, FNA. Portland Harbor, Me.—New Fort Preble.

1808. Original work built. 80, 20.

1863. New work begun. 86, 9.

1866. Piling of the scarps finished and bed of foundation of front 2 completed; minor work. 66, 5.

1867. Grillage and capping for foundation of scarps completed; 8 embrasures completed; r. excavation of scarps of old work, and masonry of fronts B and C commenced. 67, 5.

1868. The scarps of old work and earthen parapet nearly finished; stairway from upper to lower parade completed; foundation for magazine traverse, south battery, completed; erecting piers; tearing down quarters; minor work. 68, 8.

1869. Magazine traverse, south battery, completed; excavation for new magazine in old inclosed work finished; parade partly filled in; minor work. 69, 8.

1870. Modification plans made; superior slopes of old work completed and sodded; terreplein partly graded; 250 c. y. concrete placed around magazine in old work; parade partly filled in. 70, 13.

1871. \$28,500 app. Traverse magazine and earthwork in gap between north battery and old redoubt finished; traverse magazine in south battery extension finished; minor work. 71, 8.

1872. \$42,500 app. Great magazine and easterly traverse magazine built in old redoubt and embankments built and sodded; breast-height wall of old redoubt built; second new traverse magazine in south battery finished; minor work. 72, 5.

1873. \$40,000 app. Modification of old redoubt finished; last 6 traverse magazines of south battery built, two-thirds work completed; and north battery extension commenced. 73, 6.

1874. \$20,000 app. Two permanent platforms in redoubt, 1 in north battery, and 1 temporary wooden platform in south battery made ready for guns; traverses and parapets of south battery completed; and concrete magazine, parados, bombproof, breast-height walls, part of embankment, and roadway of north battery completed. 74, 7.

1875. \$10,000 app. Six gun platforms and breast-height walls and parapet of 5 bays in south battery completed; pintle bolts set for 4 additional gun platforms; 1 gun platform laid and all embankments completed in north battery. 75, 7.

1876. Four breast-height walls, 3 gun platforms built in south battery; parapet sodded; and north battery roadway completed. 76, 8.

1877-79. Care and preservation. 77, 6; 78, 7; 79, 10.

1885. Plans require revision. 85, 8.

Part 11, FNA. Portland Harbor, Me.—Fort Gorges, Me. (Hog Island Ledge).

1857. Work begun. 80, 20.

1866. Modifying and constructing the gorge; preparing cut stone for stairway towers; minor work. The gun casemates about completed and ready for armament. 66, 4.

1867. Roof surfaces of the gorge completed and same filled with earth to level of terreplein; quarters partly finished; drainage work; reinforcing with granite arches the scarp walls of the gorge magazines; minor work. 67, 4.

1868. Rubble foundations for 2 stairway towers completed; cut-stone masonry of towers 1, 3, and 4 partly completed; scarps of the magazines reinforced; 3 barbette center-pintle gun platforms built, and 2 magazine traverses on the gorge and 4 bombproof traverses built. 68, 8.

1869. Two magazine traverses on the gorge and bombproofs on fronts 1, 4, and 5 of barbette tier completed, and board roof built over them to protect them against the weather. 69, 8.

1871. \$15,000 app. Work resumed. The great magazine on front 1, central traverse magazine,

new entrance to the easterly traverse magazine, and breast-height walls of front 1 nearly completed; earthwork on front 6 about finished. 71, 8.

1872. \$20,000 app. Earthwork of gorge completed and that of front 1 nearly completed; paradocs and covering of bombproofs begun. 72, 5.

1873. Paradocs on fronts 2, 3, 4, and 5 completed; some minor work. 73, 6.

1874. Quarters plastered, balcony ironwork completed, and stone and ironwork for barbette-gun platforms in progress. 74, 7.

1875. Seven gun-platform stones raised to the terreplein. 75, 6.

1876. Parade graded; balcony on parade wall built; parade gates iron plated and hung; completion of the flooring and finishing of all the quarters in the gorge. 76, 8.

1877-79. Care and preservation. 77, 6; 78, 7; 79, 9.

1901. All armament either condemned or donated; \$600 allotted. 01, 698.

1902. Watchman on duty. 02, 622.

Part 12, FNA. Portland Harbor, Me.—Site No. 2—Barbette Battery (Portland Head).

1870-71. Proj. prepared by BE.; est., \$212,676. 70, 13; 71, 9.

1872. \$50,000 app. Title to land yet to be perfected. 72, 6.

1873. Preparing for constr., 73, 6.

1874. Work begun, 1873; parapet embankment part filled in, and 4 concrete traverse magazines built. 74, 7.

1875. \$20,000 app. Stone for 5 gun platforms prepared. 75, 7.

1876. Work on embankment of parapet and traverses of front 1; 3 breast-height walls, 6 gun platforms, and 2 traverse magazines built; minor work. 76, 8.

1877-79. Care and preservation. 77, 6; 78, 8; 79, 10.

Part 13, FNA. Portland Harbor, Me.—Barbette Battery (Little Hog Island, New Work).

1870. Plans for an irregular hexagonal barbette battery; est., \$234,550. 70, 14.

Part 14, FNA. Portland Harbor, Me.—Cow Island Batteries.

1879. Plans for heaviest armor prepared by BE. 79, 10.

1885. Plans require revision. 85, 9.

Part 15, FNA. Portland Harbor, Me.—Great Hog Island Batteries.

1879. Plans prepared by BE. for heaviest armor. 79, 11.

1884. Plans require revision. 84, 16.

Part 16, FNA. Portland Harbor, Me.—Site No. 2—Five Emplacements for 10-inch Rifles (Portland Head).

1893. \$110,000 allotted. Work begun in April. 93, 5.

1894. 4,088 c. y. concrete placed in 2 emplacements. 94, 7.

1895. \$5,000 allotted. Two emplacements completed, costing \$90,261.05; 12,450 c. y. concrete placed; foundation excavated for third emplacement. 95, 6, 503.

1896. Concrete work for third emplacement nearly completed. 96, 469.

1897. \$83,000 allotted. Work on battery C finished; 2 carriages and 4 guns on hand. 97, 584.

1898. \$21,000 allotted. Batteries B and C nearly completed; all guns mounted. 98, 588.

1899. \$200 allotted. Erection of ironwork. 99, 692.

1900. \$500 allotted. Six observation stations erected; raising floors in magazines and passageways; ventilators placed in magazines and shell rooms; minor work. 00, 736.

1901. \$700 allotted. Speaking tubes bet. platforms and magazines and telephone connection bet. commander's station and telephone booths erected. 01, 701.

1902. Work completed; plans prepared for installing chain hoists. 02, 624.

Part 17, FNA. Portland Harbor, Me.—Site No. 2—Emplacements for Two 12-inch B. L. Rifles.

1901. \$130,000 allotted. Work begun; excavation practically completed. 01, 701. \$34,500 allotted for electric light and power plant; power house and excavation 80% completed. 01, 702.

1902. Excavation, fill, and concrete work completed; post sewer relaid; 2 hydrants placed. 02, 625. \$12,500 allotted. Electric power house; installation conduit work completed. 02, 627.

Part 18, FNA. Portland Harbor, Me.—Site No. 1—Mortar Battery (Fort Preble).

1897. \$125,000 allotted for battery for sixteen 12-inch mortars. Work begun Nov. 30, 1896; excavation well advanced. 97, 581.

1898. \$67,000 allotted. Excavation completed; platforms finished; base rings set and concrete; work of 1 magazine nearly completed; 6,662 c. y. placed. 98, 585.

1899. \$14,050 allotted. All platforms completed, base rings set, carriages assembled, and 8 mortars mounted. 99, 687.

1900. \$19,000 allotted. All mortars mounted, work nearly completed. 00, 735.

1901. \$5,000 allotted. Grading, sodding, floor constr., etc., completed. Shell rooms and magazines lined; floors graded and raised; battery transferred to Artillery. 01, 699.

1902. Lining work completed. 02, 623.

Part 19, FNA. Portland Harbor, Me.—Site No. 3—Two Emplacements for 12-inch Guns (Great Diamond Island).

1897. \$70,000 allotted. Battery to be built under contract. \$3,200 allotted for contingencies. Work begun in April, 1897. 97, 588.

1898. Excavation nearly finished; 2,908 c. y. concrete placed; progress unsatisfactory; contract annulled July 7, 1898. 98, 589.

1899. \$36,800 allotted. Work continued with hired labor; carriages and guns mounted; concreting, setting ironwork, and making drains. 99, 693.

1900. \$9,000 transferred from other works. Battery completed, except macadamizing the roadway and erection of hand railing. 00, 739.

1901. Work completed. 01, 705.

1902. \$2,500 allotted. Platform hoist ordered and preparation of emplacements commenced. 02, 629.

Part 20, FNA. Portland Harbor, Me.—Site No. 2—Emplacement for 6-inch R. F. Gun (Portland Head).

1898. \$8,000 allotted. Work begun in May; platform built, ready for gun. 98, 588. 1899. Gun mounted and work completed. Cost, \$6,545.33. 99, 692.

Part 21, FNA. Portland Harbor, Me.—Site No. 2—Emplacements for Two 6-inch B. L. Rifles.

1901. \$30,000 allotted. Preparation of plans in progress. 01, 703. 1902. \$4,000 allotted. Negotiations for purchase of land in progress. 02, 626.

Part 22, FNA. Portland Harbor, Me.—Site No. 3—Eight Emplacements for 8-inch Guns on Disappearing Carriages (Great Diamond Island).

1898. \$150,000 allotted. Work begun in March. 98, 590.

1899. \$220,000 allotted. Battery A—Three carriages mounted; guns on hand; concreting nearly finished; some asphalt work. Battery B—Both carriages mounted; concreting and asphaltting. Battery D—Emplacement 1 nearly completed. 99, 694.

1900. \$17,000 allotted. Battery A—2,722 c. y. concrete placed; ironwork placed; roadway graded. Battery B—Concrete work; ironwork and roadway completed; battery practically completed. Bat-

tery D—Concrete work for 2 emplacements completed; ironwork, platforms, and masonry walls in progress; minor work not finished. 00, 738.

1901. \$12,000 allotted. First battery—Guns mounted; work completed. Second battery—Practically completed; 1 gun mounted; concrete, masonry, and fill work done. 01, 704.

1902. No. 2 of emplacement 6, loam placed; roadway and slopes graded; gun mounted. Nos. 1 and 3, emplacement 6, fill completed; roadways and slopes graded; trolleys erected etc. 02, 628, 629.

Part 23, FNA. Portland Harbor, Me.—Site No. 3—Temporary Platforms for Two 8-inch Converted Rifles (Great Diamond Island).

1898. \$3,000 allotted. Platforms completed, with magazine, and guns mounted. 98, 590.

Part 24, FNA. Portland Harbor, Me.—Site No. 3—Two Emplacements for 15-pounder R. F. Guns.

1899. \$10,000 allotted. 99, 693.

1900. Work begun; excavation nearly finished; location shifted 25' to the front. 00, 740.

1901. First battery—Gun platforms, floors of magazines and rooms laid. Second battery—\$9,103.10 allotted. Excavation completed; plant

erected; \$478.10 of above for triangulation of Portland H. 01, 707.

1902. First battery—Battery completed; guns mounted. Second battery—Completed; guns mounted. 02, 631.

Part 25, FNA. Portland Harbor, Me.—Site No. 3—Emplacements for Two 6-inch B. L. Rifles on Pedestal Mounts.

1901. \$25,000 allotted. Plans completed and app.; no field work begun. 01, 708.

1902. \$3,900 allotted. Work commenced; ex-

cavation made; plant erected; floors, platforms, etc., laid. 02, 632.

Part 26, FNA. Portland Harbor, Me.—Site No. 3—Two Emplacements for 6-inch R. F. Guns.

1899. \$56,000 allotted. 99, 693.
1900. Work begun; excavation for site completed, and foundation walls of rubble masonry of 1 emplacement laid. 00, 740.
1901. Concrete portion emplacement completed; masonry of others brought to ceiling level;
1 carriage on hand; 3,386 c. y. concrete work done. 01, 706.
1902. Concrete, sand, and loam placed; windows hung; hoists erected; both guns mounted. 02, 630.

Part 27, FNA. Portland Harbor, Me.—Site No. 3—Mortar Battery.

1899. \$125,000 allotted for battery for eight 12-inch mortars; site cleared, and main drain nearly completed. 99, 693.
1900. Drainage completed; 1,301 c. y. concrete placed in traverses and magazine walls; 6,909 c. y. earth excavated; 7,671 c. y. ledge excavated; and 1,128 c. y. filling; 6 carriages received. 00, 740.
1901. \$21,000 allotted. Eastern and middle traverses completed; 8 mortar carriages assembled; floors laid; excavation and concrete work done. 01, 706.
1902. Concrete and fill work done; 4 mortars mounted. 02, 630.

Part 28, FNA. Portland Harbor, Me.—Site No. 4—Power House.

1902. \$3,100 allotted. Work commenced; 1,077 c. y. earth and ledge removed; preparation of sites completed; laying concrete foundations begun. 02, 633.

Part 29, FNA. Portland Harbor, Me.—Site No. 4—Three Emplacements for 15-pounder R. F. Guns.

1901. Plans for battery completed. 01, 708.
1902. \$18,000 allotted. Wharf built; plant erected; excavation completed; drains laid, etc. 02, 633.

Part 30, FNA. Portland Harbor, Me.—Site No. 5—Three Emplacements for 15-pounder R. F. Guns.

1899. \$13,000 allotted. 99, 699.
1900. Work begun 1899; r. excavation completed; all floors constr., drainpipes laid, and concreting commenced. 00, 763.
1901. \$2,000 allotted. Battery completed. 01, 710, 711.
1902. Guns mounted. 02, 635.

Part 31, FNA. Portland Harbor, Me.—Site No. 5—Three Emplacements for 12-inch B. L. Rifles on Disappearing Carriages.

1899. \$162,000 allotted. Site cleared for emplacements 3 and 4; 5,745 c. y. earth and 12,597 c. y. r. excavated. 99, 699, 700.
1900. \$17,000 allotted. Excavation for emplacements 3 and 4; drains and roadway completed; 1,982 c. y. concrete placed and drainpipe laid; waterproofing with Neuchatel-rock asphalt; excavation and drainage for emplacement 2 nearly completed. 00, 762, 763.
1901. \$10,000 allotted for emplacements 3 and 4. Emplacement 4 completed; carriages assembled and gun mounted. Emplacement 3 nearly completed. \$10,500 allotted for emplacement 2; r. excavation, drains, r. fill, and concrete work done. 01, 709.
1902. (Emplacements mentioned as Nos. 1, 2, and 3 in 1902.) Concrete and sand fill placed in No. 2, trolley rails and ammunition hoists erected. At emplacement 1 masonry and fill work done, and asphalt waterproofing laid. Emplacement 1 nearly completed, except receiving carriage and mounting guns. 02, 634

Part 32, FNA. Portland Harbor, Me.—Site No. 5—Two Emplacements for 10-inch B. L. Rifles on Disappearing Carriages.

1899. \$92,000 allotted. Excavation for emplacements and drains completed; 18,294 c. y. removed; artesian well under constr. 99, 699.

1900. \$26,000 allotted. 2,435 c. y. concrete placed and all floors completed. 00, 768.

1901. Carriages assembled and guns on trun-

nions; concrete, asphalt, and sand work done 01, 710.

1902. \$1,000 allotted. 1,692 c. y. fill placed, 100 c. y. concrete laid; guns painted and cleaned. 02, 635.

Part 33, FNA. Portland Harbor, Me.—Site No. 5—"Four" 6-inch R. F. Guns on Pedestal Mounts.

1902. \$55,000 allotted. Work begun, derricks erected, tracks extended, excavations, etc. Half

of battery completed to floor level. 02, 635.

Part 34, FNA. Portland Harbor, Me.—Site No. 5—Power House and Electric Plant.

1902. \$1,000 allotted. Conduit and manholes constr. 02, 636.

Part 35, FNA. Penobscot River, Narrows of—Fort Knox, Bucksport, Me.

1843. Work begun. 80, 19.

1866. Three-gun battery of the southeast place-of-arms nearly completed; covered communication with battery B finished; northeast demi-bastion, howitzer casemate, and defensive gallery built; and 3 positions for center pintle 15-inch guns in batteries A and B made ready for armament. 66, 4.

1867. North covered way, northeast demi-bastion, and defensive gallery, together with the closure wall and single caponniere of the north ditch, completed; minor work. 67, 4.

1868. Masonry and subdrainage of the storage casemates under the parade of main work completed; mounting guns on batteries A and B; finishing parapet and terrepleins of 15-inch guns; minor work. 68, 7.

1869. Exterior slope of the north covered way rebuilt to 8' below the interior crest; and northern

and western exterior slopes of the northeast place-of-arms repaired. 69, 8.

1871-84. Care and preservation. 71, 7; 72, 4; 73, 5; 74, 7; 75, 6; 76, 7; 77, 5; 78, 7; 79, 9; 80, 19; 81, 17; 82, 12; 83, 8; 84, 13.

1885. Six magazine floors renewed, outside buildings repaired; minor work. 85, 7.

1886. Parade graded, care and preservation. 86, 8.

1898. \$150 allotted. Proj. for change in position of old platforms and addition of modern guns; minor repairs of old works. 98, 583.

1899. \$600 allotted. Minor repairs of armament of old works. 99, 686.

1900. Storeroom repaired; minor repair of quarters. 00, 733.

1901. Repairs and removing débris; buildings sold. Plans and est. for 2 emplacements for 6-inch R. F. guns called for. 01, 697.

Part 36, FNA. Kennebec River, Mouth of—Fort Popham, Me.

1857. Casemated work; work begun. 80, 19.

1866. Scarps of the gun fronts and bastions brought to within 2 courses of the cordon line; all gun embrasures of the second tier of fire completed; second-story magazines nearly finished, and 5 second-tier casemates covered with bombproof arches. 66, 4.

1867. Scarps of the gun fronts and bastions brought to level of the cordon line; second-tier casemates along this front completed; minor work. 67, 4.

1868. Concreting arches of gun casemates 24 to 37, inclusive; laying concrete floors of 3 magazines on terreplein of water fronts; minor work. 68, 8.

1869. Board roof built over unfinished casemates; care and preservation. 69, 8.

1870-72. Care and preservation. 70, 13; 71, 8; 72, 5.

1873. Proj. for completion of fort, and constr. of a contiguous exterior battery for 4 guns approv. in 1872. 73, 5.

1874-86. Care and preservation. 74, 7; 75, 6; 76, 7; 77, 5; 78, 7; 79, 9; 80, 20; 81, 17; 82, 13; 83, 8; 84, 14; 85, 8; 86, 8.

1898. Work modified to meet modern requirements as to cover. No work under proj. \$9,030 allotted; temporary wooden platforms for 15-inch guns built, and guns mounted; emplacement for one 8-inch B. L. rifle on strengthened 15-inch S. B. gun finished and carriage mounted; minor work. 98, 584.

1899. \$2,300 allotted. Work on temporary platforms for four 15-inch guns; emplacement for 8-inch rifle finished. 99, 686.

1900. \$1,500 allotted. Four 15-inch S. B. guns dismounted and stored; platforms taken up, and ground leveled. 00, 733.

1901. Repairs, slopes, and retaining walls of emplacement for one 18-inch B. L. rifle practically rebuilt. Plans and est. for 2 emplacements 6-inch R. F. guns on pedestal mounts called for. 01, 698.

Part 37, FNA. Bar Harbor, Me., Temporary Defense.

1898. \$6,000 allotted. Proj. for two 8-inch converted rifles and two 10-inch S. B. guns mounted on temporary wooden platforms; consent of owners of sites secured; materials, guns, and carriages received in May. 98, 591.

1899. \$1,000 transferred from other allotments. Both 8-inch rifles mounted; 1 magazine finished;

mounting two 10-inch S. B. guns and building magazines. Ordered to suspend work. 99, 685.

1901. Two 10-inch guns condemned and sold; two 8-inch converted rifles moved to nearest reservation; ordnance stores to be sent to Watertown 01, 697; 02, 621.

Part 38, FNA. Magazines.

1902. \$5,000 allotted for Peace Storage Magazine; building erected. 02, 626.

Part 39, FNA. Mounting Guns and Carriages.

1901. Table showing cost of handling, caring for, and mounting guns and carriages, site 5, Portland. 01, 711, 712.

Part 40, FNA. Preservation and Repair of Fortifications.

1898. \$50 allotted for Fort Gorges; repairing scarp wall. 98, 584. Minor work at Fort Preble. 98, 585. \$550 allotted for mounting two 15-inch S. B. guns at Fort Scammel. 98, 587.

1899. Minor repairs at Fort Preble. 99, 687. \$600 allotted for minor repairs of old works. 99, 702. \$750 allotted for minor repairs at mining casemate. 99, 703.

1900. \$800 allotted for repairing quarters at Fort Gorges. 99, 734. \$1,400 allotted for site 1;

floors in magazines and shell rooms repaired. 00, 735. \$12,000 allotted for repairing floors, waterproofing experiment, and minor work at site 2. 00, 736. \$700 allotted for torpedo material at site 4. 00, 768.

1901. \$1,600 allotted for repair of slopes and loaming and seeding, Portland, site 1. 01, 700, 701. \$1,000 allotted for site 2, Portland. 01, 703.

1902. \$1,600 allotted for repair, site 1, Portland. 02, 623.

Part 41, FNA. Range and Position Finders.

1899. \$9,000 allotted. Drawings made. 99, 702.

1900. Six observation stations erected. 00 736.

1901. \$4,600 allotted for battery commander's station, Portland, site 1; work completed. 01, 700; 02, 624. \$4,000 allotted. Portland, sites 1 and 3, station an. and plans approv.; site 1 completed; excavation for 5 stations at site 3 completed. 01, 712. \$100 allotted for 2 temporary stations, site 4, for Lewis type A instrument, and

1 at site 1 for base-end instrument; former completed and latter to be constr. 01, 712, 713.

1902. \$2,500 allotted fire commander's station, site 2; Portland; excavation completed and walls constr. 02, 626. Constr. commenced at 2 sites, battery commander's stations; buildings completed; grading done; \$1,000 withdrawn. 02, 636. \$2,700 allotted fire commander's station; building commenced and constr. during year. 02, 637. Necessary work for temporary station completed. 02, 637.

Part 42, FNA.**Sites.**

Cushings Island, Me. Site, about 33.4 acres, acquired by condemnation proceedings, \$112,423.60. 94, 13.

Battery for sixteen 12-inch mortars. Site purchased for \$13,202.50. 97, 12.

1902. Kennebec R., Me. \$10,050 allotted. Site purchased. 02, 622.

Part 43, FNA.**Submarine Mines.**

1887. Three casemates proposed, with est. of cost. 87, 11.

1891. Proj. for additional casemate. 91, 6.

1892. One casemate nearly completed. 92, 8.

1893. One casemate completed; cost, \$8,979.75; work on 2 more begun. 93, 5.

1894. Work on 2 casemates. 94, 7.

1895. Two casemates completed in October, 1894; cost, \$17,968.92. 95, 6.

1898. Cable storage tank at Fort Preble completed; cost, \$2,206.53. \$4,500 allotted, 1897, for torpedo storehouse at Fort Gorges; nearly completed. 98, 584, 585. \$23,300 allotted for torpedo defense—mines placed in the three channels leading into Portland H., and also in the Kennebec and Penobscot Rs.; 6 casemates equipped. 98, 592.

1899. \$350 allotted. Small storehouse built; minor work. 99, 686, 702. \$9,000 allotted—mines removed from H. and Rs., cleaned and stored (explosives utilized in connection with r. excavation

for fortifications). 99, 708. \$1,200 allotted for searchlight supplies; no funds necessary. 99, 709.

1900. Torpedo material overhauled and cleaned. 00, 768.

1901. \$3,000 allotted. Penobscot R., brick storehouse for masonry material built. 01, 697. Stored material overhauled and cleaned. 01, 698. \$9.78 allotted for sixteen 12-inch B. L. mortars, site 1, Portland. 01, 700. \$5,000 allotted, Portland, site 2, plans completed for mining casemates. 01, 703. \$5,500 allotted, site 3, Portland, mining casemate No. 1; excavation completed. \$4,500 allotted, site 3, Portland, mining casemate No. 2. 01, 708. \$150 allotted for overhauling and cleaning. \$2.01 for minor expenses. 01, 713.

1902. Portland, site 2, work on casemates begun and practically completed. 02, 623. Portland, site 3, casemates practically completed. 02, 632. Material overhauled and cleaned. 02, 637.

Part 44, FNA. Supplies for Coast Defenses.

1900. \$600 allotted for filling requisitions by post commanders for material to be supplied by

the Engineer Department. 00, 768. Supplies furnished commanders. 01, 713; 02, 637.

FNA. PORTSMOUTH (N. H.) FORTIFICATIONS.

Part 45, FNA.

Contracts.

1897. Two 8-inch gun emplacements, \$55,-
372.52. 97, 599.

1900. Portland "Atlas" cement, \$2.24 barrel.
00, 769.

1901. "Atlas" Portland cement. 01, 715.

1902. Tile, \$157.50 and \$210 per M; steel doors,
2 x 6", \$27; 3', \$30; 4', \$40; 6', \$54; Saylor's Port-
land cement, \$1.40 barrel in sacks; broken stone,
\$1.85 c. y.; sand, 67¢ c. y. 02, 641.

Part 46, FNA.

Engineering Features.

Cement—tests. 02, 2455. Mixing. 02, 2454.
Concrete—mixing and placing. 00, 770; 02,
2453 (pl.). Superiority of dust over sand. 02,
2457. Strength of various mixtures. 02, 2454.
Construction plant, details. 02, 2452 (pl.).
Doors—ammunition hoist. 05, 3006 (pls.).
Drainage. 02, 2454.
Employees—distribution of. 00, 772.
Leakage—preventing. 05, 3003, 3004, 3006 (pls.).
Linings. 03, 2380 (pls.).

Magazines—stanchions. 05, 3006 (pls.).
Pavements—waterproofing 05, 3006.
Plant—cost of. 00, 772.
Rocks. 05, 3006 (pls.).
Roofs—concrete blocks in. 05, 3006 (pl.).
Ventilation—various methods employed. 05,
3005, 3006 (pls.).
Waterproofing—methods employed. 03, 2374,
2380; 04, 3711; 05, 3003, 3006.

Part 47, FNA.

Engineers.

Chief of Engineers. R., 66, 5; 67, 5; 68, 9;
69, 9; 70, 14; 71, 9; 72, 6; 73, 6; 74, 8; 75, 7;
76, 8; 77, 6; 78, 8; 79, 11; 80, 21; 81, 19; 82, 14;
83, 10; 84, 16; 85, 10; 86, 10; 94, 13; 95, 6; 96;

01, 15; 02, 15.

Part 48, FNA.

Board of Engineers.

Constituted, 1882, to consider and report upon
the condition of fortifications, and what number,

if any, could be dispensed with. R., 82, 416.

Part 49, FNA.

Engineers in Charge.

Lt. Col. J. N. Macomb, 1866.
 Lt. Col. Z. B. Tower, 1867.
 Lt. Col. J. G. Foster, 1867-71.
 Lt. Col. J. C. Duane, 1871-79.
 Col. C. E. Blunt, 1879-86.
 Maj. J. A. Smith, 1886.

Lt. Col. A. N. Damrell, 1897.
 Maj. R. L. Hoxie, 1897-99.
 Maj. S. W. Roessler, 1899-1900.
 Maj. W. L. Fisk, 1900.
 Capt. H. Taylor, 1900-02.

Part 50, FNA.

Assistants.

Lt. G. P. Howell, 1897-99.
 Lt. C. Keller, 1899.
 Lt. T. H. Jackson, 1899-1900.
 Capt. C. Keller, 1900.

W. F. Robinson, 1901.
 C. F. Woodbury, 1901.
 Lt. R. R. Raymond, 1901.

Part 51, FNA—

FORTS AND BATTERIES.

Part 52, FNA. Fort McClary (Kittery Point, Me.).

1863. Original work begun early in century; inclosed barbette work begun in 1863. 80, 21.

1866. 147 l f. coping laid on south, southeast, and east walls; work on west scarp; terreplein excavated. 66, 5.

1867. Work on scarp wall; ditch excavation. 67, 5.

1868. Excavation for ditches completed; work on scarp on west front and northwest caponniere; minor work. 68, 9.

1869-73. Care and preservation. 69, 9; 70, 14; 71, 9; 72, 6; 73, 6.

1874. Three temporary wooden platforms for heavy guns nearly completed. 74, 8.

1875. Roadway repaired. 75, 7.

1876-86. Care and preservation. 76, 8; 77, 6; 78, 8; 79, 11; 80, 21; 81, 19; 82, 15; 83, 10; 84, 16; 85, 10; 86, 10.

1898. \$2,400 allotted for preservation and repairs. Three 15-inch guns mounted on temporary wooden platforms. 98, 587.

1899. Proj. contemplates the use of the existing armament and the mounting of the 15-inch gun pending constr. of modern batteries. 99, 708.

1900. Repairing engine house to store mining material. 00, 773.

1901. Care and preservation. 01, 716.

Part 53, FNA.

Fort Constitution.

1866. Work on north scarp; eastern part of old fort demolished and debris removed; foundation of new work in progress. South front, 1 pier and 6 embrasures built and flagging laid for 9 casemates. 66, 5.

1867. Work on scarp wall; constr. embrasures, and laying flagging. 67, 5.

1868-71. Care and preservation. 68, 9; 69, 9; 70, 14; 71, 9.

1872. Earthen barbette battery for 14 guns in rear of the partially casemated work; est., \$83,500. 72, 6.

1874. Temporary position for 2 heavy guns prepared, and platform partly laid. 74, 8.

1875-86. Care and preservation. 75, 7; 76, 9; 77, 6; 78, 8; 79, 11; 80, 22; 81, 19; 82, 15; 83, 10; 84, 16; 85, 10; 86, 11.

1900. Old building removed; imp. ventilation of magazines. 00, 773.

1901. \$345 allotted for care and preservation. 01, 717.

Part 54, FNA. Barbette Battery at Gerrish Island, Me.

1872. Proj., 12-gun battery; est., \$45,240. 72, 6.

1873. \$25,000 app. Parapet embankment; building concrete magazines. 73, 7.

1874. \$15,000 app. Work on parapet, road-way in rear of terrepleins and 2 traverse magazines. 74, 8.

1875. \$10,000 app. Foundations for all traverse magazines prepared. 75, 8.

1876. Five breast-height walls finished; gun platforms built. 76, 9.

1877-78. Care and preservation. 77, 6; 78, 8.

1879. Plans for completion approv.; partly executed. 79, 11.

1884. Plans require revision. 84, 16.

Part 55, FNA. Barbette Battery at Jerrys Point.

1872. Proj., 12-gun battery; est., \$46,824. 72, 6.

1873. \$25,000 app. Work begun, parapet embankment and building concrete magazines. 73, 7.

1874. \$15,000 app. Raising parapet embankment; excavation for foundations of all traverse magazines completed. 74, 8.

1875. \$10,000 app. Traverse magazines built; 3 breast-height walls completed; work on parapet embankment. 75, 8.

1876. Two traverse magazines built, founda-

tion of another laid, and over 2,000 c. y. of embankment made. 76, 9.

1877-78. Care and preservation. 77, 7; 78, 8.

1879. Plans for completion approv.; partly executed. 79, 11.

1884. Plans require revision. 84, 17.

1885. Placing woodwork in traverse magazines to make them serviceable. 85, 10.

1886. Platforms ready for 15-inch guns; earth-work incomplete. 86, 11.

Part 56, FNA. Two 8-inch Gun Emplacements.

1897. \$53,150 allotted. Emplacements to be built by contract (\$55,372.52). Excavations in progress. 97, 597.

1898. \$800 allotted for repair of buildings. Guns mounted; work nearly completed. 98, 591.

1899. \$16,000 allotted. Battery completed under contract; cost, \$61,936.21. \$500 allotted for repairs of road and buildings. 99, 703.

1902. Floors relaid, concrete surfaces coated and painted. 02, 639, 640.

Part 57, FNA. Two 8-inch B. L. R. Guns Mounted on Strengthened Barbette Carriages for 15-inch S. B. Guns.

1898. \$6,000 allotted. Work begun; carriages received and mounted, awaiting guns. 98, 592.

1899. Guns mounted. 99, 708.

1900. Guns dismounted and shipped elsewhere. 00, 15.

Part 58, FNA. Three Emplacements for 10-inch Guns on Disappearing Carriages.

1899. \$146,000 allotted. Work begun; excavation in progress. 99, 704.

1900. Excavations completed; concrete floors and parapet of 1 emplacement completed to height of loading platform, and floors of second emplacement completed; 3 carriages received. 00, 769.

1901. \$12,000 allotted. Concrete work completed; erection of ironwork, beams, etc., done; gun carriages mounted; battery practically completed; two 10-inch rifles received. 01, 715.

1902. Work completed; battery transferred to Artillery. 02, 639.

Part 59, FNA. Emplacements for Two 12-inch Guns.

1901. \$2,000 allotted. Artesian well dug; plans and est. for battery submitted. 01, 715, 716.
 1902. \$107,000 allotted. Plant installed; battery excavation completed; wall foundations in; frame for concrete forms practically completed. 02, 639.

Part 60, FNA. Preservation and Repair of Fortifications.

The following allotments were made: Fort McClary, \$238.58; Fort Constitution, \$6.25; Portsmouth, \$320.70. Shipping material to depot for minor repairs. 02, 640.

Part 61, FNA. Sites.

Fort McClary Reservation, Me. By act of Jan. 23, 1893, part of the reservation exchanged for other land; sites transferred by deed. 94, 13; 95, ..

Part 62, FNA. Submarine Mines.

1897. \$1,000 allotted. 97, 598.
 1898. \$23,300 allotted in connection with defense of Maine coast; placing mines in H. 98, 592.
 1899. \$5,633.60 allotted. Mining casemate completed. 99, 703. Mines removed from H. 99, 709.
 1900. \$2,800 allotted for cable tank, which was completed; traveling crane installed; overhauling searchlight plant. 00, 773.
 1901. \$300 allotted. Gutters placed and cistern built under torpedo storehouse for cable tank. 01, 716. \$5,700 allotted for torpedo storehouse; building practically completed. 01, 716.
 1902. Crane installed and building for torpedo warehouse entirely completed. 02, 640. Cable tank entirely completed; pump installed; turned over to Artillery. 02, 640.

FNB BOSTON (MASS.) FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Lt. C. S. Bromwell, 1899-1900.

Part 7, FNB.—

FORTS AND BATTERIES.

Part 8, FNB.

Fort Warren (Georges Island).

1833. Work begun. 80, 23.
1866. Fort nearly completed according to original plans. Work modifying casemated platforms to suit modern guns of heavy armament; interior finish of casemates for hospital purposes; preparing stone for main gateway; and drainage. 66, 6.
1867. Fittings of casemates completed; traverse circles with longer radii relaid on parapet of front 1; quarters and hospital finished; and minor work. 67, 6.
1868. One bombproof traverse on coverface of northeast front 2 built, another one nearly finished; work on scarp wall and arch of main gateway; repairs to drain, slopes, etc.; removal of old engineer buildings within the fort, and their reconstr. 68, 9.
1869. Masonry and earthwork of bombproof traverse, front 2, completed; repairs to quarters, embankments, and casemates, etc.; modified plans prepared; est. cost, \$402,400. 69, 9.

1870. Repairing leaks in coping of scarp wall, officers' quarters, and renewing asphalt floors, and minor work. 70, 14.

1871. \$50,000 app. Modification work begun; preparing demilune south of main work for larger ordnance; concrete masonry of 2 traverse magazines built; parade walls torn down and drains rebuilt; foundations of all piers for the new, large arches completed; and minor work. 71, 9.

1872. \$85,000 app. Removal of parade wall in bastion A completed; piers of all arches built; stone faces of the arch at the gorge and of arch over stairway completed; work on remaining arches in the bastion, and wing and sustaining wall on right of the gorge; masonry and earth cover of the parados completed; and minor work. 72, 7.

1873. \$40,000 app. All new work in bastion A complete; bastion E masonry of 2 traverse magazines of its barbette completed, and minor work;

demilune masonry of 1 platform completed; work on new sand parapet, and embankment of traverses and parados; minor work. 73, 7.

1874. Bastion A: Completion of five 15-inch gun platforms and their breast-height walls, masonry of 2 traverse magazines with connecting parados arch, and necessary doorways, staircases, etc.; work on earth cover and sand parapet nearly completed. Bastion B: Completion of two 15-inch gun platforms, a third nearly finished, foundation of new arch piers in parade completed. Bastion E: Parados arch built; work on 5 new gun platforms in demilune. Breast-height wall for entire battery built; minor work. 74, 8.

1875. \$25,000 app. Battery for five 15-inch guns finished to admit of armament being placed; 3,000 tons of sand placed in parados and cover of magazines; minor work. 75, 8.

1876. Completion of ravelin battery, and as far as possible of batteries of bastion A of the enceinte; work on modifications of bastion B. 76, 9.

1877. Repairing earthen slopes, concrete and plastering of magazine arches in bastion B, drains, and asphalt cover. 77, 7.

1881. Repairs of slopes, casemates, drains, and ironwork. 81, 20.

1882-84. Repairs of slopes, drains, and buildings. 82, 16; 83, 11; 84, 17.

1885. Repairing sea wall, drains, and casemates; torpedoes painted, 10-inch and 15-inch platforms put in serviceable order; and minor repairs. 85, 11.

1886. Repairs of cisterns; hanging doors; extra traverse irons placed on 10-inch gun front pintle barbette platforms to adapt them to the new ordnance carriage for 8-inch converted rifles; steamer *Tourist* repaired. 86, 12.

1887. Est. by BE. for gun and mortar batteries. 87, 11.

Part 9, FNB. Fort Independence (Castle Island).

1833. Work begun. 80, 24.

1866. Resetting gun platforms; flagging; cutting out and replacing new pintle for 21 barbette guns in main work; repairing breast-height wall and earthen parapet of northwest exterior battery, and building bombproof magazine chamber of this battery. 66, 6.

1868. Masonry, concrete, and earth covering of magazine of the northwest exterior battery completed; completion of masonry of southeast exterior battery bombproof traverse; masonry of adjacent magazine begun; parapet cut down; embankment at outer extremity of battery enlarged and raised; and minor work. 68, 10.

1869. Work on southeast exterior battery magazine, bombproof adjacent completed: slopes repaired; and minor work. Modified plans. 69, 10.

1870. Est. cost of modifications, \$106,000. Earth covering and sodding of east battery magazine completed; repairing breaks in scarp wall and parade wall copings. 70, 15.

1871. \$27,500 app. Modification work begun: necessary buildings for employees built; masonry of 2 new traverse magazines built; minor work. 71, 10.

1872. \$42,500 app. Breast-height walls of east, southeast, and north bastions completed; work on 6 platforms and breast-height walls of northwest bastion; excavation for sand parapet of fronts 1 and 2; minor work. 72, 7.

1873. \$35,000 app. Completion of masonry of 2 center pintle and 4 front pintle 15-inch gun platforms, with their breast-height walls; small magazines on front 1; masonry, earth slopes, and hoist-

ing sand for east bastion; work on earth slopes and excavation for sand parapet of east bastion and curtain of front 1. 73, 8.

1874. New barbette battery finished ready for armament; completion of new sand parapet, traverse magazines, parade on fronts 1 and 2, 2 traverse magazines on front 3, excavation for sand parapet, and minor work in east exterior battery. 74, 9.

1875. Modifications of the battery of the enceinte nearly completed; one 15-inch gun platform in east exterior battery finished; work on 2 others, with their breast-height walls, and new parapet in front of battery. 75, 9.

1876. Completion of proposed modifications of barbette battery of the enceinte, of 5 platforms, ready for armament, in east exterior battery, and minor work. 76, 10.

1877. Care and preservation. 77, 7.

1881-84. Repairs of slopes, drains, and buildings, etc. 81, 22; 82, 17; 83, 13; 84, 19.

1885. Gun platforms put in serviceable condition, and repairs of buildings, wharves, etc. 85, 12.

1886. Doors hung; ironwork on 15-inch platforms painted; extra traverse irons placed on 10-inch gun platforms to adapt them to the 8-inch converted rifles. 86, 13.

1898. Castle Isld. turned over to the city of Boston for park purposes, act of May 1, 1890. Public excluded from fort and batteries. 98, 601.

1899. All explosives removed from the isld. and all torpedo material stored. The isld. again opened to the public. 99, 711.

Part 10, FNB. Provincetown Harbor—Permanent Forts.

1866. Defenses of this part of the coast to be considered by board of officers. Balance in Treasury; \$150,000. **66, 6.**

1867-70. Work awaiting the preparation plans. **67, 6; 68, 10; 69, 10; 70, 15.**

Part 11, FNB. Long Island Head Battery.

1869-70. Possession of this site, for defense of Broad Sound and the main ship channel, acquired by act of Mar. 28, 1867. Proj. for barbette earthen battery for heavy guns; est. cost, \$175,000. **69, 9; 70, 15.**

1871. \$37,500 app. Work begun. Necessary buildings for employees built. **71, 10.**

1872. Work on wharf, excavation for the eastern mortar battery and parados in rear, concrete masonry of these positions, and drainage. **72, 7.**

1873. Completion of drain of eastern part of the battery, 2 large magazine cells and their connected parados arches, foundation of east salient gun platform and its breast-height wall, and excavation for the magazine and parados north of it; minor work. **73, 7.**

1874. \$40,000 app. Completion of center-pintle 15-inch gun platform at east salient of the battery, and masonry of adjacent magazine and parados. **74, 9.**

1875. \$30,000 app. Work on embankment traverse magazines and parados; completion of 15-inch gun platforms with their breast-height walls; minor work. **75, 8.**

1876. Completion of four 15-inch front-pin gun platforms with their breast-height walls, rear for armament. Work on parados. **76, 9.**

1877. Repairing drains, and grading terrepleins of 2 upper batteries to allow guns to traverse. **77, 7.**

1881. Repairs made to buildings, gun carriages, etc. **81, 21.**

1882. Repairs to earth slopes and traverse magazines, buildings, etc. **82, 16.**

1885. Gun platforms put in serviceable order; minor repairs to buildings, fences, drains, and slopes. **85, 11.**

1886. Doors hung; repair of slopes, and painting ironwork of gun platforms. **86, 12.**

1887. Est. by BE. for gun and mortar batteries. **87, 11.**

Part 12, FNB. Fort Sewell (Marblehead.)

1884. Fort built 1863-65. History and description. **84, 17.**

Part 13, FNB. Fort Andrew (Plymouth Harbor).

1884. Fort built 1863-65. History and description. Site purchased, 1870. **84, 19.**

Part 14, FNB. Fort Standish (Plymouth Harbor).

1884. Fort built 1862-65. Description. Site purchased, 1870. **84, 19.**

Part 15, FNB. Fort Winthrop and Batteries (Governor Island).

1844. Existing work, consisting of a central casemated keep, and exterior earthen batteries begun in 1844. **80, 23.**

1866. Three bombproof south battery magazines completed, and slopes of east part of battery sodded, earthwork repaired, and bombproof traverse

next west of the stone redoubt sodded; work on stone walls, entrance to second traverse magazine west of stone redoubt, south battery; repair quarters, and minor work. **66, 6.**

1867. Earth covering and sodding of the west magazine, south battery, completed; parapet

south, east, and northwest batteries repaired and sodded; bluff below south battery graded and seeded; northeast and northwest bastions of the earthwork to surround the tower begun; tunnel covered way to south battery excavated; and concrete foundation of its walls laid. 67, 6.

1868. Work on long covered way between the tower ditch and south battery; raising embankment of the bastions around the tower; repairing embankments of bombproof traverses; minor work. 68, 10.

1869. Covered way completed and bomb-proof traverse, opposite, built; earthen counterscarp slopes around tower finished; embankment repaired; minor work. Plans modified. 69, 10.

1870. Est. cost of modification, \$130,000. Earth counterscarp slopes completed; west half of exterior earthwork of tower completed; communication between ditch of the tower and south battery completed; minor work. 70, 15.

1871. \$45,500 app. Modification work begun; concrete masonry, east battery, constr.; drainage and minor work; 3 traverse magazines, south battery, imp. and enlarged; parade reasphalted; and minor work. 71, 10.

1872. \$64,000 app. Work on traverse magazine, platforms, breast-height wall, and sand parapet, east battery; breast-height wall for 4 gun positions, south battery, built; western magazines and shell room, and pit for mortar beds, completed. 72, 7.

1873. \$50,000 app. Completion of new platforms designed for ordnance carriages in east bat-

tery, and front-pintle platforms of south battery; work on breast-height wall platform, traverse magazine, and new parapet of south battery; mortar battery completed; and minor work. 73, 7.

1874. Platform for forty-four 15-inch guns completed; sand parapet of east battery finished, and work on excavation for sand parapet of south battery; 2 new traverse magazines finished, work on a third. 74, 9.

1875. Completion of masonry of breast-height walls, platforms of two 15-inch guns, necessary ironwork of 4 others; work on breast-height walls for 4 gun positions. Battery, except new sand parapet, completed. 75, 9.

1876. Completion of east and south batteries (comprising forty-three 15-inch platforms), excepting about one-half of new sand parapet of south battery. 76, 10.

1877. Repair of slopes and drains. 77, 7.

1881. Repairs of earth slopes, drains, and buildings; and painting ironwork. 81, 21.

1882-84. History and condition. Repairs of slopes, etc. 82, 17; 83, 12; 84, 18.

1885. Gun platforms put in serviceable condition; repair of slopes, parade of the tower, and buildings. 85, 12.

1886. Doors hung; painting ironwork of gun platforms; extra traverse irons placed on 10-inch gun platforms to adapt them to the new carriage for 8-inch converted rifles; drain of the tower cleaned and extended. 86, 13.

Part 16, FNB. Emplacement for 8-inch Guns, Disappearing Carriages.

1891. One emplacement under constr. 91, 7.

1892. Old masonry demolished. 92, 5.

Part 17, FNB. Site 4.—Mortar Battery for Sixteen 12-inch Mortars.

1891. Work begun June, 1891. 91, 7.

1892. \$121,039.27 allotted, 1891. Excavation completed; 9,000 c. y. embankment built; 6,700 c. y. concrete placed. 92, 5.

1893. \$10,000 allotted. Masonry and earth embankment nearly completed. 93, 6.

1894. Embankments and sodding completed. 94, 7.

1895. Eight mortars mounted; work on 4 platforms. 95, 7.

1896. \$2,786.50 allotted. All platforms finished, mortars mounted, and battery nearly finished. Turned over to Artillery. 96, 12, 470.

1897. Battery completed. 97, 602.

1898. \$275 allotted for repairs of electric plant. 98, 595.

1899. \$6,400 allotted for repairing slopes, electric plant, and for constr. of power house, etc. 00, 781.

1900. \$375 allotted for hanging doors. 00, 781.

1901. \$6,750 allotted. Work on ventilation and drainage system in progress. 01, 723.

1902. Drainage system finished; new floors laid; wall of pit repaired. 02, 644.

Part 18, FNB. Site 5.—Mortar Battery for Sixteen 12-inch Mortars.

1897. Negotiations in progress for purchase of site. 97, 12, 603.

1898. Jurisdiction over site ceded to National Government by the Commonwealth of Massachusetts, Apr. 6, 1897; plans for emplacements for eight 12-inch mortars prepared and work on excavation begun June 15, 1898. 98, 595.

1899. \$108,000 allotted. Wharf and excavation completed; concrete of magazines and passages placed; mortar platforms made ready to receive base rings; earth embankments and road nearly completed; 8 mortars and carriages received. 99, 714.

1900. \$23,450.10 withdrawn from allotment. Road completed; embankments graded and sodded; armament mounted by hired labor; paving of pits in progress. 00, 781, 782.

1901. First half, electric-light conduit installed; second half, \$113,000 allotted; plans submitted for emplacements for eight 12-inch mortars; plant and quarters erected; drains laid; one-half foundation placed. 01, 724.

1902. \$36,720.41 allotted for second half; concrete work nearly completed. 02, 644.

Part 19, FNB. Site 5.—Emplacements for Two 6-inch R. F. Guns.

1901. \$27,000 allotted. Plans prepared. 01, 725.

1902. Excavation work for battery; drainage system laid. 02, 644.

Part 20, FNB. Site 1.—Emplacements for Five 10-inch Guns on Disappearing Carriages.

1892. \$156,194.05 allotted, 1890-91. Work on concrete masonry. 92, 4.

1893. Work on 3 emplacements; 4,000 c. y concrete placed. 93, 5.

1894. Constr. materials collected for 2 emplacements; some masonry built. 94, 7.

1895. Three emplacements ready for guns. 95, 6.

1896. \$53,138.16 allotted. Guns not yet received; some concrete work. 96, 470.

1897. Two 10-inch carriages assembled; work on another one. 97, 601.

1898. New proj. One carriage assembled and three 10-inch guns mounted; some concrete work.

\$74,000 allotted. Work begun on 2 other emplacements. 98, 593.

1899. \$46,800 allotted. Three emplacements practically completed except minor work; work on 2 other emplacements nearly completed; the 2 guns and carriages received but not mounted. 99, 709, 720.

1900. Guns and carriages mounted, completing the emplacements in all respects. 00, 774.

1901. Plant removed. 01, 718.

1902. \$540 allotted. Roadway built; 2 old-type platform lifts removed; new-type chain hoist purchased and installed. 02, 642.

Part 21, FNB. Site 2.—Emplacements for Five 10-inch Guns on Disappearing Carriages.

1893. \$58,000 allotted. Work begun December, 1892; 2,500 c. y. earth excavated and placed in embankment of 1 emplacement. 93, 6.

1894. Masonry of 1 emplacement well advanced; materials collected and stored. 94, 7.

1895. One emplacement ready for gun. 95, 6.

1896. \$21,674.75 allotted. Emplacement will be completed. 96, 470.

1897. \$197,200 allotted. New proj.; completion of emplacements 1, 2, and 3; excavation of emplacement 4 nearly ready for concreting; work on excavation 5; 4 platforms ready for carriages and guns. 97, 601.

1898. Work on excavation, parapet walls

ammunition service, electric-light plant; 5 guns and carriages mounted; battery nearly completed; \$4,000 allotted for commanders' stations, and foundations in place. 98, 594; 99, 713.

1899. Battery, except minor work, completed. 99, 712.

1900. Battery completed. 00, 778.

1901. \$10,500 allotted. Lighthouse removed; grading roadway begun; work transferred to Artillery in 1899. 01, 721.

1902. \$1,425 allotted. Road nearly completed; old platform lifts removed; chain hoist partly installed. 02, 642.

Part 22, FNB. Site 1.—Two Emplacements for 4-inch R. F. Guns.

1898. \$9,090 allotted. Work begun, excavations nearly completed; platforms ready for guns. **98**, 593.

1899. Guns mounted, electric light installed, stairs built; minor work. Emplacements completed by July 1, 1899. **99**, 720.

Part 23, FNB. Site 2.—Two Emplacements for 4.72-inch R. F. Guns.

1898. \$14,740 allotted. Work begun, guns mounted, excavations finished, and concrete work in progress. **98**, 594.

1899. Guns mounted and battery, excepting minor details, completed. **99**, 722.

Part 24, FNB. Site 3.—Three Emplacements for 12-inch Rifles, Disappearing Carriages.

1898. \$151,680 allotted. Work begun April, 1898; platforms ready for mounting guns; excavation completed; magazine work in progress. **98**, 595.

1899. \$36,000 allotted. Battery practically completed; 3 carriages on hand. **99**, 713, 721.

1900. \$23,800 allotted. Battery completed; guns mounted. **00**, 779, 780.

1901. Steps taken to transfer to Artillery. **01**, 722.

1902. Transferred, 1901. Minor repairs to battery. **02**, 643.

Part 25, FNB. Site 6.—Two Emplacements for 12-inch Rifles, Nondisappearing Carriages.

1898. \$4,800 allotted for communication for range-finding service. \$80,000 allotted. Survey on site; excavation begun. **98**, 596.

1899. \$27,000 allotted. Battery completed in all essential details. Part of 1 carriage received. **99**, 722.

1900. \$6,960.30 allotted. Work on slopes; installation of electric-lighting plant, permanent water supply, and minor work. **00**, 782.

1901. Trolleys, cranes, and railing completed. Work transferred to Artillery. **01**, 725.

Part 26, FNB. Site 1.—Two Emplacements for 12-inch Guns on Disappearing Carriages.

1899. \$123,000 allotted. Concrete work begun. **99**, 710.

1900. \$15,760 allotted. Emplacements completed excepting some work on platforms and mounting guns. **00**, 774.

1901. \$5,400 allotted. Platforms completed, armament mounted; tile drain laid; ammunition cranes installed. **01**, 718.

1902. \$477.48 allotted. Rooms in old fort cleared of material; walks repaired; connection made to electric motors. **02**, 641, 642.

Part 27, FNB. Site 1.—Three Emplacements for 15-pounder R. F. Battery.

1899 \$9,300 allotted. Site laid out ready for excavation. **99**, 711.

1900. \$3,450 allotted. Battery completed in all respects, electric-lighting system installed, and guns mounted; work turned over to the garrison. **00**, 775.

Part 28, FNB. Site 7.—Emplacements for Two 6-inch Rifles.

1901. \$25,000 allotted. Site surveyed, prepared for work, drains laid; forms erected and foundations laid. **01, 728.**

1902. \$7,000 allotted. Battery completed, except laying floors; hanging doors; installing ammunition hoists; grading and sodding parapet. \$10,100 withdrawn. **02, 646.**

Part 29, FNB. Site 7.—Emplacements for Four 10-inch B. L. Rifles.

1901. \$192,500 allotted. Plans prepared; plant purchased; railroad built; excavation begun. **01, 728.**

1902. (Called site 6 in 1902.) Excavation completed; drains, conduits, speaking tubes placed, for 3 emplacements. **02, 645, 646.**

Part 30, FNB. Site 7.—Three Emplacements for 6-inch R. F. Guns on Disappearing Carriages.

1899. \$65,000 allotted. Preparation of plans for wharf and general constr. plant in progress. **99, 715.**

1900. Excavation, and about one-half of concrete work completed. Two carriages received. **00, 784.**

1901. \$26,000 allotted. Concrete completed; parapet constr.; electric plant installed; water supply nearly completed; trolleys, handrails, doors placed; 1 carriage received and 3 carriages mounted. **01, 726.**

1902. \$1,500 allotted. Parados completed. \$4,900 withdrawn. **02, 646.**

Part 31, FNB. Site 6.—Two 5-inch R. F. Guns on Pillar Mounts.

1899. \$11,500 allotted. Excavation begun and concrete carried up to the ceiling level. **99, 715.**

1900. \$2,550 allotted. Battery completed, except setting handrails. Carriages mounted. **00, 783.**

1901. Handrails completed. Battery transferred to Artillery. **01, 726.**

Part 32, FNB. Site 2.—Two Emplacements for 15-pounder R. F. Guns.

1900. \$13,200 allotted. Work completed, excepting sodding slopes and providing ammunition lifts; no carriages or guns received. **00, 779.**

1901. \$5,580 allotted. Ammunition lifts installed, slopes sodded, bank graded, drain built, armament received and mounted. Battery transferred to Artillery, 1901. **01, 722.**

Part 33, FNB. Site 5.—Two Emplacements for 5-inch R. F. Guns, Pedestal Mounts.

1900. \$20,000 allotted. Battery completed ready for armament; neither guns nor carriages received. **00, 782.**

1901. \$3,800 allotted. Work completed; no armament received. **01, 725.**

Part 34, FNB. Site 7.—Emplacements for Three 15-pounder R. F. Guns.

1900. \$12,000 allotted. Plans prepared and survey of site made. **00, 784.**

1901. Work completed on 2 emplacements, except grading of parapet; \$9,000 allotted for constr. third emplacement au. Apr. 11, 1901; concrete work completed. **01, 727.**

1902. Parapet completed, except final grading and sodding. \$3,500 withdrawn. **02, 647.**

Part 35, FNB. Site 7.—Emplacements for Four 15-pounder R. F. Guns.

1901. \$19,000 allotted. Constr. au. Apr. 24, 1901; railroad constr., derrick, and engine installed; excavation completed, drains laid, forms erected, concrete work begun. **01, 728.**

1902. Battery nearly completed. \$5,000 withdrawn. **02, 647.**

MISCELLANEOUS.

Part 36, FNB. Underground Conduit System.

1900. Site 1.—\$9,250 allotted. Description of system. 3,000' of conduit laid. **00, 776.** Site 2.—\$3,000 allotted. Work completed. **00, 779.**

1901. Site 1.—Work completed. **01, 720;** Site 3.—\$780 allotted. Work completed. **01, 722.**

Part 37, FNB. Central Electric Lighting Plant.

1900. Site 1.—\$10,000 allotted. Description of plant, installation of which was completed. **00, 777.** Site 2.—\$6,300 allotted. Work completed.

Description of plant. **00, 779.**

1901. Sites 1 and 2 transferred to Artillery, 1900. **01, 720, 722.***

Part 38, FNB. Construction of Lighter.

1901. \$20,000 allotted. Plans and specifications prepared by naval architect. **01, 729.**

1902. Completed and delivered. **02, 647.**

Part 39, FNB. Construction of Storehouses.

1901. \$3,500 allotted for constr. of 2 storehouses, site 6. One storehouse nearly completed, material for second building purchased, site prepared. **01, 729.**

1902. Both storehouses finished. **02, 645.**

Part 40, FNB.**Roadway at Winthrop.**

1902. Letters and indorsements from Sec. of War, Chief of Engineers, Judge Advocate General, act of Congress. Deeds and conveyances referring to a strip of land purchased by U. S. for present site of Fort Banks. It is recom. that U. S. dedi-

cate to town of Winthrop another strip of land to be used as a public highway, and that \$200 be app. for grading and making roadway through middle of said strip. **02**, 651, etc.

Part 41, FNB.**Moving and Mounting Guns and Carriages.**

1900. Site 1.—\$1,100 allotted. Two 10-inch guns and carriages moved from wharf to emplacements, to be mounted by the garrison. **00**, 777. Site 6.—\$1,200 allotted. Two 12-inch carriages mounted; no guns on hand. **00**, 783.

1901. Site 1.—\$2,940 allotted for two 12-inch guns moved from wharf and mounted in emplacements by hired labor. **01**, 720. Site 6.—\$6,821.43 deposited to credit of Treasurer of U. S. **01**, 726.

Part 42, FNB.**Preservation and Repair of Fortifications.**

1898. \$275 allotted for repair of electric plant, mortar battery at Fort Banks. **98**, 595. \$800 allotted for cleaning and painting mine cases. **98**, 601.

1899. \$500 allotted for repairs at Fort Strong, \$415 for repairs at Fort Banks, \$365 for repairs at Fort Andrews, and \$365 for repairs at Fort Revere. \$800 allotted for repair of 10-inch and 12-inch emplacements and \$200 allotted for relaying flagging, Fort Warren. \$175 allotted for repairing bridge of old works, Fort Winthrop; and \$2,200 for repair of wharf, Fort Independence. **99**, 717, 718.

1900. \$675 allotted for general repair of batteries and their power plant, Fort Warren; \$300 allotted for general repairs of plant and \$4,250 allotted to prevent dampness in magazine at Fort Strong; \$210 allotted for demolition and removal of old buildings occupying ground required for other purposes, Fort Strong; \$800 allotted for care

and repair of plant, Fort Heath; \$330 allotted for repairs at Fort Banks; \$1,000 allotted for repair and care of Fort Andrews; \$1,860 allotted for general care and repair at Fort Revere; \$250 allotted for repairs at Fort Standish. **00**, 786-89.

1901. \$230 allotted for Fort Warren; repairs to lighting system; ammunition lifts; walls of power room painted. **01**, 730. \$790 allotted for Fort Strong; old engineer building demolished. Following allotments made: \$1,120 for Fort Heath; \$110 for Fort Banks; \$425 for Fort Andrews; \$220 for Fort Revere; \$100 for Fort Standish. **01**, 730, 731, 732, 733.

1902. Minor repairs made to buildings and batteries. Withdrawals: Fort Independence, \$9.87; Fort Warren, \$44.04; Fort Strong, \$0.03; Fort Banks, \$238.94; Fort Andrews, \$385.20. Allotted: Fort Warren, \$200. **02**, 649. Fort Heath, \$527.84 allotted, \$0.18 withdrawn. **02**, 643.

Part 43, FNB.**Range and Position Finders.**

1900. \$4,605 allotted. Commander's station completed; \$8,400 allotted for 2 additional range-finder stations, site 1. **00**, 776. Total of \$5,385 allotted for commander's station at site 2, completed **00**, 778. Site 3.—\$6,400 allotted. Work begun. **00**, 780.

1901. \$4,020 allotted. Two stations at site 1 completed. **01**, 719. Commander's station, site 2, transferred to Artillery, 1900. **01**, 721. Site 3.—\$2,600 allotted. Work completed. **01**, 722.

Part 44, FNB.

Sites.

Grovers Cliff. Fifty acres acquired in 1891. **92**, 9. Eight small lots acquired by purchase. **93**, 10. Total area acquired, 50 $\frac{1}{2}$ acres for \$263,-597.79. **94**, 13.

Peddocks Island. \$33,130 allotted for purchase of 33.13 acres. **98**, 599.

Deer Island. 23.34 acres transferred by Boston to the U. S.; more land wanted by U. S. City did not feel justified in transferring any more land at the time. **98**, 600; **99**, 719.

Nantasket Head. \$251,248.85 allotted. About 40 acres acquired by purchase. **98**, 600.

Nahant. Report, as to desirable land, to be submitted later. **98**, 600; **99**, 719. Description of land acquired. **99**, 718; **00**, 789. \$1,000 allotted for survey. **00**, 791.

1901. Acquisition of about 239,078.9 sq. f.; 49 lots paid for. **01**, 734.

1902. Part of tract purchased. **02**, 648.

Part 45, FNB.

Submarine Mines.

1891. Two mining casemates completed, one each at Forts Warren and Strong. **91**, 7.

1893. \$27,000 allotted. Work begun, third casemate, Fort Standish. **94**, 7.

1894. Masonry and entrance gallery completed; work on cable gallery and sand embankment, Fort Standish. **94**, 7.

1895. Masonry casemate and gallery of third casemate finished and sand cover nearly completed. **95**, 7.

1897. \$4,300 allotted. Work on cable tank at Fort Strong. **97**, 602.

1898. Cable tank nearly completed; \$1,035 allotted for removal of torpedo material from Fort Warren to base of operations at Fort Independence; \$25,000 allotted for purchase of additional torpedo material; \$68,700 allotted for planting mines. Description of mines, material, and the planting **98**, 597. \$800 allotted for cleaning and painting mine cases. **98**, 601.

1899. \$700 allotted for storehouse at Fort Independence; \$2,000 and \$2,700 for casemates, Forts Warren and Strong; \$2,000 for storage of material at Fort Independence. Storehouse completed; Fort Strong casemate begun; storage practically completed. \$76,847.18 allotted for planting and removing mines, and purchasing and cleaning torpedo material. Mines removed. **99**, 716, 723.

1900. \$850 allotted, for casemate, Fort Strong, completed; and one, Fort Warren, practically completed; \$1,600 allotted and torpedo material cleaned and stored at Fort Independence. \$600 withdrawn from \$2,000 allotment. **00**, 785, 787.

1901. Casemate completed. **01**, 729. \$7,000 allotted for cable tank extension, Fort Strong shed constr.; hoisting device partly constr. **01**, 730. \$605 allotted and unserviceable material shipped to Willets Point. **01**, 731.

1902. Cover for cable tank completed; trolleys purchased and installed. **02**, 647. Material for mines transferred to Fort Independence. \$47.99 withdrawn, \$100 allotted. **02**, 648.

Part 46, FNB. Supplies for Coast Defenses.

1900. \$1,000 allotted or purchase of electrical supplies; none purchased. **00**, 791.

1901. Supplies purchased and issued to commanders. **01**, 734.

1902. \$1,300 allotted. Electrical supplies purchased. **02** 648.

FNC. MASSACHUSETTS AND RHODE ISLAND FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FNC.

Contracts.

1897. Sand, \$1.25 per c. y.; small stone, \$1.81 per c. y.; Rosendale cement, 85¢ per barrel; Portland cement, \$2.12 per barrel. 97, 604. Three 10-inch emplacements, \$56,967 for 2. 97, 606.

1899. Rosendale cement, 68¢ per barrel; small stones, \$1.80 per c. y.; sand, \$1.35 per c. y.; Portland cement, \$2.15 per barrel. 99, 737.

1901. Crushed stone, \$1.57 per c. y.; sand, \$1.30 per c. y.; Giant Portland cement, \$2.26 and

\$1.80 per barrel; lumber, \$21 per M f. planed, \$17, per M f. rough. 01, 736. Conduit, switches, junction boxes, etc.; switchboards, covered cable, generating sets. 01, 739.

1902. Building sea walls. 02, 663. Book tiles; constr. wharf. 02, 665.

Part 2, FNC.

Engineering Features.

Asphalt, placing. 00, 809.

Cement, test. 96, 471.

Concrete, painting. 03, 2386.

Dampproofing. (See Waterproofing, below.)

Foundations. 03, 2384; 04, 3712.

Magazines, linings for. 02, 2458 (pl.); 03, 2385; 04, 3712.

Materials and work, cost of. 99, 726, 733, 735; 00, 803, 805, 809, 811.

Mining casemate. 96, 471.

Waterproofing. 00, 795, 799, 809; 02, 2458.

Part 3, FNC.

Engineers.

Chief of Engineers. **R.**, 66, 6; 67, 6; 68, 10; 17; 83, 13; 84, 19; 85, 12, 423; 86, 14; 93, 6; 94, 69, 10; 70, 15; 71, 11; 72, 8; 73, 8; 74, 9; 75, 9; 7; 95, 7, 503; 96, 12, 471; 97, 12, 603; 98, 16, 601; 76, 10; 77, 7; 78, 9; 79, 13; 80, 24; 81, 22; 82, 99, 18, 724; 00, 16, 791; 01, 16; 02, 18.

Part 4, FNC.

Board of Engineers.

Constituted, 1882, to consider and report upon the condition of fortifications, and what number, if any, could be dispensed with. **R.**, 82, 416. **R.** 1887, 87, 11.

Part 5, FNC.

Engineers in Charge.

Capt. H. M. Robert, 1865.
Maj. G. H. Mendell, 1866-67.
Capt. S. M. Mansfield, 1866.
Maj. D. C. Houston, 1866-70.
Capt. J. A. Smith, 1867-69.
Lt. Col. G. K. Warren, 1870-83.
Capt. A. H. Holgate, 1870.

Maj. J. W. Barlow, 1883.
Lt. Col. G. H. Elliot, 1883-86.
Capt. W. H. Bixby, 1893-95.
Lt. W. W. Harts, 1895-96.
Maj. D. W. Lockwood, 1896-1901.
Maj. G. W. Goethals, 1901.
Lt. R. P. Johnston, 1900-01.

Part 6, FNC.

Assistants.

Lt. W. H. Harts, 1893-95.
Capt. C. H. McKinstry, 1896-98.
Lt. W. B. Ladue, 1898-99.

Lt. W. J. Barden, 1898.
Capt. Harding, 1898-99.
Lt. R. P. Johnston, 1898-1901.

Part 7, FNC—

FORTS AND BATTERIES.

Part 8, FNC. New Bedford Harbor, Mass.—Clarks Point (Fort).

1857. Work begun for casemated fort. 80, 24.

1866. Work on scarp of water fronts, parade wall, square towers, excavation; minor work. 66, 6.

1867. Three casemates made ready for guns; masonry of 5 magazines completed, and 3 magazines made ready for powder. Work on scarp and parade walls. 67, 6.

1868. Scarp and parade walls completed, work on foundations for breast-height wall and gun platforms; mastic covering of roofs. 68, 10.

1869. Completion of first and second tiers, except quarters; mastic covering of roof surfaces and magazines, 3 barbette magazines, breast-height wall, parapet, and terreplein of gorge and 2 rectangular stairs. 69, 10.

1870. This casemated work completed except its barbette battery over the casemates. BE.

recom. that nothing further be done than to preserve it from deterioration, and that an earthen barbette battery for twenty-six 15-inch S. B. or equivalent rifled guns be erected on the hill in rear of the fort. Repair and preservation. 70, 15.

1874. Minor repair of buildings. 74, 9.

1875. Plans for heavy gun batteries completed; est., \$181,344.60. Minor repairs of plant. 75, 9.

1876-79. Preservation and repair. 76, 10; 77, 7; 78, 9; 79, 13.

1884. Painting ironwork, mowing slopes, repairing fences, buildings, etc. 84, 20.

1885. Storing engineer property; temporary doors provided for magazines. 85, 13.

1886. Repairs of buildings, magazine doors, and bridges. 86, 14.

Part 9, FNC. New Bedford Harbor, Mass.—Fort Phoenix.

1866. Magazine anteroom floored, and 2 doors hung. 66, 7.

Part 10, FNC. New Bedford Harbor, Mass.—Mounting 8-inch Converted Rifles.

1898. \$1,800 allotted. Work begun. 98, 602.

Part 11, FNC. New Bedford Harbor, Mass.—Two Emplacements for 8-inch Guns on Disappearing Carriages.

1898. \$50,000 allotted. Work begun, excavation completed, and platforms ready for guns. 99, 725
725

1900. Repairs of slopes. Batteries transferred to the Artillery. 00, 791.

1899. \$53,500 allotted. Guns mounted and

Part 12, FNC. New Bedford Harbor, Mass.—Four Emplacements for 5-inch R. F. Guns.

1899. \$13,300 allotted. Plans and est. approv. for pedestal mounts. 99, 729.

1900. \$4,200 allotted. Work begun, excavation completed, and concrete work in progress. 00, 792.

1901. \$4,000 allotted. Work on emplacements

completed; ready for guns and electric lighting 01, 735. Chief of Engineers decides to drop two 5-inch guns, substituting four 15-pounder R. F. guns instead. 01, 736.

1902. Repairing bombproof and angle of casing wall. 02, 659.

Part 13, FNC. New Bedford Harbor, Mass.—Four 15-pounder R. F. Guns.

1901. Substituted for two 5-inch R. F. guns. \$18,300 allotted. Both batteries practically completed. 01, 736.

1902. Doors hung and painted; emplacement repaired. 02, 659.

Part 14, FNC. Newport Harbor, R. I.—Fort Adams (Narragansett Bay).

1824. Work begun. 80, 24.

1866. Work on refacing 2 embrasures; repairs to slopes; replacing granite wall above the coping with earthen parapet; building 2 traverse magazines; and laying platforms for two 15-inch and two 10-inch guns. 66, 7.

1867. Relaying traverse circles; 4 additional platforms laid; 2 service magazines built. Work begun on exterior batteries to adapt them to an armament of 15-inch and heavy rifled guns; minor work. 67, 7.

1868. Wharf repaired, new postern gates built minor repairs to drains, coping, sidewalks, casemates, arches, etc. 68, 11.

1869. General repairs of masonry, sea wall wharf, and quarters. 69, 11.

1870. Modification plans approv. for an exterior barbette battery for heavy guns; est., \$132,000. Work on latrines, repairing wharf; minor work. 70, 16.

1871. Repairing wharf, quarters, southeast glacis; minor work. 71, 11.

1872. \$35,000 app. Repairs of roads, etc. Preparing for modification work. **72, 8.**

1873. \$65,000 app. Work begun on modification. Work on parapet, roads, and quarters. **73, 8.**

1874. \$20,000 app. Completion of concrete for 6 magazines—traverses. Work on parapet, terre-plein, wharf; drainage system completed. **74, 10.**

1875. \$15,000 app. Foundations for platforms for 6 heavy guns laid, and earth of 2 traverses, with bonnets, completed; work on and repairs of slopes. **75, 9.**

1876. Four platforms set; grading slopes; drainage work; preservation and repairs. **76, 10.**

1877. Care and preservation. **77, 8.**

1878. Fence built. **78, 10.**

1882. \$10,000 allotted in 1881 for repairs of wharf; \$1,000 allotted for waterproofing casemate; rebuilding bridges and repair of buildings. **82, 18.**

1883. Waterproofing work; casemates ventilated by removing the brick cheeks of the embrasures and loopholes; repair of buildings and wharf. **83, 14.**

1884. Preservation and repair—finishing wharfs, repairing facings of 6 embrasures, sea wall, walks, etc. **84, 20.**

1885. Work on waterproofing, sea wall, repairing facings of embrasures, drainage, and minor work. **85, 14.**

1886. Ironwork of 4 front pintle platforms for 15-inch or heavy rifled guns completed; flooring of 2 magazines; work on drainage, sea walls, breast-height walls, and waterproofing. **86, 14.**

Part 15, FNC. Newport Harbor, R. I.—Fort Green, R. I. (Narragansett Bay).

1885. Resolution of the Senate, Jan. 9, 1885, requested information concerning the possession and occupancy of Fort Green; report submitted

by officer in charge, recom. transfer of the land to the city of Newport for use as a public park. History. **85, 15, 423.**

Part 16, FNC. Dutch Island, Narragansett Bay, R. I. (Western End).

1863. Work begun on temporary defenses. **80, 24.**

1866. Site purchased, temporary work; upper and lower battery completed during year. Proj. being prepared for permanent defenses. **66, 7.**

1867. Work begun on permanent defenses in March—altering earthen battery built during the war. Minor work and repairs. **67, 7.**

1868. Work on altering upper battery to adapt it to an armament of 15-inch guns, on permanent wharf, and removing buildings. **68, 11.**

1869. Same as previous year, and general repairs to wharf, drains, and buildings. **69, 11.**

1870. Proj. for 3 detached barbette batteries for forty 15-inch S. B. or equivalent rifle guns; est., \$208,477. Work on buildings, wharf, etc. **70, 16.**

1871. \$121,998 reapp. Work begun, general repair of plant. **71, 12.**

1872. New plans approv. Work begun, foundations of 2 service magazines completed and 2 others begun. Minor work. **72, 9.**

1873. \$40,000 app. Concrete work of 4 magazines. **73, 9.**

1874. \$20,000 app. Traverses of 4 magazines covered in with sand and sodded; parapet connecting them completed for a breast height of 7'; work on water supply, drainage system, and on minor repairs of plant. **74, 10.**

1875. \$20,000 app. Work on water supply, drainage system, grading ground in front and rear of battery, and seeding same; foundations of 2 platforms laid and 2 platforms received. **75, 10.**

1876. Platforms for 4 guns laid, breast-height wall completed; work on parapet; and preservation and repair. **76, 11.**

1877-79. Care and preservation. **77, 8; 78, 10; 79, 13.**

1884. Preservation and repair—painting ironwork; renewing shot beds and skiddings for guns; repairs to ventilating chimneys of magazines, building, and dock etc. **84, 21.**

1885. Preservation and repairs—repairs of quarters, slopes. **85, 14.**

1886. Work on ironwork of 1 center pintle and 4 front pintle 15-inch or heavy rifled guns, and fitting up 2 service magazines by placing floors and doors; minor repairs of wharves, buildings, etc. **86, 15.**

Part 17, FNC. Conanicut Island, R. I.—Dumpling's Battery.

1870. On site of old Dumplings tower, proj. for a barbette battery for ten 15-inch S. B. or equivalent rifle guns on site of the ruins of an old case-

mated tower, built about the close of the last century on Conanicut Isld. opposite Fort Adams. Est., \$100,000. **70, 16; 74, 10.**

Part 18, FNC. Narragansett Bay, R. I.—Emplacements for Three 10-inch Guns on Disappearing Carriages.

1897. \$99,400 allotted. Work begun for constr., by contract, of 3 emplacements; excavating and concreting in progress. 97, 605.

1898. \$12,000 allotted. Two old magazines removed by contract; work of mounting guns and carriages completed; installing electric-lighting plant; cost of labor and materials. 98, 607.

1899. Storage battery installed. Battery turned over to the Artillery. 99, 737.

1900. New locking devices to ammunition lifts installed; dampness in magazines corrected. 00, 807.

Part 19, FNC. Narragansett Bay, R. I.—Mortar Battery for Sixteen 12-inch Mortars.

1897. \$125,500 allotted. Work begun. Necessary excavation done by contract. Work on platforms and walls in progress. 97, 603.

1898. \$10,000 allotted. Battery completed. guns and carriages mounted, storage battery in-

stalled, and turned over to the Artillery on June 6. 1898. 98, 603.

1899. \$240 allotted for repairs of slopes, parapet, and concrete floors. 99, 730.

1900. Building shelter for projectiles. 00, 798.

Part 20, FNC. Narragansett Bay, R. I.—Two Emplacements for 10-inch Rifles, Disappearing Carriages.

1898. \$74,000 allotted. Work begun; 1 gun and carriage mounted. 98, 604.

1899. \$18,620 allotted. Guns mounted and tested; battery completed except electric lighting; battery turned over to the Artillery. 99, 731.

Part 21, FNC. Narragansett Bay, R. I.—Two Emplacements for 4.7-inch R. F. Guns on Pedestal Mounts.

1898. \$12,000 allotted. Work begun, and platforms ready to receive guns by May 23. 98, 605.

1899. \$5,000 allotted. Guns mounted and tested; battery completed and transferred to the Artillery. 99, 733.

Part 22, FNC. Narragansett Bay, R. I.—One Emplacement for 8-inch B. L. Rifle.

1898. \$3,000 allotted. Work begun and completed for making the necessary changes in the

15-inch carriage for the 8-inch rifle (B. L.); carriage ready for mounting rifle. 98, 606.

Part 23, FNC. Narragansett Bay, R. I.—Mortar Battery for Eight 12-inch Mortars.

1898. \$2,500 allotted. Survey of site made; plans and est. being prepared. 98, 608.

1899. \$125,000 allotted. Work begun and about 40% completed. 99, 737.

1900. \$15,900 allotted. Work about 95% completed. 00, 808.

1901. Transferred to Artillery, Jan. 22, 1901. 01, 744; 02, 665.

Part 24, FNC. Narragansett Bay, R. I.—One Emplacement for 6-inch R. F. Gun.

1898. \$8,000 allotted. Work done by contract completed and gun mounted; cost of labor and materials. 98, 608.

1899. \$250 allotted. Minor repairs of parapet, etc. 99, 739.

Part 25, FNC. Narragansett Bay, R. I.—Two Emplacements for 12-inch Rifles, Nondisappearing Carriages.

1898. \$40,000 allotted. Work begun on excavation. 98, 609.

plant; some embankment and sodding work, and minor details. 99, 742.

1899. \$93,708.44 allotted. Guns mounted, and battery completed, except installation of electric

1900. General repairs. 00, 802.

Part 26, FNC. Narragansett Bay, R. I.—Two Emplacements for 3-inch 15-pounder R. F. Guns.

1899. \$10,000 allotted. Plans and est. approv. 99, 740.

guns dismounted and, with their carriages, removed from site of work; excavation in progress. 00, 812.

1900. Work begun. Two old S. B. 15-inch

Part 27, FNC. Narragansett Bay, R. I.—Two 15-pounder R. F. Guns.

1899. \$11,065 allotted. Work begun, excavation completed; concrete completed, except loading platforms. 99, 741.

1900. Guns and carriages not received. 00, 804.

Part 28, FNC. Narragansett Bay, R. I.—Three 10-inch Gun Emplacements.

1901. \$122,500 allotted. Road built, objectionable grades reduced; temporary storage structures begun. 01, 741.

1902. \$55,800 allotted. Buildings completed; walls practically completed to ceiling level. 02, 663, 664.

Part 29, FNC. Narragansett Bay, R. I.—Four 6-inch R. F. Guns.

1901. \$35,000 allotted. Road built; grading; storage structures built. 01, 742.

for guns. \$33,880 allotted for second battery; excavation for emplacements completed. 02, 664.

1902. One battery practically completed, ready

Part 30, FNC. Narragansett Bay, R. I.—Emplacements for two 15-pounder R. F. Guns.

1901. \$15,000 allotted. Work on temporary structures, roadway, grading, etc., begun. 01, 742.

with Shawnee brick, and 6-inch air spaces. 02, 665.

1902. Battery practically completed; lined

Part 31, FNC. Narragansett Bay, R. I.—Emplacements for 12-inch and 6-inch R. F. Guns.

1901. \$500 allotted.

Land surveyed, plans and est. submitted. 01, 743

Part 32, FNC. Narragansett Bay, R. I.—Emplacements for Three 12-inch Guns.

1901. \$240,000 allotted. Timber wharf built; excavation completed; rooms finished to ceiling level; gun platforms finished. \$3,500 withdrawn. 02, 668.

Part 33, FNC.

Miscellaneous.

Electric-light plant:

1901. \$48,200 allotted for plant at Narragansett B., R. I.; conduit laid. 01, 738, 739.

1902. \$5,000 allotted. Completed. 02, 661.

1901. \$37,950 allotted. Electric-light plant at mortar battery; site surveyed and plans prepared. 01, 744.

1902. Interior wiring of batteries completed. 02, 661.

Constructing wharf:

1901. \$28,500 allotted for building permanent wharf on site of old temporary wharf, Narragansett

B. All old material removed; 2,700 tons st., 400 y. r. placed. 01, 742.

1902. Wharf completed. 02, 667.

Fire-control system and searchlight:

1902. New Bedford. \$3,400 allotted for installing the telautograph and cables for a 24-inch searchlight. 02, 660.

Narragansett B. \$9,700 allotted. Survey made. 02, 668. \$3,500 allotted for cable switches, receptacle boxes, etc., for searchlights borrowed for use of maneuvers to take place in fall. 02, 669.

Part 34, FNC. Preservation and Repair of Fortifications.

1898. \$7,700 allotted. Rebuilding breast-height wall; parapet work completed; repairing brick walk, break in sea wall, and platforms of 8-inch converted rifles. 98, 606.

1899. \$400 allotted for New Bedford H. 99, 729. Narragansett B.—\$6,495.50 allotted. Repairing sea wall and parade wall and buildings; minor repairs. 99, 735. \$1,879.82 allotted for repairing bracket hangers and for minor work. 99, 740

1900. \$420 allotted for minor repairs; \$600 allotted for storing mining material at New Bedford H. 00, 798. \$1,165 allotted for correcting dampness in magazine, care of mining material, wiring mining casemates, repairs of quarters, repairing ventilators and culvert, and minor work. 00, 800. \$975 allotted for correcting dampness in dynamo room. 00, 805. \$1,730 allotted for correcting dampness in 10-inch battery. 00, 813.

1901. New Bedford. \$186 allotted. Painting and scraping I beams and ironwork. 01, 736.

Narragansett B. \$3,760 allotted. Observations of dampness made, bulging casemate wall removed, care of torpedo material, buildings painted, etc. 01, 740. \$543.20 allotted. Engine room waterproofed; painting and scraping 12 and 15 pound gun emplacements. 01, 743. \$1,015 allotted. Roadway, rear of three 10-inch gun battery, macadamized and rolled; at 6-inch battery, leaks in magazine stopped, ironwork painted and scraped. 01, 744, 745.

1902. New Bedford H., Mass. Painting, minor repairs, and magazine lined. 02, 659.

Narragansett B. \$1,725 allotted for general repair work; \$600 allotted for care of torpedo material; \$1,200 allotted for salary of electrician; \$1,325 allotted for storage shed for projectiles. 02, 666.

Part 35, FNC. Range and Position Finders.

1898. \$2,300 allotted for a tower for temporary installation of a Lewis range finder at Narragansett B., R. I.; completed and sheathed with 12 inches of timber and steel plates. 98, 604.

1899. \$90 allotted for installation of 2 range finders; \$2,420 allotted for constructing a battery-commander's station. 99, 736. \$30 allotted for installing 2 range finders; \$4,950 for constructing a battery-commander's station. 99, 740.

1900. \$25 allotted for installing a range finder, location not definitely decided upon. 00, 797. \$335 allotted for revised work on battery-commander's station; work begun and completed, and turned over to the Artillery. 00, 799. Battery-commander's station completed, and

turned over to the garrison; total cost, \$4,044.33. 00, 810.

1901. Narragansett B. Battery-commander's station painted and iron ring put around base. 01, 739.

1902. New Bedford. \$2,365 for erection of range-finder station. 02, 660.

Narragansett Bay—\$2,277 allotted for constr. fire-commander's station at eastern entrance, practically completed. \$3,200 allotted for battery-commander's station for 12-inch gun battery, practically completed. \$2,153.80 allotted for fire-commander's station at western passage, completed. 02, 667. \$5,026 allotted for battery-commander's station. completed. 02, 668.

Part 36, FNC. Sea Wall and Embankments.

1901. \$13,000 allotted for rebuilding sea wall at Narragansett B. 01, 739.

1902. Completed. 02, 662.

Part 37, FNC.

Sites.

Fort Adams—Narragansett B. Suit of ejectment begun against occupant of three-fourths acre; judgment rendered in favor of defendant; suit begun to determine and fix the U. S. boundaries at this disputed locality. 95, 13, 503. Fort Wetherill—Description of sites acquired by condemnation proceedings. 98, 611. Condemnation proceedings instituted against owners of land needed for fortification purposes. 99, 746. A total of \$261,555.94 allotted

for purchase and survey of land; 32 acres of one site and 31.67 acres of another site acquired by condemnation proceedings. 00, 806, 807.

1901. Narragansett B. \$65,000 allotted for purchase of land; \$1,000 allotted for survey. 01, 746.

1902. \$16,000 allotted toward purchase of about 20½ acres. 02, 669.

Part 38, FNC.

Submarine Mines.

1892. Plans and est. for 2 mining casemates for defense of Narragansett B. in preparation. 92, 8.

1893. Work of excavation begun on 1 casemate at Narragansett B. 93, 6.

1894. Completion of 1 casemate and work on the other at Narragansett B. 94, 7.

1898. \$5,000 allotted for planting mines in New Bedford H. 98, 602. Cable tank completed at Narragansett B. \$11,000 allotted for planting mines in Narragansett B. 98, 610.

1899. \$13,500 allotted for mining casemate at New Bedford H. 99, 729. \$3,400 allotted for cable tank at New Bedford H.; excavation nearly finished. 99, 729. Mines not planted in New Bedford H., as enough material and supplies had not been received before operations were suspended. 99, 730. Narragansett B.—\$1,000 allotted for caring for and storing mining material. \$6,700 allotted for a torpedo storehouse. 99, 736. \$11,080 allotted for a mining casemate that would be free from dampness. 99, 740. \$10,000 allotted for planting and removing and caring for torpedo material. 99, 746.

1900. Work on mining casemate at New Bedford H. 00, 794. Cable tank completed.

00, 794. \$300 allotted for readjusting the discharge pipe leading from the cable tank; work completed. 00, 800. Mining casemate nearly completed 00, 811.

1901. New Bedford. \$4,500 allotted. Torpedo storehouse practically completed. 01, 738. \$150 allotted for transfer of torpedo material; cable to be tested. 01, 738.

Narragansett B. \$250 allotted. Overhauling torpedo material; transferred to Artillery. 01, 741. \$4,000 for constr. torpedo storehouse. 01, 745. \$4,000 allotted for constr. cable tank; practically completed. 01, 746.

1902. New Bedford. Cable tested; transferred to Artillery. 02, 659. Mining casemate lined; transferred to Artillery. 02, 660. Torpedo storehouse entirely completed; transferred to Artillery. 02, 660.

Narragansett B. Torpedo storehouse completed. 02, 666, 667. Cables tested. 02, 667.

Part 39, FNC. Supplies for Seacoast Defenses.

1901. \$800 allotted for Narragansett B. 01, 746; 02, 668.

FND. CONNECTICUT FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FND. Contracts.

1897. Two 12-inch emplacements and wharf, \$106,628.80. 97, 609.

1898. Entire electric plant for two 12-inch emplacements, \$5,290. 98, 613. Two 10-inch emplacements with casemate and wharf, \$102,427. 98, 615. Electric apparatus complete for 10-inch emplacement, \$2,710.38. 98, 615. Hornsby-Akroyd oil engine and belt, \$1,695. 98, 615.

1899. Small stone, \$1.18 and \$1.24 per c. y.; proposals for constr. materials. 99, 753.

1900. Electric-light plant for mortar battery, \$6,482. 00, 818. Six-inch emplacements—5 hoists and doors, \$2,765; 10-inch emplacements—2 hoists and doors, \$1,807; 12-inch emplacements—2 hoists and doors, \$1,847. 00, 820, 825. Electric-light plant for two 8-inch and 2 5-inch emplacements \$1,451. 00, 821.

1902. Building repairs, \$183. 02, 670. Constr. sheet-pile revetment, \$6 l. f. 02, 671. Electric accumulators and accessories, \$975. 02, 674.

Part 2, FND. Engineering Features.

Bricks; tests, etc. 04, 3718.
Concrete mixing and placing. 98, 620, 622; 99, 751; 00, 821, 823.

Concrete plant, arrangement of. 98, 620.
Condensation, reducing. 03, 2389.
Dampproofing. 03, 2387.
Electric plant, installing of. 00, 824.
Linings, rooms, etc. 04, 3717.
Mixer, "gravity." 99, 751; 00, 821.
Mounting guns and carriages. 00, 824.

Plant, approx. value of. 99, 761; 00, 827.
Plant, description of. 00, 823.
Sea wall, stability of, movement of bar. 99, 757; 00, 822.
Submarine mines, preparation of material, novel features, operation, and testing. 98, 616, 618.
Ventilation; hot-air circulation. 04, 3713 (pl.); 04, 3716 (pl.).
Waterproofing methods. 00, 815, 816, 821, 824.
Exposed concrete. 04, 3718.

Part 3, FND.

Engineers.

Chief of Engineers. R., 66, 7; 67, 7; 69, 11; 83, 15; 84, 21; 85, 15; 86, 15; 96, 13; 97, 13, 608; 70, 16; 71, 12; 72, 9; 73, 9; 74, 10; 75, 10; 76, 98, 18, 612; 99, 19, 747; 00, 17, 814; 01, 17; 02, 19, 11; 77, 8; 78, 10; 79, 13; 80, 25; 81, 23; 82, 19;

Part 4, FND.

Board of Engineers.

Constituted, 1882, to consider and report upon the condition of fortifications, and what number, if any, could be dispensed with. R., 82, 418.

Rs., 90, 7; 93, 15.

Part 5, FND.

Engineers in Charge.

Capt. S. M. Mansfield, 1866-67.
Maj. D. C. Houston, 1867-70.
Maj. G. K. Warren, 1870-74.
Capt. A. H. Holgate, 1870.
Maj. J. W. Barlow, 1875-83.

Lt. Col. W. McFarland, 1883-86.
Lt. Col. D. C. Houston, 1886.
Maj. S. S. Leach 1896-1901.
Maj. C. F. Powell, 1902.

Part 6, FND.

Assistants.

Lt. W. J. Barden, 1897-1900.

Lt. E. H. Schulz, 1900-02.

Part 7, FND—

FORTS AND BATTERIES.

Part 8, FND. New London Harbor, Conn.—Fort Trumbull, at "Fort Point."

1838. Work begun on casemated work. 80, 25
1848. Work completed. 82, 19.
1866. Care of fort keeper. 66, 7.
1867. Care and preservation. 67, 7.
1869. Repointing the parade wall. 69, 11.
1870. Modification plans for twelve 15-inch guns or equivalent rifles. Est. cost, \$58,000. Minor work. 70, 17.
1874. \$25,000 app. Minor repairs. 74, 11.
1875. \$20,000 app. Modification work begun. Work on north exterior battery. 75, 10.
1876. North exterior battery completed, except setting platform irons and placing the magazine lamps. 76, 11.
1877-79. Care and preservation. 77, 8; 78, 10; 79, 13.
1880. History of fort; care and preservation. 80, 25.

1881. Repairs to recess and embrasure arches parapet, and roads. 81, 24.
1882. Preservation and repairs. 82, 19.
1883. Work on sea wall. 83, 16.
1884. History and description; work on sea wall. 84, 21.
1885. Drainage work. 85, 15.
1886. History and description. 86, 15.
1898. Two 15-inch S. B. guns mounted. 98, 612.
1899. Sewer laid by city of New London. 99, 747.
1900. Description of fort. 00, 814.
1902. Repairs to oil engine electric-power plant. 02, 670.

Part 9, FND. New London Harbor, Conn.—Battery at Fort Griswold, Groton, Conn.

1840. This barbette earthen work begun. 80, 26.

1870. Modification plans prepared for nine 15-inch guns. Est. cost, \$40,000. Work on shot beds. 70, 17; 83, 16.

1876. Survey made of the boundaries of the U. S. lands. 76, 11.

1877. Merestones replaced. 77, 8.

1878. Sea wall repaired; some fencing done. 78, 10.

1879. Care and preservation. 79, 14.

1880. History of fort. 80, 26.

1882. Care and preservation. 82, 20.

1884-86. History and description of work. 84, 22; 86, 16.

1898. \$33.50 allotted for renewing coal bin parapet steps; eleven 10-inch guns with theirriages removed from the work. 98, 612.

1900. Description of fort; repairing retaining wall and parade. 00, 814.

1901. \$185 for care and preservation. 01,

1902. Repairs to ordnance sergeant's quarters. 02, 670.

Part 10, FND. Temporary Defenses at Bridgeport, New Haven, New London, and Stonington.

1898. \$20,000 allotted. Four 10-inch S. B. Rodman guns mounted at Bridgeport, 6 at New Haven, and 1 at Stonington; 3 platforms for 15-inch S. B. guns prepared at New London. 98, 616.

1899. \$4,600 allotted. Batteries at the several places dismantled and guns and carriages stored where the batteries were on private property; premises were restored where necessary. 99,

Part 11, FND. New Haven Harbor, Conn.—Fort Hale.

1866. Work begun about the close of the Civil War. Work on embankments, sluiceway setting 5 granite pinto blocks; 1 platform laid 6 embrasures cut and revetted and drawbr. built. 66, 8.

1867. Work completed, plant sold at auction, and fort placed in charge of a fort keeper. 67, 7.

1869. Making and hanging a gate at entrance to reservation. 69, 11.

1870. Repairs to sea wall br., and road. 70, 17.

1871. Negotiations pending concerning purchase of additional land. 71, 12.

1872. Fort dismantled. 72, 9.

1874. Fort abandoned. 74, 11.

1878. Proj. to modify the sea front for modification of ordnance and to make permanent bombproof est. cost, \$23,600. 78, 10.

1879. Care and preservation. 79, 14.

1880. History of fort. 80, 26.

1882. Importance of site. 82, 20.

Part 12, FND. Emplacements for Two 12-inch Guns on Disappearing Carriages.

1896. Plans prepared. 96, 13.

1897. \$132,000 allotted. Work begun by contract; excavation completed. 97, 609.

1898. Work delayed; time extended, and battery completed ready for armament by June 30. 1898. 98, 612.

1899. \$1,500 allotted. Installation of electric light and power plant completed. \$2,500 allotted. One carriage received and mounted; 2 guns re-

ceived. \$2,470 allotted for preservation and repairs. 99, 747.

1900. \$2,500 allotted. Guns mounted; battery completed and turned over to the Artillery May 22, 1900. \$2,000 allotted for waterproofing. \$2,500 allotted for alteration and repair; ironwork painted. 00, 814.

1901. False slab ceiling installed; base re-leveled and reset. 01, 748.

Part 13, FND. Two Emplacements for 10-inch Rifles, Disappearing Carriages, and a Mining Casemate.

1897. \$10,000 allotted for the emplacements and \$11,000 allotted for 1 mining casemate, both to be built under 1 contract. 97, 609.

1898. \$99,000 allotted for emplacements and \$2,750 allotted for moving and mounting guns. Work under contract begun; 1 carriage mounted and work about half done; extension of time granted. Summary of work. 98, 614.

1899. \$2,500 allotted for emplacements; work nearly completed. \$318.17 allotted for finishing

the mounting of guns and carriages; completed. Mining casemate completed. \$2,004 allotted for a battery-commander's range-finding station. \$310 allotted for preservation and repair. 99, 748.

1900. Battery-commander's station finished and battery transferred to the Artillery on Mar. 31. \$250 allotted for repairs. 00, 817.

1901. Casemate wired and minor repairs to battery. 01, 749, 750.

Part 14, FND. Emplacements for Eight 12-inch B. L. Mortars.

1897. \$110,000 allotted. Work begun, excavation finished, and concrete work in progress. \$2,004 allotted for a battery-commander's range-finder station. 99, 750.

1900. Battery completed; armament to be mounted by the garrison; battery-commander's

station begun and completed; proposals for electric plant received. Summary of work. 00, 818.

1901. \$2,000 allotted. Battery completed; electric plant installed; 2 mortars and carriages mounted; transferred to Artillery Mar. 4, 1901. 01, 750.

Part 15, FND. Emplacements for Two 10-inch B. L. Rifles on Disappearing Carriages, Model 1896.

1898. \$100,000 allotted. Work begun and these emplacements nearly completed by June 25; résumé of work. \$3,000 allotted for transporting guns. 98, 619, 621.

1899. Guns and carriages received and mounted; electric light and power plant installed, and battery

practically completed; searchlight temporarily installed. 99, 759.

1900. Platforms covered with asphalt; slopes sodded, and minor work; battery completed; to the Artillery May 12. 00, 816.

1901. \$500 for sodding on slopes. 01, 748.

Part 16, FND. Emplacement for a 4.7-inch R. F. Gun.

1898. \$9,000 allotted. Work begun, gun and carriage mounted; work nearly finished. 98, 622.

1899. Work postponed in view of the probable necessity of raising the gun about 2' on account of change in the type of emplacements near by. 99, 760.

1900. Gun mounted work completed, and formally transferred to the Artillery, Mar. 31 1900. 00, 820.

Part 17, FND. Emplacements for Two 8-inch B. L. Rifles on Barbette Carriages (15-inch S. B., Converted).

1898. \$65,000 allotted. Work begun and platform nearly completed. Summary of work. 98, 622.

1899. \$12,100 allotted. Battery completed except mounting guns. Work on sea wall. 99, 759.

1900. Interior floors concreted. Terroplein graded; guns and carriages not yet mounted. 00, 822.

1901. Minor repairs made. 01, 752.

Part 18, FND. Two Emplacements for 6-inch R. F. Guns on Disappearing Carriages.

1899. \$50,000 allotted. Work begun; excavation in progress. 99, 750.

1900. Work practically completed, except consolidation of slopes and electric lighting. Carriages on hand. 00, 819.

1901. \$2,000 allotted for searchlight; electric system installed and tested; entire battery transferred to Artillery Mar. 4, 1901. 01, 750.

Part 19, FND. Two Emplacements for 8-inch B. L. Rifles on Disappearing Carriages, and Two Emplacements for 5-inch R. F. Guns on Balanced Pillar Mounts.

1899. \$75,000 allotted for emplacements. Work begun, dock completed, plant installed, and work carried up to ceiling level. 99, 751. Five-inch emplacements; \$11,600 allotted. Work begun and nearly completed; mounts not received. 99, 751.

1900. Two carriages and 1 gun mounted; platforms asphalted; electric-light plant installed. Five-inch emplacements—Two carriages mounted;

both batteries completed and ready to turn over to the Artillery; \$1,650 allotted for repair and preservation. 00, 821.

1901. Electrical system maintained and painting of ironwork; batteries transferred to troops Feb. 18, 1901. \$1,500 allotted for care and preservation for waterproofing drainage, etc. 01, 752.

Part 20, FND. Emplacements for Two 12-inch B. L. Rifles on Disappearing Carriages, Model 1897; Two 10-inch B. L. Rifles on Disappearing Carriages, Model 1896; and Three 6-inch R. F. Guns on Disappearing Mounts.

1899. Twelve-inch and 10-inch emplacements—\$220,000 allotted. Work begun, excavation completed, and concrete work in progress. 99, 752. Six-inch emplacements—\$78,000 allotted, work begun, excavation in progress. 99, 752.

1900. Ten-inch emplacements completed and guns and carriages mounted; 12-inch emplacements well advanced and 6-inch emplacements expected to be completed by Oct. 1. Summary of

work. \$2,000 allotted for preservation and repair. 00, 823.

1901. Entire battery for 10-inch and 12-inch emplacements completed, chain ammunition lifts placed, temporary range-finder's station and tide gauge built. At 6-inch emplacements lifts placed carriages mounted; batteries transferred to Artillery Mar. 7, 1901. 01, 754.

Part 21, FND. Emplacements for Two 5-inch R. F. Wire-wound Guns, with Parados.

1899. \$39,630 allotted. Work begun, concrete work nearly completed; mounts not received. \$2,195 allotted for repair to sea wall; work in progress. 99, 757.

1900. Plans changed, emplacements completed, except mounting guns not yet received; parados

finished and \$1,060 allotted for repairs to sea wall, etc. 00, 822.

1901. \$3,000 allotted for strengthening sea wall; \$1,810 allotted for care and preservation. 01, 753.

Part 22, FND. Emplacements for Two 5-inch R. F. Wire-wound Guns.

1900. \$14,000 allotted. Battery begun and completed, except mounting armament, electric wiring, and sodding slopes. 00, 822.

1901. Electric wiring installed, slopes sodded battery transferred to Artillery Feb. 18, 1901. \$100 allotted for care and preservation. 01, 752.

Part 23, FND. Emplacements for 5-inch Wire-wound Gun.

1900. \$6,500 allotted. Work nine-tenths completed. 00, 820.

transferred to Artillery, Mar. 4, 1901. \$150 allotted for care and preservation. 01, 751.

1901. Work finished; electric wiring installed;

Part 24, FND. Emplacements for Eight 12-inch B. L. Steel Mortars.

1901. \$115,000 allotted. Material purchased track laid, excavation begun. \$400 allotted for care and preservation. 01, 754.

Part 25, FND. Emplacements for Two 6-inch R. F. Guns.

1901. \$25,000 allotted. 01, 748.

Part 26, FND. Various Sites.

Site 1. 1902. Bulkhead built on south shore: wharf repaired; power house built; at 8-inch battery steam-heating plant installed; repairs. 02, 670. \$1,700 allotted for searchlight; \$750 allotted for 3 base stations; \$200 allotted for wharf. 02, 671.

Site 2. 1902. Electric installation at 3 batteries completed; transferred to Artillery, Dec. 7, 1901. 02, 671. Repairs to heating system. 02, 671. Mortar battery constr. and electric installation completed, base rings set, survey for dynamite-gun emplacements made; work on post-lighting system completed, fire-commander's station partly built. 01, 672, 673. Searchlights and accessories received. 01, 673. \$19,200 allotted for range-finding station; \$2,450 allotted for searchlights; \$9,020 allotted for post-lighting system; \$820 allotted for care and preservation; \$12,275 allotted for searchlights for H. defenses. 02, 674.

Site 3. 1902. Position-finding station transferred to Artillery; bank ripped; fire-commander's station moved back; battery magazines

lined. 02, 674. Steam-heating plant put in to reduce condensation; parapet of 10-inch battery sodded; work on new 6-inch battery in progress: 4,725 tons granite placed in sea wall; temporary power house for operations of searchlight built. 02, 675. \$7,960 allotted for fire-commander's station; \$7,862 allotted for battery-commander's station; \$3,840 allotted for searchlights; \$783.02 allotted for care and preservation; \$500 allotted for supplies for seacoast defenses. 02, 676.

Site 4. 1902. Steam-plant alterations and imp. of drainage at mortar battery made; minor repairs at 10-inch battery; foundation of fire-commander's station laid; temporary power house for searchlights built; repairs to steam plant at mortar battery; arrangements made for 2 additional searchlights at south reservation; \$4,800 allotted for fire-commander's station; \$2,425 allotted for searchlights; \$7,260 allotted for searchlights for H. defenses. 02, 677.

Site 5. 1902. Repairs, etc. 02, 678.

Part 27, FND.

Miscellaneous.

Protection of dynamite battery. 1901. \$66,000
allotted. Materials delivered. 01, 755.

Care of electric plants. 1901. \$2,500 allotted
for repairs. 02, 678.

Part 28, FND.

Preservation and Repairs.

1899. \$2,180 allotted. Electric plant cared for;
dismounted guns from temporary batteries dis-
posed of; and minor work. 99, 758.

1900. \$300 allotted for supplies for seacoast

defenses. Repairs made to the several electrical
plants. 00, 826.

1901. \$900 allotted. 01, 756.

Part 29, FND.

Range and Position Finder Station.

99, 749, 750; 00, 818.

1901. \$7,000 allotted. Practically completed.

01, 748.

Part 30, FND.

Sea Walls and Embankments.

1901. \$12,000 allotted. Constr. sea wall; 330
l. f. built. \$1,900 allotted. Care and preservation.

01, 749. \$2,600 allotted for bank revetment; no
work done. 01, 752.

Part 31, FND.

Sites.

1898. \$5,650 allotted for purchase of 3 tracts,
about 60 acres. Condemnation proceedings insti-
tuted to acquire another site of about 225 acres.
98, 623.

1899. \$175,000 allotted. Site acquired. 99,
761.

1900. \$50 allotted for services in making ab-
stracts of title to land already acquired. 00, 826.

Part 32, FND.

Submarine Mines.

1898. \$29,000 allotted. Mines planted in
Stonington, New London, and New Haven Hs.
98, 616. \$1,150 allotted for searchlight. 98, 621,
623.

1899. Mines unloaded as removed and dyna-
mite stored; orders received to complete the dis-
mantling of the systems and final disposition of the
material; work completed. \$300 allotted for
electric-light plant and operating searchlight;

supplies purchased and machinery cared for.
99, 757, 760.

1900. \$500 allotted for storing and caring for
mining material, and building a partition wall in
mining casemate to separate battery from instru-
ment room. 00, 826.

1901. \$50 allotted. Inspection of torpedo
materials. 01, 756.

FNF. NEW YORK, N. Y., FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912. See also the Note on p. 1793 of this index.)

Part 1, FNF.**Contracts.**

1883. Sea wall, \$18.72 per l. f. **83, 385.**
 1889. Sea wall, concrete foundation, 375 c. y., \$14.70 per c. y.; wall, 1,450 c. y., \$15 per c. y.; and dowels, 25¢ per pound. Embankment, 24,000 c. y., 22½¢ per c. y. **89, 461.** Riprap, 9,050 tons, \$1.50 per ton; capping stone, 980 l. f., \$7 per l. f. Embankment, 35,000 c. y., 40¢ per c. y. **89, 458.**
 1891. Sea wall, 1,000 c. y. of foundation, \$11 per c. y.; 1,510 l. f. wall, \$19 per l. f.; 43,000 c. y. filling, 29¢ per c. y. **91, 527.**
 1897. Small broken stone, 5,000 c. y., \$1.07 and \$1.29 per c. y.; 100 c. y. fine sea-washed silica, \$2.50 per c. y. Rosendale cement, 12,000 barrels, 74.8¢ per barrel. **97, 617.** Concrete battery for three 10-inch guns, \$78,202.50. **97, 627.**
 1898. Rosendale cement, 18,000 barrels, 66.6¢ per barrel. Riprap stone, 47,500 tons, \$1.19 per

s. t. Broken stone, \$1.04 per c. y. **98, 633.**

1900. Portland cement, 25,000 barrels, \$1.99 per barrel. Broken stone, 21,000 c. y., 84¢ per c. y. Sand, 11,000 c. y., 34¢ per c. y. **00, 836.**

1901. Rock, 79¢ per c. y. American Portland cement, \$1.532 per barrel, in bags. **01, 766.**

1902. Building sea wall, \$10.75 per l. f., 28¢ per yard for material. **02, 684.** Atlas Portland cement, \$1.10 per barrel. **02, 686.** Trap rock (broken), 72¢ per c. y. **02, 687.** Trap rock (broken), 84¢ per c. y. **02, 689.** American Portland cement, \$1.47 per barrel. **02, 689.** Furnishing steel doors, shutters, gratings, flues, etc., \$1,879. **02, 689.** American Portland cement, \$1.63 per barrel. **02, 692.** Broken trap rock, 89¢ per c. y. **02, 692.**

Part 2, FNF.**Engineering features.**

Ammunition for a gun lift, handling of. **93, 610.**
 Ammunition lifts, test of. **97, 619.**
 Anchor bolts, method of setting. **94, 453.**
 Battery, 10-inch, cost in detail. **97, 616, 621.**
 Ceilings, linings of. **03, 2390 (pl.).**
 Concrete in place, cost of. **92, 5; 93, 602, 605, 609; 94, 458; 00, 835. 837.** Mixing, description. **97, 620.** Surfaces of, coloring. **04, 3720.**
 Construction costs, 12 inch empl. **01, 765.**
 Dampproofing—various methods. **03, 2390, 2396 (pl.).** Walls. **03, 2390, 2396 (pl.).** Chambers. **03, 2393, 2396 (pl.).** Cartridge rooms. **03, 2398 (pl.).** Magazines. **04, 3719.**
 Electric-conduit system, cost. **00, 837.**
 Electric-light plant description. **93, 611.**
 Electricity, installation. **04, 3721.**
 Embankments, cost per c. y. in place. **92, 603.**
 Embankment, methods of placing sand. **93, 605.**
 Excavation, sand, cost of, by hand and by grapple. **93, 603.**
 Firing, experimental, result on concrete. **93, 612, 614.**
 Fire, test of rapidity of. **97, 619.**
 Gun, 12-inch, method of mounting. **93, 615; 94, 453.**
 Gun-lift mechanism, test of. **93, 613.**

Leaks, stopping. **03, 2391, 2396 (pl.).**
 Materials, cost. **93, 602, 605; 94, 454, 458; 97, 763, 769.**
 Mortar platforms, method of excavation for foundation. **94, 450.**
 Pavements, cost of. **97, 616.**
 Plant, arrangement of. **93, 605; 99, 763, 766, 774.**
 Platforms, settlement of. **97, 612.**
 Quoins, granite, cost of. **97, 616.**
 Sand, drifting; cinder layers to prevent. **01, 920.**
 Stone (large) in place, cost of. **92, 5.**
 Torpedo shed, description and detailed cost. **93, 617; 94, 448.**
 Ventilation—various methods. **03, 2393, 2396 (pl.).**
 Walls, counterscarp and gallery; a smooth and apparently waterproof surface, securing. **93, 605.** Whitening (methods and advantages). **01, 920.**
 Waterproofing and cost of. **00, 828, 829, 831, 839.**
 Details of various methods. **01, 917.** Laying felt. **01, 919.** "Without leaks." **01, 919.**
 Water-supply system. **93, 613.**

Civilian electricians. 1902. \$1,200 allotted for pay of electrician. 02, 680. \$7,020 allotted for pay of electrician, steam engineers, and stokers. 02, 687.

Part 7, FNF—

FORTS AND BATTERIES.

Part 8, FNF. Southern Entrance—Fort Lafayette.

1812. Work begun. 80, 23.
1866. Important modification required. 66, 10.
1868. Test borings on proposed site of new work. Fort injured by fire in December, 1868. 68, 13.
1878. Proj. for heavy armament; est., \$784,212 78, 13.

Part 9, FNF. Fort Hamilton and Additional Batteries.

1824. Work begun. 80, 29.

1866. Work on north, south, and small traverse magazines; setting pintle and traverse stones, traverse irons, and pintles; breast-height wall and earth in parapet. Traverse magazines 1, 2, and 4 completed; 3 and 5 suspended. 66, 10.

1867. Work on south magazine; taking up platforms to make room for traverse magazines; revetment and platform flags; traverse stones rebbed; embankment and minor work. Condition of work. 67, 9.

1868. One traverse magazine lengthened, 5 nearly completed. The north and south magazines now completed, except minor work. Over 2000 feet drain work done. 68, 12.

1869. North and south magazines nearly completed, 9 magazine traverses finished; 3,464 l. f. drain built; 991 l. f. sea wall rebuilt; 3,407 sq. y. slopes repaired. Est. cost of additional batteries for heavy guns, \$135,000. 69, 12.

1870. Completion of north and south magazines and traverse magazines; repairs made to slopes and parapet; terreplein and public road graded; repairs to sea wall and drainage. 70, 18.

1871. \$25,000 app. Work begun on cofferdam, 483' long, on water battery 1. 71, 14.

1872. \$40,000 app. Sea wall ready for coping and in rear filled with earth to 2' below top. 72, 11.

1873. \$40,000 app. Sea wall of battery 1 completed; magazines 1 and 2 nearly finished; work on magazines 3 and 4; 8,464 c. y. of earth placed in parade. 73, 10.

1874. \$26,000 app. Battery 1—magazines 1, 2, 3, and 4 completed and sodded. Drain placed, terreplein graded, and parapet raised to proper level. 15-inch gun battery—5-inch pintles taken out and replaced with 6-inch ones. 74, 13.

1875. \$10,000 app. Battery 1—2 wooden platforms and 6 stone platforms nearly finished, raising breast-height wall. 75, 13.

1876. Battery 1—platforms and breast-height wall completed; parapet and end of traverse: raised and rear slopes sodded. 76, 14.

1877-78. Repair of gates and slope. 77, 10; 78, 12.

1881. Waterproofing terrepleins and casemates; repair of slopes and fences. 81, 28.

1882. Waterproofing terrepleins and casemates; drainage work, sea wall, and minor repairs. 82, 24.

1883. Work on relaying brick pavements, wooden br., drainage, slopes, and buildings. 83, 20.

1884. Repair of slopes, chimneys, drains, etc. 84, 25.

1885. Repair of platforms, breast-height, sustaining and sea wall; placing additional traverse stones in platforms, relaying pavements, and replacing stone flagging of parade. 85, 18.

1886. 1,190 c. y. riprap stone placed against sea wall; hanging 12 magazine doors; setting pintles in platforms. 86, 19.

Part 10, FNF. Mortar Battery, Fort Hamilton.

1871. Work begun. 80, 29.

1872. Funds derived from general app. for mortar batteries. Six traverse magazines, including 3 service magazines, built; terreplein and parapet also completed except draining and sodding. 72, 11.

1873. Earth placed on magazines and traverses and sodded; exterior and interior slopes graded and sodded; drainage begun. 73, 11.

1874. Main drain completed, exterior slopes sodded, 3 magazines supplied with doors, 5 wooden

platforms laid, and concrete foundations for the remaining 8 put down. 74, 13.

1875. Seven wooden platforms placed and exterior slope partly sodded. 75, 13.

1876. Drainage. Terreplein graded and soil placed on slopes. 76, 14.

1886. Furnishing and hanging 3 exterior doors. 86, 20.

Part 11, FNF. Fort Hamilton and Redoubt.

1866. Condition to be considered by a BE 66, 10.

1867. Embrasures cut down and shot furnaces removed. Condition of work. 67, 9.

1868. Part of counterscarp wall rebuilt; over 2,000' of drain work completed; minor work on buildings. 68, 13.

1869. Altering embrasures on the east and north fronts; pointing scarp and counterscarp walls and repairing slopes; and minor repairs. 69, 12.

1870-71. Repairs; and embrasures altered in officers' quarters. 70, 18; 71, 13.

Part 12, FNF. Defenses of Governors Island.

1831. Fortifications on Governors Isld. begun 80, 28.

1879. Est. for a sea wall 1,800 l. f. long, 8' high, \$36,000; including wall on west shore, cost, \$40,000. Extracts from letters from Maj. Gen. Hancock, Capt. J. P. Sanger, Col. and Surg. Cuyler, and Col. Benham in reference to explanation of the ests. for sea wall. 79, 15, 233; 80, 28, 293.

1881. Scarp wall color-washed and terreplein covered with asphalted felting. Sea wall est. 81, 26, 393.

1882. Br. across ditch at Fort Columbus repaired. 82, 22.

1883. Exterior slopes of southwest bastion of Fort Columbus repaired and resodded; first and second interior galleries at Castle Williams partly rebuilt, repaired, and painted. 83, 18.

1884-86. Preservation and repair. 84, 24; 85, 17; 86, 18.

Part 13, FNF. Governors Island—Fort Columbus.

1866. Flagging the walks of the parade; repairing the pump drain, and relaying the platform around the pump. 66, 9.

1867. Work on flagging the walks and curb of parade; removing old cobblestone covering of postern and ramp, and placing Belgian pavement; general repairs and minor work. 67, 8.

1868. Pointing the scarp; relaying flagging; drainage work; repairing slopes, roads, and glacis and minor work. 68, 11.

1869. Repairing glacis, slopes, roads, and banks, drawbr., magazines; and minor repairs. Est., earthen battery for heavy guns, \$104,000. 69, 12.

1871. Eight traverse magazines built in new battery; work on parapet, excavation for the

terreplein, road, and remaining 8 magazines. 71, 13.

1872. Six shot beds built and 8 more begun; in new barbette battery, 6 magazines coated outside with Portland cement; parapet completed and terreplein reduced to proper level. 72, 10.

1873. Fifty-four shot beds built and 1,027 l. f. sea wall laid. 73, 10.

1874. Replacing draw floor in drawbr. 74, 12.

1875. Repairing drains. 75, 12.

1876-77. Repairing drawbr. and wharf. 76, 13; 77, 9.

1878. Repairing slopes, etc. 78, 12.

Part 14, FNF. Governors Island—New Barbette Battery at Fort Columbus.

1875. Repair of magazine doors; surface drain and 8 temporary magazine doors built. 75, 12.

Part 15, FNF. Governors Island—Castle Williams.

1866. Steps of the towers repaired, 255 sq. f. of flagging laid. 66, 9.

1867. Tower steps finished; renewing the 3 galleries of communication of the casemates; repairing magazine doors and buildings, etc. 67, 8.

1868. Repairing galleries, doors, and embrasure shutters; 10 casemates repaved; repairing mastic covering of terreplein; and minor work. 68, 12.

1869. Brick floors of ground tier relaid; repairing casemates of upper tier; galleries and railing of second and third tiers and terreplein of barbette tier and magazines repaired. 69, 12.

1870. Covering the terreplein with mastic. 70, 18.

Part 16, FNF. Governors Island—South Battery.

1867. Slight repair of scarp walls. 67, 8.
 1868. Flagging of parade taken up and relaid; repair of sally port and drains. 68, 12.

1870. 150' dry stone sea wall built. 70, 18.
 1874. Extension of permanent drain to beach. 74, 12.

Part 17, FNF. Bedloes Island—Fort Wood.

1841. Work begun. 80, 28.
 1867. Drainage work. Isld. quarantined because of cholera. 67, 8.

1868. Repairing exterior walls and coping of magazines; coping of parade wall; mason work of steps, posterns, and brick walls of barracks. 68, 12.

1869. Pavement in sally port relaid and masonry of sea wall pointed. Modification of exterior earthen battery for heavy guns cost \$3,200. 69, 12.

1870. Two magazines supplied with conductors and connections for the rods. 70, 18.

1871. In the new water battery, 5 traverse magazines built, parapet built entire length of battery, and terreplein raised to the proper height 71, 13.

1872. \$17,000 app. Entrances to magazines in exterior water battery completed; part of parapet raised to proper height. 72, 11.

1873. Raising parapet, pointing and cementing magazines of the exterior battery. 73, 10.

1874. Grading and sodding magazines, raising parapet, and drainage. 74, 12.

1875. Five temporary magazine doors built and magazines covered with earth. 75, 12.

1876. Terreplein graded and parapet filled in on the exterior water battery. 76, 13.

1877. Site selected for pedestal of the Statue of Liberty presented by citizens of the French Republic. 77, 10.

1883. Minor repairs. Erection of the Statue of Liberty begun. 83, 20.

1884. Minor repairs. Concrete foundation for the Statue of Liberty completed. 84, 25.

1885. Doors provided for 3 magazines. Pedestal for the Statue of Liberty completed; height, 93' 8" above m. l. w. 86, 18.

1886. Placing magazine doors. Statue of Liberty being placed. 86, 19.

Part 18, FNF. Staten Island—Battery Hudson.

1841. Work begun. 80, 31.

1866. Repairs to slopes and minor work. 66, 11.

1867. Catch basin and trap built; drainage. 67, 10.

1868. Cleaning drains and traps; cutting grass. 68, 13.

1869. Entire slope in rear of battery washed into terreplein, slope repaired, lining with wood begun on the two principal magazines; modification of battery for heavy guns and an earth extension; est. cost, \$62,000. 69, 13.

1870. Furring with wood the 2 principal magazines and repair of slopes; building a dry stone wall over the casemated arch of the experimental casemate target. 70, 19.

1871. \$16,000 app. Two service magazines built. Excavation to form the rear slope; filling over the magazines. 71, 15.

1872. \$17,000 app. Platform and parapet for King's carriage and entrance retaining walls built. In Battery Hudson extension—principal magazines and rear slope sodded; excavation for terreplein; earthwork of 2 traverse magazines formed; modification approv. 72, 12.

1873. \$29,000 app. Old lighthouse removed, three 10-inch guns dismounted, and platforms removed; one 15-inch front pintle platform nearly finished. In the extension—earthwork of 2 traverse

slopes and the retaining wall changed to a more gentle slope. 73, 12.

1874. \$13,000 app. Removal of 6 guns and platforms of old armament; 5 front pintle platforms placed. In the extension—5 timber platforms with high traverse rails laid. 74, 14.

1875. \$15,000 app. Work on earth cover of n. and s. principal magazines finished; seven 200-pounder Parrot rifle guns dismounted and old 10-inch platforms and breast-height wall removed; center pintle platforms replaced with front pintle platforms. In extension—5 timber platforms removed; work on breast-height wall, bombproof shelter, and retaining wall. 75, 15.

1876. Work on breast-height wall and platforms. In extension—work on breast-height wall, bombproof, and retaining wall, platforms. 76, 15.

1877. Work on platforms and parapet. In the extension—work on the parapet; outer traverse rails laid on five 15-inch gun timber platforms; work on earthen slopes. 77, 12.

1878. Repair of slopes. 78, 14.

1879. 250' of fence built; repairs. 79, 18.

1880-85. Care and preservation. 80, 31; 81, 30; 82, 27; 83, 24; 84, 28; 85, 21.

1886. Two wooden front pintle platforms for 8-inch converted rifles built and guns mounted. 86, 22.

Part 19, FNF. Staten Island—Fort Wadsworth (Formerly Fort Richmond).

1847. Work begun. 80, 30.
1866. Work on granite walls; 16 floor girders placed, filling carried up to the height of exterior walls, and ditch three-fourths excavated. 66, 10.
1867. Guardhouse and 2 cisterns finished, ditch excavated, and 2 sluiceways completed. 67, 9.
1869. 330 c. y. earth, washed from main slope into road, removed. 69, 12.
1870-71. Repair of slopes in rear of work. 70, 19; 71, 14.
1874. Replacing old pintles with new 4-inch ones in the 6-inch barbette guns' platforms. 74, 13.
1875. \$5,000 app.; no work. 75, 13.
1876. Torpedo work and repair of storeroom roofs. 76, 14.
1878. Painting ironwork in embrasures; minor work. 78, 13.
1879. Wooden approach to drawbr. built; iron railing and portcullis painted; slopes repaired. 79, 16.

1880-81. Ten-inch S. B. guns on first tier replaced with 8-inch rifles. 80, 30; 81, 29.
1882. Arch built over reservoir; repair of masonry of sea wall; stone steps built at the wharf; painting barbette railing, ironwork of embrasures portcullis, etc.; 2 concrete shot beds built on parade. 82, 25.
1883. Sea wall repaired; stationary part of drawbr. renewed; minor work. 83, 21.
1884. Painting guardhouse and magazine roofs. 84, 26.
1885. Replacing old pintles with new 4-inch pintles with keys; resodding revetment on top of breast-height wall, painting storeroom roof, etc.; minor repairs. 85, 19.
1886. Repointing gun platforms and breast-height wall, and a rough, low retaining wall built halfway down the long slope. 86, 20.

Part 20, FNF. Staten Island—South Cliff Battery.

1858. Work begun. Importance. 80, 33.
1866. Slopes in rear of terreplein formed and sodded; n. end battery finished; work on s. end of battery. 66, 11.
1867. Main slopes completed; new magazine constructed; minor work. 67, 10.
1868. Work on roads, gutters, and slopes. 68, 14.
1869. Repair of slopes; platform 5, injured in experimental firing, repaired; est., proposed modifications, \$17,000. 69, 13.
1870. Platform damaged by experimental firing repaired; repair of parapet; sodding slopes. 70, 19.
1871. Slopes repaired and cesspools cleaned. 71, 5.
1873-74. Care and preservation. 73, 12; 74, 15.
1875. Bluestone revetment above breast-height wall and part of old armament removed preparatory to beginning modifications. 75, 15.

1876. Proj. modified. Work on traverse magazine front wall; removal of platforms; excavation for drains. Eight guns mounted. 76, 16.
1877. Est., completion, according to approved plans, \$37,100. Minor work and repairs. 77, 12.
1878. Minor repair of slopes, etc. 78, 15.
1879. Repair of roof of traverse magazine and slopes. 79, 18.
1882. Retaining wall built near entrance to principal magazine; large slope in rear of battery repaired and regraded. 82, 29.
1883. Repair of slopes. 83, 25.
1884. Repair of doors, slopes, and gun platforms, etc. 84, 30.
1885. Replacing 5-inch pintles with new 6-inch pintles; placing 3 inner traverse circles; laying floor; painting doors; minor work. 85, 23.
1886. Repair of slopes. 86, 24.

Part 21, FNF. Fort on Site of Fort Tompkins.

1858. Work begun. Description. 80, 30.
1866. Fourteen platforms built; parapet and terreplein filled and sodded; barbette traverse magazine floors concreted; 9 casemate floor arches turned; work on lining casemates with brick; minor work. 66, 10.
1867. Five casemates furred, 21 floored, and 9 fitted up for quarters; work on the road and repair of slopes; platforms for the guns on the 4 land fronts finished. 67, 9.

1868. Work on latrines and outlet drains and roads, etc. 68, 13.
1869. Drainage and repair of slopes. 69, 13.
1870. Repair of slopes; building a picket fence. 70, 19.
1871. \$52,000 app. Constr. piers and arches of 17 bombproofs and scarp wall between sally ports; work on parade wall, sewers, connecting cisterns, and minor work. 71, 14.
1872. \$33,000 app. Completion of masonry of

7 gateways and 2 sally-port arches, walls and arches of passageways over sally ports; scarp wall n. and s. of sally port lowered 5' and coping relaid; granite parade wall nearly finished; mastic placed on casemates and sally-port arches; minor work. 72, 11.

1873. \$30,000 app. Swamp filled in and drained; glacis n. and nw. of fort graded; work on earth filling of cover face on chan. front; earthwork of casemates, and masonry and earthwork of traverses between guns completed; minor work. 73, 11.

1874. \$30,000 app. Ten timber platforms laid and masonry breast-height wall built; completion of interior finish of casemate quarters in s. half of work; drainage; magazine doors finished; minor work. 74, 13.

1875. \$20,000 app. Eight casemates prepared for quarters; walk, drainage, and slope work. 75, 14.

1876. Covered reservoir built; latrine work; hanging doors; minor work. 76, 14.

1877. Repair of earthwork; minor repairs; osts. in detail for completion. 77, 11.

1878. Repair of slopes and roads; drainage. 78, 13.

1881. Casemate floors raised and casemates prepared for storage of torpedo cases. 81, 29.

1882-83. General preservation and repair. 82, 25; 83, 22.

1884. Repairing walls, parade ground, roads, and slopes. 84, 27.

1885. Bonnet on se. angle of fort completed; 5 storm doors built; lamp closet fixtures supplied; repair of masonry of walls of ditch, roads, slopes; torpedoes painted. 85, 20.

1886. Pointing of masonry on scarp and counterscarp walls; painting torpedoes and exposed ironwork; repairing slopes; macadamized road leading from s. sally port of the fort to lighthouse begun. 86, 21.

Part 22, FNF. Staten Island—North Cliff Battery.

1862. Work begun. Importance. 80, 32.

1866. Seven platforms for 15-inch guns and breast-height wall built; n. traverse magazine built; drainage, embankment, and road making in progress. 66, 11.

1867. Completion of 5 platforms and breast-height wall; earth covering of n. traverse finished and the traverse completed; work on s. end of battery; excavation for large magazine in u. end of battery; some drainage. 67, 10.

1868. Principal magazine completed; work on filling above it; filling of parade in s. end; work on parados. 68, 13.

1869. Work on entrance walls; clearing the terreplein and roads of the slope washings; minor work. Est., proposed modifications of battery for heavy guns, \$27,000. 69, 13.

1870-71. Slight repair of slopes. 70, 19; 71, 15.

1872. Masonry in principal and 2 traverse magazines completed; work on wall of covered passage in solid traverse; removal of old breast-height wall and platforms of s. end of battery. 72, 12.

1873. Earthwork and sodding over the 2 principal magazines completed; grading and sod-

ding of large slope in rear completed; work on the additions to wing walls and earth cover of old traverse magazines and arch passageways. 73, 12.

1874. Foundations of 4 timber platforms and platforms laid; completion of additional masonry and earthwork to traverse magazines s. of the n. principal magazine. 74, 15.

1875. Two timber gun platforms laid; repair of earthwork. 75, 15.

1876. Slopes repaired. 76, 16.

1877. Est., modifications, \$34,700. Minor work and repairs. 77, 12.

1878. Stone drain 60' long built; work on slope. 78, 15.

1879. Work on slopes. 79, 18.

1881. Fifteen-inch gun from platform 1 dismounted and sent away. 81, 3.

1883. Repair of slopes, drains, etc. 83, 24.

1884. Repair of roads, drains, doors, and slopes. 84, 21.

1885. Replacing 5-inch pintles with new 6-inch pintles; work on doors, floors, and slopes. 85, 23.

1886. Repair of slopes 86, 23.

Part 23, FNF. Staten Island—New Casemated Battery.

1866. Work on test boring; 3,993 c. y. of ashlar cut for foundation courses and casemate piers and 4,919 c. f. of stone broken for concrete. 66, 11.

1867. Cutting stone in progress. Work on main battery proper not begun. 67, 10.

1868. Work on stone cutting and constr. of wharf. 68, 13.

1869. Work on wharf and care and preservation. 69, 13.

1870. Unexpended balance transferred to fort on site of Fort Tompkins. 70, 20.

Part 24, FNF. Staten Island—Glacis Mortar Battery (South of Fort on Site of Fort Tompkins).

1871. Earthwork and sodding completed; 2 service magazines nearly completed and granite coping laid on the entrance retaining walls; battery nearly completed. 71, 15.

1872. Battery completed except hanging doors and laying platforms. 72, 12.

1873. Battery finished except inner magazine doors and lamp closets. 73, 12.

1874. Armament mounted. Work on magazine doors and lamp closets. 74, 14.

1875. Work on lamp closets, etc. 75, 14.
1876-79. Slopes repaired. 76, 15; 77, 11; 78, 14; 79, 17.

1880. Importance of battery. 80, 34.

1885. Principal magazine floored slopes repaired, and minor work done. 85, 21.

1886. Repair of slopes and painting doors. 86, 22.

Part 25, FNF. Staten Island—South Mortar Battery (in Rear of Battery Hudson Extension).

1872. Work begun; importance of battery. 80, 32.

1873. Masonry and earthwork of s. branch and concrete foundations for 4 platforms completed. 73, 12.

1874. Work on magazine doors and picket fence. 74, 15.

1885. Painting doors and repairing slopes. 85, 22.

1886. Repairs of slopes. 86, 23.

Part 26, FNF. Staten Island—Glacis Gun Battery (on Site of Fort Tompkins).

1872. Work begun and battery finished except hanging doors and laying breast-height wall and timber platforms. 72, 12.

1873. Battery completed and made ready for armament. 73, 10.

1874. Magazine doors and lamp closet not yet completed. 74, 14.

1875. Minor work done on doors, slopes, etc. 75, 14.

1878-79. Minor repair of slopes. 78, 14; 79, 17.

1880. Importance of battery. 80, 31.

1885. N. service magazine floored, doors completed and hung; top revetment over breast-height wall resodded; and minor work. 85, 21.

1886. Repairing slopes and painting doors. 86, 22.

Part 27, FNF. Staten Island—Two-gun Battery (Near Southeast Angle of Channel Front of Fort on Site of Fort Tompkins).

1883. Description. Built toward the close of the Civil War. 83, 26.

1884-86. Repair of slopes. 84, 30; 85, 24; 86, 24.

Part 28, FNF. Southern Entrance—Five-gun Battery, Staten Island.

1891. 16,620 c. y. excavated and placed in embankment. 91, 7.

1892. 8,485 c. y. concrete placed; minor work. 92, 5.

1893. Concrete work and earth parapet nearly completed; terreplein roughly graded; ditch excavated and paved and rear earth slope graded. 93, 7.

1894. Minor work done; awaiting the adoption of a gun carriage. 94, 8.

1895. 968 c. y. of earth placed in parapet; masonry of fifth emplacement and of 4 platforms well advanced. 95, 7, 504.

1896. Concrete and earthwork completed. Five guns and carriages received and mounted; latrines built, range finder and relocater house built; battery completed, except hoists, trolley, cranes, handrails, and lights. Battery transferred to commanding officer of the post. 96, 477.

1897. Handrails placed; cranes, trolleys, and hoists erected; battery now complete. 97, 613.

1898. Painting superior slope concrete. 98, 629.

1899. Minor repairs. 99, 773.

Part 29, FNF. Southern Entrance—Two 2-gun Batteries for 10-inch Guns, Staten Island.

1897. Work begun in July, 1896, on 2 batteries, each with 2 positions for 10-inch rifles. Platforms ready for carriages by December, 1896; parapet and magazines completed; 1 carriage being assembled. Artillery fire control—work begun on stations for range finder, observation, and searchlight. 97, 613.

1898. Ammunition lifts, trolley, and cranes provided; magazine doors hung; superior slopes painted; 4 telephone booths built and electric-light plant installed. Batteries turned over to the commanding officer. 98, 629.

1899. Minor repair of ammunition lifts and drainage system. 99, 773.

Part 30, FNF. Southern Entrance—Battery of Three 10-inch and Four 12-inch Guns, Staten Island.

1897. Work begun by contract on emplacements for three 10-inch guns on disappearing carriages. Excavation and concrete work; 2 emplacements for 12-inch guns to be built by hired labor. 97, 622, 623.

1898. Three 10-inch emplacements adopted in lieu of 1 of the originally proposed 2 iron casemates; battery completed under contract. Work begun on 12-inch emplacements. 9,732 c. y. concrete

placed, magazines built, and 2 platforms ready for armament; work begun on the other 2 emplacements. 98, 631, 632.

1899. Electric plant installed at 10-inch emplacement, completing same; 12-inch emplacement nearly completed; 2 guns and carriages received. Cost of work. 99, 778, 779.

1900. Four 12-inch guns mounted; some waterproofing. 00, 839.

Part 31, FNF. Southern Entrance—Two Emplacements for 8-inch B. L. Rifles on Modified 15-inch Gun Carriages, Staten Island.

1898. \$6,000 allotted. No alteration required for platforms and magazines of old battery; 1 altered carriage nearly completed. 98, 629.

1899. Work completed; guns received and mounted in August. 99, 775.

Part 32, FNF. Southern Entrance—Twelve-inch Emplacements, Battery Richmond, Staten Island.

1898. The allotment from "National defense" for 2 emplacements, excavations nearly completed; platforms ready for armament; parapet and walls built to level of magazine ceilings. **98, 629.**

1899. Battery completed; machinery and lights installed; 1 base ring set. Range-finder house built. Cost of work. **99, 773.**

Part 33, FNF. Southern Entrance—Twelve-inch Emplacements, Battery Hudson, Staten Island.

1898. Excavation begun for 2 emplacements for 12-inch guns on disappearing carriages L. F. model 1896. **98, 629.**

1899. Magazines and platforms nearly completed; carriages received. Cost of work. Ar-

rangement of plant shown on tracing. Range-finder house built. **99, 766, 774.**

1900. Emplacements completed, except small amount of sodding on slopes; armament being mounted. **00, 836.**

Part 34, FNF. Southern Entrance—Temporary Batteries, Staten Island.

1898. \$5,000 allotted. Work begun in May for battery for three 8-inch converted rifles; platforms

sand parapet, and magazines completed; battery ready for armament. **98, 629.**

Part 35, FNF. Southern Entrance—Rapid-fire Guns, Staten Island.

1898. \$6,000 allotted for 2 emplacements for 4.7-inch guns to protect mine fields; work begun;

platforms completed; guns mounted; emplacement completed except minor work. **99, 629.**

Part 36, FNF. Southern Entrance—Two Emplacements for 15-pounder R. F. Guns, Staten Island.

1899. Work begun in February and completed in June, 1899. **99, 775.**

Part 37, FNF. Southern Entrance—Two Emplacements for 6-inch R. F. Guns on Pedestal Mounts, Staten Island.

1899. Work begun in September, 1898; concrete work completed and guns mounted in December. **99, 775.**

Part 38, FNF. Southern Entrance—Two Emplacements for 6-inch Guns on Disappearing Carriages, Staten Island.

1899. Work begun in March. Emplacement 2 nearly completed; cost of work. 99, 774.

1900. Emplacements nearly completed, except a small amount of parapet constr. 00, 836.

Part 39, FNF. Southern Entrance—Defenses of Staten Island.

1901. \$99,015 allotted. 01, 767. Two 12-inch guns. Transferred to commanding officer Aug. 18, 1900. 01, 764. Two 6-inch guns. Transferred Oct. 29, 1900. 01, 764. Two 12-inch guns. Work begun, detailed statement of work accomplished given. 01, 765. Work completed. 02, 688. Electric-power station. \$20,000 allotted. Excavation begun; awards made for furnishing boiler and other machinery. 01, 764. Constr. completed. 02, 688.

1902. \$117,250 allotted. 02, 689. New battery for two 12-inch guns on disappearing carriages, model 1901; excavation begun; 36,936 c. y. concrete work completed. 02, 688. Peace Storage Magazine. Constr. begun; building nearly completed. 02, 688. Miscellaneous work, such as installing electric plant, implement racks, telephone booths, constr. concrete pedestals, etc. done. 02, 688.

Part 40, FNF. Fort Hancock, Sandy Hook, N. J.

1857. Work begun. Importance. 80, 33.

1866. Work on scarp and casemate arches of the water fronts. 66, 11.

1867. Work on scarp of ne. bastion, piers of nw. front, walls of service magazines; excavation for foundations of scarp and piers of the new terrace; work on jetties. 67, 11.

1868. Work on the se., s., and sw. land front; minor work; repair of jetties 1, 2, and 4; jetty 6 commenced; minor work. 68, 14.

1869. Work on land fronts continued. 69, 14.

1870. Care and preservation. 70, 20.

1871. \$13,500 allotted. Work on additional jetties. 71, 15.

1872. Two jetties built of sheet piling, each 150' long. 72, 13.

1873. Two jetties built, 1 of sheet piling and 1 of cedar piles and brush. 73, 12.

1874. One jetty 109' long built. 74, 15.

1875. Care and preservation. 75, 16.

1876-77. Repair of jetties and plant. 76, 16; 77, 12.

1878. Sand box bulkhead 1,300' long built. 78, 15.

1883. \$17,500 allotted. 766' of concrete jetties built on the sites and remains of old jetties. 83, 26.

1885. \$5,000 allotted for stone revetment between jetties 8, 9, and 10; work completed; 57 shot beds made; repair of buildings. 85, 24.

Part 41, FNF. Southern Entrance—Mortar Battery 1, with Ditch Defenses, Sandy Hook Defenses.

1890. \$201,000 allotted. Work begun in November, 1890. 93, 600.

1891. 30,000 c. y. excavated. 91, 7.

1892. 13,025 c. y. concrete placed. 92, 6.

1893. \$53,000 allotted. 13,827 c. y. concrete masonry built and 118,478 c. y. sand filling placed; drainage system completed and 4 carriages received. 93, 600.

1894. \$20,000 allotted. Masonry and sand filling completed; mortar platforms built and carriages assembled, and mortars mounted and tested. 94, 449.

1895. Final battery firing made; results shown. Proj. for electric-lighting system approv. and installed; description, with cost. R. by Col H. C.

Abbot upon volley practice with mortars. 95, 8, 505 519.

1896. Overhead traveler for handling ammunition adjusted; minor repairs to embankment and repainting doors. 96, 480.

1897. Total cost of battery, \$270,724.67. 97, 618.

1898. Eight platforms dismantled and provided with index rings of the new pattern. 98, 631.

1899. Eight more platforms dismantled and provided with new index rings. A pier built for emergency range finder. 99, 778.

1900. Alterations completed. 00, 839.

Part 42, FNF. Southern Entrance—Gun-lift Battery 1, Sandy Hook Defenses.

1891. \$9,087.43 app. Excavation begun and nearly completed; 3,500 c. y. concrete placed; foundation for accumulator pit, 5' below water, laid; and minor work. 91, 7.

1892. \$53,912.57 app. 29,875 c. y. concrete placed; mechanism placed. Est., battery for two 12-inch guns, \$457,000. 92, 6.

1893. \$458,500 allotted (1891-93). Est. of cost. 8,292 c. y. masonry constr.; 5,185 c. y. sand placed in embankment, gun mounted and tested, and battery practically completed. 93, 607.

1894. Ammunition service completed, bullet-proof entrance doors completed and hung, gun tested. 94, 456.

1895. Second gun mounted, completing this battery; final drawing of completed battery made. Cost of constr. 95, 8, 506.

1896. History; cost and ests. Rapidity of fire tested by B.E.; results. Preservation and repair. 96, 480.

1897. Description of battery; constr., expenses, and testing guns and mechanism. 97, 619.

1898. Condenser for disposing of exhaust steam installed. Two range-finder piers for portable instruments built. 98, 631.

1899. Three Gatling guns mounted for gorge defense; alterations made in pillars for emergency range finders. 99, 778.

Part 43, FNF. Southern Entrance—Ten-inch Battery, Sandy Hook.

1897. \$100,000 allotted for 1 battery of two 10-inch guns. Work begun, 1896. Battery completed, except ammunition lifts. No carriages received. 97, 620.

1898. Two emplacements built on site originally proposed at a second gun-lift battery; am-

munition lifts erected, electric lighting completed, and the battery turned over to the commanding officer. 98, 631.

1899. Doors repaired; 2 concrete pillars built for emergency range finders. 99, 778.

Part 44, FNF. Southern Entrance—Five-inch R. F. Battery, Sandy Hook Defenses.

1897. \$4,000 allotted for 1 emplacement. 97, 623.

1898. Work begun in September, 1897, and completed Apr. 21, 1898. 98, 632.

1899. Alteration of platforms completed and gun mounted. 99, 779.

1900. Alteration of platform made. 00, 839.

Part 45, FNF. Southern Entrance—Pneumatic Gun Battery, Sandy Hook Defenses.

1898. Emplacements for two 15-inch and one 8-inch gun to be built by contract. Sand parapet built of sandbag retaining walls, nearly completed. 98, 632.

1899. Sandbag retaining walls completed.

Pillar erected for an emergency range finder. 99, 779. Board walk built to connect with 10-inch battery, No. 2. 99, 780.

1900. Concrete retaining walls and bombproof begun. 00, 839.

Part 46, FNF. Southern Entrance—Six-inch R. F. Battery, Sandy Hook Defenses.

1898. \$16,000 allotted. Plans approv. and railroad track to site of battery built. 98, 632.

1899. One-third concrete work completed. Site interfered with ordnance proving ground; work suspended. 99, 779.

Part 47, FNF. Southern Entrance—Fifteen-pounder R. F. Emplacements, Sandy Hook.

1899. Work begun in February for 2 emplacements and completed; awaiting arrival of carriages. 99, 780.

1900. Carriages not yet received. 00, 839.

Part 48, FNF. Southern Entrance—Defenses at Sandy Hook.

1901. \$54,958.37 allotted. 01, 769. Battery No. 2, 15-pounder R. F. guns. Work begun July, completed November. 01, 768. Pneumatic dynamite-gun battery—temporary parapet and magazines removed and replaced by permanent ones. 01, 768. Water supply system work completed. 01, 768. Galleries, constr. of, for 10-inch emplacements, work completed. 01, 768. Implement racks constr. and erection steel implement racks. Work completed except those for gun-lift battery. 01, 768.

1902. \$100,000 allotted. 02, 692. Emplacements for 6-inch R. F. guns, pedestal mounts; work begun, plant erected, 1,864 c. y. concrete in place. 02, 690. Emplacements for two 12-inch guns; operations in progress. 02, 691. Electric light and power plant; work begun, brick building constr., switchboard set up and connected. 02, 691.

Part 49, FNF. Southern Entrance—Seven-gun Battery, Long Island.

1893. \$82,000 allotted. Work begun; 2,700 c. y. earth removed; constr. plant nearly completed. 93, 7.

1894. 10,867 c. y. earth excavated and 10,362 c. y. concrete placed. 94, 456.

1895. Pavement on superior slope nearly completed; drainage system put in; doors made and hung; and casemates prepared for R. F. guns. Table of cost of work. 95, 7, 505.

1896. \$72,600 allotted. Emplacements completed, awaiting arrival of carriage. Revised plans. 96, 479.

1897. \$45,000 allotted. Projs. Work on modification of 4 traverse magazines for 6-pounder R. F.

guns; ammunition service and electric-light plant installed. 97, 614.

1898. \$100,000 allotted. Emplacements 4, 5, 6, and 7 completed; guns mounted and turned over to the commanding officer; work on emplacements 1, 2, and 3 begun and platforms for 2 and 3 completed. 98, 627.

1899. Emplacements 1, 2, and 3 completed, and 3 carriages and 1 gun mounted. Cost of work. 99, 768.

1900. Two remaining guns mounted and galleries connecting loading platforms built. 00, 833.

Part 50, FNF. Southern Entrance—Mortar Battery, 12-inch Mortars, Long Island.

1898. Plans being prepared. 98, 627.

1899. Work begun and excavation in progress. 99, 771.

1900. 8,562 c. y. concrete placed; base rings for platforms set; work on parapet and slopes. 00, 832.

Part 51, FNF. Southern Entrance—Rapid-fire Guns, Long Island.

1898. \$6,000 allotted for two 4.7-inch R. F. guns; platforms 7 and 8 of 15-inch gun battery (water battery) altered for the R. F. guns; emplacement completed and guns mounted. 98, 27.

1899. Drains cleaned. 99, 77.

Part 52, FNF. Southern Entrance—Twelve-inch Battery No. 1, Long Island.

1898. \$30,000 allotted from "National defense" for 2 barbette emplacements. Excavation in progress. Allotment from "Gun and mortar batteries" for 12-inch emplacements for disappearing carriages. 98, 627.

1899. Emplacements 1 and 2 completed. Mounting carriages; cost of work. Allotment for emplacements 3 and 4 for two 12-inch B. L. rifles on disappearing carriages. Work begun in August,

1898. Excavation completed and concrete work in progress. Cost of work. 99, 770.

1900. 7,489 c. y. masonry placed, completing concrete work. Battery nearly completed, guns mounted at 1 and 2, and carriages in 3 and 4. \$5,000 allotted for raising two 12-inch delivery tables to adapt them to ammunition trucks issued by Ordnance Department. 00, 833.

Part 53, FNF. Southern Entrance—Twelve-inch Battery in Stone Fort, Long Island.

1899. Plans approv. for two 12-inch B. L. rifles on disappearing carriages on the water face of the old stone fort. 99, 770.

1900. 5,998 c. y. old masonry removed, 3,712 c. y. excavated, and 2,745 c. y. concrete placed. 008, 33.

Part 54, FNF. Southern Entrance—Six-inch Battery, Long Island.

1899. Plans approv. for 2 emplacements for 6-inch B. L. rifles on disappearing carriages. 99, 771.

1900. 3,604 c. y. old masonry removed, 2,121 c. y. excavated, and minor work. 00, 833.

Part 55, FNF. Southern Entrance—Two 15-pounder R. F. Guns, Long Island.

1899. Two 8-inch converted rifles dismantled from platforms 1 and 2 of old water battery and work begun on new work; 290 c. y. earth excavated. 99, 771.

1900. 659 c. y. concrete placed, 532 c. y. earth excavated, 400 c. y. placed in slopes; work nearly completed, ready for its armament. 00, 832.

Part 56, FNF. Southern Entrance—Miscellaneous Defense Work.

1900. Allotment made and work begun. 00, 840.

1901. \$53,800 allotted. 01, 763. Seven 10-inch guns; rear ditch widened; slopes sodded; retaining wall built; electric-light conduits laid. 01, 762. Four 12-inch guns; emplacements 3 and 4 graded and sodded; doors hung; electric lights installed; guns mounted. 01, 762. Mortar battery; 656 c. y. concrete placed; 5,529 c. y. earth embankment sodded; ditch macadamized, etc.; lighting system installed; battery completed; turned over Mar. 4, 1901. 01, 762. Two 12-inch emplacements; 8,493 c. y. concrete placed; other work done; platforms completed; ready for armament. 01, 762. Two 6-inch emplacements; 428 c. y. masonry removed;

4,317 c. y. concrete placed; parapets graded, doors hung, etc. 01, 763. Installation electric-light plants. \$30,000 allotted. Machinery ordered; constr. begun. 01, 763. Four emplacements, 6-inch R. F. guns on pedestal mounts; pre. work in progress. 01, 763.

1902. Long Island defenses: \$250 allotted. Two 12-inch and two 6-inch—Battery completed; misc. work of grading, sodding, etc., done. One 6-inch carriage and gun mounted; two 12-inch carriages and guns mounted 02, 685. Four 6-inch R. F. guns; work begun; platforms ready for mounts. 02, 686. Installation of electric lights; work completed. 02, 686.

Part 57, FNF. Eastern Entrance—Fort Schuyler, East River (North Side of Eastern Entrance).

1833. Work begun. 80, 27.

1866. Work on service magazines; glacis repaired, paving in sally port renewed, sea wall repaired, and buildings repaired and altered. 66, 8.

1867. Two service magazines completed; work on 2 others; 15-inch gun platforms; stone parapet and breast-height walls; repair of buildings. 67, 7.

1868. Two service magazines completed; laying two 15-inch gun platforms on the cover face; modifying casemates of lower tier of main work to adapt them for new iron carriages of 10-inch guns and repair of wharf and buildings. 68, 11.

1869. Completing new magazines and gun platforms of the cover face, modifying casemates of second tier for 8-inch gun carriages (iron), placing gratings and shutters, and minor repairs. Est. cost of modifications, \$308,000. 69, 11.

1870. Care and preservation. 70, 17.

1871. \$57,500 app. Modification work begun, emplacements for 4 heavy guns completed on cover face; in the place-of-arms the parados, covering 2 magazines and a large bombproof, completed; new battery for 3 modern guns, at n. end of covered way, completed; minor repairs of sea wall, buildings, etc. 71, 13.

1872. \$85,000 app. Three brick arches, 1 heavy abutment pier, part of the new parade wall, and new coping to scarp wall built; bridge across both ditches completed; and minor work. 72, 10.

1873. \$65,000 app. Two large and 2 small brick arches built in n. front of main work; all arches covered with concrete and mastic; 1 traverse magazine built and partly covered with sand; new parade wall completed; removal of old stone parapet and parade wall in ne. front; 1 abutment and 2 intermediate piers built, and another abutment pier nearly completed; 2 stone arches turned. In 10-gun battery emplacements for 3 heavy guns

provided, 4 traverse magazines built; 2 traverses—part of the parados and half of parapet built. 73, 9.

1874. \$25,000 app. Main work: North front—earthen parapet embanked and exterior slope graded; 2 center pindle platforms for 15-inch guns laid; traverse magazine No. 1 completed and partly sodded; traverse magazine No. 2 built, covered with mastic; minor work. Northeast front—parade wall finished and coping of scarp wall set; pier completed; casemate arches covered with mastic; minor work. Southeast front—abutment pier completed, 2 others built, and work on a third; old parade wall, stone parapet, and gun platforms removed, and minor work. Ten-gun battery—parapet, epaulement, and parados graded and sodded, and minor work. 74, 11.

1875. \$25,000 app. Main work: North face—work on earth and sand filling and completing platforms. Northeast face—work on traverse magazines 3 and 4. Southeast face—2 piers built, work on communicating arches, and all coping on this face backed with concrete. Ten-gun battery—bonnet with its retaining wall built; work on parapet. Torpedo casemate completed and 141 l. f. of torpedo gallery finished. 75, 11.

1876. Main work: North face—work on earth parapet and minor work. Northeast face—magazine No. 4 completed; work on retaining wall and slopes. Southeast face—brick revetment built on coping of scarp wall; asphalt and lime mortar applied to large arch and coping of scarp wall; work on parapet. South face—old stone parapet and 1 platform removed, torpedo gallery completed. Ten-gun battery—work on rubblestone wall. 76, 12.

1877-85. Care and preservation. 77, 9; 78, 11; 79, 14; 80, 27; 81, 25; 82, 20; 83, 16; 84, 22; 85, 16.

Part 58, FNF. Eastern Entrance—Fort at Willets Point.

1863. Work begun. Importance. 80, 27.

1866. Drain pipes laid under casemate floors of first tier: flagging laid for casemate floors and for terreplein outside of casemates; embrasure iron put in place; work on scarp walls, flagging, and traverse stones, on drain gallery and cut stone; basin finished. Minor work. 66, 8.

1867. Work on scarp wall; completion of piers, casemate floors, second tier, nw. drain gallery; ne. drain gallery begun. 67, 8.

1868. Completion of arch over service magazine in second tier, and of drain gallery in rear of ne. retaining wall, arch over salient casemate and 2 flank casemates in chan. bastion; excavation for storage magazine completed. 68, 11.

1869. Work on storage magazine; fitting up service magazine for storage of powder; care and preservation. Est., earthen barbette battery for heavy guns, \$180,000. 69, 11.

1870. Work on storage magazine, breaking stone; drainage. 70, 17.

1871. \$45,000 app. Underground passage 270 long from the new bluff batteries to the water battery completed. Work on large storage magazine, 6 service magazines, and parapet, covering emplacement for 12 heavy guns. Battery ready for guns. 71, 13.

1872. \$76,500 app. Storage magazine completed; Little B. battery (2 guns), and w. battery (6 guns), with their 5 traverse magazines, essentially completed; excavation for mortar battery made; concrete stone prepared; extensive repairs of wharf. 72, 10.

1873. \$40,000 app. W. battery, with emplacements for 6 guns and 3 service magazines, completed, including most of its sea walls. Work on middle battery (10 guns), 4 guns could be mounted; e. battery (7 guns) begun; mortar battery (16 heavy mortars) ready for mortars. 73, 10.

1874. W. battery—work on concrete foundation for one 15-inch front pindle gun platform and sea wall completed. Middle battery—3,000 c. y.

earth placed in parapet; sodding exterior slopes completed; platforms ready for four 15-inch guns; sea wall completed; 4 storage casemates completed; minor work. E. battery—6,000 c. y. earth placed in parapet; 1 traverse magazine built and covered with earth, 2 others built and partly embanked; mortar battery completed, and platforms nearly ready for mounting four 13-inch mortars on hand 74, 12.

1875. \$25,000 allotted. W. battery—one 15-inch platform completed; sodding exterior slope. Middle battery—work on traverse circles; platforms for two 15-inch guns completed and guns mounted; some sodding done; 3 storage casemates built; drainage and minor work. Mortar battery—4 wooden platforms for 13-inch mortars placed 75, 121.

1876. Torpedo casemates prepared. Mortar battery—minor work on slopes, 2 new storage casemates finished, some drainage. Sea wall built in front of little battery. 76, 12.

1877. Sea wall extended; slopes repaired; storage casemates covered with earth; wharf strengthened, general repairs. 77, 9.

1878. Earth placed on parapet and storage casemates; sea wall extended 543 l. f.; and minor repairs. 78, 11.

1879. Repair of slopes, sea walls; earth covering of storage casemates; minor work. 79, 15.

1880-86. Care and preservation. 80, 26; 81, 27; 82, 22; 83, 17; 84, 23; 85, 16; 86, 17.

Part 59, FNF. Eastern Entrance—Gun Battery, South Side of Entrance.

1891. Excavation for 1 magazine for 8-inch guns and its approaches completed and concrete work begun. 91, 7.

1892. One magazine and part of parapet connecting it with next emplacement completed and the second magazine begun. 92, 6.

1893. 10,093 c. y. concrete placed, 10,628 c. y. earth excavated, and 4,384 c. y. placed in embankment; and minor work. 93, 8.

1894. Work completed as far as possible; awaiting adoption of carriage. 94, 9.

1895. Wharf repaired. 95, 8.

1896. \$20,540 allotted. One 10-inch emplacement completed, including mounting of carriage and gun. Work on the other emplacement. 96, 475.

1897. \$45,000 allotted. Another emplacement,

No. 6, authorized April 22. Minor work and installation of trolleys—hoists and cranes for first 3 emplacements; 55 t. of granite and iron placed on gun platforms for settlement. Three 15-inch Rodman guns dismounted from site of emplacement 6; work begun. 97, 612.

1898. Emplacements 1, 2, and 3 completed; emplacement 6, concrete work finished and earthwork nearly completed; ammunition lift, trolley, and cranes in place. \$5,600 allotted for waterproofing. \$100,000 allotted for two 12-inch gun emplacements 4 and 5; excavation begun. 98, 626.

1899. Excavation for emplacements 4 and 5 completed; concrete work nearly finished. 99, 765.

1900. Emplacements 4 and 5 nearly completed; guns mounted. Emplacement 6—rear roadway graded and side banks sodded. 00, 830.

Part 60, FNF. Eastern Entrance—Battery for Sixteen 12-inch Mortars.

1891. 400 c. y. r. and 1,600 c. y. earth removed. 91, 7.

1892. Buildings erected and wharf built; 7,379 c. y. earth excavated and 3,462 c. y. placed in embankment. 92, 7.

1893. 1,939 c. y. r. removed; 2,166 c. y. earth excavated and placed in embankment; 1,860 c. y. stone crushed and 1,952 yards concrete laid. 93, 8.

1894. Four platforms in progress, and anchoring bolts set; filling one-half completed; 4 carriages on hand. 94, 9.

1895. Four carriages and mortars mounted in 1 pit; excavation of 3 other pits completed; 4 mortars and carriages on hand; floors placed in magazines, loading rooms, and one-half of galleries. 95, 8.

1896. \$32,106.79 allotted for battery, and \$2,085.87 allotted for mounting guns and carriages;

all platforms completed; 8 mortars and carriages received and mounted; work on retaining walls and embankment. 96, 473.

1897. \$9,700 allotted. Concrete slopes and pavements completed, embankment nearly finished, all carriages and mortars mounted and turned over to the troops. \$5,200 allotted for electric-light plant building; completed. 97, 610.

1898. \$5,500 allotted for constr. of parapet and 1 emplacement for 8-inch B. L. rifle; earth parapet and magazines built. 98, 624.

1899. \$8,150 allotted. Platforms altered for new type of azimuth circle. Eight-inch B. L. rifle mounted on altered 15-inch S. B. carriage. Supplies purchased for electric plant. Imp. drainage completed. 99, 762.

1900. New azimuth circles received and set. 00, 828.

Part 61, FNF. Eastern Entrance—Mortar Battery for Eight 12-inch Modern Mortars, South Side of Entrance.

1897. \$14,000 allotted. Plans for 8 platforms prepared. Cut stone ordered and excavation for drains begun. 97, 612.

1898. \$3,000 allotted. Platforms built and mortars and carriages mounted. 98, 626.

1899. Shot trolley service installed. 99, 766.

Part 62, FNF. Eastern Entrance—Two Emplacements for 10-inch Rifles on Disappearing Carriages, North Side of Entrance.

1897. Work begun in August, 1896. Wharf built and concrete plant set up. Excavation and embankment mainly done by contract. Platforms ready for the carriages. 97, 611.

1898. 2,864 c. y. concrete placed. Guns and carriages mounted and battery completed, except

minor work. Battery turned over to the commanding officer May 5, 1897. \$75 allotted for introduction of water supply. 98, 625.

1899. Water-supply system and electric lights installed. 99, 763.

Part 63, FNF. Eastern Entrance—Emplacement 1, for 12-inch Rifle, Disappearing Carriage, North Side of Entrance.

1897. \$50,000 allotted. Supplies purchased; rr. from wharf to site of battery nearly finished. 97, 611.

1898. Concrete work of the parapet, platform, and magazines, and the earthwork of the parapet completed; cranes and trolley for handling ammunition set up. 98, 625.

1899. Earthwork completed, machinery and electric lights installed, carriage and gun mounted, and emplacement completed. Electric plant installed, brick wall built at foot of slope, and drain put in. 99, 763.

Part 64, FNF. Eastern Entrance—Platforms for Target Practice.

1896. Platforms for 2 practice guns—1 for 15-inch S. B. front pintle and 1 for 8-inch converted rifle completed; entire cost, \$1,950. 96, 474.

1900. Earthen barbette and temporary magazines built. 00, 828.

Part 65, FNF. Eastern Entrance—Two Emplacements for 5-inch R. F. Guns, South Side of Entrance.

1898. \$9,000 allotted. Work begun; platforms and magazine walls completed. 98, 626.

1899. Change in carriages, necessitating change in platforms, completed; battery completed in May, 1899. 99, 766.

1900. Slopes graded and sodded; electric wires placed; carriages received but not assembled. 00, 830.

Part 66, FNF. Eastern Entrance—Two Emplacements for 15-pounder R. F. Guns, South Side of Eastern Entrance.

1899. Work begun in February, excavations completed, drains installed, and 258 c. y. concrete placed. 99, 756.

1900. Emplacements completed and armed. Waterproofing. 00, 831.

Part 67, FNF. Eastern Entrance—Two Emplacements for 15-pounder R. F. Guns, North Side of Eastern Entrance.

1899. Work begun in April; magazines completed. 99, 764.

1900. Emplacements completed; guns not mounted. 184 c. y. concrete laid and 2,040 c. y. embankment built. 00, 829.

Part 68, FNF. Eastern Entrance—Two Emplacements for 5-inch R. F. Guns, North Side of Eastern Entrance.

1899. Work begun in August, 1899, and completed, awaiting arrival of carriages. 99, 764.

1900. Carriages received, base rings set, platforms paved, and roadway graded. Guns not received. 00, 829.

Part 69, FNF. Eastern Entrance—Emplacement No. 2 for 12-inch Rifle, North Side of Eastern Entrance.

1899. Work begun in July, 1898. Platform completed. 99, 763.

1900. Emplacement completed, except sodding. Carriage and gun mounted. 00, 829.

Part 70, FNF. Eastern Entrance—Two Emplacements for 5-inch R. F. Guns.

1900. \$20,000 allotted. Work begun in August, 1899; emplacements nearly completed; magazines covered with asphalt waterproof course; cost of work. 00, 828.

1901. Emplacements completed; turned over to commanding officer. 01, 757.

Part 71, FNF. Eastern Entrance—Two Emplacements for 6-inch R. F. Guns.

1901. \$27,500 allotted. Excavation and clearing site begun. 01, 757.

1902. Practically completed. 02, 679.

Part 72, FNF. Southern Side of Eastern Entrance.

1901. \$5,600 allotted. Two emplacements for 5-inch R. F. carriages received, set, and grouted; pavements finished; emplacements turned over Dec. 11, 1900. Disappearing gun battery: Two emplacements for 12-inch guns completed; hoists and magazines painted; electrical connections finished. Roads graded, etc.; iron galleries built;

installation for electric-light plant completed and turned over Oct. 30, 1900. 01, 760.

1902. \$11,750 allotted for addition to building School of Submarine Defense; work in progress; 900 c. y. earth excavated; 100 l. f. 8-inch drain laid. 02, 682.

Part 73, FNF. Northern Side of Eastern Entrance.

1901. \$475 allotted. One emplacement for 12-inch gun (No. 2); grading done; drains made; turned over to Artillery Aug. 15, 1900. Two emplacements for 15-pounder R. F. guns; base rings set; guns mounted; turned over to commanding officer Dec. 22, 1900. Iron gallery to connect loading platforms of 10-inch battery; erected, painted,

and completed; length, 55'. Electric tide indicator; constr. completed; turned over to commanding officer May 11, 1901. **01, 758.**

1902. \$1,200 allotted. Repairs to 5-inch, 3-inch, and 12-inch emplacements No. 2; slope wall of 5-inch battery relaid; 5-inch guns received and mounted. **02, 680.**

Part 74, FNF. Preservation and Repair of Fortifications.

1897. \$2,000 allotted for eastern entrance. Repairing sea wall and wharf. **97, 612.** Southern entrance to H.—roof of torpedo shed repaired and ironwork painted. Cost, \$240.97. \$790 allotted for gun-lift battery. **97, 623.**

1898. Eastern entrance—\$2,561.58 allotted for electric supplies and correction of defective drainage in mortar battery; \$350 allotted for repair of gallery and for platform for 8-inch converted rifle. **98, 625.** \$1,550 allotted. 1,493 c. y. riprap placed along base of sea wall; wharf, buildings, and sewers repaired. **98, 628.** Southern entrance—sea wall in front of 10-inch battery repaired, and platforms 3, 4, 5, and 6 of water battery altered for 8-inch converted rifles; carriages and guns mounted, and slopes repaired and sodded. **98, 628.** Staten Isld.—\$4,945 allotted. Repairs to old forts, sea walls, manholes in sewer; iron fence built; five 15-inch gun platforms altered to adapt them to carriages for 8-inch converted rifles. **98, 630.** Sandy Hook—ironwork and doors of mortar battery painted, and slopes repaired; electric wiring removed from wooden conduits and placed in iron pipes; minor work and repairs at gun-lift battery. **98, 632.**

1899. North side of eastern entrance—search-light installed. South side of eastern entrance—wharf repaired; waterproofing and drainage of disappearing-gun battery. **99, 766.** Southern entrance—repair of electric plant; drainage surfaces of platforms of 10-inch guns and superior slope repaired. **99, 77.** Staten Isld.—old forts and new works repaired. **99, 776.** Sandy Hook—batteries and buildings repaired. **99, 780.**

1900. Eastern entrance—\$284.80 allotted; storm doors built; minor work. **00, 878.** North side of eastern entrance—\$200 allotted for repair of search-light and constr. shelter. \$700 allotted for waterproofing magazines and for minor repairs. **00, 829.** Long Isld.—\$1,700 allotted. Minor repairs of

slopes, cranes, hoists, pavements, drainage, etc. **00, 834.** Staten Isld.—\$2,814 allotted. Repair of lifts, concrete platforms, drainage, mining material, etc. **00, 838.** Sandy Hook—\$4,546.70 allotted. Rosendale cement pavement over magazine replaced with Portland. Sand slopes of mortar battery regraded to a slope of 1 upon 2; minor repair of other batteries. **00, 840.**

1901. Eastern entrance—\$400 allotted. Retaining wall, new manhole built, and drains cleaned; minor repairs. **01, 757.** North side of eastern entrance—\$1,700 allotted for rewiring and waterproofing 10-inch and 12-inch batteries. **01, 758.** South side of eastern entrance—painting done; repairs made; \$600 allotted. **01, 760.** Long Isld.—\$2,500 allotted. Various repairs made. **01, 763.** Staten Isld.—\$3,900 allotted. Material cared for and cleaned; mining casemates, building, etc., transferred to Artillery Mar. 6, 1901. **01, 764.** Sandy Hook—\$11,630 allotted. At gun-lift battery, flagstone replaced with waterproof course; new electric-light equipment installed at mortar battery; repairs to drains. **01, 768.**

1902. Eastern entrance—ground cleaned up, etc. **02, 679.** North side eastern entrance—repairs to ammunition hoist; new drainage outlet made; new drains laid, etc. **02, 681.** South side eastern entrance—\$1,558 allotted. Slopes cleaned; repairs to roadway, engineer wharf; doors painted, and misc. work. **02, 682.** Long Isld.—doors hung; racks placed; slopes repaired. **02, 686.** Staten Isld.—\$1,044 allotted. Removing arch; repairs to steps, windows; constr. new br.; painting roofs, etc.; paving. **02, 689.** Sandy Hook—areas rear of batteries covered with cinders; instrument room and ventilating doors built; waterproofing done; railroad tracks moved; and pneumatic gun battery dismantled. **02, 691.** Fort Columbus—\$5,000 allotted for necessary repairs. **02, 683.**

Part 75, FNF. Range and Position Finders.

Eastern entrance. **96, 477; 97, 613.** Artillery fire control. **97, 613; 98, 629; 99, 776.** Four range-finder houses built and turned over to the Board on Regulation of Seacoast Artillery Fire. **98, 630, 631; 99, 776.** Southern entrance to H. **99, 771, 779.** Sandy Hook. **99, 780; 00, 840.** North side of eastern entrance; 2 stations built. **00, 829.** Long Isld.—two stations built and turned over to commanding officer. **00, 833.**

Long Isld.—one fire commander and two battery commander stations au.; materials purchased; work begun. **01, 763.** Completed and turned over; temporary concrete platforms constr. **02, 686.** Sandy Hook—two range-finder towers built by contract. **01, 768.** Southern side of eastern entrance—\$14,000 allotted. Constr. 4 range-finder shelters; work begun; change of location considered; work suspended. **02, 682.**

Part 76, FNF.

Searchlights.

1901. \$88,700 allotted (\$26,900 transferred to electric plant) for purchasing searchlights at southern entrance. **01**, 769; **02**, 693. Searchlights re-assembled for shipment to service schools. **01**, 770.

Long Isld. defenses—\$11,500 allotted. **01**, 764. Staten Isld.—\$21,000 allotted. **01**, 767.

Act Mar. 1, 1901, app. \$150,000 for searchlights. N. Y. H. **03**, 14.

Part 77, FNF. Sea Walls and Embankments.

Bedloes Isld. (eastern entrance)—est. cost of 580 l. f. of new sea wall, \$25,000. **94**, 14; **96**, 478.

1901. Sea wall at Bedloes Isld.—\$20,000 allotted. Building masonry wall to be 714' l., 8.4' above m. l. w. proposed; no work done. **01**, 762.

1902. Wall completed; 723' l., 8.4' above m. l. w. **02**, 684.

David's Isld. (eastern entrance)—slight repairs. **94**, 14. Repairs made to riprap and coping, and 750 c. y. riprap placed back of wall. **96**, 477. \$47,000 allotted for sea wall and earth embankment. Plans. Work begun in May; 4,046 tons of riprap placed and 625 c. y. of embankment placed, **89**, 458. 5,022 t. of riprap and all capping placed, completing the wall; 27,650 c. y. of material placed in embankment, nearly completing contract. **90**, 382. 3,555 c. y. of earth placed in embankment, completing same. Survey made 1891. **91**, 521. Report of a survey made of David's Isld., by Col. Houston; with design for constr. of a sea wall. **92**, 460.

1901. Eastern entrance—\$10,000 allotted for constr. sea wall; materials purchased; plant prepared. **01**, 757.

1902. Work continued; 375 l. f. built. **02**, 679.

Willet's Point, Ft. Totten (eastern entrance)—\$2,500 app. 1888, for repairs to wharf and sea wall at Willet's Point. **11**, 16.

Fort Schuyler (eastern entrance)—Repairs. **86**, 17. \$4,225 allotted for repairs; completed. **96**, 477; **97**, 611; **98**, 625. \$2,400 allotted for protection of shore north of barracks. **99**, 764. \$10,000 allotted for sea wall on the north shore of reservation. **00**, 830.

1901. North side eastern entrance—\$15,000 for constr. 800 l. f. sea wall; in addition to 1,343' of wall on north shore of reservation, 50 l. f. built. **01**, 759. \$4,600 allotted. Work in progress. **02**, 681.

Governors Isld. (southern entrance)—107 c. y. of cut stone, 172 c. y. of concrete foundations, and

162 c. y. of concrete backing laid in sea wall; 47' of coping placed. **66**, 9. \$54,000 app. Proj. of 1865 provided for inclosing the entire isld. with a sea wall 1,750' l., 8' h. Work begun in May, 1883, to complete sea wall; 300 l. f. built; work done by contract. **83**, 19, 385. \$500 allotted. 206' of wall built. **84**, 25; **86**, 18. \$50,000 allotted, 1888. Plans. Foundation completed for 261' from the Castle Williams wall; 180' of cut stone wall built. **89**, 460. 319 c. y. of concrete foundation, and 1,421 c. y. of masonry wall laid; 21,447 c. y. of earth placed in embankment. **90**, 384. \$50,000 app. History of work. 144 c. y. concrete foundation placed and 153 l. f. masonry wall built. **91**, 525. \$6,597.86 transferred from David's Isld. Total of work done to date—659 c. y. of concrete foundation and 1,499 l. f. of masonry wall laid; 1,856 c. y. of embankment placed behind n. wall, and 39,544 c. y. behind w. wall; description of sea walls around entire isld. **92**, 461. \$4,000 transferred from David's Isld. 396 l. f. wall built, 685 c. y. riprap placed, and minor work. **93**, 631. Riprapping completed, pointing of masonry finished, embankment back of w. sea wall protected with broken stone for a width of 12'; proj. completed. **94**, 14.

1901. Sea wall, Governors Isld.—\$250 allotted. Washout repaired. **01**, 761.

1902. \$1,000 allotted for misc. repairs. **02**, 684.

Sandy Hook (southern entrance)—\$7,500 allotted. Sea wall to protect pneumatic guns completed in 1894. 4,546 t. of stone placed; cost, \$5,298.03. **96**, 483. \$75,000 app. Violent storm, 1897, broke through sand spit of Hook and closed up chan. of Shrewsbury R., threatening the only land communication with the fortifications at Sandy Hook. Riprap wall to close the breach built under contract; 57,165 t. of riprap placed. **98**, 633.

1901. Sandy Hook—\$2,000 allotted for work on sea wall; operations in progress. **01**, 768.

1902. Sea wall completed; jetty built near dynamite-gun battery. **02**, 692. \$75,000 app. 1902, for riprap stone wall eastern beach. **11**, 7. \$40,000 app. 1905, for sea wall, north beach. **11**, 17.

Part 78, FNF.**Sites.**

Coney Isld.—After ex., new site selected. 92, 9. Plumb Isld.—50 acres acquired by condemnation proceedings; \$99,547.76 paid. 92, 9. Fort Hamilton—56.54 acres acquired by condemnation proceedings; \$302,768.13 entire cost. 92, 9. Act of State legislature; land acquired adjacent to reservation ceded to U. S. 93, 10. Bayside (near Keansburg), N. J.—25.3 acres purchased for \$200 an acre. 92, 9. Staten Isld.—Tract No. 1 of the King property purchased for \$60,000. 98, 630. Site purchased for \$51,000 in 1898. 99, 776. \$95,000 allotted for purchase of 3 tracts of land; proceedings

instituted. 00, 838. Fort Wadsworth, west of—14 acres purchased for \$110,000. Condemnation proceedings instituted for acquisition of 115 acres. 92, 9. 82 acres acquired by condemnation proceedings; price, \$599,497.30. 93, 10. 6½ acres purchased for \$53,680. 95, 504. Sandy Hook, N. J.—28 acres acquired at cost of \$25,000. 93, 11. Staten Isld. defenses. Condemnation proceedings instituted for acquisition of 2 properties. 01, 766.

1902. Staten Isld.—\$18,100 allotted for purchasing land. 02, 689.

Part 79, FNF.**Submarine Mines.**

1891. \$9,000 allotted. Five mining casemates completed. 91, 7.

1892. Two special storage sheds completed. 92, 9.

1893. Description of torpedo shed. 93, 617; 94, 456.

1894. Torpedo shed completed; cost, \$3,323.51. 94, 447.

1898. Southern entrance to H.; \$30,000 allotted. Staten Isld.—mining casemate, torpedo storehouse, and tank built in 1897; oil engine installed in casemate; water supply introduced and a passage opened from the casemates to the chan.; movable hoist and traveling crane set up; minor work. \$23,250 allotted for planting mines. 98, 628. Sandy Hook—2 storage tanks constr. by remodeling 2 cisterns in the old stone fort; mines planted, 2 searchlights installed, one 5-inch siege rifle, one 7-inch siege howitzer, and one 4.7-inch R. F. gun mounted on temporary emplacements. 98, 632. Eastern entrance to H.—description of mines placed. 98, 635.

1899. South side of eastern entrance—mining casemate built. 99, 766. Eastern entrance—all torpedo defense removed from mine fields; mines exploded; second mining casemate built and turned over to the commanding officer. 99, 767.

Southern entrance—supplies for electric lighting and searchlights purchased. 99, 771. Staten Isld.—mines and cables taken up, cleaned, and stored; 2 additional cable tanks built. 99, 773.

1900. Defenses of the Narrows—mines and cables taken up, cleaned, and stored; 2 mines lost; repair of electric plant. Sandy Hook—2 cable tanks built; cranes installed and cable stored; new water tank built; casemates wood-lined and waterproofed; mines taken up, cleaned, and stored. North side of eastern entrance—searchlights to be reassembled and sent to one of the service schools. 99, 829. Staten Isld.—electric conduit system laid to connect battery commanders' and fire commanders' stations; reassembling portable searchlight outfits. 00, 836. Sandy Hook—\$3,000 allotted for reassembling portable searchlights; stored cable overhauled and examined; repairs to instruments made. 00, 840. Eastern entrance—mining material moved to Willets Point, N. Y.; plans placed in charge of c. o. post. 01, 761. Sandy Hook—mining material cared for. 01, 768. \$152 allotted. 02, 693. Southern side, eastern entrance—\$6,500 allotted. Extension of shed to laboratory; engine repaired; magazines connected; addition to mining casemate. 02, 682.

Part 80, FNF. Supplies for Seacoast Defenses.

1901. \$1,000 allotted. Purchases made and articles issued. 01, 770.

1902. Staten Isld.—\$3,200 allotted. 02, 690. \$1,000 allotted. 02, 694. *

Part 81, FNF. U. S. Mastic Works on Governors Island, New York Harbor.**ENGINEERS.**

Chief of Engineers. R., 80, 62; 81, 63; 82, 62.

In charge. Col. J. Newton. 1880-82.

OPERATIONS.

1880. 236,170 pounds mastic and 65,760 pounds bitumen procured some years since for covering the arches of casemates of fortifications. This material

was transferred January 24 to the post quartermaster on Governors Isld. for storage, subject to requisition. 80, 62.

1881. 1,980 pounds of mastic and 4,275 pounds of bitumen sold to officers for public works. 81, 63.

1882. 9,447 pounds of mastic and 1,669 pounds of bitumen sold to officers for public works. 82, 62.

FNH. DELAWARE RIVER FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FNH.**Contracts.**

1895. Engines, boilers, generators, switch-board and testing apparatus of electric plant, \$2,975; electric locomotive, \$1,200; 2 electric derrick motors, \$1,800; 2 pile drivers, \$812; 2 concrete mixers, \$482; 1 naphtha launch, \$1,950. **95, 508.**

1896. 15,000 barrels Rosendale cement, 85¢; 10,000 c. y. small broken st., \$1.02; 3,000 t. large broken st., 85¢; 4,000 c. y. sand, 45¢. **96, 487.**

1897. 25,000 c. y. small broken st., \$1.32; 9,000 t. large broken st., 90¢; 18,000 c. y. sand, 29½¢; electric plant, \$5,089; 6 ammunition hoists, \$4,335. **97, 636.**

1898. 150,000 c. y. embankment sand, 23½¢; asphalt waterproofing, \$1.26 per sq. y., in place; 15,000 c. y. small broken st., \$1.23; 25,000 barrels Rosendale cement, 71¢; 7,500 c. y. building sand, 28¢; 2,000 t. large broken st., 85¢; 1,300 barrels Portland cement, \$2.15; 6,000 barrels Rosendale cement, 80¢; 1,250 barrels Portland cement, \$2.20. **98, 645, 650, 653.**

1899. 36,000 barrels Rosendale cement, 68¢; 24,000 c. y. small broken st., 98¢; 5,000 t. large broken st., 73¢; 9,000 c. y. washed sand, 28¢; 18,000 c. y. unwashed sand, 24¢; 163,659 pounds steel beams, 1.4375¢; 4,000 barrels Portland cement, \$2.10; 127 barrels Portland cement, \$2.50. **99, 788, 789, 800.**

1900. 9,000 c. y. unwashed sand, 22¢; 1,700 c. y. small broken st., \$1.37; 1,000 barrels Portland cement, \$2.21; 217 sq. y. asphalt pavement, 1 inch thick, \$1.44; 1,006 sq. y. asphalt pavement, 1½ inches thick, \$1.62; 3 chain ammunition hoists for 12-inch guns, \$1,080; 2 double chain ammunition hoists for 15-pounder guns, \$984; 1,600 c. y. small broken st., \$1.56. **00, 847, 852, 857, 864.**

1902. Materials for constr. of a steel tower, \$5,250. **02, 693.**

Part 2, FNH.**Engineering Features.**

Air spaces in concrete side walls. 97, 631; 99, 786; 00, 849.

Ammunition hoists, electric. 97, 631; 99, 784 (drawing), 795 (drawing); 00, 853, 857; 05, 3008 (pl.).

Asphalt pavement. 00, 849, 852.

Cables; clamps. 05, 3008 (pl.).

Ceiling, constr. of. 99, 786, 798; 00, 843, 859.

Concrete, cost of. 97, 634; 98, 640, 642, 647, 652; 99, 792, 796, 799; 00, 854.

Concrete of superior slope. 97, 630; 98, 651; 99, 798; 00, 848, 854.

Concrete-mixing plant. 97, 629; 99, 792 (drawing).

Materials, cost of, and of handling. 97, 633; 98, 640, 646, 652; 99, 792, 799; 00, 853.

Cranes, ammunition. 00, 850 (drawing).

Dampness in magazines corrected. 00, 843, 859.

Doors, steel and brass. 99, 791 (drawing).

Earth and sand filling, cost of. 97, 634; 98, 640, 642, 647; 99, 792, 796, 799; 00, 854.

Electric plant, light and power. 99, 795 (drawing); 00, 850.

Electric plant used in constr. work, unloading and transporting materials. 96, 485.

Employees, distribution in gangs on work. 97, 632.

Excavation, cost of. 97, 634; 98, 640, 647; 99, 796, 799; 00, 855.

Expanded metal. 99, 787; 00, 843, 859.

Latrines. 99, 798.

Magazines: Peace storage of smokeless powder. 05, 3007.

Mounting mortars, cost of. 98, 645.

Mounting 12-inch barbette guns and carriages. 00, 861.

Mounting 12-inch disappearing guns and carriages. 98, 638.

Piles in place, cost of. 00, 854.

Plant, constr. 99, 792 (drawing).

Switchboard. 00, 850 (drawing).

Temperatures, outside and inside emplacement. 05, 3007.

Tile for ceiling and walls. 99, 788; 00, 849.

Ventilating, system of. 99, 787; 00, 860.

Waterproofing, methods of. 98, 645, 652; 99, 783, 798; 00, 849; 05, 3007.

Wiring, electric. 98, 644; 00, 850.

Work, amount of accomplished per gang (unloading, excavating, mixing concrete, etc.). 97, 633

Part 3, FNH.**Engineers.**

Chief of Engineers. R., 66, 12; 67, 12; 68, 14; 69, 14; 70, 20; 71, 16; 72, 13; 73, 13; 74, 15; 75, 16; 76, 16; 77, 13; 78, 15; 79, 19; 80, 33; 81,

33; 82, 30; 83, 26; 84, 31; 85, 25; 86, 25; 93, 8; 94, 9; 95, 8; 96, 15; 97, 14; 98, 20; 99, 22; 00, 6, 20, 35; 01, 21; 02, 21.

Part 4, FNH.**Boards of Engineers.**

1882. Constituted to consider and report upon the condition of fortifications and what number, if any, could be dispensed with. R., 82, 420.

1887. The BE. est. that one 16-mortar battery and two 12-inch disappearing guns could be built

on Pea Patch (isd.) for \$210,000; also est. for 2 mining casemates. 87, 11.

1894. Report of board constituted to consider and report upon price to be fixed for land in vicinity of Fort Mifflin au. to be sold. 94, 461.

Part 5, FNH.**Engineers in Charge.**

Col. H. Bache, 1865.

Lt. Col. C. S. Stewart, 1865-70.

Lt. Col. J. D. Kurtz, 1870-77.

Capt. Wm. Ludlow, 1877.

Col. J. N. Macomb, 1877-82.

Maj. Wm. Ludlow, 1882.

Lt. Col. G. Weitzel, 1882-84.

Lt. T. L. Casey, 1884.

Maj. W. H. Heur, 1884-85.

Lt. Col. H. M. Robert, 1885-90.

Lt. Col. C. W. Raymond, 1890-1902.

Lt. S. Cosby, 1900.

Col. J. A. Smith, 1902.

Part 6, FNH.

Assistants.

Lt. A. M. D'Armit, 1892.
Capt. S. Cosby, 1894-1902.
Lt. S. Cheney, 1897-98.

Lt. F. W. Altstaetter, 1898.
Lt. J. B. Cavanaugh, 1900.

Part 7, FNH—

FORTS AND BATTERIES.

Part 8, FNH.

Philadelphia, Pa.

General description of the defenses and the necessities for them. 73, 13.

Part 9, FNH. Fort Mifflin, Pa. (Old Stone Fort).

1866. Platforms altered, magazine built, and sundry repairs made. 66, 12.

1867. Magazine completed, new traverse stones put in platforms, and ditch cleaned. 67, 11.

1868. Changes made in and about magazine; ditches cleaned; wharf, sluice, etc., repaired; operations contemplated for future. 68, 14.

1869. Necessary small repairs made; alterations proposed, at an est. cost of \$107,000, to furnish additional emplacement and to construct a new earthen battery for heavy guns. 69, 14.

1870. App. made to carry out proposed plans and work to be carried on rapidly; no expend. during year, except for care of property. 70, 20.

1871. Two small service magazines completed; various repairs made to dikes, roads, brs., ditches, 15-inch platforms, buildings, etc.; new sluice constructed; future work specified 71, 16.

1872. 1,700' of dike reconstructed; minor work and repairs executed. 72, 13.

1873. St. revet. placed along dike of back chan.; constr. material received; minor repairs and work executed; app. of \$55,000 asked for; work proposed for ensuing 2 fiscal years. Fort will be prepared during the year to mount 17 large guns 73, 13.

1874. S. battery of demilune completed; dike along s. boundary finished; exterior battery partly embanked and graded; various repairs executed. 74, 15.

1875. Exterior battery for 9 guns embanked and slope graded; 6 st. platforms made ready. 75, 16.

1876. Nine wooden platforms laid; masonry of part of breast-height walls and of 2 magazines completed; 700 c. y. of sand embanked in battery; dike, slopes, and moat repaired. 76, 16.

1877. A few minor repairs executed; no app. made. 77, 13; 78, 15.

1879. Breaches in dike and other damages caused by severe storm repaired; plans for adapting

works for modern heavy ordnance were prepared by B.E., but only partly completed. 79, 19.

Report made Nov. 13, 1878, by Col. J. N. Macomb, on the storm of Oct. 23, 1878, which was, in severity, almost without parallel. The tide attained the unprecedented height of 11 f. 3 in. above l. w., accompanied with wind blowing from ene., veering to ese. and to s., with a velocity of 49 to 72 m. per hour. Dikes breached and badly washed, 4 brs. lifted from position and floated away, many buildings were destroyed, floor of main magazine, torpedo casemate, and other magazines submerged. The greatest d. of water on the parade ground of the fort was 4 f. 9 in.; \$6,600 was est. as the total cost for protection from overflow of the sites of fortifications. 79, 237.

1880-81. Short history of fort given; present condition described; no work done except for protection and repair. 80, 33; 81, 33.

1882. Extensive repairs made to dikes; sluices, parapet, brs., and buildings repaired; fog bell erected on wharf. 82, 30.

1883-86. General repairs made. 83, 27; 84, 31; 85, 25; 86, 25.

1894. Sale of land in vicinity au. and board appointed to report upon price and conditions of sale. 94, 9, 461.

1896. Damage done to wharf and banks by storms in 1893, 1894, and 1896; portion of reservation assigned to Navy Department for magazine purposes, another portion leased to Mrs. M. M. Black; \$3,000 to be expended from R. and H. app. in rebuilding and enlarging dike. 96, 487.

1897. Work on dike placed under contract and completed. 97, 639.

1898. 280' of dike repaired and sluice renewed. 98, 657.

1899. Washout in 1,080' of bank filled in; 370' raised and revetted; total cost, \$1,196. 99, 794.

Part 10, FNH. Fort Mifflin, Pa. (Mortar Battery).

1871. \$21,000 apportioned to the H. of Philadelphia for emplacement of 6 mortars. 71, 26. Proposed to build battery for 6 mortars s. of fort. 71, 16.

1872. Masonry for 2 service magazines carried forward. 72, 13.

1873. Magazines loaded to test soil; sand placed in parapet. 73, 13.

1874. Minor work and repairs executed. 74, 16.

1875-79. No work done for lack of funds. 75, 16; 76, 16; 77, 13; 78, 16; 79, 19.

1880-86. Site of battery and work done described; no work since 1874. 80, 34; 81, 34; 82, 31; 83, 27; 84, 32; 85, 26; 86, 25.

Part 11, FNH. Red Bank, N. J. (Site for the Defenses at).

1873. Site surveyed and plot prepared. Act giving consent of State of New Jersey to purchase of land approved. Position of great importance 73, 13, 14.

1874-78. Repairs made to dikes, buildings, sluices, and fences. 74, 16; 75, 16; 76, 17; 77, 13; 78, 16.

1879. No works constructed on site for lack of funds; dikes injured by storms and partly repaired. 79, 19.

1880-81. Site described and history mentioned; dike repaired. 80, 35; 81, 34.

1882-83. Site described. 82, 31; 83, 27.

1884. Site and conditions described. 84, 32.

1885. Dikes repaired and shore protected. 85, 26; 86, 26.

1896. Meadow banks breached by storm in 1893, no injury to Government property; reservation leased to Mr. C. Whitall; \$2,500 from R. and H. app. to be spent in rebuilding dike. 96, 488.

1897. Work on dike placed under contract and completed. 97, 639.

Part 12, FNH. Fort Delaware, Del. (Stone Fort).

1866. Various minor works of constr. carried on, dock wall built for 195', glacis completed. 66, 12.

1867. Dock wall extended 158'; repairs made to parade wall, glacis, embankment of the isld., quarters, etc. 67, 11.

1868. Dock walls, and ditches extended, sluiceways finished, embankment and quarters repaired. 68, 14, 15.

1869. Minor repairs made to platforms, wharves, etc.; proposed to modify bastions of work to furnish emplacements for heavy guns. 69, 14.

1870. Slight repairs made; app. made by Congress to carry out approved proj.; work required permanent wharf; dock walls to be completed, and large repairs to levees. 70, 20.

1871. Six magazines for large guns constructed of concrete; traverses begun; levee rebuilt for 2,450'; st. revet. relaid and main ditch repaired. Future works specified. 71, 16.

1872. Nine magazines and traverses finished on terreplein; minor work and repairs executed; observations on force and direction of current completed. 72, 13.

1873. Two barbette platforms for 15-inch guns, with breast-height walls, completed; wharf head temporarily rebuilt; proposed work mentioned. 73, 14.

1874. Three remaining platforms for 15-inch guns put down; extensive work done on magazines; iron balconies, etc., of barbette; iron shield used for experimental firing removed; ditches, dike, and wharves repaired. 74, 16.

1875. Breach made by experimental firing repaired; iron balconies built in rear of traverses; st. superstr. commenced for eastern wharf. 75, 16.

1876. Small amount available applied to repairs most necessary on wharves, flagging, buildings, etc. 76, 17.

1877. Damages to wharf and dike caused by severe storm repaired; temporary repairs made to upper wharf. 77, 13.

1878. Operations confined to care and preservation of property and slight repairs. 78, 16.

1879. Isld. submerged and great damage done by storm; dikes repaired; ditches cleaned; brs., sluice gate, etc., rebuilt. 79, 19.

Report made Nov. 6, 1878, by Col. J. N. Macomb, on the storm of Oct. 23 1878. The wind blew from the s. and e. with a velocity at times of 70 m. per hour, and the water rose to a height of 11 f. 7 in. above 1 w., causing the highest tide ever known. Of the 31 buildings exterior to the fort 12 were destroyed and the remainder much damaged. All brs. except 1 were destroyed. \$11,850 was est. as the total cost for protection of this site from overflow. Record of occasional full tides since 1871. 79, 238, 243.

1880-82. Site of work and condition described, also repairs needed; modifications urged; minor repairs made. 80, 35; 81, 35; 82, 32.

1883. Site and importance described; nothing done. 83, 28.

1884. General repairs made. 84, 33.

1885. Repairs made to brs., slopes, fences, buildings, and masonry of platforms; 25 barbette platforms modified to adapt them to modern iron carriages. 85, 26.

1886. Two platforms modified and 7 leveled; small repairs to grounds and ditches. 86, 26.

1898. Special allotment of \$6,000 made to clean moat and ditches of isld., work deferred. 98, 643.

1899. Au. obtained to do work by hired labor. 14,110 c. y. removed from ditches and 6,120 c. y. from moat; methods described. 99, 802.

Part 13, FNH. Fort Mott, N. J. (Finns Point)—Barbette Earthen (10-gun) Battery, Opposite Fort Delaware.

1866-67. Slight repairs made. 66, 12; 67, 11.
1869. Proposed to construct earthen battery for guns of largest caliber. 69, 14.

1870. App. granted for proj. for powerful earthen battery. 70, 20.

1871. Constr. delayed for want of act of cession of jurisdiction by New Jersey. 71, 16.

1872. Jurisdiction to site perfected; preparations for active operations begun. 72, 13.

1873. Wharf nearly completed, temporary buildings built; roads, fences, and dikes worked on; embankment of battery commenced. 73, 14.

1874. Wharf completed; embankment of parapet continued; magazine begun; dike extended; 2 temporary platforms for 15-inch guns and 3 for 10-inch guns placed. 74, 16.

1875. Magazine and shelter room completed; 2 wooden platforms laid, and constr. of 2 st. plat-

forms begun; embankment continued; sea wall extended. 75, 17.

1876. Two st. platforms completed and 2 others begun; 1 magazine built; embankment continued; sea wall rebuilt; fences extended. 76, 18.

1877. Two st. platforms finished; small amount of work done on sea wall, breast-height wall, and slopes. 77, 14.

1878. A few minor repairs made. 78, 17.

1879. Great damage done by October storm; partial repairs made to dike and retaining walls. 79, 20.

1880-82. Works in poor condition; small necessary repairs made. 80, 36; 81, 35; 82, 32.

1883-84. Part of sea walls repaired and raised; continuation of work urged. 83, 28; 84, 33.

1885-86. St. placed along shore where eroded. 85, 27; 86, 27.

Part 14, FNH. Mortar Battery at Finns Point, N. J.

1872. \$20,000 allotted for 6 mortars. 72, 24.

1873. Work commenced 1872; terreplein partly embanked, foundations of 2 magazines put in, and side walls brought up 2'; funds derived from the general app. for mortar batteries. 73, 14.

1874. Sea wall completed; terreplein embanked; masonry of 2 magazines finished; positions of 3 platforms temporarily occupied by 10-inch guns. 74, 17.

1875-78. No operations for want of funds. 75, 17; 76, 18; 77, 14; 78, 17.

1879. Report made Nov. 6, 1878, by Col. J. N. Macomb, on the storm of Oct. 23, 1878. The wind

blew from the s. and e. with a velocity of 70 m. per hour. The water rose to the unprecedented height of 11 f. 5 in. above l. w. Sea walls, wharf, and buildings partly destroyed. Est. cost of repairs and modifications, \$19,560. Record of occasional full tides since 1871. 79, 240, 243.

1879-81. Résumé of work done; magazines in good condition, but sea wall and embankments badly damaged. 79, 20; 80, 36; 81, 36.

1882-86. Work remains in incomplete condition. 82, 33; 83, 29; 84, 34; 85, 27; 86, 27.

Part 15, FNH. Fort Du Pont, Del. (New Fort Opposite Fort Delaware)—Earthen Barbette Battery.

1866-68. Study of defenses for this position to be entered upon. 66, 12. Commencement of operations deferred. 67, 11; 68, 15.

1870. Proj. for earthen battery to mount 20 guns prepared and approved. App. asked for acquisition of site and completion of work. 70, 21.

1871. Measures taken to acquire site; proposed work specified. 71, 17.

1872. Site acquired; temporary buildings, etc., erected and wharf begun. 72, 14.

1873. Wharf and roadway leading to it built; dike nearly completed; embankment of battery commenced. 73, 14.

1874. Dike completed; right wing of battery partly constr.; wooden platforms for two 15-inch guns laid; embankment in front of battery continued; fencing completed; 3 temporary platforms for 10-inch guns constr. 74, 17.

1875. Breast-height wall and parapet partly finished; 2 magazines completed; 4 wooden platforms laid; embankment raised for 400'. 75, 17.

1876. Two magazines completed; breast-height wall continued; torpedo casemate and cable gallery constr.; ramp formed; embankment continued. 76, 18.

1877. Operations of little importance beyond care and preservation of property. 77, 14.

1878. Severe storm entirely swept away top of dike; no work done except for care and preservation. 78, 17.

1879. Résumé of work accomplished to date; fences and br. carried away by storm tide rebuilt; slight repairs executed. 79, 21.

1880. App. recom. for continuing work; well dug; property cared for. 80, 37.

1881. Wharf repaired. 81, 36.

1882. Buildings repaired. 82, 33.

1883-84. No work done. 83, 29; 84, 34.

1885-86. Slight repairs made. 85, 28; 86, 27.

Part 16, FNH. Mortar Battery Near Delaware City, Del.

1872. \$20,000 allotted to fort opposite Fort Delaware for 6 mortars. 72, 24.

1873. Work commenced in December, 1872. Embankment begun, foundations of magazines put in, and side walls commenced. 73, 15.

1874. Terreplein formed; 2 magazines nearly completed; parapet nearly embanked; three 10-inch guns mounted temporarily. 74, 17.

1875-76. No work for lack of funds. 75, 18; 76, 18.

1877. Two unfinished magazines completed. 77, 14.

1878. No work done for lack of funds. 78, 17.

1879-84. Résumé of work accomplished to date; no work done for lack of funds. 79, 21; 80, 37; 81, 36; 82, 33; 83, 30; 84, 34.

1885-86. Work incomplete and damaged. 85, 28; 86, 28.

Part 17, FNH. Battery on Delaware Shore.

1879. Report made Nov. 6, 1878, by Col. J. N. Macomb, on the storm of Oct. 23, 1878. The wind blew from the s. and e. with a velocity of 70 m. per hour. The water rose to the unprecedented height of 11 f. 5 in. The fencing and brs. were

carried away and the wharf and roadway injured. A vessel of 80 t. was beached upon the outer slope of the battery. \$5,030 was the est. cost of repairs and modification. Record of occasional full tides since 1871. 79, 238, 242.

Part 18, FNH. Delaware Breakwater (New Fort Near),

1866. Fort to be made subject of study by board. 66, 12.

1867-68. Work soon to be begun. 67, 11; 68, 15.

1869. Proj. to be prepared. 69, 14.

1873. Extract from laws of Delaware, vol. 14, p. 247—The State of Delaware au. Commission to be app. to meet U. S. Comrs. to arrange for a cession to U. S. of lands on Delaware Bay, s. e. of old U. S. mole * * * the cession to be made on condition that defenses be constructed thereon. 73, 13.

Part 19, FNH. Three-gun Lift Battery (Battery for Three 12-inch Guns on Disappearing Carriages).

1895. \$260,000 allotted for constr. Old works on site removed and contracts entered into for material and plant; drawings nearly completed. 95, 8. Pre. work done; contracts made for concrete plant, pile drivers, piles, engines, etc.; trolley line constr. and naphtha launch purchased. 95, 508.

1896. \$120,000 withdrawn from allotment. 10,922 c. y. excavated for foundations; 3,810 piles driven; officers' quarters torn down; work suspended during summer; electric plant described 96, 483.

1897. Proj. for battery of three 12-inch disappearing guns to replace gun-lift battery approved; est. cost, \$357,200; pile driving practically completed, 4,582 piles in all being driven; large part of plant used on other work. 97, 636.

1898. \$58,000 allotted to complete concrete foundations, \$10,000 withdrawn; remaining piles driven; slip dredged; pile heads cut off; 10,338 c. y. of concrete placed in foundation; sewer built; 3,970 c. y. of sand placed in filling; detailed table given showing cost of concrete and filling. 98, 641.

1899. Allotment made of \$150,000 for constr. of battery; plans remodeled and contracts for materials entered into; concrete work prosecuted vigorously, 13,682 c. y. being placed; ceiling and

side-wall constr., ventilating and water-supply systems described; 2,385 c. y. sand and 3,020 c. y. of other filling placed; part of 1 gun carriage received; abstract of proposals given. 99, 785.

1900. \$12,500 allotted to complete battery; concrete work completed, 30,811 c. y. in all being placed; 2,509 sq. y. of superior slope carefully paved; walls faced with tile; asphalt waterproofing placed; filling in front completed, 17,646 c. y. material being used; electric wiring installed, also ventilating system, trolley, drainage and water-supply systems, ammunition cranes, iron stairways and balconies; electric plant moved to permanent power house; tracks laid; parade graded and flagstone pavements laid; many doors hung; 3 guns and carriages received, unloaded, and mounted at total cost of \$3,858; old ordnance sold; detailed tables given showing cost of materials and handling and of work. 00, 847. Ammunition hoists contracted for. 00, 853.

1901. Boiler and new switchboard set up, electric plant tested, storage battery received, engines overhauled and repaired, chain ammunition hoists completed. 01, 774. Electric plant cared for, guns and carriages cleaned; detailed statement of amount and cost of work given. 01, 775, 776.

Part 20, FNH. Battery of Three 10-inch and Three 12-inch Disappearing Guns.

1896. \$70,000 allotted for constr.; site surveyed and test pits dug; machinery, derricks, cars, tracks, tools, lumber, and concrete material purchased; wharf and meadow bank repaired; concrete plant constr.; 1,500 c. y. excavated for foundations; 1,706 c. y. concrete placed; wharf extended. 96, 486.

1897. Est. cost of three 12-inch emplacements, \$168,400; of three 10-inch emplacements, \$120,000; of parados, \$13,750; of road, \$3,500; addl. allotment made of \$274,680, from which \$25,000 withdrawn; wharf described; battery proper completed; general description given of emplacements, 10-inch containing 15,606 c. y. of concrete, and 12-inch 21,918 c. y.; plant for mixing and placing concrete described in detail; composition of concrete, ceiling constr., air spaces in walls described; roadway begun and parados projected; systems for handling ammunition and for electric lighting and power described; three 10-inch guns and carriages mounted; detailed tables given showing distribution of employees on work and cost of labor and materials. 97, 628-636.

1898. Roadway, electric system, ammunition hoists, latrines, and telephone booths completed;

33,984 c. y. of earth and sand placed in parados; constr. plant torn down and removed; three 12-inch guns and carriages received and mounted; method of mounting described; troops for garrison arrived. 98, 637.

1899. 6,379 c. y. material placed in parados; work twice interrupted; sluiceway of ditch extended; minor work done on battery; leakage into shot chambers stopped; 5 guns fired, but no target practice; drawing shown of 10-inch ammunition hoist. 99, 782.

1900. Battery turned over to Artillery Jan. 6, 1899; parados completed, containing 44,500 c. y., and slopes graded; minor work of mainten. done on battery. 00, 842. Expanded metal ceilings hung to correct dampness in magazines; bracketed gallery erected to connect the 6 platforms; board fence built in rear; tools and supplies purchased. 00, 843. Slopes of parados repaired; electric plant cared for. 00, 844.

1901. Various repairs made; trees set out to hide battery; electric lights placed. 01, 771.

Part 21, FNH. Battery for Two 5-inch R. F. Guns on Balanced Pillar Mounts.

1897. Battery to be built beyond western end of main battery at est. cost of \$20,000; excavation for foundations nearly completed. 97, 636.

1898. Completed in August, 1897; general features of battery and of electric system described; 2 emplacements contain 2,266 c. y. of masonry and embankment 6,944 c. y. of earth; total cost, \$19,529; table given showing cost in detail. 98, 639.

1899. Installation of searchlight plant completed. 99, 784.

1900. Guns and carriages not yet received; platforms cut down and paved. 00, 842. Expanded metal ceilings placed in magazines. 00, 843.

1901. Carriages received and mounted; hoists, wires, beams, etc., painted. 01, 771.

Part 22, FNH. Mortar Battery.

1897. Battery for sixteen 12-inch mortars to be built at est. cost of \$247,180; \$175,000 allotted; proposals issued; wharf extended 336'. 97, 638.

1898. Wharf repaired and extended and transfer br. built; site of battery prepared; methods of handling st., sand, and concrete described; 22,082 c. y. placed in embankment; masonry practically completed, 15,511 c. y. of concrete being placed; electric-lighting system, waterproofing, and pump room completed; 16 carriages and 8 mortars mounted at cost of \$4,619; detailed tables given showing cost of materials and handling. 98, 643.

1899. Height of earth cover reduced and est. of cost revised; \$17,500 allotted and \$25,344 transferred from another work; storage battery set up; metal doors, telephone circuits, and observation

station erected; 91,650 c. y. sand placed in embankment and faced with earth; blast aprons built; arrangement of constr. plant described; battery practically completed; list of expend. given. 99, 790.

1900. Embankment completed; main drain extended and valve placed at outlet; grounds graded and tracks laid; iron stairway and water tank erected; surface drain laid to prevent flooding of galleries; expanded metal ceilings constr. in magazines and electric fans installed; storage battery used. 00, 858.

1901. Four mortars mounted; bedplates grouted; storage battery cared for; turned over to Artillery. 01, 779. \$400 allotted for clearing grounds adjacent. 01, 781.

Part 23, FNH. Two Emplacements for 8-inch Disappearing Guns.

1898. \$74,000 allotted for constr. from app. for "National defense;" agreements entered into for open-market purchase of materials required; work begun Mar. 21, 1898; 944 c. y. excavated for foundations; concrete rapidly placed, platforms constr. first, and both guns and carriages mounted by May 18; masonry completed June 8; 8,340 c. y. concrete being placed; waterproofing and electric system completed; expend. given in detail. **98, 650.**

1899. \$6,000 withdrawn from allotment; embankment begun and completed, 10,737 c. y. sand and earth being placed in it; electric plant and hoists installed and described; battery reported completed Jan. 1, 1899, and turned over to Artillery January 12; rifles and carriages tested, 1 carriage damaged; cost of battery shown in detail. **99, 794.**

1900. Electric plant cared for; earthen slopes repaired; ironwork painted. **00, 862.**

Part 24, FNH. Two Emplacements for 12-inch B. L. Rifles on Barbette Carriages.

1898. \$30,000 allotted for constr. from app. for "National defense;" est. cost, \$93,000; delivery of constr. materials arranged for; 1,330 c. y. excavated for foundations; concrete constr. begun and 6,419 c. y. placed; 1 platform completed; waterproofing and embankment begun. **98, 653.**

1899. Both emplacements completed, containing 9,288 c. y. Rosendale and 659 c. y. Portland concrete; general details of constr. given; waterproofing described; latrines constr.; embankment

completed, containing 22,278 c. y. material; emplacements completed and turned over to Artillery Jan. 12, 1899; 2 guns and carriages received and mounting begun; cost of battery given in detail. **99, 797.**

1900. \$1,500 allotted for mounting guns and carriages; defects discovered in carriages repaired; addl. defects found; mounting completed at cost of \$1,208. **00, 861.** Electric plant cared for and repairs made; earthen slopes repaired. **00, 862.**

Part 25, FNH. Emplacements for Two 4.72 R. F. Guns.

1898. \$19,750 allotted from app. for "National defense;" temporary platforms erected on barbette of old fort and guns mounted 12 days after arrival; proj. approv. for permanent emplacements; site and general design described; plant set up and materials ordered. **98, 654.**

1899. Foundations excavated, and 206 piles driven; 1,325 c. y. concrete and 7,000 c. y. sand

and earth placed; settlement took place in embankment and entrances; battery completed and guns mounted; embankment leveled up; buildings moved out of line of fire; expend. shown in detail. **99, 800.**

Part 26, FNH. Emplacements for 15-pounder R. F. Guns, Two on Left Flank and Two on Right Flank of 12-inch Disappearing Gun Battery.

1899. Allotments made for constr. of \$3,800 and \$4,000, respectively; sites cleared and small amount of concrete placed. **99, 790.**

1900. Emplacements form part of 12-inch battery; concrete of all emplacements completed except over small part of platforms; pavements,

wiring, electric fans, and iron stairways put in place; ammunition hoists contracted for. **00, 857.**

1901. Installation of hoists completed (tracing shown); \$400 allotted for mounting guns and carriages; work completed. **01, 776, 777.**

Part 27, FNH. Emplacements for Two 5-inch R. F. Guns, Wire Wound, Located on Left Flank of 10-inch and 12-inch Battery.

1900. \$17,500 allotted for constr.; derricks set up; constr. materials purchased and stored; proposals given in detail. **00**, 845.

1901. Repairs to wharf; concrete constr. work; sand filling, etc.; detailed statement of work and cost given. **01**, 772, 773.

Part 28, FNH. Emplacements for Two 5-inch R. F. Guns, Wire Wound, Located Between River and Mortar Battery.

1900. \$15,900 allotted for constr.; locomotive repaired; small constr. plant erected; 380 c. y. material excavated for foundations; Rosendale and Portland concrete placed, completing masonry of s. emplacement; 4,864 c. y. sand placed under masonry and in front embankment. **00**, 863.

1901. \$900 allotted. Battery completed; doors, stairways, platforms, etc., put in place; no guns or carriages yet received; battery turned over to Artillery. **01**, 780. Detailed table showing cost and amount of work. **01**, 781.

Part 29, FNH. Emplacements for Two 15-pounder R. F. Guns.

1901. \$16,000 allotted. Constr. work begun plant erected, material excavated for foundation, ceilings of magazines and postern constr. **01**, 777, 778.

1902. Battery completed and turned over; no guns or carriages received. **02**, 695.

Part 30, FNH. Magazine for 3-inch R. F. Guns.

1902. \$2,500 allotted for constr. magazines for storage of 500 rounds at entrance to left casemate for 3-inch R. F. guns; designs completed. **02**, 694

Part 31, FNH. Converting Old Magazines Into Casemates.

1901. \$3,500 allotted. Excavation, grading misc. work. **01**, 773.

1902. Work completed; turned over to Artillery. **02**, 694.

Part 32, FNH. Preservation and Repair.

1898. \$325 allotted. Fences repaired; sluice gates ordered. 98, 650.

1899. Allotments of \$945 and \$150. Electric plant cared for by skilled mechanic. 99, 785, 798. \$1,150 allotted. River bank, sluices, roadway, and sea wall repaired. 99, 793.

1900. Under various allotments, tools and supplies purchased, electric plant cared for, river banks and wharf repaired, and other work done. 00, 843, 844. Wharves filled in, cement purchased, walls of old fort repaired. 00, 856. Under various allotments, electric plant of 8 and 12 inch battery cared for and repaired, wharf repaired, ironwork of mortar

battery painted, earthen slopes repaired. 00, 862. \$300 allotted for repair of river banks; banks placed in good condition. 00, 865.

1901. \$600 allotted for repairs to walls at entrance to 4.72-inch battery; work completed. 01, 777. Electric-light and power plant cared for; defective boiler tubes replaced. 01, 779. \$4,150 allotted for necessary repairs to river banks, wharves, sea walls, etc. 01, 783. Old cement shed torn down. 01, 784.

1902. \$930 allotted. Misc. repairs to property. 02, 698.

Part 33, FNH. Range and Position Finders.

1900. Allotment of \$25, tide gauges constr. and station of type B depression range finder near mortar battery changed. 00, 862.

1901. \$11,300 allotted for battery-commander's station; work begun; foundation completed; materials delivered; constr. work in progress. 01, 782.

1902. Work completed and turned over to Artillery; \$295 allotted for fire-control telephone

system; work completed. 02, 696. Constr. of 2 stations for Rafferty range finders begun; brick-work completed; earth embankment not entirely finished. 01, 782. \$8,300 allotted for battery-commander's station for 10-inch battery; work begun; concrete foundations completed. 02, 696. \$161.36 allotted. Work completed. 02, 697.

Part 34, FNH. Sea Walls and Embankments.

Fort Delaware, Del. Embankment around Fort Delaware Isld. repaired. 66, 12; 67, 11; 68, 15. Large repairs needed, as levees seriously damaged by storm. 70, 20. Repairs made. 71, 16. S. dike damaged by severe storm; repaired. 77, 13. Isld. submerged and dike breached by unprecedentedly high storm tide in October, 1878; damage repaired; est. submitted for raising dikes to 13'. 79, 20. Dikes restored to original height of 11'. 80, 35.

Fort Mifflin. R. wall repaired. 68, 14. 1,700' reconstr. 72, 13. Dike breached by storm on October, 1878; damages repaired; height and dimensions reported inadequate; est. submitted for raising and revetting. 79, 19. Dredgings placed on dikes above naval wharf. 80, 34. Extensive repairs made to dikes. 82, 30. Parts of dike thoroughly repaired. 84, 32; 85, 25. Meadow banks damaged by severe storms. 96, 487. Under contract 2,100' of dike on reservation were rebuilt

and repaired, payment of \$3,000 being made from R. and H. app. 97, 639. 280' of dike repaired, and leaks stopped in main bank. 98, 657. 1,080' repaired and 370' raised and revetted. 99, 794.

Fort Mott, N. J. Dike in front of reservation worked on. 73, 14. Extended from wharf s. to boundary line; sea wall of mortar battery completed. 74, 16. 530' built and 120' rebuilt. 75, 17. Sea wall s. of wharf entirely rebuilt on pile foundation. 76, 18. Great damage done by October storm, 1878; dikes partly repaired. 79, 20. Part of sea wall repaired and raised. 83, 28; 84, 33.

Fort Du Pont. Dike along R. front nearly completed. 73, 14. Completed. 74, 17. Top entirely swept away by severe storm, rendering further repairs useless. 78, 17.

Red Bank, N. J. Meadow banks breached by storm. 96, 488. Dike rebuilt under contract at cost of \$2,500. 97, 639.

Part 35, FNH.

Sites.

Measures taken to acquire site at Fort Du Pont (New Fort opposite Fort Delaware) (Fort Mott). 71, 17; 72, 14. Jurisdiction of U. S. to site at Finns Point perfected. 72, 13. Site for defenses at Red Bank, Gloucester County, N. J., acquired, and act

giving consent of State of New Jersey to purchase of land approved. 73, 13. Part of Fort Mifflin reservation assigned to Navy Department and another portion leased to Mrs. M. M. Black. 96, 487. Reservation at Red Bank, N. J., leased. 96, 488.

Part 36, FNH.

Submarine Mines.

1875. Constr. of torpedo casemate begun at Fort Mifflin. 75, 16.

1876. Fort Mifflin casemate completed. 76, 16. Torpedo casemate and cable gallery constr. at Fort Du Pont. 76, 18.

1885. Torpedoes at Fort Delaware painted and stored. 85, 27.

1887. BE. submitted ests. for 2 mining casemates for Philadelphia. 87, 11.

1891. Proj. prepared and approv. for 1 casemate for Philadelphia. 91, 6.

1892. Allotments made for 2 casemates in 1891; work to be completed in 1892. 92, 8.

1893. One casemate completed at cost of \$37,760 and 1 modified at cost of \$27,765. 93, 8.

1895. All casemates required completed. 95, 9.

1897. \$1,600 allotted for constr. of cable tank; work completed; tank has overhead traveling crane. 97, 637. \$7,200 allotted for constr. of fire-proof torpedo storehouse of brick; plans approv. and material ordered. 97, 638.

1898. Storehouse completed at cost of \$5,588; building described. 98, 649. Casemates and loading room fitted up, dynamite and cables pur-

chased, and everything gotten ready to plant mines upon outbreak of war. Order received April 22; 3 grand groups planted by May 13; planting of mines and apparatus used described; telephones installed; tests made and searchlight installed; condition of mines stated; guard tugs employed. 98, 655.

1899. Total allotment, \$22,200. Mines became detached; mines raised and stored; several found to have been injured; 3 blown up; steel mooring ropes broken; condition of mines described; new cable received; reels too large; all parts of torpedo system put in good condition; cost of various operations stated; material cleaned and painted. 99, 802.

1900. Set of cable-testing instruments purchased. 00, 856. \$200 allotted for care and preservation of material; searchlights overhauled and stored; inspection of torpedo material made. 00, 865.

1901. \$1,500 allotted from "Care and preservation" for lining torpedo cable tank with steel sheets; property cared for, painted, etc. 01, 783.

1902. Work on cable tank completed. 02, 697.

Part 37, FNH. Supplies for Seacoast Defenses.

1901. \$3,000 allotted. Materials purchased and turned over. Three thermometer shelters constr.; electric lights installed. 01, 784.

1902. \$1,000 allotted. Extensive repairs to electric-plant boiler; electric-light installation com-

pleted; water and electric supply mains laid. 02, 698.

FSJ. BALTIMORE, MD., FORTIFICATIONS.

Part 1, FSJ.**Contracts.**

1897. One 12-inch and three 8-inch gun emplacements, with wharf, \$122,064.46. Mortar battery for eight 12-inch mortars, with wharf, \$91,513.31. **97**, 646, 649.

1898. Electric-lighting plant, mortar battery, \$2,820. **98**, 662. Two 5-inch R. F. gun battery. \$15,798.50. **98**, 663.

1899. Sea walls and embankments at sites 1 and 3, \$24,967. Portland cement, 1,785 barrels, \$2.18 per barrel. Rosendale cement, 7,150 barrels, 95c per barrel. Brick, \$13 to \$45 per M. **99**, 810. Torpedo storehouse, \$3,293. **99**, 817. Wharf, \$5,481.50. **99**, 818.

1900. Electric-lighting plant, \$1,650. **00**, 866.

Part 2, FSJ.**Engineering Features.**

Cement, slag, for concrete. **98**, 665.
Concrete, cost per c. y. **98**, 659, 661; **99**, 819, 820, 821; **00**, 871, 874. Preventing infiltration of water. **02**, 2463.

Dampproofing. Analysis of the problem. **03**, 2400. Air-spacing experiments. **02**, 2462. Asphaltum; unsatisfactory methods of using. **02**, 2464 (pl.). Copper sheeting. **02**, 2464. Fill; care required in forming. **02**, 2462. Magazines and passages. **02**, 2460, 2464 (pl.); **03**, 2404 (pl.). Magnesia lumber; use of. **02**, 2464. Ventilation, experiments with. **02**, 2461.

Emplacements. Sections. **02**, 2464 (pl.).
Excavation, cost per c. y. **98**, 659, 661.
Grading, cost per c. y. **98**, 659.
Granolithic concrete. **98**, 660; **00**, 871, 874.
Plant, description of. **98**, 664, 666.
Sand containing-water under pressure, method of laying concrete on. **97**, 647.
Waterproofing magazines. **98**, 661, 664; **99**, 818, 819; **00**, 866.

Part 3, FSJ.

Engineers.

Chief of Engineers. Rs., 66, 12; 67, 11; 68, 15; 69, 14; 70, 21; 71, 17; 72, 14; 73, 15; 74, 17; 75, 18; 76, 19; 77, 14; 78, 18; 79, 22; 80, 37; 81, 37; 82, 34; 83, 30; 84, 35; 85, 28; 86, 28; 93, 8; 94, 14; 95, 15; 96, 15, 488; 97, 15, 639; 98, 21, 658; 99, 23, 805; 00, 21, 866; 01, 622; 02, 699; 03, 9; 04, 5, 10; 05, 5; 06, 5; 07, 5; 08, 9; 09, 10; 10, 12; 11, 8; 12, 7.

Part 4, FSJ.

Board of Engineers.

Constituted to consider and report upon the condition of fortifications and what number, if any, could be dispensed with. R., 82, 421; 87, 11.

Part 5, FSJ.

Engineers in Charge.

Capt. C. N. Turnbull, 1866.
Col. W. P. Craighill, 1866-93.
Maj. J. G. Parke, 1868.
Col. J. H. Simpson, 1868-70.
Lt. Col. J. D. Kurtz, 1870.
Capt. C. P. Phillips, 1878.

Capt. T. Turtle, 1883.
Col. P. C. Hains, 1896-99.
Lt. C. W. Kutz, 1898-1900.
Lt. Col. O. H. Ernst, 1900-02.
Col. Peter C. Hains, 1902.

Part 6, FSJ.

Assistant.

Lt. C. W. Kutz, 1897-1901.

Part 7, FSJ—

FORTS AND BATTERIES.

Part 8, FSJ.

Fort Carroll.

1847. Work begun. 80, 38.
1866-67. Preservation. 66, 13; 67, 12.
1868. Work is completed on fronts 1, 2, 3, 4, and 5 up to the springing line of casemate arches of second tier., 68, 15.
1869. Temporary wharf repaired. 69, 14.
1870. Preservation and repair. 70, 21.
1871. Observations made to determine the direction and force of the surface and subsurface currents, for use in placing explosives. 71, 17.
1872-73. Preservation. 72, 14; 73, 15.
1874. One wooden center pintle platform for 15-inch gun laid and temporary parapet erected in

front of it. One 15-inch gun mounted on center pintle carriage; minor repairs. 74, 18.
1875-78. Preservation and repair. 75, 18; 76, 19; 77, 15; 78, 18.
1879. Proj. for completion, by BE. Preservation and repair. 79, 23.
1880-82. Preservation and repair. 80, 38; 81, 38; 82, 35.
1883. About 8,000 sq. f. of graveled felt roofing placed on casemate; and minor repairs. 83, 31.
1884-86. Care and preservation. 84, 36; 85, 28; 86, 29.

Part 9, FSJ.**Fort McHenry.**

1775. Fortifications begun. 80, 37.

1794. Present work built. 80, 37.

1866. Reinforcing pintle centers in exterior battery; substitution of low for high traverse circles; constr. of magazines and traverses. The exterior battery platforms ready for 15-inch guns. 66, 12.

1867. Water battery ready for armament; magazines, bombproofs, and traverses nearly completed. Minor work. 67, 11.

1868. New work of parapets of water battery and magazine coverings consolidated; glacis of water battery re-formed; new drains cut for magazines; and minor work. 68, 15.

1869. Repairs to terreplein of water battery and ditch of main work; brick hoods of magazines increased; defective drains in main work relaid; and minor work on slopes. 69, 14.

1870. Minor repairs to slopes. 70, 21.

1871. Wharf rebuilt and minor work; observations made to determine the direction and force of the surface and subsurface currents for use in placing explosives. 71, 17.

1872. \$21,000 app. Preservation and repair. 72, 14.

1873. \$25,000 app. Work begun on new, large exterior battery; minor repairs to slopes of water battery. 73, 15.

1874. Work on parapet and heavy embankment for the terreplein on front of new earthen

battery; concrete work of 3 magazines; and completing drainage. 74, 17.

1875. \$20,000 app. Minor repairs to revet. of parapet of new battery and exterior battery of main work. 75, 18.

1876. Sand parapet extended; sand covering placed on 3 magazines; terreplein partly graded; and minor repairs to slopes. 76, 19.

1877-78. Preservation and repair. 77, 15; 78, 18.

1879. Breaches in sea wall repaired. Preservation and repair. 79, 22.

1880. Preservation and repair. 80, 38.

1881. Repairs to sea walls, slopes, and drains. 81, 37; 82, 34.

1883. Repairs to slopes, etc. 83, 31.

1884. Repairs to scarps, slopes, and drains. 84, 35.

1885-86. Repairs to slopes, drains, gutters, pavements, and retaining wall of ramp; and building wire fences. 85, 29; 86, 28.

1895-96. Work on sea wall completed. 95, 15; 96, 489.

1897. Grounds back of sea wall graded and seeded. 97, 640.

1898. Minor repairs. 98, 658.

1899. \$1,000 allotted for preservation and repair. 99, 806, 818.

1900. Preservation and repair. 00, 866.

Part 10, FSJ. Lazaretto Point, Opposite Fort McHenry.

1870. Site selected. 70, 21.

1871. Observations made to determine the direction and force of the surface and subsurface currents for use in placing explosives. 71, 17.

1872. \$13,000 app. To be transferred to Fort McHenry. 72, 14.

Part 11, FSJ.**Rock Point, Md.**

1897. Site acquired by condemnation proceedings; \$1,400 allotted for wharf 1,080' long; completed. 97, 649.

1898. Marking boundaries with concrete monuments and inclosing the property with wire fence. 98, 666.

Part 12, FSJ. Site 1.—Emplacement for One 12-inch Gun and Three 8-inch Guns.

1897. Land acquired and \$143,800 allotted for fortifying same; work begun by contract; 13,681 c. y. excavated and placed in parapet and 1,682 c. y. concrete laid; work on sea wall. 97, 641.

1898. \$3,200 allotted for mounting guns and carriages; moving from wharf done by contract; battery completed, including ammunition service and electric plant; summary of work; total cost, \$143,800. 98, 659.

1899. Battery turned over to Artillery; repairs to slopes and power plant; exhaust fans installed to prevent dampness. 99, 806, 818.

1900. Seven electrical exhaust fans installed; roadway built and minor repairs. 00, 866.

1901. \$5,608.57 allotted. System of metal ceiling and drainage partially installed to prevent seepage and condensation. 01, 699.

Part 13, FSJ. Site 1.—Two Emplacements for 4.7-inch R. F. Guns.

1898. \$15,000 allotted. Work begun in April, 1898, under oral agreement, by same firm that built 8-inch and 12-inch battery, and practically completed May 10, 1898. Summary and cost of work. **98, 660.**

1899. Two ammunition hoists installed and guns mounted. Battery turned over to the Artillery. **99, 806, 819.**

1900. Repairs to electric plant and slopes. **00, 867.**

Part 14, FSJ. Site 1.—Two Emplacements for 15-pounder R. F. Guns.

1899. \$6,610 allotted. Work begun in April and practically completed; no guns on hand. Waterproofing. Work on sea walls, grading grounds, and range finder erected. **99, 807, 819.**

1900. Minor details of battery finished; no guns or mounts on hand. Total cost, \$6,860. **00, 867.**

1901. Armament received and mounted by troops. **01, 785.**

Part 15, FSJ. Site 2.—Two Emplacements for 12-inch B. L. Rifles on Barbette Carriages.

1898. \$80,000 allotted. Work begun by hired labor; description of battery and plant. Both platforms built and 2,500 c. y. of concrete placed. Character of site necessitated a number of modifications in type plans. **98, 666.**

1899. Battery completed, power house built, carriages mounted, but no guns on hand. **99, 812, 819.**

1900. Guns mounted and fired to test stability of platforms. Battery turned over to the Artillery. Repairs to earth parapet and electric plant. Cost of battery, including mounting guns and carriages, \$82,647.29. **00, 868.**

Part 16, FSJ. Site 2.—Two Emplacements for 5-inch R. F. Guns on Balanced Pillar Mounts.

1899. \$12,300 allotted. Work begun and completed, except mounting guns and carriages. Summary and cost of work. **99, 812, 819.**

1900. Grounds graded and seeded. No complete carriage or guns on hand. **00, 868.**

1901. Work completed; turned over Aug. 1, 1900. **01, 786.**

1902. Top of 1 carriage mounted during year; battery now completed, with exception of guns. **02, 700.**

Part 17, FSJ. Site 2.—Two Emplacements for 15-pounder R. F. Guns.

1899. \$7,600 allotted. Work begun in March and completed, except minor details; no guns or mounts received. **99, 813, 820.**

1900. Stairway and rails erected. Grounds graded and seeded; flag walks placed in rear of

battery. No guns or mounts on hand. Cost of battery without armament, \$8,706.52. **00, 868.**

1901. Guns mounted; emplacements turned over. **01, 786.**

Part 18, FSJ. Site 2.—Remodeling Old Work,

1900. \$12,800 allotted for removing part of old masonry above the crest line of modern batteries to make it conform, both in appearance and utility, to the modern emplacements; work in progress. 00, 869.

1901. \$4,925 allotted. Pavement and runway constr.; casemate piers refaced; work still in progress. 01, 787.

1902. Top of wall finished off with cement mortar; flashings filled, etc., finishing up work. 02, 700.

Part 19, FSJ. Site 3.—Emplacements for Eight 12-inch Mortars.

1897. \$134,637.25 allotted. Site acquired; work begun by contract; wharf completed and 6,591 c. y. excavated and placed in slope and 1,403 c. y. of concrete placed. 97, 647.

1898. Description of battery. All concrete mixed by hand, guns and carriages mounted, and battery completed under contract. Summary and cost of work. Total cost, \$113,000. 98, 660.

1899. Electric plant installed and battery wired by contract; battery turned over to the

Artillery. Preservation and repair. 99, 813, 820.

1900. Repairs to electric light and power plant. 00, 869.

1901. \$13,500 allotted for placing layer of asphalt all about sides and roofs of magazine shot rooms, passages, etc.; work in progress. 01, 788.

1902. Dampproofing work continued. 02, 701.

Part 20, FSJ. Site 3.—Two Emplacements for 5-inch R. F. Guns.

1897. Work to be done by contract. 97, 647.

1898. \$17,400 allotted. Contract price, \$15,798.50. Work begun Aug. 10, 1897; completed June 1, 1898. Description of battery. No carriages on hand. 98, 663.

1900. Carriages received and mounted; roadway built; no guns on hand. Total cost, \$17,400. 00, 870.

1901. Turned over Oct. 27, 1900. 01, 788.

Part 21, FSJ. Site 3.—Two Emplacements for 12-inch B. L. Rifles on Disappearing Carriages.

1898. \$100,000 allotted. Work begun by hired labor. One platform completed. Description of plant, water supply, and constr. 98, 664.

1899. \$18,500 allotted. Guns mounted, elevators installed, battery wired, and completed in all details and turned over to the Artillery; cost

of battery, \$113,500. Handling and mounting 2 guns and carriages, \$4,561.12. 99, 814, 820.

1900. Repairs to electric plant. Defects in carriages corrected at the expense of the Ordnance Department. 00, 870.

1901. Base for range finders set. 01, 788.

Part 22, FSJ. Site 3.—Two Emplacements for 6-inch B. L. Rifles on Disappearing Carriages.

1899. \$47,000 allotted. Excavation begun. 99, 815.

1900. Carriages mounted; grounded graded and seeded. No guns on hand. Battery turned

over to the Artillery. Cost to date, \$37,933.91. Summary and cost of work. 00, 871.

1901. Trolleys and blocks put in and soap-and-alum wash applied to platforms. 01, 788.

Part 23, FSJ. Site 3.—Two Emplacements for 15-pounder R. F. Guns.

1899. \$11,345 allotted. Work completed, except earth parapet and stairway. Summary and cost of work. 99, 815, 820.

1900. Parapet filled in and sodded; stairway and rail erected; grounds graded and seeded. No guns or mounts on hand. Battery turned over to the Artillery. Total cost, \$10,445. 00, 870.

Part 24, FSJ. Site 3.—Two Emplacements for 15-pounder R. F. Guns.

1900. \$10,000 allotted. 00, 872.

1901. \$460 allotted. Emplacements and roadway constr.; turned over to Artillery. 01, 788.

Part 25, FSJ. Site 4.—Two Emplacements for 6-inch B. L. Rifles on Disappearing Carriages.

1899. \$50,000 allotted. Wharf built by contract. Plant installed. 99, 817, 821.

1900. Battery completed, except wiring and furnishing trolleys and blocks; carriages mounted

and the battery turned over to the Artillery. Total cost to date, \$48,255.54. Summary and cost of work. 00, 874.

1901. Trolleys and blocks put in. 01, 790.

Part 26, FSJ.

Miscellaneous.

Surface drainage. \$295.21 allotted for constr. a system of surface drains on reservation 1; work completed. 01, 785.

Peace storage magazine. Plans submitted. 01, 789.

Roadway. \$3,316.50 allotted to constr. road between mortar battery and 12-inch battery; nothing done. 01, 789. Constr. completed. 02, 702.

Civilian electricians. \$1,650 allotted for pay for services. 02, 703.

Part 27, FSJ.

Preservation and Repair.

1899. \$1,000 allotted. 99, 806. General repairs to batteries at site 1. 00, 868.

1900. \$1,000 allotted. General repairs, site 2. 00, 869. \$1,500 allotted for repairs to site 3. 00, 873. \$320 allotted for site 4. 00, 875.

1901. \$1,700 allotted for reservation 1; repairs made. 01, 786. \$1,200 allotted for reservation 2; repairs etc. made. 01, 787. \$2,500 allotted for

reservation 3; misc. repair work 01, 790. \$650 allotted for reservation 4; mainten. work. 01, 791.

1902. Reservation 1; repairs to wharf, power plants, sea wall etc. 02, 700. Reservation 2; repairs. 02, 701. \$500 allotted. Reservation 3; repairs to various works 02, 703. Reservation 4; repairs. 02, 703.

Part 28, FSJ.

Range and Position Finders.

1899. \$50 allotted erecting range finders at sites 1 and 3. 99, 807.

1902. \$6,000 allotted for reservation 2; battery-commander's station; excavation made; foundations built up; ironwork erected; tower nearly completed. 02, 700. \$200 allotted for reservation

3; concrete bases for Rafferty range finders abandoned; structural iron bases substituted. 02, 702. \$14,600 allotted for 2 battery-commander's stations reservation 3; instrument column, shields, and framework erected. 02, 702.

Part 29, FSJ.**Searchlights.**

1901. Proj. submitted; est. cost \$78,821.05.
01, 791.

Part 30, FSJ. Sea Walls and Embankments.

Fort McHenry. Est. cost of repairs to sea wall, \$10,000. 94, 14. Wall in rear of cemetery, 227' long, completed; rear of site of fort, about 808' long, in progress. 95, 15. \$3,591.51 allotted. Sea wall 808' long completed. 96, 489. \$13,750 allotted. Sea wall built by contract; cost, \$14,214.90. 97, 640.

1901. \$3,000' allotted for reinforcing wall on reservation 1 with concrete; 1 200 l. f. done. 01, 786. \$18,000 allotted for filling behind concrete wall; 9,800 c. y. excavated and placed in fill, and 200 l. f. foundation placed for extension of wall. 01, 789. Reservation 4; \$3,000 allotted. 1,266 l. f. wall, 2' wide at top, 4' wide at base, 5' high, constr. 01, 790.

1902. Reservation 1; 400' built during year completed; concrete wall. 02, 700. Reservation

3; riprap foundation for wall placed; fill completed; sod placed to prevent washouts. 02, 702. Reservation 4; fill work finished; swamp sod placed behind wall to prevent washouts. 02, 703.

Hawkins Point. \$7,000 allotted for repairs to sea wall; work in progress. 97, 641. 3,049 c. y. of riprap and 4,476 c. y. of oyster shells and earth filling placed; cost, \$6,645.40. 98, 659. \$35,000 allotted for sea walls at sites 1 and 3 under contract; some work. 99, 807, 821. 1,600 c. y. of riprap placed on face 6. 99, 820. Sea wall at site 1; completed by hired labor (contract expired). 00, 867. Sea wall at site 3 completed by hired labor. 00, 872. \$3,000 allotted for sea wall at site 4. 00, 875.

Part 31, FSJ.**Sites.**

Three sites needed for batteries. 95, 14. \$46,500 allotted for sites at North Point, 28½ acres; Hawkins Point, 12.47 acres; and Rock Point 100 acres. 96, 489. \$4,500 paid for land at Hawkins Point.

97, 641. Site at North Point purchased, \$13,500 paid. 97, 647. \$27,500 paid for 100 acres of land at Rock Point 97, 649. \$155.55 allotted for survey, reservation 1; made. 02, 700.

Part 32, FSJ.**Submarine Mines.**

1893. Mining casemate nearly completed. 93, 8.

1898. Mines planted. 98, 22.

1899. Mining casemate at site 2 waterproofed. \$6,240 allotted for operating mine field and removal and storage of torpedo material. 99, 813. \$6,670 allotted for mining casemate; nearly finished. Summary and cost of work. 99, 816, 821. \$5,000 allotted for torpedo storehouse under contract. 99, 816. \$3,500 allotted for cable tank; completed and crane erected. Summary and cost of work. 99, 817, 821.

1900. Est. of \$9,550 for mining casemate at site 1 approv.; no funds. 00, 868. Casemate at site 3 practically completed and torpedo store-

house built. 00, 872. \$500 allotted for site 4; no expend., as torpedo material was stored and cared for by Engr. force. \$1,000 allotted for supplies for seacoast defenses; no requisition as yet. 00, 875

1901. \$9,000 allotted for constr. mining casemate, reservation 1; excavation made; concrete brought up to height of roof beams. 01, 785. Reservation 3; telephone conduit between casemate and storehouse completed; other misc. work done. 01, 789. Storehouse and cable tank completed; turned over to Artillery. 01, 789. Material cared for. 01, 791.

1902. \$1,202.29 allotted for mining casemate, reservation 1; work completed. 01, 699.

Part 33, FSJ. Supplies for Seacoast Defenses.

1901. \$1,400 allotted for enlarging coal bin in rear of 12-inch emplacement. 01, 785. \$1,000 allotted. Supplies purchased and distributed. 01, 791.

1902. Work of enlarging coal storage completed. 02, 699. \$363.04 allotted. Supplies purchased and furnished. 02, 704.

FSK. WASHINGTON, D. C., FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FSK.**Contracts.**

1896. Small st., \$1.88 per c. y.; granolithic st., \$2.08 per c. y.; brick, \$12 per M; Rosendale cement, 99½¢ per barrel; Portland cement, \$2.37 per barrel. **96**, 490.

1897. Rosendale cement, 4,000 barrels, 84½¢ per barrel. **97**, 652. Two emplacements for 8-inch guns, including wharf, \$58,683.96. **97**, 653.

1898. Natural cement, 4,000 barrels, 61¢ per barrel; sand, 1,000 c. y., 40¢ per c. y.; pebbles, 1,000 c. y., 59¢ per c. y.; riprap st., 1,300 c. y., \$1.35 per c. y.; broken st., 1,550 c. y., \$1.50 per c. y. **98**, 672.

Electric light and power plant, \$7,683.92; I beams, 1,423 pounds, 2½¢ per pound. **98**, 674, 678.

1900. Rosendale cement, 5,000 barrels, \$1.12½ per barrel. **00**, 881.

1901. Iron and steel roofs, \$1,185; stairs, railings, and ladders, \$1,460.43; tram rails, trolleys, and hoists, \$1,450; furnishing and erecting lifts and cranes, \$1,730. **01**, 798. Furnishing and delivering stairs, \$180; roof, \$395.

1902. Installing electric plants, \$4,718, \$2,895, and \$3,975. **02**, 707, 710.

Part 2, FSK.**Engineering Features.**

Concrete, settlement of. **00**, 877.

Waterproofing. **98**, 663.

Experimental parapet. **98**, 668; **99**, 126 **00**, 880.

Part 3, FSK.**Engineers.**

Chief of Engineers. R., 66, 13; 67, 12; 68, 15; 69, 14; 70, 21; 71, 17; 72, 14; 73, 15; 74, 18; 75, 19; 76, 20; 77, 16; 78, 19; 79, 23; 80, 39; 81, 38; 82, 35; 83, 31; 84, 36; 85, 29; 86, 29; 91, 5; 92, 7; 93, 8; 94, 10; 95, 9; 96, 16, 490; 97, 15, 650; 98, 22, 667; 99, 24, 822; 00, 22, 876; 01, 23; 02, 23; 03, 9; 04, 5; 9; 05, 5; 06, 5; 07, 5; 08, 9; 09, 10; 10, 12; 11, 8; 12, 7.

Part 4, FSK.**Board of Engineers.**

Constituted, 1882, to consider and report upon the condition of fortifications, and what number, if any, could be dispensed with. R., 82, 421; 87, 11; 89, 6.

Part 5, FSK.**Engineers in Charge.**

Maj. B. S. Alexander, 1866.
Maj. J. A. Tardy, 1867.
Col. H. Brewerton, 1868.
Maj. N. Michler, 1870.
Lt. Col. J. D. Kurtz, 1870.
Lt. Col. W. P. Craighill, 1870-83.
Capt. C. B. Phillips, 1878.

Capt. T. Turtle, 1883.
Lt. Col. P. C. Hains, 1883-92.
Maj. L. C. Overman, 1892.
Capt. T. Turtle, 1892.
Maj. C. E. L. B. Davis, 1892-96.
Lt. Col. C. J. Allen, 1896-1902.
Maj. W. M. Black, 1902.

Part 6, FSK.**Assistants.**

Lt. G. A. Zinn, 1892-94.
Lt. D. DuB. Gaillard, 1895-96.

Lt. G. P. Howell, 1896-97.
Lt. J. J. Morrow, 1897-99.

Part 7, FSK—**FORTS AND BATTERIES.****Part 8, FSK. Fort Washington, Potomac River, Md.**

1816. Work begun. 80, 39.

1866. The necessary ameliorations to be considered by BE. 66, 13.

1870. Importance of fort. Modification plans being prepared. 70, 22.

1871. Observations made for determining the direction and force of the surface and subsurface currents, for use in placing explosives. 71, 18.

1872. \$21,000 app. Projs. of earthen barbette batteries immediately n. and s. of main work, as well as modification plans of existing water battery, prepared. 72, 15.

1873. \$25,000 app. Work begun in March on removal of old demilune not required by new plans; completion of exterior supporting bank of earth for sand parapet; excavations for traverse magazines made, and some concrete work. 73, 16.

1874. Work on demilune, masonry of traverse magazines, and embankments; 2 platforms be-

tween traverse magazines completed, and work on other platforms. Title to an adjoining 300-acre tract nearly perfected. 74, 19.

1875. Pintles set in 4 new platforms; minor work and repairs; adjoining tract of land purchased. Survey of entire territory completed. 75, 19.

1876. Repairs of wharf, cribwork, and minor repairs. 76, 20.

1877. Repair of br. at sally-port entrance, wharf, fences, and cribwork. 77, 16.

1878. Revised proj. prepared. Repairs of wharf and roofs of 2 principal magazines. 78, 20.

1879. Repair of wharf, etc. 79, 24.

1880-85. Preservation and repair. 80, 39; 81, 39; 82, 37; 83, 32; 84, 37; 85, 30.

1886. Traverse rails and pintle plates for four 15-inch gun platforms laid. Repair of slopes, magazines, and fences. 86, 30.

Part 9, FSK. Washington, D. C.—Fort Foote, Potomac River, Md.

1862. Work begun. 80, 39.
1870. Importance of fort. Survey and minor repairs of ground exterior to the existing works. 70, 21.
1871. Wharf rebuilt. Observations made for determination of the direction and force of the surface and subsurface currents for use in placing explosives. 71, 17.
1872. \$21 000 app. Modification plans approv.; arrangements made for purchase of site. 72, 14.
1873. \$25,000 app. Site acquired and work begun in April on completion of wharf and necessary structures for execution of work; earth embankment for new parapet nearly completed. 73, 15.
1874. Work on earth embankments and slopes, drains, masonry in magazines and wing wall;

wharf extended; foundations of 4 front pintle gun platforms completed. 74, 13.

1875. Completing platforms; work on masonry of magazines. Land acquired to afford the garrison an outlet to the Piscataway Road. 75, 19.
1876. Repairs of cribwork and wharf. 76, 20.
1877. Two new front pintle 15-inch gun platforms provided with traverse circles, and a temporary wooden breast height built in front. 77, 16.
1878-85. Preservation and care. 78, 19; 79, 23; 80, 39; 81, 38; 82, 36; 83, 32; 84, 37; 85, 30.
1886. Traverse rails and pintle plates laid for two 15-inch guns; repair o. quarters, roads, and slopes. 86, 30.
1901. \$50 allotted. Repairs to wharf and roadway. 01, 791.
1902. \$50 allotted. Minor repairs. 02, 704.

Part 10, FSK. Left Bank of Potomac River, Md.—Two-gun Battery.

1892. \$117,150 allotted, 1891. Plans approv.; work begun in September, 1891; wharf built, plant erected, and excavation in progress. 92, 4, 7.
1893. Excavation completed; concrete work begun. 93, 8.
1894. Two emplacements completed, awaiting decision of details of carriages. 94, 10.
1896. \$20,826 allotted, 1895. Emplacements nearly completed. Total cost to date, \$141,403.03. 96, 16, 491.

1897. Guns mounted and battery completed. 97, 651.
1899. Electric-light plant installed and repairs of granolithic covering on superior slope. 99, 822.
1900. Battery turned over to the commanding officer July 6, 1899. 00, 876.

Part 11, FSK. Left Bank of Potomac River, Md.—Two 10-inch Gun Emplacements.

1896. \$50,000 allotted. Work begun on 1 emplacement. 96, 16.
1897. Emplacement practically completed and gun mounted in May, 1897, on a disappearing carriage, L. F. model 1894. \$41,500 allotted for another emplacement, which was begun in June; excavation nearly completed. 97, 652.
1898. Gun mounted on a disappearing carriage, L. F. model, 1896, and battery practically completed; minor work required. 98, 667.

1899. Stairs and railways erected; observation station for type B range finder built; cement floor placed in dynamo room; tile partition built between boiler and dynamo room; and electric plant installed. 99, 822.
1900. Battery turned over to the commanding officer July 6, 1899. 00, 876.

Part 12, FSK. Left Bank of Potomac River, Md.—Rapid-fire Battery—Two 4-inch Driggs-Schroeder Guns.

1898. \$13,150 allotted. Work begun in May: old magazine removed, concrete floors of both magazines and about half that in walls of 1 magazine placed; both guns being mounted. 98, 670.

1899. Mounting of guns completed and battery completed. Summary of work. 99, 824.
1900. Battery turned over to the commanding officer July 6, 1899. 00, 876.

Part 13, FSK. Left Bank of Potomac River, Md.—Two Emplacements for 10-inch Guns on Disappearing Carriages.

1898. \$92,300 allotted. Work begun in March; concrete work two-thirds completed. 98, 670.

1899. \$1,000 allotted. Guns and carriages mounted and battery completed. Summary of work. 99, 823.

1900. Battery turned over to the commanding officer July 6, 1899. 00, 876.

Part 14, FSK. Left Bank of Potomac River, Md.—Battery E, for Eight 12-inch Mortars, B. L. Rifles on Carriages, Model of 1896.

1899. \$113,000 allotted. Work begun in August, 1898; excavation completed. 4,478 c. y. concrete placed and 16 400 c. y. earth placed in embankment. Battery about half completed. 99, 824.

1900. Concrete work on magazines and parapets completed; asphalt covering of magazine placed; no mortars received; base rings to be taken up and leveled. Summary and cost of work. 00, 877.

1901. \$4,000 allotted. About 12% of constr. work remained to be done; completed; electric lights installed and mortar mounting accepted 01, 792 Base rings reset; platforms tested. 01, 793.

1902. Electric-light plant installed 02, 705.

Part 15, FSK. Left Bank of Potomac River, Md.—Battery for Two 15-pounder R. F. Guns.

1899. \$9,500 allotted. Work begun in March on excavation and placing concrete. 99, 825.

1900. Work completed except gun platforms, awaiting arrival of mounts. 00, 879.

1901. Railings set. 01, 794.

Part 16, FSK. Left Bank of Potomac River, Md.—Battery for Two 6-inch R. F. Guns.

1899. \$59,180 allotted. Work begun in June. 99, 826.

1900. Difficulty in obtaining material; 395 c. y. concrete placed, 3,000 c. y. excavation and embankment made; about 25% of work done. 00, 873.

1901. \$5,450 materials received; installation ammunition hoists, concrete constr. completed; base

rings set, embankments built, roadway and gutters constr.; battery 92% completed. 01, 794.

1902. Electric conduit and trolley beams installed; roadway and gutters finished; work completed; carriages mounted, guns received. 02, 705.

Part 17, FSK. Right bank of Potomac River, Va.—Three Emplacements for 8-inch Guns on Disappearing Carriages.

1897. \$106,125 allotted. Work to be done under contract begun in January. 11,623 c. y. excavated, 5,537 c. y. placed in embankment, drainage system put in. 97, 652.

1898. Wharf completed. Excavation and concrete work completed. \$1,850 allotted for mounting guns and carriages; completed. Method of work described. \$120 allotted; 3 telephone booths built. 98, 878.

1899. Completing details of machinery, doors, roadway; covering the embankment with soil. 99, 832

1900. Battery turned over to the commanding officer Jan. 13, 1900. 00, 885.

1901. Minor repairs. 01, 793.

1902. Electric light and power plant installed. 01, 704.

Part 18, FSK. Right Bank of Potomac River, Va.—Emplacements for Two 5-inch R. F. Guns.

1899. \$14,500 allotted. Work begun in November, 1898. Excavation and concrete work in progress. Platforms delayed because of nondelivery of the gun mounts. **99, 832.**

1900. Work suspended; about three-fourths completed; funds exhausted; no mounts received. **00, 884.**

1901. \$2,700 allotted. Gun platforms and parapets finished; cylinders of gun mounts set; batteries practically finished. **01, 798.**

1902. Erection of railing and general care of batteries; guns received, 1 mounted. **02, 708.**

Part 19, FSK. Right Bank of Potomac River, Va.—Battery for Three 15-pounder R. F. Guns.

1900. \$15,100 allotted. No work done. **00, 884.**

1901. Materials purchased; work commenced; about 60% concrete laid; constr. work one-half done. **01, 799.**

1902. Parapets and earth embankments built; drainage system completed. **02, 708.**

Part 20, FSK. Miscellaneous.

Electric, light and power plant—Left bank of Potomac R., Md. **1898.** \$8,250 allotted. Work to be done by contract. **98, 670.**

1899. Plant installed and tested. Description of plant. Total cost of plant in place, \$7,970.50. **99, 827.**

Electric light and power plant—Right bank of Potomac R., Va. **1899.** \$9,032.57 allotted. Work begun on power house and cistern; both completed except floor of power house. **99, 833.**

1900. House completed ready for engine and boiler. Plant not yet installed. **00, 885.**

1901. \$4,800 allotted for plant with a 25-kilowatt generator. **01, 799.**

1902. Cistern and building for housing engine, boiler, and dynamo completed; aerial pole line erected. **02, 708.**

Elevated rear passageways. **1901.** Left bank: \$2,600 allotted for connecting gun platforms and observing station; constr. begun; work 30% completed. **01, 796.** Right bank: \$1,485 allotted. Work 25% completed. **01, 800.**

1902. Left bank: Work completed. **02, 706.** Right bank: Work completed. **02, 709.**

Mounting 10-inch gun on barbette—Left bank of Potomac R., Md. **1898.** \$1,750 allotted for mounting for defense the 10-inch gun and carriage sent for experimental firing; platform was built in May and gun and carriage mounted. **98, 671.**

1899. Gun removed from its temporary position and mounted on its platform in readiness for firing at targets. **99, 824.**

Washington, D. C.—Obstructions of the Potomac R. **1866-69.** Several methods of preparing and estab. suitable obstructions under consideration. **66, 13; 67, 12; 68, 15; 69, 15.**

1870-76. Not found practicable to make the desired experiments upon these obstructions; material stored at Fort Foote. **70, 21; 71, 17; 72, 14; 73, 15; 74, 18; 75, 19; 76, 20.**

1877. Building in which material was stored repaired. **77, 16.**

1879-80. Repair of buildings. **79, 23; 80, 39.**

Washington, D. C.—Telephone booths. **1898.** Batteries B and C, \$160 allotted; work completed and the booths set in place. **98, 670.**

Experimental parapets and platform—Left bank of Potomac R., Md. **1898.** \$20,250 allotted for building experimental parapets, shield, and platform, and parapet for gun. Work begun in December, nearly completed. **98, 668.**

1899. \$1,500 allotted. Gun mounted and work completed. Parapets tested June 29, 1899. **99, 826.**

1900. Removing loose concrete so as to trace the path of the projectile, and minor repairs. **00, 880.**

1901. Gun and carriage shipped away; gun platform filled up and graded. **01, 795.**

Part 21, FSK. Preservation and Repair.

1898. Three buildings repaired for employees. 98, 668. Repairs of mining casemates; strengthening the parapet in front of 15-inch guns; fitting up a field magazine for 15-inch gun. \$175 allotted for dismantling and shipping two 15-inch guns and carriages. Minor repairs of wharf, cisterns, fences, etc. 98, 669. \$500 allotted for purchase of some equipage, painting concrete surface of emplacement, and clearing fronts of guns. 98, 671. Wire fence 5' high built around 8-inch emplacement at cost of \$340. 98, 678.

1899. Left bank of Potomac R., Md.: \$6,678 allotted. Roller paths of two 15-inch S. B. guns taken up and shipped; superior slope injured by firing, repaired; slopes, roadways, drainage, torpedo material, and ammunition lifts, etc., repaired. 99, 830. \$954 allotted for repairs of earth slopes and roadway of Battery G; minor repairs. 99, 834. \$550 allotted for emergency purposes. Right bank

of Potomac R.: Cutting timber to afford a clear field of fire for the three 8-inch guns. Work completed. 99, 834.

1900. \$2,892 allotted for emplacements on left bank of R. Searchlight outfits cared for, quarters repaired, and minor work. 00, 880. \$1,354 allotted for emplacements on right bank of R., repairs of slopes, drains; altering ammunition hoists and minor work. 00, 885.

1901. \$1,225 allotted for misc. repair work; magazines and corridors lined with tile, left bank Potomac R. 01, 797. \$725 allotted. Right bank; repairs to ammunition lift; drains cleaned, rubbish removed, etc. 01, 801.

1902. Left bank: \$310 allotted. Repairs made to ammunition lifts, parapet 10-inch battery, slopes; grass and weeds cut. 02, 706. Right bank: Batteries cared for and cleaned up; misc. repair work done; \$110 allotted. 02, 709.

Part 22, FSK. Range and Position Finders.

1898. Batteries B and C—\$350 allotted for 2 observing stations; work completed. 98, 670.

1899. \$93 allotted for mounting 2 type B range finders each at Batteries B, C, and D. Work completed in October, 1898. 99, 830. \$100 allotted for taking accurate horizontal measurements and making blue prints for location of range finders; work completed. 99, 830. \$3,692 allotted for battery-commander's station at Battery D. \$222 allotted for 2 type B range finders at Battery G. Work begun. 99, 830, 833.

1900. \$20,720 allotted for battery-commander's

station at 10-inch batteries; stations about three-fifths completed. 00, 879. \$4,259 allotted for battery-commander's station near the 8-inch battery; work about 60% finished. 00, 885.

1901. Left bank: Battery-commander's station practically finished. 01, 794. Right bank: Battery-commander's station practically finished. 01, 800.

1902. Left bank: Stations turned over Aug. 29, 1901. 02, 706. Right bank: Work on stations completed; turned over Aug. 26, 1901. 02, 709.

Part 23, FSK. Sites.

Sheridans Point, below Washington, D. C. \$13,576.87 paid for 90.6 acres by appraisalment. 92, 9; 93, 11.

Part 24, FSK. Submarine Mines.

1891. One mining casemate being built. 91, 7.

1893. Mining casemate completed; cost, \$15,784.95. 93, 8.

1898. Cable storage tanks completed. 98, 667. \$4,900 allotted for a brick storehouse for submarine mine material. Walls and roof completed. 98, 668. Waterproofing mining casemate. 98, 669. \$3,500 allotted for purchase of explosives. \$13,725 allotted for planting mines; casemates fitted up and machinery installed; 3 triangulation stations laid out and mines planted. 98, 675. \$925 allotted for observing tower and range-finding station; completed. 98, 678.

1899. Cable-storage tank, small addition made

to foundation at front of shed, and a gravel platform built in front of it; minor work. 99, 827. Storehouse for submarine mine material; floor 1 foot thick built; storeroom for confidential and delicate apparatus built; racks for mine cases put up; sea wall built along R. front and building completed. 99, 827. \$4,500 allotted for extending the mining casemate; work begun and excavation nearly completed. 99, 828. \$9,746 allotted for torpedo defense; all mines and cables removed from R., cleaned, and stored; searchlight operated. Unloading mines described. 99, 828.

1900. Extension to the mining casemate built in 1891 completed. 00, 880.

Part 25, FSK. Supplies for Seacoast Defenses.

1900. \$600 allotted. Nothing done. 00, 881.

1901. Supplies purchased and issued. 01, 796.

1902. \$355 allotted. Boiler electric plant put in order; supplies purchased and issued. 02, 706.

FSL. HAMPTON ROADS, VA., FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

1887. Wharf, \$88,305. 88, 806.
 1889. Storehouse, \$7,440. 90, 386.
 1897. Tower and wooden building for range finder, \$1,179. 97, 660.
 1898. Electric-light plant, \$4,420. 98, 685.
 1899. Concrete storage tank, \$1,769.50. 99, 840.
 1900. American cement, 66¢ per barrel; Portland cement, \$2.30 per barrel; broken st., \$1.389 per c. y.; granolithic st., \$1.389 per c. y.; Rosendale cement, \$1.05 per barrel. 00, 888, 891.
 1901. Material for battery-commander's station, \$2,695. 01, 805.

1902. Steel I beams, 2.7¢ per pound; connection plates, bolts, etc., 4¢ per pound; st. (broken), 1 and 2 inch, \$1.58 per c. y.; Portland cement, \$1.40 per barrel. 02, 712. Yellow pine lumber, \$600; broken st., \$1.50 per c. y.; anchor bolts, I beams, etc., prices listed. 02, 713. Steel and iron for fire-commander's and battery-commander's stations, \$14,547. 02, 715. Wharf, \$7,450; yellow pine lumber, \$593.80; anchor bolts, I beams, etc., prices listed; Portland cement, \$1.51 per barrel; broken st., \$1.50 per c. y. 02, 720.

Part 2, FSL.

Engineering Features.

Concrete mixing. 99, 843.
 Condensation, preventing. 05, 3009.
 Dampproofing. 04, 3721. Hollow brick. 05, 3009 (pl.).
 Datum points. 04, 3721 (pl.).
 Flash plates. 99, 835.
 Materials, detailed cost of. 97, 657, 658, 660; 98, 684; 99, 844; 00, 888.

Mines, method of unloading. 99, 842.
 Range-finder tower, description of. 97, 661.
 Sewerage system, report on, with detailed cost 97, 663.
 Ventilating system, description of. 00, 893.
 Waterproofing. 98, 679; 00, 893.

Part 3, FSL.

Engineers.

Chief of Engineers. R., 66, 13; 67, 12; 68, 15; 69, 15; 70, 22; 71, 18; 72, 15; 73, 16; 74, 19; 75, 19; 76, 21; 77, 17; 78, 20; 79, 24; 80, 40; 81, 39; 82, 36; 83, 32; 84, 37; 85, 31; 86, 30; 88, 107; 89, 12; 90, 9, 385; 91, 8, 10, 530; 92, 8, 10, 465; 93,

9, 635; 94, 10, 14; 95, 9, 508; 96, 16, 492; 97, 16, 657; 98, 23, 679; 99, 25, 834; 00, 23, 886; 03, 9; 04, 5, 9, 10; 05, 5; 06, 5; 07, 5; 08, 9; 09, 10; 10, 12, 11, 8, 12, 7.

Part 4, FSL.

Board of Engineers.

Constituted, 1882, to consider and report upon the condition of fortifications, and what number, if any, could be dispensed with. R., 82, 421.

Constituted, 1886, by S. O. No. 268, Nov. 17, 1886, to select and report upon site and plan for wharf. R., 88, 805. (Col. Tidball and Lt. Cols. Chandler and Hains.)

Part 5, FSL.

Engineers in Charge.

Col. H. Brewerton, 1866-70.
 Maj. W. P. Craighill, 1870-75.
 Col. Q. A. Gillmore, 1875-86.
 Capt. J. C. Post, 1883.
 Lt. Col. P. C. Hains, 1887-92. R., 88, 804; 89, 463; 90, 385; 91, 529.

Maj. L. C. Overman, 1892.
 Capt. T. Turtle, 1892.
 Maj. C. E. L. B. Davis, 1892-93.
 Maj. T. L. Casey, 1896.
 Maj. J. B. Quinn, 1900-02.
 Col. Peter C. Hains, 1902.

Part 6, FSL.

Assistants.

Lt. G. A. Zinn, 1891-94.
 Lt. D. DuB. Gaillard, 1895; (Capt.) 1896.
 Lt. C. A. F. Flagler, 1896.

Lt. C. W. Kutz, 1896-97.
 Lt. F. A. Wilcox, 1898-99.
 Lt. E. H. Schultz, 1898.

Part 7, FSL. FORTS AND BATTERIES.

Part 8, FSL. Fort Monroe, Old Point Comfort, Va.

1817. Work begun. 80, 40.

1866. Reinforcement of gun platforms; regrading ramp surfaces; alterations made to adapt water battery to the new 10-inch gun armament; several front pintle platforms for 15-inch guns built in the covered way; and minor work. 66, 13.

1867. Relaying platforms; brs., st. pavements, and slopes, etc., repaired; repairing embrasures, removing traverse circles, and constr. 18 projectile platforms of water battery. 67, 12.

1868. Repairs to floors and embrasures of casemates, terreplein, slopes, and ramp, and grading roadway; repairs to roofs of casemates in water battery and covered way, and minor repairs; 490' of wooden breast-height repaired or rebuilt in the redoubt; a st. wall 80' long built to support foot of glacis, and repairs to slopes. 68, 16.

1869. Center pintle platforms for 15-inch guns built in front 4 and parapet increased in thickness; front pintle platform for 15-inch gun built in covered way; grading 1,000 l. f. of roadway; work on drains, cleaning scarp walls, and repairing terreplein slope and ramps. Water battery—repairs to roofs of casemates, rebuilding part of sustaining wall in rear of 2 platforms, and minor repairs. 69, 15.

1870. Modification plan prepared. General repairs to pavements, cisterns, terrepleins, ramps, roadway, and break'r. 70, 22.

1871. General repairs. Summary of work. 71, 18.

1872. \$42,500 app. Repairing and rebuilding three 15-inch gun platforms; replacing pintle stones injured by experimental firing of 1871; rebuilding 2 front pintle 15-inch gun platforms in covered way and minor work. 72, 15.

1873. \$40,000 app. Six shot furnaces removed. Two casemates floored and plastered for officers' use. Two cisterns built; repairs to break'r, ramps, terreplein, casemate, etc. Work begun on modification plans; 6,000 c. y. sand placed. B.E. est. it would cost \$250,000 for permanent barracks. 73, 16.

1874. \$30,000 app. Masonry of magazine and foundations of 2 gun platforms completed; work on masonry of traverse magazine, and sand placing in the redoubt. Summary of work. Proj. for battery of 10 guns of heaviest caliber, exterior to fronts 2 and 3, and for a battery of 2 guns on fronts 1, 2, 3, and 4 of main work. 74, 19.

1875. \$20,000 app. Platforms Nos. 5 and 6, and 2 service magazines completed; parapet raised and graded; piers of postern br. repaired and entire superstr. of br. rebuilt; repair of wooden break'r. 75, 19.

1876. Platforms and breast-height walls in advanced redoubt nearly completed. Work on terrepleins and slopes and roadways. Three platforms for heavy guns and 15 for lighter ones ready for armament. 76, 21.

1877. Break'r repaired. Preservation and repair. Armament—10-inch Rodman guns dismounted from platforms 87, 88, 89, and 93; 100-pounder Parrott rifles dismounted from platforms 91, 92, and 94, and mounted on platforms 87, 88, and 89. Eight-inch converted rifle guns mounted on platforms 91, 92, 93, and 94. 77, 17.

1878. Repair of brs. and break'r. Timber 13-inch sea-coast mortar platform laid, fronts 4 and 5. 78, 20.

1879. Boathouses and brs. repaired. 79, 24.

1880. Description of fort. Repair of parapet, slopes, etc. 80, 40.

1881-84. General repairs. Summary of work. 81, 40; 82, 37; 83, 32; 84, 39.

1885. Breast-height wall and parapet on fronts 4 and 5 repaired and completed; replacing 5-inch pintles with 6-inch pintles. Permanent platforms for 10-inch Rodman guns Nos. 51 and 52 on bar-bette of main work completed. Minor work. Summary of work. 85, 31.

1886. Platform 96 put in serviceable order; numerous repairs. Summary of work. 86, 30.

Part 9, FSL. Fort Wool, Formerly Fort Calhoun.

1818. Work begun. 80, 41.

1858. Work resumed. 80, 41.

1866. Work on the masonry of the scarp and piers. Summary of work. 66, 14.

1867. Preparations for building the magazine of the first tier at the capital at the e. and w. ends. Summary of work. 67, 12.

1868-69. Work on constr. of magazines of first tier. Summary of work. 68, 16; 69, 16.

1870. Projs. for completion being prepared. Work on magazine of first tier and superstr. of magazine at w. end; stairway and passage finished; minor work. Casemates 2 to 53, inclusive, of first tier ready for guns. 70, 22.

1871-78. Operations suspended August, 1870. Preservation and care. 71, 19; 72, 15; 73, 17; 74, 20; 75, 20; 76, 21; 77, 17; 78, 20.

1879. Repair of wharf and fort-keeper's quarters. B.E. prepared modification plans for heaviest armament. 79, 24.

1880-86. Description and importance of fort. Preservation and repair. 80, 41; 81, 41; 82, 38; 83, 34; 84, 40; 85, 32; 86, 32.

1898. \$425 allotted, 1897. Preservation and care. 98, 698.

1899. \$1,260 allotted. Preservation and care 99, 841.

1901. \$300 allotted for care and preservation. 01, 812.

Part 10, FSL. Redoubt A—Emplacements for 10-inch Guns.

1892. \$158,848 allotted, 1891. Work begun placing concrete. 92, 8.

1893. Concrete for parapet in place and half of earthwork on the front completed. 93, 9.

1894. Emplacements for 2 guns completed; awaiting carriages. 94, 10; 95, 9.

1896. \$3,744 received from other works for completing the emplacements. \$10,292 allotted for constr. 2 platforms; were completed. Summary of work. 96, 492.

1897. \$1,300 allotted. Guns and carriages received; mounted by the garrison. Summary and detailed cost of work. Total cost, \$154,379.99. 97, 656.

1898. \$1,605 allotted. Waterproofing magazines, planting hedge in rear of battery, and installing electric-light plant. 98, 679.

Part 11, FSL. Redoubt A—Emplacement for One 10-inch Gun.

1893. \$64,000 allotted in 1892. Work begun. 93, 9.

1894. Emplacement completed; awaiting carriage. 94, 10.

1896. \$9,774 transferred to other works. \$5,020 allotted for constr. platform; practically completed. Summary of work. 96, 493.

1897. Carriage and gun received, mounted, and turned over to the commanding officer. Work completed. Summary and detailed cost of work. Total cost, \$59,246. 97, 658.

1898. \$552.50 allotted. Waterproofing magazine and installing a small chloride electric storage battery. 98, 680.

Part 12, FSL. Redoubt A—Mortar Battery, Sixteen 12-inch Mortars.

1895. \$100,000 allotted. Work begun on repair of wharf. 95, 9.

1896. Plans modified, repair of wharf completed, and plant constr. 96, 494.

1897. \$100,000 allotted. All concrete in the pits, wing walls, and main work, and 20,200 c. y. sand placed. Summary and detailed cost of work. 97, 659.

1898. Mortars mounted. Work completed; 21,741 c. y. concrete placed. Detailed cost of work. Mortars fired. 98, 683.

1899. Because of dampness in main magazine,

2 small temporary magazines built at cost of \$1,299.60. Description. 99, 839.

1900. \$1,246 allotted. Waterproofing. Ventilating system, description of. Concrete steps placed up the slope of center traverse. 00, 893.

1901. \$1,000 allotted for removing switches, st. bins, cement houses, and other plant; work done. 01, 808.

1902. Taking down 4' cubical concrete mixer; storing machinery; taking up and relaying RR. track. 02, 714. \$3,400 allotted for renewing interior wiring; no work done. 02, 717.

Part 13, FSL. Redoubt A—Platform for 8-inch Rifle on A. R. F. Barbette Carriage, Model 1892.

1898. \$1,800 allotted. Rifle, mounted for some time on a platform at n. end of water battery for target practice, transferred to a platform behind

the cover of the mining casemate. 210 c. y. of concrete placed in platform. Work completed; cost, \$1,608.08. 98, 686.

Part 14, FSL. Redoubt B (Left Half)—Emplacement for 10-inch Gun on Spit.

1897. Plans being made for 10-inch gun mounted on an experimental disappearing carriage, model 1894. 97, 659.

1898. \$50,000 allotted. Work begun and 2,623 c. y. of concrete and 12,038 c. y. sand cover placed. 98, 680.

1899. Battery nearly completed; gun and car-

riage received, but not mounted. Summary of work. 99, 835.

1900. Gun mounted by garrison and tested; electric plant partly installed and minor work. 00, 886.

1901. System of wiring completed; emplacement turned over Jan. 3, 1901. 01, 802.

Part 15, FSL. Redoubt B-C (Right Half)—Three 10-inch Gun Emplacements.

1898. \$125,000 allotted. Work begun. Redoubt C, 3,725 c. y. concrete and 2,186 c. y. sand placed. Right half of redoubt B, 1,067 c. y. concrete and 10,390 c. y. sand placed. 98, 689.

1899. \$5,000 allotted for completion; 3 emplace-

ments practically completed; armament in place. Summary and cost of work. 99, 836, 843.

1900. Slope completed; setting up storage battery. 00, 889.

1901. Electric light installed. 01, 802.

Part 16, FSL. Four 4.72-inch R. F. Gun Emplacements.

1898. \$18,000 allotted. Plans modified. Work begun on platforms on barbette tier. Five old platforms removed; 3 new platforms completed. 98, 690.

1899. All guns mounted and a magazine to serve them built in the interior slope of main work; cost of platform and magazine, \$2,777.01. 99, 845.

Part 17, FSL. Platforms for Four 8-inch Rifles on Parapet.

1898. \$8,000 allotted. Work begun on temporary platform and completed and guns mounted. Five old platforms and material removed. 98, 690.

1899. Two carriages and guns removed from platforms and shipped to other points. 99, 845.

Part 18, FSL. Emplacement for 10-inch Gun in Bastion.

1899. \$38,000 allotted. Work begun dismounting 3 old guns. 3,058 c. y. concrete placed. 99, 836.

1900. Work nearly completed. Gun and carriage received and part of carriage assembled. Detailed cost of work. 00, 888.

1901. Work of minor importance done; railing set, walls and rooms whitewashed, painting, etc.; walk laid. 01, 802.

1902. Iron hoods placed over doors; ammunition hoists cleaned; building 2 platforms. 02, 710.

Part 19, FSL. Battery for Three 12-inch Guns.

1899. \$150,000 allotted. Work begun. 8,500 c. y. sand placed for filling; 8,834 c. y. concrete placed. 99, 837.

1900. Battery, except minor work, completed; awaiting completion of assembling 4 carriages. Summary of work. 00, 889.

1901. Electric wiring finished; cable lines laid; painting and whitewashing; 2 carriages and guns mounted. 01, 803.

1902. System of speaking tubes put in. 02, 711.

Part 20, FSL. Emplacements for Four 15-pounder R. F. Guns.

1900. \$12,500 allotted. Work begun placing 1,349 c. y. of sand for filling. Battery practically completed. 00, 890.

1901. Slopes completed; work delayed awaiting armament. 01, 804.

1902. Minor work of mainten. 02, 714.

Part 21, FSL. Emplacements for Two 6-inch R. F. Guns.

1901. \$30,000 allotted. Plans and ests. under way. 01, 804.

1902. A fill made; wall 2' high built. 02, 713.

Part 22, FSL. Emplacements for Two 12-inch Guns.

1901. \$188,500 allotted. Site graded; laying out battery; 179 l. f. piling driven; 263 c. y. sand removed; track laid; proposals for work and material invited. 01, 803.

1902. Driving of piles; constr. plant installed. misc. excavation work; details given. 02, 713.

Part 23, FSL. South Side of Channel—Emplacements for Two 6-inch R. F. Guns.

1902. \$34,000 allotted for preparation of plans etc. 02, 719.

Part 24, FSL. South Side of Channel—Emplacements for Four 3-inch R. F. Guns.

1902. \$40,000 allotted. Wharf built; assembling of plant, etc. 02, 719.

Part 25, FSL. Miscellaneous.

Electric plant. 1899. \$960 allotted for supplies for operating. Plants in operation 6 months ending Jan. 1, 1899. Description of plant. 99, 842.

1901. \$10,160 allotted for increasing capacity sufficient to furnish current for lighting 1 of the 10-inch batteries, and a building for said plant; foundation of building completed. 01, 807.

1902. Building completed. Generating set to be installed. 02, 716.

Installation of ammunition hoist. 1902. \$2,275 allotted. No work done. 02, 717.

Electric installation for maneuvering 12-inch armament. 1902. \$3,000 allotted. Small building erected; plant completed, except moving and setting up storage battery. 02, 717.

Destruction of mine at Picketts H. 1901. \$25 allotted for destruction of loaded mine case. 01, 810.

Building for mortar battery electric plant. 1901. \$2,900 allotted for changing location of storage battery on account of damp condition of rooms; new building erected, ready for placing doors and windows. 01, 808.

1902. Slopes completed; doors and window frames set; storage battery taken down, etc. 02, 714.

New azimuth circles at mortar battery. 1901. \$400 allotted.—Old circles removed; platforms made ready for new ones. 01, 807.

1902. \$700 allotted. Azimuth circles for 2 carriages placed. 02, 714.

Handrails. 1901. \$100 allotted. Handrails for loading platforms placed. 01, 806.

Speaking tubes. 1901. \$505 allotted for speaking tubes at various batteries. 01, 806.

Tide gauge. 1901. \$30 allotted for erecting tide gauge of float type; shelter for same constr. 01, 806.

Gallery. 1901. \$165 allotted. Emplacement platforms connected; placing of handrails for loading platforms. 01, 805.

Redoubt A, concrete walk. 1900. \$626 allotted for constr. concrete walk; also concrete covering leading to each of the platforms of the battery; no work done. 00, 895.

1901. Walk laid 4' x 376'; cost, \$503.81. 01, 805.

Iron pile br. over Mill Creek, Fort Monroe, Va. 1889. \$20,000 app. for br. between the military reservation of Fort Monroe and Elizabeth City County, Va. Description of proposed br. 89, 12, 408.

1890. Work begun under contract and practically completed in May. Contract price, \$17,500. 90, 387.

Reinforcing water battery magazines. 1898. \$300 allotted. 263 c. y. sand placed in retaining wall and cribs built. 98, 691.

1899. 320 c. y. earth placed as cover for magazines. 99, 845.

Sewerage system, Fort Monroe. 1891. \$25,000 app., 1889. 91, 10, 531.

1892. Sec. of War decided that two systems be constr., one by the U. S. and the other by residents of the reservation. 92, 465.

1893. Discussion as to the best method of drainage. 93, 14, 642.

1895. \$37,500 app., 1894, for one-half of constr., the cost of the other half to be paid by the non-military residents. Work begun; contract, \$34,482.50. 4,391' of 6-inch and 8-inch sewer pipe laid. Fifteen manholes and about 10 c. y. of concrete and brick masonry placed. 95, 9, 511.

1896. Sewerage system completed. Summary of work. 96, 498.

1897. Post quartermaster at Fort Monroe assumed charge of operation and mainten. Total

cost, \$49,527.31. Report of receipt and expend. of constr. and mainten. 97, 663.

Wharf at Fort Monroe. 1889. \$175,000 app. Work begun under contract in August, 1888. Plans modified for steel piles instead of wooden ones; nearly all the piles placed and half the flooring laid. Summary of work. 89, 12, 464.

1890. Wharf completed in September, 1889, and custody transferred to the Quartermaster's Department, Dec. 4, 1889. Cost of materials. Storehouse on wharf nearly completed under contract, \$7,439.67. 90, 386.

1891. Constr. of pile jetty in progress. 91, 530.

Part 26, FSL.

Preservation and Repair.

1898. \$3,500 allotted. Repairs of brs., walks, and quarters. 98, 688.

1899. \$3,266.45 allotted for general repairs. 99, 840.

1900. \$1,936.59 allotted for repair of brs., torpedo material, and minor work. Summary of repairs. 00, 896.

1901. \$1,175 allotted. Repairs, painting, whitewashing; renewing decayed timber. \$1,000 allotted. Cleaning and painting torpedo material. \$1,725 allotted. Base rings of carriages of mortar

batteries releveled. 01, 810. \$100 allotted. Repairs to blocks and hoists of the ammunition service. \$405 allotted for correcting faulty drainage; \$775 allotted for repairing parapet and slopes; \$1,355 allotted to determine cause of leakage of water; \$1,100 allotted for preservation and repair. 01, 811.

1902. \$1,800 allotted for misc. repair work and payment of electrician's salary; drains cleaned; shelves and lockers provided for storage-battery room. 02, 718.

Part 27, FSL. Range and Position Finder Stations.

1897. \$1,800 allotted for tower and shelter. Work begun and completed under contract; turned over to the commanding officer. Description of work. 97, 661.

1898. \$500 allotted for 2 observation stations; both completed and instruments installed. 98, 686.

1900. \$100 allotted to enable data to be furnished the Board on Location of Position Finders as to elevations, etc., of sites selected for the constr. of completed range towers. 00, 894. Plans for battery-commander's station near mortar battery being prepared. 00, 895.

1901. \$6,000 allotted for constr. battery-commander's station; entirely finished, ready for troops. 01, 804, 805.

1902. Transferred to Artillery Oct. 17, 1901. 02, 715.

1901. \$172 allotted for 13 stations for emergency range finders provided for the several modern batteries. 01, 805.

1902. \$6,161.94 allotted for const. fire-commander's station; site graded. 02, 715. \$31,227.13 allotted for 5 battery-commanders' stations; foundation work. 02, 716.

Part 28, FSL. Sea Walls and Embankments—Fort Monroe.

1891. \$27,000 app. for beach protection. Work begun under contract on pile jetties. 91, 10, 530.

1892. Four jetties built and work on sea wall. Summary of work. Work suspended. 92, 466.

1895. \$9,100 allotted for sea wall near old pile break'r; 272 l. f. of sea wall built. Work described. 95, 508.

1896. Break'r completed; cost, \$6,967.43. Summary of work. 96, 495.

1900. \$12,000 to be provided for constr. about 900' of wall. 00, 895.

1901. \$23,000 allotted for concrete sea wall from engineer wharf to first jetty; work started at jetty 1; 175' built; retarded by storms. 01, 809.

1902. 333 l. f. concrete wall constr. during year and 3,450 c. y. sand placed. 02, 717.

Part 29, FSL. Sites—Willoughby Point, Va.

Tract of 47 acres and 2 rights of way purchased for \$23,500. 92, 10.

Part 30, FSL. Submarine Mines.

1891. Concrete work of mining casemate completed; sand cover being placed. 91, 8.

1892. Casemate completed; cost, \$29,452. 92, 8; 93, 9.

1893. \$21,150 allotted, 1897. Second casemate begun in 1897; casemate and gallery completed. Summary of work. 98, 686. Cable storage tank built; cost, \$2,072.79. 98, 687. \$27,000 allotted for torpedo defense; mines planted and cared for. Electrical firing apparatus set up in casemate. 98, 692.

1899. \$116.85 expended for fitting up an unused casemate of the main work for storing torpedo material and providing racks for 200 torpedoes, compound plugs, anchors, etc. 99, 839. \$2,000 allotted for extending cable tank; work completed; cost, \$1,962.45. 99, 840. \$18,000 allotted for removing mines; most of them removed by exploding them on the surface of water. Material cleaned and stored. 99, 841.

1900. \$1,000 allotted for supplies for seacoast defenses. 00, 895.

Part 31, FSL. Supplies for Seacoast Defenses.

1901. \$1,500 allotted. Supplies purchased and issued. 01, 809.

1902. \$1,000 allotted. Supplies purchased and issued. 02, 718.

Part 32, FSL. Water Supply.

1868. Artesian well begun in 1864-65 with a 12-inch pipe. 186' of 5-inch pipe and 120' of 8-inch pipe withdrawn from well of 1845, the 8-inch pipe to be driven inside the 12-inch pipe of the new well. Well 370' deep. 68, 16.

1869. Work continued on sinking the 8-inch pipe till the lowest section separated from the rest, at depth of 517', then tubes $4\frac{1}{2}$ inches diameter, with screw ends, inserted in the 8-inch pipe and driven to depth of 570', where a limited amount of saline water was found. 69, 15.

1870. Work continued on sinking the $4\frac{1}{2}$ -inch tubing. Total depth, 900'. 70, 22.

1871. Well driven to depth of 906 $\frac{1}{2}$ ' below level of parade at Fort Monroe. Work suspended in August, 1870. Plant cared for. 71, 18.

1872. Work resumed October, 1871, by drilling instead of boring. 72, 15.

1873. Little progress made. Work suspended. 73, 16.

1891. \$6,000 app. for new well. Ests. of \$4,000 more required before beginning work. 91, 10, 530.

1892. Description of previous work. 92, 467.

1893. Description of previous work and wells in other localities. 93, 13, 635.

FSM. NORTH CAROLINA FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FSM.**Contracts.**

1897. Emplacements for three 8-inch guns, \$66,631.45 for 2; itemized cost. 97, 671.

1899. Mixing and placing concrete, \$1.20 per c. y. 99, 856.

1900. 6,000 t. broken st., \$1.73 t.; 7,000 t. large st., \$1.53 t. 01, 813. Unloading and transporting

st. from cars, 41¢ and 40¢; 500,000 c. y. material for, filling, 13.7¢ c. y.; erection of steel observation tower, \$3,400. 01, 814.

Part 2, FSM.**Engineering Features.**

Cable tank, description and cost. 99, 858.

Carriages, releveling. 00, 904.

Concrete forms. 99, 851.

Concrete, wet and dry. 00, 906.

Cracks caused by settlement of battery, method of repairing. 99, 859.

Doors. 01, 922.

Drainage system. 00, 910.

Electric plant, description and cost. 99, 849.

Grass; Bermuda grass satisfactory. 02, 2465.

Guns, moving and mounting, and cost. 99, 853.

Leakage, prevention of. 00, 898, 908; stopped by linseed oil. 02, 2465.

Masonry, composition of. 99, 852.

Materials, quantity and cost of. 97, 674; 98, 695; 99, 852, 856; 00, 906.

Percolation, oil treatment. 03, 2408.

Piles, pile driving with derrick. 01, 922.

Plant, description and cost. 97, 673; 99, 851, 852, 856; 00, 908.

Settlement, avoiding unequal settlement. 01, 922.

Shores, protection of. 05, 3010. Jetties. 05, 3010 (pl.).

Storehouse, torpedo, description and cost. 99, 858.

Telephones, boxes for. 01, 922.

Walls, linings. 01, 922.

Walls, sea. Details. 01, 921 (pl.). Repairs. 05, 3010.

Waterproofing. 00, 898.

Engineers.

Chief of Engineers. R., 66, 14; 69, 16; 70, 16, 670; 98, 24, 692; 99, 25, 845; 00, 23, 897; 01, 22; 71, 19; 72, 15; 73, 17; 74, 20; 75, 20; 76, 21; 6, 24; 02, 7, 24; 03, 9; 04, 5; 05, 5; 06, 5; 07, 5; 77, 17; 78, 21; 79, 25; 80, 41; 81, 41; 82, 38; 83, 08, 9; 09, 10; 10, 12; 11, 8; 12, 7.
35; 84, 40; 85, 33; 86, 33; 95, 10; 96, 17, 501; 97,

Part 4, FSM.

Board of Engineers.

Constituted, 1882, to consider and report upon, the condition of fortifications, and what number, if any, could be dispensed with. **R.,** 82, 422.

Part 5, FSM.

Engineers in Charge.

Col. Q. A. Gillmore, 1870-86.
Capt. J. Mercur, 1883-84.
Capt. J. C. Post, 1883.
Capt. F. A. Hinman, 1884-85.
Capt. W. H. Bixby, 1885-86.

Maj. W. S. Stanton, 1895-96.
Lt. Col. D. P. Heap, 1896-97.
Capt. W. E. Craighill, 1897-99.
Capt. E. W. Van C. Lucas, 1899-1902.

Part 6, FSM.

Assistants.

Lt. E. W. Van C. Lucas, 1895.
Lt. E. Jadwin, 1896-98.

Lt. J. C. Oaks, 1898-99. **R.,** 98, 695.
Lt. E. I. Brown, 1899-1900.

Part 7, FSM—

FORTS AND BATTERIES.

Part 8, FSM.

Fort Macon, Beaufort Harbor.

1826. Work begun. 80, 41.
1866. Question of modifications to be placed before the BE. 66, 14.
1870. Modification plans under consideration. 70, 22.
1871. Timber wharf, and jetty to protect same, built; cost, \$4,779. 71, 19.
1872-73. Work on wharf and break'r under wharf. 72, 16; 73, 17.
1874. Jetty and cribwork built w. of wharf. 74, 20.
1875. Timber cribwork and break'r completed (severe storm destroyed part of these works). 75, 20.

1876-78. Subject of modification still under consideration. 76, 21; 77, 17; 78, 21.
1879. Br. across ditch repaired and new wooden covers placed over the ventilation of all casemates. 79, 25.
1880-82. Board sand-catch built to restore the beach to its former area and height. Results satisfactory. 80, 41; 81, 41; 82, 38.
1883. Parapet and glacis cleared, and fence and jetties repaired. 83, 35.
1884. Work continued on jetties. 84, 40.
1885-86. Care and preservation. Summary of repairs. 85, 34; 86, 33.

Part 9, FSM. Beaufort Harbor—Defense at Entrance.

1898. \$3,000 allotted. Carriages of two 100-pounder Parrott rifles put in good order and 1 of the guns moved to a new and more advantageous position. Two 10-inch S. B. mortars mounted on covered way and a magazine arranged for them. Two platforms for the same mortars were also arranged on the parade. Splinter-proof traverses

built for the protection of guns and mortars. **98**, 692.

1899. Minor work done to complete the placing of the 100-pounder Parrott rifles and two 10-inch S. B. mortars. **99**, 846.

1902. Two 12-pounder guns dismantled and shipped. **02**, 72P.

Part 10, FSM. Fort Caswell, Cape Fear River.

1826. Work begun. **80**, 42.

1866. Question of modification to be placed before BE. **66**, 41.

1870-86. Importance of fort. Modification

plans under consideration. **70**, 22; **71**, 19; **72**, 16; **73**, 17; **74**, 20; **75**, 21; **76**, 22; **77**, 18; **78**, 21; **79**, 25; **80**, 42; **81**, 42; **82**, 39; **83**, 35; **84**, 41; **85**, 34; **86**, 34.

Part 11, FSM. New Work at Old Brunswick, Cape Fear River.

1872. Plans and ests. being prepared. **72**, 16.

Part 12, FSM. Mouth of Cape Fear River—Emplacements for Four 8-inch Guns.

1897. \$127,900 allotted. Work begun under contract for 3 emplacements. 2,966 c. y. concrete and 2,286 c. y. sand for embankment placed. Work given in detail with cost. **97**, 670, 672.

1898. \$43,000 allotted. Three emplacements completed and guns and carriages mounted. Work begun on fourth emplacement March 13 completed, and gun and carriage mounted by May 12. Battery completed, except railings, trolleys, etc. **98**, 608.

1899. \$2,000 allotted for installing storage battery. Battery completed. Repairs of electric

wiring, drainage system, and filling of cracks caused by unequal settlement of battery with asphalt dissolved in naphtha; cistern cleaned and trees planted; traverse circle of gun No. 4 releveled. **99**, 847, 858.

1900. Releveling carriages; new drainage system laid and slopes from terreplein to floors repaired by removing the turving and covering the slopes with a layer of concrete 4 inches thick. **00**, 904.

1901. \$700 allotted for communicating gallery. **01**, 815.

Part 13, FSM. Reservation at Southport (Fort Johnson).

1898. Repair of building on reservation. Proceedings instituted for possession of the reservation by parties claiming to have acquired rights to the property. **98**, 693.

1899. Suits for possession of reservation still pending. **99**, 846; **00**, 897.

1901. Suit still pending. **01**, 813.

1902. Suit settled by payment from app. for imp. Cape Fear R. **02**, 720.

Part 14, FSM. Mortar Battery for Eight 12-inch Steel Mortars.

1899. \$112,000 allotted. Work begun in August, 1898; masonry completed; floors laid; trolleys placed; 29,000 c. y. sand placed in parapet, and 1,801 sq. y. sod placed; 4 mortar pits finished; 7 carriages and 8 mortars received; \$2,120 allotted for mounting; in progress. Itemized cost of work. **99,** 847, 848, 854, 856.

1900. All guns mounted and battery com-

pleted, except installing electric-firing apparatus; constr. work, with cost, in detail; description of wet and dry concrete; foundations for mortars; cracks, methods of filling; plant and materials; drainage system; electric lighting, and damage done by storm of Oct. 30, 1899. **00,** 905-910.

1901. \$1,400 allotted. **01,** 815.

1902. Work of releveling taken up. **02,** 721.

Part 15, FSM. Two Emplacements for 12-inch B. L. Rifles on Non-disappearing Carriages.

1898. \$90,000 allotted. Work begun on platforms May 11 and completed May 27; excavation completed and 4,070 c. y. concrete placed; wharf strengthened for unloading guns. **98,** 693, 696, 697.

1899. \$38,325 allotted. Guns and carriages mounted and battery completed. Description and detailed cost of work. **99,** 846, 848, 852, 854.

1900. Repair of drains. **00,** 905.

Part 16, FSM. Two Emplacements—One for 4.72-inch R. F. Gun and One for 5-inch R. F. Gun.

1898. \$3,000 allotted for mounting guns. The 5-inch emplacement incorporated in the fourth emplacement for 8-inch B. L. rifle and completed when that emplacement was finished. The 4.72-inch R. F. emplacement was built on parapet of the old fort; work completed; no guns received. **98,** 694, 696.

1899. \$3,000 allotted. Guns mounted and all work completed; turned over to the garrison. **99,** 26, 847, 854.

1900. \$600 allotted for installing ammunition lift in 4.72-inch emplacement; lift purchased and installed; description and tracing. **00,** 897, 898, 899, 905.

Part 17, FSM. Emplacements for Two 5-inch R. F. Guns.

1899. \$10,500 allotted. Work begun in 1898 on 1 emplacement. Concrete placed by contract. Wagon road built to connect with mortar battery; masonry and all other work completed; awaiting arrival of carriage. Itemized cost of the emplacements. **99,** 847, 856.

1900. Parapet restored at cost of \$425. No armament as yet. **00,** 897, 911.

1901. One gun provided with a carriage. **01,** 813.

1902. Transferred to garrison. **02,** 721.

Part 18, FSM. Emplacements for Two 15-pounder R. F. and One 5-inch Gun.

1901. \$20,000 allotted. Plans approv.; work in progress on 15-pounder. **01,** 813.

1902. \$1,700 allotted. Emplacements finished. **02,** 721.

Part 19, FSM. Miscellaneous—Electric Plant.

1899. Located in casemate of old fort. Description of plant, with tabulated statement of cost of installation. **99, 849.**

1902. \$3,000 allotted for rewiring batteries. **02, 722.**

Part 20, FSM. Preservation and Repair of Fortifications.

1899. General repair of 8-inch emplacement. **99, 858.**

1900. \$2,225 allotted. Releveling 8-inch gun carriages and repair of drainage of 8-inch and 12-inch emplacements. **00, 904.**

1901. \$2,070 allotted. Carriages at emplacements 1, 2, and 3 of battery for four 8-inch rifles

releveled; safety stops provided for electric ammunition hoists; submarine mining equipment cared for; other misc. repair work. **01, 813.**

1902. Repairs to drainage service, pavements, parapets, ammunition lifts, etc. **02, 721.**

Part 21, FSM. Range and Position Finders.

1901. Work on fire-commander's station started; foundation well advanced; \$8,800 allotted. **01, 813.**

1902. Completed and transferred to garrison. **02, 721.**

Part 22, FSM. Sea Wall and Embankment—Fort Caswell, N. C.

\$150,000 app. May 25, 1900. Violent storm occurred Oct. 30 and 31, 1899. Report submitted by Capt. Lucas, describing the storm and damages caused by it, with plans and ests. of cost and repairs. Proj. submitted. **00, 900.**

1901. Concrete wall 6,612' long built. **01, 813.**

1902. Low places filled to 12' above m. l. w. Work in progress restoring wagon roads and RRs. **02, 721.**

Part 23, FSM.

Submarine Mines.

1895. \$7,000 allotted, 1894, for mining casemate and cable gallery; work begun. **95, 10.**

1896. \$2,000 allotted. Both completed. Total cost, \$3,361.98; detailed cost of work. **96, 17, 501.**

1898. \$10,600 allotted. Torpedo casemate fitted up with operating apparatus; torpedoes planted. Telephone and telegraph connections made with Wilmington, N. C., and minor work. **98, 695, 697.**

1899. \$2,900 allotted for removing mines, caring for same, and altering mining casemate; mines removed, cleaned, and stored. **99, 848.** \$1,250 allotted for cable tank, which was completed; cable stored; description; itemized cost. **99, 848, 857.** \$6,500 allotted for torpedo storehouse; completed, fireproof, and lighted by electricity; description and itemized cost. **99, 849, 858.**

Part 24, FSM. Supplies for Seacoast Defenses.

1902. Supplies issued. **02, 721.**

FSN. SOUTH CAROLINA FORTIFICATIONS.

Part 1, FSN. Contracts.

1896. Two emplacements for 10-inch guns, \$110,813.56. 97, 698.

1897. One emplacement for 10-inch rifle, \$66,612.80. 98, 700.

1898. Ammunition hoist, \$1,950; trolley system, \$2,355. 98, 702. Electric-light plant, \$5,542. 99, 860.

Part 2, FSN. Engineering Features.

Ammunition, hydraulic lifts. 05, 3015 (pl.).

Borings, description of. 96, 503.

Briquettes, method of making. 96, 507.

Cement, tests. 96, 505.

Closing cracks. 03, 2411.

Concrete, placing with traveling derrick. 99, 866.

Doors; steel doors, telautograph niches. 04, 3722 (pl.).

Linings, magazines. 03, 2410 (pl.); 04, 3722.

Materials, itemized cost. 96, 512.

Percolation, asphaltum as a preventive. 03, 2412.

Planes of weakness, effects of settlement. 96, 693.

Plant, constr.; arrangement of. 96, 694; 98, 705.

Plant, briquette-making. 96, 516.

Plant, constr., itemized cost. 96, 512.

Plant, electric, description. 00, 915.

Plant, stone-crushing (tracing). 96, 516.

Quarry and plant, description and cost. 96, 512.

Settlement of mortar battery. 00, 911.

Waterproofing, unsuccessful. 00, 912. Methods. 03, 2409 (pl.).

Well, artesian; strata passed. 96, 504.

Well-points, description of. 96, 509.

Part 3, FSN.

Engineers.

Chief of Engineers. R., 66, 14; 69, 16; 70, 23; 71, 19; 72, 16; 73, 17; 74, 20; 75, 21; 76, 22; 77, 18; 78, 21; 79, 25; 80, 42; 81, 42; 82, 39; 83, 35; 84, 41; 85, 34; 86, 34; 92, 8; 93, 9; 94, 13; 95, 10; 96, 17; 97, 16, 675; 98, 24, 697; 99, 26, 859, 00, 24, 911; 01, 6, 25; 02, 7, 25; 03, 9; 04, 5; 05, 5; 06, 5; 07, 5; 08, 9; 09, 10; 10, 12; 11, 8; 12, 7.

Part 4, FSN.

Board of Engineers.

Constituted, 1882, to consider and report upon the condition of fortifications, and what number, if any, could be dispensed with. R., 82, 422.

Part 5, FSN.

Engineers in Charge.

Col. Q. A. Gillmore, 1870-86.
Capt. J. C. Post, 1883.
Maj. F. V. Abbott, 1893-1897.

Lt. E. R. Stuart, 1897.
Maj. E. H. Ruffner, 1897-1900.
Capt. J. C. Sanford, 1900-02.

Part 6, FSN.

Assistants.

Lt. E. H. Schulz, 1898-99.
Lt. E. R. Stuart, 1897-98. R., 97, 690.
Lt. H. B. Ferguson, 1897.

Lt. C. Keller, 1898.
Lt. Edw. R. Stewart, 1901-02.

Civilian electrician. 1902. \$1,200 allotted for pay. 02, 725.

Part 7, FSN—

FORTS AND BATTERIES.

Part 8, FSN. Charleston Harbor, S. C.—Fort Sumter.

1829. Work begun. 80, 42.
1866. Fort a mass of ruins. 66, 14.
1870. Modification plans approv. for armament of heavy guns in barbette; est., \$87,000. Work begun removing old wooden bombproofs and galleries; temporary sally port excavated on w. front, and wooden dock built; foundations of new scarp wall on se. face prepared; casemate arches of second tier, w. face, removed, and a large amount of filling placed on parapets of several fronts; minor work. 70, 23.
1871. \$25,000 app. Sand parapets raised about 7' along entire length of n. face. 71, 19.
1872. \$35,000 app. Scarp wall of e. half of gorge and the entire se. face built; broken arches in rear removed and site leveled; surface magazine built on se. face; casemates of ne. face uncovered; those of second tier of this face were removed and scarp wall cut down; middle casemates uncovered

and sites of two 15-inch guns prepared; 2 cisterns of 2,700 and 3,500 gallons capacity, respectively, built. 72, 16.

1873. \$40,000 app. Parapet on e. face and for a length of 57' on the gorge face completed. Ne. face—flagging over casemate arches removed and scarp wall cut down to proper height; 10 casemate arches strengthened and 12 retaining walls built, and minor work. 73, 18.

1874. \$20,000 app. Repairs to 11 of the casemates completed and 11 guns mounted; 1 retaining wall built and earth filling in rear completed; minor work; raising scarp wall of ne. and nw. faces, and casemate arches of ne. face covered with concrete; 2 barbette service magazines built; terreplein of ne. face completed; timber gun platforms for 15-inch guns laid, and minor work. 74, 21.

1875. Old wooden bombproof galleries excavated and removed; arches of 11 casemates strength-

ened and asphalted; 4 retaining walls built in rear of these casemates; masonry of new sally port front and gallery, the barbette service magazine, the foundations for platforms for guns Nos. 1, 2, and 3 on nw. front, and the passageways through paradises in the angles between that front and the adjoining front completed; 2 cisterns, capacity 10,000 gallons each, built; 1 platform ready for gun, and minor work. 75, 21.

1876. Storage magazine, breast-height walls, and permanent platforms for guns Nos. 1, 2, and 3, completed; entire scarp wall of nw. and gorge fronts coped with concrete; minor work. 76, 22.

1877. Timbers of platforms 9 and 10 stored. Slopes repaired; minor work. 77, 18.

1878. Wharf extended 30'. Two 15-inch guns and two 200-pounder Parrott rifles mounted on 15-inch timber platforms. 78, 21.

1879. Preservation and repair—covering of marsh grass placed over the unfinished roof-surface of the principal magazine. 79, 25.

1880. History, and importance of work. 80, 42.

1881. Replacing with a timber revet. the old marsh sod revet. in front of guns 6 and 7 on the ne. face, and guns 9 and 10 on the se. face; beginning the extension of the wharf. 81, 43.

1882. Parapet repaired, storage magazine covered with marsh grass, new wharf built about 350' long; minor work. 82, 40.

1883. Cribbs of new wharf filled with riprap. Sand removed from the casemates of the ne. front, from the galleries, and from the passages leading to magazines; temporary wooden doors made and hung. Slopes and quarters repaired. 83, 36.

1884. Timber breast-height walls for guns Nos. 8 and 9, se. face, repaired; coping placed for all entrances of covered passages of the nw. face; chimneys raised; cisterns, slopes, and quarters repaired. 84, 42.

1885. Buildings repaired, superstr. of wharf, strengthened, and slopes repaired. 85, 35.

1886. Preservation and repair—slopes, wharf, and earthwork repairs. 86, 35.

Part 9, FSN. Charleston Harbor, S. C.—Castle Pinckney, Shutes Folly Island.

1829. Work begun. 80, 43.

1866. Masonry was covered, during the rebellion, with sand and made into a powerful earth-work. 66, 14.

1870. Recom. approv. that the existing condition be temporarily maintained with moderate

repairs, and that guns of medium size be mounted on wooden platforms in the several emplacements already prepared for them. 70, 23.

1880. In its existing condition the work useless for defensive purposes; in charge of the Lighthouse Board for lighthouse purposes. 80, 43.

Part 10, FSN. Charleston Harbor, S. C.—Fort Moultrie, Sullivan Island.

1841. Work begun. 80, 42.

1866. Fort converted by the Confederate forces during the rebellion into a powerful earth-work. Armament inadequate for modern defense. 66, 14.

1870. Modification plans approv. for guns of largest caliber; est., \$75,000. 70, 23.

1871. \$25,000 app. 71, 19.

1872. \$35,000 app. Removal of old platforms, flagging of terreplein, the breast-height parade, tie walls, palmetto crib traverses on the terrepleins, and the heavy wooden bombproofs on the parade and adjacent to the scarp wall; scarp wall uncovered and repaired; 3 service magazines in the s., se., and sw. faces completed, except doors; and the foundation and platform for two 15-inch guns laid. The bricks from Confederate Fort Ripley were transferred to this fort. 72, 16.

1873. \$40,000 app. Brick coping of scarp wall on the 3 chan. fronts built; masonry of principal

and the adjacent service magazine on the e. face finished; earth filling of parapet and traverses on the 3 chan. fronts nearly finished. All brick and concrete work of the 2 small flanking bastions of chan. front removed; minor work. 73, 17.

1874. \$20,000 app. Masonry of ne. bastion magazine completed; wing walls, lintels, and caps added to 3 other service magazines; earth covering placed for the first, second, and third magazines; concrete masonry of the bombproof gallery e. of sally port completed; sally-port gallery raised; terreplein in rear of guns graded; work on paradises; platforms for 4 of the largest seacoast mortars laid in rear of fort, and mortars mounted. Minor work. 74, 21.

1875. \$15,000 app. Work on parapet on sw. and w. fronts and sw. angle; sally port on gorge face completed, and masonry of the sally port and casemates and sally-port gallery nearly completed; sand covering of old storage magazines removed,

drain repaired; 7 platforms ready for guns; minor work. 75, 21.

1876. Old storage magazine remodeled, and a service magazine, permanent platform, and breast-height wall for gun No. 12 completed; postern front completed, and foundation walls of the galleries leading to it were raised; minor work. 76, 22.

1877. Preservation and repair. 77, 18.

1878. Preservation and repair. Two 15-inch guns mounted on timber platforms. 78, 21.

1879. Preservation and repair. 79, 25.

1881. Exposed concrete over the sally port and guard rooms covered to protect it from the weather; general repairs of quarters and fences, etc. 81, 42.

1882-83. Wooden covering placed on principal magazine; repairs of quarters and grounds. 82, 39; 83, 36.

1884. Slopes repaired, graded, and sodded, and fort-keeper's house repaired. 84, 41.

1885. Preservation and repairs—fences and slopes. 85, 34.

1886. Preservation and repair. 86, 34.

Part 11, FSN. Charleston Harbor, S. C.—Fort Johnson, James Island.

1870-74. Modification plans approv.—to be repaired and maintained as an earthwork with such alterations and enlargements as will adapt the emplacements of 15-inch guns. 70, 23. Approv. projs. 74, 22.

1876. Four 13-inch mortar platforms on hand. 76, 23.

1880. Description of this work; a fort only in name, having neither armament nor magazines. 80, 43.

Part 12, FSN. Charleston Harbor, S. C.—Lift Battery for Three 12-Inch Rifles.

1895. \$75,500 allotted. 95, 11.

1896. Work begun, 1895. 1,500 t. large st. procured for \$393. Borings made; wharf built by contract. Artesian well bored under informal

agreement; cost, \$896.64. Work begun on scarp wall, and completed. Total cost, \$3,299.90. Work suspended, and funds transferred to the mortar battery. 96, 502.

Part 13, FSN. Charleston Harbor, S. C.—Mortar Battery.

1896. \$60,000 transferred from 12-inch emplacements, and \$42,222 allotted. Work begun in Mar. Borings made, canal and basin dr.; wharf built, and 5 bins for st. constr. Pile driving begun Apr. 20, 1896; 330 piles driven by the end of the year, completing the piling for 7 mortar platforms. Seven mortars and carriages received. Excavation for mortar pits begun; ground drained of water with well-points. 96, 508.

1897. \$112,000 allotted. Concrete work begun, and 15,562 c. y. placed; 107,816 c. y. sand placed in parapet and covered with 9,000 c. y. mud; 1,388 sq. y. sod placed round the tops and on the steep slopes. One mortar and 5 carriages received, and 8 mortars and 16 carriages mounted. 97, 675.

1898. \$7,000 allotted. Concrete ramps in pits finished and 3 inches of granolithic covering placed; all floors put in; magazine doors built; settlement continued; mortars leveled; remaining 8 mortars received and mounted. 98, 697.

1899. Slopes graded, floors of interior galleries, shell rooms, and recesses raised 6 to 9 inches. Completed battery turned over to the Artillery. 99, 859.

1900. Total settlement of battery to Nov., 1899, 1.49' at n. end, 1.66' at s. end, and 1.47' in middle. Floors of magazine raised about 1'. Wire fence built on 3 sides of reservation. 00, 911.

Part 14, FSN. Charleston, S. C.—10-inch Battery.

1897. \$160,000 allotted. Plans approv. for shifting battery 400' w. of site selected by B.E. Battery to be built under contract. Artesian well begun. Concrete work and sand filling in progress. Shot lifts in position. No armament. **97**, 693.

1898. \$75,000 allotted. Three guns and carriages received and mounted. Artesian well, 1,308' deep, dug, and 3 gun emplacements completed, except electric plant. Work begun under contract on a fourth emplacement completed. **98**, 698.

1899. \$3,100 allotted; electric plant installed and completed and turned over to the garrison. \$1,610 allotted for constr. of 2 cisterns, each to contain 30,000 gallons of water; work begun and completed. **99**, 860, 861.

1901. \$500 allotted. Repairs to ammunition hoists; work completed. **01**, 817. \$1,125 allotted for constr. galleries; work completed. **01**, 818.

Part 15, FSN. Charleston Harbor, S. C.—12-inch Battery.

1898. \$50,000 allotted. Work begun on 1 emplacement for a 12-inch disappearing gun on U. S. carriage, model 1896. Platform ready for base ring by May 14. \$40,000 allotted. Work begun on 1 emplacement for a 12-inch barbette carriage; platform nearly completed. 400 c. y. Portland and 2,500 c. y. natural cement placed. No armament on hand. **98**, 700.

1899. \$7,200 allotted for the emplacement for disappearing carriage. Total of 11,000 c. y. concrete placed in both emplacements; shot lifts and trolleys erected; 2 cisterns built under loading platforms in spaces which would otherwise have been filled with sand; retaining wall built behind both emplacements to the height of the loading

platform. \$1,600 allotted for mounting guns and carriages. Barbette gun and carriage mounted; disappearing gun carriage mounted; gun not yet received. Battery completed, except electric lighting and erection of cranes and hand railing. Minor repairs made. **99**, 863, 864.

1900. 12-inch rifle for disappearing carriage received and mounted. \$5,000 allotted, and electric light plant installed. Battery turned over to the Artillery. **00**, 914.

1902. \$18,800 allotted for completion of work on battery; masonry work completed; front wall cut down and new coping built; filling done; repairs to wall, etc. **02**, 723.

Part 16, FSN. Charleston Harbor, S. C.—4.7-inch R. F. Guns.

1898. \$6,000 allotted Apr. 6 for 2 emplacements. Work begun, and 2 emplacements and 1 magazine, except roof, completed by May 1. **98**, 702.

1899. Completion of gallery and drains; mount-

ing guns; covering parapet with an apron of 6-inch concrete. Completed battery turned over to the Artillery. **99**, 861.

Part 17, FSN. Charleston Harbor, S. C.—6-inch R. F. Gun on Pedestal Mount.

1898. \$3,000 allotted for 1 emplacement. **98**, 703.

1899. \$7,500 allotted. Work begun in Oct.,

1898, and completed. Gun and carriage mounted by Artillery. **99**, 861.

Part 18, FSN. Charleston Harbor, S. C.—Three Emplacements for 15-Pounder R. F. Guns.

1899. \$9,500 allotted. Work begun removing an old 15-inch gun, 750 c. y. sand, and 140 c. y. of old concrete. Battery completed, except setting base castings. **99, 801.**

1900. Guns, carriages, and base casting not yet received. **00, 913.**

1901. Base castings, guns, and mounts received; castings set; guns mounted. **01, 818.**

1902. Turned over to Artillery July 16, 1901. **02, 724.**

Part 19, FSN. Charleston Harbor—Emplacement for 6-inch R. F. Gun on Disappearing Carriage.

1899. \$20,000 allotted. Work begun in April and 635 c. y. concrete placed in walls and 450 c. y. sand placed in parapet. **99, 862.**

1900. 1,100 c. y. concrete placed and 2,400 c. y. sand for parapet. Carriage received and mounted. Battery completed, except mounting gun, and turned over to the Artillery. **00, 913.**

Part 20, FSN. Port Royal, S. C.—R. F. Guns.

1898. \$6,000 allotted April 6 for 2 4.7-inch R. F. guns; work begun; 350 c. y. concrete placed and guns mounted by June 24. **98, 704.**

1899. Grounds graded; parapet protected with oyster shells and battery completed. **98, 868.**

Part 21, FSN. Port Royal, S. C.—Siege Battery.

1898. \$2,000 allotted for temporary battery for one 5-inch B. L. siege gun and one 7-inch B. L. siege howitzer. Work begun and completed, ready for mounting the guns which were on hand. Orders received to ship them to Tampa, Fla. Two light

12-pounders received and mounted on wooden platforms, so as to fire over parapets. One of the magazines is used as a mining casemate and the other for storage purposes. **98, 704.**

Part 22, FSN. Port Royal, S. C.—Ten-inch Battery.

1898. \$89,000 allotted. Work begun on 2 emplacements and 454 c. y. concrete placed in gun blocks, completing same. **98, 705.**

1899. \$50,000 allotted. Work begun on an addl. emplacement; 11,010 c. y. concrete and 14,500 c. y. sand placed; ammunition hoists and trolley systems installed and 2 carriages mounted. **99, 865.**

1900. Remaining carriage and 3 rifles mounted by Artillery; cranes erected; hand railing put up; barbed-wire fence built; electric plant installed and tested. Completed battery turned over to the Artillery. **00, 915.**

1901. Materials used for constr. taken down and stored. **01, 820.**

Part 23, FSN. Port Royal, S. C.—Eight-inch Rifles.

1898. \$12,000 allotted for temporary battery for two 8-inch rifles mounted on 15-inch carriages. Site changed. Work begun on wharf. **98, 706.**

1899. Guns mounted and all work completed. **98, 869.**

Part 24, FSN. Port Royal, S. C.—Dynamite Battery.

1901. \$50,000 allotted for pneumatic dynamite battery. 01, 820.

1902. July 24, 1901, Sec. of War ordered work to be stopped. 02, 727.

Part 25, FSN. Georgetown, S. C.—Batteries.

1898. \$5,000 allotted. Temporary batteries for two 7-inch B. L. howitzers built, requiring the use of 6,000 sandbags and 1,500 c. y. sand to fill in between the walls; emplacement built and howitzer mounted. Two 5-inch B. L. rifles mounted in the old fort prepared for them. Orders received to

ship all ordnance and ordnance stores at Georgetown to Tampa, Fla. These guns were replaced by four 12-pounder guns, which were mounted. 98, 766.

1899. Twelve-pounder guns removed. 99, 870.

Part 26, FSN. Preservation and Repair.

1898. Charleston H.—\$1,800 allotted for mounting 15-inch S. B. guns on emplacements 5, 6, 7, and 8 of old fort; 2 guns mounted. 98, 703.

1899. Charleston H.—\$1,500 allotted for painting I beams and repairing shot lifts and drains of 10-inch battery. 99, 862. \$382.46 expended on minor repairs of 12-inch emplacement. 99, 864.

1900. Charleston H.—\$3,800 allotted for repairs of electric plant, building wire fence, prevention of leakage in magazines (unsuccessful), and minor work on plant. \$500 allotted for caring for torpedo material, building a dust-proof room for torpedo material, and minor work. 00, 912, 913. \$500 allotted for completing guardrail, erecting cranes, and building wooden sheds over passages to keep out the rain. 00, 914.

Port Royal—\$2,500 allotted for repairs of wharf; 126 piles protected by yellow metal driven; work

completed. 00, 915. \$500 allotted for repairs of torpedo material; work completed. 00, 916. \$200 allotted for estab. a bench mark; work completed. 00, 916.

1901. \$2,000 allotted. Charleston H., S. C.—misc. work of alteration and repair. 01, 817. \$800 allotted for painting ironwork, 12-inch battery. 01, 818. Repairs to hoists at 10-inch battery. Port Royal—painting and whitewashing, etc., done. 01, 820.

1902. Charleston H., S. C.—\$150 allotted. Repairs and painting at 10-inch, 12-inch, and mortar batteries. 02, 724. \$300 allotted for imp. lifts, repairs to ammunition hoists and outlet drain. 02, 725. \$1,950 allotted. Work on damaged portion of sloping wall. 02, 725. \$1,300 allotted. Port Royal—cleaning and painting; board walk built; plant removed. 02, 727.

Part 27, FSN. Range and Position Finders—Charleston Harbor, S. C.

1896. Station built in rear of the mortar battery. 96, 517.

1901. \$5,100 allotted for battery-commander's station; no work done. 01, 819.

1902. \$4,961.66 withdrawn and returned to Treas. 02, 726.

1901. \$160 allotted for plotting and observation station; constr. completed. 01, 819.

Part 28, FSN. Sites—Sullivans Island.

Sec. of War requested the cooperation of the governor of South Carolina in obtaining the passage of an act ceding the title to, and jurisdiction over, the sites of these 3 batteries to the U. S. 91, 13. Title granted to the U. S. on condition that the U. S. compensate all persons having any right, title, or interest in any part of the land in question. 95, 14. Twenty-one lots purchased at cost of \$31,332.

Negotiations in progress for remainder of the land. 96, 17. Title to all land acquired for 10-inch and 12-inch batteries, except 4 lots, which were condemned; papers awaiting the opinion of the Attorney General. 97, 17. \$2,175 allotted for purchasing sites. 00, 916.

1901. \$40.95 allotted. Lots Nos. 58 and 59 paid for. 01, 821.

Part 29, FSN.

Submarine Mines.

1892. Charleston H.—1 mining casemate nearly completed. **92, 8.**

1893. Charleston H.—mining casemate completed; cost, \$13,100. **93, 9.**

1898. Charleston H.—cable tank built at mortar battery. Mines planted, kept in order, and mine fields patrolled. **98, 25, 698.**

1899. Charleston H.—\$5,000 allotted. All mines removed by exploding them; material cleaned and stored. 24-inch searchlight outfit transferred to the engineer officer. \$1,900 allotted for a new mining casemate, the existing one found to be unsuitable. accomplished by converting an old magazine in the fort; addl. cover obtained by placing concrete and sand. **99, 865.** Port Royal H.—mines planted

July 28, and removed by exploding them in August; material stored. \$3,000 allotted for cable tank; work begun and completed and a movable hoist installed. **99, 869.**

1900. Charleston H.—200 c. y. sand and 200 c. y. marsh mud placed on slopes. **00, 914.** Port Royal—drums of cable removed from cable tank, tested, insulated, and replaced. **00, 915.**

1901. \$6,500 allotted for constr. torpedo storehouse; contract awarded, but no work done. **01, 819.** Care of torpedo material. **01, 819, 821.**

1902. Constr. of torpedo storehouse completed. **02, 727.** \$1,500 allotted for cable tank, Charleston H.; no work done. **02, 726.**

Part 30, FSN. Supplies for Seacoast Defenses.

1901. \$800 allotted. Requisitions received and filled. **01, 819.**

1902. \$500 allotted. Requisitions received and filled. **02, 726.**

FSO. FORTIFICATIONS OF GEORGIA AND CUMBERLAND SOUND, GA. AND FLA.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FSO. Contracts.

| | |
|--|--|
| 1880. Five spur jetties, Ft. Clinch. 80, 44. | 1897. Wharf, \$15,361.72. Emplacements for four 8-inch guns, \$126,861. 97, 17, 700, 701, 702. |
| 1883. Raising spur jetties, Ft. Screven. 83, 39. | 1900. Portland cement, 5,000 barrels, \$2.47 per barrel. 00, 919. |
| 1885. Work on spur jetties, Ft. Screven. 85, 37. | |
| Repair of gun platforms, Ft. Pulaski. 85, 36. | |

Part 2, FSO. Engineering Features.

| | |
|---|---|
| Battery for 8-inch guns, details of construction, 98, 708. | Plant, arrangement of. 99, 871, 876. |
| Cement testing. 00, 918. | Portland cement specifications. 00, 918. |
| Concrete mixing. 99, 872. | Settlement of emplacements. 99, 870. |
| Cracks, repairs of. 99, 870; 04, 3724. | Teredo, protection of piles against. 97, 700. |
| Guns, moving and mounting. 99, 877. | Triangulation, base-line measurement for. 05, 3018 (pl.). |
| Magazines, dampness in. 99, 884. | Vegetable growth for holding sand. 99, 879; 00, 921. |
| Materials, constr., itemized cost. 98, 709; 99, 873; 00, 917. | Waterproofing. 99, 871; 00, 918, 920; 04, 3723. |
| Mining casemate, temporary. 98, 714. | Wharf, description and cost. 97, 700. |

Part 3, FSO.

Engineers.

Chief of Engineers. R., 66, 14; 67, 12; 68, 16; 69, 16; 70, 23; 71, 20; 72, 17; 73, 18; 74, 22; 75, 22; 76, 23; 77, 19; 78, 22; 79, 26; 80, 44; 81, 44; 82, 41; 83, 37; 84, 43; 85, 36; 86, 36; 93, 4; 94, 6, 10; 95, 5, 6, 11; 96, 17, 517; 97, 17, 700, 98, 25, 707; 99, 27, 870; 00, 25, 917; 01, 26, 821; 02, 26, 727; 03, 9, 13, 681; 04, 5, 9; 05, 5; 06, 5; 07, 5; 08, 9; 09, 10; 10, 12; 11, 8; 12, 7.

Part 4, FSO.

Board of Engineers.

1879. Plans for modification of Ft. Clinch and for new exterior 12-inch battery. 79, 27.

1882. Constituted to consider and report upon the condition of fortifications, and what number,

if any, could be dispensed with. 82, 423.

1895. Proj. adopted for defense of Savannah H. 93, 4; 95, 5.

Part 5, FSO.

Engineers in Charge.

Maj. F. A. Sears, 1866.

Capt. J. W. Barlow, 1866-70.

Col. Q. A. Gillmore, 1869-86.

Capt. W. Ludlow, 1870.

Capt. J. C. Post, 1883.

Capt. O. M. Carter, 1894-98.

Capt. C. E. Gillette, 1898-1903, 1906. R., 99, 884.

Lt. Col. W. H. H. Benyaurd, 1899.

Capt. C. H. McKinstry, 1899-1900.

Lt. Col. S. B. Quinn, 1903-1906. R., 04, 3723
05, 3016.

Col. D. C. Kingman, 1906.

Part 6, FSO.

Assistants.

Lt. H. Burgess, 1896.

Lt. H. S. Morgan, 1898-99.

Lt. C. S. Bromwell, 1898-99.

Lt. Lytle Brown, 1899-1900.

Lt. E. M. Markham, 1900.

Part 7, FSO—

FORTS AND BATTERIES.

Part 8, FSO. Savannah, Ga.—Fort Pulaski, Cockspur Island, Mouth of Savannah River.

1829. Work begun. 80, 44.

1869. Work begun preparing to mount armament—brick and st. masonry work, repair of gun platforms, taking up and resetting traverse sts. and rails to restore the proper radius and level; thorough repair of the water battery and constr. of 6 wooden platforms for 100-pounder rifles. 69, 16.

1870. Est. cost of approv. modifications, \$53,000; necessary repair of gun platforms to enable guns on hand to be mounted; wooden wharf built. 70, 24.

1871. \$26,500 app. 71, 20.

1872. \$25,000 app. Necessary temporary buildings erected; old gun platforms and breast-height wall of the demilune removed; scarp wall of both faces raised; exterior and superior slopes rearranged and sodded; old terreplein excavated for piling and

grillage for the guns and magazines of the n. face and the center pintle gun at the salient; constr. of the grillage for 2 guns in the ne. angle; driving of piling for the adjacent service magazine; replacing the drawbr. over the demilune ditch; and minor work. 72, 17.

1873. \$50,000 app. Completion of sand filling over grillage, retaining wall in rear of gun platforms and the breast-height wall for 2 gun platforms; scarp wall of the gorge face raised; new pile driver built; grillage laid for the adjacent service magazine to guns 8 and 9, n. face; concrete of magazine and passageway and earth filling around them carried to height of magazine floor; piling for foundation of gun platforms 6 and 7 completed; breast height and retaining wall of foundation commenced, and minor work. 73, 18.

1874. \$20,000 app. Completion of breast-height wall and concrete foundations of gun platforms 8 and 9; masonry of service magazine and passageway between guns 7 and 8; work on service magazines bet. guns 3 and 4, and 5 and 6; excavation for foundation of storage magazine; and work on platforms 4, 5, 6, and 7; parapet constructed and 2 guns of approv. caliber mounted on 8 and 9, and minor work. Summary of work. 74, 23.

1875. \$25,000 app. Parapet on n. and s. faces of demilune nearly completed; all gun platforms laid; work on parados. All doors made and hung and minor work. Summary of work. 75, 23.

1876. Entire demilune nearly completed; retaining wall rebuilt; modification work begun. New piers on n. front raised. 76, 23.

1877-79. Preservation and care. 77, 19; 78, 22; 79, 26.

1882. Repairs to buildings and brs. 82, 41.

1883. Wooden fronts of casemates and magazine roof renewed; repairs to wharf. 83, 33.

1884. Concrete masonry covered with sand up to grade and slopes sodded; dikes repaired. 84, 43

1885. Buildings repaired; contract made for repairing 20 permanent platforms for 8-inch and 10-inch Rodman guns on the barbette of the main work. 85, 36.

1886. Twenty platforms repaired; general repair of work. 86, 36.

1898. \$2,800 allotted. Temporary platform for 8-inch B. L. rifle built of concrete in one of the old forts (Pulaski) and gun and carriage mounted. 98, 710.

\$1,950 allotted. Two 15-inch guns and their carriages lifted out of the emplacements, timber platforms replaced by concrete ones, and guns and carriages remounted. 98, 711.

1899. Gun dismounted and carriage shipped away by the ordnance officer. Balance of \$36.37 transferred. 99, 880.

Part 9, FSO. Savannah, Ga.—Fort Oglethorpe,¹ Savannah River.

1842. Work begun. 80, 44.

1870. Est. cost of approv. modifications, \$16,000. 70, 23.

1872. \$15,000 app. 72, 17.

1873. Modification work begun. Casemate arches reinforced, scarp wall raised, and breast-height wall completed; parade wall partly rebuilt and raised; 2 earthen traverses removed from terreplein and the material used to fill in the parapet. 73, 18.

1874. Parapet and breast-height wall finished, parade wall raised, and concrete foundations for guns 1, 2, 4, and 5 built, and gun platforms laid.

Temporary armament of 5 guns mounted; 10-inch S. B. in positions 1, 2, and 3 and 100-pounder Parrott rifles in positions 4 and 5. 74, 22.

1876. Service traverse magazine built between guns 3 and 4 of barbette battery. 76, 23.

1882. Repairs to brs. and doors. 82, 41.

1883. Wharf repaired and grass cut. 83, 37.

1884. Two casemates fitted up as storage rooms for engineer property and grass on slopes cut. 84, 43.

1885-86. Repairs to br. and buildings. 85, 36; 86, 36.

Part 10, FSO. Savannah, Ga.—Fort Screven, Tybee Island, Mouth of Savannah River.

1872-73. Plans in progress. 72, 18; 73, 19.

1874. Surveys made. 74, 23.

1875. Necessary land acquired and its boundary marked with st. monuments. 75, 23.

1876. Plans completed. 76, 24.

1882. Three jetties built, 590', 750', and 650' long. 82, 42.

1883. \$5,000 allotted from app. for preservation

and repair of fortifications and contract let for increasing height of jetties. 83, 38.

1884. Some work done on jetties. 84, 44.

1885. Addl. work on jetties to be done under contract. 85, 37.

1886. Jetty No. 2 extended. 86, 37.

1893. Project adopted. 93, 4.

¹ This work was called Ft. Jackson until 1884.

Part 11, FSO. Savannah, Ga.—Four Emplacements for 8-inch Rifles, Disappearing Carriages.

1897. \$155,000 allotted. Work begun under contract; 2,864 c. y. excavated. Wharf completed under contract; description. **97**, 700.

1898. \$23,950 allotted. 17,400 c. y. concrete placed; all work completed and 4 guns and carriages mounted. Summary of work. **98**, 709.

1899. \$6,000 allotted. Slopes sodded, traverse circles extended, and field of fire of each gun increased about 10°; settlement repaired. **99**, 870.

Part 12, FSO. Savannah, Ga.—Emplacements for Two 12-inch B. L. Rifles, Barbette Carriages.

1898. \$40,000 allotted. Work begun; excavation for platforms completed; some concrete work. Four telephone booths built. **98**, 709.

1899. \$81,100.19 allotted. Emplacements completed. Description of work. \$80 allotted. A 3-inch artesian well sunk to a depth of 90'. **99**, 876.

Part 13, FSO. Savannah, Ga.—Rapid-fire Emplacement.

1898. \$180.71 allotted. Work begun, some materials purchased, and some excavation made. Notice received that guns could not be procured;

work stopped and materials transferred to other works. **98**, 710.

Part 14, FSO. Savannah, Ga.—Emplacements for Eight 12-inch Mortars.

1899. \$108,132 allotted. Work begun in December, 1898; excavation and nearly all of concrete work completed; description and cost of material and labor. **99**, 871.

1900. \$17,310 allotted. Guns mounted and battery, built of Portland cement, completed and

turned over to the Artillery; cost, \$125,442; summary of work. **00**, 917.

1901. \$4,800 allotted for supplying electric-light plant and placing grounds in good condition; pavement rear of battery repaired; drains lowered; grounds cleaned. **01**, 822.

Part 15, FSO. Savannah, Ga.—Emplacements for Three 4.7-inch R. F. Guns.

1898. \$9,000 allotted. Work begun and practically completed; minor work, including mounting of gun and carriage, to be done. **98**, 710.

1899. \$14,800 allotted. Guns were temporarily mounted at defense of Wassaw Sound, then transferred to a new site in process of constr. Nearly all concrete work and fill completed. **99**, 875. \$5,582 allotted. \$225 transferred to other allotments and

32¢ deposited with Treas. U. S. Parapet sodded, gun and carriage mounted, and the completed battery turned over to the Artillery, **99**, 876.

1900. \$1,585 allotted. Guns mounted and battery completed. Summary of work. **00**, 919.

1901. Battery turned over to the Artillery. **01**, 26.

Part 16, FSO. Savannah Ga.—Site 1—Emplacements for Two 15-pounder R. F. Guns.

1899. \$100 allotted. No work. 99, 878. except setting fixed ironwork for guns. Summary
1900. \$9,430 allotted. Work begun Oct. 14, of work. 00, 920.
1899, and battery completed by Mar. 31, 1900, .

Part 17, FSO. Savannah, Ga.—Site 2—Emplacements for Two 15-pounder R. F. Guns.

1899. \$12,800 allotted for protection of mine , 1900. Battery completed except setting of fixed
fields. 1,800 c. y. sand placed in foundations; also iron work for guns. 00, 921.
30,000 old brick. A 3-inch artesian well, 122' deep, 1901. Unexpended balance of \$82.27 deposited.
driven. Minor work. 99, 880. 01, 824.

Part 18, FSO. Savannah, Ga.—Rapid-fire Emplacement at Wassaw Sound.

1898. \$11,000 allotted. Work begun. Two 1899. Guns dismantled and removed to a
emplacements for 4.72-inch guns mounted and permanent site. \$725 transferred to other allot-
battery completed at end of fiscal year. 98, 711. ments, and \$25.84 trans. to Treas. U. S. 99, 879.

Part 19, FSO. Darien, Ga.—Temporary Defenses.

1898. \$10,000 allotted. Battery at s. end of n. end of Blackbeard Isld.; magazine built with
Sapelo Isld.; magazine built and covered with sand; timber and covered with sand. 98, 712.
parapet and magazine covered with grass sod; small 1899. Batteries damaged by storm; repairs
well driven and supplied with pump. Battery at made. \$988.47 trans. and deposited. 99, 882.

Part 20, FSO. Brunswick, Ga.—Temporary Defenses.

1898. \$12,000 allotted. Temporary batteries n. end of Blackbeard Isld.; and 1
built at s. end of St. Simons Isld., and 1 e. of it; at St. Simons Isld. Batteries damaged by storm.
n. end of Jekyll Isld., and 1 at s. end of Jekyll Isld. 99, 882.
98, 712.

Part 21, FSO. Cumberland Sound—Fort Clinch (Amelia Island, Fla.).

1847. Work begun. 80, 44. height wall on 3 fronts laid, terreplein formed,
1866. Curtain galleries connecting the parade graded and seeded; work on exterior wall of para-
with the terreplein of the chemin-de-ronde constr., dos, drainage, quarters, and minor work. 67, 12.
excavation for them filled in, and the ramparts 1868. Main sewer completed; drawbr. gate-
made ready to receive the barbette gun platforms. way nearly finished; completion of masonry of
Work on exterior parapet wall and filling of the those gun platforms which had been begun. Work
glacis. 66, 14. suspended; placed in charge of a keeper. 68, 16.
1867. Four platforms, ne. and nw. curtains, 1869. Preservation and care. 69, 16.
completed; 4 other platforms on the ne. and 6 on 1870. Modification plans; est. cost, \$106,000.
the nw. nearly completed; foundations of breast- 70, 24. 77, 20.

1871-72-77. Preservation and care. 71, 20; 72, 18; 77, 20.

1879. Modification plans necessary for the reception of proposed armament of modern guns, and for a new exterior battery, completed. 79, 27.

1880. Jetties to be built under contract. 80, 45.

1881. Work on jetties and on roofing over the 5-tower bastions; repair of quarters. 81, 45.

1882. Five jetties completed and minor work. 82, 42.

1883. Jetties extended and 2 new spur jetties built. 83, 39.

1884. Break'r or protection of wood to preserve the engineer officers' quarters at Old Fernandina built and repairs made to buildings. 84, 44.

1885. Repairs made to 4 permanent front pintle platforms for 15-inch Rodman guns, and to

18 permanent front pintle platforms for 8-inch or 10-inch Rodman guns, or corresponding rifles; doorways leading to bastions repaired; Roads across parade cleared of brush, etc., and beach protected with compressed brush mattress work loaded with st. 85, 37.

1886. General repair of buildings, etc. Old jetties repaired and two new ones built. 86, 37.

1898. \$1,200 allotted. Temporary parapet of sandbags and sand fill constr. in front of two 15-inch Rodman guns. Platform built back of guns and crane built for shot hoist. Ammunition received; 30 shells shipped away. 98, 713.

1899. \$137.03 returned to appropriation. 99, 886.

1901. \$500 trans. from app. 01, 825.

1902. Balance of \$679.58 deposited. 02, 728.

Part 22, FSO. Cumberland Sound—Emplacement for 8-inch B. L. Rifle.

1898. \$4,500 allotted. Work begun on mounting 8-inch B. L. rifle on a modified 15-inch S. B. carriage; old pintle st. removed and a retaining wall of brick concrete built back of the emplacement; 1,500 c. y. sand placed in parapet. 98, 713.

1899. \$2,825 allotted. Platform and sand fill completed; 15-inch carriage altered; gun mounted; and ammunition crane erected; work completed. \$228.91 trans. from app. 99, 887.

Part 23, FSO. Cumberland Sound—Temporary Batteries.

1898. \$1,600 allotted. Moat of the old work filled in; sand causeway built across moat at the sally port and cisterns baled out and filled with

sand; artesian well sunk 386'; minor work. 98, 713.

1899. \$287.41 returned to app. 99, 886.

Part 24, FSO. Fernandina, Fla.—Temporary Batteries.

1898. \$2,000 allotted. Battery built at the n. end of Little Cumberland Isld. 98, 714.

1899. \$1,376.45 returned to Treas. U. S. 99, 833.

Part 25, FSO.

Miscellaneous.

1899. \$313.12 allotted. 99, 880.

Removing material from temporary batteries.

1899. \$500 allotted for cleaning guns, painting carriages, and removing ammunition and appli-

ances from Brunswick and Darien defenses. Work completed. Balance of \$61.47 transferred. 99, 883

Bracketed galleries to connect gun emplacements. 1901. \$1,600 allotted. Work of installation completed. 01, 822.

Part 26, FSO. Preservation and Repair.

1898. Cumberland Sound—\$500 allotted for placing armament in serviceable order, repairing magazines, and for minor work. 98, 715. Savannah H.—\$500 allotted to imp. the sanitary condition of one of the forts. 98, 716.

1899. Savannah H.—\$1,050 allotted; ditches cleaned and the sand beach in front of batteries seeded. 99, 879. \$751.25 received. Parrott guns and carriages cleaned and inverted in casemates; wharf repaired; minor work. 99, 881. Cumberland Sound—\$1,175 allotted for repairs to buildings, etc. 99, 887.

1900. \$7,545 allotted. 12-inch emplacement—artesian well sunk 155'. Brush placed on sand to hold it down, and minor repairs. 8-inch emplacement—cracks closed; ironwork painted; machinery repaired; minor work. 6-inch battery—steps leveled; ceiling beams painted; minor work. 4.7-

inch battery—ceiling beams painted; sand areas covered with stable manure and seeded; minor work on electrical apparatus. 99, 920. Site 2—\$775 allotted; cleaning ditches and moat; electrical apparatus and torpedo material; minor work. \$200 trans. from app. 00, 922.

1901. \$4,600 allotted. Brush and manure spread over blowing sand areas; drains repaired; mortar battery overhauled and cleaned; 350 c. y. sand removed; minor repairs made. Poor condition of wharf described; cost of repair est. \$16,000. 01, 822. \$400 for decreasing dampness in mining casemate. 01, 824.

1902. \$1,492.77 allotted; covering blowing sand, and minor repairs. 02, 728. Drain holes cut in floors of magazines and storerooms of 3-inch R. F. battery. 02, 728.

Part 27, FSO. Range and Position Finders—Savannah, Ga.

1899. \$50 allotted. \$26.50 returned. One range finder installed. 99, 878.

Part 28, FSO. Submarine Mines.

1894. Savannah, Ga.—Mining casemate begun. 94, 6, 10.

1895. Mining casemate completed. 95, 11.

1898. \$200 allotted—inverted arches below 2 adjacent casemates of the same fort cleaned and converted into tanks. 98, 711. \$2,500 allotted—temporary operating room built in sand dunes and shrubbery. \$4,500 allotted for purchasing explosives and planting mines; mines planted. 98, 714.

1899. Savannah, Ga.—\$650 allotted for cable tank. 99, 881. \$500 allotted for removing mine material, cleaning, and storing same. 99, 881. \$750 allotted: \$320.10 deposited with Treas. U. S.—

temporary mining casemate built; minor work. Two mines lost. 99, 882. Cumberland Sound—\$2,000 allotted for planting and removing mines and caring for the torpedo material. All mines removed by exploding them. \$559.46 restored to appro. 99, 887.

1900. All torpedo material cleaned and stored. 00, 921, 922.

1901. \$9,000 allotted for a mining casemate; work completed. \$83.97 returned to appro. 01, 823. \$4,000 allotted for torpedo storehouse; bids too high; funds returned to Treas. 01, 823. \$500 allotted for fitting up casemate with operating tables, electric wiring, etc.; work completed. 01, 824.

Part 29, FSO. Supplies for Seacoast Defenses.

1901. \$300 allotted. 01, 825.

1902. \$300 allotted. Supplies furnished. 02,

FSP. EASTERN AND SOUTHERN FLORIDA FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

(See Nos. 29-47, on p. 1962 of this index.)

Part 1, FSP.

Contracts.¹

1897. Emplacements for four 10-inch guns, two 8-inch guns, and eight 12-inch mortars, \$378,992 97, 17, 713.

1898. Portland cement, \$2.70 per barrel;

Rosendale cement, \$1.35 per barrel; silica sand, \$1.66 per c. y.; coral sand, 70¢ per c. y.; broken brick (including crushing and hauling), \$1.93½ per c. y. 99, 894.

Part 2, FSP.

Engineering Features.

Brick, broken, for concrete. 99, 892, 894.
Cement, tests of Rosendale. 97, 706.
Concrete made with broken brick in place of broken st. 99, 892, 894.

Condensation. No trouble from, in "this" district. 03, 2413. Preventing condensation. 04, 3726.

Cracks in battery, methods of filling. 99, 897.

Crane, description of traveling. 99, 892.

Dampproofing, shell and powder magazines. 03, 2413 (pl.).

Emplacements, itemized cost of four 10-inch, two 8-inch, and eight 12-inch mortars. 97, 713.

Leakage, preventing (and cause). 03, 2413.

Percolation, preventing. 03, 2413; 04, 3725.

Plant, constr., description of. 97, 704.

Waterproofing methods. 99, 897.

¹ See Leach contract, p. 1829 of this index.

Part 3, FSP.

Engineers.

Chief of Engineers. **R.**, 66, 15; 67, 13; 68, 533; 92, 15, 471; 96, 18; 97, 17, 702; 98, 26, 71

75, 23; 76, 24; 77, 20; 78, 23; 79, 27; 80, 45; 81, 5, 10; 05, 5; 06, 5; 07, 5, 9; 08, 9, 14; 09, 15; 1
45; 82, 43; 83, 39; 84, 45; 85, 38; 86, 38; 91, 11, 12, 16; 11, 8, 13; 12, 7, 12.

Part 4, FSP.

Boards of Engineers.

1882. Constituted to consider and report upon the condition of fortifications, and what number if any, could be dispensed with. **82**, 423.

Part 5, FSP.

Engineers in Charge.

Maj. W. McFarland, 1866-68.
Col. J. H. Simpson, 1868-69.
Lt. Col. C. E. Blunt, 1869-74.
Lt. J. B. Quinn, 1870.
Col. Q. A. Gillmore, 1871-84.
Maj. J. A. Smith, 1874-77.
Capt. W. H. Heuer, 1877-84.
Capt. J. C. Post, 1883.
Capt. T. Turtle, 1884-85.

Capt. W. T. Rossell, 1885-86.
Capt. W. M. Black, 1886-92.
Maj. J. C. Mallery, 1892.
Maj. T. H. Handbury, 1896.
Lt. Col. W. H. H. Benyaurd, 1896-99.
Capt. C. H. McKinstry, 1898-1901.
Capt. T. H. Rees, 1900-02.
Lt. Edmund M. Rhett, 1902.
Capt. H. Deakyn, 1902.

Part 6, FSP.

Assistants.

Lt. D. D. B. Gaillard, 1891-92.
Lt. J. J. Meyler, 1896-97.
Lt. R. P. Johnson, 1897-99.

Capt. W. W. Harts, 1898-99.
Lt. E. M. Markham, 1899-1901.
Lt. E. M. Rhett, 1901.

Part 7, FSP—

FORTS AND BATTERIES.

Part 8, FSP. St. Johns River, Fla.—Temporary Battery.

1898. \$13,160 allotted. Consent of owners of land obtained; work begun in April on a temporary battery to mount 5-inch B. L. siege rifles and 7-inch B. L. siege howitzers; built of 10 by 10 inch timber in revet., and magazine walls with sand embank-

ment. Two magazines in traverses provided. Gun and howitzers received and mounted in May. **98**, 716.

1899. \$100 allotted. Work completed. **99**, 888.

Part 9, FSP. St. Johns River, Fla.—Emplacements for Two 8-inch B. L. Rifles on Strengthened 15-inch Barbette Carriages.

1898. \$29,000 allotted. Consent obtained from owners of the land. Work begun, excavation completed, and foundations for the platforms prepared. **98, 718.**

1899. \$3,500 allotted. Concrete work begun, platforms completed, carriage altered, and guns mounted. **99, 889.**

Part 10, FSP. East Coast of Florida—Fort Marion.

1756. Fort essentially completed. First named Fort San Augustine; later, Fort St. Mark; built by the Spaniards. Its constr. extended through a period of more than 100 years. **77, 20.**

1873. Repair of hrs. and arch of a large vault. **73, 19.**

1875. Fort repaired and certain Indian prisoners or hostages placed in it. **75, 23.**

1876. Repair of fort continued. **76, 24.**

1877. History of fort; built of coquina—a natural shell-concrete found in the vicinity. **77, 20.**

1878. Modification proj. still under consideration. **78, 23.**

1883. Repairs made so that French officers could occupy the fort for the purpose of observing the transit of Venus. **83, 40.**

1884. \$5,000 app. **84, 45.**

1885. Picket fence built around reservation. **85, 38.**

1886. Repair of sea wall and breast-height wall; bastion towers renewed, interior wall refaced, ramp rebuilt; minor repairs. **86, 38.**

1891. \$15,000 app. 342.5' of sea wall built, terreplein paved and drained, communications restored and renewed, ditch cleaned and graded, glacis planes restored; minor work. **91, 11, 533.**

1892. Entire terreplein coated with paraffin and petroleum, 260' of covered drain laid, pavement leveled, and trees planted. **92, 15.**

1899. \$200 allotted for minor repairs. Fort converted into a military prison in July, 1898. Some repairs made by the Quartermaster's Department. **99, 888.**

1900. Shrubbbery cut down and removed and repair of masonry work of the "City Gates." **00, 923.**

Part 11, FSP. St. Francis Barracks.

1897. \$365 allotted for placing platform of one 8-inch converted rifle, mounted for target practice; work completed. **97, 702.**

1898. Eight-inch rifle dismounted and moved to a temporary battery. **98, 716.**

Part 12, FSP. St. Augustine, Fla.—Temporary Battery.

1898. \$12,460 allotted. Proj. approv. for timberrevet. walls and sand embankment, with 2 magazines in traverses, also built of timber and covered with sand. **98, 717.**

1899. Battery completed and turned over to troops. **99, 888.**

Part 13, FSP. Miami, Fla.—Temporary Battery.

1898. \$12,640 allotted. Consent obtained from owners of the land; work begun April 13, and by May 12 the battery was practically completed. **98, 717.**

1899. \$470 allotted. Armament and all other property removed and the battery abandoned. **99, 890.**

Part 14, FSP. Key West, Fla.—Fort Taylor and Batteries.

1844. Main work begun. 80, 45.

1866. Repair of work damaged by hurricane of Oct. 22, 1865. Wrecks removed, break'rs rebuilt and adjusted, 2 new ones built, sea wall repaired, etc.; flagging laid in most of the casemates of the advanced batteries of towers 1 and 2; minor work. 66, 15.

1867. Work on sea walls, glacis of tower 1; minor work. 67, 13.

1868. S. end of covered face filled in with sand. Work on sea wall, ditch, and embankment. 68, 17.

1870. Modification plans being prepared. Pintles placed on barbette tier. 70, 24.

1871. Modification plans approv.—imp. of main work; completion of the advanced towers; constr. of 2 exterior barbette batteries for heavy guns with magazine traverses. Necessary repair of buildings. 71, 21.

1872. \$42,500 app. Modification work begun, scarp wall of 4 magazines strengthened, barbette tier modified by removal of 18 platforms for 10-inch guns, and placing two 15-inch gun platforms and 3 sand traverses; work on embankments; casemate foundations for platforms and the platforms themselves laid; minor work. 72, 18.

1873. \$50,000 app. S. end of n. battery completed and two 15-inch guns mounted. Work on salient and adjoining faces. Breast-height wall for 4 guns built and minor work. Summary of work. 73, 20.

1874. \$20,000 app. Work on sea walls. Sand embankment and parapet; minor work. 74, 23.

1875. \$15,000 app. 587 c. y. masonry sea wall built and 11,574 c. y. sand embanked in s. battery. Six large masonry shot beds built in rear of casemate. Buildings repaired and minor work. 75, 23.

1876. Sea wall repaired and minor repairs of the works damaged by hurricane of 1875. Summary of work. 76, 24.

1877. General repairs, care, and preservation. 77, 20; 78, 23; 79, 27; 80, 45.

1881. Br. 720' long, connecting the islds. of Key West with the fort, completed, and care and preservation. 81, 45.

1885. Cisterns, drains, and buildings cleaned and repaired; minor work. 85, 38.

1886. Five brick ventilators built, cisterns and buildings repaired, 3 brs. built over road crossings; minor work. 86, 39.

Part 15, FSP. Key West, Fla.—Emplacements for Two 12-inch B. L. Rifles on Barbette Carriages.

1898. \$40,000 allotted. Removing part of old fort. 98, 724.

1899. \$73,000 allotted. 9,166 c. y. of concrete composed of broken brick instead of broken st., and a number of 30-pounder, 100-pounder, and 300-pounder Parrotts, 8-inch columbiads, and 10-inch Rodmans (part of armament of old fort)

embedded in the concrete to serve the same purposes as pieces of random st. Two guns, and carriages received and base rings set. 99, 892.

1900. Trolley beams placed, doors hung, and battery turned over to the care of troops on Feb. 3, 1900. Guns and carriages on hand, to be mounted by the troops. 00, 926.

Part 16, FSP. Key West, Fla.—Emplacements for Four 10-inch Guns on Disappearing Carriages, Model 1896; Two 8-inch Guns on Disappearing Carriages, Model 1894, and Eight 12-inch Rifled Mortars.

1897. \$412,225 allotted. Work begun, under contract, on excavation. Description of plant. 97, 703.

1898. \$6,000 allotted. Concrete work completed, ironwork nearly completed (itemized quantity of work to date). \$9,300 allotted for moving and mounting guns and carriages. Three 10-inch and two 8-inch guns and carriages and 6 mortar carriages mounted. 98, 721, 722.

1899. \$4,000 allotted for work on emplacement and \$900 allotted for moving and mounting guns and carriages. One 10-inch gun and carriage, 2 mortar carriages, and 8 mortars mounted, completing the mounting of armament. Some concrete work, ironwork, and sand filling to be done. Items of work accepted and paid for to Jan. 30, 1899. 99, 891, 896.

1900. Ironwork completed. Some concrete work and sand filling to be done. Electrical firing apparatus installed in mortar battery. \$575 allotted for purchase and installing 12 locking devices for ammunition hoists. Work done by hired labor. \$1,800 allotted for providing communicating galleries between emplacements. Plans prepared. Work delayed because of yellow fever. 00, 925.

1901. New bid for completing work and contract awarded; small amount of sand fill in roadway; necessary plant installed; galleries completed. 01, 826, 827.

1902. Two of the three storehouses completed; work on gun battery practically completed. 02, 730. Repair of leaks. 02, 730. Completion of rear communications of 8-inch and 10-inch batteries. 02, 730.

Part 17, FSP. Key West, Fla.—Emplacements for Two 4.7-inch R. F. Guns.

1898. \$10,000 allotted. Two temporary platforms built and guns mounted. Work begun on permanent emplacements. 98, 724.

1899. \$8,000 allotted. Work on permanent emplacements begun. 1,415 c. y. concrete, com-

posed of broken brick instead of broken st., and 3,478 c. y. sand placed. Emplacement completed. Itemized cost of work. 99, 894.

1900. Emplacements turned over to troops. 00, 926.

Part 18, FSP. Key West, Fla.—Four Emplacements for 15-pounder R. F. Guns.

1899. \$22,000 allotted. Two emplacements completed, awaiting arrival of gun carriages. 850 c. y. concrete, composed of broken brick instead of broken st., and 2,050 c. y. sand placed. On the other 2 emplacements work was delayed somewhat, only 506 c. y. concrete, similar to that above, placed. 99, 894.

1900. \$750 allotted. 627 c. y. of concrete placed. No further work can be done until receipt of the gun mounts. 00, 926.

1901. Guns mounted and emplacements completed; turned over to artillery Apr. 23, 1901. 01, 827.

Part 19, FSP. Key West, Fla.—Two Emplacements for 15-pounder R. F. Guns.

1900. \$13,000 allotted. Plans approv.; no work. 00, 927.

1901. Proj. modified to provide for 1 emplacement only, and \$6,000 withdrawn; emplacement

completed and gun mounted; turned over to Artillery Apr. 23, 1901. 01, 828.

Part 20, FSP. Key West, Fla.—Emplacements for Right Flank 15-pounder R. F. Gun.

1901. \$9,900 allotted. Work begun April, 1901; emplacement nearly completed and ready for base casting of gun mount. 01, 828.

1902. Work completed. 02, 731.

Part 21, FSP. Dry Tortugas, Fla.—Fort Jefferson, Garden Key.

1846. Work begun. 80, 46.

1866. Quarters repaired; walls of large detached magazine raised 13½' and of small magazine 7½'; 80,000 c. f. of sand removed from ditch and embanked; minor work. 66, 15.

1867. Quarters nearly completed; 16 barbette platforms received with the new pattern pintle. 67, 13.

1868. Quarters, except roofing with galvanized iron, completed; ditch on face 3 excavated. 68, 17.

1869. Work on officers' quarters and soldiers' barracks; excavating sand in ditch; minor work. 69, 17.

1870. Modified plans being prepared; work on quarters; twenty 4-inch pintles set on barbette tier and all heavy modern guns on hand, with barbette carriages, mounted. 70, 24.

1871. \$42,500 app. 71, 21.

1872. \$42,500 app. Work on sea wall and ditch; modified plans approv. and work begun; 4 curtain magazines strengthened; 8 barbette magazines

modified; six 15-inch gun platforms begun and completed and 3 center-pintle masonry platforms for 300-pounder Parrott guns built. 72, 19.

1873. \$50,000 app. Sea wall around fort completed, circulation of ditch fully restored; masonry modification of barbette traverses finished, and balconies in their rear made serviceable; six 15-inch guns and three 300-pounder Parrott guns mounted. 73, 20.

1874. Repairs of works damaged by hurricane in October; work on embankment and quarters. 74, 24.

1875. Four-inch pintles placed in 8 platforms; care and preservation. 75, 24.

1876-84. Care and preservation 76, 25; 77, 20; 78, 23; 79, 27; 80, 46; 81, 46; 82, 44; 83, 41; 84, 45.

1885. Repair of sewers and quarters. 85, 39.

1886. Building walks, painting casemates, buildings, etc. 86, 39.

Part 22, FSP. New Fort at Tortugas, Fla.

1866. Plans to be considered by the BE. 66, 15.

1867. Best combination of materials for uncovered scarps not decided. 67, 13; 68, 17.

1869. Commencement to be deferred till a suitable proj. for the position be prepared. 69, 17.

Part 23, FSP. Miscellaneous.

Electric light plant—Key West, Fla.—1899. \$18,500 allotted. Work begun on 2 power stations and 2 separate light plants; stations completed, 1 dynamo installed, and wiring in progress. 99, 895.

1900. \$800 allotted. Work completed and turned over to the care of troops on Mar. 12, 1900. 00, 927.

Pumping plant for mortar battery. 1902. To prevent accumulation of waters in mortar pits, pumping plant installed. 02, 730.

Civilian electricians. 1902. \$1,200 allotted for pay. 02, 732.

Part 24, FSP. Preservation and Repair.

1897. Key West—\$3,701.12 allotted. Repair of quarters and bns. 97, 707.

1898. Key West—\$5,950 allotted. Repair of bns., buildings, and 2 temporary platforms for 15-inch guns built of timber and concrete; and guns mounted. Two unserviceable platforms at north battery torn out and guns, still mounted on carriages, moved to the rear. Three platforms of concrete and granite pintle blocks, for 8-inch converted rifles, built on site of the old platforms, and guns mounted. 98, 724.

1899. Fort Marion, Fla.—\$200 allotted for minor repairs. 99, 888. St. Johns River—\$2,350 allotted for care of torpedo material, R.R. track, and care of property. 99, 889. \$875 allotted for repair of leaks in gun and mortar batteries; methods and results of waterproofing. 99, 896. \$3,000 allotted for a roadway. Work on sand fill. 99, 897. \$700 allotted for repairs to bns. and buildings. \$400 allotted for storage of torpedo material; work completed. 99, 897.

1900. St. Johns River—\$1,700 allotted for cleaning and storing torpedo material and for watchman's services. 00, 923. Roadway—1,000 c. y. of brick crushed and 250 blocks of concrete curbing, each 4' long, made; necessary fill incomplete. 00, 927. \$100 allotted for supplies for care and preservation of electric-light plant; supplies purchased and turned over to the care of troops. 00, 929.

1901. Fort Marion, Fla.—locks for casemate doors. 01, 826. St. Johns R., Fla.—\$1,020 allotted. Torpedo material overhauled, cleaned, and stored away. 01, 826. Key West, Fla.—\$2,305 allotted for misc. repairs. 01, 828.

1902. Fort Marion—plastering walls and ceiling of casemate 4. 02, 729. St. Johns R.—inspection mining material. 02, 729. Key West—repairs, necessary painting, inspections, etc. 02, 732.

Part 25, FSP. Range and Position Finders.

1899. Key West—\$20 allotted. Five-inch cast-iron pipes filled with cement were set up as stations for Lewis depression range finders, emergency (B) type. Base rings for the instruments set in mortar on top of these pipes. 99, 896.

1901. \$9,850 allotted for battery-commander's

station; no work done and contract voided. 01, 828.

1902. Station completed and turned over, 02, 732. \$2,200 allotted for observation stations, mortar battery; work practically completed. 02, 730, 731.

Part 26, FSP.

Sites.

Key West—\$4,600 allotted and 1 site, Livermore estate, bought. \$100 allotted for incidental expenses connected with acquirement of another site for which condemnation proceedings were instituted. 97, 707. \$19,800 allotted, and site, for which proceeding had been instituted, purchased. 98, 723.

East coast of Florida—\$250 allotted for survey of

site needed for fortification purposes. 99, 890. \$1,500 allotted for making a topographical survey; completed. 00, 924.

Proceedings in progress for acquisition of 117.7 acres land. 01, 826.

1902. Deed for 117.7 acres received, June 5, 1902; allotment of \$50 made. 02, 729.

Part 27, FSP.

Submarine Mines.

1897. Key West, Fla.—\$10,000 allotted for mining casemate and cable gallery. Proj. Work begun and the cable gallery completed. Table showing results of Rosendale cement tests. 97, 705.

1898. St. Johns R., Fla.—\$8,000 allotted for planting mines, material purchased, and mines made ready for planting. 98, 720. Key West—\$22,000 allotted for purchasing material and planting mines and operating a 30-inch searchlight. Mines planted and searchlight operated nightly. 98, 725.

1899. St. Johns R., Fla.—mines removed in

September, 1898, by exploding them; cable and other material stored. 1,800 pounds of unused dynamite sold for \$216 to the dealer who furnished it. 99, 889. Key West—\$4,800 allotted for a cable tank, with R.R. track leading to break'r; work about completed. \$200 allotted for fitting up casemates for the storage of torpedo material; not completed. 99, 895. \$682 allotted for operating searchlights: as all mines were removed by explosion, the money was not used. 99, 897.

1900. \$3,105 allotted for general repair of plant, painting ironwork, etc., and caring for torpedo material. 00, 928.

Part 28, FSP. Supplies for Coast Defenses.

1900. \$600 allotted for such supplies as might be called for by requisition of the Artillery; duly approv. by the Chief of Engineers. 00, 929.

1901. Key West—three shelters for hygrome-

ters and thermometers purchased and set up. 01, 829.

1902. Supplies purchased and issued. 02, 733.

FGP. WESTERN FLORIDA FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Chief of Engineers. R., 98, 718; 99, 29, 899; (See Part 3, FGP.).
00, 26, 929; 01, 27; 02, 28.

Part 32, FGP.**Engineers in Charge.**

Lt. Col. W. H. H. Benyaurd, 1898-99. Lt. E. M. Rhett, 1902.
Capt. H. Jervay, 1899-1900. Capt. H. Deakyne, 1902.
Capt. T. H. Rees, 1900-02.

Part 33, FGP.**Assistants.**

Lt. R. P. Johnston, 1898-99. Lt. F. Boggs, jr., 1899-1900.
Capt. W. W. Harts, 1898-99. Lt. E. M. Rhett, 1901-02.

Part 34, FGP—

FORTS AND BATTERIES.

Part 35, FGP.

Temporary Batteries.

1898. \$14,900 allotted. Work begun April 26; both completed by June 30, constr. of timber and sand; guns and howitzers mounted in position June 1. 98, 718.

1899. One 5-inch gun dismantled and turned over to Gen. Rodgers, U. S. V. In January, 1899, work turned over to the troops. 99, 899.

Part 36, FGP. Emplacements for Two 8-inch B. L. Rifles on Strengthened 15-inch Barbette Carriages.

1898. \$29,500 allotted. Plans approv. and material ordered. 98, 719.

1899. \$4,000 allotted. Work begun in July, 1898, and completed in December, 1898, and guns mounted. Battery turned over to the troops.

Entire cost, \$32,503.04. Description of work done. 99, 899.

1900. Guns dismantled and mounted on disappearing carriages at Battery McIntosh. 00, 933.

Part 37, FGP. Emplacement for Two 6-inch R. F. Guns.

1898. \$29,600 allotted. Plans approv. and material purchased. 98, 719.

1899. \$5,000 allotted. Work begun in July

and completed December, 1898. Guns mounted and battery turned over to the troops. Ammunition service provided. Description of work. 99, 900.

Part 38, FGP. Emplacement for Eight 12-inch Mortars.

1899. \$150,000 allotted. Work begun; dock built; all gun beds completed and anchor bolts set. Two mortar carriages received. Description and cost of work to date. 99, 905.

1900. \$5,651.96 allotted. All emplacements completed; 8 carriages mounted and battery turned

over to the Artillery command. Electric-light plant installed; description of plant. Itemized cost of labor and materials. Summary of work. 00, 930.

1901. \$1,100 allotted for clearing up ground; useless buildings torn down. 01, 830.

Part 39, FGP. Two Emplacements for 8-inch Guns on Disappearing Carriages.

1899. \$97,500 allotted. Work begun; dock built; necessary buildings erected; 1,518 c. y concrete placed; shell used in concrete masonry. Description of work, with tracing showing arrangement of plant. 99, 908.

1900. \$21,449.53 allotted. Battery completed

and turned over to the Artillery command; one 8-inch carriage received and mounted and the other carriage received and turned over to the troops for mounting. Electric-light plant installed. Description. Details of work, with cost. 00, 933.

Part 40, FGP. Emplacements for Three 15-pounder R. F. Guns.

1901. \$15,000 allotted. Emplacements completed with exception of gun platforms; details of work given. 01, 830.

1902. \$440 allotted. Emplacements and platforms completed. 02, 734.

Part 41, FGP. Emplacement for One 15-pounder R. F. Gun.

1901. \$8,400 allotted. Line for railway graded; repairs to plant; preparation for constr. made 01, 830.
1902. \$1,800 allotted. Constr. completed except mounts. 02, 733.

Part 42, FGP. Emplacements for Two 15-pounder R. F. Guns.

1901. \$17,100 allotted. Plant erected; preparations for commencing work made. 01, 831.
1902. Work completed except mounts. 02, 733.

Part 43, FGP. Miscellaneous.

1902. \$750 allotted for pay of electrician. 02, 735.

Part 44, FGP. Preservation and Repair.

1900. \$1,227 allotted for inspecting, cleaning, moving, and protecting submarine mine material and repairing dock. All the work completed. 00, 936.
1901. \$375 allotted. Leaks in ceiling of dynamo room repaired. 01, 831. \$15 allotted for boxes to store electrical instruments; mining material overhauled and cleaned. 01, 832.
1902. Stopping leaks, placing sills in doorways, and erecting pedestal for Rafferty range finder. 02, 734.

Part 45, FGP. Sea Walls and Embankments.

1902. \$2,400 allotted for building concrete wall to prevent erosion in front of 6-inch battery. 02, 734.

Part 46, FGP. Submarine Mines.

1898. \$16,300 allotted for purchase of explosives, laying mines, and patrolling mine fields. No mines planted. 98, 720.
1899. \$4 allotted. Storage shed built and materials stored. Two t. dynamite, purchased when orders for planting mines were first received, burned. 99, 903. \$5,725 allotted for cable tank, which was completed except the traveling crane. Description of tank, with cost. 99, 904.
1900. Cable tank traveling crane installed. 00, 929. All material inspected, cleaned, and stored. 00, 936.

Part 47, FGP. Supplies for Seacoast Defenses.

1901. Shelters for hygrometers and thermometers purchased and turned over to post commander. 01, 831.
1902. Requisitions filled. 02, 735.

FGQ. ALABAMA-FLORIDA FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Maj. C. B. Reese, 1871.
Col. J. H. Simpson, 1871-73.
Lt. Col. W. F. Reynolds, 1873.

Maj. A. N. Damrell, 1873-85.
Capt. R. L. Hoxie, 1885-86.
Capt. P. M. Price, 1894.
Maj. F. A. Mahan, 1894-99.
Capt. C. A. F. Flagler, 1899-1901.
Capt. W. V. Judson, 1901-02.
Lt. R. R. Raymond, 1902.

Part 6, FGQ.

Assistants.

Lt. C. Keller, 1895.
Lt. C. P. Echols, 1895-96.
Lt. J. P. Jervay, 1896-99. R., 97, 714.

Lt. L. H. Rand, 1899-1901.
Lt. G. R. Lukesh, 1901.

Part 7, FGQ—

FORTS AND BATTERIES.

Part 8, FGQ.

Fort Pickens.

1828. Work begun. 80, 46.

1866. One front pintle barbetta gun platform for modern armament and 1 for projectile built; repairs and modifications of the parapet of w. bastion. 66, 15.

1868. Wharf rebuilt; drains, road, and pavement of terreplein repaired; removing sand and traverses in s. bastion and uncovering casemate arches of sw. bastion for foundation of 15-inch gun platform. 68, 17.

1869. Road completed; gun platform in w. bastion prepared and gun mounted; work on platform for a large gun in sw. bastion; wooden platforms for projectiles built; general repairs and minor work. 69, 17.

1870. Modification plans being prepared. 70, 25.

1871. General repairs of wharf, storehouses, etc. 71, 21.

1872. Magazine doors repaired. 72, 19.

1873. Care and preservation. 73, 20.

1874. Repair of cisterns, magazine doors, and buildings; four 4-inch front pintle masonry platforms with low traverse sts. and 2 of the same with high traverse sts. built for ordnance on hand, and 2 more with low traverse sts. nearly completed; minor work. 74, 24.

1875. \$25,000 app. 75, 24.

1876. Necessary buildings repaired and new ones built; R.R. track laid; cars and derricks made; modifications of bastion C nearly completed, and work begun on bastion D. 76, 25.

1877. Bastion D completed; repairs to terreplein, stairs, bermes, etc. 77, 20.

1878. Repair of wharf and buildings. 78, 24; 79, 28.

1880. History of fort; care and preservation. 80, 46; 83, 41; 86, 40.

Part 9, FGQ.

Fort McRee.

1836. Work begun. **80, 47.**
1873. Care and preservation. **73, 20.**
1874. Site undermined by action of sea; scarp fallen, leaving casemates open. Modification plans for barbette batteries for heavy guns and a mortar battery to take the place of the old work. **74, 25.**

1875. Modification plans approv. for 4 batteries for heavy guns, and 1 mortar battery. **75, 24.**
1878. All property of value transferred to Fort Pickens. **78, 24.**
1880. History of fort. **80, 47.**

Part 10, FGQ. Fort Barrancas and Redoubt, Including the Old Spanish Fort.

1839. Work begun. **80, 46.**
1866. Condition of work. **66, 15.**
1868. Breast-height walls of the main work and of the redoubt repaired and parapets regraded and sodded; necessary repairs of foundation of sw. angle of counterscarp wall; s. extremity of glacis and ditch graded and sodded; gates made and hung, and work on fence around reservation begun. **68, 17.**
1869. Fence around work completed; brs. repaired; grating and ventilators placed in magazines; and minor work. **69, 17.**

1870. Modification plans being prepared. **70, 21.**
1873. Magazine doors built. **73, 20.**
1874. Preparations for constr. platforms in progress. **74, 25.**
1875-78. Care and preservation. **75, 24; 76, 25; 77, 21; 78, 24.**
1880. History of fort. **80, 46.**
1881-82. Work on fence around fort and redoubt. **81, 47; 82, 45.**
1883-86. Care and preservation. **83, 41; 84, 47; 85, 40; 86, 40.**

Part 11, FGQ. Battery for Four 10-inch Guns.

1895. \$100,000 allotted. Survey made. **95, 11.**
1896. \$60,000 allotted. Work begun, wharf built, and constr. plant in progress. Description of wharf. **96, 518.**
1897. \$31,500 allotted. Concreting begun Nov. 1, 1896, and completed Mar. 29, 1897. Sand filling completed. Battery practically completed, ready for armament. Summary of work with itemized cost. **97, 714.**
1898. Electric-light plant installed, 4 guns and carriages mounted, and battery turned over to the troops. Itemized cost of work. **98, 726.**
1899. Road built along rear of battery. **99, 914.**

1900. \$2,300 allotted for imp. the cramped condition of the electric-light plant, involving the constr. of 2 addl. rooms, removing the sand covering, and imp. the ventilation. Work begun. **00, 939.**
1901. Work on extension of room completed; 2 new chambers built, 1 for generator and 1 for storage battery, leaving old room for boiler. **01, 832.** \$1,600 allotted for connecting 4 loading platforms by means of concrete-steel gallery. **01, 833.**
1902. Work on gallery completed. **02, 735.**

Part 12, FGQ. Mortar Battery for Eight 12-inch Mortars.

1898. \$121,000 allotted. Work begun in August, 1897. Concrete work begun in February and completed on May 31, 1898. 9,700 c. y. placed. Description of constr. plant, materials, and actual work, with itemized cost. Three carriages in position. **98, 726.**
1899. \$2,250 allotted. Battery completed: mortar carriages mounted. 12,000 c. y. sand filling placed; electric-light plant installed; 2 observation stations, with stairways of concrete and steel, built. Completed battery turned over to the Artillery June 30, 1899. **99, 914.**

1900. The 8 mortars received mounted by the Artillery. **00, 939.**
1901. \$500 allotted for gathering up and storing part of plant used in constr. and for building boat-house for naphtha launch; work nearly completed. **01, 833.** \$600 allotted for remedying dampness in magazine No. 1; floor raised and building interior detached ceiling and walls of lead and brick. **01, 834.**
1902. All work completed. **02, 736.** \$30 allotted for placing guide rails upon loading platforms. **02, 738.**

Part 13, FGQ. Battery for Two 4.7-inch R. F. Guns.

1898. \$6,000 allotted. Work begun; concrete mixed by hand and placed with wheelbarrows. Battery completed and guns mounted. Description of work with itemized cost. **98, 732.**

1899. Some sand filling placed; hanging door and building a chert road in rear. Battery turned over to the Artillery in October, 1898. **99, 918.**

Part 14, FGQ. Battery for Two 12-inch Guns on Disappearing Carriages.

1898. \$50,000 allotted. Concrete in 1 emplacement completed and in second emplacement platform and foundations finished. Summary of work with cost. **98, 732.**

1899. \$23,865 allotted. 13,770 c. y. sand filling placed, completing same, and a total of 9,400 c. y. concrete placed. Electric-light plant installed;

ammunition conveyors, ladders, doors, etc., placed. Guns and carriages received and the work of mounting same begun. Battery turned over to the Artillery June 30, 1899. **99, 916.**

1900. Carriages and guns mounted by the Artillery. **00, 940.**

Part 15, FGQ. Battery for Two 8-inch Guns on Disappearing Carriages.

1898. \$199,750 allotted. Work begun, wharf completed, concrete foundation of magazines and passages completed, and all pre. finished. **98, 735.**

1899. \$23,824 allotted. Battery completed, carriages mounted, electric plant installed; hand ammunition hoists, trolley ammunition conveyors, and cranes placed. Summary of work with itemized cost. Tracing showing derrick system. **99, 918.**

1900. Guns received and mounted and battery turned over to the Artillery Mar. 21, 1900. **00, 941.**

1901. \$1,500 allotted for installation of search light; work completed. **01, 832.** \$700 allotted for connecting 2 loading platforms of this battery by means of concrete-steel gallery. **01, 833.**

1902. Work on gallery completed. **02, 736.**

Part 16, FGQ. Battery for Four 15-pounder R. F. Guns.

1899. \$20,230 allotted. Work begun Mar. 16, 1899. 777 c. y. concrete placed and 3,197 c. y. sand placed for filling. **99, 915.**

1900. \$14.58 allotted. Concrete work completed. 1,243 c. y. placed and 5,696 c. y. of sand

filling placed, completing same. Magazine roof asphalted. No armament received. **00, 940.**

1901. \$360 allotted. Battery completed and turned over to Artillery Apr. 30, 1901. **01, 833.**

Part 17, FGQ. Miscellaneous.

Doors for magazines. **1901.** \$625 allotted for 10-inch and 12-inch batteries; doors hung at magazine No. 1; 12-inch battery and some ironwork for others completed. **01, 834.**

1901 \$275 allotted for 8-inch battery; work not yet begun. **01, 835; 02, 738.**

1902. At 10-inch and 12-inch battery arrangement; made for manufacture of remaining doors. **02, 737.**

Electric wiring. **1901.** \$2,300 allotted for wiring for a system of exterior and interior wiring **01, 834.**

1902. Work completed. **02, 735.** \$2,000 allotted for rewiring 10-inch and 12-inch batteries. No work done. **02, 738.**

Transporting plant. **1902.** \$251.97 allotted for returning to Coosa R. works plant borrowed there from. **02, 737.**

Part 18, FGQ. Preservation and Repair.

1897. \$1,820 allotted. Three concrete platforms with granite pintle blocks for 8-inch converted rifles built to replace 3 timber platforms, which were rotten. Ammunition conveyors repainted. **97, 721.**

1898. \$2,225 allotted for repair of old works; 2 casemates and officers' quarters repaired; loading platforms of 15-inch S. B. guns renewed; 2 shot beds made; the old Spanish fort thoroughly overhauled and restored as far as possible. **98, 736.**

1899. \$10,143 allotted. Magazines of 10-inch battery asphalted; minor repair of old forts and slopes of new works. **99, 922.**

1900. \$4,910 allotted. Repair of wharf, slopes, magazine doors. Waterproofing magazines and dynamo room; mounting guns; repairs of breast-height wall at Fort Barrancas, and minor work. **00, 941.**

1901. \$7,465 allotted for shore protection 15-pounder battery; repairs to slopes; care of torpedo material; care and repairs to plant. **01, 835.**

1902. \$4,670 allotted. Repairs to 12-inch mortars, 10-inch, 8-inch, 4.7-inch, and 3-inch batteries. **02, 738.**

Part 19, FGQ. Range and Position Finders.

1899. Two observation stations built. **99, 914.**

1901. \$140 allotted for shelter for position finder; work completed. **01, 834.** \$150 allotted for fire-commander's station. **01, 834.**

1902. Work on fire-commander's station held in abeyance pending decision as to change of dimensions. **02, 736.** \$18,118.60 allotted. Eight bases for Rafferty range finders placed upon the different batteries; shelters constr. **02, 737.**

Part 20, FGQ. Sea Walls and Embankments—Fort McRee.

Work on jetty in front of fort. **82, 45.**

Part 21, FGQ. Submarine Mines.

1894. One mining casemate completed; cost, \$8,012.39. **94, 10.**

1899. \$9,000 allotted. Mines planted and removed by exploding them; doorway cut through the masonry into the adjoining casemate of a fort and a blower added to imp. ventilation; both casemates ceiled with flooring to prevent dampness. One casemate demolished by explosion June 20; torpedo storehouse built of brick, slate roof, and a traveling crane where nearly all torpedo material was stored, was completely demolished by explosion; a building erected by contractor was bought

for \$200, repaired, and fitted up as a loading room for submarine mines. This building was demolished by the explosion of June 20. **99, 922.** \$1,000 allotted for operating searchlights; materials bought. **99, 923.**

1900. \$8,040 allotted. Mining casemate, torpedo storehouse, and cable tank injured by the explosion of June 20, 1899, repaired. One searchlight plant transferred to the Artillery, and the other plant, injured by the explosion of June 20, 1899, repaired. **00, 943.**

Part 22, FGQ. Supplies for Seacoast Defenses.

1901. \$600 allotted. Supplies furnished on approval. **01, 835.**

1902. \$1,070 allotted. Supplies furnished. **02, 739.** \$700 allotted for constr. of offices and store-rooms; work completed. **02, 740.** \$275 allotted

for connecting boiler rooms of 10-inch and 12-inch batteries with post water supply. **02, 740.** \$175 allotted for building coal sheds; work completed. **02, 740.**

Part 1, FGR.**Contracts.**

1897. Sea wall—fascine mattress in place, \$1.40 per sq. y.; stone in place, \$3.20 per c. y. 97, 723.

1899. Gravel, 10,000 c. y., \$2 per c. y.; Atlas Portland cement, 12,000 barrels, \$2.17 per barrel. 99, 926.

1900. Sea wall—st. in place, \$3.25 per c. y.; fascine mattress in place, 75¢ per sq. y. 00, 949.

1902. Erecting and completing storage magazines, \$6,500 allotted. 02, 745. Roofing storage magazines, \$350 allotted. 02, 745.

Part 2, FGR.**Engineering Features.**

Air spaces. 00, 951.

Concrete ingredients. 00, 944.

Concrete mixing. 98, 741.

Drainage. 04, 3727.

Leakage, preventing. 03, 2414; 04, 3727.

Linings. 02, 2467; 03, 2414 (pl.); 04, 3727.

Materials, itemized cost. 97, 726.

Mines, firing by judgment. 98, 744.

Mixer, concrete. 00, 950.

Plant, concrete. 99, 925.

Electric light. 99, 928; 00, 944.

Itemized cost. 97, 726.

Sea wall, description of. 00, 948.

Waterproofing. 98, 740; 99, 924, 928; 00, 944, 946, 947, 950; 02, 2467 (pl.).

Waterproofing, asphalt. 04, 3728.

Waterproofing, tarred paper for. 02, 2460.

Part 3, FGR.**Engineers.**

Chief of Engineers. R., 66, 16; 67, 13; 68, 18; 69, 17; 70, 25; 71, 21; 72, 19; 73, 21; 74, 25; 75, 24; 76, 25; 77, 21; 78, 24; 79, 28; 80, 47; 81, 48; 82, 46; 83, 42; 84, 48; 85, 41; 86, 41; 95, 11; 96, 18, 519; 97, 18, 722; 98, 28, 737; 99, 30, 924; 00, 27, 943; 01, 28; 02, 29; 03, 9; 04, 5, 9, 10; 05, 5, 10; 06, 5; 07, 5, 9; 08, 9, 14; 09, 10, 15; 10, 12, 16; 11, 8, 13; 12, 7, 12.

Part 4, FGR.

Board of Engineers.

Constituted, 1882, to consider and report upon the condition of fortifications, and what number, if any, could be dispensed with. **82, 425.**

Part 5, FGR.

Engineers in Charge.

Capt. J. C. Palfrey, 1866.
Capt. W. E. Merrill, 1866.
Maj. M. D. McAlester, 1866-68.
Maj. F. E. Prime, 1868-69.
Capt. A. N. Damrell, 1869-70.
Maj. C. B. Reese, 1870-71.

Col. J. H. Simpson, 1871-73.
Lt. Col. W. F. Reynolds, 1873.
Lt. Col. A. N. Damrell, 1873-96.
Lt. E. E. Winslow, 1896.
Maj. W. T. Rossell, 1896-1902. **R., 96, 521.**
Capt. Spencer Cosby, 1902.

Part 6, FGR.

Assistants.

Lt. E. E. Winslow, 1895-96.
Lt. H. Burgess, 1896-97.

Lt. J. B. Cavanaugh, 1897-1900.
Lt. M. L. Walker, 1901.

Part 7, FGR—

FORTS AND BATTERIES.

Part 8, FGR. Eastern Entrance to Mobile Bay—Fort Morgan, Mobile Point, Ala.

1819. Work begun. **80, 47.**
1833. Fort completed. **80, 47.**
1866. Shot holes in counterscarp repaired and those in the scarp made ready for masonry. **66, 16.**
1867. General repairs to parapet, parade walls, and terrepleins of all the front. Work on a break'r. **67, 14.**
1868. Repair of buildings, break'r, drains. **68, 18.**
1869. Repair of wharf, break'r, and slopes. **69, 17.**
1870. Modification plans being prepared. Minor repairs made. **70, 25.**
1871. General repairs. **71, 22.**
1872. Wharf rebuilt, iron screw piles used instead of wooden ones, and the st., brick, and wood pier leading to it renewed. **72, 19.**
1873. Engr. property removed from casemates and stored in buildings outside the fort to make room for ordnance stores and ammunition. Twelve fender piles were coppered and placed around head of wharf; work begun on sea wall. **73, 21.**
1874. Work on sea wall, repair of slopes and ditches; ten 4-inch front pintle masonry platforms, with low traverse sts., and 2 of same with high

traverse sts. built. Est. cost of proposed modifications for exterior batteries, with positions for 37 guns of the largest caliber, and for emplacements for mortars in the old work, \$370,000. **74, 25.**

1875. \$25,000 app. Slight repairs to sea wall and wharf. **75, 24.**

1876. Modification work begun; quarters, buildings, and R.R. track repaired. 2,687' new R.R. track and 4 cars built; parapet, breast-height wall and foundation for the gun platform for gun position No. 1, service magazines for the battery, breast-height wall, foundation for gun platform, and part of parapet for gun position No. 2, completed. **76, 25.**

1877. General repairs to slopes, drains, etc. Work begun on extension to sea wall. **77, 21.**

1878. Sea-wall extension, 750' long, completed. Repairs to buildings; 2 cisterns, each with a capacity of 7,300 gallons, built. **78, 24.**

1879. Repairs to fence, wharf, slopes, and ditches. **79, 28.**

1880. History. Work on sea wall. **80, 48; 81, 48; 82, 46; 83, 42.**

1886. Shutters fitted to embrasures; ditches, drains, gutters, etc., cleaned. **86, 41.**

Part 9, FGR. Entrance to Mobile Bay—Fort Gaines, Dauphin Island.

1848. Work begun. 80, 48.
 1866. Fort in serviceable condition. 66, 16.
 1868. Repairs to wharf, buildings; earth cover of scarp of sw. bastion removed and the material embanked in glacis; 2 wing dams built. 68, 18.
 1869. Repairs to wharf, plank walks, buildings; slopes and ditches graded; 2 jetties and a break'r built. 69, 17.
 1870. Modification plans being prepared. 70, 25.
 1871-72. Care and preservation. 71, 22, 72, 19.

1873. Drains cleaned and repaired and work on jetties. 73, 21.

1874. Work on jetties, 4 front and 4 center pintle platforms removed, and 4 carriages and chassis removed from beach. Est., modifications, \$83,000. 74, 25.

1875. Care and preservation. 75, 24; 76, 26.

1877. Repairs to buildings; a brush apron and jetty built. 77, 21.

1878. Care and preservation. 78, 24; 79, 29.

1880-86. History; care and preservation. 80, 48; 83, 43; 84, 48; 85, 41; 86, 41.

Part 10, FGR. Mobile, Ala.—Site 1—Battery for 8-inch Guns.

1895. \$50,000 allotted. Work begun. 95, 11.
 1896. \$9,000 allotted. 6,800 c. y. concrete placed. Itemized cost of work. \$5,000 allotted for constr. platform; partly finished. Itemized cost. 96, 520.

1897. \$118,500 allotted. Emplacements 1 and 2 ready for carriages, model of 1894; and emplacements 3 and 4 for carriage, model of 1896. First emplacement completed; partial constr. of the 3 others. Summary and itemized cost of each emplacement and platform. 97, 724.

1898. \$16,500 allotted. All concrete placed; trolley systems and ammunition hoists, etc., in-

stalled; all guns and carriages mounted and the battery practically completed and transferred to the Artillery. \$14,700 allotted to complete the battery, install the electric plant, and repair and strengthen wharf; work in progress. 98, 733.

1899. \$500 allotted. 3,517 c. y. sand placed in parapet, 4,690 sq. y. sod placed, electric plant installed, magazines waterproofed, and a carpenter shop built. 99, 924.

1902. \$2,000 allotted. Constr. bracket gallery along rear of battery; work practically completed; misc. repairs of care and preservation. 02, 742.

Part 11, FGR. Mobile, Ala.—Site 1—Battery for Two 12-inch Rifles on Disappearing Carriages.

1898. \$125,000 allotted. Work begun, wharf completed, necessary buildings and plant erected. Platforms completed ready for guns. 98, 741.

1899. \$51,500 allotted. Battery completed except minor details. Two carriages received, mounting them in progress. Summary of work. 99, 927.

1900. Old armament removed from parapet of old fort and parked; electric plant installed. Cor-

rections made by the Ordnance Department of carriages. Minor work completed and battery turned over to the Artillery on June 4, 1900. Summary of work. 00, 945.

1901. Base circles in w. emplacement raised, electric plant cared for, and storage battery charged. 01, 837.

1902. Exudations of asphalt waterproofing effectually stopped. 02, 741.

Part 12, FGR. Mobile, Ala.—Site 2—Battery for Two 8-inch Rifles on 15-inch Rodman Carriages.¹

1898. \$12,000 allotted. Creosoted pile wharf built and constr. materials purchased. 98, 742.

1899. \$8,000 allotted. Concrete work begun and 1,017 c. y. placed, completing same. Carriages

and guns received and mounted. Battery completed except raising the parapet. Summary of work. 99, 931.

¹ This was torn out and replaced by Battery Stanton.

Part 13, FGR. Mississippi Coast—Fort on Ship Island.

1862. Work begun. 80, 48.
1866. Work begun in July with turning the arches supporting the parados; completion of the breast-height wall, culvert arches, and mastic covering. Terreplein graded. 66, 16.
1867. Work completed ready for armament. 67, 14.
1868. Repairs to slopes. 68, 18.
1870. Modification plans being prepared. 70, 25.
1871-73. Care and preservation. 71, 22; 72, 19; 73, 21.
1874. Temporary br. erected across drawbr. well; two 15-inch Rodman guns and two 100-pounder Parrott guns mounted by the Ordnance Department. 74, 25.
1875. Care and preservation. 75, 25.
1876. St. flagging completed; repairs to quarters. 76, 26.
1877. General repair of buildings. 77, 21.
1878. Care and preservation. 78, 25; 79, 29.
1880-81. History; care and preservation. 80, 49; 81, 49.
1882-84. Care and preservation and work on jetties. 82, 47; 83, 43; 84, 48.
1885. Care and preservation. 85, 41.
1886. Fourteen shot beds built, magazine floors cemented over, and shutters repaired. 86, 42.

Part 14, FGR. Site 1—Emplacement for 4.7-inch R. F. Gun.

1898. \$15,000 allotted. Work begun on 2 emplacements, platform built, and guns and carriages mounted. Concrete work of parapet nearly completed. Magazines waterproofed with 4 layers of asphaltic cement and felt. 98, 740.
1899. Battery completed in all its details and transferred to the Artillery. Summary of work. 99, 927.
1902. Damp spots in magazine corrected by waterproofing, painting ironwork, and sodding slopes. 02, 742.

Part 15, FGR. Site 1—Mortar Battery for Eight 12-inch B. L. Mortars.

1899. \$140,000 allotted. Work begun, plant installed, 2,579 c. y. sand placed in parade; 3,278 c. y. concrete, including 591 sq. y. granolithic, placed. Anchor bolts set and platforms completed. Eight carriages received. 99, 926.
1900. 7,831 c. y. concrete placed, completing same; waterproofing battery; electric plant installed; mounting carriages in progress. Summary of work. 00, 943.
1901. \$16,250 allotted (\$2,000 withdrawn). Sand filling completed; observation stations completed; grading and sodding; installation of electric plant completed; ironwork repainted; locks placed on doors, etc. Work of Engineer Department on this battery practically completed. 01, 836.
1902. Battery transferred to Artillery May 20, 1901. Covering of w. flank traverse and central traverse slid into pit, breaking down concrete cornice; repairs made; \$4,500 allotted. Under allotment of \$150 light interior doors installed at entrance of each powder magazine. 02, 740.

Part 16, FGR. Site 1—Emplacements for Two 15-pounder R. F. Guns.

1899. \$9,000 allotted. Work begun. 99, 929.
1900. 549 c. y. concrete placed, 2,188 c. y. sand placed in parapet, and battery completed and turned over to the Artillery on June 4, 1900. Summary of work. 00, 946.

Part 17, FGR. Site 2—Emplacements for Two 6-inch R. F. Guns on Disappearing Carriages.

1899. \$55,000 allotted. Materials being purchased. 99, 932.

1900. \$15,000 allotted. Work begun July 17, 1899. 4,300 c. y. concrete placed, completing same, except steps and walks in rear of battery. Sand filling, steel platforms and stairs in rear, electric-light plant, ammunition service, and minor work remain unfinished. Summary of work. 00, 949.

1901. Stairways constr., pavements finished,

ammunition cranes, trolleys, and trolley beams installed; cables laid, wood and iron work painted, and other misc. work. Emplacements practically completed and turned over May 20, 1901. 01, 838. \$750 allotted for mounting carriages. 01, 838.

1902. Completing drainage system, hoods for doors and windows, sodding, etc.; work on mounting guns in progress. 02, 745.

Part 18, FGR. Emplacements for Two 15-pounder R. F. Guns.

1901. \$10,000 allotted. Work begun early in September, practically completed latter part of February, 01, 838.

1902. Wood and iron work, painting, sodded slope cared for, small amount of waterproofing done. 02, 742.

Part 19, FGR. Miscellaneous.

Peace storage magazine. \$7,350 allotted for constr. peace storage magazine; work nearly completed. 02, 743.

Part 20, FGR. Preservation and Repair—Mobile, Ala.

1897. \$850 allotted for a fence on the e. boundary line of Fort Morgan reservation; barbed-wire fence, 3,350' long, built. 97, 722. \$3,000 allotted for repair of platforms of 8-inch converted rifles and other necessary work. 97, 722.

1898. Main line of fence repaired and connection made with old fence at se. salient of Fort Morgan. 98, 737. The platforms for 8-inch converted rifles completed and rifles and carriages mounted and turned over to the garrison. 98, 737.

1899. \$1,675 allotted and ditch cleaned; parade of old fort leveled; repairs to glacis; and sea wall partly rebuilt. 99, 930. \$1,175 allotted and ditch cleaned; 2 pumps, driven by a heavy 12' windmill, installed to discharge the drainage over the low dam into the B. 99, 932.

1900. \$3,400 allotted. Slopes and fences repaired; old fort cleaned; waterproofing magazines with cork paint, etc. Mine material cared for; sea walls and jetties repaired. 00, 947.

1901. \$2,900 allotted. Permanent bench marks estab.; misc. repairs, painting, etc.; submarine material cleaned. 01, 839.

1902. \$615 allotted. Site 1—survey of e. boundary of reservation; repairs to sea wall, wharves, and office building. (See various work under other batteries.) 02, 743. \$315 allotted. Site 2—repairs to drains at 8-inch rifles; painting iron and wood work at 6-inch guns; repairs to wharf, windmill, pumping plant, etc. 02, 746.

Part 21, FGR. Range and Position Finders.

1902. \$110 allotted for setting bases for Rafferty range finders. 02, 743.

Part 22, FGR. Sea Walls and Embankments.

Fort Morgan, Ala.—extensive temporary break'r built. **67**, 14. Foundation begun for concrete sea wall in combination with the break'r. **68**, 18. Work begun on a sea wall to protect the w. or chan. front of the fort; 53 piles driven and capped for outside of the cofferdam, 790 r. f. of sheet piling completed, and 1,000 c. y. of sand removed. **73**, 21. Sea wall completed. **74**, 25. \$27,000 allotted for extension of sea wall; work begun. **77**, 21. Extension completed, 750' long. **78**, 24. \$3,934.75 allotted and sea wall repaired. **81**, 48. \$5,570 allotted for extension and completion of the brush and st. revet. in front of sea wall; work nearly completed. **82**, 46. \$3,767 allotted for completion of aprons in front of sea wall and 605 r. f. of mattresses placed. **83**, 42. Est. cost of protecting shore, \$14,000. **96**, 523. Work begun on sea wall with funds remaining from allotment for Fort Gaines; 1,988.8 sq. y. fascine mattress and 1,325 c. y. r. placed, completing same. **98**, 737.

1901. Work on n. beach completed; entire length, 3,704 l. f. **01**, 841.

1902. Riprap sea wall 235' long constr. **02**, 746.

Fort Gaines—270 palmetto piles driven in constr. of 5 jetties for the protection of the shore and glais. **73**, 21. Four jetties completed. **74**, 25. Est. cost of protecting shore, \$11,000. **96**, 522. \$25,000 allotted for sea wall to be built under contract; work begun. **97**, 722. 4,629.9 sq. y. fascine mattress and 1,989 c. y. st. placed, completing sea wall. **98**, 737.

Mississippi Sound—\$5,584 allotted for constr. of 3 jetties for protection of the fort. Jetties completed and, in addition, a plank bulkhead 714' long built. **82**, 47. Jetties extended. **83**, 43. Jetty 480' long built. **84**, 48. \$20,000 allotted for extending riprap sea wall; extension completed for 850' and the fascine mattress placed for 850' addl. **99**, 930. Work on sea wall completed; 1,800 l. f. built and an extension of 370 l. f. built. Work in progress. Description of sea wall and summary of work. **00**, 948.

Part 23, FGR. Submarine Mines—Mobile, Ala.

1895. \$7,500 allotted for a mining casemate; work begun. **95**, 11.

1896. \$3,200 allotted. Work on mining casemate and cable gallery completed, except revetting slopes. Itemized cost of work. **96**, 521.

1897. \$4,675 allotted. Casemate and cable gallery completed and work begun on a cable tank. **97**, 723.

1898. Casemate fitted up for operating mines on the Abbott system, and torpedo materials stored. **98**, 742. Concrete cable tank completed and a traveling crane installed. Description of tank. **98**, 742. Three casemates cleaned and repaired, and torpedo material stored. **98**, 743. \$1,000 allotted for planting mines; dynamite and

other supplies purchased; searchlight installed. Mines planted and a base line selected, and stations prepared at each end of it for firing the mines by judgment; description. \$10,000 allotted for planting torpedoes; searchlight plant installed, mine field patrolled, and supplies received ready for future preparations. **98**, 743.

1899. Mines and cable and torpedo instruments received and stored. All mines that had been planted removed by exploding same. Cable, boxes, etc., cleaned and stored. **99**, 933. \$750 allotted for supplies for operating searchlight plants. **99**, 934.

1900. A half mile of multiple cable received and searchlight plant crated and stored. **00**, 949.

Part 24, FGR. Supplies for Seacoast Defenses.

1900. \$600 allotted. No expend. made. **00**, 952.

1901. Boiler repairs and replacing positive groups with new ones in electric plant of 12-inch battery. **01**, 841.

1902. \$300 allotted. Materials purchased and transferred. **02**, 746.

FGS. LOUISIANA-TEXAS FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

| 34 | Supplies | 1901-1902 |

Part 1, FGS.**Contracts.**

1897. Cement, 10,667 barrels, at \$2.37 per sand, 4,180 c. y., \$1.446 per c. y.; hollow tile, 2,000, barrel; gravel and r., 11,056 c. y., \$2.63 per c. y.; 14½¢ each. 97, 734.

Part 2, FGS.**Engineering Features.**

Concrete, cost per c. v. 98, 751. Forms. 97, Percolation, preventing. 03, 2415.
 732. Mixing and placing. 97, 732, 734; 99, 939. Pile driving (tracing). 97, 730; 98, 747, 748;
 Settlement of (tracing). 90, 746; 99, 935, 938, 939, 99, 941.
 942, 944. Plant, constr. 98, 747, 754.
 Condensation, preventing. 03, 2415. Waterproofing methods. 97, 735; 98, 745, 751;
 Lining, magazines. 04, 3728 (pl.). 99, 936, 938, 939; 00, 953.
 Materials, cost of. 97, 734; 98, 751.
 Mines, submarine, planting and removing. 98,
 756; 99, 945. Suggestions for imp. 99, 948.

Part 3, FGS.

Engineers.

Chief of Engineers. R., 66, 17; 67, 14; 68, 18; 69, 18; 70, 25; 71, 22; 72, 20; 73, 21; 74, 26; 75, 25; 76, 26; 77, 21; 78, 25; 79, 29; 80, 49; 81, 49; 82, 47; 83, 44; 84, 49; 85, 42; 86, 42; 95, 11; 96, 19, 523; 97, 18, 727; 98, 28, 744; 99, 32, 934; 00, 28, 952; 01, 30; 02, 30; 03, 9; 04, 5, 9, 10; 05, 5; 06, 6; 07, 5, 9; 08, 9, 14; 09, 15; 10, 12, 16; 11, 8, 13; 12, 7, 12.

Part 4, FGS.

Board of Engineers.

Constituted, 1882, to consider and report upon the condition of fortifications, and what number, if any, could be dispensed with. 82, 425.

Part 5, FGS.

Engineers in Charge.

Capt. J. C. Palfrey, 1866.
Capt. J. M. Wilson, 1866.
Maj. M. D. McAlester, 1866-69.
Capt. W. E. Merrill, 1866.
Maj. F. E. Prime, 1869.
Capt. G. J. Lydecker, 1869.
Maj. C. W. Howell, 1869-82.

Maj. A. Stickney, 1882-85.
Capt. T. Turtle, 1885.
Maj. W. H. Heuer, 1885-86.
Maj. J. B. Quinn, 1895-1900.
Lt. C. S. Riché, 1897.
Maj. H. M. Adams, 1900-02.
Lt. Edw. M. Adams, 1901-02.

Part 6, FGS.

Assistants.

Lt. F. W. Allstaetter, 1898-99.
Capt. H. Jervoy, 1897-99.
Lt. C. S. Smith, 1899-1900.

Lt. H. Burgess, 1899.
Lt. Edw. M. Adams, 1901-02.

Part 7, FGS—

FORTS AND BATTERIES.

Part 8, FGS.

Fort Pike, Rigolets Pass, La.

1819. Work begun. 80, 49.
1870. Est. cost of proposed modifications, necessary repairs, and placing in the curved batterie battery a number of 10-inch rifled guns, with traverses between them, \$24,000 allotted; a break'r built along the Rigolets and a new whar' built. 70, 25.
1871. \$2,000 allotted for care and preservation. 71, 22.
1872. Bns., quarters, and break'r repaired. 72, 20.
1873. Repairs to br. and bric' covering of

terreplein of main work, and shingle revet. of slopes over breast-height wall of covered way replaced with a sodded slope. 73, 21.
1874-79. Necessary repairs. 74, 26; 75, 25; 76, 26; 77, 21; 78, 25; 79, 29.
1880. History of the fort; its importance. 80, 49.
1881. Care and preservation. 81, 49.
1882. Care and preservation. 82, 47.
1884. Minor repairs of bns.; grass, weeds, etc., cut from around the walls and inclosures. 84, 49.
1885. Grass and weeds cut. 85, 42.

Part 9, FGS. Fort Macomb, Chef Menteur Pass, La.

- | | |
|--|---------------------------------------|
| 1822. Work begun. 80, 49. | 26; 75, 25; 76, 26; 77, 22; 79, 29. |
| 1870. Est. cost of proposed modifications, \$24,000. 70, 25. | 1880. History and importance. 80, 49. |
| 1871. \$4,000 allotted for care and preservation. 71, 23. | 1881. Care and preservation. 81, 49. |
| 1873-79. Care and preservation. 73, 22; 74, | 1882. Care and preservation. 82, 48. |
| | 1885. Grass and weeds cut. 85, 42. |

Part 10, FGS. Battery Bienvenue, on Bayou Bienvenue, Near Lake Borgne, La.

- | | |
|---|--|
| 1826. Work begun. 80, 50. | 1873-77. Care and preservation. 73, 22; 7 |
| 1871. \$1,000 allotted for care and preservation. 71, 23. | 26; 75, 26; 76, 26; 77, 22. |
| 1872. Quarters, slopes, and bns. repaired. 72, 20. | 1880. History and importance of batter 80, 50. |

Part 11, FGS. Tower Dupres, Lake Borgne, La.

- | | |
|--|---|
| 1830. Work begun. 80, 50. | 1874. Repairs of tower completed and a keep placed in charge. 74, 26. |
| 1871. \$1,000 allotted for care and preservation. 71, 23. | 1877. Care and preservation. 77, 22. |
| 1873. Some floors relaid, interior of walls of tower repaired, doors hung, and tower cleared of rubbish. 73, 22. | 1880. History. 80, 50. |

Part 12, FGS. Tower at Proctorville, Lake Borgne, La.

- | | |
|---|---|
| 1856. Work begun. 80, 50. | 1875-79. Care and preservation. 75, 26; 7 |
| 1871. \$360 allotted for care and preservation. 71, 23. | 27; 77, 22; 78, 25; 79, 30. |
| | 1880. History and importance. 80, 50. |

Part 13, FGS. Fort Jackson, Mississippi River, La.

- | | |
|--|---|
| 1822. Work begun. 80, 50. | 1872. \$64,000 app. Work begun, necessar buildings erected, plant purchased, levees and draining machine to protect the site of the fo from overflow built, slopes repaired, RR. buil and completion of concrete work for 5 magazir traverses in the lower battery. 72, 21. |
| 1866. Work begun reinforcing barbette platfoms to adapt them to larger calibers. 66, 17. | 1873. \$65,000 app. E. battery, 2 covered-a batteries, and battery in the n. bastion c mai work completed, except gun platforms and mason breast-height walls. 73, 22. |
| 1867. Modification of 22 barbette platforms completed, 16 shot platforms finished, and 2 platfoms for 13-inch mortars begun. 67, 14. | 1874. \$30,000 app. Work on drainage, regra ng new earthwork, providing 20 wooden platfom for 15-inch guns, laying 4 foundations for platfom |
| 1868. Repairs to levees and to main work. 68, 19. | |
| 1869. Lightning rods erected over magazines and slight repairs made. 69, 18. | |
| 1870. Est. cost of proposed modifications, \$191,000. 70, 26. | |
| 1871. \$50,000 app. Levees repaired and property cared for. 71, 23. | |

providing material for 16 foundations, and constr. concrete piers for 3 brs. across moat. 74, 26.

1875. \$25,000 app. Completion of 18 emplacements for 15-inch guns; work on permanent breast-height walls, slopes, brs., casemate storerooms, quarters, and minor work. 75, 26.

1876. Sally port built to connect lower battery with lower covered-way battery; work on 2 platforms and breast-height wall, magazine traverses, and repairs to slopes, etc. 76, 27.

1877-79. Care and preservation. 77, 22; 78, 25; 79, 30.

1880. History; description and importance. 80, 50.

1881. Care and preservation. 81, 51.

1882. Care and preservation. 82, 49.

1883. Work on levees. 83, 45.

1884. Repairs to brs., quarters, and buildings; drains cleaned; 12 shot beds built, and shot and shell piled; a number of guns, carriages, and chassis moved and blocked; levees completed, and a temporaryrevet. placed to protect the new levee. 84, 50.

1885. New wharf built and 2 st. platforms for 15-inch guns completed. 85, 44.

1886. Eight concrete and wooden platforms for 15-inch guns replaced with concrete platforms for same guns and a new levee built. 86, 44.

1898. Repairs of buildings, brs., fences; resurfacing elevated gallery of main work; a number of old guns mounted. 98, 745.

Part 14, FGS. Fort St. Philip, Mississippi River, La.

1841. Work begun. 80, 51.

1866. Reinforcing the barbette platforms to adapt them to heavier guns begun and nearly completed. 66, 17.

1867. The magazine in the lower battery, 15 new gun platforms, 2 mortar platforms, with necessary modification of parapets, breast-height walls, and terrepleins completed, and repairs made to br. across ditch and to 2 gun platforms. 67, 14.

1868. Levees repaired and a new levee built from the lower end of the front levee to the bayou. 68, 19.

1869. Minor repairs. 69, 18.

1870. Est. cost of proposed modifications, \$108,000. Minor repairs to levees. 70, 26.

1871. \$37,500 app. 71, 23.

1872. \$42,500 app. Modification work begun. Necessary buildings erected for employees, levee rebuilt, wharf repaired; completion of concrete work for 2 magazines and work in progress on 3 others; building parapet of new battery. 72, 21.

1873. \$50,000 app. Completion of levee, 6 traverse magazines in the new and lower water battery, and demolition of the old works. Emplacements for 12 guns ready for platforms. 73, 22.

1874. \$30,000 app. Completion of 3 magazine traverses, parapet, and temporary breast-height wall of the lower battery; repairs to slopes; demolition of old magazines and minor work. Summary of work. 74, 27.

1875. \$25,000 app. Completion of 6 magazine traverses; repairs to temporary breast-height walls; completion of 18 platforms for 15-inch guns; minor work and repairs. 75, 26.

1876. Three magazines built and 3 traverses completed up to the crown of the arches; foundation of sally port completed and weighted; 2 wooden platforms placed and excavation made for 7 more; wharf extended and repaired; drains built; reservation resurveyed and the boundaries marked with st. monuments. 76, 27.

1877-79. Care and preservation. 77, 22; 78, 26; 79, 30.

1880. History and description. 80, 51.

1881. Care and preservation. 81, 51.

1882. Care and preservation. 82, 49.

1884. Eight new shot beds built, 3 repaired; guns, carriages, and chassis blocked up; ditches and drains cleaned; brs. repaired; new levee built in front of the old one; a barbed-wire fence built along the river front and on the levee. 84, 51.

1885. New wharf built and a barbed-wire fence built to keep cattle off the levee and grounds. 85, 44.

1886. Replacing 8 concrete and wooden platforms for 15-inch guns with concrete platforms. 86, 44.

1898. Repair of buildings, brs., roof of magazine; minor work; a number of old guns mounted. 98, 745.

Part 15, FGS. New Orleans, La.—Emplacements for Two 10-inch Guns.

1895. \$70,000 allotted. Plans being prepared. 95, 11.

1896. \$55,000 allotted. Work begun; necessary buildings for employees erected. Piles driven in the emplacements of the battery and part of the excavation completed. \$350 allotted for an iron girder br. across moat. Work completed under contract for \$599. 96, 524.

1897. \$38,000 allotted. Plans revised. 11,000 c. y. concrete and 12,000 c. y. earth placed, nearly

completing concrete work and parapet; ironwork placed; because of concrete work of parapet and platforms settling more work required. Summary of work with itemized cost. 97, 727.

1898. \$9,000 allotted. Platforms releveled, guns and carriages mounted, and the completed battery turned over to the Artillery June 7, 1898. Description of releveing with tracing. 98, 746.

1900. \$213 allotted. Handrails placed. 00, 053.

Part 16, FGS. New Orleans, La.—Eight-inch Battery—Emplacements for Two 8-inch Rifles on Disappearing Carriages.

1898. \$90,500 allotted. Work delayed because of yellow fever. Pile driving begun in December, 1897; 1,340 piles driven; concrete work begun on April 6, 1898. Guns and carriages mounted and work nearly completed. Description of pile driving with tracing; waterproofing; itemized cost of battery. **98, 746.**

1899. Battery completed and guns tested, report, with tracing, of the settling of the battery. \$3,300 allotted for earth filling between 8-inch and 10-inch batteries and building a concrete walk in rear. 4,000 c. y. earth placed and a walk 550' x 8' built. **99, 934, 936.**

Part 17, FGS. New Orleans, La.—Battery for Two 4.7-inch R. F. Guns.

1898. \$7,000 allotted. Guns to be mounted temporarily on the face cover, using the existing magazines and parapets. **98, 752.**

1899. Emplacements completed, guns mounted and tested, old magazine repaired, and earthwork completed and sodded. **99, 936.**

Part 18, FGS. New Orleans, La.—Eight-inch B. L. Rifles Mounted on 15-inch S. B. Carriages.

(See emplacements for 8-inch guns on disappearing carriages.)

1898. \$10,000 allotted. No work done; awaiting the arrival of 8-inch rifles. **98, 752.**

1899. Guns received. Work begun on altering

carriages; work completed and guns mounted. Heavy concrete breast wall built in front of the old platforms; some earth filling. Guns dismounted and transferred to other emplacements. **99, 937.**

Part 19, FGS. New Orleans, La.—Emplacements for Two 8-inch Rifles on Disappearing Carriages.

(See emplacements for 8-inch rifles on 15-inch S. B. guns.)

1898. \$125,000 allotted. Work begun; wharf built; pile driving completed; concrete work in progress. Description and cost of plant and summary of work and difficulties attending it. **98, 753.**

1899. \$25,000 allotted. Concrete work completed; 3,800 c. y. placed; carriages received and mounted. Description of waterproofing. Settlement, and general work. **99, 937. \$1,600 allotted.**

Rifles transferred on a deck barge and mounted by June 17, 1899. **99, 940.**

1900. \$34 allotted. Handrail placed on 1 emplacement. **00, 953.** Carriages cleaned and leveled. \$600 allotted for ammunition hoists; erected. \$4,848 allotted for removing old brick parapet, so as to give a clear view of the R. Part of old parapet and an old magazine on the parapet blasted and removed; 4,000 c. y. earth removed from tops of 5 old magazines; 13 obsolete guns and carriages dismounted and stored. **00, 955.**

Part 20, FGS. New Orleans, La.—First Battery—Emplacement for Two 15-pounder R. F. Guns.

1899. \$24,500 allotted. Work begun Dec. 28, 1898. Excavations pile driving, grillage, and concrete work nearly completed; earth slopes finished and battery completed, awaiting the mounts. Summary of work. **99, 940.**

1900. Earth slopes repaired. Wires placed or

electric lights and walk to connect with 8-inch and 10-inch batteries built. No guns or carriage received. **00, 952.**

1901. Base castings placed and platforms completed; guns mounted by troops; transferred to garrison Jan. 17, 1901. **01, 842.**

Part 21, FGS. New Orleans, La.—Second Battery—Emplacements for Two 15-pounder R. F. Guns.

1899. \$24,500 allotted. Work begun Dec. 23, 1898. Excavations, pile driving, earth slopes, and concrete work completed, awaiting arrival of mounts. Summary of work. 99, 941.

1900. Electric wires placed. Earth slopes repaired and parade graded. No guns or carriages received. 00, 955.

1901. Guns mounted by troops. 01, 845.

Part 22, FGS. New Orleans, La.—Two 15-pounder R. F. Guns, Second Battery.

1901. \$10,000 allotted. Work commenced June 25, 1900; emplacements completed September, 1900,

with the exception of gun platforms. 01, 842; 02, 748.

Part 23, FGS. New Orleans, La.—Emplacements for Four 6-inch R. F. Guns.

1901. \$80,340 allotted. Preparation for constr. made; materials ordered; work commenced; site cleared; plant erected. 01, 843.

1902. Foundations for 2 emplacements com-

pleted; concrete work completed; electric lights and switchboards placed in magazines; site for second 2 emplacements acquired; materials for this battery ordered. 02, 748.

Part 24, FGS. Fort Livingstone, Barataria Bay, La.

1842. Work begun. 80, 51.

1870. Est. cost of proposed modifications, \$38,000. 70, 26.

1871. \$202.50 expended on general repairs. \$2,500 allotted for care and preservation. 71, 24.

1873-79. Care and preservation. 73, 23; 74, 27; 75, 26; 76, 27; 77, 22; 79, 31.

1880. History and description. 80, 51.

1884. Repairs to slopes; shot beds built; dismounted guns raised and blocked; minor work. 84, 51.

1885. Quarters repaired. 85, 45.

1886. Survey made, and plans and ests. prepared for jetties to protect shore line of site from further erosion by the sea. 86, 44.

Part 25, FGS. Sabine Pass, Tex.—Battery for 8-inch Rifle on 15-inch S. B. Carriage.

1899. \$6,000 allotted. Work begun June 6; about one-fourth completed. \$3,120 allotted for wharf; wharf 960' long completed. Gun and car-

riage received. Carriage altered and gun mounted. All ordnance and ordnance stores turned over to the ordnance sergeant. 99, 948.

Part 26, FGS. Sabine Pass, Tex.—Temporary Siege Batteries.

1898. \$4,200 allotted for temporary batteries for two 5-inch siege guns and two 7-inch siege howitzers. Work begun in April and completed. Armament received and mounted. All guns, carriages, armament, and ammunition pertaining to these guns were shipped to Tampa, Fla., and 4

light 12-pounder S. B. guns and carriages for same were mounted; work incomplete. 98, 764.

1899. Embrasures cut in breast-height wall to permit the use of smaller guns and parapet raised. Lease of land changed to include sufficient ground for an 8-inch gun emplacement. 99, 949.

Part 27, FGS. Sabine Pass, Tex.—Battery for 8-inch Rifle on 15-inch S. B. Carriage.

1898. \$6,000 allotted. Work begun June 6; about one-fourth completed. \$3,120 allotted for wharf; work begun and nearly completed. 98, 764.

1899. Earthwork and magazine and platform

completed. Gun and carriage received. Carriage altered and gun mounted. All ordnance and ordnance stores turned over to the ordnance sergeant A wharf 960' long completed. 99, 948.

Part 28, FGS.

Miscellaneous.

Electric-light plants. \$1,146.84 allotted and plants installed; description with cost. 99, 942. \$5,250 allotted for a permanent house; house completed, but owing to the unequal settlement of foundations the wall fell in. New site selected and work begun. 99, 943. \$1,900 allotted for operating electric plant; necessary materials purchased. 99, 944.

1900. Permanent house for electric plant completed; dynamos boiler and engine cleaned, repaired, and placed on their foundations and the

completed building transferred to the garrison. 00, 952.

Releveling gun platforms, etc. of new batteries. \$6,545 allotted. 8-inch and 10-inch emplacements—magazines waterproofed and gun platforms releveled. \$400 allotted for raising and leveling base rings of 10-inch battery; work completed. 00, 953.

1902. \$2,885 allotted for releveling base rings of 10-inch platforms; work completed. 02, 749.

Part 29, FGS.

Preservation and Repair.

1898. \$4,000 allotted. Fort St. Philip—repairs to buildings, bns. magazines, and cisterns. Fort Jackson—repairing bns. fences, and gallery of main fort. \$3,500 allotted for mounting old guns at Forts Jackson and St. Philip; work completed. 98, 744.

1899. New Orleans—\$1,000 allotted for repairs to slopes and machinery and care of property. \$250 allotted for moving and storing torpedoes and preparing a casemate for same. \$3.25 allotted for a new tangent wheel for ammunition lift at 10-inch battery. 99, 944. Sabine Pass—\$310 allotted for repair of magazine floors, drains, buildings, erecting a wire fence, and care of property. 99, 950.

1900. New Orleans—\$1,870 allotted. General repair of guns and carriages, slopes, buildings, and machinery. 00, 953. \$4,219.50 allotted; slopes repaired, torpedo material cleaned and stored, plant cleaned and repaired, gun platforms releveled care of property. 00, 955.

1901. \$6,000 allotted for repairing leaks, painting, whitewashing, etc. and repairs to superior slope of 8-inch gun battery. 01, 844. \$115 allotted for changing location of electric-light wires and poles; work completed. 01, 844, 845. \$1,200 allotted for painting ironwork, placing hood and collar on smokestack, and other minor work. 01, 845. \$440 allotted for hire of watchmen. 01, 846. \$1,000 allotted for repairing slope of 8-inch gun battery, painting ironwork whitewashing, caring for plant. 01, 846.

1902. Site 1—\$1,590 allotted for repairs to handrails, 10-inch gun battery; wooden steps 8-inch battery replaced by concrete; quarters and wharf repaired. 02, 751. Site 2—\$360 allotted for care of torpedo property; repairs to buildings; loading platforms; exterior of casemate rendered dry by coating of asphalt. 02, 751.

Part 30, FGS.

Range and Position Finders.

1901. \$8 allotted. Iron rails placed. 01, 843.

1902. \$13,500 allotted for fire-commander's

station; work on foundation completed; work on erecting tower in progress. 02, 748, 749.

Part 31, FGS. Sea Walls and Embankments.

Fort Jackson—\$5 926.21 allotted for constr. and repair of levees; work in progress. 83, 45. Levee completed and a temporaryrevet. built to protect same. 84, 50. New levee built. 86, 44.

Fort St. Philip—new levee built in front of the old one from the upper end of the reservation to where the back levee begins, and from this point to the lower end of the reservation part of the old

front levee was repaired. The back levee rebuilt. 84, 51.

1901. \$2,400 allotted for repairing and raising front of levee of R. side of reservation. 02, 844.

1902. \$2,400 allotted. Land drained and cleared of drift; storm damaged levee; levee rebuilt; work completed. 02, 750.

Part 32, FGS.

Sites.

1901. \$250 allotted for tract of land to be acquired by condemnation. 01, 843.

1902. \$515 allotted for purchasing tract of land for site of 6-inch R. F. guns. 02, 749.

Part 33, FGS.

Submarine Mines.

1898. New Orleans—\$26,500 allotted. Mines planted. Description in detail with cost. 98, 755. Sabine Pass—\$3,600 allotted; mines, dynamite and electrical supplies received and stored awaiting receipt of cables. 98, 764.

1899. New Orleans—\$2,714.93 allotted for installing searchlight and operating casemate; work completed. 99, 942. \$5,366.23 allotted for torpedo

defense of New Orleans; all mines removed. Description of method of removing mines with results and suggestions for imp. 99, 945. Sabine Pass Tex.—10 mines, with necessary supplies, received. No mines planted. All torpedo material transferred to ordnance sergeant. 99, 950.

1900. \$3,675 allotted for a torpedo storehouse; work completed and material stored. 00, 956.

Part 34, FGS. Supplies for Seacoast Defenses.

1901. \$500 allotted for purchase of supplies; hood and collar for smokestack of dynamo house installed. 01, 845.

1902. \$500 allotted. Supplies purchased and issued; reflectors for searchlight purchased. 02, 751.

Part 1, FGU.

Contracts.

1896. Battery for eight 12-inch mortars, \$96,-491.80. **97, 742.**

1899. Electric-light plant for 10-inch battery No. 1 and mortar battery No. 1, \$9,248. **99, 958.**

1902. Large and small riprap st., various prices; natural cement, \$1.75 per barrel and \$1.9 per barrel. **02, 758.**

Part 2, FGU.

Engineering Features.

Battery, mortar, reconstr. **04, 3730.**
 Carriages, releveing. **99, 953, 973.**
 Cement, table of tests. **96, 528; 97, 737, 741.**
 Concrete, cost per c. y. **98, 766; 00, 970.**
 Concrete, ingredients of. **96, 525; 97, 737; 99, 959.**
 Strengths; various tests. **05, 3027.**
 Condensation, methods of preventing. **R. 99, 951, 960, 970; 04, 3729; 05, 3029.**
 Construction, methods. **05, 3030 (pl.).**
 Covering, sand, pumping. **05, 3029.**
 Dampproofing, methods. **04, 3730 (pl.).**
 Drainage system, description of. **99, 951**
 Grillage foundations of old R.R. iron. **94, 763; 99, 955.**

Leaks, preventing. **03, 2417.**
 Lining, magazine. **03, 2416 (pl.).**
 Mines, defects noticed in submarine. **98, 770.**
 Mines, description of, method of laying and removing. **98, 769; 99, 964.**
 Percolation, overcoming. **03, 2416 (pl.); 04, 3729; 05, 3029.**
 Seepage through concrete roof, prevention of **R. 99, 952, 970.**
 Ventilation, controlling. **05, 3029.**
 Walls, sea, sheet piling. **05, 3023 (pl.).**
 Concrete, specifications. **05, 3024 (pl.).**

Part 3, FGU.

Engineers.

Chief of Engineers. R., 79, 31; 80, 51; 81, 958; 01, 30; 02, 30; 03, 9, 16; 04, 5; 05, 5, 11, 15; 52; 82, 50; 83, 46; 84, 52; 85, 45; 86, 45; 96, 19, 06, 5, 9; 07, 5, 10, 11, 450; 08, 9; 09, 10, 16; 10, 524; 97, 19, 737; 98, 29, 765; 99, 33, 951; 00, 29, 12; 11, 8, 14; 12, 7, 12.

Part 4, FGU.

Board of Engineers.

1882. Constituted to consider and report upon the constr. of fortifications, and what number, if any, could be dispensed with. R., 82, 427.
1901. Constituted to examine damages made by storm of Sept. 8, 1900. R., 01, 850. (Col. H. M. Robert, Maj. H. M. Adams, Capt. C. S. Riché. 01, 850.)

Part 5, FGU.

Engineers in Charge.

Lt. Col. A. M. Miller, 1896-98. Maj. J. B. Quinn, 1895-99.
Capt. C. S. Riché, 1898-1902.

Part 6, FGU.

Assistants.

Lt. W. V. Judson, 1896-97. Lt. H. Burgess, 1898-99. R., 98, 769.
Capt. C. S. Riché, 1897-98. Lt. M. L. Walker, 1901-02.

Part 7, FGU—

FORTS AND BATTERIES.

Part 8, FGU. Batteries at Entrance to Harbor.

1879-86. Plans made for batteries at Pelican Spit, Galveston Isld., and Bolivar Pt. 79, 31; 80, 51; 81, 52; 82, 50; 83, 46; 84, 52; 85, 45; 86, 45.

Part 9, FGU. Emplacement for Two 10-inch Guns, Battery No. 1.

1897. \$100,000 allotted. Work begun on 1 emplacement designed for all-around fire and 1 for limited fire, and site raised to a level of 8' above m. l. t.; concrete work in progress. Summary of work with itemized cost. 97, 738.

1898. \$17,500 allotted. Concrete work and earthwork completed. To protect the parapet from wave action during storms, sheet piling, protected on the outside by riprap, placed. Gun and carriage mounted in s. emplacement; another gun on hand; settlement; carriage in s. emplacement leveled up. Summary of work with itemized cost. 98, 765.

1899. All-around fire carriage received, mounted with gun, and tested; new drain system completed; waterproofing completed. Itemized cost of emplacement. 99, 951. \$2,500 allotted for concrete splinter-proof power house; work begun and completed. 99, 953.

1900. Electric plant installed, and the completed battery turned over to the Artillery. Total cost, \$117,500. Power house completed; cost, \$2,500. 00, 958.

Part 10, FGU.**Mortar Battery No. 1.**

1897. \$117,700 allotted. Work begun under contract; sheet-piling revet. completed; site of battery raised; mortar platforms completed and made ready for ironwork. Summary of work. 97, 740.

1898. Concrete work and sand fill completed; \$1,600 allotted. Carriages mounted and battery, except installing electric plant, completed. 98, 766.

1899. New drainage system completed; carriages leveled, and all work, except installing electric plant, completed. Itemized cost of work 99, 953.

1900. Electric plant installed; completed battery transferred to the Artillery. 00, 959.

Part 11, FGU. Two 4.7-inch R. F. Emplacements.

1898. \$26,000 allotted. Work begun May 23, 1898. Sheet piling driven around site under contract; 2,000 c. y. sand and 725 t. riprap placed; work in progress. 98, 768.

1899. \$15,000 allotted. Emplacements com-

pleted and guns mounted. Itemized cost of work 99, 961, 966.

1900. Completed emplacements transferred to the Artillery Oct. 25, 1899. 00, 966, 970.

Part 12, FGU. Two 10-inch Gun Emplacements, Battery No. 2.

1898. \$100,000 allotted. Work begun. 954 piles driven for foundation; grillage of old R.R. rails running in both directions and embedded in the concrete, and 5,310 c. y. concrete placed. 98, 769.

1899. \$10,000 allotted. Concrete work com-

pleted; carriages mounted; guns not on hand. Description of waterproofing and ventilating systems. Itemized cost of work. 99, 959, 969.

1900. Guns and carriages received and mounted and battery completed. 00, 965, 972.

Part 13, FGU. Two 8-inch Gun Emplacements.

1898. \$100,000 allotted. R.R. track built to connect site of battery with Gulf & Interstate Ry 776 piles driven for foundation; grillage of 2 layers of old R.R. iron placed. 4,273 c. y. concrete placed. Platforms ready for base rings. 98, 769.

1899. \$10,000 allotted and \$1,000 transferred from 10-inch emplacements; carriage and gun

mounting in progress. Summary and itemized cost of work. 99, 960, 967.

1900. Mounting of guns and carriages completed; waterproofing completed, and the completed battery transferred to the Artillery Oct. 25, 1899. 00, 966, 971.

Part 14, FGU. Two Emplacements for 15-pounder R. F. Guns, Battery No. 1.

1899. \$30,000 allotted for guns on pillar mounts; work begun, trestle built, and pipe laid for filling the site for battery. U. S. dr. boat altered. Itemized cost of work. 99, 955, 967.

1900. \$3,000 transferred from other works.

Site filled in, concrete work completed. 741 c. y. placed; 660 c. y. riprap placed, and battery completed ready for guns. Itemized cost of work. 00, 959, 969.

Part 15, FGU. Two Emplacements for 15-pounder R. F. Guns, Battery No. 2.

1899. \$15,000 allotted. Work begun January 9, foundation piles driven, and a grillage of old R.R. iron laid; concrete work nearly completed, sheet piling revet. completed, emplacement ready for armament. Summary and itemized cost of work. 99, 955, 970.

1900. \$1,500 transferred to other works. Battery, except blast surfaces and part of riprap protection, completed. Sand fill completed; 3,433 c. y. placed. No guns received. 00, 960, 972.

1901. Hurricane damages revet., washing protection away. No work done. 01, 847.

Part 16, FGU. Three Emplacements for 15-pounder R. F. Guns.

1899. \$30,000 allotted. Work begun January 26; all sheet piling driven, foundation piles driven, grillage of old R.R. iron placed, and gun platforms made ready for carriages. Summary of work. 99, 956, 968.

1900. \$1,500 transferred to other works. Con-

crete work completed, 1,109 c. y. placed; sand protection completed, 4,000 c. y. placed. Battery completed and turned over to the Artillery March 31. No guns or carriages received. Itemized cost of work. 00, 961, 971.

Part 17, FGU. Mortar Battery No. 2.

1899. \$125,000 allotted. Work begun Sept. 17, 1898; foundation piles driven, timber grillage laid, concrete work nearly completed; damp course at the 9-foot elevation under all magazines and an asphalt course over all roofs completed. Summary and itemized cost of work. 99, 957, 969.

1900. Sand fill completed; 50,245 c. y. placed;

920 t. riprap protection placed; 8 mortars and carriages received. Itemized list of expend. 00, 963, 972.

1901. Hurricane Sept. 8, 1900, washed down all sand and soil protection; mortars and carriages buried in sand. 01, 847. (See Work of reconstr., 1902.)

Part 18, FGU. Emplacements for Two 6-inch Guns.

1900. \$5,000 allotted. Work begun; 125,000 c. y. sand filling placed on site; sand fences built

to prevent cutting of chan. through the site during high tide. 00, 965, 971.

Part 19, FGU. Site 1.

1902. Work of rebuilding railway trestle and track completed; various machinery and cars rebuilt and repaired. 02, 752.

Part 20, FGU. Site 1—Reconstruction of Battery for Two 10-inch Guns on Disappearing Carriages.

1902. \$175,000 allotted. Work of breaking up old battery under way. 02, 752.

Part 21, FGU. Site 1—Reconstruction of Battery for 12-inch Mortars.

1902. \$290,000 allotted. Removal of carriages and mortars from old battery commenced. 02, 753.

Part 22, FGU. Site 1—Repair of Battery for Two 4.7-inch R. F. Guns.

1902. \$50,000 allotted. Driving of piles, placing of grout, foundation for pavement completed. 02, 753.

Part 23, FGU. Site 1—Repair of Battery for Two 3-inch R. F. Guns.

1902. \$35,000 allotted. Concrete foundation placed around battery; driving of piles. 02, 754.

Part 24, FGU. Site 2—Repair of Battery for Two 10-inch Guns on Disappearing Carriages.

1902. \$85,000 allotted. Sheet piling driven; grouting under battery; riprap filling done. 01, 755.

Part 25, FGU. Site 2—Repair of Battery for Eight 12-inch Mortars.

1902. \$180,000 allotted. Foundation piles for walls driven; new e. and w. wing walls constr.; observation station constr. 02, 756.

Part 26, FGU. Site 2—Repair of Battery for Two 3-inch R. F. Guns.

1902. \$30,000 allotted. Sheet piling driven; pavement in rear of battery completed. 02, 756.

Part 27, FGU. Site 3—Repairs of Battery for Two 8-inch Guns on Disappearing Carriages.

1902. \$85,000 allotted. Sand placed to protect piling. 02, 757.

Part 28, FGU. Site 3—Repair of Battery for 3-inch R. F. Guns.

1902. \$35,000 allotted. Sand placed to protect piling from action of teredo. 02, 757.

Part 29, FGU. Miscellaneous.

Electric-light plant. 1899. \$10,000 allotted for 10-inch battery No. 1 and 12-inch mortar battery No. 1. Work done under contract; wiring completed; dynamos and engine installed; work in progress. 99, 957.

1900. Installation completed and battery transferred to the Artillery. 00, 913, 971.

Restoring railway approaches and fence around reservation. 1901. Site 2—\$6,000 allotted during year. 4,808 l. f. restored, 550 l. f. track repaired, and 692 l. f. railway trestle built. 02, 756. \$3,000 allotted. No work done. 02, 758. Storm of Sept. 8, 1900. (See Sea walls and embankments.)

Part 30, FGU. Preservation and Repair.

1899. \$7,100 allotted. Drainage system and waterproofing completed at 10-inch battery No. 1 and slopes repaired at mortar battery No. 1. 99, 958.

1900. \$2,455 allotted. Repairing ammunition hoists, slopes; planting Bermuda grass seed on slopes; planting trees; releveling gun platforms; repairing magazine doors; minor work. 00, 964.

1901. \$8,500 allotted for preserving and caring

for engineer property damaged by hurricane cleaned, oiled, painted, etc. 01, 848. \$5,000 allotted for preserving batteries on piling from action of teredo. 01, 849. \$18,000 allotted. Preparation of plans; constr. field office and quarters, etc.; erection of plant. 01, 849. \$8,000 allotted. Foundation work; reconstr. minor casemate in traverse of 3-inch battery; driving of piles. 01, 754.

Part 31, FGU. Range and Position Finders.

1901. \$2,000 allotted. Hurricane seriously damages stations; no work done. 01, 847.

Part 32, FGU. Sea Walls and Embankments.

1901. Report by BE., Nov. 23 1900, upon work necessary for repairing damages to fortifications by storm of Sept. 8, 1900. Est. of \$568,000 is

submitted, with addition of \$238,000 if work is delayed. 01, 850, etc.

Part 33, FGU.**Sites.**

\$71,000 allotted for 1 site. 97, 741. \$4.75 allotted for a second site. 98, 767.

Part 34, FGU.**Submarine Mines.**

1896. \$10,000 allotted. Work begun on a mining casemate; 111 c. y. concrete placed. Ingredients of concrete. Testing cement. 96, 19, 524.

1897. \$9,562.40 allotted. Work completed; a total of 1,085 c. y. concrete and 10,795 c. y. of earth placed. Total cost, \$15,009.27. Itemized cost of work. 97, 737.

1898. \$12,000 allotted. Supplies purchased and a temporary line of torpedo defense begun, but discontinued after reception of other material; mines planted and tests made. 98, 769.

1899. \$750 allotted. Searchlight installed on 2 railway flat cars, on the U. S. Jetty track. 99, 963. \$3,000 allotted for cable tank; work begun and nearly completed cable stored. 99, 963.

2,000 allotted for a wooden torpedo storehouse. Work begun and completed except minor work; torpedoes anchors, and other submarine mining material stored. 99, 963. Report on planting and removing mines. 99, 964.

1900. Cable tank completed and cable stored. 00, 967. Torpedo storehouse completed and all torpedo material stored. 00, 968. \$5,000 allotted for system of tracks or submarine-mining service; work completed. Itemized cost. 00, 968, 971.

1902. Site 1—\$2,000 allotted for reconstr. of submarine-mine warehouse; work completed; material stored. 02, 754. \$2,200 allotted. Repair of cable tank; building erected over tank. 02, 754. \$5,800 allotted for reconstr. tracks and wharf; work completed. 02, 755.

| 3 | Forts, etc. (allotments, operations, etc.)..... | 1841-1901 |
| 4 | Fort Wayne, Mich..... | 1841-1901 |
| 5 | Fort Gratiot Military Reservation..... | 1871-1873 |

Part 1, FLPP.**Contracts.**

1882. Pointing the nw. front, and 1 face of casemates, breast-height wall, and parapet. 82, 9. per sq. y.; clearing and pointing casemate walls, \$1.50 per sq. y.; cutting out and replacing damaged

1883. Clearing and pointing scarp walls, \$1.15 brick, \$40 per M. 83, 5.

Part 2, FLPP. (See FGG above, and Part 5 below).**Part 3, FLPP.****FORTS AND BATTERIES.****Part 4, FLPP.****Fort Wayne, Mich.¹**

1841. Work begun. 80, 18.

1862. New work begun. 83, 5.

1866. Work continued on scarp wall, flanking casemates, breast-height wall, and parapet. 66, 2.

1867. Work on breast-height wall; doors of casemates and magazines hung; road from dock to the country road finished; drainage begun; gun platforms completed and sodding and embanking of parapet nearly completed. 67, 3.

1868. Widening of ditch to 25'; glacis graded; lateral batteries laid out; magazines of w. battery completed; doors of w. and e. battery made; ramp leading from roadway up the glacis to the ditch opposite the sally port finished; new main roadway graded and drains rebuilt. 68, 6.

1869. Widening of ditch completed; glacis completed on nw. front and e. face of the n. bastion; open ditch for drainage constr. and sodded at foot of the glacis; parade ground leveled and a fence to inclose the glacis begun. 69, 7.

1870. Glacis on the nw., se., and water fronts completed and seeded; drain and fence along its foot built; ironwork painted and slopes mowed. Batteries not yet completed. 70, 11

1871. Plans for modifying work prepared; care and preservation. 71, 6.

1872. Care and preservation. 72, 3.

1873. Paving and sewerage done in rear of barracks. 73, 4.

1874. Perishable equipment and material sold at auction. 74, 6.

1875. Fences partly rebuilt and boundary lines regraded. 75, 5.

1876. Rebuilding of fences and regrading grounds completed. 76, 6.

1880. Magazine floor rebuilt. 80, 18.

1882. Repairing begun; br. coping at the salient and shoulder angles replaced with cut sts.; sally port repaired; masonry of cesspools relaid; casemate penthouses rebuilt; new roof built over

magazine, and scarp wall repaired and pointed. 82, 9.

1883. \$10,000 allotted for completion of work. Scarp wall repaired. 83, 5.

1884. Repair work completed in 1883. 84, 10.

1885. Renewal of the demilune magazine roof and of the parade revet. on the sw. front. 85, 5.

1886. Gun platforms and demilune magazines repaired. 86, 6. Table showing proposed armament, 1886. 86, 509.

1899-00. \$150 allotted for preservation. 99, 974; 00, 973.

1900-01. \$150 withdrawn. Removal of revet. suggested. 01, 855.

Part 5, FLPP. Fort Gratiot Military Reservation, Mich.

ENGINEERS.

Chief of Engineers. R., 71, 104; 72, 102; 73, 116.

Operations.

1871. By acts of July 20, 1868, and Mar. 18, 1870, this reservation was divided into lots of convenient size and 242 were sold. \$3,000 app. for defraying expenses. Amount received from sale of lots, \$41,524. Another sale contemplated. 71, 104.

1872. Another sale began Aug. 8, 1872, and continued till all lots offered were sold. Amount received was \$58,433.91; a small part unsold. \$2,000 app. for properly laying out the streets and lots, 72, 102.

1873. Act of Mar. 3, 1873, au. the Sec. of War to survey, plat, and sell the cemetery grounds, subject to certain restrictions. No pre. action provided by the statute had been taken by the city of Port Huron. 73, 116.

Part 7, FLRR.—

FORTS AND BATTERIES.

Part 8, FLRR. Buffalo, N. Y.

1866. Addl. works for defense to be considered
by board of officers. 66, 3.
1867. Operations awaiting result of experi-

ments and the deliberations of the BE. upon the
application of new material to purposes of defense.
67, 3.

Part 9, FLRR. Fort Porter, Buffalo, N. Y.

1842. Work begun. 80, 18.
1867-68. Two temporary buildings (store-
rooms) repaired. 67, 3; 68, 6.
1871. Projs. for repair prepared. 71, 6.
1873-77. Act of July 11, 1870, au. the Buffalo
park commissioners to beautify the grounds; work
in progress. 73, 4; 74, 6; 75, 5; 76, 6; 77, 4.
1881. Keep nearly destroyed by fire many

years previous, and the entire work in its existing
condition useless for offense or defense. 81, 15.
1885. Park commissioners built a roadway,
by permission of Sec. of War, Apr. 12, 1884, through
the reservation, cutting the rampart of the fort,
necessitating the tearing down of the w. angle,
including the hot-shot furnace and the R. face. A
wooden fence was built along this face. 85, 6.

Part 10, FLRR.**Fort Niagara, N. Y.**

1839. Work begun. The work contains 2 masonry blockhouses, built by the French about 1757, and other buildings begun by the French and finished by the English after its capture by them during the French and Indian War. 80, 18; 81, 15.

1866. Replacing the old wooden scarp of land fronts with masonry. 66, 3.

1867. Constr. casemates and some minor work. 67, 3.

1868. Sally-port arch and land-front arch completed and the dry-st. wall partly finished. 68, 7.

1869. Casemate arches finished; entrance to flank casemate completed; rampart and parapet extended to scarp wall; all dry-st. filling behind walls finished. 69, 7.

1870. Arched passage to the flank gallery backed with concrete, covered with mastic, and parapet formed over it; paved drains behind open scarp wall of the entire land front completed, and minor work. 70, 11.

1871. Terreplein and parapet of the n. and s. bastions raised, graded, and sodded; building wooden platform for 4½-inch rifled gun and minor work. 71, 6.

1872. Repairing and pointing scarp wall; constr. sewer and drains in main ditch and grading and seeding same; paving postern road and casemates; repairing sea wall and minor work. 72, 4.

1873. Cribwork protection at w. angle of fort; jetties on lake front constr.; postern gates made and hung and minor work. 73, 5.

1874-75. Care and preservation. 4, 6; 75, 5.

1876. Main approach damaged by water, being repaired. 76, 7.

1877. New road built to the fort. 77, 4.

1878. Damaged masonry of the salient of a bastion rebuilt. 78, 6.

1882. Jetties repaired. 82, 10.

Part 11, FLRR. Preservation and Repair (Fort Niagara, N. Y.).

1890-91. \$10,000 allotted. Repairs to lake-front revet.; cribwork base for nw. angle of the break'r completed; cofferdam built and nw. angle of fort wall rebuilt. 91, 519.

1898. 1,850' of Niagara R. bank seeded. 98, 774.

1899. Bank repaired and seeded. 99, 974.

1900. Concrete break'r repaired and bank repaired, sodded, and seeded. 00, 973.

Part 12, FLRR. Sea Walls and Embankments (Fort Niagara, N. Y.).

1890. \$20,000 allotted, 1888, for preservation. Work delayed until Aug. 10, 1889, by stage of water in the lake; 1,811 l. f. shore revet. built; breach in work being closed. 90, 5.

1891. \$10,000 allotted. Proj. for protection of site of Fort Niagara. Wall at nw. angle repaired and some dike built. 91, 518.

1892. Sea wall completed and 941 l. f. of bank graded. 92, 454.

1893. Retaining wall repaired and tile laid for draining slope. 93, 626.

1896. Est. cost of protecting 650' of bank in front of the officers' quarters \$7,000. 96, 527.

1897. Lake wall repointed, sts. relaid, and 80' of its foundation protected with riprap. R. bank surveyed. 97, 743.

1898. 1,850' of Niagara R. bank sloped, graded, and protected with brush fascines and st. ballast. Proj. of 1888 completed. 98, 774.

1901. Repairs made to injured R. bank. 01, 8.

1902-1912. No operations.

Col. J. G. Warren, 1911-12.

Part 15, FLRR. Fort Ontario, N. Y.

1839. Work begun. 80, 19.
1863-66. Replacing the timber revets. with masonry; scarp wall raised 3'; constr. flank casemates. 66, 3.
1867. Raising scarp wal. in progress; masonry of gateway postern arch, and casemates of left flank completed. 67, 3.
1868. Raising scarp wall; masonry of 2 guard-houses completed; roof surfaces on front 4 finished and covered with mastic, and parapet on the curtain and flanks embanked. 68, 7.
1869. Work on scarp wall. 69, 7.
1870. Masonry of left flank commenced and completed; masonry of right flank in progress; copin aid and backed with concrete on the adjoining face; scarp of both faces raised and minor work done. 70, 12.
1871. Gallery in right flank of bastion E nearly completed; scarp wall of bastion E completed; building dry walls in the galleries and under the back of stairways; parapets of right and left faces so ded; terreplein graded and minor work. 71, 7.
1872. Gallery in right flank of bastion E

completed; gallery in left flank of bastion A continued; connection of gallery to proposed magazine and parapet on fronts 5 and 6 formed and added. 72, 4.
1873-78. Care and preservation. 73, 5; 74, 6; 75, 6; 76, 7; 77, 5; 78, 7.
1879. Minor repairs. Est cost of completion, \$119,97. 79, 9.
1880. Four penthouses built over the entrances to the flank casemates and scarp galleries of bastions D and E and entrance to unfinished gallery panked up. 80, 19.
1881. Work in an unfinished stat. 81, 16.
1882. Work turned over to the Engineer Department for repairs. No work to be done at once. 82, 11.
1883. New York, Ontario & Western R.R. au. to lay 3 tracks across the reservation. 83, 7.
1884. Timber revet. repaired; some minor repairs made. 84, 12.
1885. Revet. repaired. 85, 6.
1886. Revet. and drain ditches repaired. 86, 7.
1902. Repairs to revets. 01, 855; 02, 759.

FLE. LAKE CHAMPLAIN FORTIFICATIONS.

Col. J. W. Barlow, 1899-1900.

Part 4, FLE. Forts and Batteries—Operations—Fort Montgomery, N. Y.

1841. Work begun. 80, 19.

1866. St. and earthen parapet and breast-height wall of the land front completed; setting parade-wall coping and turning floor arches; embanking terreplein and cover-face; constr. masonry barbette platforms (20) and excavating the moat. 66, 3.

1867. Seventeen barbette gun platforms com-

pleted; scarp wall of the fort completed and minor work; the fort is ready for part of its armament. 67, 4.

1868. Flagging for first and second stories of bastions C and D completed; raising s. end of parade wall; constr. revet. wall of cover-face and minor work. 68, 7.

1869. Staircase and s. end of parade wall

raised; quarters and drainage under constr.; the st. facing of w. salient of cover-face completed and minor work. **69, 8.**

1870. Completion of staircase bastion C, parade walls, asphaltic covering, and terrepleins of curtains 2 and 3; turning 4 arches of second-story floors of curtain 3 and completing earthen parapet of right flank bastion B. **70, 12.**

1871. Projs. for modification for modern guns, prepared by B.E., approv. **71, 7.**

1872. Slight repairs made to magazines, retaining walls; general care of work. **72, 4.**

1873. Minor work. **73, 5.**

1875. Six shot and shell beds built on parade, and repairs made to earthen parapet, footbr. over marsh, and cavities in causeway and revet. **75, 6.**

1876. Parade graded, br. built in main poste', causeway repaired, and parapet sodding begun **76, 7.**

1877. Earthen parapet part resodded, asphalt covering repaired, and tie rods for strengthening n. face of bastion D placed. **77, 5.**

1878. Tie rods placed on curtain 3. **78, 7.**

1879. Care and preservation. **79, 9.**

1880. Br. and wharf roadway repaired; causeway and parade raised and graded. **80, 19.**

1881. Asphalt covering of curtains 1, 2, 4, and 5, and of bastions B, C, D, and E around the staircase, and wooden stair roofings, repaired; casemate doors painted and terreplein graded. **81, 17.**

1882. Repair of asphalt covering of curtains 1, 2, 3, 4, and 5; brick arches of embrasures of second tier repaired and repointed and minor repairs made. **82, 12.**

1884. Tie-rods placed in curtains 1, 3, 4, and 5, for fastening the scarp wall to the casemates to prevent leakage into magazines. **84, 13.**

1885. Wooden shutters fitted to embrasures and loophole openings, water-front sally-port gateway repaired, and interior gates placed at the land-front sally-port entrance. **85, 7.**

1886. Five center pintle and 6 front pintle platforms repaired; woodwork of br. over moat renewed. **86, 7.**

1897. 103' of parade wall covered with patent granite roofing laid in hot mastic to prevent the percolation of water. **97, 744.**

1898-00. Care and preservation. **98, 774; 99, 975; 00, 973.**

1901. Mainten. work. **01, 855; 02, 759.**

Part 1, FPSS.**Contracts.**

1896. Two 10-inch gun emplacements and a torpedo casemate, \$109,417.39. 97, 748.

1898. One 10-inch gun emplacement, \$37,-788.68. 98, 778.

1899. Imported Portland cement, \$2.83 per barrel. Crushed st., \$1.75 per c. y. Random st., \$1.90 per t. 99, 975, 976.

Part 2, FPSS.**Engineering Features.**

Air spaces for dampproofing not necessary in San Diego climate. 01, 923.

Base ring, method of leveling. 00, 977.

Cement, testing of. 00, 979; 02, 2471, 2472. Briquettes, repairing with sulphur. 01, 922.

Concretes, comparison of. 00, 978. Ingredients. 00, 979. Mixing of. 97, 747; 99, 976; 02, 2470.

Improvised plant for. 02, 2470. Placing of. 00, 979. Blasting through cement galleries. 02, 2471.

Cracks in; sulphur used to fill. 01, 922 (see Cracks, below). Material or standards. 02, 2471.

Surfaces; preventing checking. 01, 923. Wet and dry spots in; material or composition behind. 01, 923. Sand for, character of. 02, 2470.

Cracks, in emplacements. Asphalt used to fill. 01, 923. (See Concrete.)

Dampness, circulation in San Diego climate to be guarded against. 01, 923.

Floors, slopes reversed by settlement. 01, 923. Leaks, stopping. 01, 922. Local treatment satisfactory. 02, 2472.

Platforms, built as a monolith. 98, 776. Sand, bearing power of. 97, 746.

Ventilating, method of. 00, 978.

Waterproofing, method of. 00, 978. Not necessary. 02, 2470.

Part 3, FPSS.**Engineers.**

Chief of Engineers. R., 72, 24; 73, 24; 74, 19, 528; 97, 20, 744; 98, 30, 775; 99, 34, 975; 00, 31, 28; 75, 28; 76, 29; 77, 24; 78, 27; 79, 32; 80, 51; 974; 01, 33; 02, 34; 03, 9; 04, 5; 05, 5; 06, 5; 81, 52; 82, 50; 83, 46; 84, 52; 85, 45; 86, 45; 96, 07, 5; 08, 9; 09, 10; 10, 12 11 8; 12, 7.

Part 4, FPSS.**Board of Engineers.**

Constituted, 1882, to consider and report upon the constr. of fortifications, and what number, if any, could be dispensed with. **R.**, 82, 427.

Part 5, FPSS.**Engineers in Charge.**

Col. C. S. Stewart, 1873-86.
Maj. C. E. L. B. Davis, 1897-99.
Capt. J. J. Meyler, 1899-1900.
Capt. Jas. J. Meyler, 1901-02.

Lt. Col. C. E. L. B. Davis, 1902.
Lt. Col. T. H. Handbury, 1902.
Capt. Edgar Jadwin, 1902.

Part 6, FPSS.**Assistants.**

Lt. C. L. Potter, 1897.
Lt. H. Deakynne, 1897-98.

Capt. J. J. Meyler, 1898.

Part 7, FPSS—**FORTS AND BATTERIES.****Part 8, FPSS.****Fort at San Diego, Cal.**

1872. Plans prepared. **72**, 24.
1873. \$50,000 app. Work begun; necessary buildings erected. **73**, 24.
1874. Site cleared; 27,626 c. y. earth placed in

the embankment; concrete drains built; foundation of 1 magazine laid and its walls carried up to the spring of the main arch. **74**, 28.

Part 9, FPSS.**Ten-inch Battery.**

1897. \$115,000 allotted. Work begun under contract for 2 emplacements; wharf built. Concrete work begun; excavation work nearly completed; concrete work in progress. Methods of work. **97**, 746.

1898. \$48,000 allotted for a third emplacement under contract. All work completed; guns and carriages mounted; description of work. **98**, 775.

1899. \$60,000 allotted for a fourth emplacement by hired labor. Work begun. 16,000 c. y. excavated for foundations; concrete finished, water-

proofing completed, and emplacement completed except some minor work. **99**, 975.

1900. \$1,100 allotted; concrete work completed; gun and carriage mounted; waterproofing magazines in progress; work nearly completed **00**, 974, 977.

1901. Plant removed. **01**, 856.

1902. \$1,400 allotted for cutting galleries through traverses of battery; plan and est. submitted for substitution of chain ammunition hoists for platform type now in use. **02**, 760.

Part 10, FPSS. Fifteen-pounder R. F. Battery.

1899. \$3,865 allotted. Work begun on 2 emplacements. Excavation completed and concrete work begun and nearly completed. 99, 978.

1900. Battery completed except 2 gun platforms awaiting the arrival of the well linings for the gun mounts. 00, 975, 978.

1901. Blast surface constr.; platforms put in place. 01, 856.

1902. Work delayed pending arrival of well linings. 02, 760.

Part 11, FPSS. Five-inch R. F. Battery.

1900. \$18,270 allotted. Work begun for 2 emplacements; excavation and back filling done by contract. Concrete work completed; drainage system completed. Battery completed except platform awaiting mounts. 00, 976, 978.

1901. Gun carriages mounted; battery transferred Nov. 17, 1900. 01, 856.

Part 12, FPSS. Fifteen-pounder R. F. Battery on East Side of Bay.

1901. \$10,000 allotted. Work will begin after title to land is approv. 01, 857.

1902. Work completed and turned over. 02, 760.

Part 13, FPSS. Miscellaneous.

1902. Plans and est. submitted for installing electric light and power plant searchlight; pro-

posed plan for general constr. of plant approv. 02, 761.

Part 14, FPSS. Preservation and Repair.

1898. \$720 allotted for care and general repairs. 98, 778.

1899. \$1,080 allotted. General repair of buildings, fences, and grounds, etc. 99, 979.

1900. \$1,440 allotted. Electrical instruments cared for; care of property. 00, 977.

1901. \$976 allotted. Care of torpedo material and other property, repairs, painting; new ratchet

wheels on elevator windlass 10-inch battery; prevention o. dampness; "P. & B." paint used; survey of various grounds made. 01, 858.

1902. \$299.03 allotted for misc. repair work. 02, 762.

Part 15, FPSS. Range and Position Finders.

1900. \$2,500 allotted for battery-commander's station. Work begun; concrete work and station completed except minor work. 00, 976, 980.

1901. Battery-commander's station completed and turned over Nov. 17, 1900. \$450 allotted for

constr. of 3 datum marks completed and ready for transfer. 01, 856, 857.

1902. Adjusted; table of corrections prepared; transferred to battery. 02, 760.

Part 16, FPSS.

Sites.

1897. \$2,500 allotted for purchase of site for mortar battery; \$2,031.50 paid for 40.63 acres. 97, 748.

1901. \$20,500 allotted. Purchase of land. 01, 857.

1902. Negotiations completed. 02, 760.

Part 17, FPSS.

Submarine Mines.

1897. \$8,030 allotted; mining casemate being built under contract. 97, 20, 747.

1898. Casemate completed. 98, 776. \$1,700 allotted for a cable tank; work begun in May and completed in June. 98, 777. \$7,800 allotted for mining defense; mines planted and chan. guarded by 2 Napoleon guns. 98, 777.

1899. \$2,200 allotted for additions and changes, mining casemate; work completed. 99, 977.

\$4,840 allotted for a torpedo storehouse. Work begun in August and completed in April, and torpedo materials stored. 99, 978. All mines removed from H. 99, 979.

1900. Torpedo casemate completed and storage battery installed. 00, 974. Wharf and tramway built near torpedo storehouse. 00, 975 980.

Part 18, FPSS. Supplies for Seacoast Defenses.

1901. Purchase of supplies. 01, 857.

1902. Requisitions filled. 02, 760.

FPTT¹ UPPER CALIFORNIA FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

¹Usually in charge of Second San Francisco, Cal., U. S. Engineer Office.

Part 1, FPTT.**Contracts.**

1901. Constr. steam vessel, \$20,000; supplementing work, \$150. 01, 894.
1902. Electric-lighting plant, \$2,190; moving six 12-inch mortar carriages and base rings, \$3,375; moving two 12-inch gun carriages and base rings, \$2,500. 02, 781.

Part 2, FPTT.**Engineering Features.**

- Air space, description of. **99**, 982.
 Asphalt, composition of. **96**, 534, 535; **99**, 982; **00**, 982, 1013.
 Aprons, concrete; description of. **96**, 534, 535.
 Bolt, anchor; setting. **96**, 536.
 Concrete, cost per c. y. **93**, 621; **94**, 465; **96**, 528, 530; **97**, 754; **98**, 788, 793; **00**, 987, 994. Ingredients of. **93**, 620; **99**, 987; **00**, 982, 988. Mixing. **93**, 620; **99**, 987; **00**, 982, 990, 1009; **02**, 2473.
 Placing. **00**, 1003. Plant. **03**, 2418. Settlement of. **99**, 985.
 Cracks in retaining walls. **99**, 982, 985; **00**, 990, 1012, 1013.
 Dampproofing. **99**, 957, 969; **00**, 982; **02**, 2473, 2474.
 Drainage. **02**, 2474.
 Entrance, of battery. **04**, 3738 (pl.).
 Foundations. **03**, 2417.
 Ironwork, cleaning and painting. **03**, 2419.
 Materials, cost of. **93**, 620; **94**, 465; **96**, 529, 537; **97**, 987; **00**, 987, 994.
 Mixer, gravity, description of. **00**, 1009.
 Mortars, firing. **97**, 753.
 Ordnance, transporting. **03**, 2422 (pl.).
 Parapet and traverse, method of building. **00**, 980.
 Plant, electric light and power; description of. **00**, 991, 1007. Description of. **93**, 620; **00**, 989, 993; **02**, 2472.
 Railroad and cars. **04**, 3738 (pl.).
 Reservoirs. **04**, 3738 (pl.).
 Roads; details. **04**, 3733 (pl.), 3738.
 Roofs; details. **03**, 2419, 2420.
 Sand blast. **03**, 2420.
 Surfaces, concrete, finishing. **96**, 536.
 Tile, placing. **00**, 982.
 Ventilation. **04**, 3738 (pl.).
 Walls, coating. **03**, 2420. Construction. **03**, 2419.
 Waterproofing, various methods. **03**, 2420, 2421; **04**, 3737, 3738 (pl.).
 Water supply, cisterns, etc. **04**, 3738.
 Water-supply system. **00**, 993.
 Whitewash for walls and ceilings of rooms and passages, composition of. **99**, 987.

Part 3, FPTT.**Engineers.**

- Chief of Engineers. **R.**, 66, 17; **67**, 14; **68**, 19; **69**, 19; **70**, 26; **71**, 24; **72**, 22; **73**, 23; **74**, 27; **75**, 26; **76**, 28; **77**, 23; **78**, 26; **79**, 31; **80**, 52; **81**, 52; **82**, 51; **83**, 47; **84**, 52; **85**, 45; **86**, 45; **90**, 4; **91**, 6, 8; **92**, 8; **93**, 9; **94**, 10; **95**, 11, 515; **96**, 19, 528, 530; **97**, 20, 744, 748; **98**, 8, 30, 79; **99**, 35, 980; **00**, 32, 980; **01**, 33; **02**, 34; **03**, 9; **04**, 5; **05**, 5; **06**, 5; **07**, 5; **08**, 9; **09**, 10; **10**, 12; **11**, 8; **12**, 7.

Part 4, FPTT.**Board of Engineers.**

- Constituted, 1882, to consider and report upon the constr. of fortifications, and what number, if any, could be dispensed with. **R.**, 82, 427.
 Ests. 1881 **87**, 11.
 Ests., 1889. **89**, 6.

Part 5, FPTT.**Engineers in Charge.**

- Col. R. E. de Russey, 1866.
 Maj. G. H. Elliot, 1866-70.
 Lt. Col. G. H. Mendell, 1867-86.
 Col. C. S. Stewart, 1870-86.
 Col. G. H. Mendell, 1891-96. **R.**, 93, 619; **94**, 465.
 Lt. Col. W. H. H. Beñyaurd, 1893-96. **R.**, 93, 423.
 Lt. C. L. Potter, 1896.
 Maj. C. E. L. B. Davis, 1896-1900.
 Capt. J. E. Kuhn, 1896.
 Maj. W. H. Heuer, 1898-1900.
 Col. S. M. Mansfield, 1899.
 Lt. Col. C. E. L. B. Davis, 1901-02.
 Lt. Col. Thos. H. Handbury, 1902.

Part 6, FPTT.

Assistants.

Lt. H. C. Newcomer, 1891-92.
Lt. C. L. Potter, 1891-97.
Lt. C. A. F. Flagler, 1893-95.
Capt. J. E. Kuhn, 1895-98.
Capt. H. Deakayne, 1896-1900.

Lt. H. C. Wolf, 1898-99. **R.**, 98, 787, 794.
Lt. L. M. L. Walker, 1898.
Capt. F. R. Shunk, 1898-99.
Lt. W. Kelly, 1899-1900.
Lt. Geo. B. Pillsbury, 1901.

Part 7, FPTT—

FORTS AND BATTERIES.

Part 8, FPTT.

Fort Winfield Scott.

1853. Work begun. 83, 47.

1870. Exterior earthen batteries begun. 83, 47.

1883-86. General repairs for preservation.

83, 47; 84, 53; 85, 45; 86, 45.

Part 9, FPTT.

Fort at Fort Point.

1853. Work begun. 53, 52.

1866. Ironwork cleaned and painted; drainage repaired; some work on sea wall. 66, 17.

1867. Work on painting ironwork, drainage, sea wall; excavation for w. casemated battery; excavation for sea wall begun; heavy cofferdam built for a distance of 350' along the shore; buildings removed from site of new battery; wharf extended and repaired. 67, 14.

1868. R.R. completed; coping of old wall extended 126'; cofferdam for protection of site of new sea wall completed. 68, 19.

1869. Repair of quarters; minor work on sea walls, etc. 69, 19.

1870. Importance of fort. General repair of quarters. Modification plans prepared. 70, 26.

1871. \$50,000 app. Work begun on batteries to the s. of fort; 29,586 c. y. embankment placed; 7,180 sq. y. slope sodded. Work on breast-height wall and traverse magazines; 1,928 c. y. masonry placed. Repair of wharf, buildings, etc. 71, 24.

1872. \$85,000 app. Work on breast-height wall; 8 front-pintle st. platforms placed, and the masonry of 12 others completed; 2 traverse magazines built, 10 others finished; 1,324 l. f. of earth-work of barbette batteries completed; magazine doors made and hung and minor work. 72, 22.

1873. \$65,000 app. 830 l. f. of parapet of barbette and mortar batteries nearly completed; 6

magazines built and work on 3 others and on embankments; 11 pintles and sets of traverse rails placed for heavy guns; 8 platforms for heavy mortars placed and minor work. 73, 23.

1874. \$30,000 app. Four service magazines built; work on concrete foundation for 8 platforms for heavy guns; pintles and rails placed on 2 platforms for 15-inch guns and 4 platforms for heavy mortars built. Work on embankment; asphalt floors placed in 11 traverse magazines; wharf rebuilt; minor work. 74, 27.

1875. \$25,000 app. Work on 1 service magazine; breast-height walls for 8 heavy gun completed; 8 pintle blocks placed as well as concrete foundations for 12 platforms for heavy guns; 9,443 c. y. earth embanked in parapets and traverses, and 6,743 sq. y. sodding placed on slopes; minor work. 75, 28.

1876. Breast-height wall for 6 heavy guns completed and concrete foundations for 2 heavy gun platforms placed. 8,365 c. y. earth embanked in parapets and traverses and 3,777 sq. y. sodding placed on slopes; doors completed and hung in 7 traverse magazines; minor work. 76, 28.

1877-79. Care and preservation. 77, 23; 78, 26; 79, 31.

1880. History and importance of fort. 80, 52.

1881. Repair of quarters, slopes, etc. 81, 52.

1882. Condition of works. 82, 51.

Part 10, FPTT.**Fort Mason.**

1883. Two temporary earthen batteries built during the Civil War. 83, 49.

Part 11, FPTT.**Battery at Point José.**

1866-70. Modification plan submitted. 66, 18; 70, 27.

1870. Three 5-inch Rodman guns brought to the rear of battery. 70, 23.

1880. History of battery. Timber magazine in earthen battery rebuilt and 3 timber platforms replaced for purposes of drill and practice firing 80, 53.

Part 12, FPTT.**Batteries on Angel Island.**

1870. Modification plans prepared. 70, 23.

1880. History and importance of batteries. 80, 53.

Part 13, FPTT.**Fort on Alcatraz Island.**

1866. Work on new bombproof barrack; new ramp built from guardhouse to summit of isld.; new wharf built; old platforms removed; minor work. 66, 18.

1867. Work on new barrack; r. excavation made for extension of Battery Rosecranz. Resurvey of isld. in progress. 67, 15.

1868. Wharf extended; a number of permanent center pintle platforms adopted for 8-inch and 10-inch guns; work on new barrack. 68, 20.

1869. 4,000 c. y. r. excavated and thrown over the scarp walls; repair of buildings, etc. 69, 19.

1870. Importance of fort. Modification plans prepared. 18,000 c. y. r. excavated for foundations and work begun converting gun rooms into a magazine traverse. 70, 27.

1871. \$75,000 app. Gun platforms in batteries 1 and 4 removed; 3 service magazines in battery 2 completed; 1 service magazine built in battery 3, and breast-height wall for 4 guns begun; excavation for foundation of battery 5. 70, 25.

1872. \$42,500 app. Battery 4—breast-height wall for 2 guns built, parapets made and sodded, magazine completed; 3 magazines in battery 2 covered and sodded; work on large magazine. Battery 5—2 granite platforms for 15-inch guns with circular breast-height walls built and sodded; service magazine nearly completed; minor work. 72, 23.

1873. \$50,000 app. N. caponiere completed,

covered, and sodded; 6 magazines and 3 shell rooms built; work on retaining walls and parapets for guns; excavations for batteries 5 and 6 completed. Filling in mortar battery begun; minor work. 73, 24.

1874. \$20,000 app. S. caponiere partly remodeled, 2 magazines with bombproofs built, breast-height walls for 2 guns built, and 2 st. platforms laid; parapets for 4 guns made; 6,300 sq. y. sodding laid on parapets, magazines, and slopes; wood revet. in rear of wharf replaced with a substantial st. wall laid in mortar work on retaining wall. 74, 28.

1875. \$25,000 app. 469 c. y. masonry placed in magazine; 2,250 sq. y. sod placed on slopes; 36,930 c. y. excavation made; minor work. 75, 27.

1876. Two magazines and 2 bombproofs built; 3 adjacent wings of the breast-height wall built; 2 drains extended and wharf repaired. 76, 28.

1877. 5,368 c. y. excavated for parade ground by the prisoners. Magazine P covered with earth, its floor asphalted, and gutters in passageway concreted. 77, 23.

1878. Care and preservation. 78, 27.

1879. Wharf painted; general repairs of buildings. 79, 31.

1880. History and importance of fort. 80, 53

1882-83. General repairs. 82, 53; 83, 49.

1885. Two st. platforms completed. 85, 47.

Part 14, FPTT.

Fort at Lime Point.

1866. Title approv. and land bought. 66, 18.

1867. Work begun; excavation for foundation in progress. 67, 15.

1868. Necessary buildings erected; water supply for fire purposes installed; fence and wharf built; SS. built for service on the work; 60,000 c. y. r. excavated and a tunnel 60' long excavated for a large blast. 68, 20.

1869. 90,000 t. of r. removed by 2 blasts; work of excavating for foundations completed; fence completed. 69, 19.

1870. Importance of fort. Proj. 70, 27.

1871. \$100,000 app. Wagon road built; 4 magazines in Gravelly Beach battery completed; excavation for batteries on the cliffs; minor work. 71, 24.

1872. \$75,000 app. Gravelly Beach battery—2 magazines completed, 6 covered with earth and sodded, a breast-high timber revet. placed and concrete foundations for guns put in. Lime Point Ridge—breast-high walls for 4 front and 5 center-pintle guns built of masonry; 4 magazines built, covered with earth, and sodded; 4 st. platforms for front-pintle 15-inch carriages completed; parapets for 9 guns and 6 mortars finished and 3 mortar platforms made and placed. Point Cavallo battery—work on roadway and excavation. 72, 22.

1873. \$160,000 app. Gravelly Beach battery—12 wooden platforms placed and battery nearly completed; three 13-inch mortar platforms placed in the Ridge battery. Point Cavallo battery—5 magazines built and work on 6 others; parapets and terreplein. 73, 23.

1874. \$30,000 app. Point Cavallo work nearly completed. Gravelly Beach parapets and traverses repaired; new road, 4,200 l. f., completed near Point Diablo. 74, 27.

1875. \$20,000 app. 5,950 l. f. of road built to site of batteries near Point Diablo; gun battery in advance at Point Cavallo completed except gun platforms; 8 breast-high walls laid in Point Cavallo battery; minor work. 75, 27.

1876. Hoods placed on traverses at Point Cavallo battery; 4,000 c. y earth and 2,535 sq. y. sodding placed. Repairs at the Ridge and Gravelly Beach batteries. 76, 28.

1877. Property in charge of fort keepers. 77, 23.

1880. History and importance of the fort. 80, 52.

1882. Condition of works. 82, 52.

Part 15, FPTT.

Point Lobos.

1866. Topographical survey made. 66, 18.

Part 16, FPTT. South Side of Bay—Emplacements 9, 10, 11, 12, and 13, for 10-inch Rifles on Disappearing Carriages.

1891. Work begun on excavation. 91, 8.

1892. Excavation completed and concrete work in progress. 92, 8.

1893. Concrete work completed; awaiting details of carriages to be used. Work described. 93, 619.

1894. Top surfaces of magazines plastered and painted with waterproof paint. Roadway being built. 94, 10.

1895. Details of carriages received and concrete work in progress on platforms. 95, 516.

1896. Parapets and magazines completed and 3 inches asphalt covering placed; 3 platforms completed 1.319 c. y. concrete placed ammunition service installed, 2 guns and carriages received;

mounting was begun but stopped to alter carriages. Itemized cost of work. 96, 535.

1897. Two guns mounted in emplacements 11 and 12. Work in progress; mounting gun in emplacement 13. \$57,000 allotted for emplacements 9 and 10. Work begun in June, excavation completed and some concrete work done; itemized cost of work. 97, 749, 755.

1898. Concrete work of emplacements 9 and 10 completed; machinery installed and guns and carriages mounted; guard and relocater room built; itemized cost of work. 98, 779, 788.

1900. Steps at emplacements 11 and 12 repaired. 00, 983.

Part 17, FPTT. South Side of Bay—Emplacements 14, 15, 16, 18, and 19, for 12-inch Rifles on Barbette Carriages.

1892. Work begun on emplacements 14, 15, and 16; excavation completed and concrete work in progress. 92, 8.

1893. Concrete work completed; awaiting details of carriages to be used. Work described. 93, 619.

1894. Top surfaces of magazines plastered and painted with a waterproof paint. Roadway being built. 94, 10.

1895. Details of carriages received. One emplacement completed, R.R. iron and cable placed in concrete, gun mounted, and work in progress on another. 95, 11, 515.

1896. Parapets, aprons, and magazines of 3 emplacements completed and covered with a 3-inch layer of asphalt. Gun fired 17 times to test asphalt covering. Two other platforms built, R.R. iron and cable placed in concrete and 1 gun

mounted. Ammunition service installed and all engineering work of the 12-inch emplacement completed, except setting base ring in 1 emplacement; carriage not yet received; itemized cost of work. 96, 533, 564.

1897. Work begun on emplacements 18 and 19 in November, 1896; concrete work completed; 4,576 c. y. placed; all machinery installed; 1 gun mounted in emplacement 18. Itemized cost of work. 97, 749, 754.

1898. Guard and relocater room emplacement 14 completed; itemized cost. Minor work completed. Gun mounted in emplacement 19 and the completed battery turned over to the troops. Itemized cost of work for emplacements 18 and 19. 98, 780, 791.

1900. Latrine built; description and itemized cost. 00, 988.

Part 18, FPTT. South Side of Bay—Mortar Battery No. 1.

1893. Work begun Apr. 5, 1893; 10,781 c. y. excavated for foundation, completing same; 528 c. y. concrete placed; drainage in progress; conduit for electric-firing wires laid in floor. 93, 622.

1894. 32,324 c. y. earth excavated; 7,097 c. y. concrete and 44,124 c. y. filling placed. Two platforms laid in granite; electric-light system installed; minor work. 94, 11, 465.

1895. All concrete work completed; slopes sodded and seeded; 16 mortars mounted; firing cable installed; picket fence built around the battery; battery completed except ammunition conveyors. 95, 11, 516.

1897. Ammunition conveyors, etc., being installed; a new firing room built and a new firing circuit installed. 97, 748, 753.

1898. Relocater room built; speaking tubes installed; cost of work. 98, 788.

1901. \$5,233 allotted. Changing azimuth circles and completing battery; steam drill purchased. 01, 875.

1902. Work continued; circles placed by Ordnance Department; excavation concrete used to repair roads in vicinity of battery; itemized statement of cost given. Constr. of latrine; details given. 02, 770, 771.

Part 19, FPTT. South Side of Bay—Pneumatic Dynamite Gun Battery.

1896. Three 15-inch guns mounted; compressor plant in place. No form of protection undertaken. 96, 533.

1899. \$150,000 app. High earthen traverse built nearly around power house, kept in place by a high concrete retaining wall; wall badly cracked; 120,000 c. y. back filling placed; work in progress. 99, 981.

1900. Magazines and traverses completed,

built of 90,000 c. y. of sand; seven 1½-inch iron rods, each 120' long, were driven through the sand to the rear walls of the gun pits, thus tying the retaining wall to the rear walls of the gun pits. Completed battery turned over to the Artillery. Description of placing sand and of making slopes. 00, 989.

1901. Alterations made to switchboard, electric plant. 01, 875.

Part 20, FPTT. South Side of Bay—Emplacement 8, for 12-inch Non-disappearing Carriages.

1897. Work begun in October, 1896; concrete work completed; 4,257 c. y. placed. Machinery installed and emplacement nearly completed. Itemized cost of work. 97, 749, 754.

1898. Machinery installed and minor work done; cost; carriage not yet received. 98, 780, 789.

1899. Gun and carriage mounted and emplacement turned over to the Artillery June 15, 1899. 99, 981.

Part 21, FPTT. South Side of Bay—Mortar Battery No. 2.

1897. \$108,000 allotted. Work begun in June; site cleared. 97, 750, 755.

1898. 43,500 c. y. excavated; 45,850 c. y. back fill and 9,920 c. y. concrete placed; carriages mounted. Battery completed except installing

electric plant and mounting mortars; itemized cost of work. 98, 779, 793.

1899. Mounting mortars completed. 99, 981.

1900. Electric-light plant to be installed. 00, 981.

Part 22, FPTT. South Side of Bay—Two Emplacements for 5-inch R. F. Guns on Balanced Pillar Mounts.

1898. Work begun March 16; excavation completed and concrete work in progress; work delayed; cylinders to pivot the guns not on hand; concrete work on relocater and entrance to old magazine completed; itemized cost of work. 98, 780, 781, 791.

1901. \$7,700 allotted. Cylinders arrived; forms erected; concreting completed; battery allowed to dry; rooms whitewashed; electric wiring put in. 01, 875.

1902. Battery transferred; carriages mounted; guns not received. 02, 770.

Part 23, FPTT. South Side of Bay—Three Emplacements for 8-inch Rifles on Disappearing Carriages.

1899. \$67,000 allotted. Work begun and completed except the magazine doors, electric lights, and minor work. Air space formed in 1 emplacement by placing hollow partition tile around the magazine. Dampproof course laid over the magazine. 99, 982.

1900. \$8,000 allotted. Magazine doors placed; trolleys installed, electric-light plant installed, guns mounted, and battery turned over to the Artillery. All concrete surfaces exposed to view from the H. were painted with paraffin paint to conceal them. 00, 987.

Part 24, FPTT. South Side of Bay—Emplacement for 8-inch Gun on Disappearing Carriage.

1899. \$28,700 allotted. Work begun in February and completed except electric plant, ammunition hoist, and minor work. 99, 983.

1900. \$4,000 allotted. Fence built around battery; trolleys installed; electric-light plant installed by contract; speaking-tube connections made with emplacements for 8-inch converted rifles and the

relocater room. Ammunition hoists and base ring still to be set in place. Description of excavation work, concrete mixing, tile placing, and cement finishing, with itemized cost of all work. 00, 981.

1901. Ammunition hoist set; Artillery mounted gun; other misc. work; battery transferred August 1900. 01, 873.

Part 25, FPTT. South Side of Bay—Emplacement for One 12-inch Gun on Non-disappearing Carriage.

1901. \$60,000 allotted. Plans and est. approv. No work done. 01, 876.

1902. Excavation and concrete work in progress. 02, 771. Drainage, ventilation, ammunition service, electric-light plant, minor accessories, etc.,

done; detailed statement of work and cost given. 02, 773. Battery is entirely completed except setting base rings of carriage, which have not yet been received. 02, 774.

Part 26, FPTT. South Side of Bay—Emplacements for Three 15-pounder R. F. Guns.

1901. \$15,200 allotted. Nothing done. 01, 888.

1902. Excavation and concrete work in prog-

ress; details given. Minor accessories supplied; refill made; slopes covered with loam; macadamized road made; itemized cost given. 02, 769.

Part 27, FPTT. South Side of Bay—One Emplacement for a 5-inch R. F. Gun on Balanced Pillar Mount.

1899. \$6,000 allotted. Materials purchased. 99, 981.

1900. Work begun, excavation completed, road prepared, and the loam placed on slopes for a top dressing. Work suspended, awaiting the arrival of ironwork of the balanced pillar mount. 00, 988.

1901. Cylinder arrived; work carried on same as 2 other 5-inch emplacements. 01, 875.

1902. Battery transferred; carriages mounted; guns not received. 02, 770.

Part 28, FPTT. South Side of Bay—Emplacements for Two 6-inch Guns on Disappearing Carriages (Part of the Heavy R. F. Armament).

1899. \$56,000 allotted. Work begun on excavation. 99, 981.

1900. \$3,050 transferred from other works. Excavation completed; new water-supply system installed; concrete work in October; battery entirely

completed by June; no guns on hand; description of mixing concrete. 00, 990.

1901. Transferred to Artillery; carriages mounted; guns not received. 01, 875.

Part 29, FPTT. South Side of Bay—Emplacements 6 and 7, for 12-inch Rifles on Disappearing Carriages.

1899. \$75,500 allotted. Work begun in September, 1898, and practically completed in the spring of 1899. Guns and carriages not received. 99, 981.

1900. Floor of dynamo room laid, aprons built,

base rings set; battery entirely completed in November and turned over to the Artillery, who mounted the guns. 00, 988.

Part 30, FPTT. South Side of Bay—Emplacements for Two 5-inch R. F. Wire-Wound Guns.

1900. \$17,473 allotted and \$3,600 transferred from other allotments. Work begun in January; platform built separate from magazines. Battery completed except setting base rings, not received. whitewashing the rooms. 00, 987.

1901. Whitewashing rooms; name plates for speaking tubes put in place; battery transferred August, 1900. 01, 873.

Part 31, FPTT. South Side of Bay—Emplacements for Two 15-pounder R. F. Guns.

1900. Site selected and plans and ests. prepared for 2 emplacement. on balanced pillar mounts 00, 988.

1901. \$12,000 allotted. Plant erected; work begun and practically completed. 01, 874.

1902. Work in progress. 02, 769.

Part 32, FPTT. South Side of Bay—Emplacements for Two 12-inch Guns on Disappearing Carriages.

1900. \$114,000 allotted. Work begun in September, 1899. Necessary buildings erected; excavation and roadway completed; water-supply system installed; about 35 acres of the barren sand dunes planted with bunch grass (*Arundinaria*); 4,000 young eucalyptus trees bought and planted. Concrete work begun in February and completed in March; electric-light plant installed; ammunition hoists and trolleys erected and all work completed except setting base rings; base rings to arrive.

Description of excavation work, erection of plant, mixing concrete, water-supply system, placing sod and planting trees on the sand dunes, placing tiling, with complete itemized cost of all work. **00, 992.**

1901. Ammunition hoists installed; battery painted; work to prevent leaking. Base rings to be set. **01, 875.**

1902. Ironwork painted; carriage No. 26 received; base ring set. **02, 771.**

Part 33, FPTT. South Side of Bay—Emplacements for Sixteen 12-inch Mortars.

1900. \$175,000 allotted. Work begun Nov. 27 1899. Excavation completed; 68,300 c. y. removed; concrete work begun and 8 platforms finished. Sewers and drains laid. Description of excavation work and of placing concrete. **00, 1002.**

1901. Floors and foundations completed; concrete work in progress and practically completed; installation of plumbing, electric light, trolleys, etc.; a windmill and tank erected; 6

mortar carriages received and mounting carried on by Artillery; engineering work completed except setting 10 base rings and grates for fireplaces. Detailed statement of work and cost given. **01, 876, 878.**

1902. Grates for fireplaces installed; 11 base rings set; 1 mortar received and mounted by the Artillery. **02, 774.**

Part 34, FPTT. North Side of Bay—Emplacements for Three 12-inch Rifles on Non-disappearing Carriages.

1894. \$72,000 allotted, 1892. Work begun in February for 2 emplacements; concrete work completed as far as contemplated and 4 inches of asphaltum placed on top of the emplacements; magazine doors made and hung; minor work. **94, 11.**

1895. \$36,761.29 allotted. 4,870 c. y. loose r. excavated for another emplacement; concrete work in progress. **95, 12.**

1896. \$8,400 allotted for 3 gun platforms; 1 completed and work on the other 2 in progress. Itemized cost of work. **96, 528.**

1897. Ammunition service installed; 2 guns

and carriages mounted; work on the other gun and carriage. Mounting of guns and carriages done by the Artillery. **97, 744.**

1898. Battery completed; 3 guns and carriages mounted; battery and covered way leading back to the main road surrounded with barbed-wire entanglements and a stockade built across the end of the covered way. **98, 780.**

1900. Slight alteration of trucks of ammunition service. Waterproofing magazines in progress; previous work unsuccessful. **00, 1011.**

Part 35, FPTT. North Side of Bay—Four Emplacements for 6-inch R. F. Guns.

1902. \$54,409 allotted. Road built excavation about 25% done. **02, 765.**

Part 36, FPTT. North Side of Bay—Two Emplacements for 3-inch R. F. Guns.

1902. \$16,787.70 allotted. Work begun; excavation 60% done. **02, 765.**

Part 37, FPTT. North Side of Bay—Emplacements for Two 12-inch Guns of Disappearing Carriages and for Eight 12-inch Mortars.

1901. Sites selected; tramway and wharf built; details of work and physical conditions at this battery given; \$122,210 allotted for disappearing guns; \$106,867 allotted for mortars; \$14,466 allotted for wharf and tramway. 01, 863.

1902. \$9,490 allotted for two 12-inch disappearing guns; excavation completed; concrete

work in progress; gun carriages with base rings received; detailed statement of work given. 02, 763. Eight 12-inch mortars; excavation work in progress. 02, 763. Road built connecting batteries. 02, 764. Transportation of mortar carriages completed. 02, 764.

Part 38, FPTT. North Side of Bay—Two Emplacements for 8-inch B. L. Rifles, Non-disappearing Carriages.

1898. \$55,000 allotted. Work begun April 9, and the work nearly completed; awaiting arrival of carriages. 98, 781.

1899. \$3,000 allotted. Total of 17,885 c. y. excavation and 2,700 c. y. concrete placed; electric-light plant and ammunition service installed; walls and ceiling whitewashed; reservoir, capacity

of 10,000 gallons, built; minor work; no carriages received. Itemized cost of work. 99, 986.

1900. \$1,505 allotted. Guns and carriages received and moved from wharf to site of battery under contract; base rings set and battery turned over to the Artillery May 5, 1900. 00, 1011.

Part 39, FPTT. North Side of Bay—Emplacements for Two 12-inch Guns on Disappearing Carriages.

1899. \$67,000 allotted. Work begun. Owing to the peculiarly sheltered position of this battery provision had only to be made against direct penetration and all concrete surfaces were so shaped as to deflect any impinging shot. Work delayed, awaiting settlement of concrete. Old flat traverse irons distributed through the concrete to resist the effect of unequal settlement. 99, 985.

1900. \$8,000 allotted and \$3,913 transferred

from other works. All cracks in concrete repaired and asphalt laid on upper surfaces of the concrete covering of the rooms; electric plant installed and tested. Carriages moved from landing to site of battery under contract; base rings set in June. Summary and itemized cost of battery. 00, 1013.

1901. Guns mounted; turned over to Artillery. 01, 862.

Part 40, FPTT. North Side of Bay—Emplacements for Two 5-inch R. F. Guns on Balanced Pillar Mounts.

1899. \$25,000 allotted. Work begun on excavation, making roadway, storing the necessary gravel and sand obtained from the beach. 99, 986.

1900. Excavation completed, foundations and drains laid, road to site of battery built, and materials for concrete work stored. Work suspended,

awaiting arrival of ironwork of the balanced pillar mounts. 00, 1012.

1901. Engineer work on battery completed; au. given by Chief of Engineers to mount carriages: Artillery troops to do same. Itemized statement of work given. 01, 860.

Part 41, FPTT. Platforms for Four 8-inch Rifles.

1897. \$1,400 allotted. Four platforms for converted rifles nearly finished. 97, 750.

1898. Four platforms for 8-inch converted rifles completed and armed. 98, 786.

Part 42, FPTT. Ten Platforms for 8-inch Converted Rifles and One Service Magazine.

1898. \$3,700 allotted. Three built on n. side of B. and 3 on an isld. in the B. Old timber magazine on the isld. repaired. 98, 786.

1899. Two guns and carriages mounted, in good condition; 2 mounted on practice platforms;

6 guns and carriages received but not mounted. 99, 990.

1900. Three emplacements on an isld. in the B. All armament removed to make way for permanent R. F. gun emplacement. 00, 1008.

Part 43, FPTT. Two 6-inch Guns on Ordnance Department Mounts.

1901. \$30,000 allotted (withdrawn). Preparation of plans in progress. 01, 893.

Part 44, FPTT. Island in Harbor—Emplacement for One 8-inch B. L. Rifle on Non-disappearing Carriage.

1898. \$31,000 allotted. Work begun April 1; necessary buildings erected; excavation completed; 2,300 c. y. concrete placed; on June 20 the entire work was completed, awaiting arrival of carriage. Itemized cost of work. 98, 781, 794.

1899. \$2,000 allotted. Electric-light plant installed; no base ring received. 99, 989.

1900. \$500 allotted. Carriage received; minor repairs of concrete of lookout, latrine, and wooden steps; gun mounted; emplacement transferred to the Artillery on May 1, 1900. 00, 1006.

Part 45, FPTT. Island in Harbor—Emplacement for One 8-inch Gun on Disappearing Carriage.

1899. \$36,000 allotted. 99, 988.

1900. \$2,100 allotted and \$3,492.70 transferred from other allotments. Work begun in July, 1899. As the site of the battery was occupied by a reservoir of 150,000 gallons capacity, a new reservoir had to be built; tank completed. All st. was received from a quarry on Angel Isld. and crushed for use.

Concrete work completed; about 2,000 c. y. placed; electric-light system and ammunition service installed and battery completed, except placing the base ring, not received. Description of work, with itemized cost. 00, 1006.

1901. Base ring set; work completed; transferred to Artillery August, 1900. 01, 871.

Part 46, FPTT. Island in Harbor—Emplacements for Two 5-inch R. F. Wire-Wound Guns.

1900. \$20,093 allotted. Battery site occupied by 3 emplacements for 8-inch converted rifles; rifles and carriages on hand but not mounted also 10 old cannon. These were removed by the Artillery. Work begun January 27 on excavation. 5,310 c. y. removed; 1,296 c. y. concrete placed. No large st. was placed in roofs of magazines. Concrete retaining wall built to the left and slightly

in front of gun No. 2, to prevent further disintegration of the original bank. All machinery installed and work completed, except whitewashing the interior walls. Emplacements ready for guns. Description of work with itemized cost. 00, 1008.

1901. Walls whitewashed; batteries transferred. 01, 871.

Part 47, FPTT.**Miscellaneous.**

Electric plant. 1899. \$13,300 allotted and \$2,719.74 transferred from other works. Plans prepared. 99, 982.

1900. Emplacements 6 to 19, inclusive, to be divided into 3 groups, with a dynamo room and switchboard complete for each group. All work completed under contract for \$8,814. Description of dynamos. 00, 991.

1901. \$1,108.78 allotted. Additional instruments on boards and switchboard at mortar battery No. 1: repairs to wiring. 01, 885.

1902. \$375 allotted. Electric connections made at emplacements 6 and 7; itemized statement of cost given. 02, 775.

Electric-light and power plant. 1901. \$23,595 allotted. Remarks relative to constr. of this plant. 01, 868.

Firing of ordnance. 1901. List of shots fired from batteries on n. side of H. 01, 869. List of shots fired by Ordnance Department on s. side of H. 01, 887.

Engineer buildings. 1901. \$6,451 allotted. New buildings for quarters for workmen and teams under way. 01, 868.

1902. \$181.95 allotted. Buildings completed. 02, 764.

Installation of searchlight. 1901. \$2,515 allotted for constr. br. power house for oil engine and corrugated iron shelter for a 30-inch searchlight work completed. 01, 884. Proj: prepared for installation of 25 lights; est., \$127,205.61. 01, 893.

Peace storage magazine. 1901. Ests. for constr. of peace storage magazine in this district, respectively, \$7,665.58, \$6,511.16, \$10,316.97, \$7,554.43. 01, 893.

Power house and shelter for projector. 1901. Building erected; work completed; itemized statement given. 01, 862.

Shelf lockers for dynamo rooms. 1901. Constr. of 8 shelf lockers for tools and cleaning material; work completed. 01, 885.

Steam vessel. 1901. \$12,000 allotted for tug with barge to transfer material; work nearly completed; suspended owing to machinist strike. 01, 92, 893.

1902. \$8,255.39 allotted. Vessel completed; named *Gen. Alexander*. 02, 779.

Tool rooms and rammer racks. 1901. \$700 allotted. Work completed. 01, 885.

Part 48, FPTT.**Preservation and Repair.**

1897. Slopes of mortar battery No. 1 repaired; 4 platforms for 2-inch converted rifles nearly finished; minor work. 97, 750.

1898. Four platforms for 3 converted rifles completed and armed; \$3,700 allotted; work begun on 10 others; 3 built on n. side of B. and 3 on an isld. in the B. On the isld. the old timber magazine was repaired. 98, 786.

1899. \$5,375 allotted. General care and preservation. 99, 989.

1900. \$6,480 allotted. General care and preservation. 00, 1005, 1010, 1015.

1901. N. side—\$2,734 allotted for replacing asphalt covering with a concrete roof, emplacements for three 12-inch guns, disappearing battery;

work finished; itemized statement of work given.

01, 869. Islds. in H.—watchman employed, general care of buildings, etc.; \$1,022 allotted. 01, 872. S. side—\$3,244 allotted. Fence constr. around reservation to keep off trespassers; other misc. work done. 01, 886.

1902. N. side—at battery for three 12-inch guns, concrete roof painted; some work done in magazine galleries; whitewashing rooms and passages. 02, 765. Two 5-inch R. F. guns; water piping repaired; earth slope sown with alfalfa. 02, 765. Two 8-inch guns—steel grate installed. 02, 765. Misc. repairs; dry rubble wall erected. 02, 765. S. side—repairs made at various batteries; itemized statement given. 02, 775, 776.

Part 49, FPTT.**Range and Position Finders.**

1898. Shelter of Lewis range finder—gossamer cloth provided. 98, 788.

1899. \$18,000 allotted for building 13 range-finder shelters of type A and 11 of type B. On s. side o. B.—1 shelter completed and work on 4 others; work suspended owing to changes of sites. Piers of emergency range finder, type B, near emplacements 10 and 16, completed. At another point, 1 pier built and work completed for another finder. On n. side of B.—excavation made for 2 piers and concrete work completed, awaiting the

roofs. Work suspended owing to change of sites 99, 989.

1900. N. and s. sides of B.—2 partly completed range-finder shelters that could be utilized for the new system were completed; 2 more stations completed; itemized cost of work. 00, 1015, 1016.

1901. Constr. of a supplementary observing station; work completed. 01, 885. \$800 allotted. Constr. 2 observing stations at emplacements 18 and 19 of 12-inch barbette batteries; work completed. 01, 885. N. side—2 remaining shelters

built. S. side—fourth shelter built. The entire 8 shelters transferred to Artillery. 01, 891. Datum beacons for range finders. \$725 allotted for constr. 3 datum beacons; 2 set. 01, 892.

1902. \$450 allotted. 12-inch mortar battery; observation station built in this battery; itemized

statement given. 02, 774. \$2,100 allotted for constr. battery-commander's station; site selected; plans and ests. in preparation. 02, 778. Installing beacon on n. side of H. completed. 02, 779. \$39.18 allotted for material for base end houses. 02, 779.

Part 50, FPTT. Sea Walls and Embankments—Fort Point.

Excavation of sea wall completed, constr. in progress; bulkhead for protection of roadway built; minor work. 68, 20. Sea wall 600' long completed; work begun on an apron of masses of r. in front of

chan. sides of the fort. 69, 20. Apron 709' long in front of the sea wall on the chan. fronts completed; 3,500 t. of st. used. 70, 27.

Part 51, FPTT.

Sites.

Point Lobos—proceedings in progress for 54.05 acres. 92, 10. S. side of B.—\$40,000 allotted. Proceedings in progress. 00, 1003. \$3,969.20 allot-

ted condemnation suit; proceedings concluded; land acquired; payments made. 01, 886. Records—\$2.70 allotted for correction of records. 02, 778.

Part 52, FPTT.

Submarine Mines.

1891. Two mining casemates completed, work begun on excavation for another one. 91, 8.

1892. Mining casemate completed and storage shed erected. 92, 8.

1893. \$7,590 allotted. Work begun, excavation and concrete work completed, and casemate nearly finished. Itemized cost of work. 93, 623.

1894. Mining casemate completed. 94, 11.

1897. \$8,000 allotted for a torpedo casemate. 97, 745.

1898. Work begun on torpedo casemate in July. 1897, and completed in November, 1897. Overhead traveler installed in the cable tank and 1 in the torpedo shed. 98, 795. \$47,000 allotted for torpedo defense; material purchased and first mine planted June 11, 1898; 42 mines were placed. 98, 796.

1899. \$150 allotted for purchasing electric-light materials; no funds used. \$1,785 allotted for repairs of car tracks that were injured by storm; r. revet. built alongside to protect it from further damage. 99, 991. \$3,000 allotted for casemate

No. 2; completed under contract. \$2,000 allotted for an additional brick engine house at this casemate; work completed under contract. \$3,350 allotted for an additional cable tank and torpedo station; work completed. Laying of mines continued till July 16, but laying of cables continued, and the entire first line of mines across the B, was completed on August 13. All mines and cables removed from water, cleaned, and stored; work completed in November; itemized cost of work. 99, 991. 992.

1900. \$600 allotted for pay of keeper and expenses of torpedo station; racks erected, completing the torpedo shed. Additional cable tank at the torpedo station completed. 00, 1017, 1018.

1901. \$1,200 allotted. Repairs to damaged torpedo shed, keeper's dwelling; searchlight outfits transferred; minor repairs, etc.. 01, 894.

1902. \$610 allotted. Obsolete material shipped to Willets Point; glass replaced in windows and screens put up; torpedo-shed roof repaired. 02, 780.

Part 53, FPTT. Supplies for Seacoast Defenses.

1900. \$1,000 allotted. No expend. 00, 1017.

1901. Electric supplies purchased and alterations made to switchboards. 01, 893.

Part 54, FPTT. Survey for Land Defenses.

1866-68. Survey in progress. 67, 15; 68, 20.

FPWW. COLUMBIA RIVER FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FPWW. Contracts.

1897. Portland cement, 3,000 barrels, at \$2.13 per barrel; broken st., 65¢ per c. y. Wharf, \$9,302.97, 762.

Part 2, FPWW. Engineering Features.

Air spaces. 02, 2494 (pl.).
 Asphalt. Courses of asphalt. 02, 2494 (pl.).
 Laying. 02, 2484 (pl.). Courses turned up under coping. 02, 2483, 2494 (pl.). Asphalt. st. joints. 02, 2494 (pl.). Waterproofing with asphalt. 02, 2494 (pl.).

Booths for telautographs. 03, 2424 (pl.). Provisions for booths in walls. 05, 3032 (pl.).

Boards, wire, ceilings. 02, 2494 (pl.).
 Communications, system of. 99, 1003; 03, 2423.

Concrete work, ceilings. 02, 2478. Closets in walls. 02, 2477, 2480, 2494 (pl.). Cracks in, old RR. iron to prevent. 99, 995, 1002. Filling with linseed oil. 99, 1003. Repairing. 00, 1023. Repairing surface cracks. 02, 2487. Finishing, granolithic finish. 99, 1001. Forms. 02, 2486,

2494 (pl.). Good and bad work, examples. 02, 2494 (pl.). Gun blocks. 02, 2479. Leaks in, experiments to prevent. 01, 924. Manufacturing. 02, 2484; 99, 1001. Mixer building. 02, 2494 (pls.). Overhead cover. 02, 2480. Parapets, finishing top surfaces. 00, 1025. Loading platforms. 02, 2478. Reinforcing. 02, 2477, 2494 (pl.). Tamping. 03, 2424.

Condensation, controlling. 00, 1023; 01, 924. "Recent works" give no trouble from. 01, 924. Advantage of ventilators proved. 01, 925. Various methods of assuring ventilation and noncondensation. 02, 2488.

Construction, salient details of. 01, 923. Plant layout. 02, 2494 (pl.). Plant. 97, 756; 99, 1000; 02, 2491. Material bunkers. 02, 2494 (pl.).

Doors, steel doors. **02**, 2494 (pl.).
 Drainage, general arrangement for, battery constr. on beach sand. **02**, 2494 (pl.). Water drain in ventilator. **02**, 2494 (pl.).
 Dryness, providing for. **01**, 923.
 Electricity, plant. **98**, 798; **99**, 997; **00**, 1022.
 Embankments, sand for, placing. **99**, 1002.
 Fireplaces, provisions for, in concrete. **02**, 2480, 2494 (pl.).
 Foundations, beds. **02**, 2475, 2476.
 Gudgeons, setting. **02**, 2490.
 Hydrants, walls, loading platforms. **05**, 3033 (pl.).
 Leaks, methods of preventing. **01**, 924.
 Lighting, conduits and wireboards. **02**, 2482.
 Various arrangements. **02**, 2495.
 Lining, hollow tile for. **05**, 3032 (pl.).
 Lockers, arrangements for. **03**, 2424 (pl.).
 Materials, costs. **97**, 758, 761; **99**, 1000. Obtaining and delivering. **02**, 2493. Handling to mixers. **02**, 2494.
 Paints, paints and washes. **02**, 2494.
 Railings and stanchions. **02**, 2494 (pl.).

Recesses, providing, for wireboards. **02**, 2494 (pl.). Speaking tubes. **02**, 2494 (pl.). Hydrants. **02**, 2494 (pl.). Blackboards. **05**, 3032 (pl.).
 Speaking tubes, arrangements or. **02**, 2481; **03**, 2423; **04**, 3739 (pl.).
 Stairways, details. **05**, 3032 (pl.).
 Stanchions. (See Railings.)
 Switches, 3-way switches. **04**, 3739. Switch-board arrangements. **02**, 2494 (pl.).
 Titles, battery titles formed in cement. **05**, 3033.
 Trackage. **02**, 2492, 2494 (pl.).
 Ventilation, system. **00**, 1023.
 Walls, reinforcing traverse walls. **05**, 3032 (pl.).
 Reinforcing vertical walls. **05**, 3033 (pl.).
 Water, connections. **02**, 2481.
 Waterproofing, various methods. **02**, 2482.
 Wharf, R.R. wharf and unloading arrangements. **02**, 2494 (pl.).
 Windows arrangements for, in concrete. **03**, 2424 (pl.).

Part 3, FPWW.

Engineers.

Chief of Engineers. **R.**, 66, 18; 68, 20; 69, 19; 70, 28; 71, 25; 72, 24; 73, 25; 74, 29; 75, 28; 76, 29; 77, 24; 78, 27; 79, 32; 80, 54; 81, 55; 82, 54; 83, 50; 84, 55; 85, 48; 86, 47; 95, 5, 96, 20; 97,

21, 756; 98, 31, 797; 99, 36, 993; 00, 33, 1018; 01, 34; 02, 35; 03, 9; 04, 5, 9; 05, 5, 10; 06, 5; 07, 5; 08, 9; 09, 10; 10, 12; 11, 8; 12, 7.

Part 4, FPWW.

Board of Engineers.

1882. Constituted to consider and report upon the constr. of fortifications, and what number, if any, could be dispensed with. **82**, 428.

Part 5, FPWW.

Engineers in Charge.

Col. R. E. De Russey, 1866.
 Maj. G. H. Elliott, 1866-69.
 Maj. G. H. Mendell, 1870-71.
 Maj. H. M. Robert, 1871-74.
 Maj. N. Michler, 1874-76.
 Maj. J. M. Wilson, 1876-78.
 Maj. G. L. Gillespie, 1880-82.

Capt. C. F. Powell, 1882-86.
 Maj. J. C. Post, 1896.
 Capt. H. Taylor, 1896.
 Maj. W. L. Fisk, 1896-99.
 Capt. W. C. Langfitt, 1900-02.
 Capt. W. W. Harts, 1900-01.

Part 6, FPWW.

Assistant Engineers.

Capt. C. W. Raymond, 1870.
 Capt. H. Taylor, 1896.
 Capt. A. F. Flagler, 1896-98.

Lt. W. D. Connor, 1898.
 Lt. A. A. Fries, 1899-1900.

Part 7, FPWW—**FORTS AND BATTERIES.****Part 8, FPWW. Fort Stevens, Oreg. (South Side of River).**

1869. Scarp revet. removed and exterior slope of parapet extended to bottom of ditch; covered way with parapet built along the counterscarp; minor repairs. 69, 19.

1870. 300' of facing of counterscarp relaid; slopes resodded. 70, 28.

1871. Picket fence erected. 71, 26.

1875. Postern of work repaired. 75, 28.

1876. New platform built for 15-inch gun, revet. in front renewed; revet. also renewed in front of one 10-inch and three 8-inch guns and the earthwork adjacent graded and sodded. 76, 29.

1877. Revet. of interior slopes renewed, old traverses renewed, and minor work; sea wall protection built. 77, 24.

1878. Shore protection built; minor repairs to gun platform and brs. 78, 28.

1879. Drain to moat put in order, revet. of sally port strengthened; the old lining of the

passage leading to the magazine chamber strengthened, and a substantial interior waterproof lining added. 79, 33.

1880. Earth covering removed from sally port; wooden drain to moat replaced by an 8-inch tile drain; minor work. 80, 54.

1881. Sally port wholly rebuilt; revet. of traverses on both sides of 15-inch gun rebuilt and earth sodded; minor work. 81, 55.

1883. Repair of drains and moat; powder house built, work on breast-high plank walls, and shore protection. 83, 50.

1884. Marsh sod revet. of interior slope repaired; 4 shot platforms and 5 gun platforms built; work on magazine. 84, 55.

1885. Repair of magazine completed. 85, 48.

1886. Seven gun platforms rebuilt; minor work and repairs. 86, 48.

Part 9, FPWW. Fort Canby, Wash. (North Side of Chinook River).

1875. Two new gun platforms built. 75, 28.

1876. Magazines of w. battery built, 10-inch gun platforms in e. battery rebuilt, and new revet. placed in front. 76, 29.

1878. Main magazine painted. 78, 27.

1880. Revet. of interior slopes of center battery and part of revet. of right battery removed; platforms and revet. of 15-inch gun battery rebuilt new roof built on powder magazine; minor work. 80, 54.

1881. Powder magazine painted. 81, 55.

1882. Rampart of center battery extended on the left and a platform placed for a 12-inch rifle

received; repairs of breast-high plank walls; minor repairs. 82, 55.

1884. Service magazine and 3 gun platforms at center battery rebuilt; minor repairs made. 84, 55.

1885. Repair of service magazine and 2 gun platforms at the left battery; minor repairs in center battery and to the power house. 85, 48.

1886. Five gun platforms built at the right battery and shot beds at 3 batteries. 86, 48.

Part 10, FPWW. Cape Disappointment, Wash.

1870. Powder house; concrete foundation built. 70, 28.

1872. Painting powder house with fireproof paint. 72, 24.

Part 11, FPWW. 10-inch Gun Battery, Six Emplacements.

1897. Work begun September, 1896, for 4 emplacements; steam shovel, capacity $1\frac{1}{2}$ c. y., bought; excavation and concrete work completed; 90,140 c. y. excavated and placed in parapet fill, completing it and parados; 3 guns and carriages received and mounted. Description of plant; itemized cost of constr. materials. 97, 756.

1898. The other carriage and gun received and mounted; rear stairways built for the emplacements; handrails put around the loading platforms; parapets, parados, and rear fills completed and sodded; 107,530 c. y. sand placed; 13,208 c. y. concrete placed in the 4 emplacements; 1,105 c. y. of this large r. in pieces; drainage system com-

pleted. The 4 emplacements completed, except the steel cover for the observation station, with ammunition carriers, crane, etc., turned over to the commanding officer, Fort Canby, March 16. 98, 797.

1899. \$25,000 allotted. Work begun, 1898, for 2 additional emplacements; 9,994 c. y. concrete placed; 25 t, old rails embedded in the concrete; 2 courses laid every 12' longitudinally and every 14' transversely to tie together the concrete mass to prevent cracks; 41,267 c. y. sand excavated and placed for parapet fill; machinery installed; emplacements practically completed. 99, 994.

1900. Connection made in rear of traverses

between guns of emplacements 1 to 4 to allow ammunition to be taken from one platform to the next. Necessary changes made in platforms for floor plates of 18 inches instead of 12 inches. One 10-inch disappearing carriage and two 10-inch guns received; the base ring set in emplacement 5 and the carriage and gun mounted by the Artillery troops. The 2 A. R. F. emplacements, 5 and 6, turned over to the commanding officer June 28, 1900. 00, 1019.

1901. Gun and carriage emplacement 6 mounted by Artillery; cables laid; parapet surfaces given 2 coats asphalt to stop leaks; plant dismantled; grounds cleared. 01, 896.

Part 12, FPWW. Two Emplacements for 8-inch Rifles.

1897. Work begun in 1896. Wharf nearly a mile long; built under contract for \$10,867.64; 10,905 c. y. excavated for foundations and necessary buildings; plant erected. Description of work of building wharf; itemized cost of constr. materials. 97, 759.

1898. Concrete work begun July 7. 4,500 c. y. placed and 15,860 c. y. earth excavated, including some excavation in front of the emplacements to

secure the desired field of fire; 9,900 c. y. earth deposited as fill in the parapets; drainage system completed; 2 guns and carriages received and mounted, and apron placed after full settlement of parapet fill. 98, 800.

1899. Emplacements wired; lamps and switches put in. Several rooms and passages leak slightly because of cracks in parapet. 99, 997.

1901. Storage battery installed. 01, 897.

Part 13, FPWW. Emplacements for Eight 12-inch Mortars.

1898. Work begun in August. 6,173 c. y. concrete and 39,740 c. y. sand filling placed; drainage system completed; 7 carriages received and mounted; wiring for electric lights completed, and a storage battery of 52 cells, with switchboard, installed. Battery nearly completed. 98, 798.

1899. The other mortar carriage received and mounted. Granolithic finish placed on the pits and the completed battery turned over to the

Artillery on Jan. 17, 1899. Cracks appearing in the apron of each mortar pit, causing slight leaks in the shell rooms. 99, 996.

1900. Eight mortars mounted by the Artillery in July. \$2,000 allotted for a new drainage system; work completed. 00, 1020.

1901. Pit aprons given thin coat of asphalt. 01, 897.

Part 14, FPWW. Emplacement for One 8-inch Rifle, Experimental Disappearing Carriage, Model 1894.

1898. Work begun in August. 5,615 c. y. excavated and 2,805 c. y. concrete placed, of which amount 17% was large st. Drainage system completed. 98, 800.

1899. Emplacement wired. Some trouble experienced from dampness and small leaks. 99, 997.

1901. Carriage and gun mounted by Artillery June, 1901. 01, 898.

Part 15, FPWW. Site 1—Two Emplacements for 15-pounder R. F. Guns.

1899. \$12,000 allotted. Some constr. materials received. 99, 997.

1900. Work completed, including the wiring for electric light. 756 c. y. concrete placed and 3,384 c. y. sand placed in parapet. Fence built

around battery. No armament received. Emplacements were turned over to the commanding officer June 28, 1900. 00, 1020.

1901. Base castings set; guns mounted. 01, 897.

Part 16, FPWW. Site 1—Two Emplacements for 6-inch R. F. Guns.

1899. Plans submitted; action deferred; kind of mount not definitely determined. 99, 998.

1900. \$15,000 allotted. No money to be expended till receipt of further instructions. Detail of mount not perfected. 00, 1024.

Part 17, FPWW. Site 1—Two Emplacements for 6-inch Rifles, Disappearing Carriages, Model 1898.

1899. \$57,600 allotted. Constr. materials received. 99, 998.

1900. Work begun; 4,342 c. y. concrete placed and 12,036 c. y. sand used for parapet fill; drainage system installed; fence built around battery; carriages received and base rings set; carriages mounted by the Artillery; changes made in the system of electric lighting; rearrangement of the

storage battery. \$1,500 allotted for a water-supply system; work begun; emplacements turned over to the commanding officer on June 28, 1900. 00, 1020.

1901. Grounds cleared and graded; macadam road made; emplacements wired and storage battery installed; guns not yet received. 01, 897.

Part 18, FPWW. Site 1—Emplacement for 15-pounder R. F. Gun.

1900. \$5,450 allotted. Material advertised for. 00, 1024.

1901. Work completed and turned over Nov 12, 1900. 01, 897.

Part 19, FPWW. Site 1—Emplacements for Two 6-inch R. F. Guns on Pedestal Mounts.

1901. \$29,000 allotted. Drawings and est. submitted; excavation commenced: 15-inch S. B. gun moved from its platform to the banquette tread entirely clear of proposed emplacements. 01, 897.

1902. Work completed; turned over Jan. 17 1902; ammunition hoists and electric plant installed; guns and mounts not yet delivered. 02 782.

Part 20, FPWW. Site 2—Two Emplacements for 15-pounder R. F. Guns.

1899. Revised plans approved. \$10,610 allotted. Sand for concrete received. 99, 998.

1900. Work begun in August, 1899. 7,755 c. y. excavated and 723 c. y. concrete placed. A macadam roadway built to connect with the 6-inch

emplacement. Battery to be lighted from the electric-light plant in the 6-inch battery. No armament received. Emplacements turned over to the commanding officer on June 28, 1900. 00 1023.

Part 21, FPWW. Site 2—Two Emplacements for 6-inch Rifles, Disappearing Carriages, Model 1898.

1899. Revised plans approved. \$57,600 allotted. Work begun clearing site of the battery. 99, 998.

1900. Work begun; excavation completed: 8,765 c. y. removed; 3,859 c. y. concrete placed; all drainage and water systems completed; all machinery installed; macadam roadway built connecting with the 15-pounder battery. Two carriages received and unloaded, then turned over to the

Artillery for mounting; work completed. Battery is designed to accommodate duplicate oil engine and dynamo, electric light and power plant, doing away with all outside wiring and the storage battery; contract made for this plant. Emplacements turned over to the commanding officer on June 28, 1900. 00, 1022.

1901. Electric-light plant installed. 01, 898.

¹Refers to 6" B. L. R., 99, 998.

Part 22, FPWW. Site 2—Emplacement for 15-pounder R. F. Gun.

1900. \$4,840 allotted. Materials advertised for.
00, 1024.

1901. 3,200 c. y. excavated; 295 c. y. concrete laid; emplacement completed Oct., and turned over to Artillery Oct. 28, 1900. **01, 898.**

Part 23, FPWW. Platform for 15-inch S. B. Gun.

1901. Dismounted and removed to permit constr. of two 6-inch emplacements; pedestal mounts. **01, 897.**

Part 24, FPWW. Miscellaneous.

Electric-light stations. **1898.** Site 1—683 c. y. concrete placed for foundations; wiring finished and station completed; description of plant. **98, 798.** Site 2—1,985 c. y. earth and 380 c. y. r. excavated for foundations; 400 c. y. concrete placed; building nearly completed. **98, 801.**

1899. Site 2—floors of the 2 rooms finished; work completed June 16, 1898, and turned over to the commanding officer. **99, 997.**

1900. Site 2—plant installed and in operation or direct lighting of the three 8-inch emplacements; storage battery received, ready for installation. **00, 1022.** Both plants completed and turned over to Artillery Oct. 29, 1900, and Jan. 19, 1901, respectively. **01, 898.**

1902. \$1,400 allotted for electric-light station, site 1; old boiler condemned and replaced by a vertical boiler. **02, 782.**

Water supply. **1901.** The 10-inch, 12-inch, and 6-inch batteries provided with their own water-supply system. **01, 897.**

Drainage system. **1901.** Work of changing drainage system of 10-inch mortar batteries completed. **01, 897.**

Searchlights, chain hoists, telautographs. **1902.** Est. for proposed location and installation of two 36-inch and six 24-inch searchlights submitted; plans for providing older batteries with suitable chain hoists submitted; detailed drawings submitted of cost for installing telautographs for guns of 8-inch caliber. **02, 783.**

Part 25, FPWW. Preservation and Repair of Fortifications.

1898. Two 10-inch S. B. guns dismounted and a new platform for a 15-inch front-pintle platform built on their site. Carriage received and mounted and the 15-inch S. B. gun moved from the old center-pintle platform and mounted on new carriage. The old jetty, shore, and wharf trestle repaired; 10,767 c. y. sand filling placed in the trestles; foundation of the water-supply tank renewed, new windmill tower built, and a new well driven. **98, 800.** Wharf and plant repaired. **98, 801.** S. side of R.—\$2,000 allotted; quarter; and buildings repaired and a wooden platform for 15-inch Rodman S. B. gun built. N. side of R.—\$150 allotted for repairs to powder magazine; a new tin roof placed. **98, 803.**

1899. \$1,775 allotted. Old fort repaired; electric plants operated and cared for, storage batteries

regularly charged, new quarters built for accommodation of 180 men, and general repair o. constr. plant. **99, 996, 999, 1,004.**

1900. \$2,550 allotted. Cracks in the pits, aprons o the mortar battery and 8-inch battery partly repaired; method of work. \$1,410 allotted for care of electric-light plant and storage batteries. **00, 1023.**

1901. \$480 allotted. Electric-light plants charged and cared for; stoppage of leaks; storing and caring or mining material; materials transferred to Artillery. **01, 899.**

1902. Leaks in passages stopped; repairs at 6-inch and 8-inch emplacements; leaks in apron stopped by asphaltting. **02, 782.**

Part 26, FPWW. Range and Position Finders.

1899. An 8-inch cast-iron pipe set in the concrete for a type B range finder; platform with pipe railing built around it for convenience in working the instrument. **99, 995.**

1900. \$2,729 allotted for a battery-commander's station, type A, for the 10-inch battery; station completed in May; given extra protection of concrete because of its exposed position. \$1,666 allotted for a battery-commander's station, type A, for the 8-inch battery; work completed in May.

00, 1021. \$225 allotted for mounting bases for type B, range and position finders at 2 sites. One mounting was installed at the first site with a wooden stairway leading to it and another mounted at the second site. **00, 1022.**

1901. Site 1—battery-commander's station turned over to Artillery Nov. 29, 1900. **01, 897.** Site 2—battery-commander's station turned over to Artillery Nov. 29, 1900. **01, 898.**

Part 27, FPWW. Sea Walls and Embankments.

Fort Stevens—1,000 l. f. st. and brush revet. built to protect sea wall. **77, 24.** New revet. of

brush and st. and several small wing dams built along the shore of Point Adams. **78, 28.**

Part 28, FPWW. Submarine Mines.

1897. \$7,500 allotted. Work begun in April on a mining casemate. R.R. trestle 1,200' long built for transporting materials to site of work; 1,267 c. y. excavated and 489 c. y. concrete placed, nearly completing the work. **97, 759.** \$6,000 allotted for a second mining casemate; constr. materials received. **00, 762.**

1898. Site 1—mining casemate completed, including 750' of gallery; 12,263 c. y. sand for protection and 718 c. y. concrete placed. **98, 798.** \$2,000 allotted for a cable tank; work begun in April and completed in May. **98, 799.** Site 2—mining casemate; 4,177 c. y. excavated; 635 c. y. concrete placed; work nearly completed. **98, 801.** \$8,000 allotted for torpedo defense; materials received and cables laid, but no mines planted. \$1,000 allotted for gun platforms; no money expended. **98, 802.**

1899. Site 1—mining casemate; \$734 allotted for concrete culvert in place of the 12-inch cast-iron pipe and for installing a blower; work com-

pleted. **99, 996.** Second cable tank built; house built over it; the track for the overhead traveler extended from the tank first built. **99, 996.** \$5,800 allotted for a torpedo storehouse, which was completed. **99, 996.** Site 2—mining casemate; \$1,885 allotted for altering casemate for the machinery required; work in progress. **99, 997.** All torpedo material cleaned and stored; 2 searchlight outfits received, 1 set up and operated. **99, 999.**

1900. Site 1—inside of casemate and engine rooms painted white and a blower provided. **00, 1020.** Torpedo storehouse; Steel roof trusses painted black and the ceilings and inside walls white; doors and windows were also painted. **00, 1020.** Site 2—mining casemate; Oil, engine, and dynamo room completed and a small blower provided. **00, 1022.** All torpedo material overhauled, cleaned, and stored. One drum of multiple cable found to have a defective core; new cable received. **00, 1024.**

Part 29, FPWW. Supplies for Seacoast Defenses.

1901. \$800 allotted. Electric supplies furnished commanding officer. **01, 899.**

FPXX. PUGET SOUND, WASH., FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

Part 1, FPXX.**Contracts.**

1897. Battery of four 10-inch guns and two 12-inch guns on nondisappearing carriages, \$163,-453.50. 97, 768. Four emplacements for 10-inch guns on disappearing carriages, \$34,980.50; battery for sixteen 12-inch mortars, \$78,052.01. 98, 809.

1898. Wharf, \$7,080.20; steel-hull tugboat, \$37,-000; sand, large gravel and small gravel, 65¢ to \$1 per c. y. 99, 1011, 1015.

1899. Sand, small gravel, or broken st., 55¢ per c. y. 00, 1029.

1901. Sand and gravel: constr. torpedo storehouse; clearing and excavating for three 8-inch gun batteries; for mortar battery No. 3; observation towers for fire and battery commander's stations, at sites 1 and 4. 01, 909.

Part 2, FPXX.**Engineering Features.**

Concrete, cost per c. y. 00, 1027, 1040, 1042.

Concrete, ingredients of. 00, 1027.

Concrete mixing, method. 99, 1009; 00, 1043.

Plant, arrangement of (tracings). 99, 1010.

Waterproofing, method of. 99, 1006; 00, 1026, 1027, 1028, 1037.

Work, cost of. 98, 804, 805; 99, 1005, 1007, 1008; 00, 1038, 1040, 1041, 1042.

Part 3, FPXX.**Engineers.**

Chief of Engineers. R., 96, 21; 97, 21, 763; 98, 32, 803; 99, 36, 1005; 00, 33, 1026; 01, 35; 02, 36; 03, 9; 04, 5, 9; 05, 5, 10; 06, 5; 07, 5; 08, 9; 09, 10; 10, 12; 11, 8; 12, 7.

Part 4, FPXX.**Engineers in Charge.**

Capt. H. Taylor, 1896-01.
Lt. M. L. Walker, 1899.

Maj. John Millis, 1901-02.
Assistant. Lt. M. L. Walker, 1897-1901.

Part 5, FPXX—**FORTS AND BATTERIES.****Part 6, FPXX. Site 1—Battery for Four 10-inch and Two 12-inch Guns, Non-disappearing Carriages.**

1898. \$175,000 allotted. Work begun July 31, 1897, under contract. Wharf built. Two 10-inch emplacements completed, except installing machinery; 2 others have the concrete about half laid and two 12-inch emplacements have the excavation completed; floors laid and forms built for concrete. 94,781 c. y. excavated for foundations and 6,292 c. y. concrete placed. Four 10-inch platforms ready for carriages; the 12-inch platforms ready in about 3 weeks. Two 10-inch and two 12-inch carriages received. Itemized cost of work. 98, 803, 811.

1899. \$2,000 allotted. Work under contract completed Mar. 28, 1899. Part of the rooms covered with asphalt and a facing of hollow brick put on outside the concrete. These have proved perfectly dry, while the rooms where these precautions were not taken have proved damp. Itemized cost of work. Three 10-inch and two

12-inch carriages mounted and three 10-inch and two 12-inch guns received. 99, 1005, 1014.

1900. Earth abutment again: the wall through which moisture came excavated; the outside walls cleaned, plastered, and waterproofed with an alum-and-lye wash: a facing of hollow brick laid against the wall and the earth refilled. Three 10-inch and two 12-inch guns mounted on the 12-inch guns fired. The remaining 10-inch gun and carriage received; mounting in progress by the Artillery. All ordnance property turned over to ordnance officers. 00, 1026, 1037, 1038.

1901. Traverses nearly completed; slope trimmed and seeded; fixtures placed; 10-inch gun mounted, and all 10-inch guns fired with service charges. 01, 902.

1902. Additional work done on traverse roads, and gutters; repairs to latrines; battery transferred to Artillery June 30, 1902. 02, 785.

Part 7, FPXX. Site 1—Emplacements for Two 5-inch R. F. Guns on Balanced Pillar Mounts.

1899. \$12,000 allotted. Plans prepared and part of plant accumulated. 99, 1013.

1900. \$3,000 allotted. Work begun July 25, 1899, by hired labor. Small wharf built. 1,116 c. y. concrete placed, completing the work; awaiting

arrival of mount. Itemized cost of concrete also total cost per c. y. Work suspended Mar. 3, 1900. 00, 1031, 1037.

1902. Transferred to Artillery June 16, 1902, 02, 785.

Part 8, FPXX. Site. 1—Emplacements for Sixteen 12-inch Mortars, Mortar Battery No. 3.

1900. Survey made of proposed site and plans and ests. prepared. 00, 1038.

1901. \$91,000 allotted. Site cleared, grubbed, and excavation done; constr. work in progress; drains placed; floors laid; mortar carriages received. 01, 902.

1902. \$1,025.10 allotted. Battery built; 8 mortar carriages mounted by Artillery; plans for electric service prepared. 02, 785.

Part 9, FPXX. Site 2—Emplacements for Four 10-inch Guns, Disappearing Carriages.

1898. \$95,000 allotted. Work begun Aug. 31, 1897, under contract. 37,154 c. y. excavated for foundations and 9,244 c. y. concrete placed; 2 emplacements practically finished, except lifts, trolleys, and other metal work. The platforms of the other 2 emplacements laid; floors laid and forms nearly all up. Itemized cost of work. **98**, 805.

1899. \$7,600 allotted. Work under contract completed Dec. 15, 1898. Four carriages received. Itemized cost of work. **99**, 1006, 1014.

1900. Slopes and drains repaired; minor work to be done. Four carriages assembled and 3 rifles received and mounted. All ordnance turned over to the ordnance officer. **99**, 1026, 1039.

1901. Superior slope filled out; guns fired with service charges. **01**, 902.

1902. Railings placed about gun platforms; minor repairs made; plans and est. for electric service prepared; emplacements transferred to Artillery June 16, 1902. **02**, 784.

Part 10, FPXX. Site 2—Mortar Battery for Sixteen 12-inch Mortars, No. 1.

1898. \$90,000 allotted. Work begun under contract. 6,291 c. y. excavated for foundations. Six carriages received. **98**, 808, 811.

1899. Work completed Mar. 14, 1899. Itemized cost of all work: 10 carriages received and 13 mounted. **99**, 1008, 1014.

1900. Slopes and drains repaired and battery whitewashed. Twelve mortars received and

mounted. All ordnance property turned over to ordnance officer. **00**, 1039.

1901. \$6,000 allotted. Slopes regraded and seeded; road completed; mortars fired with service charge. **01**, 902.

1902. Minor repairs; plans and est. for electric service prepared; battery transferred to Artillery June 16, 1902. **02**, 785.

Part 11, FPXX. Site 2—Emplacements for Two 5-inch R. F. Guns on Balanced Pillar Mounts.

1899. \$12,000 allotted. Plans prepared. **99**, 1013.

1900. \$6,850 allotted. Work begun Aug. 12, 1899, by day labor, and continued till Mar. 15, 1900,

when work was suspended on account of lack of funds. Work to be resumed. **00**, 1031, 1039.

1902. Finishing work done; transferred to Artillery June 16, 1902. **02**, 785.

Part 12, FPXX. Site 3—Battery for Five 10-inch and Two 12-inch Guns, Non-disappearing Carriages.

1898. Plans being prepared. **98**, 810.

1899. \$191,000 allotted. Work begun Sept. 6, 1898, by day labor. Excavation completed; 5,526 c. y. concrete placed. This included the man-holes of drainage system, retaining walls, foundation throughout, all the storerooms at the ends of the emplacements, and practically the completion of all the gun platforms. **99**, 1010.

1900. \$35,000 allotted. 18,456 c. y. excavated for foundations by day labor and 43,560 excavated by contract upon the superior slope put into back fill; 17,309 c. y. concrete placed and minor work. Battery completed, except whitewashing and

finishing of the walls, painting, and minor work. Description of work, with itemized cost. Four 10-inch guns and one 12-inch carriage received and mounted and one 10-inch rifle received. **00**, 1027, 1040, 1043.

1901. Slope graded and seeded; mounting of all guns and carriages, except one 12-inch gun, completed; 3 special ammunition trucks constr. **01**, 901.

1902. One 12-inch gun and carriage mounted; plans and est. for electric service prepared; battery transferred to Artillery June 16, 1902. **02**, 784.

Part 13, FPXX. Site 3—Emplacements for Sixteen 12-incl Mortars.

1899. \$160,000 allotted. Battery to be built by hired labor. 99, 1012.

1900. Work begun July 6, 1899. 65,861 c. y. excavated for foundations and 10,290 c. y. concrete placed. Battery practically completed: erecting trolleys, whitewashing and painting, installing electric system, and minor work to be done. Summary of work, with itemized cost. Ten carriages received and mounted and 16 mortars and 2 carriages on hand. 00, 1028, 1041, 1043.

1901. \$6,300 allotted. Sixteen mortars and carriages mounted and partly cleaned and painted 01, 902.

1902. Repair work on slopes and roads; mortar and carriage dismounted; carriage sent away for repairs; plans for electric service; battery transferred to Artillery June 16, 1902. 02, 785.

Part 14, FPXX. Site 3—Emplacements for Two 5-inch R. F. Guns on Balanced Pillar Mounts.

1899. \$11 000 allotted. Plans prepared. 99, 1013.

1900. Work begun April 7. Excavation completed and 1,095 c. y. concrete placed; mounts not

yet received. Itemized cost of a c. y. of concrete 00, 1031 1043.

1901. Emplacements finished. 01, 902.

Part 15, FPXX. Site 4—Emplacements for Three 8-inch Guns on Disappearing Carriages.

1899. Work in progress on a detailed survey of site. 99, 1014.

1900. \$103,000 allotted. Work begun Mar. 1, 1900. Wharf built, site cleared, and excavation made by contract; 12,637 c. y. removed for excavation and placed in back fill. Erecting constr. plant. 00, 1030, 1044.

1901. \$15,000 allotted. Battery constr.: nearly finished; guns received. 01, 902.

1902. Work finished; plant removed; 2 carriages received. 02, 785.

Part 16, FPXX. Site 4—Emplacements for Four 15-pounder R. F. Guns on Balanced Pillar Mounts.

1900. Plans and ests. prepared. 00, 1032, 1044.

1901. \$20,700 allotted. Excavation made; drainage system laid; plant prepared. 01, 903.

1902. Battery practically finished, except electric-lighting plant and some painting. 02, 785

Part 17, FPXX. Site 4—Emplacements for Three 5-inch R. F. Guns, Navy Pattern, on Pedestal Mounts.

1900. \$16,000 allotted for 2 emplacements. Some materials purchased. 00, 1032, 1044.

1901. \$3,200 allotted. Emplacements for 3 guns completed as far as possible. 01, 903.

Part 18, FPXX. Site 4—Emplacements for Two 15-pounder R. F. Guns on Balanced Pillar Mounts.

1900. \$8,500 allotted. Some materials purchased. 00, 1032, 1044.

1901. \$1,700 allotted. Battery partly constr.: over half of concrete in place. 01, 903.

1902. Battery practically finished, except electric-lighting plant. 02, 785.

Part 19, FPXX. Site 5—Emplacements for Two 6-inch R. F. Guns, Brown's Segmental Pattern, on Navy Mounts.

1899. \$5,000 allotted. Detailed survey of site made. Condemnation proceedings instituted for possession of title. **99**, 1013.

1900. \$15,000 allotted. Plans prepared; require modification to adapt them to the new style

of mount; no information is at hand in regard to the requirements of the mounts; no work has been done. **00**, 1030, 1044.

1901. \$30,000 allotted. **02**, 902.

1902. \$30,000 allotted. **02**, 786.

Part 20, FPXX. Site 5—Emplacements for Two 15-pounder R. F. Guns on Balanced Pillar Mounts.

1900. \$8,500 allotted. Some materials purchased: **00**, 1032, 1044.

1901. Excavation completed; drainage system laid; plant prepared. **01**, 903.

1902. \$720 allotted. Rough concrete placed and doors hung. **02**, 786.

Part 21, FPXX. Emplacements for Three 10-inch Guns on Disappearing Carriages.

1901. \$102,700 allotted. Excavation for foundation completed; drains laid; concrete plant prepared. **01**, 902.

1902. \$40,000 allotted. Rough concrete com-

pleted; constr. work actively in progress; two 10-inch guns, 2 disappearing carriages received. **02**, 784.

Part 22, FPXX.

Miscellaneous.

Construction of a steel tug. **1899.** \$16,000 allotted. Work begun under contract. **99**, 1015.

1900. Work completed. Used for hauling scows and making surveys and inspections. Of great service in facilitating and cheapening the constr. work carried on since she was built. **00**, 1036.

New lighthouse station at Admiralty Head.

1900. \$8,000 allotted. Plans prepared for a new station by the Lighthouse Department: turned over to the Engineer Department. **00**, 1035.

1902. Work in progress on constr. **02**, 790.

Mounting guns and carriages.

1898. \$7,000 allotted. Two 10-inch and two 12-inch nondisappearing carriages and 6 mortar carriages received. Materials for mounting purchased. **98**, 811.

1899. \$15,000 allotted. Three 10-inch and two 12-inch nondisappearing carriages and 16 mortar carriages mounted. Four 10-inch disappearing carriages, three 10-inch and two 12-inch guns received. **99**, 1014.

1900. \$5,000 allotted. Six 10-inch guns, thirty-two 12-inch mortars, one 12-inch and five 10-inch nondisappearing gun carriages, and twelve 12-inch mortar carriages received. Two 12-inch and three 10-inch guns mounted on nondisappearing car-

riages, three 10-inch guns on disappearing carriages, and 12 mortars on their carriages. One 12-inch and four 10-inch nondisappearing carriages, four 10-inch disappearing carriages, and four 12-inch mortar carriages mounted. One 10-inch nondisappearing gun carriage and eight 12-inch mortar carriages partly mounted. Six 12-inch mortars moved to the emplacements ready for mounting. Two 12-inch and three 10-inch guns mounted on nondisappearing carriages, three 10-inch guns mounted on nondisappearing carriages, three 10-inch guns mounted on disappearing carriages, twelve 12-inch mortars mounted, two 10-inch guns not mounted, four 12-inch mortars not mounted, one 10-inch disappearing gun carriage mounted, one 10-inch nondisappearing carriage partly mounted, and 4 mortar carriages mounted, were turned over to the Artillery garrisons during the year. Since the above ordnance was turned over, the Artillery mounted one 10-inch gun on disappearing carriage and 4 mortars. **00**, 1033.

1901. \$2,725 allotted. One 10-inch, twelve 12-inch mortars, two 5-inch, five 10-inch, one 12-inch, sixteen 12-inch B. L. mortars mounted. **01**, 908.

1902. \$1,000 allotted. One 12-inch gun and carriage mounted; guns, mortars, and carriages painted. **02**, 790.

Part 23, FPXX. Preservation and Repair.

1900. \$5,800 allotted Slopes repaired; white-washing and painting finished; waterproofing roofs of magazines; care of torpedo material and misc. work. **00,** 1034. \$5,000 allotted for road betterment, retrimming and regrading slopes, and planting a windbreak at 10-inch and 12-inch gun battery at site 1. \$3,700 allotted for repair of slopes of mortar battery No. 1. \$2,934 allotted for clearing, grubbing, grading, and seeding certain areas at site 1. No work done under the above allotment. **00,** 1035.

1901. \$3,200 allotted for latrines and water-supply system, site 4; \$6,350 allotted for grading and road constr., site 1. **01,** 906.

1902. \$900 allotted for road betterment, site 4. **02,** 789. \$1,020 allotted for care and putting torpedo material in condition for permanent storage. **02,** 790. \$575.10 allotted for care of batteries. **02,** 790.

Part 24, FPXX. Range and Position Finders.

1900. \$4,926 allotted for a fire-commander's station at site 1; \$2,370 allotted for 1 at site 2, and \$5,000 allotted for 1 at site 3. Plans being prepared. **00,** 1035, 1038, 1039.

1901. \$6,000 allotted for battery-commander's station, sites 2 and 3; \$10,200 allotted for battery commander's station, site 4. **01,** 905, 906.

1902. Stations built. **02,** 787.

Part 25, FPXX.**Sites.**

1897. \$650.74 allotted for surveys and incidental expenses; \$3,480 for purchase of site 1; \$7,200 for site 2; and \$43,075 for site 3. Two sites were obtained partly by purchase and partly by condemnation; negotiations in progress for purchase of as much as possible of a third one. **97,** 763.

1898. Site 3 acquired partly by purchase and partly by condemnation proceedings. Proceedings begun for acquiring 2 more sites. **98,** 810.

1899. \$475 allotted for purchase of site 4. Condemnation proceedings in progress. One addi-

tional tract of land purchased. Title of lands abutting on the reservations at the sites of 2 groups of batteries already built deeded to the U. S. by the State of Washington. Arrangements made whereby the lighthouse reservation at the same locality is to be transferred to the War Department in exchange for 2 pieces of land now part of the military reservation. **99,** 1014.

1900. \$38,600 allotted. Proceedings for acquiring title to sites 4 and 5 completed and amount of award paid. **00,** 1037.

Part 26, FPXX.**Submarine Mines.**

1899. \$1,008.85 allotted for a cable tank and torpedo storehouse. Title to proposed site not yet secured. Temporary storage tank for cable on hand prepared by throwing a crib and earthen dam across a small creek. **99,** 1016.

1900. \$9,000 allotted for torpedo storehouse. Work begun April 25, under contract, the U. S. furnishing sand, gravel, and cement. Building partly completed. **00,** 1033, 1044.

1901. Building for storehouse for torpedo material practically completed; material moved into it. **01,** 903.

Port Angeles, Wash. \$75,000 allotted for a reconnaissance to obtain data for developing a plan for defense. **98,** 811.

Part 27, FPXX. Supplies for Coast Defense.

1900. \$500 allotted for purchase of approved supplies for the Artillery garrisons. No requisitions received. **00,** 1086.

FOPR.¹ PORTO RICO FORTIFICATIONS.

(NOTE.—Reports on these works from 1903 to 1912 are of a general character only. See the first 15 pages of each annual report from 1903 to 1912.)

| Part. | Title. | Period. |

Part 1, FOPR. Engineers.

Chief of Engineers. R., 01, 36; 02, 37; 03, 8, 9, 14, 17; 04, 10, 12; 05, 12; 07, 12, 15.

Engineers in charge:
Capt. W. V. Judson, 1901.
Capt. C. A. F. Flagler, 1902.
Capt. F. R. Shunk, 1902.

Part 2, FOPR. Preservation and Repair.

1901. \$16,000 allotted. Slight repairs to masonry work, El Morro. 01, 909. \$3,500 allotted for civilian assistants to engineer officers; \$500 allotted or equipment of engineer troops. 01, 910. Road constr. and misc. work. 01, 910.

1902. \$500 allotted. El Morro and outworks. Sentry box repaired; storeroom refloored; other misc. work done. 02, 791. San Cristobal and outworks. Floors repaired; wire fence built; wooden br. rebuilt, etc. 02, 791.

Part 3, FOPR. Range and Position Finders.

1901. \$1,000 allotted. Plans prepared for conversion of an existing semaphore station on El Morro into a practice station for a type A finder. No work done. 01, 909.

1902. Work on above completed in February, 1902. 02, 791.

PART III.

MISCELLANEOUS REPORTS.

GUIDE TO THE USE OF PART III.

1. ALPHABETICAL FINDING LIST AT THE BACK OF THIS INDEX.

(See also Abbreviations, page vii, Vol. II.)

There is a finding list at the back of this index, composed of the names of rivers, harbors, or works referred to in the abstracts throughout this index. The names are arranged alphabetically, with proper references following them to pages of this index.

The first page of the finding list presents information useful to the user of this index.

2. EXPLANATION OF SUBHEADS USED IN PART III.

The same general plan is followed as is outlined on page 21 of this index.

3. CONTENTS OF THE "MISCELLANEOUS" INDEX.

This Part III is intended as an index to—(a) matter which, in the reports of the Chief of Engineers, has been entitled "Miscellaneous;" that is, concerning public works not provided for in acts making appropriations for the construction, repair, and preservation of works on rivers and harbors, and fortifications; (b) matter which, in the reports of the Chief of Engineers, relates in a general way to river and harbor improvement, fortifications, or other works.

A complete list of the abstracts arranged under the term "Miscellaneous" is printed on page 2039 of this index.

The list referred to forms a general outline of the duties devolving upon the Corps of Engineers.

| Misc. 171 | Reservations—Enlargement of Governors Island (N. Y.) Harbor..... | 1901-1912 |

MISC. 1. APPROPRIATIONS, ESTIMATES,¹ AND EXPENDITURES.

Each annual report of the Chief of Engineers refers to the appropriations made by Congress for the works referred to in the reports.

See each abstract in this index.

See summaries on pages 2279 of this index.

The "Laws affecting the Corps of Engineers" printed in each annual report also name the appropriations made for each work or locality named in those laws. See "Laws affecting the Corps of Engineers," on page 2329 of this index for the page references.

Additional details concerning appropriations are contained in H. D. 421, 57th Congress, 2d session, and also in Treasury Document 373, 1882 (now out of print). These two latter documents have been

used to make a complete statement of the money devoted to any work named in the reports of the Chief of Engineers, particularly for the period preceding 1866.

Estimates are submitted in several ways. For example, each report of a survey usually contains an estimate of the cost of a proposed work. Each annual report also contains estimates of funds required for the work of subsequent periods, in the case of almost every work named in the report, if there is need of further appropriations.

The reports are, in the main, accounts relating to the expenditures of whatever funds have been appropriated.

Estimates of appropriations required (1901-1912).

Fortifications. 01, 37; 02, 38; 03, 17; 04, 12; 05, 15; 06, 13; 07, 15; 08, 20; 09, 23; 10, 24; 11, 19, 24; 12, 17, 22.

U. S. Engineer depots. 01, 42; 02, 45; 03, 23; 04, 17; 05, 18; 06, 16; 07, 17; 08, 23; 09, 25; 10, 27; 11, 27; 12, 25.

U. S. Engineer School. 01, 42.

Engineer equipment of troops. 11, 29; 12, 26.

Rivers and Harbors. 01, 118; 02, 61; 03, 36; 04, 18; 05, 20; 06, 17; 07, 20; 08, 25; 09, 29; 10, 32; 11, 33; 12, 31.

Philippine Islands.—Contingencies, Engineer Department, Philippine Islands.

In the prosecution of work of great importance in the Philippine Islands in remote and almost inaccessible localities the operations of the Engineer Department require funds of wide applicability and limited restrictions as to expenditure. Owing to the circumstances under which the work

must be performed an appropriation of this character has been found essential to its satisfactory prosecution. Appropriations of \$5,000 each for this purpose have been made for the fiscal years 1911, 1912, and 1913. 09, 27; 10, 31; 11, 30; 12, 27.

MISC. 2. BOARDS—THE BOARD OF ENGINEERS.

This is a board composed mainly of Engineer officers, acting in an advisory capacity to the Chief of Engineers in important questions of military engineering, fortifications, and river and harbor works related thereto.

Additions to the membership of the board have been made at times from various departments of

the Army for the consideration of questions relating to the defenses of the coasts of the United States.

See list of members, "Fortifications" index, page 1799 of this book.

For references to reports, see page 1799 of this index.

¹ Special estimates for maintenance of R. and H. work, etc., for 1909, H. D. 1462, 60th, 2d.

| Lt. J. S. Sewell, 1898. | |

MISC. 5. ENGINEERS, CORPS OF. (1900-1912.)

(For information on the same subject for preceding years, see each annual report at the beginning.)

1900-01. Holding commissions, 131. Five officers separated from corps: Brig. Gen. John M. Wilson; retired; Brig. Gen. Henry M. Robert, retired; Brig. Gen. John W. Barlow, retired, 1st Lt. Louis C. Wolf, retired; 2d Lt. W. H. Lee, killed. Added, by promotion of graduates from U. S. Military Academy, 10 second lieutenants. By act Feb. 2, 1901, corps consists of 160 officers and 3 battalions of 4 companies each of enlisted men. Actual strength: Peace footing, 100 men to company; war footing, 164 men. 32 officers and 8 companies of battalion on duty in Philippines, China, Porto Rico, and Alaska. Recommended that increase be made in number of field officers to reestablish ratio prevailing before passage of act Feb. 2, 1901. Table of distribution of officers. **01, 3, 4.**

1901-02. Holding commissions, 150. Separated from corps, 1: Capt. Jas. J. Meyler, died. Added to corps, by transfer from the line, 4 first lieutenants, 9 second lieutenants; by promotion of U. S. Military Academy graduates, 7 second lieutenants, 5 promotions to first lieutenants. Table of distribution. **02, 3.**

1902-03. Holding commissions, 153. Lost 7 officers: 2d Lt. Francis F. Longley, resigned; Capt. R. N. McGregor, died; Lt. Col. Andrew N. Damrell, retired; Col. S. M. Mansfield, Col. Jared A. Smith, and Col. Peter C. Haines, appointed brigadier generals; and 1st Lt. Edmund M. Rhett, resigned. Added, by promotion from U. S. Military Academy graduates, 10 second lieutenants. Table of distribution. At present it is necessary to so combine works and districts as to throw upon many officers such a number and variety of duties as to make it difficult at times for them to devote to the separate districts and the various items of work the proper detailed consideration. **03, 3.**

1903-04. Holding commissions, 159. Lost 4 officers: Brig. Gen. G. L. Gillespie, commissioned a major general, U. S. Army; Lt. Col. Chas. J. Allen, commissioned a brigadier general, U. S. Army, Col. Chas. W. Raymond, retired; 1st Lt. Nathaniel E. Bower, killed. Added, by promotion of graduates from U. S. Military Academy, 10 second lieutenants. Table of distribution. **04, 3.**

1904-05. Holding commissions, 163. Lost 4 officers: Maj. Theo. A. Bingham, commissioned a brigadier general, U. S. Army; Col. Alex. M. Miller, died; Col. D. P. Heap, retired; Col. W. A. Jones, retired. Added, by promotion from U. S. Military Academy, 13 second lieutenants. Table of distribution. **05, 3.**

1905-06. Holding commissions, 170. Lost 7 officers: Col. Thos. H. Handbury, retired; Maj. Eugene W. Van C. Lucas, resigned; Maj. Cassius E. Gillette, resigned; Lt. Col. C. F. Powell, commissioned a brigadier general, U. S. Army; Col.

Chas. R. Suter, retired; 1st Lt. Ferd. William died; Col. O. H. Ernst, retired. Added, by promotion from U. S. Military Academy, 9 second lieutenants. Table of distribution. **06, 3.**

1906-07. Holding commissions, 171. Lost officers: Col. Wm. S. Stanton, retired; Capt. R. Johnston, resigned; Lt. Col. Jas. L. Lusk, died; Col. Wm. R. Livermore, retired; Col. W. I. Heuer, retired; Lt. Col. Geo. McC. Derley, retired; Col. Jas. B. Quinn, retired. Added, by promotion of graduates from U. S. Military Academy, 8 second lieutenants. Selection of Lt. Col. Geo. W. Goethals, Maj. David DuB. Gaillard, and Maj. W. L. Sibert as Isthmian Canal Commissioners. Also Maj. Edgar Jadwin in charge of a division of canal. Table of distribution. **07, 3.**

1907-08. Holding commissions, 172. Lost officers: Col. Amos Stickney, retired; Col. Garret J. Lydecker, retired; Maj. John S. Sewell, resigned; Col. Chas. E. L. B. Davis, commissioned a brigadier general; Col. Jos. H. Willard, retired; Col. H. K. Adams, retired; Brig. Gen. A. Mackenzie, retired; Col. Clinton B. Sears, retired. Added, by promotion of U. S. Military Academy graduates, second lieutenants. Table of distribution. Increasing amount of work necessitates more officers to fill duties; 60 are recommended. **08, 3.**

1908-09. Holding commissions, 183. Lost officers: Col. T. W. Symons, retired; Col. R. I. Hoxie, retired; Col. M. B. Adams and Col. E. B. Ruffner, retired. Added, by promotion from U. S. Military Academy, 15 second lieutenants. Table of distribution. **09, 3.**

1909-10. Holding commissions, 186. Lost officers: Lt. Col. H. M. Chittenden, commissioned a brigadier general; 2d Lt. John A. Holabird, resigned; Col. John G. D. Knight, commissioned a brigadier general; Col. Smith S. Leach, died; Col. D. W. Lockwood, retired; Brig. Gen. W. L. Marshall, retired; Capt. John H. Poole, resigned; 1st Lt. Carlos J. Stolbrand, dismissed. Added by promotion from U. S. Military Academy, 1 second lieutenants. Table of distribution. **10, 3.**

1910-11. Holding commissions, 190. Lost officer: 1st Lt. Frederic E. Humphreys. Added by promotion from U. S. Military Academy, second lieutenants. Table of distribution. Act of Feb. 27, 1911, an increase of 5 colonels, 6 lieutenant colonels, 19 majors, 17 captains, and 1 first lieutenants. **11, 3.**

1911-12. Holding commissions, 194. Lost officers: Col. Walter L. Fisk, retired; Col. Thos. L. Casey, retired; Maj. Edw. R. Stuart, appointed professor of drawing, U. S. Military Academy. Added, 1 probational second lieutenant, from civil life, and 6 second lieutenants from U. S. Military Academy by promotion. Table of distribution. **12, 3.**

MISC. 6. DEPOTS—ENGINEER DEPOT, FORT LEAVENWORTH, KANS.

In charge: Maj. S. S. Leach, 03, 04. Capt. H. Deakyne, 04, 05. Maj. T. H. Rees, 05, 06; 07, 08. Maj. C. A. F. Flagler, 09, 10. Maj. M. L. Walker, 11, 26.

1902-03. Additional pontoon material purchased, and repairs to that on hand. Purchase of

various supplies and equipment for the Engineer shop of instruction. 03, 21, 703; 04, 15, 773; 05, 17, 775; 06, 14, 845; 07, 16, 873; 08, 21, 917; 09, 24, 961; 10, 25, 1075; 11, 26, 1137; 12, 24.

MISC. 7. DEPOTS—ENGINEER DEPOT, FORT MASON.

1905-06. At this depot the reserve and advance guard pontoon trains kept in repair and the

tool equipment of, kept up to date. 06, 15, 847; 07, 17, 875; 08, 22.

MISC. 8. DEPOTS—ENGINEER DEPOT, FORT TOTTEN, WILLETS POINT (1900-1902).

(For similar information for preceding years, see Misc. 32, p. 2053 of this index.)

1900-01. Materials for repairs and instruction issued. Additions made to pontoon and bridge equipage, repairs to old pontoon wagons. Engineering Field Manual in preparation. Tools, etc., purchased and issued for troops on insular work. Material for road constr. purchased. Over 1,000,000

pounds submarine mining material issued. Torpedo manuals called in with view to their transfer to Artillery Corps. 01, 41, 947.

1901-02. Transferred to Washington Barracks, D. C. 02, 41.

MISC. 9. DEPOTS—ENGINEER DEPOT, HONOLULU.

This depot assembles and issues property and materials for the military survey of the island of Oahu, cares for property in store, makes such minor repairs to instruments as can be made locally,

and obtains and issues such engineer supplies as are required by the Engineer troops stationed at Honolulu. 11, 26; 12, 4.

MISC. 10. DEPOTS—ENGINEER DEPOT, MANILA, P. I.

1909. This depot is the repository of two divisions of the advance guard ponton equipage, and for miscellaneous tools, property, and supplies required for issue and for reserve equipment in the

Philippine Division. The depot also makes all ordinary repairs to instruments used in the military surveys in the Philippine Division. 10, 26, 1079; 11, 26, 1141; 12, 24.

MISC. 11. DEPOTS — ENGINEER DEPOT, NEW YORK CITY.

In charge: Lt. Edw. H. Schulz.

1902-03. Depot at Willets Point, N. Y., closed June 30, 1902, and transferred to Army Building, New York City. All property disposed of by transfer and condemnation. Purchases of Engineering supplies; instruments purchased and repaired. 03, 21, 705.

1903-04. All property and records transferred to the Engineer Depot, Washington Barracks, D. C., and this depo. discontinued on June 30, 04, 15, 775.

MISC. 12. DEPOTS — ENGINEER DEPOT, VANCOUVER BARRACKS.

1908-10. A ponton train consisting of the principal items of one division advance, and one division reserve, equipage transferred from Engineer depot at Fort Mason, Cal., to this depot. Overhauling done. 09, 24; 10, 26, 1077.

1910-11. Two Artillery gun sheds turned over to the depot for storage of equipment. Materials, tools, and supplies purchased and issued. 11, 26; 12, 24.

MISC. 13. DEPOTS — ENGINEER DEPOT, WASHINGTON BARRACKS.

1901-02. General property transferred from Willets Point to Washington Barracks. Purchase and issuance of material as required. 02, 41, 807.

1902-03. No suitable building for an Engineer storehouse available. Many minor repairs and alterations made to old buildings. 03, 19, 694.

1903-04. Routine work of repairs, etc. Minor repairs made to a number of Engineering models, and some sent to Louisiana Purchase Exposition at St. Louis, Mo. Details of work at depot given. 04, 13, 760.

1904-05. Purchase and issue to the companies, troops, batteries, and posts of reconnaissance instruments prescribed in G. O. No. 24, W. D., Feb. 14, 1905. 05, 15, 757.

1905-06. New storehouse practically completed; used for storage of depot property 06, 14, 837.

1906-09. New depot storehouse completed; new building for shops should be provided. Est. \$12,500 for constr. of shed for protection of ponton wagons. 07, 16, 867; 08, 21, 909; 09, 23, 957.

1909-10. Provision made for constr. shed. An additional shed needed. Large number of instruments turned into depot, and large number of new ones purchased. 10, 25, 1067; 11, 25, 1127; 12, 23.

MISC. 14. ENGINEERS, CORPS OF — ENGINEER DIVISIONS (1901-12).

(For similar information for preceding years, see annual reports.)

Northeast Division:

Col. G. L. Gillespie, 1901.
Col. C. R. Suter, 1901, 04-06.
Col. Amos Stickney, 1906-07.
Col. John G. D. Knight, 1907-10.
Col. Wm. M. Black, 1910-12.

Eastern Division:

Col. Amos Stickney, 1904-07.
Col. D. W. Lockwood, 1907-10.
Col. W. T. Russell, 1910-12.

Chesapeake Division:

Col. W. A. Jones, 1904-05.

Southeast Division:

Col. P. C. Hains, 1903.
Col. J. B. Quinn, 1903-06.
Col. Amos Stickney, 1906.
Lt. Col. Dan C. Kingman, 1906-07, 1909-10; Col., 1911-12.

Gulf Division:

Lt. Col. H. M. Adams, 1904-05.
Lt. Col. Clinton B. Sears, 1905-07.
Col. E. H. Ruffner, 1907-09.
Lt. Col. L. H. Beach, 1909-12.

Central Division:

Lt. Col. T. H. Handbury, 1902.
Col. G. J. Lydecker, 1903-08.
Col. C. E. L. B. Davis, 1908.
Col. W. T. Russell, 1908-10.
Lt. Col. J. G. Warren, 1910.
Lt. Col. H. C. Newcomer, 1911-12.

Lakes Division:

Lt. Col. W. L. Fisk, 1903-09; Col., 1910-11.
Col. C. McD. Townsend, 1911-12.

Northwest Division:

Col. J. W. Barlow, 1901.
Col. S. M. Mansfield, 1901.
Lt. Col. O. H. Ernst, 1901-05.
Lt. Col. W. H. Bixby, 1905-08.

Southwest Division:

Col. H. M. Robert, 1901.
Col. A. Stickney, 1901.

Western Division:

Col. A. Stickney.
Col. W. H. Bixby, 1908-11.
Lt. Col. C. L. Potter, 1911-12.

North Pacific Division:

Lt. Col. W. H. Heuer, 1901-04; Col., 1905-06.
Lt. Col. S. W. Roessler, 1907-08.
Lt. Col. John Biddle, 1909-12.
Lt. Col. Thos. H. Rees 1912.

Pacific Division:

Col. S. M. Mansfield, 1900.

Col. Jared A. Smith, 1900-01.

Col. D. P. Heap, 1901-05.

Col. T. H. Handbury, 1905-08.

Col. W. H. Heuer, 1906-07.

Lt. Col. John Biddle, 1907-10; Col., 1911-12.

Lt. Col. Thos. H. Rees, 1912.

MISC. 15. FIELD SERVICE—ARIZONA.

ENGINEERS.

Lt. G. M. Wheeler. R., 72, 1124 (Arizona, Nevada, and Utah).

Lt. E. D. Thomas, 5th Cav. R., 77, 1449.

Lt. T. A. Toney, 6th Cav. R., 78, 1881.

Lt. C. F. Palfrey. R., 80, 2547; 81, 2859; 82, 2847.

Lt. G. J. Fiebeger. R., 83, 2404.

Lt. T. A. Bingham. R., 84, 2399; 85, 2531.

MISC. 16. FIELD SERVICE—CALIFORNIA.

ENGINEERS.

Maj. W. A. Jones. R., 83, 2402; 84, 2392.

Lt. T. L. Casey. R., 85, 2529; 87, 3147.

Lt. C. G. Lyman, 2d Cav., A. D. C. R., 92 3459; 93, 4403; 94, 3453.

Lt. J. L. Sehon, 20th Inf. R., 95, 4254.

Lt. J. F. Reynolds Landis, 1st Cav., A. D. C. R., 95, 4256; 96, 4076.

Lt. J. D. Miley 5th Art. R. 97, 4133; 98, 3783.

MISC. 17. FIELD SERVICE—CALIFORNIA AND OREGON.

ENGINEERS.

Chief of Engineers. R., 66, ii, 22.

MISC. 18. FIELD SERVICE—COLORADO.

ENGINEERS.

Chief of Engineers. R., 97, 547; 99, 639; 00, 718.

In charge:

Lt. J. L. Sehon, 20th Inf. R., 97, 4134.

Lt. J. R. Bennet, 16th Inf. R., 99, 3880; (Capt.) 00, 5451.

MISC. 19. FIELD SERVICE—COLUMBIA.

ENGINEERS.

Chief of Engineers. R., 80, 249; 81, 343; 82, 329; 83, 344; 84, 349; 85, 345; 88, 317; 89, 386; 90, 355; 91, 450; 92, 424; 93, 488; 94, 443; 95 497; 96, 442; 97, 547; 98, 552; 99, 639; 00, 718.

In charge:

Lt. T. W. Symons. R., 80, 2549; 81, 2863, 82, 2851.

Lt. G. W. Goethals. R., 83, 2407; 84, 2403.

Lt. W. C. Langfitt. R., 87, 3151; 88, 2816.

Lt. L. A. Lovering, 4th Inf. R., 89, 2878.

Maj. G. J. Lydecker. R., 90, 3599.

Capt. C. H. Clark, Ord. Dept. R., 91, 3945.

Maj. T. McCrea, 5th Art. R., 92, 3458; 93, 4402; 94, 3452.

Lt. J. L. Sehon, 20th Inf. R., 95, 4254; 96, 4074.

Maj. T. H. Barry. R., 97, 4132.

Lt. J. B. Bennet, 7th Inf. R., 98, 3784.

Capt. H. P. McCain, 14th Inf. R., 99, 3879; 00, 5450.

Assistants:

A. Downing. R., 83, 2410.

Lt. W. C. Brown, 1st Cav. R., 81, 2873.

MISC. 20. FIELD SERVICE—DAKOTA.**ENGINEERS.**

Chief of Engineers. **R.**, 67, 53; 74, 123; 75, 131; 76, 123; 77, 130; 78, 147; 79, 189; 80, 247; 81, 340; 82, 328; 83, 343; 84, 348; 85, 377; 87, 345.

In charge:

Capt. W. Ludlow. **R.**, 74, ii, 626.

Reconnaissance, Black Hills. 74, ii, 628; 75, ii, 1113; 76, iii, 569.

Reconnaissance, Fort Carroll, Mont., to Yellowstone National Park. 76, iii, 570.

MISC. 30. CORPS OF ENGINEERS—DUTIES OF OFFICERS.

Each annual report of the Chief of Engineers refers briefly to the character of the duties performed during the preceding fiscal year by the members of the Corps of Engineers, U. S. Army.

From 1901-1912 alone the time of the members of the corps has been distributed according to the following classifications:

Absence (sickness, leave, etc.).
Adjutant General's Office, U. S. Army.
Agriculture, Department of, buildings for.
Aid-de-camp.
Alaska, Board of Road Commissioners in.
Alaska, road work in.
Army Field Engineer School, Fort Leavenworth, Kans.
Army War College, on duty.
Assistant Chief Engineer Officer, military mapping, Philippine Islands.
Assistant Chief Engineer Officer, military division.
Assistant to Engineer Commissioner, District of Columbia.
Assistants to the Chief of Engineers.
Atlantic Division, Engineer Officer.
Battalion of Engineers, Second.
Board for improvement of harbor at Guam.
Board of Engineers.
Board of Ordnance and Fortification.
Board of road commissioners in Alaska.
Building for Department of Agriculture.
Buildings for Government Printing Office.
Building for Soldiers' Home.
Building for War College.
Building for Washington Barracks.
California Débris Commission.
Changing stations.
Chief Engineer officer, military department.
Chief Engineer officer, military division.
Chief Engineer officer, Pacific Division.
Chief Engineer officer, Philippine Division.
Chief Engineer officer, Southwestern Division.
Chief of Engineers.
Chief of Engineers, assistants to the.
Chief of Engineers, office of.
Columbia, Department of the.
Command of Engineer troops, Hawaiian Islands
Cornell University, under instruction at.
Cuba.
Cuban affairs.
Cuba, Department of.
Cuba, en route from.
Department of California, Engineer officer.
Department of Cuba.
Department of the Columbia.
Department of the East.
Department of the East, Engineer officer.
Department of the Lakes, Engineer officer.
Department of the Missouri, Engineer officer.
District of Columbia, assistants to Engineer Commissioner.
District of Columbia, Engineer Commissioner.
District of Columbia, government of.
Division Engineer.
Division of the Philippines.

East, Department of the.
Engineer Commissioner, District of Columbia.
Engineer Commissioner, District of Columbia, assistants to.
Engineer Department.
Engineer Department at Willets Point.
Engineer district, under instructions.
Engineer officer, Atlantic Division.
Engineer officer, Department of California.
Engineer officer, Department of Missouri.
Engineer officer, Department of the East.
Engineer officer, Department of the Lakes.
Engineer officer, Department of Texas.
Engineer School.
Engineer School of Application.
Engineer secretary to lighthouse board.
En route from Cuba.
En route from Philippine Islands.
En route to Philippine Islands.
First Battalion of Engineers.
Fortifications.
Fortifications at Guantanamo Bay, Cuba.
Fortification work in the Hawaiian Islands.
Fortification work in the Philippine Islands.
Fortification work in the United States.
Ft. Bayard, N. Mex., general hospital.
Ft. D, A. Russel, Wyo., troops.
Ft. Leavenworth, Kans., post of.
Ft. Leavenworth, Kans., Service School, on duty.
Ft. Leavenworth, Kans., troops.
Ft. Mason, Cal., post of.
Ft. Recovery, monument at.
Ft. Riley Military Reservation.
Ft. Totten, post of.
Ft. Washakie Military Road.
General Hospital, Ft. Bayard, N. Mex.
General Staff, Philippine Division.
Government of the District of Columbia.
Government Printing Office, buildings for.
Graduating leave of absence.
Guam, harbor at, board for improvement of.
Guantanamo Bay, Cuba, fortification at.
Hawaiian Islands, Engineer troops, command of.
Hawaiian Islands, fortification work in.
Hawaiian Islands, troops.
Infantry and Cavalry School and Staff College.
Inland Waterway Commission.
International Congress.
Isthmian Canal Commission.
Leave of absence.
Lighthouse Board.
Lighthouse Board, engineering secretary to.
Lighthouse duty.
Lighthouse Establishment.
Maine, the battleship, removal of.
Maneuver division, troops.
Military attachés with Russian and Japanese Armies.
Military attachés, Tokio, Japan.
Military attaché to United States legations.
Military Department, chief Engineer officer.
Military Division.
Military Division, assistant chief Engineer officer.
Military Division, chief Engineer officer.

- Military mapping in the Philippine Islands.

MISC. 31. POSTS—SUBPOST OF FORT FOOTE, MD.

1901-02. Situated on Maryland bank of the
 Potomac R., 8 miles s. of the city of Washington.
 Used for drill purposes. Buildings are old and in
 a bad state of repair. **02**, 795.

1902-03. Minor repairs to wharf, road,
 water supply. **03**, 18, 685.

MISC. 32. POSTS—FORT TOTTEN, N. Y. (INCLUDING U. S. ENGINEER SCHOOL, BATTALION OF ENGINEERS, AND ENGINEER DEPOT), 1866-1901.

(See Misc. 8 on p. 2045 of this index.)

CONTRACTS.

1897. 30 m. of single-conductor cable and 9 m. 7-core cable, \$24,916.50; 26 rotary transformers, \$3,965.52; 26 oil engines, complete, \$17,316; 26 electric storage batteries, complete, \$7,384; 28 switchboards, complete, \$6,867.84. **98**, 576

1898. 46 operating boxes, complete, \$1,297.20, **98**, 576; 25 m. multiple cable, \$47,500; 100 m. single cable, \$36,500; 75 m. single cable, \$26,212.50; 100 m. multiple cable, \$159,500; 1,600 torpedoes, complete, \$180,000; 7 wooden pontoon boats, complete, \$1,372; 1 fireproof instrument repair shop, \$7,550. **99**, 682.

1899. 6 yawl boats, complete, \$702; white-pine lumber for bridge equipage, \$1,333.47; 18 wooden pontoon boats, complete, \$4,050; 2 frame storage sheds, \$745 each. **99**, 683. Repairs to wharf, \$2,560.75. **00**, 1068.

1900. 50,000 brass washers, 78¢ per pound; compound plugs and glands, \$1,689.66; 12,000 fuses, 8¢; 8,000 7" and 4,000 9" wire cut-outs, 6¢; 1,050 aluminum metal cases, \$2.10; 66,000' No. 16 kerite insulated wire, \$11.50, and 26,400' No. 12, \$23.50 per 1,000'; 5 slow-speed rotary transformers, \$174 each; 6 oil engines, 4-horsepower, \$660; 6 electric switchboards, \$380; 500 thermometers, 66¢; 100 hygrometers, \$2.45; 18,138' b. m. Oregon white-pine timber, \$50 M; 200 500-pound anchors, \$1,290; 400 cut-out boxes, \$760; 7,500 split keys for shackles, \$45; 1,100 split keys for mines, \$49.50; 1,700 mine and 2,600 anchor shackles and 3,500 mooring sockets at 60¢ each. **00**, 1068.

ENGINEERS.

Chief of Engineers. **R.**, 66, ii, 19; 67, 15; 68, 21; 69, 20; 70, 28; 71, 26; 72, 26; 73, 27; 74, 32 75, 33, 131; 76, 32, 122; 77, 28; 78, 32; 79, 39 80, 60; 81, 61; 82, 61; 83, 56; 84, 65; 85, 52; 86, 52; 87, 12; 88, 8; 89, 12; 90, 10; 91, 15; 92, 19; 93, 17; 94, 17; 95, 18; 96, 6; 97, 4; 98, 5; 99, 5, 8; **00**, 35, 36; **01**, 38.

In charge:

Capt. F. Harwood, 1866.

Lt. Col. H. L. Abbot, 1866-85. **R.**, 80, 297; 81, 419; 82, 443; 83, 389; 84, 425; 85, 425.

Lt. Col. J. C. Duane, 1868.

Lt. Col. C. B. Comstock, 1886. **R.**, 86, 471.

Lt. Col. W. R. King, 1886-95. **R.**, 86, 489; 87, 419; 88, 345; 89, 467; 90, 389; 91, 537; 92, 473; 93, 647; 94, 467; 95, 521.

Maj. W. T. Rossell, 1896.

Maj. J. G. D. Knight, 1896-1900. **R.**, 96, 451; 97, 559; 98, 563; 99, 650; **00**, 1045.

Maj. W. M. Black, 1901. **01**, 927.

Battalion of Engineers—Company A—In charge:

Capt. A. Stickney, 1868.

Capt. A. Mackenzie, 1869-73.

Lt. W. T. Rossell, 1874.

Capt. J. W. Cuyler, 1875.

Capt. J. A. Mercer, 1876.

Capt. T. H. Handbury, 1877-79.

Capt. J. B. Quinn, 1880.

Lt. F. V. Abbott, 1881.

Capt. C. W. Raymond, 1882.

Capt. E. H. Ruffner, 1883-84.

Capt. J. G. D. Knight, 1885-87.

Capt. S. W. Roessler, 1888-89.

Capt. C. B. Sears, 1890.

Capt. W. A. Fisk, 1894-95.

Capt. S. W. Roessler, 1896-97.

Capt. W. C. Langfitt, 1898.

Capt. F. R. Shunk, 1899.

Company B—In charge:

Capt. A. H. Burnham, 1868-70.

Capt. W. R. King, 1871-75.

Lt. J. B. Quinn, 1876.

Capt. A. M. Miller, 1877-81.

Capt. J. H. Willard, 1882-83.

Capt. C. F. Palfrey, 1884.

Capt. T. N. Bailey, 1885.

Lt. H. M. Chittenden, 1886.

Capt. E. Maguire, 1887-88.

Capt. R. L. Hoxie, 1889-90.

Capt. W. T. Rossell, 1894-95.

Capt. W. C. Langfitt, 1896-97.

Capt. S. W. Roessler, 1898.

Capt. W. L. Sibert, 1899.

Company C—In charge:

Capt. A. H. Holgate, 1868.

Capt. O. H. Ernst, 1869-70.

Capt. W. C. Raymond, 1871-72.

Capt. J. C. Post, 1873.

Capt. W. R. Livermore, 1874-77.

Capt. J. F. Gregory, 1878-79.

Capt. J. C. Mallory, 1880-83.

Capt. P. M. Price, 1884-85.

Lt. W. C. Langfitt, 1886.

Capt. E. Bergland, 1887-90.

Capt. W. M. Black, 1894-95.

Capt. T. A. Bingham, 1896.

Capt. G. D. Fitch, 1897.

Capt. E. Burr, 1898-99.

Capt. G. D. Fitch, 1899.

Capt. Thos. H. Rees, 1900.

Capt. H. Jervey, 1900.

Company D—In charge:

Capt. S. M. Mansfield, 1867-70.

Practically abandoned in 1871; exists only in name, and is commanded by the battalion adjutant.

Maj. J. Millis, 1898-1900.

Company E—In charge:

Capt. W. Ludlow, 1867.

Capt. J. W. Cuyler, 1868.
 Capt. P. C. Hains, 1869-70.
 Capt. O. H. Ernst, 1872-78.
 Capt. C. W. Raymond, 1880-81.
 Maj. W. S. Stanton, 1882-85.
 Capt. P. M. Price, 1886-88.
 Capt. G. McC. Derby, 1889-90.
 Capt. J. L. Lusk, 1894-97.
 Maj. G. W. Goethals, 1898-1900.

Assistants.

Reports:

Capt. J. B. Quinn. 80, 302; 81, 425.
 2d Lt. W. L. Fisk. 80, 302, 312, 314; (1st Lt.) 318, 319.
 Lt. J. C. Mallery. 80, 305, 307; (Capt.) 84, 430.
 Lt. E. Griffin. 81, 425, 429; 82, 448; 83, 394.
 Lt. J. H. Willard. 81, 431, 433, 449, 452; 82, 449, 452.
 Lt. W. H. Bixby. 83, 395, 398.
 Lt. J. L. Lusk. 84, 429; 85, 432.
 Lt. J. Millis. 84, 431.
 Lt. H. F. Hodges. 84, 434; 85, 432.
 Capt. S. W. Roessler. 85, 455; 86, 477; 87, 425, 433; 88, 360, 364; 89, 495; 90, 413, 419.
 Lt. J. R. Warren. 88, 360; 89, 485; 91, 553.
 Lt. I. Hale. 88, 370.
 Lt. C. Harding. 90, 418.
 Lt. A. M. D'Armit. 90, 421; 91, 565; 92, 490.
 Lt. H. Jervey. 91, 559.
 Lt. R. McGregor. 92, 484.
 Lt. J. Morrow. 95, 532; 96, 455.
 Lt. W. E. Craighill. 96, 460; 97, 564.
 Lt. W. V. Judson. 97, 568.

Summary of reports:

1865. Place constituted an engineer post and depot, selected as the headquarters of the Battalion of Engineers, and as the depot for the storage of the Engineer material. 68, 21.

1867. By act of July 28, 1866, the 5 companies of the Corps of Engineer troops were constituted a Battalion of Engineers to be composed of 752 enlisted men. Three companies stationed at Willets Point, N. Y.; 1 at Jefferson Barracks, Mo.; and 1 en route for Yerba Buena Island, Cal. Act of July 13, 1866, separated the Military Academy from the Corps of Engineers. It had been a part of that corps, by law, for more than 64 years. 67, 15.

1868. Constr. of quarters in progress. In compliance with G. O. 56, dated Aug. 1, 1866, schools were opened for the enlisted men. 68, 21.

1869. Permanent hospital completed; work on other buildings. Survey of the battlefield of Gettysburg in progress under command of Lt. T. Turtle. 69, 20.

1870. By au. of the Sec. of War, post constituted the torpedo school of the Army; experimental work in progress. Work on buildings in progress. 70, 29.

1871. G. O. 122, series of 1870, reduced the strength of the 5 companies constituting the bat-

talion, June 30, 1871, to 12 officers and 303 enlisted men. Companies A, B, and C stationed at West Point. Company E, composed of the detachments heretofore kept at the Military Academy to be instructing the cadets, increased to a full company and stationed at West Point. Company D tactically disbanded by the reduction of the battalion. 71, 27.

1877. Table giving a synopsis of the recruit service and of desertions from June 30, 1866, to June 30, 1877. 77, 28.

1880. New astronomical observatory completed. Total cost, \$342.49. \$9,000 allotted quarters; work in progress; general repair of buildings. Statement of receipts and issues of materials. Calcium chloride used to dry the air in storerooms; formula given of the solution. 80, 322; 81, 453; 82, 481.

1881. A field astronomical observatory erected in 1868; regular series of meteorological observations and practice in making reconnaissance and survey begun in that year. Use of photography for delineating maps in the field begun in 1873. Tidal current measurements begun in 1871. 81, 423.

1882. Willets Point transferred from an auxiliary military post into the Engineer School Application. 82, 446.

1883. Photographic laboratory built. 83,

1884. Sapping or molding shed built; \$6,385. 84, 455.

1886. Board of officers constituted by S. 187, A. G. O., Aug. 17, 1885, to consider and report upon the questions of water supply, sewers, hospital accommodations at Willets Point. 86, 484. (Col. Q. A. Gillmore, Corps of Engineers Lt. Col. H. G. Hodges, Q. M. G., and Maj. I. Huntington, surgeon, U. S. A.) Plan and estimate of brick barrack at Willets Point. 86, 486.

1888. The Quartermaster's Department completed the water supply and sewerage system; necessary plumbing for sanitary purposes in racks and quarters, and the double set of officers' quarters and the new hospital building. 88, Experiments in electro-magnetism on a large machine with 2 15" guns, a large quantity of tor cable, and a dynamo (photograph). 88, 354.

1889. Laboratory for enlisted men to target range improved and extended, and remade to buildings. A post canteen and a combined mess for enlisted men established. Detachment of officers and soldiers sent to Johnstown, Pa., on June 5, 1889, to assist in bridge streams. 89, 467. Experiments—Tests of explosives, crater gauge, pressure gauge, range fin transition indicators, Sim's torpedo, with record of tests and photographs. \$200,000 app. for pedoes for H. defense. Statement of funds estimated required for the following year. 89, Report of board of officers upon torpedo mat-

with recom.—Reports on shackles and mooring rope, bronze torpedo case, cut-off boxes, operating box, and on a system of firing without the automatic switching on of the firing battery; McIntire jointer and tests of fuses. 89, 489. Board of Engineers constituted by S. O. 31, to witness a test of the "automobile controllable torpedo" of J. H. Patrick; report giving description of torpedo and trials witnessed. 89, 497. (Maj. W. R. King, Capt. S. W. Roessler, and Lt. I. Hale.)

1890. Experiments—Trials of Sim's fish torpedo; torpedo drills; tests of explosives; crater gauge; sensitiveness of explosives; tests of insulated cable; self-acting mine; and building materials (photographs). 90, 401, 413.

1891. New building for Engineer models completed; cost, \$8,000. \$9,000 allotted for guardhouse and \$1,692.67 allotted for fire engines by the Quartermaster's Department. The title of "Engineer School of Application" changed, Sept. 24, 1890, by the Acting Sec. of War to "U. S. Engineer School." Lectures delivered—Foundations under difficulties, Mr. John Anderson; English engineering in Egypt, Dr. R. W. Raymond; Improvement of tidal rivers, Maj. C. W. Raymond; Concrete breakwaters, Capt. F. A. Mahan. Experiments—Sim's fish torpedo, tests of explosives, mortar practice with wooden projectiles described, building materials tested, and other torpedo experiments made. 91, 539, 553.

1892. Fireproof storehouse for pontoon, siege, and torpedo materials nearly completed. Small steam tug for planting torpedoes completed. Cable storage tank built, and minor work. Property cared for and repaired. Sims-Edison fish torpedo delivered and tested. Tests of cables, circuit closers, self-acting mine mechanism, new form of electric current meter, building stone and cement, electric fuses, and other special tests made. 92, 479, 490.

1893. Term of enlistment discussed; advantages to be gained by reducing it from 5 to 3 years. 93, 652. Experiments—Artificial heat used in drying mining casemates, 36 drums of cable received from England and tested; trials of Sims-Edison fish torpedo continued. 93, 656.

1894. Experiments—Blasting concrete platforms, explosives, Sims-Edison torpedo, building materials; minor tests. 94, 477.

1895. New barrack building completed, quarters moved, work on retaining wall around ice pond. Contracts for submarine mining material completed, cable tested. Experiments—Explosives for breaking ice to improve navigation, Sims-Edison torpedo, pressure gauge improved; minor tests. 95, 529.

1896. Old frame barrack and stable removed, new magazine rifle, U. S. model 1892, caliber .30, issued to the troops in July, 1895. Engineer models shipped to Atlanta, Ga., for the War Department exhibit. 96, 451, 465.

1897. 4 batteries of Artillery came to the post for Artillery practice. Disputes concerning the commanding officer while in camp. 97, 560.

1898. New regulations for the government of the U. S. Engineer School given. 98, 565. On Apr. 4, 1898, Sec. of War au. the increase of the battalion of Engineers from 500 to 702 enlisted men. Detachments for submarine mine defense of harbors sent out during Apr., 1898, from the 3 companies. Company D (a skeleton company for several years) was reorganized. Company A serving with troops at the Philippine Islands. Companies C and E serving with the army in Cuba. Company D detached for submarine mining duty at 19 harbors on the Atlantic, Gulf and Pacific coasts. Company B engaged at the Engineer depot at Willets Point receiving, storing, and distributing the vast amount of torpedo material, pontoon equipage, siege materials, and instruments purchased and distributed from the depot. 98, 6. Submarine mine material—Lists of materials received with statement of funds, abstracts of proposals, etc. 98, 571.

1899. G. O. 106, War Department, A. G. O. Washington, July 23, 1898, changed the name of the fort at Willets Point, N. Y., to Ft. Totten, in honor of Brig. Gen. Joseph G. Totten, Chief of Engineers, who died Apr. 22, 1864. 99, 651. Discussions on the Army canteen. 99, 652. Stations of the various companies given. 99, 652. By act of Mar. 2, 1899, the enlisted strength of the battalion of Engineers was established as 752, its previous legal strength, and the battalion of Engineers, and the officers serving therewith, to constitute a part of the line of the Army. 99, 657. Extracts from reports as to the service rendered by the battalion of Engineers. 99, 658. List of submarine mine materials, etc., and equipment of Engineer troops. 99, 664, \$150,000 app. May 4 and July 7, 1898, for procurement of pontoon trains, intrenching tools, instruments, drawing materials, etc., and \$60,000 app. July 7, 1898, for employment of civilian assistants to Engineer officers in the field. Engineering supplies purchased for Engineer officers of 7 Army corps and for 3 regiments of Volunteer Engineers in equipping them for duty in the field in Cuba, Porto Rico, and the Philippine and Hawaiian Islands. 99, 8.

1900. \$50,000 app. Mar. 3, 1899, and \$25,000 app. for the fiscal year 1901, for equipment of Engineer troops and civilian assistants to Engineer officers. 00, 35. Stations of the different companies of the battalion of Engineers given. 00, 1051. Discussion on the legislation contemplating the transfer of submarine mining defenses to the Artillery arm of the service. 00, 1046.

1900-01. \$7,202.45 allotted for repair of buildings, roads, and walks; \$34,258 for new Artillery barracks; \$6,909 for new ordnance storehouses; and \$775 for a boathouse; new buildings completed and occupied. Est. \$163,000 for quarters. Est. \$114,000 for enlarging post. 01, 38, 927. Defective arrangement of barracks. 01, 928. Reclamation of

adjacent marshes would go far to remove source of malarial troubles. **01, 931.**

MISCELLANEOUS REPORTS.

Temporary detachments during the year. **80, 297; 81, 419.**

Engineer recruiting and desertions and discipline. **80, 208; 81, 420; 82, 445; 83, 390; 84, 426; 85, 428; 86, 491; 87, 421; 88, 350; 89, 473; 90, 394; 91, 541; 92, 475; 93, 650; 94, 470; 95, 524; 96, 463; 97, 573.**

Stations of the battalion at the end of the year. **80, 299; 81, 421.**

Drills and instruction. **80, 300; 90, 397; 91, 544; 92, 477; 93, 653; 94, 473; 95, 525; 96, 462; 97, 563, 571.**

Course of instruction and drills given for future work. **80, 302; 81, 429; 82, 472; 83, 395; 84, 449; 85, 495; 86, 474; 87, 425.**

Military duties of the battalion. **80, 299; 81, 422; 82, 445; 83, 391; 84, 426; 85, 429; 86, 491.**

Results of astronomical observations. **80, 307; (maps) 81, 433; 82, 458; 85, 436.**

Results of meteorological observations. **80, 312; 81, 449; 84, 448; 85, 454.**

The standing of the noncommissioned officers of the several companies of the battalion as determined by their recitations to their company officers during the winter season. **80, 313; 81, 448; 82, 475; 84, 453; 85, 455.**

Results of target practice (maps). **80, 314; 81, 425; 82, 448; 84, 430; 85, 446.** Modification of the system of target practice. **80, 318.**

Engineer School of Application. **81, 422; 82, 446; 83, 392; 84, 427; 85, 429; 86, 474; 87, 415, 433; 88, 347; 89, 471; 90, 392; 91, 539; 92, 474; 93, 649; 94, 468; 95, 523; 96, 453; 97, 562; 98, 565; 99, 653; 00, 1047.**

Operations of the photographic laboratory. **302; 81, 425; 82, 448; 83, 394; 84, 429; 85, 88, 370; 90, 401.**

Organization of the Engineer School of Application. **86, 474.**

Course of winter instruction. **86, 477; 87, 88, 357; 89, 484; 90, 409; 91, 553; 92, 484; 662; 94, 481; 95, 532; 96, 457; 97, 566.**

Course of summer instruction. **86, 481; 87, 88, 360; 89, 487; 90, 407, 411; 91, 556; 92, 93, 660; 94, 485; 95, 530; 96, 460; 97, 568.**

Assignment to charge of departments of Institution. **86, 483; 87, 430; 88, 363.**

Water supply, sewers, and hospital accommodations. **86, 484.**

Plan and ests. for brick barrack. **86, 486.**

Experiments and results. **87, 417 (photograph); 88, 351 (photographs); 89, 478; 90, 401; 91, 559; 92, 481, 490; 93, 656; 94, 477 (photograph); 95, 529.**

Public buildings and construction. **87, 422; 355; 89, 476; 90, 398; 91, 547; 92, 479; 93, 654; 94, 468, 474; 95, 527; 97, 574; 00, 1052.**

Depot property. **87, 423; 88, 355; 89, 478; 399; 91, 548; 92, 480; 93, 655; 94, 475; 95, 527.**

Quartermaster and Subsistence Department. **95, 522.**

Marching, camping, and parades. **97, 571; 1047.**

Torpedoes, list of material, etc. **97, 577; 572; 99, 675; 00, 1056.**

Instruments, depot. **75, ii, 1109; 76, iii, 178, iii, 1667; 97, 576; 99, 674; 00, 1054, 1061.**

Work of the different departments. **99, 600, 1047.**

Statement of funds given in each report.

Capt. W. Ludlow, 1867-68.

Capt. P. C. Hains, 1868-71.

OPERATIONS.

1868. The post of Jefferson Barracks (about 300 acres of land) transferred to the Corps of Engineers by G. O. No. 9, dated Oct. 21, 1867, Headquarters Military Division of the Missouri. \$20,000 paid to the Quartermaster's Department for the

property. Alterations to barracks and repairs buildings. **68, 22.**

1869-70. Work on quarters in progress. **71; 70, 29.**

1871. Company E reduced and reorganized left for West Point Mar. 1, 1871. Engineer property left under the care of a small detachment Engineer soldiers. Post, with all lands appertaining thereto, transferred to the Ordnance Department. **71, 28.**

1873. Engineer material stored at the post disposed of by auction in June, and the detachment left to guard it was ordered to Willets Point. **73, 29.**

MISC. 34. POSTS—WASHINGTON BARRACKS.

In charge:

Maj. W. M. Black. 02, 793; 03, 683.

Maj. Edw. Burr. 03, 683.

1901-02. Reservation located at southern extremity of city of Washington, D. C., lying between Washington chan. of the Potomac R. and the James Creek Canal. Contracts made for filling in low lands and protecting them by sea wall. Post of Ft. Foote, Md., placed under charge of the post

commander Nov. 26, 1901, and is used by the Engineer battalion for engineering instruction and target practice. 01, 39, 793.

1902-03. Plans preparing for reconstruction of post building and constr. of War College Building commenced. Target facilities most unsatisfactory. Necessity for a Government rifle range. 03, 17, 683.

MISC. 35. POSTS—YERBA BUENA ISLAND, CAL.

ENGINEERS.

Chief of Engineers. R., 68, 22; 69, 21; 70, 30; 71, 28; 72, 28.

In charge: Capt. S. M. Mansfield, 1868-71.

OPERATIONS.

1868. This post and depot were constituted by S. O. 34, dated A. G. O., Feb. 10, 1868, and was first occupied on Mar. 25. Work begun on making roads, clearing, and preparing part of the land for permanent occupation, and improving the supply of water. 68, 22.

1869. Wharf built and necessary barracks, guardhouse, hospital, and other buildings completed. 69, 21

1870. A military survey of the island in progress. 70, 30.

1871. By G. O. 122, series of 1870, from the War Department, Company D, stationed at this post, was reduced and the skeleton company ordered temporarily to Willets Point. The Engineer property was left in charge of a small detachment left for that purpose. On June 30, 1871, this post was transferred, by orders of the Sec. of War, to the Quartermaster's Department. 71, 28.

1872. Engineer property was destroyed by fire on May 3, 1871. The small detachment of Company D, left to guard it, was ordered to Willets Point. 72, 28.

MISC. 36. SCHOOLS—ENGINEER SCHOOL OF APPLICATION, U. S. A.

In charge:

Maj. Wm. M. Black.

1901-02. Name changed from "U. S. Engineer School" to above title. Method of instruction by lectures, course of reading, students taking notes, preparation of theses and projects on subjects selected by the instructors. Trade school established for training enlisted in the various mechanical trades. 02, 40, 796.

1902-03. Route work done. Imp. of bridge equipage and preparation of Engineer Field Manual considered. 03, 19, 689.

1903-04. Instruction of officers suspended. Instruction of enlisted men and other duties continued; equipment of school continued. 04, 12, 13, 751.

MISC. 37. SCHOOLS—U. S. ENGINEER SCHOOL, FORT TOTTEN.

(See Misc. 31-36 above.)

In charge:

Maj. John G. D. Knight, 1901.

Maj. Wm. M. Black, 1901.

1900-01. School work interrupted by neces-

sity for organizing and training additional companies of Engineer troops. Work of compiling field manual begun. 01, 39, 937.

MISC. 38. TROOPS, ENGINEER (1901-1912).

(See also Misc. 2-42 on p. 2039-2053 of this index.)

1900-01. Companies C and D at garrison; Companies A, B, and E duty in Philippines; portion of Companies A and B accompanied Pekin relief expedition. Battalion reorganized into 3 battalions., au. act Feb. 2, 1901. Est. \$10,000 for plant for railroad instruction. **01, 39, 943.**

1907-08. Work of troops greatly increased. Under date Sept. 25, 1907, War Department authorized recruiting existing battalions to their war strength.

Schedule of proposed increase in the commissioned personnel of the Corps of Engineers, U. S. Army

| Increase on account of— | Grades. | | | | | | | |
|---|---------------|--------------|--------------|--------------|----------------|--------------|--------------|--------------|
| | Brig. gen. | Col. | Lt. col. | Maj. | Chap- lain. | Capt. | 1st lt. | 2d lt. |
| Additional officers for military and civil works of construction..... | | 4 | 7 | 13 | | 18 | 18 | |
| Officers for additional 3 battalions..... | | | | 3 | | 12 | 30 | 12 |
| Officers for regimental organization..... | | 3 | 3 | | | 9 | | |
| Total increase..... | | 7 | 10 | 16 | | 39 | 48 | 12 |
| Present authorized strength..... | 1 | 10 | 16 | 32 | 1 | 43 | 43 | 43 |
| Total strength with proposed increase..... | 1 | 17 | 26 | 48 | 1 | 82 | 91 | 55 |
| Proportion of each grade to total number: | | Per cent. | Per cent. | Per cent. | Per cent. | Per cent. | Per cent. | Per cent. |
| Now..... | | 5.3 | 8.0 | 16.9 | 0.5 | 21.8 | 22.8 | 22.8 |
| With proposed increase..... | | 5.3 | 8.0 | 15.0 | 0.3 | 25.5 | 28.3 | 17.1 |

08, 6, 7.

Engineer troops. **1908-10.** Difficult to raise companies to full strength. **09, 7, 8; 10, 9.**

Act Feb. 27, 1911, provides for increase. **11 12, 5.**

Battalions of Engineers, First, Second, and Third.

Chief of Engineers. **R., 01, 945, 979; 02, 40, 607, 802; 03, 5, 7, 19, 686.**

NOTE.—See above references for list of officers of Companies A-E, and p. 2053 of this index.

Under the requirements of section 11 of the act of Congress approved Feb. 2, 1901, fixing the enlisted force of the Corps of Engineers at 1 band and 3 battalions of 4 companies each, G. O. No. 22, Headquarters of the Army, Adjutant General's Office, Feb. 26, 1901, prescribed the following organization:

The First Battalion, to consist of Companies A, B, C, and D, at Manila, P. I.

The band and the Second Battalion, to consist of Companies E, F, G, and H, at Ft. Totten, Willets Point, N. Y.

The Third Battalion, to consist of Companies I, K, L, and M, at Ft. Totten, Willets Point, N. except Company M, which was ordered to be formed at West Point, N. Y., from the detachment there. The remaining companies of the battalion were not to be formed until the organization of the Second Battalion was effected.

The designation of the existing Companies E and D, of the Battalion of Engineers, was changed as follows:

Company E to Company C.

Company C to Company E.

Company D to Company F. **01, 944.**

MISC. 39. TROOPS, ENGINEER — EQUIPMENT OF ENGINEER TROOPS AND CIVILIAN ASSISTANTS TO ENGINEER OFFICERS (1900-1904).

(See Misc. 40 on p. 2059 of this index.)

APPROPRIATIONS.

| | Troops. | Civilian assistants. | |
|------------|---------|----------------------|--------------------|
| 1900 | 25,000 | 25,000 | { 00, 35 01, 37 |
| 1901 | 20,000 | 25,000 | 01, 37 |
| 1902 | 25,000 | 25,000 | 02, 38 |
| 1903 | 25,000 | 25,000 | 03, 23 |
| 1904 | 25,000 | 25,000 | 04, 17 |

Equipment of Engineer Troops and Civilian Assistants to Engineer Officers.

1900-01. Provisions made for equipment of Engineer troops in the field, procurement of pontoon trains, intrenching tools, instruments, drawing materials, etc., and for civilian assistants to Engineer officers serving on the staffs of division, corps, and department commanders, to enable them to secure the employment of surveyors, draftsmen, photographers, and clerks. Supplies

furnished for various military departments in the U. S., the Philippines, and Porto Rico, and the several Engineer officers of important military commands and departments. 01, 37; 02, 38; 03, 23, 697; 04, 17, 766. (After 1904 equipment of troops reported on independent of civilian assistants.)

MISC. 40. TROOPS, ENGINEER — ENGINEER EQUIPMENT OF TROOPS (1905-1912).

(See Troops, Engineer, 1900-1904, above.)

APPROPRIATIONS.

| | | |
|-------|-----------|---------|
| 1905, | \$15,000, | 05, 18. |
| 1906, | 40,000, | 06, 15. |
| 1907, | 40,000, | 07, 18. |
| 1908, | 72,500, | 08, 24. |
| 1909, | 90,000, | 09, 26. |
| 1910, | 90,000, | 10, 30. |
| 1911, | 90,000, | 12, 26. |
| 1912, | 90,000, | 12, 26. |

Total, 527,500

1904-05. Unfit condition of pontoon bridge equipment. Should be thoroughly overhauled and parts rebuilt. Purchase and issue of reconnaissance instruments prescribed by G. O. No. 24, War Department. To entirely fit out all organizations will require \$15,000. 05, 19, 764.

1905-06. Importance of searchlights in both siege and field operations. Proposed to apply

\$15,000 to investigation and to purchase of outfit for experimental tests. 06, 15.

1906-07. Demand for Engineer Field Manual. Decided to prepare a new edition. Numerous repairs to material, purchase of 3 battery and forge wagons, steel pontoon boat, 60 waterproof floats, 2 canvas pontoon covers. 07, 18, 869.

1907-08. 37 chess wagons delivered and distributed, numerous repairs to material on hand, purchase of 1 steel pontoon boat and 1 pontoon tool wagon. 08, 24, 911.

1908-09. Considerable additions made to equipment. 09, 26, 959.

1909-12. Engineer equipment distributed to various military divisions and departments in the U. S. and insular possessions. 10, 30, 1070; 11, 28; 12, 25.

MISC. 41. ENGINEERS, CORPS OF — CIVILIAN ASSISTANTS TO ENGINEER OFFICERS.

(See Misc. 39 on p. 2059 of this index.)

APPROPRIATIONS.

| | | |
|--------|-----------|---------|
| 1905, | \$25,000, | 05, 19. |
| 1906, | 25,000, | 06, 17. |
| 1907, | 25,000, | 07, 19. |

| 1911, | 42,000, | 12, 27. |
| 1912, | 40,000, | 12, 27. |
| Total, | 262,000 | |

1904-07. Est. \$25,000 submitted. 05, 19; 06, 16; 07, 19.

1907-08. Increase in map work, Philippine Division, necessitated a large allotment to the division. Est. \$40,000 submitted. 08, 25; 09, 2

1909-10. Est. \$42,000 submitted. 10, 31.

1910-11. Est. \$40,000 submitted. 11, 3 12, 27.

MISC. 42. TROOPS, ENGINEER — NONCOMMISSIONED OFFICERS OF ENGINEERS.

Chief of Engineers. 08, 8; 09, 8; 10, 9; 11, 5; 12, 5.

1907-08. Recommendation establishing one grade of "Sergeant," first class; two, grades of "Military overseer"; three, each battalion increased by battalion train sergeant and battalion commissary sergeant. 08, 9.

1908-09. Grade of "private, second class," should be changed to "private." There should

be added to each battalion of engineers 1 color sergeant, 1 commissary sergeant, 1 train sergeant and 1 trumpeter-corporal, and to each company 1 sergeants, first class, 2 mechanics, 2 wagoners, farriers, 1 blacksmith, and 1 saddler. Number of sergeants in each company should be increased to 22, corporals to 26, cooks to 4; "privates, first class," reduced to 36, "private" to 54. 09, 10, 9; 11, 5; 12, 5.

MISC. 43. D. C.—BRIDGES—AQUEDUCT BRIDGE.

NOTE.—The piers of this bridge, originally constructed to carry a canal across the Potomac at Washington, D. C., were built between 1835 and 1840, of Potomac R. gneiss, laid in the form of rough rubble masonry, except the ice breakers, which are of cut granite.

In 1868 a floor system and approaches were added and the structure was used as a highway toll bridge until 1886, when the Government purchased it and erected the present superstr. on the old piers.

Shortly after the freshet of June, 1889, pier No. 1 (the first from the Virginia end) was observed to have moved several inches, and defects in other piers were noticed. An ex. and the first repairs of which there is any record were made at that time under the direction of the Commissioners of the District of Columbia, to whose custody the bridge had been transferred.

Examinations by diver and such minor repairs as were found necessary have been made from time to time since under the direction of the Sec. of War.

These exs. have shown that there is in process a gradual deterioration of the masonry of the piers

below the water line. The defects show usually in the form of cavities caused by the dropping out, during freshets, of one or more of the str. in or near the face.

These cavities have usually been repaired by filling them with concrete in bags, deposited by diver. In some instances the repaired portion have been protected by placing riprap in front of them. In 3 of the piers, Nos. 1, 4, and 5, the defects became so serious that this method of repair was impracticable; and new piers have been built to replace the old ones.

The first repairs made under the direction of the War Department were provided for by an act of Congress of Aug. 7, 1894, which app. \$51,070 for this purpose.

Piers 2, 3, 5, 6, 7, and 8 were repaired by the use of concrete in bags, placed by a diver, and repair to pier 4 by the use of a cofferdam were commenced. The total expend. was \$46,379.70. The balance of \$4,690.30, being insufficient to complete the work at pier 4, reverted to the Treasury.

Piers 4, 5, and 1 were subsequently entirely rebuilt under separate apps. of \$65,000, \$65,000 and \$80,000, respectively.

Congress, by joint resolution approved July 1, 1902, enacted as follows:

"That the Secretary of War be, and he is hereby, authorized to spend an amount not exceeding three thousand dollars from the balance of appropriations for the reconstruction of pier numbered four of the Aqueduct Bridge, District of Columbia, for the purpose of the examination of and immediate temporary repairs to the remaining piers of said bridge in cases of need arising from flood or ice."

The act of Congress approved Mar. 2, 1907, making apps. for the expenses of the government of the District of Columbia for the fiscal year ending June 30, 1908, contains the following item:

"And the unexpended balance, amounting to about fourteen thousand dollars, of the appropriations for the reconstruction of piers numbered four and five of said bridge is hereby reappropriated and made available for the periodical examination of the remaining piers of the bridge and making of such repairs as may be found necessary."

The last ex. of the old piers by diver was made during October, 1911, and such defects as were found were repaired in the usual manner, by the use of concrete in bags and the piers left in as good condition as practicable; only a question of time when all of the old piers will have reached a stage when this method will be impracticable, even for temporary repairs.

Tentative plans and ests. have been prepared for a more radical scheme of repair, and soundings and probings have been made to determine the amount of work required.

Ests. for 3 plans for remedying existing conditions submitted in annual report for fiscal year 1910:

A. For complete removal of the present bridge and replacing it with a new one, including new superstr., \$950,000.

B. For complete removal of the remaining 5 old piers and replacing them with new ones and repairing the abutments, using the present superstrs., \$350,000.

C. For thoroughly and permanently repairing the remaining 5 old piers and 2 abutments, using the present superstr., \$150,000.

A possible objection to project C above is that the repairs under this project might detract from the appearance of the bridge. Suggested that the proper committee of Congress might direct the Commission of Fine Arts, established by act of the second session, Sixty-first Congress, to render an opinion. 12, 1310, 1311.

OPERATIONS.

1900-01. Old masonry of Pier No. 4 removed; new pier practically completed. Other piers examined; several in bad condition. Cavities filled with concrete, and protected with riprap. 01, 669, 3637.

1901-02. Remaining work completed. 02, 591, 2652.

1903-04. On Pier No. 5 work started; cofferdam completed; cavities of remaining piers repaired. 04, 723, 3877.

1904-05. Work on Pier No. 5 completed. 05, 731, 2603.

1906-07. Piers 2, 3, 6, 7, and 8 repaired. Plans prepared for reconstr. Pier No. 1. 07, 2271.

1907-08. Masonry work on Pier No. 1 completed; portions above water of other piers pointed. 08, 875, 2345.

1908-09. Repairs to cavities in old piers; reconstr. Pier No. 1 completed. 09, 921, 2301; 10, 1033, 2623; 12, 1310, 3455.

MISC. 44. D. C.—BRIDGES—PRESERVATION AND REPAIR OF CABIN JOHN BRIDGE.

For many years considerable leakage has occurred in the section of the conduit which passes through Cabin John Bridge.

In 1863, when the water-supply system of the District of Columbia was first put in service, the water was not allowed to rise high enough to fill the conduit completely. With the increased consumption of water, however, the elevation of its surface has been raised, until in recent years even the crown of the conduit has been under pressure, due to a head of about 2 feet.

When first used, leakage was observed and the water was drawn off and the lower part of the conduit was plastered. In a "recent" attempt to stop the leaks the upper portion of the conduit was plastered. While this doubtless reduced the leakage, there was still a very noticeable flow through the joints of the lining and the masonry in cold weather. This caused disintegration of some of the masonry and an unsightly appearance as well as a considerable waste of water.

Several cracks developed in the lining of the conduit. These were kept filled with mortar, but continued to open until this feature became so serious that an app. was requested in a report published as Doc. 1329, H. R., 61st Congress, 3d session, for placing a metal lining in the conduit.

An app. of \$35,000 for the preservation and repair of the bridge was contained in the District of Columbia app. act approv. Mar. 2, 1911, \$20,000 of which was made immediately available.

This work, completed in 1912, consisted of a cast-iron lining through the bridge, steel tie rods across both ends, a new roadway, and a reset coping.

The lining is composed of 501 linear feet of cast-iron plates three-fourths inch thick, cast in the form of arcs of an 8' circle 3" wide. Six of these plates form a circle and are bolted to one another

longitudinally and circumferentially through flanges cast on the plates. This form of lining is typical of many tunnel linings, both in this country and abroad, and is the same as was used in the Washington Aqueduct tunnel under Rock Creek.

Between the cast-iron lining and the old brick ring the space was filled with Portland cement grout poured in through holes cut in the bridge paving. On the inside of the ring, where the flanges project 3 inches from the plates, the space was filled with concrete to form a perfectly smooth waterway. Some of this concrete was placed by hand, with forming, and some was placed by use of the cement gun.

Directly beneath this lining at each end of the bridge 6 tie rods of 1½" steel, with turnbuckles, were placed transversely through the bridge to prevent further spreading.

The old brick roadway over the bridge was replaced with one of asphalt blocks by contract for \$2,012.40, and in order to make this surface impervious to water it was treated with Tarvia A and screenings in the usual manner. The coping, which was badly out of alignment, was taken up and reset.

Since the installation of the lining the bridge passed through a very severe winter without leakage. 12, 3463, 3464.

ENGINEERS.

Chief of Engineers R., 11, 1096; 12, 1313.

1904-05. Substr. and superstr. practically completed; embankment for Washington approach now completed; work started on Virginia approach. **05**, 733, 2605.

1905-06. Bridge opened to traffic Feb. 12; on Washington approach work done toward in-

stallation of drainage and electric-light systems, etc. Work started on a reinforced concrete arch bridge across Washington Chan. **06**, 813, 2080.

1906-07. All Government work in connection with constr. of highway bridge practically completed, except minor details, as placing lamps, finishing macadam road, etc. **07**, 835, 2273.

1907-08. Macadam roadway on Virginia approach completed; small tool house erected; erection of lamp-posts, etc.; other misc. work. **08**, 2348. A standard underground electric railway system installed by the Washington, Alexandria & Mount Vernon Ry. Co. from foot of 14th Street to plow pits. From plow pits to north end of bridge an overhead trolley system with ground return, is in use and legislation au. the permanent retention of this system is pending before Congress. **08**, 877.

1908-09. Transferred to Public Buildings and Grounds. **09**, 2303.

PROJECTS.

Act Feb. 12, 1901, au. Sec. of War to contract with Baltimore & Potomac R. R. Co. or others to build within 2 years at point not less than 500' above site of "present" long bridge a new switch drawbridge for highway travel. **01**, 119.

Board submits 2 designs—No. 1, \$575,000; No. 2, \$996,000. Favors No. 2. Plans given in detail (H. D. No. 138, 57th Cong., 1st sess.). **02**, 2652.

MISC. 46. D. C.—BRIDGES—HIGHWAY BRIDGE OVER POTOMAC RIVER—MAINTENANCE AND OPERATION.

APPROPRIATIONS.

| | |

| Mar. 3, 1909, | 16,000, 09 , 2303. |
| Total, | 66,600 |

ENGINEERS.

Chief of Engineers. **R.**, **06**, 818; **07**, 835; **08**, 877.

In charge. Capt. Spencer Cosby. **R.**, **06**, 2082; **07**, 2277; **08**, 2349.

OPERATIONS.

1905-07. Repairs of minor nature; tools and supplies purchased; lockers and shelters constr.; riprap placed along foot of slopes. **06**, 2083; **07**, 2277.

1907-09. Repairs to various parts of the operating machinery; steelwork repainted, etc. **08**, 2350; **09**, 2303.

1908-09. Repairs made to fender system of highway bridge and portions of ironwork painted. **09**, 930, 2355; **11**, 2986; **12**, 3507.

MISC. 47. D. C. — BRIDGES — MEMORIAL BRIDGE ACROSS POTOMAC RIVER.

APPROPRIATION.

1899, \$5,000.

Chief of Engineers. R., 98, 540; 99, 42, 627;
00, 43, 704; 01, 670; 02, 591; 03, 653.

Board of Engineers. BE. and of architects
upon certain designs for a memorial bridge across
Potomac R. from Washington, D. C., to Arlington,
Va., ordered by act of Feb. 5, 1900. R., 00, 5126.
(Lt. Col. C. J. Allen, Maj. T. W. Symons, Capt.

D. D. Gaillard, and Stanford White and Jas.
Hill.)

In charge. Lt. Col. C. J. Allen. R., 98, 35
99, 3777; 00, 5125; 01, 3648; 02, 2652; 03, 2434

Designers and architects: W. H. Barr, W.
Hutton, L. L. Burk, and G. S. Morison. R., 0
5146.

OPERATIONS.

Nothing ever done toward the constr. of the
bridge.

MISC. 48. D. C.—BRIDGES—BRIDGE ACROSS POTOMAC AT FOOT OF SOUTH CAPITOL STREET.

ENGINEERS.

Chief of Engineers. R., 96, 430.

In charge. Maj. C. E. L. B. Davis. R., 96,
3590.

SURVEYS.

Survey plan and est. called for, through Sec.

of War, by act Mar. 2, 1895, for a bridge from the
foot of South Capitol St., or below it, across Eastern
Branch of the Potomac, with recom. Made by
Maj. Davis. Most suitable location found to be
at the foot of First St. SW.; est., \$779,130; but
"no such bridge should ever be permitted to be
built." H. D. 163, 54th, 1st.

MISC. 49. D. C.—BRIDGES—ACROSS EASTERN BRANCH OF THE POTOMAC, IN LINE OF MASSACHUSETTS AVENUE EXTENDED.

ENGINEERS.

Chief of Engineers. R., 98, 541.

In charge. Lt. Col. C. J. Allen. R., 98, 3598.

SURVEYS.

R. required by act Feb. 17, 1897, submitted
Nov. 29, 1897. By Col. Allen. Steel truss bridge

on masonry piers proposed; decked, except where
it crosses the Baltimore & Potomac R. R. Plan
submitted for fixed spans and total length of 2,51
and width of 52'; est., \$441,208. Est., including
draw, \$476,843; necessity of draw not apparent
H. D. 140, 55th, 2d.

MISC. 50. D. C.—BRIDGES—ROCK CREEK BRIDGE IN LINE OF MASSACHUSETTS AVENUE EXTENDED.

APPROPRIATION.

Mar. 3, 1897, \$2,000, 98, 541.

ENGINEERS.

Chief of Engineers. R., 98, 541.

In charge. Capt. D. D. Gaillard. R., 98,
3606.

SURVEYS.

Act Mar. 3, 1897, au. Chief of Engineers to report
plans and cost of erecting st. arch bridge, also
steel bridge with st. foundations, over Rock Creek
on line of Massachusetts Ave. extended. Co
(Vols.) Gaillard submitted designs and est. for
bridge, \$568,545; steel bridge, \$199,204. St. bridge
deemed better. H. D. 163, 55th, 2d.

MISC. 51. D. C.—BUILDINGS—EXTENSION OF BUILDINGS BEYOND THE BUILDING LINES IN THE CITY OF WASHINGTON (1900-1912).

1900-01. Act of Congress approved Mar. 3, 1891, provides that no permits shall thereafter be granted for the extension of buildings beyond the building line except with the concurrent approval of the Sec. of War.

436 applications referred to War Department and reported on. **01**, 3725.

1901-02. 515 applications referred to War Department. **02**, 2745.

1902-03. 486 applications referred to War Department. **03**, 2570.

1903-05. 515 applications referred to War Department. **04**, 3957; **05**, 2661.

Approval of Sec. of War only on applications for protection to buildings on private lots adjoining public reservations, act June 21, 1906. **06**, 2150; **07**, 2343; **08**, 2416; **09**, 2367; **10**, 2682; **11**, 2995; **12**, 3518.

MISC. 52. D. C.—BUILDINGS—ENGINEER SCHOOL.

APPROPRIATIONS.

CONTRACTS.

List. **01**, 3821; **02**, 3068; **03**, 2924; **04**, 3861.

ENGINEERS.

Chief of Engineers: **01**, 687; **02**, 611; **03**, 673; **04**, 739; **05**, 747.

In charge. Capt. J. S. Sewell. **R.**, **01**, 3801; **02**, 3065; **03**, 2919; **04**, 3819, 4179; **05**, 2823.

OPERATIONS.

1900-01. Act Mar. 3, 1899, au. constr. of a fireproof building for use of Government Printing Office, cost not to exceed \$2,000,000; increased by resolution Congress, Feb. 17, 1900, to \$2,429,000. Mr. J. G. Hill appointed architect.

Actual work commenced; old buildings removed from site. At close of year foundations, steelwork, and underground drains practically completed

¹ \$19,163.33 deposited in U. S. Treas.

walls built to second floor; power-house extension under roof; 80% of plans and drawings completed. **01**, 686, 3801, 3822.

1901-02. Steelwork entirely finished; fireproofing entirely completed; exterior walls finished; interior partitions about 80% finished; nearly all door and window frames in place; roof weather tight and half finished; beginning made on plastering and leveling up floor arches, etc. **02**, 611, 3065.

1902-03. Building practically completed; details of work done. **03**, 673, 2921.

1903-04. Entirely completed and turned over to the Public Printer. **04**, 739, 3819, 4179.

Technical details. **04**, 3819.

MAPS, PLANS, SKETCHES, ETC.

Plans, architect's pen sketch of proposed building; typical floor plan, elevation on North Capitol St.; elevation on G St. **01**, 3822; **04**, 3860.

Photographs, excavation, concreting of pier underpinning at laundry, column covering, floor covering, girder covering, general view from southeast corner, under view of fireproofing. **01**, 3804, 3860.

Sketch, framing plan, second and upper floor typical fireproofing details; steelwork, first floor steelwork, 2d, 3d, 4th, 5th, 6th, and 7th floor foundation and drainage plan. **04**, 3860.

Steelwork cross section main building; general detail of exterior and section wall; general method of piping for plumbing fixtures. **04**, 3860.

Photographs, general view of steelwork; work block floor in process of construction; seventh floor after work was practically completed; new building entirely completed. **04**, 3861.

MISC. 54. D. C. — BUILDINGS — ABRAHAM LINCOLN HOUSE, ETC. (1901-1912).

(See Misc. 65 on p. 2072 of this index.)

Inspections made from time to time in connection with their care, repair, and safety. **01**, 675, 3696; **02**, 596, 2723; **03**, 659, 2527; **04**, 3909; **05**, 2626; **06**, 2118; **07**, 2309; **09**, 2352; **10**, 2677; **11**, 2983; **12**, 1321, 3505.

Misc. repairs to Abraham Lincoln House. Work of replacing old boiler at Ford's Theater Building. **06**, 2119; **07**, 2309; **08**, 2381.

MISC. 55. D. C.—BUILDINGS—ARMY WAR COLLEGE.

APPROPRIATIONS.

Capt. John S. Sewell. **R.**, **03**, 2931; **04**, 4183; **05**, 2825; **06**, 2259; **07**, 2473.

Lt. Col. W. C. Langfitt. **R.**, **08**, 2555.

OPERATIONS.

1902-03. Designs completed; northeast cornerstone laid; foundations at west end practically completed; sewer completed. **03**, 674, 2931.

1903-04. Foundations finished; main walls completed; about 40% terrace work completed. **04**, 740, 4193.

Technical details giving various methods used in construction. **04**, 3866.

1904-05. Terrace of building 80% complete building itself up to second-floor level. **05**, 74 2827.

1905-06. Terrace of War College Building 95% completed; building itself 85% complete. **06**, 829, 2267.

1906-07. Work entirely finished, and accounts settled up. **07**, 859, 2473.

MAPS, PHOTOS., ETC.

Plan showing layout of buildings and ground method of reinforcing an inadequate concrete. **04**, 3869.

Photographs: View of experimental pile at point; view of experimental pile exposed on one side; view showing method of building brick wall on concrete foundation; view of concrete piles in trench. **04**, 3869. Exterior view, main entrance to War College and Engineer post grounds. **04**, 4190.

Sketch, plan showing layout of buildings and grounds. **06**, 2268.

MISC. 56. D. C. — EXECUTIVE MANSION (WHITE HOUSE).

(For details prior to 1901, see Misc. 65 on p. 2072 of this index.)

1900-01. Usual care and repairs. Old water-supply, waste, and soil pipes replaced by new ones. Private dining room repapered, redecorated, and repainted; also main corridor, and other apartments, north and south porticos repainted. Automatic fire-alarm system placed in attic; new carpets, furniture, and furnishings purchased. Plans, with est. of cost, \$1,136,960, for extending mansion prepared in accordance with congressional action. Conservatory repaired and repainted; repairs to greenhouses and stable. **01**, 675, 3690, 3728.

Inventory of public property in the Executive Mansion. **01**, 3736.

Address of Col. T. A. Bingham, relative to extending Executive Mansion. **01**, 3754.

1901-02. Misc. repairs, etc. Remodeling mansion and building separate office building for the President. **02**, 596, 2720.

Inventory of public property. **02**, 2754.

Notes on the chrysanthemum by Geo. H. Brown, landscape gardener. **02**, 2761.

1902-03. Executive Mansion remodeled, redecorated, and refurbished, an addition to it built; the conservatory and greenhouses formerly attached to the mansion torn down, and five of the greenhouses reerected at the propagating gardens. Separate office building erected; extensive improvements to grounds. **03**, 658, 2519.

Inventory of public property. **03**, 2582.

1903-04. Exterior Executive Mansion and interior President's Office building painted; imp. and repairs in mansion and imp. about grounds; extensive imp. and repairs about the President's stables. Additional greenhouse built. **04**, 730.

Inventory of public property. **04**, 3970.

1904-05. Misc. repairs; 3 additional greenhouses built. **05**, 738, 2622.

Inventory of public property. **05**, 2674.

1905-06. Misc. painting, imp. in electric wiring, 2 additional greenhouses constr., and 2 new cold frames constr. **06**, 820, 2113.

Inventory of public property. **06**, 2164.

1906-07. Extensive repairs and betterments. Work commenced for repainting entire exterior; additional fire protection installed, new pavement laid, etc. **07**, 841, 2300.

Inventory of public property. **07**, 2358.

1907-08. Considerable painting; new water-tight covering placed upon roof of east terrace; repairs at President's stables and to greenhouses, boilers, and heating pipes. **08**, 885, 2377.

Inventory of public property. **08**, 2430.

1908-09. Misc. repairs in and about mansion; furniture cared for; repairs to Executive Office building, President's stable, and to greenhouse structures and their heating apparatus. **09**, 929, 2332.

Inventory of public property. **09**, 2378.

1909-10. Misc. repairs; considerable painting. Additional accommodations to President's Office by erection of addition to original building; old building remodeled. **10**, 1041, 2654.

1910-11. Misc. repairs; painting; furniture regularly cared for; silver closet built; lightning rods taken down; new system of protection from lightning installed; partition built in President's Offices; other misc. work. **11**, 1103, 2961.

1911-12. Misc. repairs and painting; President's stable torn down; accommodations provided in stables of Quartermaster's Department; frame building in rear of stables moved to propagating gardens; repairs to greenhouse structures. **12**, 1319, 3483.

MISC. 57. D. C.—“FLATS”—ANACOSTIA RIVER, D. C.

The Anacostia R. rises in Prince George County, Md., and, flowing 20 m. in a southwesterly direction, joins the Potomac R. in the District of Columbia.

The portion included in this proj. extends from Anacostia Br., District of Columbia, upstream 5 m. to the District line. It is subject to a mean tidal oscillation of 3' and a max. rise during freshet to about 12' above m. l. w.

The chan. has not been imp. by the United States.

A report on ex. of the Anacostia R. by S. T. Abert in 1875 states that “in 1835 vessels carrying

100 hogsheads of tobacco, or about 60 tons, were able to load at Bladensburg,” but no record of the exact depth at that time is available. In 1862 the min. chan. d. was 18' at m. l. w. at Anacostia Br., 12' at the Philadelphia, Baltimore & Washington br., and 3' at Benning Br. In 1891 the min. chan. d. was 15' at m. l. w. at Anacostia Br., 12' at the Philadelphia, Baltimore & Washington R. R. br., 8' at Benning Br., and 3' at the District line. The “present” min. chan. ds. are about the same, except near the District line, where the min. d. is now about 2' at m. l. w.

The channel is narrow and winding, and between

the chan. and the banks are extensive flats and marshes which are alternately exposed and flooded by tidal action.

In summer the flats are covered with a rank growth of aquatic plants, which prevent a rapid cleansing movement of the tide and causes deposits of mud and filth. The meadows, which are above ordinary h. w. level, are flooded at varying intervals, whenever the water is raised by flood or easterly winds above normal level, and every depression retains a stagnant pool, a condition most favorable for the development of malaria.

The acts making app. for this work approv. Mar. 3, 1911, and June 26, 1912, have provided that the money—

“be expended under the supervision of the Chief

of Engineers, United States Army, upon plan to be prepared under the direction of, and to approved by, a board of engineers to consist the Engineer Commissioner of the District of Columbia; the officer in charge of public buildings and grounds, and the engineer officer in charge the improvement of the Potomac River; said sum to be available for the preparation of plans, the prosecution of the work, the employment of personal service, and for such other purposes as may in the judgment of said board be necessary carry out the purposes of this appropriation.”

Necessary surveys made; proposed to expend available funds in dr. and constr. of R. walls the vicinity of Pennsylvania Ave. Br. and the line of Massachusetts Ave. extended.

References to examination or survey reports and maps or plans not in project documents.

The board of officers constituted by the act approv. Mar. 2, 1911, consisted of Lt. Col. W. O. Langfitt, Corps of Engineers, U. S. Army, in charge of the imp. of the Potomac R.; Lt. Col. W. V. Judson, Corps of Engineers, U. S. Army, Engineer Commissioner of the District of Columbia; and Col. Spencer Cosby, U. S. Army, in charge of public buildings and grounds. The board recom. a complete proj. for the work, conforming in general with the scheme of development outlined in the report of the Park Commission (R. of Senate Committee on the District of Columbia, S. No. 166, 57th, 1st) and approv. by the Commission of Fine Arts.

The general features of the proposed proj. are: (a) The constr. of a dam, with lock and necessary appurtenances, on the line of Massachusetts Ave., to maintain the pool above at a normal elevation of about 8' above m. l. w. (b) The constr. of river walls between Anacostia Br. and the dam, with top of walls at elevation of 8' above m. l. w. (c) Dr. section of R. between Anacostia Br. and the

dam. (d) The constr. of low walls or gravel beach around the basin from the dam to the District of Columbia line. (e) Dr. section of R. between the dam and the District of Columbia line. (f) The depth of dr. to be such that the excavation and fill will approx. balance. (g) That draw spans be required in Pennsylvania Ave., Pennsylvania Baltimore & Washington R. R., and Benning Brs., available width to be 100', as in the present Anacostia Br. (h) That the H. lines above Anacostia Br. be abolished and the bulkhead line just below Anacostia Br. be modified as indicated on map.

Est. cost of the reclamation, \$2,046,100.

The operations during 1912 included a comprehensive study of the situation, including topographical and hydrographic surveys, investigation of stream flow and sedimentation, flood conditions and sewage pollution.

Plans were in progress for beginning work on constr. with Government plant.

The total amount expended on the existing proj. to June 30, 1912, was \$10,115.56.

12, 1342, 1343.

The District of Columbia app. act of July 1, 1902, app. \$5,000, to be expended under the direction of the Sec. of War for making a survey and outline map of land owned by the U. S. within what is known as the flats of the Anacostia R. from its mouth to the boundary line of the District of Columbia, and au. and directed the Attorney General to report upon the nature of title to lands embraced within said flats. Survey made, and R. thereon by Lt. Col. Chas. J. Allen, Corps of Engineers, dated Feb. 17, 1903, with maps, transmitted to the Attorney General with a view

to ex. and report pursuant to the law. 03, 36; 04, 19; 05, 20. H. D. No. 194, 59th, 1st. 06, 18.

Chief of Engineers. R., 81, 335.

Act Mar. 3, 1881, an. sale of lots. Appraisement

made by 3 residents of Washington, D. C. Sales made to Messrs. Cook, Dickson, King, Boynton, et al. Total received, \$7,452. 81, 335, 336.

MISC. 59. D. C.—MEMORIALS — M'MILLAN MEMORIAL FOUNTAIN.

The sundry civil act approv. June 25, 1910, for the fiscal year 1911, contained the following item:

"For the preparation of the site, approaches, walks, foundation, and piping for the fountain to be erected in McMillan Park, in the District of Columbia, by the James McMillan Memorial Association of Michigan, \$15,000."

By arrangement with the Commissioners of the District of Columbia the work provided for was performed under the officer in charge of the Washington Aqueduct, the site for the fountain being under control of the latter officer.

The work was completed during 1910-11, except the constr. of the granite work, under contract for \$8,400, and which was finished in 1912.

No work done in 1911-12 on the ground toward the erection of the fountain by the James McMillan Memorial Association of Michigan; expected to be done during the following year.

APPROPRIATIONS.

See above.

ENGINEERS.

Chief of Engineers. R., 11, 1102; 12, 1318.

In charge. Lt. Col. W. C. Langfitt. R., 11, 2956; 12, 3467.

Assistants:

Capt. W. T. Hannum. 11, 1094; 12, 1311.

1st Lt. J. J. Bain. 12, 1311.

¹ App. by D. of C.

MISC. 60. D. C. — MONUMENTS — WASHINGTON MONUMENT (1901-1912).

(For prior details, see Misc. 65 on p. 2072 of this index.)

1900-01. Usual care; addition to boiler house constr.; new electric elevator installed. Work of stiffening tie-rods of iron columns within which elevator car runs completed, and the 70-volt lamps in shaft replaced with lamps of 110 volts. **01**, 3696, 3728.

1901-02. Usual care required for mainten. Painting ironwork in the interior, running new electric-light wires, and replacing 70-volt lamps with lamps of 110 volts. **02**, 597, 2723.

1902-03. Misc. work of painting, carpentry, plumbing, etc. **03**, 658, 2527.

1903-04. Struck by lightning; slight damage to motor room. **04**, 3910.

1904-05. New hoisting cables, new counter-weight cables, new controller cable installed; two new 80-horsepower boilers purchased and placed. Reception room constr. on lower floor; iron folding gates and revolving door placed at entrance. **05**, 738, 2628.

1905-06. Interior ironwork painted. **06**, 820, 2120.

1906-07. 2 steel arms put in for equalizing the unequal expansion of the cables of the elevator and usual care extended to shaft and machinery connected therewith. **07**, 841, 2310.

1907-08. New cast-iron sheaves placed at top for cables; new governor gears and shaft put in place on cable drum of elevator. Misc. repair made about the shaft, the power house, and lodge house. **08**, 886, 2383.

1908-09. New cable placed; wooden sheathing replaced with tile; engines in power house overhauled and repaired. **09**, 930, 2347.

1909-10. Woodwork in motor room repaired and necessary painting done. Painting also done at lodge house and minor repairs to machinery in power house. **10**, 2672.

1910-11. Terrazo floor laid in waiting room at lodge house, wainscoting constr. around room changes made in heating pipes, plumbing remodeled, etc. **11**, 1104, 2880.

1911-12. Iron and woodwork in shaft painted and new sash made and painted for windows at top. **12**, 1321.

MISC. 61. D. C.—PARKS, PUBLIC RESERVATIONS, ETC (1901-1912).

(See Misc. 65 on p. 2072 of this index.)

1900-01. Total area of parks, 407.21 acres. **01**, 3701.

At the propagating gardens necessary repairs made to greenhouse structures, additional propagating house constr., frame work of one of the greenhouses rebuilt, new office building erected, and grounds around it improved; some old iron fencing erected, part of Fifteenth St. roadway graded, etc. About 984,000 plants propagated for stock and park decoration. **01**, 675, 3715, 3730.

Usual care extended to improved parks and park places. 20 of the small unimproved reservations, containing 2.91 acres, brought to the first stage of improvement, and 3 of the small improved reservations further improved. Marking sts. placed at corners of 70 reservations, and Truxtun Circle highly improved. New entrance constr. to one of the main roadways in the monument grounds. Asphalt pavements in parks extended by constr. of 2,410 sq. y. of asphalt footwalk, 240 sq. y. of asphalt roadway and 455 sq. y. asphalt footwalk repaired and resurfaced. **01**, 676, 3723. 56' cobblestone gutter constr., and 438' drainpipe and 1,092' water pipe laid. **06**, 675, 3700.

Damages to Executive Mansion grounds by fire to inaugural stands. Recom. that refusal be made to allow erection in future or committees

be required by law to give bonds and guaranty **01**, 3704. Data relating to principal city park in the U. S. **01**, 3711. Occupancy of reservation by committee on inaugural ceremonies. **01**, 3715 Plan for improving section s. of Pennsylvania Ave. and n. of B St. S.W. and for a suitable connection between Potomac and Zoological Parks Printed in Doc. No. 135, H. R., 56th, 2d. s. **01** 3719, 3729.

1901-02. Repairs to greenhouses; plant house constr.; greenhouses remodeled and rebuilt; 784,000 plants propagated; 22,000 c. y. earth received and spread in propagating gardens. Asphalt pavements in parks extended by constr. of 1,401 sq. y. footwalk; 1,663 sq. y. repaired and resurfaced 561' iron drainpipe and 1,959' water pipe laid 148' st. curb laid; cobblestone gutter, cinder foot walk, board footwalk constr., posts and fence painted. **02**, 597, 2726.

1902-03. Mainten. and care of parks and improved places; part of Potomac Park extensively improved by grading; constr. a macadam roadway, etc. In various parks curb set, fountains erected, asphalt pavements extended, footwalk asphalt roadway repaired and resurfaced. At propagating gardens necessary repairs made; over

1,000,000 plants propagated. **03**, 659, 2531. Recom. for increased schedule of pay for park watchmen. **03**, 2536. 36th national encampment of the G. A. R. permits granted. **03**, 2549. Notes on public playgrounds, etc., by Geo. H. Brown, landscape gardener. **03**, 2666. Notes on Codium by Geo. H. Brown. **03**, 2669.

1903-04. Misc. work of mainten. (as described in former years); reservations relinquished to eliminate grade crossings and provide for constr. of a union railroad station; list given. **04**, 3913. Coping constr., sod laid, trees and shrubs planted, baseball diamond laid off, band concerts held, work on Potomac Park in progress, asphalt pavement constr., etc. **04**, 3924. Over 1,000,000 propagated. **04**, 3943. Notes on historic trees of Washington. **04**, 4046; **05**, 738, 2631; **06**, 820, 2122; **07**, 841, 2312.

1904-05. Use of Monument Grounds by American Railway Appliance Exhibition. **05**, 2654. Description of rare tropical plants. **05**, 2756. List of trees and shrubs in some of the public parks. **05**, 2757.

1905-06. Report on "The City Parks and Park Places" by Geo. H. Brown, landscape gardener. **06**, 2238.

1906-07. Constr. of macadam roadway along the n. and w. sides of tidal reservoir in Potomac Park. **07**, 2328.

1907-09. Additional spaces transferred, reservations imp., work of imp. E. Potomac Park completed, cement coping constr., gravel roadway in President's Park resurfaced, Garfield Park remodeled, asphalt walk repaired, etc. **08**, 886, 2385; **09**, 930, 2335. At propagating gardens, various greenhouse structures repaired; 690,000 plants propagated. **09**, 930, 2349.

1909-12. Usual care and mainten. work; macadam driveway along North B St. completed; work for imp. interior portion Potomac Park accomplished; coping constr.; walks laid; gravel road resurfaced. **10**, 1041, 2658. Over 680,000 plants propagated. **10**, 2676; **11**, 1103, 2965; **12**, 1320, 3486. Over 670,000 plants propagated. **12**, 1321, 3503.

MISC. 62. D. C.—PARKS—LIGHTING (1900-1912).

(See Misc. 65 on p. 2072 of this index.)

1900-01. Lights in parks and grounds maintained in good condition, minor repairs made, and old lanterns replaced. **01**, 3722; **03**, 2567; **04**, 3953; **05**, 2659; **06**, 2147; **08**, 2409; **09**, 2352; **11**,

2973. New improved system of lighting parks adopted and installation nearly completed. **12**, 1320.

MISC. 63. D. C.—PARKS—POTOMAC PARK (1908-1912).

1908-09. Mainten. of imp. portions, grading, macadam roadway, cinder footwalk, drainpipe laid, etc. **09**, 2355; **10**, 2669. Monument grounds;

misc. work of filling fishponds, roadway constr., cinder paths laid, etc. **10**, 2673; **11**, 2978; **12**, 3501.

MISC. 64. D. C.—FISHWAYS AT GREAT FALLS.

APPROPRIATIONS.

1882, \$50,000, **83**, 339, 2092; **87**, 2565.
1888, 25,000, **88**, 312, 2766.
1892, 15,000, **93**, 4310.
Total, 90,000

CONTRACTS.

J. E. Lyons, fishway constr. **85**, 2500.
1891. T. Hathaway, constr. of fishways, \$31,908. **91**, 3906.

ENGINEERS.

Chief of Engineers. **R.**, **83**, 339; **84**, 344; **85**, 374; **86**, 368; **87**, 335; **88**, 312; **89**, 380; **90**, 348; **91**, 443; **92**, 417; **93**, 479; **94**, 435; **95**, 489.

In charge:

Maj. G. J. Lydecker, 1883-89. **R.**, **83**, 2092; **84**, 2311; **85**, 2499; **86**, 2061; **87**, 2564; **88**, 2766.
Col. J. M. Wilson, 1889-90. **R.**, **89**, 2825.

Lt. Col. G. H. Elliot, 1890-92. **R.**, **90**, 3532; **91**, 3905; (Col.) **92**, 3382; **93**, 4310; **94**, 3224.

MISC. 65. D. C.—PUBLIC BUILDINGS AND GROUNDS.

(See Misc. 43-84 on p. 2039-2040 of this index.)

NOTE.—In addition to care, etc., of public grounds and buildings, the office was charged at 1900 with—

Care and repair of the Government telegraph lines connecting the Capitol with the various departments and the Government Printing Office.

Repair and imp. of the Government Printing Office.

Repair of the building on Tenth St. NW., where Abraham Lincoln died.

Constr. of the statue of Gen. J. A. Logan.

Care of such matters connected with the erection of the statue of Gen. Sherman as properly devolved upon the War Department.

Care of the monument at Wakefield, Va., the birthplace of Washington.

Care of the iron-pile dock erected under the supervision of the office in 1894, under the direction of the Department of State, at the mouth of Bridge Creek, Va.

The erection in the National Military Park at Gettysburg, Pa., of the memorial tablet to Abraham Lincoln.

Preservation, care, and safety of buildings occupied by the War Department in the District, except State, War, and Navy Department Building.

Care of the banks of the Potomac R. from the n. line of the Arsenal grounds to the s. curb line of N St.

The work, since June 15, 1900, of continuing plans for extending the Executive Mansion.

The work, since June 20, 1900, of making an ex. and reporting plans for the treatment of that section of the District situated s. of Pennsylvania Ave. and n. of B St. SW., and for a suitable connection between the Potomac and Zoological Parks.

At 1912 the various duties assigned to the officer in charge of public buildings and grounds were as follows:

Mainten., care, and repair of the Executive Mansion, grounds, and greenhouses. (See Misc. 56.)

Imp., policing, care, and mainten. of various parks and reservations in the District of Columbia. (See Misc. 61.)

Imp., care, and mainten. of the portion of Potomac Park w. of the R. R. embankment.

Care and mainten. of the Washington National Monument. (See Misc. 60.)

Care and mainten. of the propagating gardens.

Care of the building No. 516 Tenth St. NW., where Abraham Lincoln died. (See Misc. 54.)

The preservation, care, and safety of buildings occupied by the War Department in the District of Columbia, except State, War, and Navy Department Building.

Care and repair of the Government telegraph line connecting the Capitol with the various departments and Government Printing Office. (See Misc. 72.)

Care and mainten. of the highway bridge across the Potomac R., D. C. (See Misc. 43-50.)

Furnishing and planting trees, shrubs, etc., the grounds of the Library of Congress, of Capitol, and of executive departments.

The immediate charge of the banks of the Potomac R. from the n. line of the arsenal (of Washington Barracks) grounds to the s. curb line N St. SW. (See Misc. 61-63, 66-67, 84.)

Care of the monument at Wakefield, Va., birthplace of Washington, and the iron-pile dock at the mouth of Bridge Creek, Va.

The duties of executive and disbursing officer of the following commissions:

Grant Memorial Commission.

Barry Statue Commission.

John Paul Jones Statue Commission.

Columbus Memorial Commission.

Lincoln Memorial Commission.

In charge of the monument at Fredericksburg, Va., to the memory of Gen. Hugh Mercer.

Member of the commission created by the pub. buildings act approved May 30, 1908, to cause plans and ests. to be prepared for a suitable armory for the National Guard of the District of Columbia.

Secretary, executive and disbursing officer of the Commission of Fine Arts, created by act approved May 17, 1910.

Member of board of engineers to prepare and approve plans for the reclamation and development of the Anacostia R. and Flats. (See Misc. 5.)

Military aide to the President.

MISC. 68. D. C. — ROADS — FROM AQUEDUCT BRIDGE TO MOUNT VERNON.

NOTE.—This relates to a proposed national
boulevard connecting Arlington with Mount
Vernon. Several reports with plans and ests.
have been submitted since 1886. The Chief of
Engineers earnestly recom. congressional action.

Act Feb. 23, 1889, au. Sec. of War to have sur-
veys made, and est. prepared. 89, 385, 2867;
00, 43.

APPROPRIATION.

1889, \$10,000, 89, 2867.

ENGINEERS.

Chief of Engineers. R., 89, 385; 90, 350; 99,
42; 00, 43.

In charge. Lt. Col. C. P. Hains. R., 89, 2867;
90, 3563.

Assistant. B. F. Mackall. R., 90, 3571.

MISC. 69. D. C. — ROADS — CONDUIT ROAD, RECONSTRUCTION.

NOTE.—The Conduit Road is approx. 1½ m. l. from Foxhall Road to Great Falls, and is a necessary feature of the operation and mainten. of the conduit (water-supply system, D. C.), especially while awaiting the constr. of public roads on either side.

Its advantages were early appreciated, the officer in charge reporting in 1868 that it should be macadamized as soon as practicable.

Between 1870-1875, \$46,000 were app. for this purpose, and 9.4 m. surfaced.

Since the latter date but \$4,000 have been especially app. for the road, the last of which was \$2,000 in 1900.

The small amounts spared from the regular app. have been wholly and totally inadequate for mainten. alone.

By act of Congress approv. June 26, 1912, an

app. of \$15,000 was made for beginning the surfacing and imp. of the Conduit Road from Foxhall Road to Great Falls during the fiscal year 1913. Est. that about \$30,000 additional needed to complete this work. 11, 1096; 12, 1314.

APPROPRIATIONS.

See above.

ENGINEERS.

Chief of Engineers. R., 11, 1096; 12, 1314.

In charge. Lt. Col. W. C. Langfitt. R., 11, 1094, 2942; 12, 3463.

Assistants:

Capt. W. T. Hannum. 11, 1094; 12, 1311.

1st Lt. J. J. Bain. 12, 1311.

MISC. 70. D. C.—STATUES (1900-1912).

(See Misc. 65 on p. 2072 of this index.)

1900-01. There are 21 statues in national public grounds in charge of this office. Statues of Gen. Logan and Albert Pike completed; former unveiled. Granite coping set in position about two-thirds of the way around the site of Gen. Sherman, and statue work continued. Lettering on statue of Daniel Webster regilded. Congress app. \$10,000 for statue to Gen. U. S. Grant; designs solicited. Congress app. \$50,000 for site and statue of late Maj. Gen. Geo. B. McClellan. 01, 3720. Program of competition for Grant Statue or Memorial, Washington, D. C. 01, 3756. Of equestrian statue of late Maj. Gen. George B. McClellan. 01, 3758.

1901-02. Statue of Rochambeau and pedestal for same erected. 02, 597, 2740.

1902-03. Table of statues in public grounds. 03, 2560; 04, 3946. Details of work on various statues. 03, 2563.

1903-04. Sherman Statue completed and unveiled. 04, 3948. Contract for Grant Statue entered. 04, 3949. Details of work on other statues given. 04, 3949.

1904-05. Historic statues presented by inaugural committee. 05, 2653. Work of imp. at "Sherman Plaza" completed. 05, 2655. Working model for McClellan Statue approv.; contract for erection of monument to Gen. Hugh Mercer entered into; other work on statues and memorials. 05, 2656.

1905-06. Models of some of the bronzework of Grant Memorial completed, approv., and site selected. Model of McClellan Statue completed and approv.; bronze casting of same completed and accepted. Sculptor given another opportunity to

submit model for Pulaski Statue. Artist selects for statue of Baron von Steuben. Monument to Gen. Hugh Mercer, at Fredericksburg, Va., completed and grounds of site imp. 06, 820, 2144.

1906-07. Statue of Gen. McClellan completed erected, and unveiled; the full-size models of the bronze lions for the Grant Memorial completed a model of the Pulaski Statue approv.; contract entered into for the Von Steuben Statue. Model selected for the statue of Kosciuszko and a site selected for the statue of Longfellow. 07, 842, 2337.

1907-08. Foundation for Grant Statue nearly completed; contract entered into for Sheridan Statue and Pulaski Statue; progress made with models for Von Steuben Statue; full-size model for Kosciuszko Statue completed; site and sculpto selected for John Paul Jones Statue; site selected for statue of Commodore Barry; and other miscellaneous work on statues and memorials. 08, 886, 2410.

1908-09. The statues of Gen. Philip H. Sheridan, Henry Wadsworth Longfellow, and John Witherspoon, and the Stephenson Grand Army Memorial were erected and completed, and all but the latter unveiled. The architectural portion and some of the bronze sculpture of the Grant Memorial were finished. Site selected for the statue of Commodore John Barry, and models were submitted in a competition for that statue a new site was selected and contract entered into for the statue of John Paul Jones, and progress was made on the models for the Pulaski and the Von Steuben Statues. 09, 930, 2359.

1909-10. Statues of Gen. Count Pulaski and Gen. Thaddeus Kosciuszko erected, completed, and unveiled; full-size model of artillery group for

memorial to Gen. U. S. Grant completed and approv., and will now be cast in bronze; full-size model of artillery group for memorial to Gen. von Steuben completed, cast in bronze, received in Washington and stored; other misc. work. **10**, 1042, 2682.

1910-11. Statue of Gen. Baron von Steuben erected, completed, and unveiled; full-size model of artillery group for memorial to Gen. U. S. Grant sent to foundry to be cast in bronze; sculptor selected for Commodore John Barry Statue; plaster

models statue of John Paul Jones and bas relief for pedestal completed by sculptor and approv.; scale model for Columbus Statue approv. **11**, 1105, 2989.

1911-12. Monument to John Paul Jones erected, completed, and unveiled; also memorial to Christopher Columbus. Group for Grant Memorial cast in bronze and placed in position upon pedestal; contract entered into for constr. and erection of Commodore Barry Statue. **12**, 1321, 3510.

MISC. 71. D. C.—TELEGRAPH AND TELEPHONE WIRES—PUTTING UNDERGROUND.

ENGINEERS.

Chief of Engineers. **R.**, **88**, 313.

In charge. Lt. Col. J. M. Wilson. **R.** (Sen. Ex. D. 153, 50th, 1st), **88**, 313, 2794.

PLANS.

R. on comprehensive system of underground wires for telegraph and telephone service to con-

nect the several departments and bureaus of the U. S. in Washington called for by Senate resolution, Mar. 26, 1888, together with an est. of the cost. **88**, 313. For **R.**, see above. Est., \$69,054.61. **88**, 2799.

MISC. 72. D. C.—TELEGRAPH AND TELEPHONES—PRIVATE DEPARTMENTAL CONNECTIONS.

ENGINEERS.

Chief of Engineers. **R.**, **98**, 547; **99**, 633. (See also Misc. 71.)

In charge. Col. T. A. Bingham. **R.**, **98**, 3743; **99**, 3842; **00**, 5262. (See also Misc. 71.)

PROJECT.

Under an allotment of \$7,000, Apr. 9, 1898, from app. for "National defense" (war), act Mar. 9, 1898, telephone circuits were constr. and completed between the White House and the executive departments, with some minor exceptions completed later. **98**, 547.

1900-05. Electric storage battery, in duplicate, purchased to replace the old-style gravity battery hitherto used. The desirability of replacing the "present" overhead system of wires with underground conduits and cables submitted for action of Congress and printed in H. D. No. 135, 56th, 2d; est., \$30,000. **01**, 3724; **02**, 2743; **03**, 2568; **04**, 3954; **05**, 2659.

1905-06. Overhead cables of departmental telegraph line removed from roof of Treasury Department Building and brought into building through an underground conduit; other misc. work done. **06**, 821, 2148; **07**, 2414; **09**, 2353; **10**, 2677; **11**, 2985.

MISC. 73. D. C. — WATER SUPPLY — WASHINGTON AQUEDUCT (1850-1912).

Apps. for mainten. and operation of the Washington Aqueduct are applied to the imp., mainten., and repair of those parts of the water-supply system which are under the supervision of the Chief of Engineers. These are—

The masonry dam across the Potomac at Great Falls.

The works there for regulating the supply to the conduit.

The Conduit Road from Great Falls to Washington, a distance of about 14 m.

The conduit from Great Falls to the Georgetown Reservoir, a distance of about 12 m.

The 3 reservoirs for supplying the city.

The tunnel, about 4 m. l., connecting the Georgetown and McMillan Park Reservoirs.

The 2 brs. for carrying the mains across Rock Creek.

And other auxiliary works.

A description of these works may be found in the Annual Report of the Chief of Engineers, 1903, pages 2485-2487.

The original proj. for constr. of the Washington Aqueduct was dated Feb. 12, 1853, and published as Senate Ex. D. No. 48, 32d, 2d. The proj. provided for supplying the city of Washington with water taken from the Potomac R. at Great Falls, Md., about 14 m. above the city and 16½ m. from the present filtration plant, and with water from Little Falls Branch. Work was begun in 1853, and in 1859 water from Little Falls Branch was supplied to the city through the conduit. The first Potomac water was supplied to the city in December, 1863.

The water from Little Falls Branch became polluted, and works for excluding it were completed in 1895. The dam at Great Falls was raised during 1896 and the capacity of the system increased to its "present" extreme limit of 90,000,000 gallons per day, or, making allowances for sudden increases in consumption, to a safe limit of 65,000,000 gallons. For a discussion of the capacity of the system, see Annual Reports of the Chief of Engineers for 1897, pages 3991-4014; for 1906, pages 2093-2095; and for 1909, pages 2310-2311.

As explained in the report of the officer in charge of the Washington Aqueduct for the fiscal year ending June 30, 1911, the usual app. of \$33,000 is not sufficient to provide for the proper maintain. of the aqueduct and its accessories, and the amount is increased, in ests. submitted, to \$38,000, thus providing \$5,000 for maintaining the Conduit Road in good condition when once placed in such condition; the character and amount of traffic, especially of automobiles, has caused its rapid deterioration.

Br. No. 6 across Rock Creek is no longer an integral part of the aqueduct system but is maintained solely for the benefit of the city. As this br. is entirely too narrow for the traffic passing over it and needs to be widened, its formal transfer to the city recom.

Prior to August, 1905, the mains leading to the city from the Georgetown (distributing) Reservoir were used for a gravity supply to a part of the city of Washington, and they were maintained by the U. S. On Aug. 21, 1905, as the filtration plant had been so far completed that a portion of it could be put into operation, the gates connecting the Georgetown Reservoir with the mains referred to were closed, and the entire flow of water for the section which they supplied was sent through the tunnel to the filtration plant and thence to those mains for distribution. They accordingly became an essential part of the city distribution system, and, by mutual agreement, they have since been operated and maintained by the city water department. Their formal transfer to the city recom. 12, 1312, 1313.

Capt. Spencer Cosby. **R.**, 06, 2087; **07**, 2283; (Maj.) **08**, 2533.

Maj. J. J. Morrow. **R.**, 09, 2305.

Capt. W. T. Hannum. **R.**, 10, 2627.

Lt. Col. W. C. Langfitt. **R.**, 11, 2935; **12**, 3457.

Assistants:

T. T. Samo. **R.**, 68, 907; **69**, 503; **70**, 524; **71**, 955; **80**, 2350.

Capt. T. W. Symons. **R.**, 85, 2456.

LEGISLATION.

Laws relating to the aqueduct. **71**, 956.

MISCELLANEOUS.

Each an. report, principally in later years, covers the condition of the reservoirs, conduits, brs., and mains, the consumption and waste of water, the condition of the water during the year, and the daily gauge pressures.

PROJECTS.

Risk of interrupting supply of water by accident to conduit (50 years old) and recom. for constr. of another. **05**, 735.

WATER SUPPLY.

1900-01. Extravagant use of water a serious menace to supply of water with its "present" capacity (76,000,000 gallons), and at the rate of increase the ultimate limit would be reached in about 12 years. Tables given, showing consumption by day, month, etc. **01**, 3651-3665; **02**, 2696-2705; **03**, 2490-2495; **04**, 3886-3889; **05**, 2610; **07**, 2283; **08**, 2354; **09**, 2313; **10**, 2632.

¹ Reapp. from unexpended balance of app. of \$90,000, act of Congress Mar. 2, 1907. Expended under Washington Aqueduct for parking grounds, McMillan Park Reservoir.

1901-02. Est. daily per capita consumption and waste, 205 gallons; 100 gallons is ample for all domestic, business, and public uses. 02, 593, 2697.

1902-03. Per capita consumption, 212 gallons. 03, 655. 235 gallons. 04, 3887. 207 gallons. 06, 2092. 179 gallons. 09, 2313.

1905-06. R. by Mr. Allen Hazen, consulting engr. on capacity of plant. Use of water, and restrictive measures to prevent waste. 06, 2093.

1907-08. Recom. in regard to metering Federal buildings and institutions to stop waste of water. 08, 1879.

Table showing loss of head and elevation water will assume for varying rates of flow. 09, 2310.

Table, tons of suspended matter entering system. 09, 2312; 11, 2939; 12, 3460.

R. by Lt. Hannum on condition of conduit. 09, 2308.

Consumption and waste of water: Tables showing the average consumption of water per 24 hours, by years from 1874 to 1906 and by months from July, 1899, to Jan., 1903, will be found in the Annual Report of the Chief of Engineers for 1906, page 2092, and by months for the period Jan., 1903, to June, 1910, in the Annual Report of the Chief of Engineers for 1910, page 2632. The following table covers the fiscal years 1910, 1911, and 1912, and the accompanying diagram gives a graphic comparison with the consumption for previous years since 1899:

Table showing average consumption of water for hours.

[In million gallons.]

| | Fiscal years. | | |
|-------------------------------------|---------------|-------|------|
| | 1910 | 1911 | 1912 |
| July..... | 64.05 | 64.22 | 66. |
| Aug..... | 61.42 | 62.82 | 63. |
| Sept..... | 60.32 | 62.59 | 60. |
| Oct..... | 59.18 | 61.05 | 59. |
| Nov..... | 55.25 | 57.91 | 56. |

| Jan..... | 62.49 | 60.67 | 71. |
| Feb..... | 60.28 | 57.18 | 70. |
| Mar..... | 56.04 | 53.99 | 60. |
| Apr..... | 58.32 | 55.76 | 57. |
| May..... | 57.76 | 63.04 | 61. |
| June..... | 58.37 | 62.18 | 61. |
| Average..... | 59.19 | 60.38 | 61. |
| Average per capita consumption..... | 173 | 173 | 175 |

Per capita consumption for 1912 is based on population of 354,019, which is that assumed by the health department, D. C.

The max. daily amount of water pumped to the filters during the year was 92,720,000 gallons.

Plate showing consumption and waste. 06, 2093; 07, 2286; 08, 2356; 09, 2313; 10, 2632; 11, 2940; 12, 3460.

MISC. 74. D. C. — WATER SUPPLY — WASHINGTON AQUEDUCT—LINING OF TUNNEL.

NOTE.—The total l. of unlined tunnel of the aqueduct through r. is 4,364', and there were places in 1912 where the r. was disintegrating and falling from the sides and roofs. "Those places should be lined both for the sake of the stability of the aqueduct and to remove the danger to the lives of the employees engaged in cleaning and inspection."

By act of Congress approv. Mar. 2, 1911, the sum of \$8,000 was app. for the purpose of commencing the work.

Est. of \$12,000 submitted in 1912 for its continuance during the fiscal year 1914.

The actual work of lining can be done only when conditions permit the draining of the aqueduct. 12, 1313, 3462.

APPROPRIATIONS.

See above.

ENGINEERS.

Chief of Engineers. R., 11, 1095; 12, 1313.

In charge. Lt. Col. W. C. Langfitt. R., 11, 2941; 12, 3462.

Assistants:

Capt. W. T. Hannum. 11, 1094; 12, 1311.
1st Lt. J. J. Bain. 12, 1311.

OPERATIONS.

1911-12. During the fiscal year a concret wastewear was built and a sluice gate installed. About 140 c. y. of r. blasted from bottom of the tunnel, and 161 linear f. of 15-inch drain tile was laid, surrounded by concrete; 186 linear f. of the invert of the concrete lining and 45 linear f. of arch was built. Besides the work done in the tunnel, a landing was built to receive materials at the side of the Chesapeake & Ohio Canal, a derrick was erected, a concrete mixer was purchased and installed, a collapsible steel form for use in building the lining was purchased, and considerable sand and gravel are now on hand to continue the work in 1913. 12, 1313, 3462.

MISC. 75. D. C. — WATER SUPPLY — FILTRATION PLANT (INCLUDING OPERATION AND MAINTENANCE), 1900-1912.

(See Misc. 73-83 on p. 2040 of this index.)

APPROPRIATIONS.

Capt. D. D. Gaillard. R., 98, 3640.

MAPS.

Sketch of Washington Aqueduct filtration plant. 04, 3890.

OPERATIONS.

1900-01. Preparation of drawing, erection of plant, other preliminary work. 01, 3682.

1901-02. Excavations for reservoir made and 274 l. f. east wall built; drawings for gatehouse made; excavation of intake foundation; survey of land; other misc. work. 02, 596. Amount and cost of work. 02, 2715.

1902-03. Various contracts let; excavation work begun; survey party laying out lines; temporary office established; amount and cost of work. 03, 2505.

1903-04. Filtration gatehouse completed; Michigan Ave. extension completed; installation and delivery of boilers, pumps, meters, sluice gates, and valves; cement; 18,917.1 c. y. concrete placed. 04, 3889.

1904-05. Pumping station completed; controller house completed; work on shelter house; various contract work done; 95,008 c. y. filter sand and 23,011 c. y. gravel placed. 05, 736, 2614.

1905-06. Office and laboratory, regulator houses, and shelter house completed; 5,000 sq. y. sod laid; 3,000' gravel road built; 7,000' cobblest. gutters laid; other misc. work done under contract. 06, 2096. Force organized for operation and mainten.; daily determinations for alkalinity and hardness made; other misc. work. Summary of total costs for operation; cost per million gallons filtered. 06, 2108; 07, 2291; 08, 2362; 09, 2317; 10, 2640.

1906-07. Only minor work done. Plant practically completed. 07, 2289.

See 1905-6.

1907-08. Machine shop erected; addl. filter unit built; gratings for covering wells in regulator houses completed. 08, 2361.

See 1905-6.

1908-09. Experimental filter plant for rate studies built. 09, 2316.

See 1905-6.

SPECIAL REPORTS.

R. by Lt. Col. Miller on treatment of Potomac R. water prior to filtration. Tables showing (1) record of filter A, (2) condition of water at Great Falls; various ests. for installing plant. 03, 2511-2515.

Remarks by Mr. Allen Hazen regarding use of a coagulant. 06, 2099.

¹ Unexpended balance of app. of \$90,000, act of Congress Mar. 2, 1907, reapp. for parking grounds, McMillan Park Reservoir, and expended under head of "Washington Aqueduct."

FABLES.

Turbidities. **06**, 2104; **07**, 2291; **08**, 2362; **09**, 317; **10**, 2635; **11**, 2947; **12**, 3468.

Lt. G. M. Hoffman. **R.**, 01, 3671.

R. C. Smead. **R.**, 01, 3674.

OPERATIONS.

1900-01. The tunnel completed from w. shaft to Howard University Reservoir. **01**, 674, 3666. Amount and cost of work. **01**, 3676.

1901-02. On Jan. 8, 1902, all connections bet. the tunnel, the reservoirs, and the city mains opened and new works placed in service. Details of work and cost. **02**, 2706, 2711.

1902-03. Work increasing water supply entirely completed, except the building of an iron fence around the reservoir. **03**, 2500. Details of work and cost. **03**, 2502, 2505.

1903-04. Entirely completed. **04**, 3889.

1909-12. See Engineers and Appropriations. An addl. increase needed. **09**, 925; **10**, 1039; **11**, 097; **12**, 1314.

SURVEYS.

Act May 26, 1908, app. \$20,000 (see Appropriations) for pre. investigations and surveys for increasing the water supply. Result, with recom. of Maj. J. J. Morrow, submitted through Chief of Engineers, July 8, 1909. Reference made in the report to using Patuxent R. (Unless there be prompt installation of meters in the D. C. a new aqueduct will be necessary. Believed for the best interests of the U. S. to determine as soon as practicable the adaptability of the Patuxent R. as a source of supply.) **10**, 1039, and H. D. 347, 61st, 2d.

MISC. 78. D. C. — WATER SUPPLY — INVESTIGATION OF FILTRATION METHODS.

NOTE.—Acts June 30, 1898, and Mar. 3, 1899, called for detailed ests. of the cost of filtering the water supply of Washington, D. C.

Data relating to filtration in U. S. and foreign countries collected.

Two experimental filters erected, to test merits of English or slow system and American rapid system of filtration.

Various experiments conducted relating to turbidities, bacteriology, etc. **99**, 631, 3809.

Better results obtained from the American system of filtration. Report submitted Mar. 28, 1900. S. D. 259, 56th, 1st. **00**, 709.

APPROPRIATIONS.

| | | |
|--------|---------|---------------------|
| 1898, | \$3,000 | 99, 3809; 00, 5224. |
| 1899, | 5,000 | |
| Total, | 8,000 | |

ENGINEERS.

Chief of Engineers. **R.**, 99, 631; 00, 709.

In charge. Capt. A. M. Miller. **R.** (Lt. Col.), 99, 3809; 00, 5224.

OPERATIONS.

See note above.

MISC. 79. D. C. — WATER SUPPLY — METERING WATER SUPPLY OF UNITED STATES BUILDINGS AND GROUNDS.

The necessity for the prompt installation of meters is explained in the report on "Increasing the water supply of the D. C.," H.-D. 347, 61st, 2d. The finding in this report that a new aqueduct was not necessary was based on the assumption, among others, that metering of all services in the D. C. would be immediately provided for.

... "a study of the consumption of water in the D. C. in its relation to air temperatures has led the officer in charge to conclude that the necessity for the general and complete installation of meters is still very urgent, not only to remove the necessity of an expend. of \$5,000,000 or \$6,000,000 for the constr. of a new aqueduct, but also to remove the possibility of the consumption of water exceeding the max. capacity of the aqueduct, which is still likely to happen in the case of the recurrence of a

period of cold weather similar to that of the winter of 1904-5."

By act of Congress approv. May 18, 1910, the sum of \$7,000 was app. to begin the work of metering the U. S. buildings, reservations, and grounds during the fiscal year 1911. This provided for "The purchase, installation, and mainten. of water meters to be placed on water services of the Government Printing Office, the U. S. navy yard, and the Municipal Building of the D. C., said meters to be purchased, installed, maintained, and remain under the observation and control of the officer in charge of the Washington Aqueduct."

The work provided for by the above act was completed.

10, 1038; 11, 1098; 12, 1315.

MISC. 80. D. C. — WATER SUPPLY — PRELIMINARY TREATMENT PLANT.

The necessity for this work is discussed in the Annual Report of the Chief of Engineers for 1908, pages 2365 to 2372.

By act of Congress, approv. May 18, 1910, provision was made for the constr. of works for applying a coagulant to the water supply and for the purchase of a coagulant.

The building for storing the coagulant was erected, the pumps, piping, dissolving tanks, heating plant, and other necessary apparatus for

applying the coagulant were installed and a supply of sulphate of alumina was purchased. Coagulant was applied to the water on 10.4 days in January and 3.7 in February. 08, 2365, 2372; 10, 1037.

1911. The operation of this plant is now provided for in the same item of the D. C. app. act as for the operation and mainten. of the filtration plant.

11, 1100.

MISC. 81. D. C.—RESERVOIRS—DALECARLIA RECEIVING RESERVOIR.

(See Misc. 73-83 on p. 2040 of this index.)

NOTE.—This reservoir, completed in 1859, partly in Montgomery Co., Md., and partly in the D. C., was constr. for the storage of Potomac water from Great Falls. It became contaminated by the water flowing into it from its watershed of about 4,000 acres.

The object of the imp., begun in 1893, was the diversion from the reservoir of the contaminating water, entering the reservoir by 3 streams, East Creek, Mill Creek, and Little Falls Branch.

The proj. for the imp. provided for the erection of dams across the valleys of all these streams, and diverting the damned waters through a shaft finally and tunnel to the Potomac. Est., \$150,000.

Map of watershed and plans of the works. 93, 4308-4309.

Work was begun July, 1893. 95, 489.

The work was completed under Col. Elliot, Nov. 15, 1895, with the exception of the acquirement of a small piece of land, about $\frac{1}{2}$ acre.

The works as completed consist of 4,869' of open paved chans., 4 earthen dams aggregating 629', a shaft 51' d., and 2 tunnels with an aggregate l. of 1,400'.

Water was turned into the reservoir July 27, 1895. 96, 437, 3971.

APPROPRIATIONS.

1893, \$60,000, **93**, 478, 4303.
1894, 52,500, **95**, 490, 4128.
1895, 37,500, **95**, 490, 4128.

under au. of Congress, laid extensions through
grounds. **93**, 4288; **09**, 926; **10**, 1039; **11**, 1097.

MISC. 82. D. C. — WATER SUPPLY — REMODELING GEORGETOWN RESERVOIR.

The necessity for the work was discussed in the
Annual Report of the Chief of Engineers for 1908,
pages 2365 to 2372.

By act of Congress, approv. Mar. 2, 1911, the sum
of \$50,000 was app. for remodeling the Georgetown
Reservoir in order to continue the works for pre-
treatment of the water supply. By act June 26,
1912, \$58,000 was app. for completing this work.

"The sediment in the raw water will, by pre-

treatment of the water, be precipitated and settle
out in the Georgetown Reservoir."

During the year 1911-12 contracts were made
with William F. Cush for excavation, building
dam and concrete stop plank opening, and with
R. E. Boisseau for constr. concrete drains, and con-
siderable work was done by hired labor.

11, 1101; **12**, 1317.

MISC. 83. D. C. — RESERVOIRS — PARKING GROUNDS, M'MILLAN PARK RESERVOIR.

This reservoir, situated near the Soldiers' Home, has
a capacity of 300,000,000 gallons. The park
has an area of 118 acres. Plans were drawn by
Olmsted Bros. for attractively parking this whole
area.

The act of Congress providing for the expenses
of the government of the D. C., approv. May 26,
1908, au. the expend. of not exceeding \$6,000 for
parking the grounds at the Washington City
Reservoir, the funds to be available until the
close of the fiscal year 1909. The work performed
during that year is described at page 2327 of the
Annual Report of the Chief of Engineers for 1909.

The sum of \$2,000 app. by act May 18, 1910, for
continuing the proj., was expended on that part
of the park s. of the reservoir. 700 c. y. of soil
were purchased, 424 sq. y. concrete sidewalk were
laid, and 249 trees were set out.

The sum of \$2,000 app. by act Mar. 2, 1911, for

continuing the proj., was also expended on the
area s. of the reservoir. The area was covered
with soil and seeded to grass, and 559 sq. y. of
sidewalk, 265 l. f. of tile drains, and 484 l. f. of con-
crete gutters were laid, and 1 flight of concrete
steps was constr.

By act of Congress, approv. June 26, 1912, \$2,000
was app. for continuing the parking in the fiscal
year 1913.

In order to complete this work it will be necessary
to do several thousand yards of grading on the n.
and w. sides of the reservoir, to lay 13,950 sq. y. of
concrete sidewalk, place 9,460 sq. y. of macadam
surface on the roads, purchase 14,125 c. y. of soil
for preparing the ground for planting shrubs and
trees, purchase and set out 1,208 trees and 18,400
shrubs, and make other minor changes.

08, 882; **09**, 929; **10**, 1038; **11**, 1101; **12**, 1317.

MISC. 84. D. C.—WHARVES, ETC.—U. S. WHARF PROPERTY, WASHINGTON, D. C. (1900-1913).

(See Misc. 65 on p. 2072 of this index.)

1900-01. Act of Congress approv. Mar. 3, 1899, placed "wharf property and certain public spaces" in the D. C. under control and jurisdiction of the Chief of Engineers. Legal steps taken to secure possession of occupied wharf property. **01**, 3727; **02**, 2746.

App. made to pay owners for their wharf structures, etc.; leases approv. **03**, 2571.

Sea wall should be rebuilt. **04**, 3958; **05**, 2662; **06**, 2152.

Various leases in force for use of wharf. **07**, 2345; **08**, 2417; **09**, 2368; **10**, 2680; **11**, 2987; **12**, 3509.

MISC. 85. EXPLORATIONS AND RECONNOISSANCES (1867-1900).

(See Misc. 85-96 on p. 2040 of this index.)

MISC. 88. IRRIGATION — [(a) CALIFORNIA; (b) ARID LANDS—RECLAMATION].

(a) Irrigation—Joaquin, Tulare, and Sacramento Valleys, Cal.

ENGINEERS.

Chief of Engineers. R., 73, 115; 74, 126.

Commission:

Lt. Col. Alexander; Maj. Mendell; Prof. Davidson of the Coast Survey. H. Ex. D. 290, 43d, 1st.

(b) Arid Lands—Fund for Reclamation of.

NOTE.—Act June 17, 1902, set apart as a fund for the reclamation of arid lands the moneys received from the sale of public lands in certain of the States and Territories.

Total amount accumulated in the fund to January, 1911, est. at almost \$70,000,000. On June 30, 1910, the net investment in reclamation works amounted to \$53,781,302.88, in addition to about \$336,000 for secondary proj., townsitc development, Indian irrigation, and general expenses.

Reclamation act requires return to the reclamation fund of the est. cost of constr.; entrymen, etc., receiving water from such proj., required to contribute their proportion. Total cash returns to June 30, 1910, \$902,822.25; from water-right operation and mainten., \$249,637.19. An addl. revenue of \$2,086,173.73 derived from sale of town lots, water, power, etc.

June 30, 1910, U. S. prepared to supply water to 876,684 acres of land. Area of lands included in the proj. "now" (1910) under constr. over 3,100,000 acres.

The additions to the reclamation fund from the sales of public land found insufficient for the completion of the 30 primary proj. with such expedition as the necessities of settlers, etc., called for. President Taft recom. issuance of certificates of indebtedness against the reclamation fund.

Act June 25, 1910, which au. issuance of not exceeding \$20,000,000 of certificates of indebtedness, made the app. subject to the conditions that it should be expended upon existing proj., etc., and that no part of the same should be expended until after the proj. had been ex. and reported upon by a Board of Army Engineer Officers, and approv. by the President.

Exs. made by the BE., and recoms. made as to the allotments of the proceeds of the certificates to be issued.

The BE., in addition, recom. allotments of that part of the reclamation fund derived from the sale of public lands to supplement the \$20,000,000 loan, and to carry on worthy proj. not participating in the distribution of the loan.

BE. derived its facts from officers of the Reclamation Service, etc., settlers, landowners, and others. Feasibility of proj. considered from engineering and economic view.

BE. pointed out the importance of legislation au. sale of surplus water, and modifications of conditions for payments on certain proj. "which will otherwise fail of returning their cost to the reclamation fund."

Report of the BE. approv. by the President.

ENGINEERS.

Board:

Lt. Col. J. Biddle, Lt. Col. W. C. Langfitt, Maj. Wm. W. Harts, Maj. C. W. Kutz, Maj. H. Burgess. R., H. D. 1262, 61st, 3d.

MISC. 91. MILITARY MAPS, GEOLOGICAL MAPS, ETC.

The operations of the Corps of Engineers require quite frequently the preparation of maps, plans, sketches, etc. A large number of these are printed as a part of the reports of the Chief of Engineers. (See pp. 21 of this index.) Each abstract throughout this index cites references to the maps, etc., relating to the work referred to in the abstract.

Various maps, etc., have been prepared by the department, but have not been published as a part of the reports. For example, see "Surveys—Northern and Northwest Lakes—Charts," on p. 2120-2124 of this index. The references below relate to other instances:

MISC. 93. STONES, BUILDING—EXPERIMENTAL TESTS.

ENGINEERS.

Chief of Engineers. **R.**, **74**, 126.

In charge. Lt. Col. Q. A. Gillmore (Bvt. Maj. Gen.). **R.**, **75**, ii, 819.

MISC. 94. MINING—SUTRO TUNNEL.

NOTE.—Act Apr. 4, 1871, the President au. and requested to appoint a board of 3, 2 members to be of the Corps of Engineers, and 1 a civil or mining engineer, to ex. and report on the Sutro Tunnel, Nev., au. by act July 25, 1866, "with special reference to the importance, feasibility, cost, and me required to constr. the same; the value of the bullion extracted from the mines on the Comstock lode; their present and probable future reduction; also, the geological and practical value of said tunnel as an exploring work, and its general

bearing upon our mining and other national interests in ascertaining the practicability of deep mining."

ENGINEERS.

Chief of Engineers. R., 71, 105; 72, 102.

Commission. R., 72, 1126. (Lt. Col. H. G. Wright (Bvt. Maj. Gen.); Lt. Col. J. C. Foster (Bvt. Maj. Gen.); W. Newcomb, civil and mining engineer; secretary, Capt. W. R. King.)

MISC. 95. EXPLORATIONS — UINTAH MOUNTAINS, UTAH.

ENGINEERS.

Chief of Engineers. R., 72, 101.

In charge. Capt. W. A. Jones. R., 72, 1108.

MISC. 96. EXPLORATIONS—RAYMOND EXPLORATION, YUKON RIVER, ALASKA.

ENGINEERS.

Chief of Engineers. R., 71, 103.

In charge. Capt. C. W. Raymond, 1871. Ex. D. 12, 42d, 1st.

NOTE.—This is believed to be the first exploration of the upper reaches of the Yukon.

MISC. 97. FORTIFICATIONS.

(See p. 1793 of this index.)

MISC. 98. FORTIFICATIONS—ISTHMIAN CANAL.

The constr. of these works was under the Isthmian Canal Commission, but plans for the various

defensive works were prepared by the Chief of Engineers. 12, 23.

MISC. 99. LAWS AFFECTING THE CORPS OF ENGINEERS.

NOTE.—Since 1873 the an. reports of the Chief of Engineers reprint all the laws passed in the preceding fiscal year which have a bearing on rivers and harbors, etc. See also page 2329 of this index.

Complete copies of the laws relating to rivers and harbors only are printed in several volumes, covering the laws from Aug. 11, 1790, to Mar. 4, 1913, as H. D. 1491, 62d, 3d.

1873, 121; 75, 139; 76, 129; 77, 143; 78, 163; 79, 209; 80, 265; 81, 367; 82, 353; 83, 367; 84, 371; 85, 401; 86, 395; 87, 371; 88, 2821; 89, 413; 90, 3607; 91, 477; 92, 3463; 93, 519; 94, 3455; 95, 4259; 96, 4079; 97, 4137 (compilation of laws for protection of navigable waters); 4151, 4197; 98, 3789; 99, 3903; 00, 5457; 01, 3837; 02, 3079; 03, 2943; 04, 4223, 4314; 05, 2847; 06, 2281; 07, 2477; 08, 2563; 09, 2527; 10, 2751; 11, 3051; 12, 3569.

MISC. 100. MONUMENTS—FORT RECOVERY, OHIO.

APPROPRIATION.

1910, \$25,000, 11, 1121.

CONTRACT.

1912. Van Amringe Granite Co., Boston, Mass.
12, 1346.

ENGINEERS.

Chief of Engineers. R., 11, 1121; 12, 1345.

In charge. Maj. J. C. Oakes. 11, 1121; 12,
1345.

PROJECTS.

1911. Preparatory work; designs to be submitted August, 1911: 11, 1121.

1912. The design of monument selected is the Egyptian obelisk; it will be 101' 4" in h. above grade and will have at the base of the shaft and in a standing position a granite statue of a frontiersman 9' in h. The exterior walls of the shaft will be of granite blocks and the backing of reinforced concrete, with a circular shaft in the center.

During the year the foundation and the lower 18 courses of the shaft were completed. 12, 1345.

MISC. 101. MONUMENTS—FREDERICK THE GREAT.

APPROPRIATION.

1904, \$8,000, 04, 4199.

ENGINEERS.

Chief of Engineers. R., 04, 742; 05, 749.

In charge. Capt. J. S. Sewell. R., 04, 4199;
05, 2835.

PROJECTS AND OPERATIONS.

1904. The work was au. by the sundry civil
act Apr. 28, 1904.

* * * * *
"To defray the expenses incident to the erection and dedication, upon War College grounds, Washington Barracks, of the statue of Frederick the Great, the gift to the United States of His Imperial Majesty the Emperor of Germany, to be immediately available, eight thousand dollars."

Contract awarded for the granite pedestal; contractors had selected rough blocks for the work by the close of the fiscal year. Some study given subject of a suitable order of exercises for the dedication of the statue. 04, 4199.

1905. Pedestal purchased and placed in position, the statue placed thereon, unveiling ceremonies on Nov. 19, 1904.

Pedestal stands on the line of front steps leading up to the terrace in front of the War College. It occupies one of six granite bases provided for similar purposes.

All the work in connection with the statue proper has been completed, except that an inscription stating the date of dedication remains to be placed on the s. side of the base of the pedestal. 05, 2835.

MISC. 102. MONUMENTS—TO GENs. FRANCIS NASH AND WM. LEE DAVIDSON.

CONTRACTS.

1905. James F. Nowlan, monuments, \$8,750.
05, 2837. Henry Bonnard Bronze Co., New York,
4 bronze tablets, \$500. 05, 2837.

ENGINEERS.

Chief of Engineers. R., 03, 676; 04, 742; 05,
750; 06, 830.

In charge:

Capt. E. E. Winslow. R., 03, 2939.

Capt. R. P. Johnston. R., 04, 4201; 05, 2837;
06, 2273.

PROJECTS.

Congress au. \$5,000 by joint resolution, Jan. 30,
1903, for each monument. 03, 676.

Sites in Guilford battle grounds, near Greensboro, N. C., selected by governor of North Carolina. approv. by Sec. of War. 03, 2939.

Resolution of Continental Congress, Nov. 4, 1777. Resolved, That his excellency Governor Caswell of North Carolina be requested to erect a monument of the value of \$500, at the expense of the U. S., in honor of the memory of "Brig. Gen. Francis Nash, who fell in the Battle of Germantown, on the 4th day of October, 1777, bravely contending for the independence of his country."

Resolution of Continental Congress, Sept. 20, 1781. Resolved, That the governor and council of the State of North Carolina be desired to erect a monument, at the expense of the U. S., not exceeding the value of \$500, to the memory of the "late Brig. Gen. Davidson, who commanded the militia of the district of Salisbury, in the State of North Carolina, and was killed on the 1st day of February last, fighting gallantly in the defense of the liberty and independence of these States."

To carry those resolutions into effect, Congress, by joint resolution, approv. Jan. 30, 1903, app.

for each monument, the funds to be distributed under the direction of the Sec. of War.

monuments completed, 1906, and given the custody of the State of North Carolina, "cared for and preserved by the State."

monuments, which are practically identical sign, are simple monumental arches, with bronze inscription tablets on each monument, with no sculpture. These arches span a narrow roadway in the Guilford battle ground, which is the Atlantic & Yadkin R. R., a branch of the Southern R. R., at the battle-ground station, 6 m. from Greensboro, N. C. The road crosses the R. R. approx. at right angles, and the arches are on either side of the R. R. and about 100 yds. apart.

The arches are 33' 6" h., 28' 6" w., and 7' thick, and present a very massive, substantial appearance. The clear w. of archway is 12' 6" and the clear h. from the ground to the soffit of the keystone is 20' 4". The arches are of solid masonry, the exposed sts. being cut to the dimensions, but with quarry faces, and the interior core being of rubble. The outside arch sts. vary from 8" to 18" in thickness, so the core and shell are intimately bonded together. The granite has a uniform light-gray color (almost white) and is very even grained and almost entirely free from stains or flaws of any kind.

On the front face of each monument (that is, the face toward the R. R.) the surname of the hero to whom the monument is erected appears in raised letters on the heavy belt st. immediately above the keystone.

On each inscription tablet are of cast bronze, each being 2' 6" in w. by 3' 6" in h. These tablets

are placed on the front faces of the columns supporting the arch, and are at such height from the ground as to be conveniently and easily read.

The inscriptions read as follows:

Inscriptions on tablets on Davidson Monument:

Tablet No. 1—Brigadier General William Lee Davidson. Born 1746. Killed in the battle of Cowan's Ford, N. C., February 1st, 1781. Major, April 15, 1776. Lieut. Colonel, Oct. 4, 1777. Brigadier General, Aug. 31, 1780. "On Fame's eternal camping ground."

Tablet No. 2—"To the memory of the late Brigadier General Davidson, who commanded the militia of the District of Salisbury, in the State of North Carolina, and was killed on the 1st day of February last, fighting gallantly in defence of the liberty and independence of the States." (Extract from Resolution of Congress September 20, 1781.)

Inscriptions on tablets on Nash Monument:

Tablet No. 1—Brigadier General Francis Nash. Born 1742. Fatally wounded in battle of Germantown, Pa., October 4, 1777. Member of Provincial Congress of North Carolina, 1775. Lieutenant Colonel, September 1, 1775. Colonel, April 10, 1776. Brigadier General, February 5, 1777. "Ever since the dawn of the Revolution I have stood for the cause of Liberty and my country."

Tablet No. 2—"In honor of the memory of Brigadier General Francis Nash, who fell in the battle of Germantown, on the 4th day of October, 1777, bravely contending for the independence of his country." (Extract from Resolution of Continental Congress November 4, 1777.)

06, 2273.

SC. 103. MONUMENTS—GUILFORD COURTHOUSE.

APPROPRIATION.

1911, \$30,000, 11, 1122.

TRACTS.

Projects.

ENGINEERS.

Chief of Engineers. R., 11, 1122; 12, 1348.

CHARGE:

1st. E. I. Brown. 11, 1122.

2nd. L. H. Rand. 12, 1348.

3rd. H. W. Stickle. 12, 1348.

OBJECTS.

1st. Feb. 13, 1911, authorized erection of a monument on the battle field of Guilford Courthouse, Guilford

County, N. C., to commemorate the battle fought there on Mar. 15, 1781, by the American forces, commanded by Maj. Gen. Nathanael Greene, and in memory of Maj. Gen. Nathanael Greene, and the officers and sailors of the Continental Army who participated in the Battle of Guilford Courthouse. The funds to be expended under the direction of Sec. of War.

Operations during 1910-11 consisted in the preparation of a program of competition, the selection of a location for the monument, and the acceptance of a deed to the site selected. 11, 1122.

Of the various models, selection made of No. 5; award made to the designer, Mr. Packer; price, \$27,500. 12, 1348.

MISC. 104. MONUMENTS—KINGS MOUNTAIN, S. C.

APPROPRIATION.

1906, \$30,000, 07, 861.

CONTRACT.

1908. Southern Marble & Granite Co., monumental constr., \$25,000 (supplemental contract, \$21,000). 09, 2521.

ENGINEERS.

Chief of Engineers. R., 07, 861; 08, 903; 09, 950; 10, 1060.

In charge:

Capt. G. P. Howell. 07, 861.

Capt. E. P. Stuart. R., 08, 2561.

Capt. E. I. Brown. R., 09, 2521.

Capt. E. N. Adams. R., 10, 2745.

PROJECTS AND OPERATIONS.

1907. Act June 16, 1906, au. erection of a monument on Kings Mountain battle ground to commemorate the victory of the War of the American Revolution, Oct. 7, 1780. Title to the land determined by the Attorney General of the U. S., to rest with the Kings Mountain Centennial Association of S. C. 07, 861.

1908. Recom. and approv. that McKim, Mead & White, architects, New York City, be employed to prepare designs and specifications for

this monument. The type of monument decided upon an obelisk bearing 4 tablets, for inscriptions, within an inclosure.

Bids opened Apr. 23, 1908, for the constr. of this monument, and contract was awarded to The Southern Marble & Granite Co., Spartanburg, S. C., to construct a monument 115' 3" h., of granite from the quarry of The North Carolina Granite Corp., Mount Airy, N. C., for the sum of \$25,000.

At the close of the fiscal year the plan of the monument had been approv., the inscriptions for the bronze tablets had received the approval of the Sec. of War, and everything was in readiness for the constr. of the monument; the contractor had built storage sheds and office on the site, and ground had been broken for the excavation for the foundation on June 23. 08, 2561.

1910. Owing to the greater d. required to secure a suitable footing for the foundation, it became necessary to reduce the size of the monument originally contemplated. Supplemental contract was therefore made for the constr. of a monument 83' 6" h., with lightning conductor installed, for the sum of \$21,000. Under this contract the monument completed, with the exception of the sculptured work, setting of the bronze tablets, and erection of inclosure. During the year this work was completed and final payment under the contract was made. 10, 2745.

MISC. 105. MONUMENTS—MONTEREY, CAL.

APPROPRIATION.

1907, \$10,000, 09, 2523.

ENGINEERS.

Chief of Engineers. R., 08, 903; 09, 951; 10, 1061.

In charge. Lt. Col. J. Biddle. 08, 903; R., 09, 2523; 10, 2749.

PROJECTS AND OPERATIONS.

During the War with Mexico, on July 7, 1846, Commodore Sloat, in accordance with instructions from our Government, landed a force of sailors and marines at Monterey and took possession of California in the name of the U. S. In 1886 an organization composed of Mexican War veterans, California pioneers, Army and Navy officers, and others prominent in the affairs of the State, was formed for the purpose of erecting a monument to Commodore Sloat, the organization being known as the Sloat Monument Association.

A site was procured on the military reservation of the Presidio of Monterey, on the slope of a hill

overlooking the B. of Monterey. Upon this site, which is unobstructed by trees or adjacent buildings, a suitable foundation was laid and a base, or platform, for the proposed monument was constr., faced with sts. which were contributed by various counties of the State, military, and civic organizations. The base is 24' sq. and 6' h.

The U. S., act Mar. 4, 1907, app. \$10,000 for the erection of a monument to Commodore John Drake Sloat, U. S. Navy, at Monterey, Cal. A portion of this sum, not to exceed \$1,000, to be devoted to procuring a suitable design and other pre. expenses, leaving about \$9,000 for the actual work, act of Mar. 28, 1908.

The amount expended on base unknown.

With the aid of the San Francisco Art Institute and the Sloat Monument Association, a design made; approv. by Sec. of War June 29, 1909.

Competitive designs obtained by offering 3 prizes of \$250, \$150, and \$100, respectively.

08, 903; 09, 951, 2523.

1910. Monument completed June 2, 1910, and dedicated June 14, 1910. 10, 2749.

ISC. 106. MONUMENTS—NEW ORLEANS, LA.**PROPRIATION.**

1907, \$25,000, 07, 862.

CONTRACT.

908. M. P. Doullert, building work (3 contracts). 08, 2560.

ENGINEERS.

Chief of Engineers. R., 07, 862; 08, 902; 09,

in charge:

Capt. J. F. McIndoe. 07, 862; R., 08, 2559.

1st Lt. W. Willing. 09, 949.

1st Col. L. H. Beach. R., 09, 2519.

OBJECTS AND OPERATIONS.

Act Mar. 4, 1907, Congress au. completion of a monument to memory of the soldiers who fell in the Battle of New Orleans in the War of 1812. Design of the monument approv. by Sec. of War July 17, 1907; work of constr. and disbursement of funds assigned to Engineer Department. The site of the structure is at Chalmette, La. 07, 862.

The Chalmette monument was originally designed by Newton Richards, whose plans were accepted by the Jackson Monument Association May, 1855. This design consisted of a plain shaft 142' h., resting on 5 steps, each 2' h. and rising about 2' 6" above the natural surface of the ground; the shaft to be 16' 8" sq. at the base and 12' 6" at the top; the base of the shaft to have the 4 faces corniced projections surmounted by sculptured emblems, one of these to serve as entrance to a spiral stairway leading to a chamber at the top; the stair to be lighted by small

openings at regular intervals; both shaft and base to be faced with marble.

A contract for the erection of the monument was awarded in June, 1855, but the work was not completed.

At the time Congress made the above app. no work had been done for over 50 years, it is said. The shaft was 56' 10" h., measuring from the top of the mound of earth about 12' 6" above the natural surface and about 185' in diameter which had been placed around the monument to protect the brick foundation. The base was 16' 8" sq. outside and 10' 8" diameter inside; the top was 14' 11" sq. outside and 9' 11" diameter inside.

Under proj. approv. July 6, 1907, it was proposed to remove the mound of earth covering the base of the existing monument, to extend the shaft on the original lines 24' 2½", and to place thereon a pyramid 9' h., making the top of the monument when completed approx. 100' above the natural level of the ground. The entire shaft and base are to be covered with marble. A spiral stairway, with iron steps supported by a central brick pier and the brick lining of shaft, leads to an observation chamber 9' 6" sq. in top of monument. There is to be a bronze door at the entrance to the monument, bronze handrails on both sides of stairway, bronze grilles in the windows of observation chamber, and a bronze historical tablet on the wall of observation chamber. 08, 902.

The monument was completed by the contractor in December, 1908, and in March, 1909, transferred to the custody of the United [States] Daughters of 1776 and 1812, as required by the act of Mar. 4, 1907, under au. of a letter from the Sec. of War dated Mar. 5, 1909. 09, 949.

ISC. 107. MONUMENTS—POINT PLEASANT.**CONTRACT.**

See Projects, etc.)

ENGINEERS.

Chief of Engineers. R., 09, 952; 10, 1061.

in charge:

Capt. F. W. Altstaetter. 09, 2525; 10, 2747.

OBJECT AND OPERATION.

The public building act May 30, 1908, app. the sum of \$10,000 to aid in the erection and completion of a memorial structure at Pt. Pleasant, W. Va., to commemorate a battle of the Revolution fought at that point.

909. The site and plans having been approv.

by the Sec. of War for the erection of a granite monument in Tu-endi-wei Park, Pt. Pleasant, W. Va., contract entered into bet. the U. S., the trustees of the Pt. Pleasant battle monument, and the Van Amringe Granite Co., of Boston, for the erection of a monument at a cost of \$15,000, \$10,000 of which, less cost of supervision, is to be paid by the Government. 09, 952, 2525.

1910. The lower courses, shaft, bronze tablets, and the "Frontiersman" statue were placed. On July 22, a storm wrecked the cribbing used in erecting the monument, but no damage was done to the permanent work. The monument was accepted on the part of the Government Nov. 26, it having been unveiled by the people of Pt. Pleasant on Oct. 9. 10, 2747.

MISC. 108. MONUMENTS—TO SERGEANT FLOYD.**ENGINEERS.**

Chief of Engineers. R., 99, 641; 00, 722; 01, 687.

In charge. Capt. H. M. Chittenden. R., 00, 5455; 01, 3827.

Deficiency act Mar. 3, 1899, app. \$5,000 for erection, in cooperation with Floyd Memorial Association, of a monument near Sioux City, Iowa, over the remains of Sergt. Charles Floyd, of the Lewis and Clark Expedition. This sum expended in conjunction with other sums app. by Iowa, county of Woodbury, Iowa; city of Sioux City, Iowa; and contributions from various other sources, the total amounting to nearly \$20,000. Work conducted entirely under supervision of the U. S. Engineer office in Sioux City.

At the close of 1900 the foundation for the monument had been completed, a contract had been let on the part of the State of Iowa for the st. in the shaft, and advertisements were out for the erection of the monument, this part of the work to be done from the U. S. app.

The monument was formally dedicated May 30, 1900.

The foundation is a solid monolith of concrete, approx. of the form of a frustum of a pyramid, with 484 sq. f. bearing surface. It weighs 278 t.

The style of the shaft is that of the Egyptian obelisk. The base is 9.42' sq. and the h. is 100.174'. The material is cut st. from the Kettle R. sandst. quarries of Minnesota. The cut st. comprises the greater part of the volume of the shaft, there being a small core composed of concrete. Upon the e. and w. faces of the shaft are 2 large bronze tablets² with suitable inscriptions. The monument is protected from defacement by a steel picket fence 7½' h. A concrete pavement in the form of a terrace and roadway extends around the monument to the circumference of a circle of nearly 50' radius. The grounds in the immediate vicinity have been graded, and a roadway has been constructed from the monument to the nearest public highway.

The monument and 1 acre of ground around it are now the property of the Floyd Memorial Association. 01, 687.

Calculation for constr. of obelisk. Constr. of foundation. Securing dimension st. Proportions of Bunker Hill, Bennington, and Washington Obelisks. 01, 3827.

MISC. 109. MONUMENTS—BRIG. GEN. SHIELDS.**APPROPRIATION.**

1910, \$3,000, 10, 1062.

CONTRACTS.

(See Projects.)

ENGINEER.

Chief of Engineers. R., 10, 1062; 11, 1120.

In charge. Maj. E. H. Schulz. 10, 1062; 11, 1120.

PROJECTS.

Act June 25, 1910, au. monument over grave of Brig. Gen. James Shields, St. Marys Cemetery, Carrollton, Mo. 10, 1062.

Award was made to Jerome Connor, sculptor, of Washington, D. C., \$2,925. Monument completed and accepted Nov. 12, 1910. Unveiled on this date with appropriate ceremonies in the presence of the widow and son of Gen. Shields. There were also present distinguished citizens of

Carrollton, the State of Missouri, and the Nation, including Hon. H. S. Hadley, governor of Missouri; Hon. W. W. Rucker, Member of Congress from the second district of Missouri; Jerome Connor, the sculptor and contractor, of Washington, D. C.; and others. National troops from Fort Leavenworth and Missouri State troops were in attendance.

The monument was erected on the Shields lot in St. Marys Cemetery, Carrollton, Mo. It rests on a concrete foundation: 6' 8" by 7' 6" by 6' d. The pedestal is 8' 6" h., of 3 pieces of Missouri granite, with all the exposed surfaces highly polished, and weighs between 15 and 16 t. The first base is 6' 8" by 7' 6" by 1', the second 4' 8" by 3' 10" by 1' 8", and the third 4' 2" by 3' 4" by 6' 10". On this is placed the bust, 4' 6" in height. It is of American standard bronze and weighs 800 pounds. Total height, 14'.

On the face of the monument, n. side, is engraved: "General James Shields, born in County Tyrone, Ireland, May 10, 1810, and died in Ottumwa, Iowa,

¹ NOTE.—The records of the expedition spell Clark's name sometimes with a final "e" and sometimes without. A facsimile of a document signed by Clark shows that he spelled his name without a final "e."

² Tablet on west face of monument:

"Floyd. This shaft marks the burial place of Sergeant Charles Floyd, a member of the Lewis and Clark Expedition. He died in his country's service and was buried near this spot August 20, 1804. Graves of such men are pilgrim shrines; shrines to no class or creed confined. Erected A. D. 1900, by the Floyd Memorial Association, aided by the United States and the State of Iowa."

Tablet on other faces of monument:

"In commemoration of the Louisiana purchase, made during the administration of Thomas Jefferson, third President of the United States, April 30, 1803. Of its successful exploration by the heroic members of the Lewis and Clark Expedition. Of the valor of the American soldier and of the enterprise, courage, and fortitude of the American pioneer to whom these great States west of the Mississippi River owe their secure foundation."

June 1, 1879. Soldier, jurist, statesman. Erected by the United States under an act of the Congress approved March 15, 1910."

Underneath was placed the bronze coat of arms of the U. S. On the right side the words "Winchester, Port Republic"; on the left side "Cerro

Gordo, Chapultepec"; and on the rear of the pedestal is another bronze ornament, consisting of a palm leaf with the seals of the States which he represented in the U. S. Senate, with the inscription, "United States Senator from Illinois, Minnesota, and Missouri." 11, 1120.

MISC. 110. MONUMENTS—MEMORIAL ARCH AT VALLEY FORGE.

APPROPRIATION.

1911, \$100,000, 11, 1121.

CONTRACTS.

1911. Paul P. Cret, architect, \$5,460. 12, 1346.

1912. H. L. Brown, erection, \$91,000. 12, 1347.

ENGINEERS.

Chief of Engineers. R., 11, 1121; 12, 1346.

PROJECTS.

Act June 25, 1910, an. erection, upon site of the encampment during the winter of 1777-78, of a memorial arch within the Valley Forge Park. The said act also provided that the amount an. should be expended by the Valley Forge Park Commission under the direction of the Sec. of War; no app. made.

Act Mar. 4, 1911, made app. and provided that the money should be expended under the direction of the Sec. of War.

In 1910 resolution adopted by Valley Forge Park Commission approving the perspective drawings, plans, and specifications submitted by Mr. Paul P. Cret, architect, and directing their submission to the Sec. of War, who gave his approval Mar. 27, 1911. Location originally decided upon at a point near the intersection of the Old Gulph Road and the Outer Boulevard; approved by Sec. of War.

During 1910-11 topographical survey of site made and test borings made to determine character of soil and d. to which foundation of arch should be carried.

At the close of the year modified drawings and specifications for the constr. of the arch were in course of preparation.

A contract was entered into with Mr. Paul P. Cret, under date of May 20, 1911, covering his services as architect for the constr. of the arch. 11, 1121.

1912. Excavation work in progress; models and decorative work in progress; detailed drawings made. 12, 1347.

MISC. 111. PARKS, NATIONAL—CRATER LAKE.

APPROPRIATION.

(See Project.)

1910, \$10,000, 11, 1118, 3036.

ENGINEERS.

Chief of Engineers. R., 11, 1118; 12, 1340.

In charge. Maj. J. J. Morrow. R., 11, 3035; 12, 3561.

PROJECT.

A complete description of Crater Lake Park is found in Professional Paper No. 3, Department of the Interior, U. S. Geological Sur., entitled "The Geology and Petrography of Crater Lake National Park," by J. S. Diller and H. B. Patton; Government Printing Office, 1902.

The sundry civil act approved Aug. 24, 1912, provided an app. of \$50,000 for expend. under the direction of the Sec. of War for the constr. of a wagon road and the necessary brs. through Crater Lake National Park, together with a system of tanks and water-supply pipes to provide for

sprinkling in accordance with the recoms. contained in the R. published in H. D. 328, 62d, 2d, referred to below. 12, 1341.

OPERATIONS.

1911. A sur. of the nature of a pre. R. R. sur. was made covering the road from the entrance to the park on the approach from Klamath Falls up to the crater rim at the present location of the lodge of the Crater Lake Co., and a sur. of the proposed road encircling the lake was completed with the exception of a short piece over the cliff near Andersons Spring. Measurement of discharge of all convenient springs was completed. Nearly 50 m. of pre. lines were run and platted. 11, 3035.

1912. During the fiscal year one party, constituted as each of the parties of the preceding season, was sent into the park in July, 1911, under the direction of Junior Engr. W. G. Carroll, and finished the work uncompleted during the preceding season, namely, 6 m. of the 36 m. of road encircling the lake, the 5 m. of road to the Pinnacles, and the

4 m. of road to the s. boundary of the park. This work comprised about 1 month of field work. After the return of the field party, in the office, all transit lines were computed and platted, the location was profiled, ests. were completed, and final R. submitted Nov. 21, 1911. This R. is printed in full with map and profiles in H. D. 328, 62d, 2d. The total est. cost of the system of roads and trails is

\$642,000, with an addl. \$65,000 for a system of tanks and sprinkling, and an an. est. after completion for mainten. of \$20,000. 12, 3561.

SURVEYS.

Act June 25, 1900, an. sur., locating and preparing plans and est. for roads and trails in Crater Lake National Park, Oreg. 11, 1118.

MISC. 112. NATIONAL PARKS — YELLOWSTONE NATIONAL PARK—OFFICE, YELLOWSTONE PARK, WYO.

PROJECTS.

The Yellowstone National Park was set apart from the public domain and placed under the control of the Sec. of Interior, act Mar. 1, 1872.

Sundry civil act Mar. 3, 1883, au. constr. and imp. of suitable roads and brs. under the supervision of an Engineer officer to be detailed by the Sec. of War; officer detailed 1883.

This was the beginning of systematic road constr. in the park. Previous work consisted of opening rough trails, temporary in character.

Subsequent to sundry civil act Aug. 4, 1886, expend. for imp. transferred to charge of Engineer Department.

Has since been in charge of Engineer Department, with exception of period August, 1894, to March, 1899. **12**, 1334.

By Capt. C. B. Sears, 1887, comprehensive system of substantial roads, which, with the change of the act of Mar. 3, 1891, is the basis of the system in force 1912.

Sundry civil act June 6, 1900, au. that road extension and imp. be made in harmony with general plan to be approv. by Chief of Engineers. Plan pprov. Aug. 27, 1900; modified by au. Sec. of

War, July 22, 1901; further modified by approv. of Chief of Engineers, July 2, 1902.

Sundry civil act June 28, 1902, recognized this proj., and provided for its completion; practically finished during June 30, 1906.

The road system comprises a belt line or main circuit, which reaches all of the important centers of interest, with side roads, bridle trails, and 4 approaches leading from the park boundary to different points on the belt line—in all, about 350 m. of road, and about 125 brs.

Existing proj., 1912, provides that the belt line and the approach from the n. entrance be thoroughly metaled with crushed r., gravel, or other good material; that iron pipe, tile, or other good material be used for culverts; that steel and concrete be used for brs.; and that roads on the main tourist route be sprinkled. Roads into the park, except from the n., are constr. and maintained as earth roads. **92**, 3450; **00**, 5441; **01**, 3786; **12**, 1335.

1901. "Est. total cost of the proj., exclusive of an. mainten. and repairs and of macadamization, is \$870,000. Of this sum \$472,000, in round numbers, has been expended, about \$88,000 (\$113,000, act Mar. 3, 1901, less \$25,000 an. repairs) is available, and \$310,000 is required. The cost of an. mainten. and repairs has been about \$174,000.

"The result of the expend. thus far, after certain portions of the road are rebuilt, will be about 190 m. of road and 80 brs. constr. There remain to be built about 144 m. and 11 costly brs." **01**, 682.

Proposal of Chief of Engineers to macadamize belt line of roads approv. by Sec. of War (150 m.; est., \$2,000 per m.). **01**, 3797.

1903. Plan for parking grounds, Mammoth Hot Springs. Notes on planting. By W. H. Manning. **03**, 2894.

1905. Maj. Chittenden est. \$75,000 an. for mainten. **05**, 2813.

On account of the growing public interest in the park, and the consequent demand upon its roads, \$2,000,000 est. for enlargement and extension of the proj. **05**, 2816.

In 1905 Maj. Chittenden, in a memorandum, outlined the peculiar needs of the road system of the park. **05**, 2816.

Recom., also, that park be made a separate Engineer district. Objection to addl. roads, as not being at all needful or desirable. **05**, 2822.

Change in route of road from Tower Falls to Mammoth Hot Springs recom. on account of dangerous slides. Observatory on Mount Washburn also recom. **06**, 2257.

1910.¹ "The apps. for the 'past' 6 years have proven inadequate for mainten., and if steps are not taken to replace old worn-out brs. terrible accidents are liable to happen. The road surface, too, is in a poor and worn-out condition and in need of a more thorough treatment than can be given with the small apps. that have been made during the past few years." **10**, 1054; **11**, 1114.

¹Special request for separate allotment for road repairs. H. D. 772, 61st, 2d.

1911. Steps had been taken from 1909 looking toward gradual accumulation by the department of its own animals for work in park. 11, 3032.

1912. (See Operations, 1912.)

OPERATIONS.

1883-87. Résumé. 87, 3133.

1872-00. Résumé. 00, 5420.

1901. Work in Golden Gate Canyon, including reconstr. viaduct, completed; single-track road built from Golden Gate to Middle Gardiner Falls; material for brs. in Gardiner Canyon purchased and 1 abutment erected; 10 m. road opened up on the e. approach, and nearly the whole line located; extensive repairs over the whole system. 01, 682, 3777.

The new road has been extended about 3 m. down the Yancey Hill: the sur. and definite location have been carried to the Yellowstone R. and to Tower Falls, and the 2 brs. for the Yellowstone and Lamar Rs. have been contracted for.

In the lower Gardiner Canyon 1 br. abutment has been put in, the spring rise preventing any further work until after it subsides.

On the e. approach about 6 m. of road has been graded and the br. over the Yellowstone has been about half built.

On the s. approach extensive repairs have been carried over the road from the Thumb to near Lewis R. and material has been partly assembled for the Lewis R. br.

Under general repairs and completion the road to the middle Gardiner Falls has been extended entirely around Bunsen Peak. The entire circuit of the belt line was opened before June 1, something never before accomplished in the history of the park. The Natural Br. cut-off has been built about 2 m. The whole line of road from Mammoth Hot Springs to Golden Gate has been resurfaced. A very steep hill, called Soap Hill, just below Fort Yellowstone has been cut out, replacing a 15% grade with one of 8%. The very dusty road across a portion of the Norris Geyser Basin formation has been entirely resurfaced. The Gibbon R. branch of the w. approach has been extensively imp. About 1½ m. of formation road near the Fountain Hotel have been resurfaced, and also about 2 m. of road in the Spring Creek Canyon. Besides these more important repairs the entire system has been gone over several times by small parties. 01, 3784.

1902. In vicinity of Yanceys Road constr.; locating Mount Washington road; work in Gardiner Canyon, on East Road, South Road, Mammoth Hot Springs; general repairs and Road completion; sprinkling; Howard-Chief Joseph Trail located with aid of special party, some being participants in Nez Perce Indian campaign. 02, 3034.

Increasing water supply, Fort Yellowstone, under allotment by Quartermaster General of \$8,000 from app. for transportation of the Army. 02, 3042.

1903. Extensive work at Mammoth Hot Springs, including reconstr. of the roads, the building of a large amount of concrete sidewalk, the grading and irrigation of the grounds, the completion of the water-supply system, the installation of an electric-light plant, and the erection of several necessary buildings.

The reconstr. of the road between Gardiner and Mammoth Hot Springs, including the partial constr. of an entrance gate at the n. boundary, corner stone being laid by President Roosevelt.

The partial constr. of a road between Mammoth Hot Springs and the Middle Gardiner.

The reconstr. and surfacing of 7 m. of road between Mammoth Hot Springs and Norris.

The reconstr. of the road in the vicinity of Virginia Cascade and at Blanding Hill.

The reconstr. of 3 stretches of road in the Gibbon Canyon for the purpose of cutting out bad hills.

The completion of about 3 m. of road on the Natural Br. Cut-off.

The grading of a new crossing of Cascade Creek at the Grand Canyon, and the surfacing with r. of about ½ m. of road in that vicinity.

The constr. of about 10 m. of new road on the Mount Washburn division.

The opening of nearly 40 m. of new road on the e. approach.

The opening of 4 m. of road, s. approach, and the completion of about 6 m. more.

The purchase and partial erection of 9 new brs., including the Melan Arch Br. over the Yellowstone.

The purchase of 12 new sprinkling wagons and the installation of the plant between Gardiner and Norris.

Extensive repairs to the entire system. Owing to the lateness of the season and the excessive amount of freight hauling in the early spring, the roads suffered very heavily, and the cost of opening them up was much greater than usual.

A new station house and barn were built for the superintendent at the s. boundary.

03, 2885.

1904. Extensive work in the vicinity of Gardiner, including the preparation of a large field for alfalfa sowing for the use of the superintendent in protecting the game in the winter.

The resurfacing with gravel of the entire line of road between Gardiner and Mammoth Hot Springs. Completion of road between Mammoth Hot Springs and the Middle Gardiner Br.

Continuation of reconstr. of road between Mammoth Hot Springs and Norris, about 6 m.

Completion of about 3 m. of road on Natural Br. Cut-off.

Continuation of work on both sides of Mount Washburn, a total distance of about 6 m.

Opening of a road (July 10, 1903) to travel and the execution of a large amount of work on this road.

The erection of a steel-concrete arch br. over the Yellowstone above the Upper Falls.

The opening of a new road from this br. to Artist Pt.

The erection of a steel arch br. over Cascade Creek, near the Grand Canyon, and the completion of approaches thereto.

Erection of a steel br. over the Gibbon R., in Gibbon Canyon.

Erection of the new Baronett Br. (steel) near Yanceys.

Extension of sprinkling system so as to cover about 55 m.

Heavy repair and mainten. work extending to every part of the system.

Erection of a new station house and barn at Gardiner for the use of the superintendent.

And many other less important items of work throughout the park.

04, 4171.

1905. The erection of a 5-span steel arch br. over the Middle Gardiner R. near Mammoth Hot Springs, being the largest br. in the park.

The erection of a steel truss br. over Nez Perce Creek near the Fountain Hotel, and of another over the Firehole R. above Excelsior Geyser.

The erection of a steel arch br. over Tower Creek near the falls, and of 4 wooden brs. over Trout and Antelope Creeks in Hayden Valley and over the Big and Little Blacktail Creeks on the road between Mammoth Hot Springs and Tower Falls.

The reconstr. of wooden brs. over Gibbon R. near Norris, the Firehole R., on the old freight road near the Fountain Hotel, and over the same stream above the Upper Geyser Basin.

The erection of a large wooden br. over the Lamar R. on the road to Cooke City, and also one over Grinnell Creek on the East Road.

The erection of a curved viaduct on the road e. of Sylvan Pass for the purpose of carrying the road over itself and by means of a loop diminishing the gradient to the adopted limit.

Extensive resurfacing and reconstr. of the roads on the main circuit from near Apollinaris Spring to Norris and thence to the lower end of Gibbon Canyon, and from the Fountain Hotel to the Upper Geyser Basin, and thence to the Continental Divide; also considerable work of a similar character on the road along the Yellowstone R. between the lake and Grand Canyon.

The completion of the road between the Thumb and Lake by way of Natural Br.

Extensive reconstr. and resurfacing of the road between Norris and the Grand Canyon, including the cutting down of several of the hills and the complete realignment down the long hill next to the Grand Canyon.

The opening and completion of the road across Mount Washburn, including both the low line through Dunraven Pass and the high line passing over the summit. On the low line there still remains about $\frac{1}{2}$ m. where further widening will be required.

The opening up of the entire line of road between Tower Falls and Mammoth Hot Springs, including the reconstr. and enlargement of the road from Crescent Hill Canyon to Tower Falls.

A general reconstr. of the Cooke City road from the Lamar R. crossing to Soda Butte.

The extensive enlargement of the road from the Canyon Hotel to Inspiration Pt. near the latter pt. and the completion of a new road from the new concrete-steel br. over the Yellowstone to Artist Pt. on the right bank of the Grand Canyon.

A considerable amount of imp. work on the w. approach, including widening of the road, resurfacing, and other work.

Extensive widening and enlargement of the East Road from Sylvan Pass to the Shoshone R.

General repairs and mainten. of the entire system.

The extension of the sprinkling system to include 100 m. of roadway.

The erection of 3 station houses and 11 officers' quarters at the station houses for the superintendent.

Considerable work in the imp. of the bridge trails for the use of the superintendent in patrolling the park.

Many other minor items of work pertaining to the imp. of the entire system.

05, 745.

1906. The irrigating ditches in the alfalfa field near the n. entrance of the park were kept in repair, and a new system of lateral ditches put in the field to imp. the distribution of water.

The mainten. of the lawns and shrubbery at Mammoth Hot Springs was continued throughout the season.

100 m. of the park roads were sprinkled up to Sept. 1.

A number of pumping tanks at various points on the circuit were converted into gravity tanks.

The reconstr. of the Cooke City road from the Lamar R. crossing to Soda Butte was partly completed.

The road from the concrete-steel br. across the Yellowstone R. down to Artists Pt. was widened and resurfaced.

The West Road was widened and surfaced, and mileposts put into the w. boundary.

The road between Upper Basin and De Lacy Creek was widened at a number of places and resurfaced.

The South Road between the Thumb and Jackson Lake was kept in repair.

The road over Mount Washburn was practically completed, except that there is a little over $\frac{1}{2}$ m. of road on the low line that will need further widening.

The wooden brs. over the Gibbon R. near Norris, the Firehole R. on the old freight road near the Fountain Hotel, and over the same stream above the Upper Geyser Basin, were reconstr.

A 150' wooden viaduct was built at the e. end of Sylvan Pass on the East Road.

A wooden br. was erected over Grinnell Creek, and other brs. on the East Road were repaired.

Guard rails were erected at different points of interest to protect the formation and also to protect the tourists.

The Hot Soda Spring, near Mammoth Hot Springs, and the Apollinaris Spring were cleaned

out and wells constr. around them in order to keep the surroundings free from mud.

General repair and mainten. of the entire system.

Many other minor items of work pertaining to the imp. of the entire system.

06, 826.

1907. General repair and mainten. of the entire system, including the Cooke City, East, West, and South Roads; the constr. of a road to the petrified tree stumps in the vicinity of Yanceys, and the excavation of the r. surrounding one of the stumps; repairs to brs.; the replacing of Sulphur Creek Br. by a culvert and fill; laying of tile culverts; constr. at a number of points of platforms for the loading and unloading of coaches; constr. of platforms and stairways in the canyon, of out-houses at several places, and of 3 houses on the Divide for working crews; the clearing of dead and falling timber from the roadside; 100 m. of road sprinkled, a number of pumping stations converted into gravity tanks, and hydraulic rams installed; repairs to sprinkling wagons, road graders, carts, and other vehicles; the purchase of a portable planer and the dressing of lumber; mainten. of trees, shrubs, vines, and lawns; the erection of a fence at Hymen Terrace, and of an iron fountain in front of the residence of the U. S. commissioner; care of the alfalfa field at Gardiner (since transferred to the charge of the superintendent of the park); the purchase of about 600 enameled-steel signs; the survey of a road to connect the canyon and Tower Falls, and a survey, in progress, for a road from the w. boundary of the park, at the crossing of the Gallatin R., to a point on the Norris Road about 7 m. from Mammoth Hot Springs.

07, 2461.

1908. General repair and mainten. of the entire system, including the Cooke City, East, West, and South Roads; repairs to brs.; the replacing of brs. at Alum Creek and Obsidian Creek by culverts and fills; laying of tile and iron culverts; the clearing of dead and fallen timber from the roadside; 85 m. of road sprinkled; a number of pumping stations converted into gravity tanks, and hydraulic rams installed; repairs to sprinkling wagons, road graders, carts, and other vehicles; mainten. of trees, shrubs, vines, and lawns; erection of about 500 enameled-steel signs; a survey for a road from the w. boundary of the park at the crossing of the Gallatin R. to a point on the Norris Road about 7 m. from Mammoth Hot Springs.

08, 2543.

1909. General repair and mainten. of the entire system, including the Cooke City, East, West, and South Roads; repairs to brs.; laying of tile and iron culverts; the clearing of dead and fallen timber from the roadside; 85 m. of road sprinkled; a number of pumping stations converted into gravity tanks, and hydraulic rams installed; repairs to sprinkling wagons, road graders, carts, and other vehicles; mainten. of trees, shrubs, vines, and lawns. There was expended during the fiscal year 1909, for mainten. and re-

pairs, \$80,672.91, and on the East and South Roads of the forest reserve, \$263.21. 09, 2509.

1910. General repair and mainten. of the entire system, including the Cooke City, East, West, and South Roads; repairs to brs.; laying of tile and iron culverts; the clearing of dead and fallen timber from the roadside; 85 m. of road sprinkled; a number of pumping stations converted into gravity tanks, and hydraulic rams installed; repairs to sprinkling wagons, road graders, carts, and other vehicles; mainten. of trees, shrubs, vines, and lawns. There was expended during the fiscal year 1910, for mainten. and repairs, \$47,845.45. 10, 2735.

1911. General repair and mainten. of the entire system, including the Cooke City, East, West, and South Roads; the constr. of 5 bridges, 4 steel and 1 wooden; repairs to brs.; the constr. of 487' of concrete retaining walls; laying of the tile and iron culverts; the clearing of dead and fallen timber from the roadside; 85 m. of road sprinkled; a number of pumping stations converted into gravity tanks, and hydraulic rams installed; repairs to sprinkling wagons, road graders, carts, and other vehicles; mainten. of trees, shrubs, vines, and lawns. There was expended during the fiscal year 1911, for mainten. and repairs, \$73,874.02, and for permanent work, \$15,000; a total expend. of \$88,874.02. 11, 3029.

1912. Act Mar. 4, 1911, app. \$70,000 for 1912, and provided that \$2,500 of it should be spent for mainten. of roads leading out of the park from e. and s. boundaries. On account of grave probability of accidents to tourists, app. applied to replacing by safe structures certain old brs., general repair and mainten. of entire system, including Cooke City, East, West, and South Roads, constr. of 3 steel brs., and a number of small wooden brs.; repairs to brs. and culverts; the clearing of dead and fallen timber from the roadside; the sprinkling of 100 m. of road; the conversion of a number of pumping stations into gravity tanks, and the installation of hydraulic rams; repairs to sprinkling wagons, road graders, carts, and other vehicles; and the mainten. of trees, shrubs, vines, and lawns. Sprinkling was continued as long as funds could be spared for the purpose and discontinued early in August, but only when the available balance remaining was reduced to an amount barely sufficient to pay the ordinary running expenses for the remainder of the fiscal year, and the cost of the new brs. contracted for and urgently needed. Immediately after sprinkling operations were stopped protests against such discontinuance were received from prominent persons, and the President called for a special report on the matter. The Engineer officer in local charge of the road work had already reported that the action was occasioned by lack of funds, and he stated, furthermore, that rains had left the road in poor condition and that the suspension of sprinkling and the limitations on other works, due to the lack of funds, was likely to result in serious damage before the end of the tourist season and to leave the roads

in poor shape to meet the winter storms. By oral direction of the Sec. of War a special est. was prepared for continuing the work of sprinkling and for contingencies likely to arise before the next app. became available. The amount named was \$12,000. The est. was submitted to Congress Aug. 19, 1911, and was published in H. D. No. 111, 62d, 1st, but no app. was made.

On Apr. 20, 1912, the acting superintendent of the park informed the Sec. of Interior that the main entrance road, between Fort Yellowstone at Mammoth Hot Springs and the R. R. station at Gardiner, Mont., would probably soon be closed, as the hillside was gradually slipping into the road; absolutely necessary to keep that road open for the full year, and that to have it closed then, when supplies for the summer were coming in for the park concessioners and for the military post, would be a calamity. He also stated that the dangerous part had been kept open during the autumn and winter by the labor of troops, but that an immense amount of earth must be removed before the road would be safe for travel.

On Apr. 30, 1912, the retaining wall and a portion of the road at the point in question slid into the river, leaving a passageway but 3' in w. As the Engineer officer in charge of the road work was without means for restoring wagon communication between Fort Yellowstone and Gardiner, the acting superintendent of the park sent a detachment of 40 men from the fort and widened the passageway to 6½'. A detachment was also employed throughout the month of May in repairing the retaining wall and keeping the road cleared of r. and dirt at the point where the slide occurred.

May 15, 1912, a special suppl. est. of \$20,000 for emergency repairs to roads in the park was submitted to Congress. This est. was published in H. D. No. 761, 62d, 2d, but no app. was made. In May the Interior Department allotted the sum of \$500 for opening the old wagon trail between Fort Yellowstone and Gardiner. The work was executed under the direction of the Engineer officer and completed on June 21.

No app. was made by Congress for the work during the fiscal year and there were no funds available in the hands of the Engineer officer for opening the roads for the tourist season of 1912. The expend. during the fiscal year for maintain. and repairs were \$36,524.62 and for permanent work \$22,713.88, a total expend. of \$59,238.50.

In response to a Senate resolution, dated Apr. 2, 1912, directing the Sec. of War—

"to submit to the Senate as early as possible an estimate of the cost of construction of new roads or changes in the present roads in the Yellowstone National Park in order to permit of the use of automobiles and motorcycles therein without interfering with the present mode of travel in vehicles drawn by horses or other animals—"

A R. on the subject prepared by Capt. Knight was sent to Congress with a letter of the Acting Sec. of War, dated June 26, 1912. It was printed in S. D. No. 871, 62d, 2d. The est. cost of constr. of new roads for the purpose was \$2,704,030 and for reconstr. of the existing road \$2,264,670. The an. cost of mainten. was placed at \$187,625 in case new roads are constr., and at \$112,886 if the existing roads are widened.¹ 12, 1337.

SURVEYS.

The act of Mar. 4, 1907, app. \$1,000 for a sur. for a road from the point where the Gallatin R. crosses the w. boundary to a point on the Mammoth Hot Springs-Norris road.

The first sur. was begun on June 9, 1907, and completed July 2, 1907. This route, via the Gallatin R., Big Horn Pass, and then to Indian Creek on the Norris-Mammoth Hot Springs road, was deemed unfav., and on July 28, 1907, a second party left Bozeman and began a sur. via Gallatin R., Fan Creek, Snowshoe Pass, thence down the Gardiner and Glen Creek to Golden Gate. The second route, also, was not recom. The est. cost, distances, and recoms. are contained in a special R. submitted to the Chief of Engineers under date of Oct. 19, 1907 (H. D. 502, 60th, 1st), which also expresses the views of the superintendent of the park, who coincides with the Engineer officer in charge in not favoring any route from the Gallatin, principally for the reasons that the burden of maintaining the necessary existing roads and of properly guarding the park is now very great, and that the proposed new road would add materially to this burden without any corresponding benefit to the general public. **08**, 2546.

MISC. 113. RIVERS AND HARBORS²—UNIFORMITY RELATING TO APPROPRIATIONS.

R. dated Dec. 18, 1909, by a board of Engineers on ex. of certain Hs. on the Great Lakes and elsewhere in which the whole or a part of the H. is imp. at local expense, containing recoms. as to whether the imps. so made by local authorities should be undertaken or maintained by the General Government; also, as to uniform rules in making H. imps., required by the R. and H. act of Mar. 3, 1909, was duly submitted and reviewed by the BERH., pursuant to law. The R. was transmitted to Congress and printed in H. D. No. 1067, 61st, 3d, which contains discussions and recoms. in reference to the several questions called for by the above-mentioned act. **11**, 1073.

Act Mar. 3, 1909, au. ex. of the Hs. of the Great Lakes and elsewhere in which the whole or a part of the H. is imp. at local expense, with a view to determining whether the imps. so made by local authorities should be undertaken or maintained by the General Government and to establish uniform rules in making H. imps. R. by BE. (con-

stituted by S. O. 20, O. C. E., Apr. 30, 1909), on Dec. 18, 1909.

Members of the board—Col. D. W. Lockwood, Col. D. C. Kingman, Col. C. McD. Townsend, Lt. Col. J. Millis, Maj. Riche.

Recoms. of the board—

1. That advisability of U. S. undertaking any work be determined as by existing practice.
2. That the U. S. undertake constr. or mainten. at no locality where such work would benefit only private interests.
3. That U. S. work be confined to the general part of a H., etc., including break'rs, with their anchorage areas; entrance piers and js. and their contiguous chans.; and general chans. of approach. BE. recom. that imps. made by local authorities should not be undertaken or maintained by the U. S.

The above recoms. reviewed, in accordance with law, by the BERH. Concurrence in general

¹ Photographs.

² The duty of improving rivers, harbors, and other national waterways, according to the will of Congress, devolves upon the Chief of Engineers. The abstracts of the Rs. of the latter on this duty extend from p. 17 to p. 1791 of this index. (See also pp. 2041 of this index.)

(For a brief (and memorandum) relating to the riparian and water rights of the Federal Government, and of the various States, see S. D. 351, 61st, 2d.)

principles of the R. of the BE.; but recognized that there may be instances in which the interests of the general public will not require a rigid application of the principles stated in item 3, and that there be exceptional cases in which imps. made by local interests will fall within the class of

works deemed proper for the General Government to undertake or maintain, or that will so conform to an advantageous proj. for further imp. of the locality as to merit special consideration.—H. D. 1067, 61st, 3d.

MISC. 114. RIVERS AND HARBORS, ETC.—ASSISTANTS.

The Rs. of assistants to Engineer officers in charge of R. and H. works were printed in the Rs. of the Chief of Engineers up to or about 1905, after which date they were omitted generally from the Rs. on account of the growing volume of the Rs. After 1905 they are usually printed in the

congressional documents devoted to Rs. on Rs. and Hs. The important reports of assistants are referred to throughout this index, usually under the subhead of "Assistants." (See p. 21 of this index.)

MISC. 115. RIVERS AND HARBORS—BOARDS—BOARD OF ENGINEERS FOR RIVERS AND HARBORS.¹

Chief of Engineers. R., 03, 36; 04, 704; 05, 12; 06, 791; 07, 807; 08, 857; 09, 898; 10, 1008; 1, 1065; 12, 1279.

Section 3 of the R. and H. act of June 13, 1902, provides for the organization in the Office of the Chief of Engineers, by detail from time to time from the Corps of Engineers, of a board of 5 Engineer officers, whose duties shall be fixed by the Chief of Engineers, and to whom shall be referred for consideration and recom., in addition to any other duties assigned, so far as in the opinion of the Chief of Engineers may be necessary, all reports upon Rs. and survs. provided for by Congress and all proj. or changes in proj. for works of R. and H. np. theretofore or thereafter provided for, etc.

The board was constituted July 28, 1902, by the appointment of the following officers of the Corps of Engineers: Col. A. Mackenzie, Maj. H. F. Lodges, Maj. Edward Burr, Capt. C. H. McKinstry, and Capt. W. V. Judson.

On May 7, 1903, Col. Mackenzie was succeeded as senior member of the board by Lt. Col. Chas. J. Allen, Corps of Engineers.

Under the provisions of section 14 of the R. and H. act of June 13, 1902, all reports on pre. exs. and survs. provided for in that act referred to the board for ex. and review; in addition, the proj. or certain imps. presented to it for report, by resolution of the House Committee on Rs. and Hs., and by the Chief of Engineers. The reports rendered by the board from time to time presented to Congress at its regular sessions. 03, 36, 637.

The report of this board on a proposed work of np. is customarily printed as a part of the congressional document relating to the proposed work.

1903-04. Col. Chas. J. Allen, to Jan., 1904, senior member; Col. A. M. Miller, senior member, since Jan., 1904; Lt. Col. R. L. Hoxie; Maj. H. F. Lodges; Maj. E. Burr; Maj. H. C. Newcomer; Capt. C. H. McKinstry; Capt. W. V. Judson.

MISC. 116. BRIDGES — DRAWBRIDGES — APPLICATION OF RULES AND REGULATIONS.

(See p. 2137 of this index.)

MISC. 117. BRIDGES—OBSTRUCTING NAVIGATION.

(See p. 2137 of this index.)

MISC. 118. BRIDGES OVER NAVIGABLE WATERS.

Various acts of Congress, general and specific, require the approval of the War Department for br. constr. or changes over U. S. navigable waterways, and for the operation of such brs.

Specific instances of such approval and over sight, reported upon by the Chief of Engineers, are indexed under the head of "Bridges." (See p. 2137 of this index.)

MISC. 119.**CANALS.**

Canals built or owned by the U. S. come within the embracing term of R. and H. works. Where privately built or owned canals affect other navigable waterways, they are, of course, subject to the regulatory powers of Congress.

(See the "Rivers and Harbors," p. 17 of this index. See also the "Finding List" at the back of this index for references to specific canals, including the Isthmian or "Panama Canal.")

(See also below.)

MISC. 120. CANALS — CHESAPEAKE AND DELAWARE BAYS (CANAL CONNECTING).

(See also pp. 313, 335 and 2116 of this index.)

By joint resolution of Congress approv. June 28, 1906, the President au. to appoint commission to ex. and appraise value of works and franchise of Chesapeake & Delaware Canal with reference to desirability of purchasing said canal by U. S.

Commission composed of Gen. Felix Agnus, Maj. C. A. F. Flagler, Chief of Engineers, and

Civil Engineer Frank Taylor Chambers, U. S. Navy. **06**, 798.

R. Jan. 1, 1907, submitted to Congress, printed in S. D. No. 215, 59th, 2d. Works, franchises, etc., of Chesapeake & Delaware Canal appraised at \$2,514,289.70. **07**, 228.

MISC. 121. CANALS—CHICAGO DRAINAGE CANAL.

In April, 1899, trustees of Sanitary District of Chicago requested permit from Sec. of War to connect drainage canal with West Fork of South Branch of Chicago R.; granted May 8, 1899.

The discharge from R. into drainage canal caused current which endangered navigation; order issued by Sec. of War, Apr. 9, 1901, reducing max. discharge to 200,000 c. f. per minute; subsequently

modified to permit an increase to 300,000 c. f. per minute bet. 4 p. m. and 12 midnight, daily.

Trustees of Sanitary District undertook enlargement of waterway of Chicago R.; with view to providing for full discharge required by State law without causing such current as to injure interests of navigation. **01**, 119; **02**, 580; **03**, 640.

MISC. 122. CANALS — LOCKS — BISHOP'S CANAL LOCK—EXAMINATION.**ENGINEERS.**

Chief of Engineers. **R.**, 69, 65.

Board. **R.**, 69, 529. Maj. W. P. Craighill (Bvt. Lt. Col.); and Capt. W. R. King (Bvt. Maj.).

BE. detailed Feb. 21, 1867, to ex. and report upon a model of an imp. canal and ship lock submitted by Mr. Martin Bishop, Ohio.

Novel arrangement, gates move up and down on horizontal axes, hoisting apparatus, weight of gate counterpoised, filling and emptying of chamber by wickets, movement of wickets affected by screw system." Object of inventor to have perfect lock when the gate is up, and an open chan. when

entirely submerged. New system would save weight and expense of operation.

Detailed comment by **BE.** Consideration of mechanical difficulties, of various systems of locking. Dimensions of existing lock systems of world.

Adaptation of the plan proposed to Washington Canal.

Detailed ests. of a canal lock, 8' lift, old plan, and by new plan; the first, \$72,722.50; and the second, \$53,210.55.

Names of some of the greatest navigable Rs. in the U. S.

69, 529-548.

MISC. 123. CANALS—RULES AND REGULATIONS FOR THE NAVIGATION OF CANALS AND SIMILAR WORKS OF NAVIGATION.

Section 4 of the R. and H. act of Aug. 18, 1894, as amended by section 11 of the R. and H. act of June 13, 1902, delegates to the Sec. of War the duty of prescribing such rules and regulations for the use, administration, and navigation of any or all canals and similar works of navigation that now are or that hereafter may be owned, operated, or maintained by the U. S., as in his judgment the public necessity may require; and he is also au. to prescribe regulations to govern the speed and movement of vessels and other water craft in any public navigable chan. which has been imp. under au. of Congress, whenever, in his judgment, such regulations are necessary to protect such imp. chans. from injury, or to prevent interference with the operations of the U. S. in imp. navigable waters, or injury to any plant that may be employed in such operations. Such rules and regulations have been estab. for the following-named works:

Ahnapee, Wis. 04, 710.
Apalachicola, Fla. 09, 911.
Appomattox R., Va. 04, 710.
Ashtabula, Ohio. 03, 641.

MISC. 124. COMMISSIONS—CALIFORNIA DÉBRIS COMMISSION.

Act of Congress approv. Mar. 1, 1893, provided for the estab. of the California Débris Commission, to consist of 3 officers of the Corps of Engineers, appointed by the President, with the concurrence of the Senate, whose functions relate to hydraulic mining in the territory drained by the Sacramento and San Joaquin R. systems in California.

The commission empowered and required to adopt plans for imp. the navigation of the Rs. in the systems mentioned, to project and construct works for impounding detritus and preventing the deterioration of the Rs. from the deposit of hydraulic mining and other débris, and to devise means and issue permits for resuming and carrying on hydraulic mining operations under conditions

that will not injure other interests in the State. The powers of the commission, methods of procedure, etc., are prescribed in the act in detail.

ENGINEERS.

In charge:

Lt. Col. G. H. Mendell. R., 82, 2543-2640.
 R. A. H. Payson. R., 82, 2584.
 M. Manson. R., 82, 2604.
 A. Larson. R., 82, 2632.

Débris Commission. R., 94, 3169; 95, 4049, 4062; 96, 3861; 97, 3961; 98, 3549; 99, 3747; 00, 5007; 01, 1657.

NOTE.—For the detailed Rs. of the commission, see p. 1580 of this index.

MISC. 125. COMMISSIONS — MISSISSIPPI RIVER COMMISSION.

The Mississippi R. Commission, constituted by act of Congress of June 28, 1879, is in charge of the imp. of the Mississippi R. from Head of Passes to the vicinity of the mouth of Ohio R., including the rectification of Red and Atchafalaya Rs. at their junction with the Mississippi, the building of

levees, and the imp. of the several Hs. for which specific apps. have been made, with the exception of the H. of Vicksburg and the mouth of Yazoo R. It is also charged with the survey of the Mississippi R. from Head of Passes to its headwaters. 01, 658. (See also p. 1067 of this index.)

MISC. 126. COMMISSIONS — MISSOURI RIVER COMMISSION.

The Missouri R. Commission, constituted by act of Congress of July 5, 1884, was in charge of the imp. and surs. of the Missouri R. below Sioux City, Iowa. 01, 658.

Commission was abolished by R. and H. act

June 13, 1902. Work continued under immediate charge of officers of the Corps of Engineers. 03, 406.

(See also p. 1037 of this index.)

MISC. 127. DAMS, DOLPHINS, WEIRS, AND STRUCTURES OTHER THAN BRIDGES.

(See p. 2137 of this index.)

MISC. 128. FUNDS CONTRIBUTED BY STATES, MUNICIPALITIES, AND PRIVATE PARTIES.

1910, \$191,263.22. 10, 33.
1911, \$54,612.06. 11, 33.

1912, \$132,361.90. 12, 32.

MISC. 129. HARBOR LINES.

(See p. 2137 of this index.)

MISC. 130. HARBOR LINES—ABROGATION OF.

"Hell Gate" passage, East R., N. Y., about Great and Little Mill Rocks—pierhead and bulk-

head lines estab. Mar. 9, 1892, were abrogated by War Department action o Oct. 24, 1911. 12, 1293.

MISC. 131. RIVER AND HARBOR WORKS—PRIVATE OR NON-UNITED STATES WORK.

The reports of the Chief of Engineers contain references to important non-U. S. works of imp. in connection with Rs. and Hs. Such references are collected under the subhead of "Private work" in the abstracts of R. and H. Rs., pages 17-1691 of this index.

(See also below.)

Imps. on navigable waters of the U. S. by municipalities, private corporations, or individuals—

Information relative to imp. of Hs. and Rs. which has included or will include inner Hs., or portions of Rs. or inlets within shore lines or corporate city limits, or chans. adjacent to wharves (reported under sec. 13 of the R. and H. act approv. June 13, 1902). The foregoing is a collection of reports rendered by each district office of the Engineer Department concerning what non-U. S. works have been done in the respective districts. 02, 2567-2649.

MISC. 132. LOGS, ETC.—RULES AND REGULATIONS GOVERNING FLOATING OF.

Act May 9, 1900, au. Sec. of War to make regulations governing running of loose logs, etc., on certain Rs. and streams. 02, 580.

Sec. of War prescribed rules and regulations for—

Navigation of Ocklockonee R., Fla.; St. Croix R., Wis. and Minn., above Lake St. Croix; Big Fork R., Minn.; Red Lake R., Minn.; Cheboygan R., Mich.; and North Fork of Coquille R., Oreg. 04, 711.

Navigation of Little R., Ark. and Mo.; Red Lake R., Big Fork R., and Rainy R., Minn. 05, 719.

Navigation of "Inland route," so called, and connecting waters between Cheboygan and Conway, Mich. 09, 912.

R., 11, 1078; 12, 1295.

MISC. 133. MISSOURI RIVER—SIX-FOOT CHANNEL.

(See p. 1037.)

Under the provisions of section 1 of the R. and I. act of June 25, 1910, a board consisting of Col. Frederic V. Abbot, Corps of Engineers; Col. C. McD. Townsend, Corps of Engineers; and Maj. Charles Keller, Corps of Engineers, was appointed by the Sec. of War to consider and report upon the most economical and desirable plan for the improvement of Missouri R., with a view to securing a permanent 6' chan. bet. Kansas City and the

mouth of the R., consideration to be given in said R. to the subject of cooperation on the part of local interests in the work of said imp., and R. thereon, dated Nov. 29, 1910, was transmitted to Congress and printed in H. D. No. 1287, 61st, 3d. A plan for imp. at an est. cost of \$20,000,000 plus the cost of mainten., ultimately reaching \$500,000 an., with an addl. cost for snagging not exceeding \$60,000 an., presented. 10, 1014; 11, 706.

MISC. 134. NAVIGATION — PERMANENT INTERNATIONAL COMMISSION OF CONGRESSES OF NAVIGATION.

1902. By act approv. June 28, 1902, Congress pp. the sum of \$3,000 per year for the support and mainten. of the Permanent International Commission of Congresses of Navigation, and for the payment of the actual expenses of the properly accredited national delegates of the U. S. to the meeting of the congresses and of the commission.

The ninth international congress of navigation was held at Dusseldorf, Germany, in June, 1902. delegates were appointed to represent the U. S., namely, Lt. Col. C. W. Raymond, Corps of Engineers, and Messrs. B. M. Harrod and John Bogart, civil engrs. Lt. Col. Raymond and Mr. Bogart attended the congress.

1903. "The U. S. is represented on the Permanent International Commission of Congresses of Navigation, and on the permanent executive committee of that commission, Lt. Col. Raymond being the principal representative, and Mr. E. L. Corthell, C. E., the substitute. Lt. Col. Raymond attended a meeting of the commission held at Brussels, Belgium, on June 8, 1903.

The expend. during the year from the appropriation made by Congress have been for the expenses of the properly accredited national delegates to the meeting of the congress and of the Permanent International Commission, and for the support and mainten. of the commission, to which the U. S. contributes \$1,000 per annum." 03, 639.

1904. U. S. members increased to 5 by appointment of Maj. H. F. Hodges, Corps of Engineers; Maj. J. C. Sanford, Corps of Engineers; and Mr. John Bogart, civil engr. Mr. Corthell attended a meeting of the commission held at Brussels, Belgium, on May 2, 1904. 04, 708.

1905. The tenth international congress to be held at Milan, Italy, Sept., 1905. Following have been appointed delegates to represent U. S. at meeting: Maj. H. F. Hodges, Corps of Engineers; Maj. J. C. Sanford, Corps of Engineers; Mr. J. A. Ockerson, civil engr.; Brig. Gen. C. W. Raymond, U. S. Army., retired; Mr. John Bogart, Mr. E. L. Corthell, Maj. Gen. G. L. Gillespie, U. S. Army, retired; and Messrs. W. W. Bates, H. W. Ashley, and John A. Sullivan. 05, 718.

1906. Meeting of commission at Milan, Italy, sept. 23, 1905, attended by Mr. Corthell, Maj.

Hodges, and Maj. Sanford. Maj. Sanford attended meeting held at Brussels, Belgium, May 28, 1906. Mr. Corthell attended a meeting of executive committee at Milan, Italy, Sept., 1905. Maj. Hodges, Maj. Sanford, Mr. Ockerson, and Mr. Corthell attended meeting at Milan, Italy, Sept., 1905.

1907. Maj. Sanford attended a meeting of commission held at Brussels, Belgium, May 6, 1907. Questions decided pertaining to proposed eleventh international congress to be held at St. Petersburg, Russia, in 1908. 07, 814.

1908. Maj. Sanford attended a meeting of commission at St. Petersburg, Russia, May 31, 1908. Eleventh international congress of navigation held at St. Petersburg, Russia, May 31 to June 7, 1908. Following delegates appointed to represent U. S.: Maj. J. C. Sanford, Corps of Engineers, chairman; Lt. Commander F. L. Chapin, U. S. N.; Maj. Spencer Cosby, Corps of Engineers; Mr. J. A. Ockerson, civil engr.; and Mr. Arsene Perrilliat, civil engr. All delegates, except Mr. Perrilliat, attended. 08, 864.

1909. Col. Sanford attended meeting of commission at Brussels, Belgium, May 17, 1909; also meeting of executive committee, May 15, 1909. 09, 910

1910. No meeting held. Act June 25, 1910, app. \$50,000 to defray expenses of foreign delegates in inspection of U. S. waterways in the proposed meeting in U. S. 10, 1017.

1911. Under date Sept. 2, 1910, following addl. delegates appointed: Brig. Gen. Wm. H. Bixby, Corps of Engineers, U. S. Army; Hon. J. Hampton Moore, M. C. Two meetings held at Brussels, Belgium, July 30, 1910, and May 15, 1911. U. S. represented by Mr. Corthell and Lt. Col. Sanford. Office opened at Philadelphia; circulars issued and distributed. 11, 1076.

1912. Meeting held at Philadelphia, May 22, 1912. U. S. represented by Gen. Bixby, Lt. Col. Sanford, Mr. Corthell, Mr. Bogart, and Mr. Moore. The twelfth international congress of navigation held at Philadelphia, May 23-28, 1912. City of Philadelphia app. \$50,000 for entertaining members, and funds provided by other places. 12, 1291.

MISC. 135. NEW YORK HARBOR—SUPERVISION.

NOTE.—The office of supervisor of the H. of New York was created by act of Congress approv. June 29, 1888, entitled "An act to prevent obstructive and injurious deposits within the H. and adjacent waters of New York City, by dumping or otherwise, and to punish and prevent such offenses." This act has been amended by section 3 of the act of Aug. 18, 1894, entitled "An act making apps. for the constr., repair, and preservation of certain public works on Rs. and Hs., and for other purposes," by which amendment the functions and powers of the officer have been greatly enlarged. Addl. duties are also conferred on the supervisor by section 2 of the last-named act.

Under the provisions of section 5 of the act of June 29, 1888, a line officer of the Navy is designated to discharge the duties created by the act under the direction of the Sec. of War. On May 23, 1889, the Sec. of War directed that all communications in connection with these duties should be addressed to him through this office, and on Feb. 1, 1890, he further directed that the powers conferred upon him by the act should be exercised through the Chief of Engineers. **01**, 656.

Chief of Engineers. **R.**, **90**, 330; **91**, 422; **92**, 395; **93**, 459; **94**, 420; **95**, 468; **96**, 418; **97**, 524; **98**, 527; **99**, 615; **00**, 693; **01**, 656; **02**, 576; **03**, 637; **04**, 705; **05**, 713; **06**, 792; **07**, 808; **08**, 858; **09**, 904; **10**, 1009; **11**, 1067; **12**, 1281.

NAVAL OFFICERS:

Capt. W. A. Kirkland. **R.**, **90**, 3077; **91**, 3393.
 Capt. F. Rodgers. **R.**, **92**, 2879; **93**, 3541.
 Lt. Commander D. Delehanty. **R.**, **94**, 2681; **95**, 3609; **96**, 3395; **97**, 3499.
 Lt. J. F. Parker. **R.**, **97**, 3499; **98**, 3131.
 Lt. Commanders W. L. Field and N. J. K. Patch. **R.**, **98**, 3131.
 Lt. Commanders N. J. K. Patch, J. C. Fremont, and E. J. Berwind. **R.**, **99**, 3281.
 Lt. Commander J. C. Fremont. **R.**, **00**, 4513.
 Lt. Commander H. M. Hodges, U. S. Navy. **R.**, **01**, 3607; **02**, 2435.
 Commander E. F. Qualtrough, U. S. Navy. **R.**, **02**, 2435; **03**, 2359.
 Commander Daniel D. V. Stuart, U. S. Navy. **04**, 3677.
 Commander H. H. Hosley, U. S. Navy. **05**, 2573; **07**, 2245.
 Lt. Commander L. R. De Steigner, U. S. Navy. **R.**, **06**, 2059.
 Capt. Aaron Ward. **R.**, **08**, 2325; **09**, 2281.
 Capt. C. McR. Winslow. **R.**, **10**, 2601; **11**, 2915.
 Commander J. T. Carter. **R.**, **12**, 3441.

Legal Action (1900-1912—Typical of Work of Preceding Years).

CASES.

Tug *Geo. L. Garlick*, began 1898, still pending June 30, 1901. **01**, 3615. Not-prossed. **02**, 2441.

Tug *F. N. Brown*, closed by payment of fine. **01**, 3615. Copy of opinion and decision. **01**, 3616, 3617.

Tug *Emma K. Ross*, closed by payment of fine and imprisonment, copy of opinion and decision. **01**, 3618.

Tug *John Fleming*, case pending. **01**, 3620. Not-prossed. **02**, 2440.

Tug *W. J. Sewall*, case pending. **01**, 3621. Not-prossed. **02**, 2440.

Tug *Genesta*, case pending. **01**, 3621. Not-prossed. **02**, 2440.

Tug *John Fleming*, fine paid. **01**, 3622.

Tug *M. Moran*, pending. **01**, 3622; **02**, 2440. Fine paid. **03**, 2365.

Tug *James D. Leary*, held for grand jury. **01**, 3622.

Tug *Agnes*, fine paid. **01**, 3623.

Tug *Emma J. Kennedy*, decision reserved. **02**, 2439. Pending. **03**, 2365. Fine paid. **04**, 3688.

Tug *George D. Kuper*, fine paid. **03**, 2363.

Tug *John Fleming*, 2 cases, fines paid. **03**, 2364.

Tug *Fidelity*, case held for October term. **04**, 3689. Pending. **05**, 2577. Fine paid. **06**, 2063.
Tug *Senator Rice*, case pending. **04**, 3689. Pending. **05**, 2578. Acquitted. **06**, 2063.

Tug *John Fleming*, case pending. **04**, 3689. Jacobsen pleads guilty; sentence suspended. **05**, 2578.

Tug *Wm. H. Flannery*, case pending. **04**, 3689. Pending. **05**, 2578. Nolle. **06**, 2063.

Tug *John D. Dailey*, case pending. **04**, 3690. Pending. **05**, 2578. Nolle. **06**, 2063.

Tug *John Fleming*, case pending. **05**, 2578. Fine paid. **06**, 2064.

Tug *H. G. Runkle*, case pending. **05**, 2579; **06**, 2064; **07**, 2249; **08**, 2331. Nolle-prossed. **09**, 2289.

Tug *Jas. A. Lawrence*, case pending. **05**, 2579. Dismissed. **06**, 2064.

Tug *Colonel Gaynor*, case pending. **05**, 2580. Fine paid. **06**, 2064.

Tug *Bee*, case pending. **05**, 2580. Sentence suspended. **06**, 2064.

Tug *E. K. Ross*, fine paid. **05**, 2581.

Tug *John Fleming*, case pending. **05**, 2581. Fine paid. **06**, 2064.

Tug *Chas. E. Matthews*, case pending. **06**, 2065. Fine paid. **07**, 2249.

Tug *John Fleming*, case pending. **06**, 2065. Fine paid. **07**, 2249.

Brown & Fleming Cont. Co., case pending. **06**, 2065; **07**, 2249.

Tug *John Fleming*, case pending. **06**, 2066. Fine paid. **07**, 2249.

Tug *Nonpareil*, case pending. **06**, 2066. Fined, remitted. **07**, 2249.

Tug *John T. Pratt*, case pending. **06**, 2066. Fined. **07**, 2249.

Tug *Success*, fined. **07**, 2250.

Tug *O. L. Halenbeck*, case pending. **07**, 2250. Fined. **08**, 2331.

Tug *Julia C. Moran*, fined. **07**, 2251.

Tug *Robt. M. Dwy*, fined. **08**, 2332.

Tug *M. Moran*, failed to indict. **08**, 2332.

Tug *Bouker No. 2*, fined. **08**, 2333.

Tug *Julia C. Moran*, indictment dismissed. **08**, 2333.

Tug *Franklin N. Brown*, ignored by grand jury. **08**, 2333.

Tug *P. J. T. Co. No. 7*, matter never brought before court. **08**, 2335. (Correspondence with U. S. attorney. **08**, 2334, 2335.)

Tug *E. F. Moran*, license of master suspended 30 days. **08**, 2335.

Steamship *Deutschland*, case pending. **09**, 2289. Nolle-pros. entered. **10**, 2609.

Tug *Franklin N. Brown*, case pending. **09**, 2289; **10**, 2609.

Tug *Wm. H. Taylor*, fine paid. **09**, 2290.

Tug *Bouker No. 2*, fine paid. **09**, 2290.

Tug *Bee*, case pending. **09**, 2291; **10**, 2609.

Tug *O. L. Halenbeck*, fine paid. **09**, 2291.

Tug *Ariosa*, fine paid. **09**, 2291.

Tugs *Leonard Richards* and *O. L. Halenbeck* Hasterf paid fine, others nol-prossed. **09**, 2292.

List of cases referred to U. S. district attorney, showing disposition. **09**, 2292.

Tug *M. Moran*, fine paid. **10**, 2610.

Tug *John F. Gaynor*, fine paid. **10**, 2610.

Tug *M. Moran*, fine paid. **10**, 2611.

Tugs *Col. Gaynor* and *Eugene Hughes*, case dismissed, lack of evidence. **10**, 2611.

Tug *Julia C. Moran*, no bill found. **10**, 2611.

Tug *O. L. Halenbeck*, fine paid. **10**, 2612.

Tug *Edmund Moran*, pending. **10**, 2613. Fine paid. **11**, 2923.

Tomasso Ricci, foreman, street cleaners, defendant, discharged. **10**, 2613.

List of cases showing disposition made. **10**, 2613.

Wm. Beard & Co., c-vil action now at issue. **11**, 2923; **12**, 3445.

Morris & Cummings Dr. Co., civi. action "now" at issue. **11**, 2923, 2924; **12**, 3445.

Cahill Towing Co., pending. **11**, 2924; **12**, 3445.

Tugs *Anna W.* and *O. L. Halenbeck*, pending. **11**, 2924 **12**, 3445.

List of cases, showing disposition made. **11**, 2924.

The *Moran Towing & Transportat-on Co.*, pending. **12**, 3445.

OPERATIONS (1901-12; typical of works of preceding years).

1900-01. Patrol plant small compared to territory to be watched. **01**, 3607. Owners of tugboats and dredging plants realize efficiency of patrol and checking system. **01**, 3609. Contractors find it to their interest to keep plants in good condition rather than suffer penalty. **01**, 3609. About 12,000,000 c. y. moved yearly. **01**, 3610. Change in location of dumping ground, notice given. **01**, 3610. Employees of those engaged in dumping resort to every subterfuge to evade the law. **01**, 3611. Waste material used for filling in and reclaiming land. **01**, 3611. Correspondence relative to street sweepings being deposited at mouth of H. **01**, 3612. Efforts must be directed against employment of inferior or unseaworthy vessels upon work of transporting waste material to sea. **01**, 3614. 12,059,450 c. y. material deposited during fiscal year. **01**, 3623.

1901-02. Imp. to dispose of waste material without knowledge of this office. **02**, 2436. In consequence of strict surveillance owners and masters endeavor to conform to all rules and regulations. **02**, 2436. Difficulty in controlling dumping of ashes from small steam craft. **02**, 2436. About 19,000,000 c. y. removed during years. **02**, 2439.

1902-03. Condition of plant. **03**, 2360. System of checking material described. **02**, 2361. 20,460,587 c. y. moved and deposited. **03**, 2365.

1903-04. Remarks relative to repairs to vessels. **04**, 3679. Existence of shoal; notice sent out. **04**, 3680. Navigation menaced by planting of nets and poles in shad-fishing industry; notice given by supervisor forbidding these obstrs. **04**, 3695. 18,833,927 c. y. moved and deposited. **04**, 690.

1904-05. Piles and lumber obstrs. endanger navigation. **05**, 2576. Long tow lines interfere with navigation. **05**, 2577. 20,707,889 c. y. moved and deposited. **05**, 2582.

1905-06. Disposed refuse material increased from 10,000,000 c. y. in 1896 to 21,973,038 c. y. in 1906. **06**, 2059. Action to regulate length of tow lines suggested. **06**, 2061. 21,973,038 c. y. moved and deposited during fiscal year. **06**, 2067.

1906-07. Perceptible decrease in amount of spoil and refuse by diminution of work on tunnels, etc. **07**, 2245. Urgent recom. for a new patrol boat; est., \$50,000. **07**, 2247. 18,636,856 c. y. moved. **07**, 2251.

1907-08. 22,952,563 c. y. moved and deposited. **08**, 2336.

1908-09. 29,096,882 c. y. moved and deposited. **09**, 2293.

1909-10. Act requiring boats or scows to be equipped at all times with certain specified articles for better protection of life and property. **10**, 2602. Methods of inspection. **10**, 2602. 27,535,295 c. y. moved and deposited. **10**, 2614.

1910-11. Remedial measures suggested for adoption by city in disposing of refuse. **11**, 2921. 20,451,546 c. y. moved and deposited. **11**, 2925.

1911-12. 19,622,976 c. y. moved and deposited. **12**, 3446.

MISC. 136. NIAGARA FALLS, ETC.—CONTROL AND REGULATION OF THE WATERS OF NIAGARA RIVER, AND PRESERVATION OF NIAGARA FALLS.

APPROPRIATION.

1906, \$50,000, **07**, 855.

ENGINEERS.

Chief of Engineers. **R.**, **06**, 798; **07**, 854; **08**, 893; **09**, 939; **10**, 1050; **11**, 3022; **12**, 1331.

In charge:

Maj. C. Keller. **R.**, **07**, 2457; **08**, 2538; **09**, 2503.
Maj. C. S. Riche. **R.**, **10**, 2722 (Lt. Col.); **11**, 3005; **12**, 3529.

PERMITS.

For diversion of water. **08**, 895.

For transmission of electrical power from Canada into the U. S. **08**, 895.

Table, operating limitations of Niagara Falls Power Co. **10**, 2724; **12**, 3551.

Hearing in re application of Federal Light & Power Co. **12**, 3552.

SURVEYS, OPERATIONS, AND PROJECTS.

1906. By act of Congress approv. June 29, 1906, the diversion of water from Niagara R. or its tribu-

taries, in the State of New York, is prohibited, except with the consent of the Sec. of War as au. in section 2 of said act, and the act provides that this prohibition shall not be interpreted as forbidding the diversion of the waters of the Great Lakes or of Niagara R. for sanitary or domestic purposes, or for navigation, the amount of which may be fixed from time to time by the Congress of the U. S. or by the Sec. of War under its direction. **06**, 798.

1907. R. by Capt. Kutz concerning power companies on American and Canadian sides. Sur. made. **R.** of Asst. Engr. F. C. Sherehon printed. **07**, 855, 2457.

1908. Details of field operations. **08**, 2538.

Tables, discharge of Niagara R. **09**, 2503.

Slopes of Niagara R., table of R. heights at several gauges. **11**, 3022. Changes in R. heights, 1906-10. **11**, 3025. Simultaneous gauge heights and misc. factors. **11**, 3026.

MISC. 137. RIVERS—OHIO RIVER.

(See District CC., p. 905 of this index.)

The R. and H. act approv. June 25, 1910, made provision for continuing imp. of the Ohio R. with a view to securing a navigable d. of 9' in accordance with the R. submitted in H. D. 492, 60th, 1st, and with a view to the completion of such imp. within a period of 12 years. The item making app. for this work is as follows:

"Imp. Ohio R.: Continuing imp. with a view to securing a navigable d. of 9' in accordance with the R. submitted in H. D. 492, 60th, 1st, or such modification thereof as in the discretion of the Sec. of War may be advisable, and with a view to the completion of such imp. within a period of 12 years, \$1,150,000, which amount shall be applied

to the purchase of sites for 18 ls. and ds. Nos. 9, 10, 12, 14, 15, 16, 17, 20, 21, 22, 23, 24, 25, 27, 28, 29, 41, and 48, and toward the constr. of ls. and ds. Nos. 7, 9, 10, 12, 19, 20, 29, 41, and 48: Provided, That so much of the sum herein app. as shall be necessary may be applied toward the definite location and purchase of sites for addl. ls. and ds. on said R.: Provided further, That the Sec. of War may enter into a contract or contracts for such materials and work as may be necessary to prosecute the said proj., to be paid for as apps. may from time to time be made by law, not to exceed in the aggregate \$3,500,000, exclusive of the amounts herein and heretofore app."

Work of creating slack-water navigation on the Ohio R. has been in progress for many years, first with a view to securing a d. of 6' and afterwards a d. of 9', and prior to the adoption of the new proj. the practical completion of 12 ls. and ds. and some work at 2 others had been provided for. Of these, Nos. 1-6, inclusive, and the d. at 41 were

in operation; Nos. 13, 18, and 37 will be opened in the next few months, and Nos. 8, 11, 19, and 26 are well under way. The new proj. contemplates a total of 54 ls. and ds. est. at the time the R. was submitted (January, 1908) to cost \$63,781,488, in addition to apps. previously made. This act also au. the purchase of sites for 18 ls. and ds., the beginning of the constr. of 9, and surs., etc., for the location of others.

The execution of the surs., the preparation of plans for the ls. and ds. "now" under constr. or contemplated, and other matters pertaining to the imp. as a whole are made the subject for consideration by a special board of Engineer officers constituted at the "present" time as follows: Col. Wm. T. Russell, Corps of Engineers; Lt. Col. Henry C. Newcomer, Corps of Engineers; Capt. Frederick W. Altstaetter, Corps of Engineers.

Upon the recom. of the board, the following allotments have been made of the cash apps. provided under the new proj.:"

| Dam No. | R. and H. act of June 25, 1910. | R. and H. act of Feb. 27, 1911. | Sundry civil act of Mar. 4, 1911. | R. and H. act of July 25, 1912. | Sundry civil act of Aug. 24, 1912. |
|--------------------|---------------------------------------|---------------------------------------|--|---------------------------------------|---|
| 7..... | \$150,000 | | \$250,000 | \$150,000 | \$122,000 |
| 9..... | 150,000 | | 400,000 | 150,000 | 282,000 |
| 10..... | 40,000 | | | 470,000 | |
| 12..... | 150,000 | | 300,000 | | |

| Total..... | 1,150,000 | 2,000,000 | 1,710,000 | 3,200,000 | 1,141,000 |

R. and H. act of Feb. 27, 1911: Imp. Ohio R.: Continuing imp. by the constr. of ls. and ds. with a view to securing a navigable d. of 9', \$2,000,000: Provided, That the Sec. of War may enter into a contract or contracts for such materials and work as may be necessary to prosecute the said proj., to be paid for as apps. may from time to time be made by law, not to exceed in the aggregate \$3,000,000, exclusive of the amounts herein and heretofore app.

Sundry civil act of Mar. 4, 1911: Imp. Ohio R. below Pittsburgh, Pa.: For continuing imp. by the constr. of ls. and ds. Nos. 7, 9, 10, 12, 19, 20, 29, 41, and 48, \$1,710,000.

R. and H. act of July 25, 1912: Imp. Ohio R.:

Continuing imp. by the constr. of ls. and ds. with a view to securing a navigable d. of 9', \$3,200,000: Provided, That the Sec. of War may enter into a contract or contracts for such materials and work as may be necessary to prosecute the said proj., to be paid for as apps. may from time to time be made by law, not to exceed in the aggregate \$2,200,000, exclusive of the amounts herein and heretofore app.

Sundry civil act of Aug. 24, 1912: Imp. Ohio R. below Pittsburgh, Pa.: For continuing imp. by the constr. of ls. and ds. Nos. 7, 9, 10, 12, 19, 20, 29, 41, and 48, \$1,141,000.

(10, 1006; 11, 1063; 12, 1275.)

MISC. 138. PLANT--FLOATING PLANT.

(See p. 2337 of this index.)

Tabular statement in regard to each dr. and work accomplished by it during the preceding year. **09**, 899; **10**, 1009, 2449; **11**, 1066, 2661-2913; **12**, 1280, 2883-3439.

24 seagoing hy. dredges owned and operated by U. S. **09**, 899-903.

Work, and cost of, done by seagoing suction dredges. **10**, 2450; **11**, 2662; **12**, 3028.

Work, and cost of, pipe line hy. dredges. **10**, 2468; **11**, 2690; **12**, 3119, 3154.

Work, and cost of, dipper dredges. **10**, 2492; **11**, 2738; **12**, 3119, 3154.

List of floating plant, by classes. **10**, 2507; **11**, 2788; **12**, 2887.

List of floating plant, by districts. **10**, 2514; **11**, 2801; **12**, 2902.

Snagboats. **11**, 2763; **12**, 3174.

Derrick boats. **12**, 3203.

Pile drivers. **12**, 3228.

Graders. **12**, 3246.

Drill boats. **12**, 3252.

Maneuver boats. **12**, 3263.

Tow and survey boats (screw). **12**, 3267.

Tow and survey boats (paddle). **12**, 3304.

Steam lighters. **12**, 3302.

Gasoline launches (screw). **12**, 3348.

Gasoline launches (paddle). **12**, 3418.

Dry docks, list of. **12**, 3422.

Boat building plants. **12**, 3426.

Floating plants under construction. **12**, 3430.

Floating concrete plant. **12**, 3438.

MISC. 139. NAVIGATION — STRUCTURES IN THE NAVIGABLE WATERS OF PORTO RICO.

Act of Congress approv. June 11, 1906, empowered the Sec. of War, under certain restrictions, to au. the constr., extension, and mainten. of wharves, piers, and other structures on lands underlying H. areas and navigable streams and bodies of water in or surrounding Porto Rico and the islds. adjacent thereto.

Maj. C. A. F. Flagler, Corps of Engineers, to be sent to Porto Rico as a representative of the War Department to confer with the governor of Porto

Rico, with a view to estab. some definite policy in dealing with applications for privileges under this law. **06**, 797.

Through a conference bet. the district officer and the governor of Porto Rico, definite policy estab. and followed in connection with applications for privileges under this law, several applications being acted on during the year. **07**, 816; **08**, 886; **09**, 912; **10**, 1019; **11**, 1078; **12**, 1295.

MISC. 140. WATER POWER.

The an. Rs. of the Chief of Engineers contain references to the utilization of navigable streams for water-power purposes, but such references are generally incorporated in the abstract pertaining

to whatever stream is concerned. (See index to Rs. and Hs., pp. 17-1691 of this index, and see Topical Index.)

MISC. 141. WATER POWER — MICHIGAN-LAKE SUPERIOR POWER CO.

An. act June 13, 1902. Sec. of War, Dec. 12, 1902, to approv. plans of Michigan-Lake Superior Power Co. for its water-power canal and remedial

works and diversion of water from St. Marys R. subject to conditions. **03**, 641.

IISC. 142. WATERWAYS, INTRACOASTAL — BOSTON, MASS., TO THE RIO GRANDE.

(See p. 2106 of this index.)

R. and H. act of Mar. 3, 1909, directed certain rs. to be made with a view to the constr. of a ntinuous waterway, inland where practicable, om Boston, Mass., to the Rio Grande, which are assigned to the boards of engineers.

R. dated Oct. 4, 1911, with maps, by the special ard of Engineer officers, upon the sur. of that ction of the proposed continuous inland water- ay from Boston, Mass., to Beaufort Inlet, N. C., as duly submitted, and was reviewed by the ERH., pursuant to law, and its R. thereon sub- itted Dec. 12, 1911. These Rs. were transmitted Congress and printed in H. D. 391, 62d, 2d, rojs. and ests. for imp. of the following section esented:

Boston to Narragansett B. section, \$40,000,000.
Narragansett B.-Long Isld. Sound section, \$12,322,000.
New York B.-Delaware R. section, \$45,000,000.
Delaware R.-Chesapeake B. section, \$12,424,500.
Norfolk-Beaufort Inlet section, \$5,400,000.

Only the last 2 sections named above were recom. for adoption at the present time.

It is expected that the Rs. of the other boards on the sections between Beaufort Inlet and the Rio Grande will be transmitted to Congress during its next session. 10, 1015; 11, 1073; 12, 1288.

IISC. 143. RIVER AND HARBOR WORKS—Deterioration of, and Discontinuance of Appropriations for River and Harbor Works Deemed Not Worthy of Further Improvement.

Rs., 99, 38; 00, 40, 5071.

IISC. 144. RIVER AND HARBOR WORKS—Occupation of, by Private Parties.

PHYSICAL CHARACTERISTICS.

Description of Habana H. **11, 3040.**

Cyclonic disturbance passed over Habana, delaying work. **11, 3043.**

PROJECTS.

The removal of the wreck of the *Maine* from the H. of Habana is being carried on under acts approv. May 9, 1910, June 25, 1910, and Mar. 4, 1911. Requires Sec. of War to provide for raising and removal of the wreck and for proper interment of the bodies therein in Arlington Cemetery, to remove mast of wreck and place it upon a proper foundation in Arlington National Cemetery. Impossible to prepare an accurate est. of sum needed for work. **11, 3039.** Congress desires wreck to be so exposed, without derangement of parts, as to permit all information possible to be obtained as to the nature and location of the explosion or explosions which caused disaster. **11, 3041.** Board approves design for a dam elliptical in shape, composed of cylinders 50' diameter, built of steel sheet piles, driven to d. of 73'; cylinders placed tangent to each other, connected on the outer perimeters by short arcs of similar sheet piles, and with the cylinders and connecting sections filled with stiff clay from the H. bottom near by and rock. The centers of the cylinders were to be on a perimeter of elliptical form, with major and minor axes of 395' and 216' 1, respectively. **11, 3042.**

ROADS—ALASKA.

APPROPRIATIONS.

| | | |
|-------|--------------|------------------------------------|
| 1904, | \$25,000 | 04, 4219 (Valdez-Fort Egbert sur.) |
| | <hr/> 2,500 | 04, 4219 (Yukon-Coldfoot sur.). |
| | <hr/> 27,500 | |

ENGINEERS.

Chief of Engineers. R., 04, 744; 05, 752.

In charge. Maj. J. Millis. **R., 04, 4203; 05, 2845.**

OPERATIONS AND PROJECTS.

1904. Surs. for the above road and trail were provided for in the Army app. act of Apr. 23, 1904. The Valdez-Fort Egbert road is some 400 m. l., and the Yukon-Coldfoot trail in the neighborhood of 90 m. l.

Coldfoot is on the headwaters of the Koyukuk, within the Arctic Circle, in latitude 67° 20' n.

5 parties were organized in Seattle to make the surs.—1 for the Coldfoot trail and 4 for the Valdez-Fort Egbert road. The Coldfoot party and 2 of

the Valdez-Fort Egbert parties sailed from Seattle on May 31 for Skagway, from which point they were to go by the White Pass R. R. and the Yukon R. to the points of beginning their respective surs. 2 other parties sailed from Seattle for Valdez. 04, 4217.

1905. The sur. from Yukon R. to Coldfoot, Alaska, was completed and party returned to Seattle on Aug. 31, 1904.

The sur. from Valdez to Fort Egbert, Alaska, was completed on Aug. 14, 1904, and the parties returned to Seattle on Sept. 29, 1904.

Pre. R.s. on the surs. were submitted on Dec. 15, 1904, and were published in H. D. 192, 58th, 3d. 05, 2845.

MAPS.

Maj. J. B. Cavanaugh. R., 12, 3559.

Assistant. Eugene Ricksecker. R., 04, 4207; 05, 2840.

PHYSICAL CHARACTERISTICS.

Mount Rainier, sometimes known as Mount Tacoma, is an extinct volcano, the top of which is covered with perpetual snow. It has an elevation of 14,526' above sea level, and from certain points of view has a remarkably symmetrical outline. It is detached from the main range of the Cascades, being several m. w. of that range. It is plainly in sight as a very conspicuous feature of the landscape from sea level at Tacoma, only 45 m. distant, and is of course visible from all directions to much greater distances. On account of its height, its symmetry, and its visibility from sea level from a large city and seaport, it is the most remarkable mountain peak in U. S. territory, and one of the remarkable features of its kind on the earth's surface.

Besides the mountain itself and its immense crater, which is still warm, the national park and forest reserve in which it is located contain many features of great scenic and scientific interest, including living glaciers, waterfalls, lakes, canyons, interesting rock formations, and vegetation of great variety and beauty. All these will be rendered accessible to tourists and the general public by the constr. of the roads in progress. 04, 4204.

It seemed, 1903, as though best results would be secured by a road that, in connection with existing means of communication, would afford access to the mountain from Tacoma, the nearest large city, via Longmire Springs, the Nisqually glacier, and Narada Falls, to Paradise Valley and the Camp of the Clouds. From the latter the summit of the mountain can be reached by mountain climbers, at an elevation of 14,526'. 04, 4204.

Bridges. 04, 4214.

Clearing work. 04, 4213.

Curves. 04, 4213.

Drainage. 04, 4213.

Gradients. 04, 4212.

Repairing roads and trails. 05, 2841.

Retaining walls. 04, 4214.

Road constr. 05, 2842.

Surfacing. 04, 4214.

Width of wheeling. 04, 4213.

PROJECTS AND OPERATIONS.

Bids were invited in the latter part of the season of 1903 for beginning the clearing and grubbing of the road, but the proposals received were too high.

Bids again called for, for beginning the clearing and grubbing, but no fav. bid was received. Meanwhile, specifications were prepared for beginning the road constr. under formal contract and on a scale that w. enable contractors to undertake it to advantage.

The proposed road is to enter the park from the w., and, in connection with existing R. R. and stage lines, will render the various points of interest in the park, including glaciers, falls, r. formations, etc., also Paradise Valley, Camp of the Clouds, and the mountain summit, accessible for tourists and others from Tacoma, the nearest large city. **04, 4203.**

Contract made for road constr. into the park from the w. Work began in August, 1904, and was continued as long as the weather permitted. About 1 m. of clearing, grading, and grubbing was done, extending from Longmire Springs toward Paradise Park. Work was not resumed in the spring, owing to financial difficulties of the contractor. The contract time expired June 30, 1905, but the time was extended for a reasonable period. **05, 751, 2839.**

1907. Notification of annulment of contract with A. D. Miller for constr. of road was received at this office on July 8, 1906, and work was commenced with hired labor and Government plant July 9. Operations during the season of 1906 were carried on below Longmire Springs, and 6 m. of road built and about 1½ m. partly built between the w. boundary of the forest reserve and Longmire Springs. Work was carried on until Nov. 20, 1906, when it was suspended on account of unfav. weather.

Work was resumed on Apr. 9, 1907, and the uncompleted road below Longmire Springs was practically finished. **07, 2471.**

The work accomplished under the various apps. to the close of the fiscal year ending June 30, 1908, is as follows: Number of m. of road constr. and in use, 14; number of m. of road partially completed, 1.5; total, 15.5. **08, 898.**

1911. On July 1, 1910, the road was open for public travel from the w. boundary of the forest reserve to Narada Falls, a distance of 19.5 m. It was incomplete from Narada Falls to Camp of the Clouds, a distance of 4.5 m. The unfinished section was so far completed during the season of 1910 that the entire road was opened to the public Sept. 1, and a number of stages made regular trips between Longmire Springs and Camp of the Clouds during September. Work ceased Nov. 3, 1910, on account of rain and was resumed on June 26, 1911.

The work of the fiscal year included the removal of débris which had fallen from the slopes, the completion of the Narada trestle, other brs., and grading, widening, and surfacing the roadbed. **11, 1117.**

SURVEYS.

The sundry civil act of Mar. 3, 1903, au. a sur. for a wagon road into Mount Rainier National Park. **03, 37.**

The sur. was made during the summer and autumn of 1903, and pre. R., with detailed maps and est. of cost, were submitted on Feb. 9, 1904. A collection of photographic views, illustrating some of the natural features which the proposed road will render accessible, was also submitted.

The sundry civil act of Apr. 28, 1904, also provided for a sur. and est. for a road to enter the park from the e. Preparations to begin this sur. at an early date were under way at the close of the fiscal year. This road is to render the park and mountain accessible from North Yakima and Ellensburg. **04, 4203.**

The sur. for the road into the park from the e. was completed in October, 1904, and R. and est. were submitted on Jan. 16, 1905. The est. cost of the proposed road was \$275,600.

The R. of the sur. was printed as H. D. 283, 58th, 3d. **05, 2839.**

W. H. Wood. **R., 99, 3898.**

PHYSICAL CHARACTERISTICS.

Detailed description of the routes. **99, 3884.**

PROJECT.

The sundry civil act June 4, 1897, app. \$10,000 for military road from Fort Washakie, Wyo., by the most practicable route near the Wind R., and to the mouth of the Buffalo Fork of Snake R., near Jacksons Lake, in Uinta Co., Wyo.

The purpose of the road to render possible the movement of Cavalry from Fort Washakie with

their supplies, by as direct a line as possible, into Jacksons Hole, a noted game country, much frequented during the hunting season by Indians of the Fort Hall and Wind R. Reservations, where conflicts between these Indians and the Wyoming State game wardens were to be feared.

1897, the work in charge of the Quartermaster Department, August, 1897, plan and map for locating the road prepared by Lt. H. R. Hickok, Ninth Cavalry. Judge Advocate General decides that as amount fell far short of the amount required to complete the work, the app. could not, by its terms, be used as far as it would go, leaving the work incomplete. 1897, a reconnoissance made by Lt. A. J. Perry, Ninth Cavalry., and Lt. J. A. Ryan, Ninth Cavalry. As a result, suggested that if whole of app. were expended on the section of

the road from Clarks Ranch to the mouth of the Buffalo Fork of Snake R., that section could be made passable; and, as the road from Washakie to Clarks was already passable during the greater part of the year, the result of spending the whole of the app. bet. Clarks and the mouth of Buffalo Fork would be to give a passable road over the entire route. This decided legal by the Judge Advocate General.

Capt. J. T. McBlain, Ninth Cavalry, detailed to take charge of the constr. War with Spain stopped preparations. 99, 3884.

Capt. J. C. Sanford, Corps of Engineers, placed in charge of the work, 1898. Work on the road begun Aug. 25. Completed Oct. 7. 99, 2881.

Sundry civil act June 6, 1900, au. \$10,000 for repair and completion of road. 01, 687.

MISC. 161. NORTHERN AND NORTHWESTERN LAKES—CHARTS, BULLETINS, ETC.

NOTE.—The execution of the Lakes sur. which terminated in 1882 involved a great quantity of astronomic, topographic, and hydrographic work, all of which was performed with a high degree of accuracy and skill.

The result was the preparation of a series of reliable charts for lake vessels and the furnishing of a basis for works of chan. imp. upon the lakes themselves and their connecting waters.

This original series consisted of 76 charts, all of which were printed in black from copperplates.

At 1912 the chart work of the Lake Survey was covered by proj. approv. Apr. 17, 1909, printed upon page 937, R. of the Chief of Engineers for 1909. When completed, due to changes and omissions contemplated by this proj., the Lake Survey series will comprise about 104 separate charts, this number, however, being approx., as circumstances may arise in the future necessitating the retention of some of the H. charts as separate publications, instead of insets as planned 1912.

As a result of revisions, cancellations, and additions to the original series, based on the later sur., there were in force (1912) 120 Lake Survey charts, of which 1 was in black from old copperplate, 79 lithographs in colors from copperplate transfers, and 40 lithographs in colors from stone engravings.

The charts issued in colors have all depths of 18 or 21' and less in blue, showing at a glance where vessels may proceed with safety, and are considered by vessel men much preferable to the old style printed in plain black and white. This series of colored charts is believed to constitute a distinct advance in chart constr. and printing and meets with high favor from navigators and others.

APPROPRIATIONS.

The progress of operations under the proj. for chart revision approv. Apr. 17, 1909, was as follows at 1912:

| | Existing series. | Final edition. |
|--|------------------|----------------|
| Number of charts in force June 30, 1912..... | 120 | |
| Number of charts contemplated for final edition, by revision and consolidation of existing series and construction of new charts..... | | 111 |
| Number of new charts or charts completely revised. One of the number will eventually be made an inset on another chart and a second will be superseded and dropped, leaving a number of new charts or charts completely revised for final edition..... | 60 | |
| Number of charts under revision..... | 9 | 9 |
| Number of charts to be revised, in whole or part, and issued as separate charts..... | 35 | 35 |
| Number of charts to be revised and issued as insets..... | 4 | |
| Number of charts to be dropped..... | 12 | |
| Number of new charts in course of preparation..... | | 4 |
| Additional new charts proposed..... | | 5 |
| Total..... | 120 | 111 |

¹ 18 of the charts to be revised, in whole or in part, had already been revised for geographic positions and 17 others had been revised for hydrography. Including those partially revised and the new charts and the charts completely revised, the total number of the series in force, based on the standard geodetic datum, was 78, and the total number based on the standard datum for hydrography was 77, making a total of 95 charts either now completely revised or partially revised.

Of the entire series of Lake Survey charts there had been issued in colors—5 on July 1, 1900; 12 on July 1, 1901; 30 on July 1, 1902; 49 on July 1, 1903; 59 on July 1, 1904; 73 on July 1, 1905; 97 on July 1, 1906; 110 on July 1, 1907; 117 on July 1, 1908; 122 on July 1, 1909; 124 on July 1, 1910; 126 on July 1, 1911; and 124 on July 1, 1912, including the 5 general charts formerly published by the Hydrographic Office of the Navy and “now” published and sold by the Lake Survey office.

The reduction of the number of charts in colors from 126, June 30, 1911, to 124, June 30, 1912, is accounted for by the dropping of 5 old charts superseded by the work of revision under the chart proj., and the issuance of 3 new charts; probably more advantageous to reduce the number to 111 instead of to 104.

Up to Feb. 20, 1890, one full set of charts was issued free to each U. S. registered vessel. Any additional charts furnished such vessels and all furnished for other unofficial use were sold at the uniform price of 30¢ each; pursuant to law, since then, the charts have been sold for all private and unofficial use at prices ranging from 5¢ to 30¢ each, the price being intended in each instance to cover only the cost of paper and printing.

Charts may be purchased at the main office at Detroit, at the canal office at Sault Ste. Marie, Mich., and at the U. S. Engineer office in Buffalo.

Complete sample sets may be seen at the U. S. Engineer offices at Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, and Oswego, enabling purchasers to select exactly the charts they wish to order.

From 1882 to June 30, 1912, \$43,215.24 derived from sale of charts.

During the fiscal year ending June 30, 1912, the number of charts sold by the Detroit office was 13,621, and by the Buffalo office 2,506, the aggregate sales being 16,127. The Detroit office issued 3,156 charts for official use and the Buffalo office 55, a total of 3,211.

To 1912 about 443,770 of these charts had been sold and issued for actual service.

For other Government offices various charts are printed in colors. For the Chief of Engineer's office (under app. “Maps, War Department”) the following were, for example, reproduced and printed (1912): 4 H. charts and 10 different tractor variants of these charts; topographical map of northeast Virginia, in black; Petersburg and Five Forks, in colors; 3 maps illustrating the 3 days' Battle of Gettysburg, in colors; and 7 military maneuver ground maps, 4 in black and 3 in

colors. An engraving on copper of 3 sheets of the military sur. of Luzon, Philippine Islands, was in progress.

The preparation and issue of the series of bulletins supplementary to the charts, relating to the R. and H. imps. and navigation of the Great Lakes, was begun in 1889 and was transferred to the office of the Lake Survey at Detroit in 1902. These bulletins are issued annually, with monthly supplements, during the season of navigation, and give the latest and fullest descriptions of progress in R. and H. imps. on the Great Lakes and their connecting waters, as well as significant results of sur. in those waters made under the direction of district engineer officers and of the Lake Survey. If deemed helpful, small maps showing location of new shoals, changes in important chans., localities hitherto uncharted, etc., are inserted in both bulletins and supplements.

The C. affected by the operations of the Lake Survey and depending upon the publication and constant revision of charts and bulletins is practically the entire C. of the Great Lakes. To keep pace with the needs of this rapidly growing traffic requires that the organization and plant be operated to their utmost capacity during the relatively short seasons available for field work. The greatly increased demand for lake charts and the publication by the Lake Survey of the Mercator charts of the Hydrographic Office, U. S. Navy (5 general charts of the Lakes), have materially increased the office operations.

MISC. 162. NORTHERN AND NORTHWESTERN LAKES¹— SURVEYS, ETC.

NOTE.—As early as 1816 local sur. of the Great Lakes for special purposes were made by Engineer officers, but the "Lake Survey" as a systematic work was commenced in 1841. It was diligently prosecuted thereafter until 1882, when for a time extended field operations were suspended.

The correction, printing, sale, and issue of charts has continued without cessation, the additions and corrections being largely based upon local sur. and Rs. by Engineer officers in charge of the R. and H. imps. on the lakes.

Systematic field work was resumed in 1889; since prosecuted with increased vigor.

In 1898 operations were extended to include cognate work of observing and investigating the levels of the Great Lakes and their connecting waters, with a view to their regulation in the interest of C.

The sur. proper has from the beginning been carried on under the War Department, being at first conducted by the Chief of Topographical Engineers, and by the Chief of Engineers after the consolidation of the Topographical Engineers with the Corps of Engineers.

A full account of the operations of the Lake Survey from May, 1841, to July 1, 1881, is contained in Professional Papers, Corps of Engineers, U. S. Army, No. 24, which describes in detail the methods of primary triangulation employed. An extract from this publication describing the condition of lake navigation in 1841 is printed in the An. R. of the Chief of Engineers for 1910, p. 1043.

The early operations of the Lake Survey were conducted with a view to meeting the demands of a limited navigation where the greatest draft was 12'. With the expansion of lake C., the in-

¹ Regulation of Lake Erie.—Act June 13, 1902, requested the President to invite Great Britain to join in forming an international commission (3 from the U. S. and 3 to represent Canada) to investigate and report upon the conditions and uses of the waters adjacent to the boundary lines between U. S. and Canada, upon mainten. and regulation of suitable levels, upon effect on shores of waters referred to, upon interests of navigation affected by diversions, etc., upon measures to regulate diversion, and to make recoms., etc., as shall best subserve the interests of navigation in the said waters. The commission to report upon the advisability of locating a dam at the outlet of Lake Erie, and to recom. agreement of treaty which should provide for the constr. of the dam; ests., etc.

R. dated Buffalo, N. Y., Jan. 8, 1910.

Members of the commission: Brig. Gen. O. H. Ernst, George Clinton, and E. E. Haskell. Canadians: Geo. C. Gibbons (chairman) and Wm. J. Stewart. Secretary, W. Edward Wilson (American section).

From a study of a large mass of data apparent that regulation of Lake Erie within a range of 1' impracticable, between limits of 573.7 and 574.7. Some notable low levels could have been raised by some regulation. In considering measures for the latter, after weighing the advantages and disadvantages, the commission expressed the opinion "that the advantages are not of such overwhelming character as to justify the two Governments in entering upon that vexatious question, and we therefore recom. that the 'regulation' of Lake Erie be not undertaken, meaning thereby the most complete practicable regulation such as can be secured by a dam and sluice gates located at or near Buffalo."

"Compensating" works, as opposed to "regulating" works suggested for raising the level of Lake Erie "sufficiently to compensate for the damages heretofore inflicted by the Chicago Drainage Canal and other deteriorating influences." Believed that somewhere in the Niagara R. between Lake Erie and the Falls a submerged dam might be placed for the purpose. Surs. in progress to determine exact location.

Discussion of the regulation of Lake Superior, of Lake Michigan-Huron, and Lake Ontario. "If the level of a lake has been lowered, whether by diversion through the Chicago Drainage Canal or by enlargement of the outlet, the remedy seems to lie in 'compensating' rather than in 'regulating' works."

Discussion of the use of Lake Superior as a reservoir, proposed "by persons not familiar with the Great Lakes," to compensate for the diversion of water through the Chicago Drainage Canal. "It is not in the power of man to improve this uniformity of flow (of Lake Superior) to any important degree." Disturbing it would seriously affect levels in lakes below.

Contents: Great Lakes—Areas and watersheds—Water-level records—Equation for stream flow—Discharge, St. Marys R.—Discharge, St. Clair R.—Discharge, Detroit R.—Discharge, Niagara R.—Discharge, St. Lawrence R.—Discharge increments of the R. outlets of the Great Lakes system—Supply factors of the Great Lakes—Regulation of Lake Erie as proposed by the U. S. BE. on Deep Waterways—Practical regulation of Lake Erie bet. stages 573.7 and 574.7, 1903 levels—Effect of regulation of Lake Erie bet. stages 573.7 and 574.7 on water levels of Lake Ontario and St. Lawrence Canals—Practical regulation of Lake Erie bet. stages 572.0 and 574.5, 1903 levels—Effect of regulation of Lake Erie bet. stages 572.0 and 574.5, on water levels of Lake Ontario and St. Lawrence Canals—Effect of regulation of Lake Erie bet. stages 572.0 and 574.5, on water levels of Niagara R.—Effect of regulation on Lake Erie bet. stages 572.0 and 574.5, on water levels of Lake St. Clair, Lake Michigan-Huron, and connecting waters—Regulation of Lake Superior—Diversion of water through Chicago Drainage Canal, the effect of diversion on Lakes Michigan-Huron, Erie, and Ontario, and the regulation of Lake Superior to compensate for the diversion at Chicago—Regulation of Lake Michigan-Huron—Regulation of Lake Ontario—Compensating works in the Niagara R.—Tables and Plates, pages 63 to 158.

R. published as H. D. 779, 61st, 2d.

crease in vessel dimensions, and the creation of chans. and Hs. with progressively increasing d., the Lake Survey has kept pace with the increasing demands by a corresponding extension of the scope of its operations.

The highest attainable standards of accuracy and excellence have characterized the work from the beginning, and the work now in progress under present approv. proj.s is merely an extension of the earlier work to limits which were not anticipated by the most sanguine spirits of former days.

The present general proj. of the Lake Survey (see details in the an. R. for 1907, pp. 844 to 850) proposes the ascertainment and chartering of lake d. in all significant regions of the Great Lakes to a plane 30' below the adopted l.-w. datum of the open lakes and 25' below the corresponding datum in the chans. of the connecting Rs., together with the completion of the related operations of triangulation and precise leveling still needed to control properly the areas under sur.

In addition, the general proj. provides for the extension of R. discharge measurements, for investigations of lake levels, and for magnetic sur.s. in and near main vessel courses, while prompt ex. of areas where obstrs. to navigation have been reported will be continued as heretofore.

The water area charted is about 95,000 sq. m., of which about two-thirds is on the American side of the international boundary. The shore line is about 8,345 m. in length, and of this the American line is 4,700 m. As a basis of comparison, the total shore line of the Atlantic, Pacific, and Mexican seaboard of the U. S., excluding Alaska and all islands, is stated in S. D. 74, 53d, 2d, to be 5,705 m. long.

The work of the sur. has not been limited by the national boundary, as the predominance of the navigation interests of the U. S., amounting to 95% of the C. of the Great Lakes, has warranted sur.s. extending to those parts of the main traveled vessel tracks passing through Canadian waters. Canadian shore line has also been sur. where the delineation of these shores is essential to the integrity of navigation charts, as along Rs. and where vessel courses lay close to Canadian territory.

The scope of operations was enlarged by the act of Congress approv. Mar. 4, 1911, wherein it was provided that the sur. of the northern and north-western lakes should be extended to include the natural navigable waters of the New York canals.

After the completion of the proj., the mainten. of a small equipment and organization will be required for such minor sur.s. as may be needed to observe and verify natural changes and to investigate wrecks and other artificial obstrs. and to keep up the revision and issue of charts.

The state of the field work of the Lake Survey on the Great Lakes and connecting Rs., which includes operations of triangulation, topography, precise leveling, ordinary sounding, deep-sea sounding, sweeping, hydraulic measurement, and magnetic observations, was est., June 30, 1912, to be as follows: Triangulation, 85% completed; topography, 70% completed; precise leveling, 64%

completed; ordinary sounding, 62%, and deep-sea sounding, 15%; sweeping, 51%; hydraulic measurement, 94%; and magnetic observations, 94% completed on land and 35% on water.

While progress toward completion of these branches of the work may thus be definitely stated, the issue of charts, perhaps the most important duty of the Lake Survey, is a continuous function, increasing in importance with the growth of the lake C. and subject to constantly increasing demands.

MAPS, PLATES, ETC.

Barometric pressure, 1860-64. **66**, ii, 78.

Progress chart, surveys, Great Lakes. **71**, 1026; **72**, 1034; **73**, 1174; **74**, 406; **75**, 858; **76**, iii, 8; **77**, 1108; **78**, 1358; **79**, 1894; **80**, 2366.

Mean solar diurnal water-level curve, Milwaukee, Wis. **72**, 1038.

Curves, level of lake, at Oswego, 1872. **72**, 1038.

Theodolite axes. **72**, 1049.

Sounding from craft. **72**, 1090.

Mean solar diurnal water level, Duluth. **73**, 1194.

Triangulation, Wis. and Mich. **74**, 406; **75**, 858; **76**, iii, 8; **77**, 1108; **78**, 1358.

Triangulation, St. Lawrence R. **76**, iii, 102.

Ordnance charts (sample), foreign countries. **76**, iii, 138.

Triangulation, Lake Ontario. **76**, iii, 8; **77**, 1108.

Triangulation, Lake Erie. **76**, iii, 8; **77**, 1108; **78**, 1358.

Curves, tube changes, base measuring. **77**, 1128, 1130.

Borings, Mississippi R. **77**, 1196; **78**, 1333.

Triangulation, Mississippi R. **79**, 1894.

Sounding machine. **79**, 1964.

Soundings, Mississippi R. **79**, 1966.

Triangulation, s. of Chicago. **80**, 2366.

Triangulation, St. Marys R. **93**, 4350; **94**, 3328; **95**, 4248.

Velocity curves, Niagara R. **94**, 4368.

Scheme of longitude work, etc. **94**, 4368.

Chart of Lake Erie, showing water banking during storm. **94**, 3434.

Targets, St. Marys R. sur. **95**, 4248.

Ice-boring machine, etc. **95**, 4248.

Sweeping apparatus for shoal finding. **96**, 4066.

An. water-level curve, Sand Beach, Lake Huron. **97**, 4070; **98**, 3772; **99**, 3852; **00**, 5318. St. Marys Falls Canal. **97**, 4070; **98**, 3772; **99**, 3852; **00**, 5318.

Gauge records, St. Clair R. **00**, 5326.

Catamaran, current-meter observations. **00**, 5326.

Self-registering water gauges. **00**, 5326.

Current observations, reel. **00**, 5326.

Discharge, Niagara R. **00**, 5360.

Submarine contours, etc., St. Clair R. **00**, 5400.

Slopes in chans. connecting Lakes Huron and Erie. **00**, 5400.

Rating, current meter, 68 observations. **00**, 5400.

Records, self-registering gauges, St. Clair R. **00**, 5400.

Current velocity following fluctuations in water levels. **00**, 5400.

Current "pulsations." **00**, 5400.

Discharge, St. Clair R. **00**, 5400.

Curves, mean velocity. **00**, 5400.

Water surfaces, Lake Huron. **00**, 5400.

Gauge relation, Lake Huron and Lake St. Clair. **00**, 5400.

Characteristics, St. Clair R. **00**, 5400.

Water levels, Lake Huron, Lake St. Clair, Lake Erie, St. Clair R., and Detroit R. **00**, 5400.

Curves show oscillations, Lakes Huron, St. Clair, and Erie. **00**, 5400.

Curves, mean annual variations in fall, St. Clair and Detroit Rs. **00**, 5400.

Water level, Lake Huron, 1894-1900, showing effect of withdrawing 10,000 c. f. per second from Lake Michigan-Huron. **00**, 5400.

Monthly mean water levels. **01**, 3764.

Catamaran, sounding. **02**, 2774.

Variations in level, Lakes Huron and Erie. **02**, 2779.

St. Lawrence R., velocities. **02**, 2792.

Discharge curve, St. Lawrence R. **02**, 2792.

Discharge, St. Clair R. **02**, 2826. When obstructed by ice. **02**, 2826.

Diagram, fall at head of St. Clair R., winter of 1900-01. **02**, 2826.

Resurvey, Apostle Islds. **02**, 2840.

Discharge, Detroit R. **02**, 2870.

Discharge, St. Marys Rapids. **02**, 2878.

Primary triangulation, Great Lakes, adjusted data. **03**, 2678.

Sounding machine. **03**, 2686.

Discharge, Detroit R., temperatures. **03**, 2686.

Sounding, by sweep. **03**, 2764.

Rod tests, precise leveling. **03**, 2784.

Gauging and placing of gauges, and velocities and discharges, St. Marys R. **03**, 2836.

Sketch and slope, St. Clair R. **03**, 2840.

Drainage basins, Great Lakes. **03**, 2856.

Curves, discharge, St. Marys, St. Clair, Niagara, and St. Lawrence Rs. **03**, 2856.

Triangulation, St. Lawrence R. **04**, 4056.

Triangulation, St. Clair R., Lake St. Clair, and Detroit R. **04**, 4056.

Triangulation, St. Marys R. **04**, 4056.

Water gauges, self-registering. **04**, 4064.

Gas-pipe triangulation station. **04**, 4064.
 Stage indicator. **04**, 4064.
 Sounding sweep. **04**, 4064.
 Sketch, Detroit R. **04**, 4130.
 Slope, Detroit R. **04**, 4130.
 Level, Lake Superior, and rainfall. **04**, 4130.
 Level, Lake Huron, and rainfall. **04**, 4130.
 Level, Lake Erie, and rainfall. **04**, 4130.
 "Vidette" fitted for magnetic observations.
04, 4138.
 Magnetic variations, Lake Superior. **04**, 4170;
10, 2734.
 Triangulation, Detroit R. **05**, 2784.
 Wire sweep. **09**, 2498.

SPECIAL REPORTS.

See also under "Engineers in charge," p. 2126 of this index.

O. B. Wheeler. **R.**, **66**, ii, 56; **68**, 930; **70**, 552;
71, 1017; **76**, iii, 112.
 Meteorology. **71**, 1008; **72**, 1068; **73**, 1197; **74**,
 472; **76**, iii, 103.
 Longitude and latitude. **71**, 1014; **72**, 1054,
 1066; **74**, ii, 434.
 Astronomy. **71**, 1017.
 Computing. **72**, 1095; **73**, 1192; **76**, iii, 112;
77, ii, 1204.
 Astronomical determination of points in the
 interior of Illinois and Wisconsin. **74**, ii, 425.
 Difference of longitude between Detroit, Mich.,
 and Ogden, Utah. **74**, ii, 434.
 Water levels. **75**, ii, 915; **76**, iii, 80; **77**, ii,
 1193; **78**, iii, 1411.
 Longitude of Toledo from Detroit. **82**, 2790.
 St. Marys R. sur. **92**, 34.

J. M. Bigelow. **R.** Meteorology. **66**, ii, 62.

O. N. Chaffee. **R.** Theodolite comparison. **66**,
 ii, 218.

Lt. J. F. Gregory. **R.** Astronomy. **67**, 573; **68**,
 330.

D. F. Henry. **R.**, **67**, 582.
 Outflow of Lakes. **70**, 554.
 Theodolite comparison. **66**, ii, 218.
 Meteorology. **67**, 586; **68**, 966; **69**, 636; **70**, 600.
 Gauging. **68**, 949; **69**, 562.
 Base-line measurements. **68**, 947.

G. Y. Wisner. **R.**, **68**, 930; **72**, 1097; **73**, 1181;
74, ii, 407; **75**, ii, 860; **76**, iii, 113; **77**, ii, 1201; **78**,
 iii, 1395; **79**, iii, 1930.
 Triangulation. **80**, 2410.
 Theodolite constants. **74**, ii, 470.

Lt. Mercur. **R.**, **68**, 930.

I. A. Lapham. **R.** Mean temperatures on the
 Lakes. **68**, 993.

Capt. F. U. Farquhar. **R.**
 Determination of the l. of standard bar of the
 Lake Survey base-measuring apparatus. **68**, 930,
 337.

Capt. J. A. Smith. **R.**, **70**, 549.
 Primary triangulation of Lake Superior. **71**,
 994.

Lt. E. H. Ruffner. **R.**, **70**, 550, 593. Niagara R.
 (Maj.) **93**, 4364. (See p. 2130.)

E. S. Wheeler. (See p. 2131.) **R.**, **74**, ii, 410; **77**,
 ii, 1205.

Testing theodolite. **70**, 553; **72**, 1048.
 Determination of the constants of primary base
 apparatus. **71**, 1003.

Comparison of sur. yards. **74**, ii, 466; **75**, ii,
 906.

Comparison of 15' bar. **74**, ii, 468.
 Measurement, Chicago base line. **78**, iii, 1401;
 Sandusky base line. **79**, iii, 1941.
 Olney base line. **80**, 2408.
 Computing machines. **82**, 2786.
 St. Marys R. sur. **92**, 3420; **96**, 4022.
 Buffalo base line. **76**, iii, 113.
 Measuring base line, s. shore Lake Ontario. **75**,
 ii, 900.
 Resur., St. Marys R. **96**, 4022.

Maj. H. L. Abbot. **R.**, Discussion and criticism
 of gauging methods, Lake Survey, **70**, 616, 629.

Lt. A. N. Lee. **R.**, **71**, 995; **72**, 1094; (Capt.)
73, 1184.
 Magnetic observations. **73**, 1195; **74**, ii, 440.

Lt. J. H. Weeden, jr. **R.**, **71**, 996; **72**, 1093.

Lt. C. F. Powell. **R.**, **71**, 998; (1st Lt.) **73**,
 1188; **74**, ii, 421; **76**, iii, 110.
 Astronomy. **73**, 1188; **75**, ii, 871; **78**, iii, 1371.
 Magnetic work. **77**, ii, 1181.
 Sur. Mississippi R. **78**, iii, 1385.

H. Custer. **R.**, **71**, 998; **73**, 1185; **74**, ii, 414.

Lt. E. Maguire. **R.**, **71**, 1019; **74**, ii, 420. Astron-
 omy. **75**, ii, 894.

S. I. Smith. **R.**
 Dredging studies. Bathymetrical distribution
 of species, Lake Superior. **71**, 1020.

J. E. Hilgard. **R.** Length of Lake Survey yards.
72, 1046.

Rear-Admiral B. F. Sands, U. S. Naval Ob-
 servatory. **R.**
 Description of instruments used in determining
 clock corrections. **72**, 1052.

Lt. W. R. Livermore. **R.**, **72**, 1080. Triangula-
 tion, system employed. **72**, 1085.

A. R. Flint. **R.**, **72**, 1099; **73**, 1190; **74**, ii, 410;
75, ii, 863; **76**, iii, 114; **77**, ii, 1202; **78**, iii, 1407
79, iii, 1940; **80**, 2409.
 Astronomical work. **76**, iii, 92; **81**, 2793.
 Water levels. **79**, iii, 1962; **80**, 2436; **81**, 2799;
82, 2818.

Instrument test. **82**, 2789.
Longitude, San Antonio, Tex. **82**, 2812.
Longitude difference, Detroit, Mich., and Tonawanda and Mannsville, N. Y. **76**, iii, 92.
Primary triangulation, Green B. to Minnesota Junction. **73**, 1190.

G. A. Marr. **R.**, **72**, 1101; **73**, 1182; **74**, ii, 408; **75**, ii, 862; **76**, iii, 116; **77**, ii, 1205.

L. Foote. **R.**, **72**, 1104.

A. C. Lamson. **R.**, **72**, 1106; **73**, 1190; **74**, ii, 417; **76**, iii, 119; **77**, ii, 1200; **78**, iii, 1398.

J. R. Mayer. **R.**, **72**, 1106; **73**, 1188; **74**, ii, 418; **75**, ii, 866; **76**, iii, 121.

F. M. Towar. **R.**, **72**, 1107; **73**, 1191; **74**, ii, 419; **75**, ii, 867; **76**, iii, 120; **77**, ii, 1199; **78**, iii, 1398.

R. S. Woodward. **R.**, **73**, 1183; **74**, ii, 412; **75**, ii, 870; **76**, iii, 116; **77**, 1203; **78**, iii, 1396; **79**, iii, 1401.

Measures. **74**, ii, 469.

Station twist. **75**, ii, 913.

Theodolite errors. **76**, iii, 64; **77**, 1203.

Theodolite constants. **79**, iii, 1945.

Triangulation. **80**, 2411.

Lt. D. W. Lockwood. **R.**, **73**, 1193; **74**, ii, 413; **75**, ii, 859; **76**, iii, 12.

Screw of comparator. **74**, ii, 453.

Telegraphic longitude. **76**, iii, 12; **77**, 1164.

Sur., Mississippi R. **77**, ii, 1196; **78**, iii, 1381; **79**, iii, 1922.

Sur., Lake Erie. **78**, iii, 1394.

Magnetic work. **79**, iii, 1918.

Longitude and latitude work. **80**, 2382.

Maj. J. M. Wilson. **R.** Water-level observations, **73**, 1193.

MISC. 163. NORTHERN AND NORTHWESTERN LAKES— GAUGING OUTLET.

ENGINEERS.

Chief of Engineers. **R.**, **70**, 86; **93**, 464.

In charge:

Maj. H. L. Abbot (Bvt. Brig. Gen.). Criticism

of Assistant Engineer Henry's gauging observations. **70**, 616, 629.

Maj. E. H. Ruffner. **R.**, **93**, 4364.

MISC. 164. NORTHERN AND NORTHWESTERN LAKES— VALLEY OF, OUTFLOW, RAINFALL, AND EVAPORATION.

ENGINEERS.

Chief of Engineers. 03, 665.

In charge. Maj. W. H. Bixby. 03, 2855.

PHYSICAL CHARACTERISTICS.

Drainage basins. 03, 2856. Lake elevations. 03, 2856. Outflow and discharge formulæ. 03, 2857, 2862. Rainfall. 03, 2859. Evaporation. 03, 2860. Weather Bureau records. 03, 2861. Mean

monthly elevations, discharges, rainfall, temperature, humidity, velocity of wind. 03, 2866.

MAPS.

Drainage basins of the Great Lakes. 03, 2856. Curves showing graphically the discharge in second-feet through St. Marys, St. Clair, Niagara, and St. Lawrence Rs. 03, 2856.

MISC. 165. NORTHERN AND NORTHWESTERN LAKES— WATER LEVELS.

(See Misc. 121, 156, 161-164 on pp. 2106, 2121, 2122-2132 of this index.)

NOTE.—In addition to the field work of the Lake survey, operations have been continued under the general proj. for the exhaustive investigation of lake levels, in continuation and extension of the proj. outlined in the an. R. for 1898, pp. 774-776. This work comprises lake temperature observations and the mainten. of a staff and self-registering gauges to supply accurate, continuous records of all changes in elevation of the water surfaces on the lakes and Rs. 12, 1327.

For table of discharges for all of the Great Lakes at the mean stage of each for the past 52 years as determined by the standard gauges see 12, 3544.

This work is now fully organized, methods of making measurements and observations to the best advantage have become fixed and settled, and the results are of increasing importance, bearing, as they do, on questions affecting international relations and obligations, and on the propriety and advisability of the numerous diversions under consideration.

APPROPRIATIONS.

See page 2125 of this Index.

CURVES.

OPERATIONS.

See Note at beginning of this abstract; also each an. R. for detailed tables, etc.; "Engineers," above; and p. 2124.

MISC. 166. LAKE MICHIGAN—REEF SOUTH OF MANI-TOWOC, WIS.

ENGINEERS.

Chief of Engineers. 03, 665.

In charge. 03, 2883.

Steamer *Tuscarora* reported striking reef; d. of

water not over 13 or 14'; ex. made; R. submitted sur. made, showing locations and soundings thereon, submitted Apr. 13, 1903. 03, 2883.

MISC. 167. LAKE MICHIGAN—REEF OFF WIND POINT, NEAR RACINE HARBOR, WIS.

ENGINEERS.

Chief of Engineers. 03, 665.

In charge. Maj. J. G. Warren. 03, 2883.

1903-04. Inset of sur. published in colors in Supplement No. 4, of Bulletin No. 13, Northern and Northwestern Lakes. 04, 737, 4051.

OPERATIONS.

1902-03. Reef located and plainly marked. Sur. in progress. 03, 665, 2883.

MISC. 168. UNITED STATES ARMY—EQUIPMENT OF COAST ARTILLERY, ARMORIES, ORGANIZED MILITIA.

The Army app. act approv. Mar. 3, 1911, provided the sum of \$338,170 for the equipment of armory buildings provided by States for instructional purposes for Coast Artillery companies of the Organized Militia. With these funds equipments installed for the instruction of Coast Artillery militia at the following places:

Boston, Mass., South Armory.

Bridgeport, Conn.

New York City:

Ninth District Armory.

Thirteenth District Armory.

Savannah, Ga.

San Francisco, Cal.

For the work required of the Engineer Department in this connection the sum of \$105,426.56 assigned to this department for expend. by the Sec. of War. At the close of 1911-12 the Engineer work at the Boston Armory had been completed so far as possible pending the arrival of the armament and other equipment, and the work remaining to be done at this armory and the necessary work at the other armories had been placed under contract.

By the Army app. act of Aug. 24, 1912, the availability of this app. was extended to include obligations incurred during the fiscal year ending June 30, 1913. 12, 29.

MISC. 169. EQUIPMENT, ENGINEER — EQUIPMENT OF OFFICERS' SCHOOLS, MILITARY POSTS.

For the purchase of instruments for issue to officers' schools at military posts the sum of \$3,000 was assigned from the app. for "Equipment of officers' schools, military posts, 1912," by the Sec. of War. This amount applied to purchase of in-

struments for issue from the Engineer depot at Washington Barracks. For similar purchases during 1912-13 the sum of \$1,500 assigned to the Engineer Department. 12, 26.

MISC. 170. PHILIPPINES—MILITARY STRUCTURES.

The constr. of a pumping plant, electric power plant, and certain Army storehouses for military purposes in the Philippine Islds. assigned to the

Engineer Department; funds from various apps. applied thereto; funds insufficient; est. addl. sum of \$170,000 required. **12, 23.**

MISC. 171. RESERVATIONS — GOVERNORS ISLAND, NEW YORK HARBOR, ENLARGEMENT OF.

(See New York Harbor, N. Y., on p. 233 of this index; also p. 1881.)

APPROPRIATIONS.

Col. S. W. Roessler, 1909. **R., 09, 1097; 10, 1221; 11, 1296; 12, 1510.**

LEGAL PROCEEDINGS.

Land conveyed to U. S. by State of New York, to be covered by bulkhead as orig. designed; extension of bulkhead can not be built until grant of land is correspondingly extended. **02, 980.** State of New York, Mar. 6, 1903, au. the issue to U. S. of a further grant of land under water, to admit extension of isld. Letters patent granted June 5, 1903. **03, 921.**

OBSTRUCTIONS.

Sea wall ran into by ferryboat; damage to. **11, 1297.** Sea wall (1912) again run into about $\frac{1}{2}$ m. from Castle Williams. **12, 1511.**

OPERATIONS.

1901-02. Pile wharf: Work begun and nearly completed; in daily use by Quartermaster Department, which laid track along wharf to connect with large warehouse; 8 iron mooring posts and cleats purchased and placed. **02, 979.** Dr. in front of wharf: 69,944 c. y. sand, gravel, clay, and bowlders dr. **02, 979.** Riprap bulkhead: 2,430 . f. completed and 750' in progress; se. wall along Buttermilk Chan., 2,230' l., completed up to 2' above l. w., and sw. or cross wall begun; operations suspended to admit of completion of arrangements for further extension of proposed enlargement as per plans of McKim, Mead & White, architects. **02, 980.** Engineer landing: Small dock near Castle Williams extended to 9 $\frac{1}{2}$ ' d., m. l. w., with landing face of 51'; area in front dr. to 15', m. l. w.; during dr. 3 submarine mine cables were picked up by the dr., and were repaired and relaid without cost to U. S. **02, 980-81.**

1902-03. Pile wharf: Dock completed Aug. 6, 1902; measurements given. **03, 920, 921.** Dr. in front of wharf: 606 c. y. removed; 19 c. y. bowlders removed; work completed. **03, 920.** Riprap bulkhead: 89,079 t. riprap delivered; the pile platform carrying light and fog bell near outer end of nw. bulkhead run into by car float and wrecked

beyond repair; a small schooner hired and anchored near end of bulkhead for carrying light and fog bell. **03, 921.**

Two intercepting sewers built for removal of sewage, discharging, respectively, into Buttermilk Chan. and North R. current near Castle Williams. **03, 922.**

Embankment behind bulkhead: 836,668 c. y. material placed, of which 46,985 c. y. above l.-w. level; area above l. w. a strip along North R. bulkhead about 1,700' l. and from 40'-150' w. **03, 922.**

1903-04. Removal of ledge in front of new wharf: R. shattered by blasting and removed by dr., making 26', m. l. w., at approaches; 35 c. y. r. removed. **04, 1124.** Riprap bulkhead: 123,233 t. riprap delivered; bulkhead w. of gap, 1,068', completed, and part e. of gap in progress; total l. of bulkhead completed, 1,366'. **04, 1125.** Embankment behind bulkhead: 745,878 c. y. material delivered; difficulty experienced in building up above l. w. **04, 1125.** Masonry sea wall: Tests made to ascertain whether riprap embankment would support masonry sea wall. **04, 1125.**

1904-05. Riprap bulkhead: 45,933 t. riprap placed, building 629 l. f. of work; gap about 352' wide left at s. end, to admit scows bringing materials for embankment; total l. of completed bulkhead, 6,795'. **05, 1021.** Embankment behind bulkhead: 105,792 c. y. material placed; total material in embankment above l. w., 185,082 c. y. **05, 1021, 1022.** Masonry sea wall: Buttermilk Chan. side of inclosure completed; work begun on North R. side of Castle Williams wall; total l. of wall, 2,195' at coping and 2,681' at foundation. **05, 1022.**

1905-06. Embankment: 343,325 c. y. sand and cinders brought behind bulkhead, 203,504 c. y. of said total pumped up above l.-w. level; area inclosed by bulkhead built above low tide for 800' beyond old sea wall, an area of 37 acres, 20 acres above ordinary h. w. **06, 989.** Masonry sea wall: 2,210' sea wall built; 2,514 t. riprap added to bulkhead to protect it against undermining. **06, 989.**

1906-07. Embankment: 65,399 c. y. material, mainly sand, delivered and dumped within inclosed area; 43,650 c. y. filling pumped into embankment at m. l. w.; contractor claimed that full amount of filling had been delivered and contract was completed, notwithstanding embankment must be built up to certain grades; contractor refused to continue work; with sanction of Chief of Engineers, contract annulled June 8, 1907, and proposals for further constr. invited. **07, 1037.** Masonry sea wall: Extended 1,982', making total l. 6,757'; in March sea wall was run into on Buttermilk Chan. side, about 2,000' from orig. isld. **07, 1038.** Office building on sea wall destroyed by lightning, replaced. **07, 1038.**

1907-08. Embankment: 1,181,225 c. y. material delivered, of which 597,750 c. y. placed above l. w., 295,565 c. y. in the inner section, and 302,185 c. y. in the outer section; about 32 acres of embankment built up to required grade, 27 acres of which

are in the inner section. **08, 1084.** Masonry sea wall: The sea wall on the Buttermilk Chan. side run into by a steamer on night of Jan. 23-24, damaging wall for l. of 16' at bottom, and 124' or more at coping; repairs made to wall. **08, 1084.** Light and fog bell maintained. **08, 1085.**

1908-09. 1,124,388 c. y. material brought into inclosure, of which about 1,000,000 c. y. was from sand dr. in H. and rest from street and cellar excavations in the city; material pumped overboard into embankment behind temporary bulkhead to retain embankment; of total, 638,339 c. y., prism measurement, placed above m. l. w.; 22,216 t. riprap placed along base of sea wall, covering section of 3,200' along Hudson R. side and 2,000' along Buttermilk Chan. side, where erosion and yielding affected foundation of wall. **09, 1097-98.**

1909-10. 151,406 c. y. embankment above l. w. placed; area built up to approx. grade, about 8½ acres; 2,819 c. y. soil placed in line to grade up for R. R. track to be used in spreading the soil. **10, 1221-22.**

1910-11. 155,363 c. y., prism measurement, delivered and place above plane of m. l. w., adding 8.2 acres to area filled; 16,964 t. riprap placed in foundation for sea wall; constr. of masonry wall on this foundation progressed for l. of about 103 l. f.; 117,931 c. y., prism measurement, of surface earth placed and graded, covering area of 63 acres, 41 acres of which have been fertilized, harrowed, seeded, and rolled. **11, 1297.**

1911-12. Sea wall and embankment finished; 172,983 c. y. filling delivered; amount placed above l.-w. plane, 80,538 c. y., prism measurement; contractor built 358 l. f. sea wall, closing gap; 18,148 c. y. surface earth placed, delivered, and harrowed in 4,664 c. y. fertilizer, and seeded down 38 acres; damage to sea wall caused by ferryboat *Nassau* repaired; the light and fog bell, maintained by Engineer Department since beginning of operations, transferred to Lighthouse Department, with small building and other appliances, May 10, 1912. **12, 1510, 1511.**

PHYSICAL CHARACTERISTICS.

Condition of work. **05, 1022; 07, 1038.**

Settling of masonry sea wall. **06, 989; 07, 1037; 12, 1511.**

85 acres land built up to grade. **09, 1098.**

Sea wall and embankment completed; area inclosed about 100 acres. **12, 1511.**

PROJECTS.

Sundry civil act Mar. 3, 1901, au. enlargement in accordance with plan by board of officers, Aug. 17, 1900, including constr. of dock, and dr. chan.; est., \$215,000; constr. of bulkhead and filling; est., \$385,000. **01, 228.**

Proj. modified Aug. 22, 1901, substituting riprap bulkhead, built to about 2' above m. l. w., for crib bulkhead, on account of bottom being too soft to support cribwork; further modification to provide for extending and repairing old Engineer

anding near Castle Williams, for landing Quartermaster stores, etc., and saving rental of storehouses; to provide d. of 15', m. l. w., at that landing by dr. Again modified, Apr 14, 1902, to defer rection of steel shed or cover upon wharf, and to pply funds intended for same to continuing bulkhead for enlargement of isld. 02, 979.

Plan for expend. of \$200,000 submitted June 14, 901; au. by Sec. of War July 5, 1901, viz: Constr. f pile dock and covered wharf on n. shore to communicate with proposed Quartermaster storehouse, \$65,000; excavation of chan. 26' over shoal nd exterior and adjacent to dock and wharf, 75,000; building crib bulkhead, w. side of Butter-

milk Chan., as part of sea wall supporting enlargement of isld. over s. shoal. 02, 979.

The orig. plan for reclaiming 82 acres of land was extended to 101 acres by au. of Sec. of War; no increase in cost. 03, 144.

At 1912, est. \$15,000 required in next 3 years to care for probable settlement of wall and embankment. 12, 233.

SPECIAL SUBJECTS.

Reports, Chief of Engineers, 1866-1912.

SECTION 1.—SUPERVISION OF BRIDGE CONSTRUCTION.

NOTE.—The bridges referred to in this section are indexed under the name of the stream or harbor they cross.

The letter or letters in parentheses after each title are symbols or abbreviations having the following meaning:

A., alterations. O., navigation obstructed; alterations required within a specified time. S., bridge erected under State laws, or altered under them. Sp., erected under special act of Congress. Dr., rules prescribed for opening drawbridges.

A.

ACOAKSETT R., Westport Pt., Mass. (S.) (Westport town br.) Reconstr., approv. Apr. 22, 1904. **04**, 718.

ACUSHNET R., between New Bedford and Fairhaven, Mass. (S.) (Bristol County br.) PLANS.—Reconstr. plans partly (from Fairhaven to Popes Isld.) approv. June 23, 1896, pending results of sur. au. act June 3, 1896, **96**, 426. Modified plans approv. Sept. 23, 1896; constr. plans (second part between Popes and Fish Islds.) approv. July 17, 1897, **97**, 532.

ACUSHNET R., between Popes and Fish Islds., New Bedford H., Mass. (S.) (Union Street Ry. Co.) **97**, 535. PLANS.—Plans for a temporary br. during reconstr. of county br. between Popes and Fish Islds., approv. (revocable permit) Aug. 20, 1897, **97**, 535.

Adjourned to await the completion of maps. **77**, 821. Reconvened Jan. 26, 1877. Recom. a sheer boom 500' in length at br. **R.**, **77**, 819, 824. (Cols. Macomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) LEGISLATION.—Br. au. by act July 25, 1866, **77**, 824; **78**, 1003. Various acts relating to the br., **78**, 1089. PLANS.—Dimensions of br., **77**, 824; **78**, 1003. Description of plans by Maj. Warren, **78**, 1003. High br. would be very expensive, **78**, 1006. Changes in br. proposed by Maj. Warren, **78**, 1006. SURVEYS.—Maps. Diagram of ps., **78**, 1004. Maps of locality of br., Nos. 21 and 22, **78**, 1126.
- MISSISSIPPI R.**, Cass and Itasca Counties, Minn. (S.) (Great Northern Ry. Co.) PLANS.—Br. to replace existing str. approv. Sept. 10, 1907, **08**, 870.
- MISSISSIPPI R.**, Clinton, Iowa. (Sp.) (Pontoon.) ENGINEERS.—Chief of Engineers. **R.**, **75**, 121. Approv. conclusions of BE., **75**, ii, 682. Approv. by Sec. of War, **75**, ii, 683. BE. convened at Clinton, Iowa, Oct. 8, 1874. Recom., **75**, ii, 683. **R.**, **75**, ii, 683. (Col. Macomb, Maj. Weitzel and Farquhar.) LEGISLATION.—Br. au. by acts Apr. 1, 1872, and June 6, 1874, **75**, ii, 682. Various acts relating to the br., **78**, 1093. PLANS.—By br. company, **75**, ii, 683. Modified by BE., **75**, ii, 683.
- MISSISSIPPI R.**, Clinton, Iowa. (Sp.) (Railway.) COMMERCE.—Influence of br. upon navigation, **78**, 989. ENGINEERS.—Chief of Engineers. Approv. recom. of board, **77**, 96, 817. BE. 1876. Recom. constr. of 1,000' of sheer booms. **R.**, **77**, 819, 825. (Cols. Macomb and Simpson, Maj. Warren, Suter, and Farquhar, and Capt. Allen.) LEGISLATION.—Br. au. by act Feb. 27, 1867, **78**, 987. Abstracts of debates in Congress relating to Clinton br., **78**, 1051. Various acts relating to br., **78**, 1089, 1093. PHYSICAL CHARACTERISTICS.—Description of R. and valley at locality of br., **78**, 987. PLANS.—Description of br., **77**, 823; **78**, 988. Alterations recom. by Maj. Warren, **78**, 989. Proposed location for a high br., **78**, 990. Maj. Warren's R. on br., **78**, 987. SURVEYS.—Maps. Diagram of ps., **78**, 985. Maps of locality of br., **78**, 1126.
- MISSISSIPPI R.**, near Clinton, Iowa. (Sp.) (Clinton & Illinois Br. Co.) ENGINEERS.—Chief of Engineers. **R.**, **91**, 428. BE. constituted by S. O. No. 10, Mar. 11, 1890. (Lt. Col. C. R. Suter, Maj. A. Mackenzie, and Capt. W. L. Marshall.) Engineer in charge: Maj. A. Mackenzie. LEGISLATION.—Company au. to constr. br. by act July 16, 1888; amending act Mar. 1, 1890, **91**, 428. PLANS.—Br. at Stoney Pt. submitted Feb. 1, 1889, withdrawn; new plans with location below br. of the Chicago & North Western Ry. Co. disapprov. July 16, 1889. Plans for a high br. at Stoney Pt. submitted Nov. 12, 1889; referred to BE., who reported Mar. 31, 1890, adversely on this location and suggested a place about 1 m. below city near R. R. br.; revised plans in accordance with above suggestion approv. Sept. 22, 1890. Modification of superstr. of certain spans submitted Jan. 21, 1891; approv. Feb. 10, 1891. Modification of arrangement of e. chan. span submitted June 26, 1891; approv. July 10, 1891. **91**, 428.
- MISSISSIPPI R.**, Clinton, Iowa. (Sp.) (Br. of Albany R. R. Br. Co., by Chicago & North Western Ry. Co.) Au. act Feb. 6 1907. PLANS.—Reconstr. approv. May 4, 1907, **07**, 819.
- MISSISSIPPI R.**, at Cohasset, Minn. (Sp.) (Bass Brook town br.) Au. act Jan. 23, 1910. PLANS.—Approv. May 13, 1910, **10**, 1022.
- MISSISSIPPI R.**, between Davenport, Iowa, and Rock Isld., Ill. (Sp.) (Davenport & Rock Island Ry. Br. Co.) LEGISLATION.—Company au. to constr. br. by act Mar. 3, 1885 **95**,

474. PLANS.—Submitted Nov. 19, 1894; modified Jan. 5, 1895; approv. Jan. 23, 1895, 95, 474.

MISSISSIPPI R. (Des Moines Rapids Canal), at foot of Des Moines Rapids, above present lower lock in Hancock County, Ill. (S.) (Keokuk & Hamilton Water Power Co.) PLANS.—Temporary br. for use in connection with power development au. by acts Feb. 8, 1901, and Dec. 9, 1905; approv. Mar. 6, 1911, 11, 1087.

MISSISSIPPI R., Dubuque, Iowa. (Sp.) (Railway.) COMMERCE.—Influence of br. upon navigation, 78, 985. ENGINEERS.—Chief of Engineers. R., 77, 96, 817; 83, 271, 1598; 84, 271. BE. recom., 1876, a sheer boom 1,200' in length. R., 77, 819, 823. (Cols. Maccomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) LEGISLATION.—Br. au. by act July 25, 1866, 78, 983. Various acts relating to br., 78, 1089, 1093. Act Mar. 3, 1875, fixed width of the draw span at 500'. Act May 29, 1884, reduced it to 400', 84, 271. PHYSICAL CHARACTERISTICS.—Description of R. valley at locality of br., 78, 983. PLANS.—Description of br., 77, 823; 78, 984. Proposed location of high br., 78, 986. By Maj. Warren for extension of left rest p. 800', 78, 986. Modifications in spans discussed by br. company, 83, 1595, 1598. Recom. by Chief of Engineers, 83, 1598. Action of Congress necessary before modification can be made, 83, 1599. Modified by act May 29, 1884, 84, 271. SURVEYS.—Maps. Diagram of ps., 78, 985. Maps of locality of br., 78, 1126 (Nos. 15 and 16).

MISSISSIPPI R., Dubuque, Iowa. (Sp.) 88, 309. COMMERCE.—Dimensions of the largest Mississippi packet boats, 88, 2496. LEGISLATION.—Br. au. by act Feb. 21, 1887, 88, 2493. PLANS.—Maj. Mackenzie reported the dimensions of the br. spans such as to furnish no obstr. to the passage of the largest Mississippi boats, 88, 2496-97.

MISSISSIPPI R., Dubuque, Iowa. (Sp.) (Pontoon.) 76, 92, ii, 308. COMMERCE.—Would be seriously obstr. by proposed br., 76, ii, 311, 313. BE. convened at Dubuque, Iowa, May 31, 1875. Br. on proposed site would be very injurious to navigation. 76, ii, 311. R., 76, ii, 309. Reconvened Oct. 15, 1875. Site inadmissible so long as the bar in front of the city exists, 76, ii, 313. R., 76, ii, 312. Reconvened Mar. 15, 1876. The board approved of the revised plans and change of site presented by the br. company, 76, ii, 309. R., 76, ii, 309. Approv. by Chief of Engineers and Sec. of War, 76, ii, 308. (Col. Maccomb and Maj. Farquhar and Suter.) LEGISLATION.—Br. au. by act Mar. 3, 1875, 76, ii, 308, 309. PLANS.—Submitted by J. P. Quigley, 76, ii, 309. Description of, 76, ii, 309. Discussed by board, 76, ii, 309. R. of Maj. Warren, 78, 986.

MISSISSIPPI R., between Dubuque, Iowa, and Dunleith (East Dubuque), Ill. (Sp.) (Dubuque & Dunleith Br. Co.) 99, 619. LEGISLATION.—Company au. to constr. br. by act July 25, 1866, 99, 619. PLANS.—Reconstr. plans approv. Mar. 4, 1899, 99, 619.

MISSISSIPPI R., Dubuque, Iowa, and East Dubuque, Ill. (S.) (Dubuque High Br. Co.) PLANS.—Reconstr. approv. May 16, 1906, 06, 807.

MISSISSIPPI R., Eagle Pt., Dubuque, Iowa. (Sp.) (Dubuque & Wisconsin Br. Co.) Au. act Mar. 6, 1900, and Dec. 21 1900. PLANS.—Approv. Jan. 4, 1901, 01, 660.

MISSISSIPPI R., near Elk R., Minn. (Sp.) (Elk R. village, county of Wright and town of Otsego br.) Au. act Apr. 28, 1904. PLANS.—Approv. Nov. 4, 1904, 05, 720.

MISSISSIPPI R., Fort Madison, Iowa. (Sp.) LEGISLATION.—Br. au. by acts Apr. 1, 1872, and May 17, 1872, 78, 1091, 1092.

MISSISSIPPI R., Fort Snelling, Minn. (Sp.) 78, 111; 80, 200. BE. approv. plan, 80, 200. (Gen. Terry and Col. Warren.) LEGISLATION.—Br. au. by act June 30, 1878, 80, 199, 1869. PLANS.—Constr. of a free wagon br., with st. abutments and iron superstr., 78, 111. Approv. by Sec. of War, 78, 111. Test of br. assigned to Capt. C. J. Allen, 80, 200. R., 80, 1869.

MISSISSIPPI R., Grand Rapids, Minn. (Sp.) (Town br.) Au. act Mar. 23, 1912. PLANS.—Approv. Apr. 20, 1912, 12, 1298.

MISSISSIPPI R., Hannibal, Mo. (Sp.) (Railway.) COMMERCE.—Number of rafts passing the br., 77, 826. Effect of br. upon navigation, 78, 1017. Ath. w. a very serious obstr. to navigation, 78, 1017. ENGINEERS.—Chief of Engineers. Approv. recom. of board, 77, 817. BE. recom., 1876, placing of a sheer boom 1,200' in length at this br. R., 77, 819, 826. (Cols. Maccomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) LEGISLATION.—Br. au. by act July 25, 1866, 77, 826; 78, 1015, 1089. PHYSICAL CHARACTERISTICS.—Description of the R. and valley in the vicinity of the br., 78, 1015. PLANS.—Dimensions, 77, 826; 78, 1016. R. of Maj. Warren on plans of br., 78, 1015. Height required for h. br., 78, 1019. SURVEYS.—Maps. Of locality of br., 78, 1126 (No. 27).

MISSISSIPPI R., Hannibal, Mo. (O.) (Wabash R. Co., Hannibal Br. Co. & Missouri Pacific Ry. Co.) PLANS.—Alterations to be completed on or before Mar. 15, 1907, 06, 809.

MISSISSIPPI R., above Hannibal, Mo. (O.) (Hannibal Br. Co., controlled by the Wabash Ry. Co.) PLANS.—Alterations required by Mar. 1, 1889; time extended to Nov. 8, 1888. No action taken by the companies interested, 89, 373, 374.

MISSISSIPPI R., Hastings, Minn. (Sp.) (City br.) LEGISLATION.—City au. to constr. br. by act June 29, 1894. PLANS.—Approv. Nov. 9, 1894. Reported completed. 95, 474.

MISSISSIPPI R., Hastings, Minn. (S.) (Railway, draw.) COMMERCE.—Influence of br. upon navigation, 78, 969. LEGISLATION.—Br. au. by Minnesota, Feb. 7, 1867, 78, 967. PLANS.—Description of br., 78, 969. Proposed

location for h. br., 78, 970. Of Maj. Warren for extension of sheer booms and the placing of br. signals above bend in R., 78, 970.

MISSISSIPPI R., Itasca County, Minn. (Sp.) (Itasca County br.) Au. act Apr. 21, 1904. PLANS.—Approv. Aug. 19, 1904, 05, 720.

MISSISSIPPI R., point between Kansas City and 5 m. below, Mo. (Sp.) (Randolph & Kansas City Br. Co.) Company au. to constr. br. by act July 23, 1888. PLANS.—For pontoon draw-span br. approv. July 26, 1889, 89, 372.

MISSISSIPPI R., Keithsburg, Ill. (Sp.) LEGISLATION.—Br. au. by act Apr. 26, 1882, 86, 369. PLANS.—After certain modifications the plan and location were approv. by Sec. of War, 86, 369, 2111.

MISSISSIPPI R., Keithsburg, Ill. (Sp.) (Iowa Central Ry. Co.) Au. act Feb. 25, 1909, 90, 313. PLANS.—Reconstr. approv. Apr. 12, 1909, 09, 913.

MISSISSIPPI R., Keokuk, Iowa. (Sp.) (Rail and high way.) COMMERCE.—Influence of br. upon navigation, 78, 1008. ENGINEERS.—Chief of Engineers. Approv. recom. of board, 77, 96, 817. BE. recom., 1876, placing of 1,200' of sheer booms. R., 77, 819, 825. (Cols. Maccomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) LEGISLATION.—Br. au. by act July 25, 1866, 77, 825; 78, 1006, 1089. PHYSICAL CHARACTERISTICS.—Description of R. and valley at locality of br., 78, 1006. PLANS.—Dimensions, 77, 825; 78, 1007. Maj. Warren's R. on plans of br., 78, 1006. Alterations proposed by Maj. Warren, 78, 1009. Proposed location of h. br., 78, 1010.

MISSISSIPPI R., Keokuk, Iowa. (O.) (Keokuk & Hamilton br.) 89, 376. LEGISLATION.—Company failed to comply with the requirements of the notice served on them; matter referred, Apr. 13, 1889, to Atty. Gen. for such action as is required by law, 89, 376. PLANS.—Alterations required by Mar. 31, 1889, 89, 376.

MISSISSIPPI R., La Crosse, Wis. (Sp.) (City.) 90, 336. LEGISLATION.—Au. by act Feb. 23, 1889, 90, 336. PLANS.—Plan and location submitted, and approv. by Sec. of War Sept. 30, 1889, 90, 336.

MISSISSIPPI R., La Crosse, Wis. (Railway.) COMMERCE.—R. R. and city interests described and discussed, 73, 564, 574. Growth of Milwaukee & St. Paul R. R. and of Wisconsin, 73, 576. Influence of br. on navigation, 78, 972. ENGINEERS.—Chief of Engineers. R., 73, 63; transmits papers and copies of acts to Maj. Warren for R., 73, 553. R. on sheer booms for br. ps. of Mississippi R., 77, 96, 817. BE. convened at La Crosse, July, 1872, condemned all the sites thereto proposed, and selected a site at foot of Mount Vernon Street, La Crosse, as most suitable for highway as well as R. R. purposes. R., 73, 563, et seq. Reconvened Sept. 25, 1872, upon decision of Atty. Gen. (regarding the highway reference in act June 4, 1872, 73, 565); board adhered to their orig. decision, which was approv.

by Chief of Engineers and Sec. of War, 73, 572. R., 73, 572. Convened at La Crosse, Wis., Jan. 15, 1875. Recom., 78, 721, 722, 723. R., 78, 721. (Col. Maccomb and Maj. Weitzel and Merrill.) Recom., 1876, placing of 1,000' sheer boom above abutment. R., 77, 819, 822. (Cols. Maccomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) LEGISLATION.—Acts of Congress relating to br. Act July 25, 1866, compared in full with act Apr. 1, 1872, 73, 561. Act Feb. 21, 1868, described, 73, 555. No br. built under this act, 78, 973. Acts Apr. 1, 1872, and June 4, 1872, described, 73, 555. Act June 4, 1872, in full, 73, 563. Opinion of Atty. Gen. regarding reference therein to highways, 73, 570. Various acts relating to br. referred to, 78, 1089, 1091, 1093. PHYSICAL CHARACTERISTICS.—Of La Crosse and region surrounding, 73, 556, 564. Crossings of R. described, 73, 556; 78, 974. PLANS.—Of St. Paul R. R. Co., by J. T. Dodge, filed by A. Mitchell, president, Milwaukee & St. Paul R. R. Co., for br. at Minnesota Isld., 2 m. above La Crosse, crossing the Mississippi and Black Rs., 73, 555. Petition of mayor of La Crosse and president of board of trade, and of governor of Wisconsin, protesting against this location, 73, 555. Letter of J. M. Rusk thereon, requesting a BE., 73, 555. Remarks by Maj. Warren on this plan and site, 73, 557, 560. Location disapprov. by BE., 73, 566. Plan of city of La Crosse for a br. in city, discussed by Maj. Warren, 73, 558; by BE., 73, 566. Plan of Southern Minnesota R. R. Co. for a br. at "Travers de Sioux," 2 m. below the city of La Crosse. Remarks on, by Maj. Warren, 73, 559; by BE., 73, 567. Plan of BE. for a br. at foot of Mount Vernon Street, La Crosse, described, 73, 567. Description of br., 77, 822. Proposed location of h. br., 78, 979. R. of Maj. Warren, 73, 554; 77, 817, 822; 78, 973. SURVEYS.—Maps. Of locality of br., 78, 1126 (Nos. 11 and 12). Diagram of ps., 78, 977.

MISSISSIPPI R., Little Falls, Minn. (Sp.) (City br.) Au. act June 30, 1902. PLANS.—Approv. July 10, 1902, 03, 642.

MISSISSIPPI R., Louisiana, Mo. (Sp.) COMMERCE.—C. and R. R. interests described and discussed by BE., 73, 579. Number of rafts passing the br., 77, 820. Influence of br. upon navigation, 78, 1021. ENGINEERS.—Chief of Engineers. R., 77, 817. BE. convened at St. Louis, Mo., June 21, 1873; reported in favor of site selected, but with modifications of plan, and additions costing \$81,800. R., 73, 578. Approv. by Chief of Engineers, 73, 577. (Col. Simpson and Maj. Weitzel, Merrill, and Allen.) Recom., 1876, that the cribwork or bulkhead above the rest p. be extended upstream 500', and a fixed boom from its upper end 820'. R., 77, 821. (Cols. Maccomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) Approv. by Chief of Engineers, 77, 817. LEGISLATION.—Acts of Congress au. br., Mar. 3, 1871, 77, 826. Acts modifying same, of Apr. 1, 1872, and June 4, 1872, 77, 826; 78, 1018. Acts referred to, 78, 1090. PHYSICAL CHARAC-

TERISTICS.—Description of R. and valley at the locality of br., 78, 1019. **PLANS.**—By E. L. Corthell, chief engineer of Louisiana & Missouri River R. Co., submitted to Sec. of War, 73, 578. Objections to same by BE., 73, 579. Revised by E. L. Corthell, and approv. by Chief of Engineers and Sec. of War, 73, 584. Description of the br., 77, 826; 78, 1019. Accessory works, 78, 1021. Proposed alterations, 78, 1022. Proposed location of h. br., 78, 1024. R. of Maj. Warren, 77, 817; 78, 1018. **SURVEYS.**—Maps. Of locality of br., 78, 1126 (Nos. 28 and 29.) Diagram of ps., 78, 1020.

MISSISSIPPI R. (Sp.) (Lyons & Fulton Br. Co., at Lyons, Iowa.) 90, 337. **LEGISLATION.**—Au. by acts Mar. 2, 1889, and Mar. 15, 1890, 90, 337. **PLANS.**—Plan and location submitted, and approv. by Sec. of War, Apr. 22, 1890, 90, 338.

MISSISSIPPI R., Memphis. (Sp.) (Kansas City & Memphis R. R. & Br. Co.) **ENGINEERS.**—Chief of Engineers. R., 88, 309; 89, 369. BE. convened at Memphis, May 26, 1888, by S. O. No. 26, to ex. and R. upon the plans of the proposed br. across the Mississippi R. at Memphis. Majority R. in favor of a main span of 1,000', 2 other spans of 600' each, and the whole str. to be 75' above h. w., 88, 2517, 2522. (Maj. Ernst, Capt. Kingman, and Capt. Gillette.) Minority R. in favor of a main span of 700', 88, 2521. (Lt. Col. Merrill.) Sec. of War decided in favor of a main span of 770', 88, 2516. **LEGISLATION.**—Au. by act Apr. 24, 1888, 88, 2514, 2525. **PLANS.**—Approv. Aug. 23, 1888, 89, 369.

MISSISSIPPI R., Minneapolis, Minn. (Stone arch.) **ENGINEERS.**—Chief of Engineers. R., 86, 369. BE. convened to consider the effect of such a br. upon the works of the U. S. for the preservation of the Falls of St. Anthony, 86, 2111. The board did not think these works would be jeopardized by the constr. of the proposed br., 86, 2113. (Lt. Col. Poe, Maj. Mackenzie and Allen.) **PLANS.**—An arch br. of st. of 4 spans of 125' each, 86, 2112.

MISSISSIPPI R., near Minneapolis, Minn. (S.) (Chicago, Milwaukee & St. Paul Ry. Co.) **PLANS.**—Reconstr. approv. Aug. 4, 1900, 01, 662.

MISSISSIPPI R., Minneapolis, Minn. (Sp.) (Minneapolis, St. Paul & Sault Ste. Marie Ry. Co.) Au. act Jan. 19, 1905. **PLANS.**—Approv. Mar. 10, 1905, 05, 721.

MISSISSIPPI R., e. chan., Boom Isld. and Minneapolis, Minn. (S.) (Wisconsin Central Ry. Co.) **PLANS.**—Approv. June 22, 1905, 05, 728.

MISSISSIPPI R., slough between Boom Isld. and e. bank, at 5th Avenue, Minneapolis, Minn. (S.) (Wisconsin Central Ry. Co.) **PLANS.**—Approv. Apr. 14, 1903, 03, 650.

MISSISSIPPI R., e. bank to Nicollet Isld. and from Nicollet Isld. to Boom Isld., Minneapolis, Minn. (S.) (Wisconsin Central Ry. Co.) **PLANS.**—Brs. approv. July 24, 1901, 01, 667.

MISSISSIPPI R., 32d Avenue, Minneapolis, Minn. (Sp.) (City br.) Au. act Jan. 19, 1905. **PLANS.**—Approv. Feb. 18, 1905, 05, 721.

MISSISSIPPI R., 42d Avenue, Minneapolis, Minn. (Sp.) (City br.) Au. act Jan. 27, 1912. **PLANS.**—Approv. Mar. 13, 1912, 12, 1297.

MISSISSIPPI R., Plymouth Avenue, Minneapolis, Minn. (Sp.) (City br.) Au. act Jan. 27, 1912. **PLANS.**—Approv. Mar. 15, 1912, 12, 1297, 1298.

MISSISSIPPI R., near Moose Rapids, Minn. (Sp.) (Minneapolis, St. Paul & Sault Ste. Marie R. R. Co.) Au. act Aug. 5, 1909. **PLANS.**—Approv. Oct. 27, 1909, 10, 1020.

MISSISSIPPI R., Minn. (S.) (Eastern Ry. Co.) **PLANS.**—Approv. Apr. 7, 1898, 98, 535.

MISSISSIPPI R., Muscatine, Iowa. (Sp.) **LEGISLATION.**—Br. au. by act Apr. 1, 1872, 78, 1091.

MISSISSIPPI R., Muscatine, Iowa. (Sp.) (Muscatine Br. Co.) **LEGISLATION.**—Au. by act July 16, 1888. **PLANS.**—Plan and location submitted by the company, and approv. by Sec. of War, June 11, 1889, 90, 336.

MISSISSIPPI R., at or near New Orleans, La. **COMMERCE.**—C. interests affected, 90, 3455. **ENGINEERS.**—Chief of Engineers. R., 90, 3453. BE. convened at New Orleans, La., June 14, 1890, by S. O. No. 29, to R. upon the erection of a h. level br. across the Mississippi near New Orleans. No br. should be built at or below the city; one could be built above the city without serious obstr. to navigation. 90, 3454. (Col. Comstock, Lt. Col. Suter, Maj. Ernst and Allen, and Capt. Kingman.)

MISSISSIPPI R. (above and below), New Orleans, La. **COMMERCE.**—C. interests involved, 90, 3451. **ENGINEERS.**—Chief of Engineers. R., 90, 3450. BE. convened at New Orleans, La., Nov. 30, 1889, by S. O. No. 47, to R. upon the question of the erection of brs. across the Mississippi above and below New Orleans. Board R. that any br. across this portion of the R. would be an obstr., and that but 1 br. was needed for R. R. purposes at New Orleans, and that should be located above the city. 90, 3457. (Col. Comstock, Maj. Allen, and Capt. Kingman.)

MISSISSIPPI R., above New Orleans, La. (Sp.) (Southern Br. & Ry. Co.) **LEGISLATION.**—Constr. au. by act Jan. 26, 1893. **PLANS.**—Approv. Apr. 19, 1893, 93, 465.

MISSISSIPPI R., between the mouths of Pine R. and Dean Brook, Minn. (A.) (Crow Wing County br.) **PLANS.**—Replacing existing br. with new str. approv. June 2, 1905, 05, 729.

MISSISSIPPI R., Prairie Du Chien, Wis. (Sp.) (Ponton railway.) **COMMERCE.**—Influence of br. on navigation, 78, 983. **ENGINEERS.**—Chief of Engineers. R., 74, 71. Approv. recom. of board, 77, 96, 817. BE. Sheer booms, 1876. not necessary, 77, 819, 823. (Cols. Macomb and Simpson, Maj. Warren, Farquhar, and Suter,

- and Capt. Allen.) LEGISLATION.—Br. au. by act July 25, 1866, 78, 980. Legalized by act June 6, 1874, 77, 823. Various acts relating to br., 78, 1089, 1093. PLANS.—Description of br., 74, 681; 77, 823; 78, 981. Rs. of Col. Macomb and E. F. Hoffman, 74, 681. Plan of br. designed by J. Lawler, 78, 983. Plan discussed by Maj. Warren, 78, 983. Proposed location of h. br., 78, 983. PHYSICAL CHARACTERISTICS.—Description of R. in vicinity of br., 78, 980. SURVEYS.—Maps. Of locality of br., 78, 1126 (Nos. 13 and 14).
- MISSISSIPPI R.,** between Prairie Du Chien Wis., and North McGregor, Iowa. (Sp.) (Chicago, Milwaukee & St. Paul Ry. Co.) LEGISLATION.—Company au. to reconstr. br. by act Mar. 30, 1898. PLANS.—Reconstr. plans. approv. June 29, 1898, 98, 532.
- MISSISSIPPI R.,** Quincy, Ill. (Sp.) (Railway.) COMMERCE.—Influence of br. upon navigation, 78, 1012. ENGINEERS.—Chief of Engineers. Approv. the recom. of board, 77, 96, 817. BE. recom. a fixed sheer boom 1,000' in length. R., 77, 819, 825. (Cols. Macomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) LEGISLATION.—Br. au. by act July 25, 1866, 78, 1010. Various acts relating to br. referred to, 78, 1089, 1091. PHYSICAL CHARACTERISTICS.—Description of the R. and valley at location of br., 78, 1010. PLANS.—Dimensions of br., 77, 825; 78, 1011. R. of Maj. Warren, 78, 1010. Alterations necessary, 78, 1014. Proposed location of h. br., 78, 1015. Incompatibilities of the law for building drawbrs., 78, 1014. SURVEYS.—Maps. Of location of br., 78, 1126 (Nos. 25 and 26). Diagram of ps., 78, 1011.
- MISSISSIPPI R.,** Quincy, Ill. (Sp.) (Chicago, Burlington & Quincy R. R. Co.) Au. act Apr. 24, 1902. PLANS.—Rebuilding draw span approv. May 3, 1902, 02, 583.
- MISSISSIPPI R.,** Red Wing, Minn. (Sp.) LEGISLATION.—Br. au. by acts July 25, 1866, and June 10, 1872, 78, 1092.
- MISSISSIPPI R.,** Red Wing, Minn. (Sp.) (City br.) LEGISLATION.—City au. to constr. br. by act May 12, 1894. PLANS.—Approv. June 16, 1894, 94, 425.
- MISSISSIPPI R.,** near Royalton, Minn. (Sp.) (Minneapolis, St. Paul & Sault Ste. Marie Ry. Co.) Au. act Feb. 1, 1907. PLANS.—Approv. May 8, 1907, 07, 819.
- MISSISSIPPI R.,** Ill. (Rock Isl. br. over, constr. of). (Sp.) APPROPRIATIONS.—1867, \$200,000, 70, 252. 1869, \$500,000, 70, 253. 1870, \$300,000, 70, 58. 1877, \$15,000 (sheer booms), 77, 145; 78, 97. Total, \$1,015,000. COMMERCE.—Effect of br. on navigation, 77, 824; 78, 1002. CONTRACTS.—Harvey & Livesey, masonry, 71, 299. Annulled for lack of energy, 71, 300. Efforts to obtain damages, 71, 300. Baltimore Br. Co., 3 spans of superstr., \$459,784, 71, 301; contract extended, 71, 302. Satisfactory work done, 72, 279, 292. Fau Claire Lumber Co., constr. of sheer booms at br., 77, 818. Proposals to be invited for plans 1, 2, and 3 of Maj. Warren and for spans of 80, 150, and 190', 70, 262. Specifications on which proposals were based, 72, 286. For superstr.; abstracts of, 71, 301; 72, 287. ENGINEERS.—Chief of Engineers. Rs., 68, 50; 69, 44; 70, 58, 240; 71, 57; 72, 49; 73, 52; 77, 96, 817; 78, 97; 79, 132. Letter of to Maj. Warren, stating objections of Lt. Col. Rodman to location of draw, 70, 229. BE. reported, 1859, that the br. not located or const. with proper regard to the interests of navigation, ps. not of the best form, and improperly placed with reference to direction of currents, 67, 291; 68, 1036. (Capts. Humphreys, Meade, and Franklin.) Board of commissioners au. by Congress, Apr. 19, 1864, 70, 247. Report of, 70, 248. Limited in expend. on br., 70, 253. Control of br. assigned to Engineer Dept., 69, 44. (Brig. Gen. Schofield, J. Barnes, and S. M. Church.) To ex. and R. on the expediency of constr. sheer booms, to be placed at the upper end of all or any br. ps. on the Mississippi R., 77, 821. Recom. the removal of the remains of the old n. p. and the constr. of sheer booms, 77, 819, 824. (Cols. Macomb and Simpson, Maj. Warren, Farquhar, and Suter, and Capt. Allen.) Engineers in charge: Maj. G. K. Warren, 1869-71. R. on brg. navigable waters of the U. S., 68, 315; 78, 900, 991, 1033. Rs., 69, 194; 70, 236, 240, 256. Col. J. N. Macomb, 1871-78. Rs., 71, 256; 72, 279; 73, 415; 78, 710. Maj. F. U. Farquhar, 1878-79. Rs., 78, 710; 79, 1144. Maj. D. W. Flagler (Ordinance), 79, 1144, 1145. Assistants: Capt. W. H. H. Benyaurd, in charge of designs for superstr., 69, 199. Rs., 70, 263; 71, 301; 72, 286. Capt. A. Stickney, in charge of masonry, 69, 199. Rs., 71, 298; 72, 293. Capt. A. H. Burham, in local charge, 73, 416. G. B. Nicholson, inspector of ironwork, 72, 292. E. F. Hoffman. R., 79, 1145. ESTIMATES (see Plans and Projects).—By E. H. Johnson, C. E., of Chicago, Rock Island & Pacific R. R. (made for board of commissioners), for a single-track br., with passage for highway 17' wide, \$1,296,292, 69, 194; 70, 237, 249. By Maj. Warren, on basis and plans of E. H. Johnson, for double-track R. R. and highway br., with approaches, \$2,134,168, 69, 194; 70, 251. Est. saving of plan suggested by Maj. Warren over plan of E. H. Johnson, \$125,966, 69, 195. By Lt. Col. T. J. Rodman, U. S. A., plan No. 1, \$1,234,525; plan No. 2, \$978,085, 70, 257. Plan No. 3, \$934,291, 70, 258. By Maj. Warren, plan No. 2, \$2,187,547, 70, 246, 264. Plan No. 3, \$1,232,356, 70, 246, 266. Cost to U. S. of plan No. 3, \$587,675; cost to R. R. company of plan No. 3, \$694,681, 70, 246. Review of previous ests., 78, 992. EXPENDITURES (see also Financial statements).—On part of U. S. not to exceed \$1,000,000, 70, 253. Relative expense to be borne by U. S. and R. R.

¹ Reversion to Treasury of \$500,000, 70, 58; reappropriated, 71, 256. Congress provides that expenditures on part of the U. S. shall not exceed \$1,000,000, 70, 253. Statements of appropriations, 69, 44; 70, 58, 252, 253; 71, 57, 256.

company, 70, 237, 246. FINANCIAL STATEMENTS.—71, 256, 262; 72, 279, 285; 73, 416; 78, 97, 711; 79, 132, 1145. Payment to U. S. by R. R. company, \$177,320.25, 73, 415. LEGISLATION.—Act June 27, 1866, * * * for estab. of an armory * * * on Rock Isld.; au. Sec. of War to fix location of br., and to grant to the R. R. companies and other parties in interest pecuniary aid toward changing present location of br. and road; action to be under control of board of commissioners, as fixed by act Apr. 19, 1864, 70, 247, 254. Act July 25, 1866, to au. constr. of certain brs.; * * * fixing minimum h. of lower chord above h. w., length of span, and position of ps., 70, 249. Act Mar. 2, 1867, making app. for support of Army and other purposes, \$200,000 provided for the constr. of br. at Rock Isld., 70, 252. Act Mar. 3, 1869, making app. for support of Army and other purposes, \$500,000 provided for constr. of br. at Rock Isld., 70, 253. Act July 20, 1868, in relation to br., au. commencement of, with general provisions and conditions, and providing that the expend. on part of U. S. shall not exceed \$1,000,000, 70, 253, 255. Action of Congress allowed a change to single-track R. R. br. with highway beneath, 70, 239. Various acts relating to constr. of brs., 77, 145, 824; 78, 1089, 1091. OPERATIONS.—1868-69. Work commenced by contract on the Davenport abutment, 69, 198. 1869-70. Progress on substr.; completion of Davenport abutment; constr. of cofferdam at draw pr.; embankment for Davenport wagon road in progress, 70, 224; 71, 298. 1870-71. Completion of ps. Nos. 1, 2, 3, and 4; masonry for pivot p. and Davenport wagon road embankment, 71, 298. Work taken from contractor and prosecuted with hired labor, 71, 300. Operations on superstr. commenced, 71, 301. 1871-72. Removal of r. from draw-span chan. and completion of superstr. May 8, 1872, 72, 291, 295. 1872-73. Final completion and opening of br. and transferment to Ordnance Dept., Feb. 4, 1873, 73, 52, 415. 1877-78. 1,150 l. f. of sheer boom built, 78, 97, 710, 997. 1878-79. Repairs of sheer boom, 79, 132, 1144, 1145. PHYSICAL CHARACTERISTICS.—Of valley of R., 68, 315. Sectional area of natural waterway at location of br., 69, 197; 78, 1001. Velocity of current at br., 69, 197. PLANS (see Estimates and Projects).—For wagon way, width 26', with 2 sidewalks, of 6' each, considered by board of commissioners and rejected as giving pivot p. too great width, 69, 194; 70, 242. By E. H. Johnson, for single-track R. R., truss to be 16' wide, with wagon road (without sidewalks) 17' wide, 69, 194; 70, 237, 241, 249. By Lt. Col. Rodman, U. S. A., as follows: (1) Truss wide enough for double-track R. R. and h. enough for wagon road above R. R., 70, 257; (2) same arrangement of track and road, but only wide enough for single track, 70, 257; (3) same as plan No. 2, but with wagon road below single-track R. R., 70, 258. By Maj. Warren, placing R. R. above wagon road: (1) Truss 33' h., 28' apart, wagon way 28' wide and 12' h., R. R. with double

tracks and 2 sidewalks, to be reached by steps from ends, 69, 195; 70, 244, 262; (2) trusses of same general dimensions as preceding, wagon road 18' wide, with 2 5' sidewalks, double-track R. R. above, 69, 195; 70, 244, 262; (3) single-track R. R., trusses 18' wide, with wagon road beneath 18' wide, and 2 sidewalks (outside of trusses) 5' wide, 69, 195; 70, 244, 262. Maj. Warren recom. plan No. 3, 70, 246. General details of proposed plans, 70, 263. PRIVATE AND CORPORATE WORK. (See Legislation.) PROJECTS (see Estimates and Plans).—Congress, June 27, 1863, au. Sec. of War to fix location of br. and grant pecuniary aid to parties interested, to aid them in changing present location and rebuilding, the details to be under immediate control of board of commissioners, 70, 247, 254. Congress, July 25, 1866, fixing height of lower chord above h. w. on navigable streams; also length of spans and position of ps., 70, 249. Proposition of Chicago, Rock Island & Pacific R. R. Co. as to joint action with U. S., 70, 248. Agreement and guaranty of, 70, 254. Proj. adopted by board of commissioners (Brig. Gen. J. M. Schofield, J. Barnes, and S. M. Church.) The U. S. to build over main chan. a br. with iron draw, the truss to be of proper width for double track, the wagon way to be planked h. enough to leave lower chord for R. R. track, 69, 194; 70, 248. The Chicago, Rock Island & Pacific R. R. Co. to have right of way over same, provided they pay to the U. S. one-half the cost of constr. and mainten. of the part over the main chan., 70, 248, 253; it being provided that in no case shall the expend. on the part of the U. S. exceed \$1,000,000, 70, 253, 256; proj. approv. by Chief of Ordnance. By order of Sec. of War constr. of br. placed under control of Engineer Dept., 69, 44. Modifications of law or plan necessary, 69, 194. Doubt as to details of plan adopted by board of commissioners, 69, 194; 70, 237, 241. Maj. Warren submitted that board est. for single-track R. R. and narrow wagon road, 69, 194; 70, 237, 241. Ps. designed and built so that either double or single track br. could be put on them, 69, 195; 70, 240. Recom. of Chief of Ordnance practically annulled, 70, 243. Proj. of Maj. Warren, an iron br. for single-track R. R. with wagon way beneath; trusses to be 18' apart, wagon way 18' wide and 12' h., with 2 sidewalks 5' wide and outside of truss, 69, 195; 70, 244, 246, 262. Dimensions of br., 71, 301; 72, 287; 77, 824; 78, 1002. Location of axis of br., 69, 196; of draw, 69, 196, 198; 70, 229. Objections by Lt. Col. Rodman, 69, 196; 70, 229. Specifications for superstr., 72, 286, 293. Draw span, details of, 72, 288, 293. Effect of combined R. R. and highway br.; R. R. above highway most desirable, 70, 261. Test and acceptance of br., 72, 291. Completion and transferment to Ordnance Dept., 73, 53, 415. History of, 70, 237, 241; 73, 416; 78, 992, 1002, 1003.

MISSISSIPPI R., Sabula, Iowa. 81, 268, 2016. LEGISLATION.—Br. au. by act Apr. 1, 1872, 81, 268. PLANS.—Requirements of Congress,

81, 2015. Maj. A. Mackenzie reported that the plans and location of br. as proposed by the R. R. company interfered as little as possible with the requirements of navigation, **81**, 2016, 2018.

MISSISSIPPI R. (upper), below Falls of St. Anthony. (See Navigable waters of the U. S.)—P. 2203 this Index.

MISSISSIPPI R., St. Louis, Mo. (Sp.) **COMMERCE**.—Br. a very serious obstr. to navigation, **74**, 641. Names and dimensions of boats which pass the br., **74**, 648. Height of steamboat chimneys, **74**, 654. Importance of completion of the br., **74**, 671. **ENGINEERS**.—Chief of Engineers. **R.**, **74**, 71, 636. **Approv. R. of BE.**, **74**, 637. **BE.** convened at St. Louis, Mo., Sept. 2, 1873. Considered the br. being constr. a very serious obstr. to navigation, **74**, 641. Modification proposed, **74**, 641. **R.**, **74**, 638. Reconvened at St. Louis, Jan. 14, 1874. **Recom. constr.** of a canal behind the e. p., with a draw; est., \$1,172,436, **74**, 650. **Review of first R. of board** by J. B. Eads, **74**, 665. **Reply of board**, **74**, 653. "The substance of Mr. Eads's reply is that the majority of R. steamboats must be rebuilt to conform to his br.," **74**, 662. **Statements of various persons relating to R. of BE.**, **74**, 664, 670, 671, 673, 674. **Personal statement of Col. J. H. Simpson** in reply to Mr. Eads, **74**, 675. **Of Maj. G. K. Warren**, **74**, 678. **Rs. of board** referred to, **78**, 1077. **Sec. of War approv. R. of board**, **74**, 638. (Col. Simpson and Maj. Warren, Weitzel, Merrill, and Suter.) **LEGISLATION**.—Br. au. by act July 20, 1868, **74**, 637, 643. Various acts relating to the br. referred to, **78**, 1089, 1090, 1091, 1093. **PHYSICAL CHARACTERISTICS**.—Description of the R. and valley at locality of br., **78**, 1024. **H.-w. records**, **74**, 644, 645, 646. **Duration of each stage**, **74**, 648. **PLANS**.—Plan and est. of J. B. Eads, **78**, 1060. **Description of brs.**, **78**, 1025. **Review of Mr. Eads's est.**, **78**, 1028. **R. of Maj. Warren** upon br., **78**, 1024. **Description of proposed modifications of plans**, by **BE.**, **74**, 650. **History of br.**, **78**, 1055. **Designs of brs. proposed** by J. A. Roebling, C. E., **78**, 1078. **Sources of information concerning br.**, **78**, 1078.

MISSISSIPPI R., St. Louis, Mo. **R. of board** of 1886. Board decidedly of opinion that a low br. with a draw should not be au. below the mouth of the Missouri R., **87**, 338, 2638.

MISSISSIPPI R., St. Louis, Mo. (St. Louis Merchants' Br. Co.) **LEGISLATION**.—Company au. to constr. br. by act Feb. 3, 1887. Amended act Sept. 10, 1888. **PLANS**.—**Approv.** Nov. 14, 1888, **89**, 369.

MISSISSIPPI R., St. Louis, Mo. (Sp.) (St. Clair & Carondelet Br. Co.) **COMMERCE**.—Navigation of the Ohio compared with the Mississippi R., **75**, ii, 680. **ENGINEERS**.—Chief of Engineers. **R.**, **75**, 121. **Approv. report** of board, **75**, ii, 677. **BE.** convened at St. Louis, Mo., Aug. 3, 1874. **Recom.**—1. Acceptance of site No. 2, on certain conditions. 2. Prohibition of an arched br. 3. Reduction of chan. openings to 450'. 4. Constr. of a draw, **75**, ii, 681. **Comparison with other brs.**, **75**, ii, 680.

R., **75**, ii, 678. **Approv. by Sec. of War**, **75**, ii, 677. (Col. Simpson and Maj. Merrill and Suter.) **LEGISLATION**.—Br. au. act Mar. 3, 1873, **75**, ii, 678. Various acts relating to the br., referred to, **78**, 1070, 1093. **PLANS**.—Description of plans, **75**, ii, 678.

MISSISSIPPI R., Salisbury Street, St. Louis, Mo. (Sp.) (St. Louis Electric Br. Co.—McKinley Br.) Au. act Feb. 15, 1907. **PLANS**.—**Approv.** July 5, 1907, **08**, 866.

MISSISSIPPI R., St. Louis, Mo. (Sp.) (City br.) Au. act June 25, 1909. **PLANS**.—**Approv.** Dec. 17, 1908. **Modified plans approv.** May 20, 1909, **09**, 913.

MISSISSIPPI R., St. Paul. **COMMERCE**.—Influence of br. upon navigation, **78**, 967. Formerly a toll br., **78**, 967. **PLANS**.—Description of br., **78**, 965. Maj. Warren's **R.** on plan of br., **78**, 965. **SURVEYS**.—Maps. Of locality of br., **78**, 1126 (No. 6). **Diagram of ps.**, **78**, 966.

MISSISSIPPI R., St. Paul, Minn. (S.) (Railway.) **COMMERCE**.—Influence of br. upon navigation, **78**, 965. Br. opened for travel in 1869, **78**, 963. **Damages by collision** with ps., decisions of the U. S. Supreme Court, **78**, 1019. **LEGISLATION**.—Br. au. by act Legislature of Minnesota, Feb. 20, 1855, **78**, 963. **PHYSICAL CHARACTERISTICS**.—Description of R. near location of br., **78**, 963. **PLANS**.—Description of br., **78**, 963. **Proposed location of h. br.**, **78**, 963. Maj. Warren **recom. br. company** be compelled to imp. R. above the br., **78**, 965. **R.**, **78**, 964. **SURVEYS**.—Maps. Of location of br., **78**, 1126 (No. 5).

MISSISSIPPI R., St. Paul, Minn. (Sp.) (City br.) **LEGISLATION**.—City au. to constr. br. by act July 5, 1884; amending act Aug. 29, 1890. **PLANS**.—**Approv.** Dec. 17, 1890, **91**, 430.

MISSISSIPPI R., South St. Paul, Minn. (Sp.) (South St. Paul Belt R. R. Co.) **94**, 425; **95**, 474. **LEGISLATION**.—Company au. to constr. br. by act Apr. 26, 1890; amended by acts Feb. 24, 1891; Feb. 15, 1892; and Feb. 15, 1893, **94**, 425. **PLANS**.—Submitted Dec. 7, 1893; modified Jan. 16, 1894; approv. Feb. 7, 1894, **94**, 425. **Revised plans submitted** Oct. 12, 1894; approv. Nov. 1, 1894, **95**, 474.

MISSISSIPPI R., St. Paul, Minn. (Sp.) (St. Paul Br. & Terminal Ry. Co.) Au. act Dec. 18, 1908. **PLANS**.—**Approv.** Feb. 16, 1909, **09**, 913.

MISSISSIPPI R., St. Paul, Minn. (Sp.) (Chicago Great Western R. R. Co.) Au. Feb. 15, 1911. **PLANS**.—For replacing existing str. approv. May 24, 1911, **11**, 1081. **Modified plans approv.** May 17, 1912, and instrument dated May 24, 1911, canceled, **12**, 1298.

MISSISSIPPI R., Thebes, Ill., and Grays Pt., Mo. (Sp.) (Southern Illinois & Missouri Br. Co.) Au. act Jan. 26, 1901. **PLANS**.—**Approv.** Jan. 16, 1902. **Modified plans for increased length of clear span approv.** Mar. 17, 1902, **02**, 582.

MISSISSIPPI R., Warsaw, Ill. (Sp.) **LEGISLATION**.—Br. au. act May 17, 1872, **78**, 1091, 1092.

MISSISSIPPI R., Winona, Minn. (Sp.) (City br.) LEGISLATION.—City au. to constr. br. by act Sept. 25, 1890. PLANS.—Approv. June 4, 1891, 91, 431.

NAVIGABLE WATERS OF THE UNITED STATES, BRIDGING. (See also Topical Index.) COMMERCE.—List of brs., and of brs. au. over the Mississippi R., 73, 575. List of apps. for Rs. and Hs. in Mississippi Valley, and for all Rs. and Hs., 73, 576. All brs. are obstrs., 74, 585. Right of way belongs to navigation, and draws should stand open when not in use, 74, 586. Agriculture the only industry not protected by the U. S., but rather injured by the overproduction stimulated by the homestead land policy; the only help is cheap transportation, 74, 608. General requirements of western R. navigation, 78, 926. Statement of losses by collision with the ps. of brs. on the Ohio R., 71, 429. Signals at draws, plan for, 73, 583; 78, 723; objections to, 73, 585. Power of Congress to protect, 82, 1980. List of brs. on Upper Mississippi which impede C., 82, 1981. Importance of coal interests on the Ohio R. and the requirements of its C., 82, 2005. Obstr. to

navigation on Chippewa R., Wis., from existing brs., 82, 1811. Dimensions of coal and grain tows on the Mississippi R., 88, 2380, 2381. Testimony before the board in regard to dimensions of tows and desirable dimensions of chan. spans, 88, 2397, 2398, 2400, 2404, 2406, 2408, 2409, 2410. ENGINEERS.—Chief of Engineers Rs., 88, 307, 2371; 00, 40. BE. R. of 1888, relative to constr. of certain brs. across the Missouri, Mississippi, and Illinois Rs. Rs., 88, 2374 (Lt. Col. Suter, and Maj. Mackenzie, Miller, and Handbury); 88, 2383 (Lt. Col. Suter and Maj. Miller). Constituted by S. O. No. 7, Feb. 3, 1900, to consider and R. upon the House bill 1065, 56th Cong., 1st sess., "to authorize the constr. of brs. across the Ohio, Monongahela, Mississippi, Great Kanawha, Tennessee, Cumberland, and Illinois Rs., and prescribe the dimensions of the same." R., 00, 5103. (Lt. Col. M. B. Adams, Maj. C. F. Powell, J. H. Willard, W. H. Bixby, and D. C. Kingman; and Capt. H. F. Hodges and E. Burr.) GENERAL CONSIDERATIONS.—Object, to secure interests of navigation, 73, 559. Number of brs. can not be limited, nor their details controlled, except as regards needs of navigation, 73, 559. Drawbrs. v. h. brs. discussed by Maj. Warren, 73, 560. General subjects of concession to R. Rs. discussed by BE., 73, 574. Bad results to navigation from legislation, such as that au. br. at Kansas City, discussed by Capt. Suter, 69, 306. Discussion of the greatest length of span practicable, by Maj. Warren, 78, 1063, 1065. Names and dimensions of the largest boats on the Mississippi R., 78, 929. Discussion on headway required under brs. on the Mississippi R., 78, 934. Grades and curvatures upon brs. and approaches, 79, 149, 1461. Maj. Warren's R. on br. the Mississippi R., 78, 900-1125. List of brs. au. on the Missouri R. but not built, 78, 1088. List of brs. on the Ohio, 78, 1086. List of brs. on the Mississippi R. from St. Paul, Minn., to St. Louis, Mo., 78, 1028. Of navigation through brs. over Upper Mississippi R., 82, 1979. Power of Congress to protect navigation, 82, 1980. Necessity for changes in laws relating to brs. across the Ohio R., 82, 1813, 2002. General considerations at special localities, 80, 199, 1849; 81, 267, 2009; 82, 262, 1989; 83, 271, 1591; 84, 269, 1769; 85, 292, 1917; 86, 369, 2111; 87, 337, 2613. LEGISLATION (see BE.).—By Wisconsin and Minnesota au. brs. over navigable part of Wisconsin, Mississippi, and Minnesota Rs., 73, 558. No au. from Congress for 3 brs. over the Mississippi at Hastings and St. Paul, 73, 568. Au. of Congress required before War Dept. can au. or forbid the constr. of a br., 76, ii, 298. Passage for highways to be a part of all brs. built after act

- June 4, 1872, **73**, 565, 569; not so considered by Atty. Gen., **73**, 570. Abstracts of debates in Congress attending the legalization of brs. across the Mississippi R., **78**, 1041. Decisions of U. S. Supreme Court relating to damages, **78**, 1079. Riprap considered as an obstr. to navigation on the Ohio, H. Doc. 41, 43d Cong., 2d sess. Amendment of existing laws proposed by BE. for constr. of brs. over the Ohio, **71**, 454, 455. Act of Congress, July 11, 1870, constituting BE. for ex. of brs. on the Ohio, **71**, 426. R., Newport & Cincinnati R. R. (as commenced), Newport & Cincinnati R. R. (as altered), Covington and Cincinnati (highway), Louisville R. R., Paducah R. R. **R.**, **79**, 1463.

OHIO R. (Dr.) **02**, 581.

OHIO R., brs. over, impeding safe and convenient navigation. The R. and H. act approv. June 13, 1902, contains the following item: "The Sec. of War is au. and directed to prepare a list of the brs. upon the Ohio R. which are an impediment to safe and convenient navigation, and the nature and extent of the modifications required in each of them, and **R.** the same to Congress, together with information as to whether necessary changes in said brs., or any of them, can be secured under existing law, and if not, what legislation is necessary in order to secure proper changes or modifications in said brs., respectively, and an est. of the cost thereof on each br.: Provided, That the Atty. Gen. is au. and directed to furnish, upon the request of the Sec. of War, an opinion upon the question whether the owners of these brs., or any of them, can be required, under existing laws, to make the necessary changes at their own expense, and, if further legislation is required, whether by such legislation the owners of such brs., or any or either of them, can be required to make such changes and modifications at their own expense, or whether such changes or modifications, or any or either of them, must be borne by the U. S., which opinion shall accompany the **R.** of the Sec. of War to Congress." The duty of preparing the required information was duly assigned to the local officer having charge of the general imp. of the R., and it is expected that **R.** on the subject will be received in time for consideration by the Atty. Gen. and transmission to Congress at its next session. **03**, 37. **R.** by Col. G. Lydecker, together with copy of an opinion dated July 15, 1904, furnished by Atty. Gen. in pursuance of the law. List of brs. which are considered impediments to safe and convenient navigation. **04**, 2433.

OHIO R., between Allegheny City and Borough of McKees Rocks, Pa. (Sp.) (Western Br. Co.) Au. act Apr. 30, 1902. PLANS.—Approv. Feb. 5, 1903, **03**, 644.

OHIO R., Beaver, Pa. (Sp.) (Pittsburgh & Lake Erie R. R. Co.) ENGINEERS.—Chief of Engineers. **R.**, **78**, 110, 891, 895; **80**, 199, 1849; **84**, 269, 1787; **87**, 338, 2659. BE. convened at Pittsburgh, Pa., Aug., 1877. Recom., **78**, 894. **R.**, **78**, 892. Approv. by Chief of Engineers and Sec. of War, **78**, 893, 896. (Col. Simpson, Majs. Weitzel and Merrill.) Convened in 1883 to ex. questions at issue with a view of avoiding legislation, **84**, 269. Br. an obstr. to navigation; failure to effect satisfactory arrangements with the company for the correction of the evil, **84**, 1786; **87**, 2655. (Lt. Cols. Craighill and Weitzel and Maj. Mackenzie.) LEGISLATION.—Executive requirements, **80**, 199, 1849; **87**, 2655. Company au. to constr. br., under acts Dec. 17, 1872, and Feb. 14, 1883, **89**, 371. PLANS.—Proposed by R. R. company; modification of, by BE., **78**, 894. R. R. company required to build in connection with the br. a dike for the protection of navigation, **80**, 199, 1849. Maj. Merrill **R.** that such dike not built, **80**, 1849. Dept. of Justice decided that the U. S. powerless to compel R. R. company to build dike, **80**, 1852. Subsequent changes of opinion, **84**, 1787, 1788; **87**, 2655. Submitted Nov. 26, 1888, to rebuild a part of the superstr. approv. Mar. 25, 1889, on specified conditions, which were accepted by the company Feb. 28, 1889, **89**, 371. Rebuilding considered by a BE. and approv. Oct. 29, 1907, **08**, 866. SURVEY.—Map. Location of br., **78**, 892.

OHIO R., Bellaire, Ohio. (Sp.) (R. R.) COMMERCE.—Serious accident by collision with ps., **71**, 403, 411. Losses by collision with ps., \$60,500, **71**, 411, 429. ENGINEERS.—BE. recom., 1870, no change, and commended the excellent manner of constr., **71**, 411. **R.**, **71**, 408, 425. (Majs. Warren, Weitzel, and Merrill.) LEGISLATION.—Br. au. by act July 14, 1862, **71**, 408. Act July 11, 1870, constituting BE., **70**, 67; **71**, 61, 426. PLANS.—Description of br., **71**, 408.

OHIO R., between Bellaire, Ohio, and Benwood, W. Va. (Sp.) (Bellaire, Benwood & Wheeling Br. Co.) LEGISLATION.—Au. by act Dec. 17, 1872; and plans referred to BE., as required by act Feb. 14, 1883, sec. 4, **98**, 531. PLANS.—Submitted Feb. 16, 1897. BE. recom., Apr. 23, 1897, chan. span 800' long and 90' above l. w.; modified plans in accordance submitted Apr. 22, 1898; approv. May 26, 1898, **98**, 531. Plans conforming to requirements of BE. approv. June 14, 1901, **01**, 660, 661. Br. not completed within the time limit. Plans reapprov. Apr. 21, 1904, **04**, 712. Plans reapprov. Nov. 29, 1905, and plans in lieu thereof approv. Apr. 20, 1906, **06**, 800. Plans reapprov. Apr. 24, 1907, **07**, 819.

OHIO R., Cairo, Ill. (Sp.) COMMERCE.—Dimensions of Ohio R. steamers, **86**, 2121. Protests of C. interests against the br., **86**, 2130. ENGINEERS.—Chief of Engineers. **R.**, **86**,

- 369, 2127. **BE.** **R.** adversely to a draw and recom. clear headway of 53' above h. w., **86**, 2127. (Lt. Cols. Abbot and Poe, and Maj. Mackenzie and Allen.) **LEGISLATION.**—Au. by acts Dec. 17, 1872, and Feb. 14, 1883, **86**, 370. **PLANS.**—Proposed by br. company considered inadmissible by **BE.**, **86**, 2127. Recom. of **BE.**, **86**, 2127. Concurred in by Chief of Engineers.

- OSWEGO R.**, Oswego, N. Y. (S.) (New York Central & Hudson River R. R. Co.) **PLANS**.—Reconstr. approv. June 27, 1911, 11, 1090.
- OTTAWA R.**, Ohio. (S.) (Toledo, Ottawa Beach & Northern Ry. Co.) **PLANS**.—Approv. Feb. 23, 1911, 11, 1087.
- OUACHITA R.**, Ark. (Sp.) (Rock Island, Arkansas & Louisiana R. R. Co.) Au. act Dec. 15, 1905. **PLANS**.—Approv. Jan. 11, 1906, 06, 799.

OUACHITA R., between Ashley and Union Counties, Ark. (Sp.) (Eldorado & Bastrop Ry. Co.) Au. act Mar. 24, 1902. PLANS.—Approv. Oct. 9, 1902, **03**, 643.

OUACHITA and ARKANSAS RS., Camden and Pine Bluff, Ark. (Sp.) **83**, 271, 1606. LEGISLATION.—Br. au. act June 27, 1882, **83**, 271. PLANS.—Description of, **83**, 1605. Location of br. 10 m. below point specified in act June 27, 1882, **83**, 1606. Brs. partly completed before passage of act, **83**, 1607. Draw-span openings across Ouachita R. only 110' in place of 130', as required, **83**, 1607. Recom. by Capt. Handbury, that the matter of the length of drawbr. opening be allowed to remain in abeyance, **83**, 1608. Approv. by Sec. of War, **83**, 1610.

OUACHITA R., Camden, Ark. (Sp.) (Ouachita County br.) Au. act Mar. 2, 1911. PLANS.—Approv. Nov. 24, 1911, **12**, 1297.

OUACHITA R., near Columbia, La. (Sp.) (Houston, Central Arkansas & Northern R. R. Co.) LEGISLATION.—Company au. to constr. br. by act Aug. 6, 1888; amending act Aug. 18, 1890. PLANS.—Amended plan approv. Nov. 25, 1890, **91**, 430.

OUACHITA R., at Columbia, Caldwell Parish, La. (Sp.) (Caldwell Parish br.) Au. act Jan. 18, 1905. PLANS.—Approv. Apr. 27, 1905, **05**, 721.

OUACHITA R., Desiard Street, Monroe, La. (Sp.) (City br.) LEGISLATION.—City au.

to constr. br. by act Feb. 8, 1897, **97**, 530. PLANS.—Approv. July 2, 1897, **97**, 530. Plans for constr. of timber cribwork between Monroe City br. and the Vicksburg, Shreveport & Pacific Ry. br., submitted Sept. 6, 1897; approv. Sept. 18, 1897, **98**, 531.

OUACHITA R., Monroe, La. (S.) (Vicksburg, Shreveport & Pacific Ry. Co.) PLANS.—Reconstr. approv. July 19, 1906, **07**, 820.

OUACHITA R., between town of Ouachita and mouth of Bayou Loutre, La. (Sp.) (Little Rock & Monroe Ry. Co.) Au. act Feb. 26, 1904. PLANS.—Approv. May 24, 1904, **04**, 712.

OVERPECK CREEK, Little Ferry, N. J. (S.) (West Shore R. R. Co. and New York Central & Hudson River R. R. Co.) PLANS.—Reconstr. approv. Feb. 7, 1902, **02**, 587.

OVERPECK CREEK, Ridgefield, N. J. (S.) (Bergen Turnpike Co.) PLANS.—Approv. Aug. 29, 1901, **02**, 584.

OVERPECK CREEK, Ridgefield Park, N. J. (O.) (New York, Susquehanna & Western R. R. Co.) PLANS.—Alterations to be completed on or before July 1, 1907, **07**, 829.

OYSTER R. (See Stony Creek, Conn.)

OYSTER CREEK, near Keyport, N. J. (O.) (Monmouth County br.) PLANS.—Alterations to be completed on or before 6 months from May 3, 1906, **06**, 809.

P.

PABLO CREEK, Fla. (O.) (Duval County br.) PLANS.—Br. to be raised 3', and to have a 25' opening on or before Sept. 1, 1899, **99**, 625.

PABLO CREEK, Fla. (O.) (Jacksonville & Atlantic Ry. Co.) PLANS.—Br. to be raised 3', and to have a 25' opening, on or before Sept. 1, 1899, **99**, 625.

PABLO CREEK, Fla. (O.) (Jacksonville, Mayport & Pablo Ry. Co.) PLANS.—Br. to be raised 3', and to have a 25' opening, on or before Sept. 1, 1899, **99**, 625.

PABLO CREEK, Duval County, Fla. (O.) (Duval County br.) PLANS.—Alterations to be completed on or before 4 months from May 1, 1909, **09**, 920.

PABLO CREEK, in Duval County, Fla. (S.) (Florida East Coast Ry. Co.) PLANS.—For alteration of central br. approv. Aug. 4, 1909, and modification thereof approv. Apr. 7, 1910, **10**, 1029.

PABLO CREEK (cut-off or canal connecting portions of it), Fla. (S.) (Florida East Coast Ry. Co.) PLANS.—Approv. Apr. 28, 1911, **11**, 1088.

PACHECO, ALHAMBRA, and CODELIA SLOUGHS, Cal. (S.) (Southern Pacific R. R. Co.) PLANS.—Reconstr. plans for brs. at these places approv. May 1, 1899, **99**, 622.

PAMLICO R., N. C. (A.) (1 R. R. and 3 county brs.) PLANS.—R. R. and 3 county brs. slightly interfere with navigation; would probably be provided with draws, should C. demand it, **89**, 2796.

PALIX R. (sec. 15, T. 13 N., R. 10 W., Willamette meridian), Wash. (S.) (Pacific County br.) PLANS.—Approv. June 2, 1911, **11**, 1089.

PAMLICO R., Washington, N. C. (S.) (Raleigh & Pamlico Sound R. R. Co.) PLANS.—Approv. Mar. 23, 1906, **06**, 805.

PAMLICO (Tar) R., Washington, N. C. (S.) (Beaufort County br.) PLANS.—Rebuilding approv. Nov. 16, 1907, **08**, 871.

PAMUNKEY R. and MABSCO CREEK, Va., White House. (A.) (Richmond & Danville and Alexandria & Fredericksburg R. R. Cos.) PLANS.—Draws too narrow, and vessels passing are swept against the sides, **88**, 2621.

PAMUNKEY R., New Castle Ferry, Va. (S.) (King William County br.) PLANS.—Modified plans approv. May 20, 1899, **99**, 622, 623.

PANTEGO CREEK. (See Pungo Creek.)

PARADISE CREEK, Va. (Dr.) **02**, 581.

PARSONAGE CREEK, near Baldwins, Long Isld., N. Y. (O.) (Hempstead town br.) PLANS.—Alterations to be completed on or

before 1 month from July 1, 1904; subsequently extended 6 months, **04**, 723. Alterations to be completed on or before 2 months from May 31, 1906, **06**, 809.

PASCAGOULA R., Jackson County, Miss. (S.) (Mobile, Jackson & Kansas City R. R. Co.) PLANS.—Approv. Sept. 10, 1895, **96**, 424.

PASCAGOULA R., Merrill, Miss. (S.) (Mobile, Jackson & Kansas City R. R. Co.) PLANS.—Modified plans approv. Sept. 9, 1901, **02**, 585.

PASCAGOULA R., Miss. (Dr.) **06**, 797; **08**, 865.

PASQUOTANK R., N. C. (S.) (Norfolk & Southern R. R. Co.) PLANS.—Rebuilding approv. Mar. 7, 1902, **02**, 587.

PASQUOTANK R., at Elizabeth City, N. C. (S.) (Camden Ferry Co.) PLANS.—Approv. Feb. 24, 1910, **10**, 1027.

PASSAGASSAWAUKEAG R., Belfast, Me. (S.) (Northern Maine Seaport Ry. Co.) PLANS.—Approv. June 27, 1905, **05**, 728.

PASSAIC R., N. J. (Dr.) **10**, 1019.

PASSAIC R., N. J. (S.) (New York Bay R. R. Co.) PLANS.—Approv. Mar. 31, 1900, **00**, 701.

PASSAIC R., N. J., and **NEWARK B.**, N. J. (Dr.) **02**, 581.

PASSAIC R., N. J. (S.) (Newark Plank Road Co.) PLANS.—Rebuilding approv. Apr. 11, 1901, **01**, 666.

PASSAIC R., N. J. (S.) (Central R. R. of New Jersey.) PLANS.—Approv. June 19, 1911. Temporary br. for use during reconstr. of existing br. approv. July 7, 1911, **12**, 1299. Instrument canceled Mar. 22, 1912. New plans approv. Mar. 22, 1912, **12**, 1306.

PASSAIC R., Avondale, N. J. (S.) (Br. of Bergen and Essex Counties.) PLANS.—Rebuilding approv. Mar. 12, 1904, **04**, 717.

PASSAIC R., Delawanna, Rutherford, and Lyndhurst, N. J. (O.) (Br. of Passaic and Bergen Counties.) PLANS.—Alterations to be completed on or before 3 years from June 29 and 30, 1906, **06**, 810.

E. **Rs.**, **82**, 2014, 2022, 2027. Lt. Col. P. C. Hains. **Rs.**, **87**, 898. LEGISLATION.—Br. au. by act Feb. 23, 1881, Congress app. \$140,000 therefor, **82**, 2012. Purchase of Aqueduct Br. au. at \$85,000, but found to be impracticable, **82**, 2012, 2018. Recom. legislation, **86**, 931; **87**, 899. Act June 21, 1886, providing for purchase and reconstr. of br., **87**, 899. PLANS.—Location discussed, **82**, 2015,

2023. Requirements of brs., **82**, 2024, 2027, 2033. Proposals received, **82**, 2023, 2026. Est. of cost, **82**, 2032. General description of Aqueduct Br. completed in 1868, **86**, 932; **87**, 898. Plans of new br., **87**, 902-908.

POTOMAC R., Little Falls. (Iron.) APPROPRIATIONS.—1872, \$100,000, **73**, 1159. CONTRACTS.—1872. S. R. Dickson, iron br. (bid within limit of app.), **73**, 1159. Contract annulled, **74**, ii, 392. 1873. Clark, Reeves & Co., br., **74**, ii, 392. ENGINEERS.—Engineers in charge: Col. O. E. Babcock, 1873-77. **Rs.**, **73**, 110, 1159; **74**, ii, 392; **75**, ii, 813; **77**, ii, 1070. Lt. Col. T. L. Casey, 1880. **R.**, **80**, 2342. Col. A. F. Rockwell, 1881-84. **Rs.**, **81**, 2715; **82**, 2738; **83**, 2101; **84**, 2346. Lt. Col. J. M. Wilson, 1885-86. **Rs.**, **85**, 2509; **86**, 2085. OPERATIONS.—1873. Old wooden span of this br. removed by Canal Co., **73**, 1159. 1873-74. Br. constr., **74**, ii, 392. 1874-75. 1,504' hand-rail placed and br. painted, **75**, ii, 813. 1880. Br. painted and roadway removed, **80**, 2342. 1881-82. Extensive repairs made, **81**, 2715; **82**, 2738. 1882-83. Guard timbers renewed and painted, **83**, 2101. 1884-86. Repairs made, **84**, 2346; **85**, 2509; **86**, 2085.

POTOMAC R., Shepherdstown, W. Va. (Sp.) (Norfolk & Western R. Co.) Au. act Feb. 5, 1907. PLANS.—Approv. June 26, 1907, **07**, 819.

POTOMAC R., Washington, D. C. (Memorial Br.) APPROPRIATIONS.—1899, \$5,000, **99**, 3779 (sur.). ENGINEERS.—Chief of Engineers. **Rs.**, **86**, 892; **98**, 540; **99**, 42, 627; **00**, 43, 704. BE. constituted by S. O. No. 30, Feb. 5, 1900, to consider and report upon the relative merits of the plans submitted for a br. to be constr. over the Potomac R. at Washington, D. C., as a memorial to American patriotism. **R.**, **00**, 5127. (Lt. Col. C. J. Allen, Maj. T. W. Symons, Capt. D. D. Gaillard, and S. White and Jas. G. Hill.) Engineers in charge: Maj. P. C. Hains, 1885, 1890. **Rs.**, **86**, 892; (Lt. Col.) **90**, 1045. Lt. Col. C. J. Allen, 1898-. **Rs.**, **98**, 3573; **99**, 3779; **00**, 5125. PHYSICAL CHARACTERISTICS.—Description of borings for site of br., **98**, 3576. PROJECTS.—Maj. Hains est., 1886, it would cost \$609,543 or \$650,000 to build a br. over the Potomac R., **86**, 895. Capt. Symons est., 1886, \$1,000,000 or \$1,500,000 to build a br. over the Potomac R. from Observatory Hill to Arlington, **86**, 896. Lt. Col. Hains est., 1890, \$3,591,000 to build a suspension br. at the place designated, **90**, 1047. Maj. Davis est., 1892, \$803,990 to constr. a br., plans similar to the ones prepared by Col. Hains, 1896, **98**, 3592. Lt. Col. Allen est., 1898, \$1,385,000 to build the br. at the place designated, **98**, 3598. Description of the main features of the various designs submitted for a memorial br., **00**, 5134-5142. BE., 1900, est. \$4,860,000, or 32% more than Mr. Burr's est. (\$3,680,672), by adopting Mr. Burr's design, with certain recom. and modifications, for a memorial br. across the Potomac R., **00**, 5146. SURVEYS.—Ex. as to the wisdom of constr. a U. S. br. with a suitable draw and approaches, from

¹ District of Columbia.

a point at or near the foot of New York or New Hampshire Avenue, on the public grounds, across the Potomac R. and Annapolis Isld. to a point on the U. S. National Cemetery grounds at Arlington, with est., au. by Senate resolution May 24, 1886; **R.** made, 1886, by Maj. Hains (see Projects), **86**, 893. **Ex.** in regard to the most suitable kind of br. from foot of New York Avenue across the Potomac R. to Arlington, with est., au. by Senate resolution Feb. 20, 1890; **R.** made, 1890, by Lt. Col. Hains (see Projects), **90**, 1045. Under Senate bill 796, secs. 2 and 3, 52d Cong., 1st sess., Dec. 14, 1891, Maj. Davis was ordered to give his views in reference to the plans and specifications, and submit plan of the proposed br. between U. S. Naval Observatory grounds and Arlington estate property (see Projects), **98**, 3592. Necessary surs., soundings, and borings, and securing designs and ests. for a memorial br. from the most convenient point of the Naval Observatory grounds, Washington, D. C., or adjacent thereto, across the Potomac R. to the most convenient point of the Arlington estate property, Va., au. act June 4, 1897; made, 1898, by Lt. Col. Allen (**R.** fav. to a further study of the subject; see Projects), **98**, 3574. History of previous ex. for a memorial br., **98**, 3590. Continuing ex. for a memorial br. across the Potomac R., and making or securing designs, calculations, and ests. for same, from the most convenient point of the Naval Observatory grounds or adjacent thereto across the Potomac R. to the most convenient point of the Arlington estate property, au. act Mar. 3, 1899, **99**, 3779. Maps. **90**, 1046.

POTOMAC R., "Three Sisters," near Washington, D. C. (Sp., etc.) (Washington & Arlington Ry. Co.) **LEGISLATION**.—Company au. to constr. br. by act Feb. 28, 1891, **92**, 405. **PLANS**.—Approv. Apr. 27, 1892, **92**, 405.

POTOMAC R., Washington, D. C. (Sp.) (Baltimore & Potomac R. R. Co.—Long Br.) Au. act Feb. 12, 1901. **PLANS**.—Constr. of br. to replace existing str. approv. Oct. 25, 1901, **02**, 582.

POTOMAC R., between Long Br. and Aqueduct Br., Washington, D. C. (Sp.) (U. S. highway br.) Au. acts Feb. 12, 1901, and July 1, 1902. **PLANS**.—Location approv. Aug. 1, 1902, and plans approv. Jan. 13, 1903, **03**, 643.

POTOMAC R., E. Branch of the. (A.) **APPROPRIATIONS**.—1887, \$110,000, **87**, 913. 1888, \$60,000, **88**, 798. Total, \$170,000. **CONTRACTS**.—1887. Broton Br. & Mfg. Co., br. constr., \$105,000, **88**, 795. 1890. W. Rothwell, watchman's house, \$333; guard fence, \$1.96 per s. y.; painting through spans, \$549, and wooden sidewalk constr., \$1.10 per l. f., **90**, 1050. W. H. Mohler, slope paving, \$2 per s. y.; curbing, \$1.48 per l. f.; gutters, 45¢ per s. y.; and riprap, 80¢ per c. y., **90**, 1050. **ENGINEERS**.—Chief of Engineers. **Es.**, **87**, 105, 340, 917; **88**, 106; **89**, 123; **90**, 110. **BE.** convened by S. O. No. 61, C. of E., 1887, to consider br. the E. Branch of the Potomac R. **R.**, **87**, 923. (Lt. Cols. Wilson and Hains and Maj. Lydecker.) Engineer in charge: Lt. Col. P. C. Hains, 1887-90. **Es.**, **87**, 911; **88**, 795, 798; **89**,

90; **90**, 1048. **LEGISLATION**.—Alterations in plan of br. au. by act May 14, 1888, **88**, 797. **OPERATIONS**.—1887-88. Work begun on e. approach. Operations suspended pending settlement of controversy with Baltimore & Potomac R. R. Co. **88**, 796. 1888-89. Operations resumed under amended plan, **89**, 992, 993. 1889-90. Br. completed; unexpended balance, \$14,000, used for necessary work not contracted for, **90**, 1049. **PROJECTS**.—Description of br., **87**, 912, 915, 918, 924; **88**, 796. **SURVEYS**.—Maps. **89**, 992.

POTOMAC R., Powder Mill Branch. (Wooden br.) 1878. Br. having been washed away, was towed back and replaced, **78**, ii, 1351.

POTSBURY CREEK, Fla. (0.) (St. Johns County br.) **PLANS**.—Specified alterations required on or before June 1, 1894, were completed, **94**, 431.

POUTEAU R. (See Petit Jean R.)

POWELLS CREEK, Va. (Dr.) **07**, 815.

POWELLS R., near Agee Post Office, Tenn. (Sp.) (Campbell County br.) Au. act Feb. 20, 1908. **PLANS**.—Approv. Apr. 24, 1908, **08**, 867.

POWELLS CREEK. (See Neabsco Creek.)

POWOW R., between Amesbury and Salisbury, Mass. (Sp.) (Berlin Iron Br. Co., afterwards committed to the commissioners of Essex County.) **91**, 427. **PLANS**.—Berlin Iron Br. Co. submitted plan for draw 56' wide, Mar. 11, 1889; approv. Mar. 23, 1889; being unsatisfactory to the towns, a plan for a leaf draw 35' wide was approv. Apr. 10, 1889. Essex County commissioners submitted plan for a pivot draw, instead of the leaf draw, Aug. 25, 1890; approv. Sept. 2, 1890. **91**, 427.

PROVIDENCE R., Point Street, Providence, R. I. (S.) (City br.) **PLANS**.—Rebuilding approv. May 18, 1905, **05**, 727.

PUGET SOUND, LAKES UNION and WASHINGTON (waterway connecting). (S.) (Brs. of the city of Seattle, Wash.—2.) **PLANS**.—2 temporary brs. approv. May 4, 1910, **10**, 1029.

PUGET SOUND and LAKES UNION and WASHINGTON, waterway connecting at city of Seattle, near Rass Place and Jesse Avenue, Wash. (Crossing canal and occupation of U. S. property sanctioned, act Mar. 22, 1912.) (S.) (Northern Pacific Ry. Co.) **PLANS**.—Approv. Aug. 16, 1911, **12**, 1300.

PUGET SOUND and LAKE WASHINGTON CANAL, Fremont Avenue, Seattle, Wash. (S.) (Seattle Electric Co.) **PLANS**.—Reconstr. approv. May 29, 1902, **02**, 589. Temporary trestle approv. Oct. 6, 1910, **11**, 1083.

PUGET SOUND and LAKE WASHINGTON CANAL, at 13th Avenue, Seattle, Wash. (S.) (City br.) **PLANS**.—Constr. of draw approv. Oct. 27, 1909, and the instrument of approv. modified Nov. 30, 1909, **10**, 1025.

PUGET SOUND and LAKE WASHINGTON CANAL and SALMON R., near Main Street, Seattle, Wash. (S.) (Great Northern Ry. Co.) **PLANS**.—Approv. July 3, 1909, **10**, 1023.

ENGINEERS.—Chief of Engineers. **RS.**, 73, 63, 592; 82, 263; 85, 292; 87, 339. Boards convened at Portland, Oreg., in Nov., 1872, and reported in favor of the plan, with certain requirements of location. **R.**, 73, 593. Approv. by Chief of Engineers and Sec. of War, Jan. 2, 1873, 73, 593. (Lt. Col. Alexander, Maj. Stewart, Mendell, and Robert, and Lt. Weedon.) **R.**, 87, 2663-2669. LEGISLATION.—Br. au. by act Feb. 2, 1870, 73, 592. State legislation, 1878, au. constr. of br., 82, 2043, 2044; 87, 2669. PLANS.—Described, 73, 594. Submitted by city of Portland, Oreg., referred to BE., 73, 592. General description of br. proposed, 82, 2052, 2080. Opposition to constr. of brs. at location proposed, 82, 2044, 2046, 2058, 2068. Constr. of br. commenced in 1880, 82, 2050. Width of spans considered inadequate and location of br. improper, 82, 2064. Action of Dept. of Justice toward protecting the rights of the U. S., 82, 2067, 2072. Injunction granted against constr. of br. by U. S. circuit court, 1881, 82, 2082, 2094. Petition in 1885 for constr. of br., 85, 1918.
- WILLAMETTE R.**, Burnside and Knight-Quinby Streets, Portland, Oreg. (Sp., etc.) (City br.) Chief of Engineers. **RS.**, 92, 409. Boards. (Maj. T. H. Handbury, Capt. T. W. Symons, and Lt. H. Taylor.) LEGISLATION.—City au. to constr. brs. under act Sept. 19, 1890, sec. 7, and act of Oregon, 92, 409. PLANS.—For 2 drawbrs.; reported adversely upon by BE. recom. for disapprov.; concurred in by Chief of Engineers; approv. Aug. 24, 1892, 92, 409.
- WILLAMETTE (Lower) R.**, Portland, Oreg. (A.) (North Pacific R. R. br. and wagon br.) PLANS.—Both str. a menace to navigation; should be wholly removed, 88, 2593.
- WILLAMETTE R.**, Portland, Oreg. (S.) (City br.) PLANS.—Rebuilding approv. June 28, 1909, 09, 919.
- WILLAMETTE R.**, near Portland, Oreg. (S.) (Portland & Seattle Ry. Co.) PLANS.—Approv. June 20, 1906, 06, 808.
- WILLAMETTE R.**, at Adams and Oregon existing str. at Holliday Avenue approv. Nov. 10, 1909, 10, 1025.
- WILLAMETTE R.**, at Broadway, Portland, Oreg. (S.) (City br.) PLANS.—Approv. Mar. 23, 1910, 10, 1028.
- WILLAMETTE R.**, between Morrison and E. Morrison Streets, Portland, Oreg. (S.) (City br.) PLANS.—Br. to replace existing str. approv. Dec. 11, 1903, 04, 716.
- WILLAMETTE R.**, Salem, Oreg. (Sp.) 87, 339, 2683. LEGISLATION.—Br. au. by act July 29, 1886. PLANS.—Br. already built when plans were submitted for approv. With slight modifications the br. not a serious obstr. to navigation. 87, 339, 2687.
- WILLAMETTE R.**, Union Street, Salem, Oreg. (S.) (Salem Falls City & Western Ry. Co.) PLANS.—Approv. Apr. 17, 1911, 11, 1088.
- WILLAMETTE R.**, near Wilsonville, Oreg. (S.) (Oregon Electric Ry. Co.) PLANS.—Approv. Aug. 8, 1906, 07, 821.
- WILLAMETTE (Upper) R.**, Oreg. (Ferry cables across.) (A.) PLANS.—List of localities at which such obstrs. exist, 88, 2590.
- WILLAPA R.**, at city of Raymond, Wash. (S.) (City br.) PLANS.—Approv. Aug. 11, 1909, 10, 1024.
- WILLAPA R.**, S. Arm, Wash. (Sp., etc.) (United Railroads of Washington.) LEGISLATION.—Company au. to constr. br. under act Sept. 19, 1890, sec. 7, and act of Washington. PLANS.—Approv. July 7, 1892, 92, 407.
- WILLAPA R.** (S. Fork), at Raymond, Wash. (S.) (Northern Ry. Co.) PLANS.—Reconstr. approv. Dec. 2, 1909, 10, 1025.
- WILLAPA R.**, S. Fork, Pacific County, Wash. (S.) (Pacific County br.) PLANS.—Approv. Sept. 1, 1904, 05, 723.
- WILLAPA R.**, above Willapa, Wash. (S.) (Eastern & Pacific Ry. Co.) PLANS.—Approv. May 9, 1910, 10, 1029.
- WILMINGTON B.** (arm of), from Wilmington to San Pedro, Cal. (S.) (Los Angeles Interurban Ry. Co.) PLANS.—Trestle br. approv. May 7, 1904, 04, 718.
- WILMINGTON LAGOON SLOUGH**, inner H. of San Pedro, Cal. (S.) (Kerckhoff-Cuzner Mill & Lumber Co.) PLANS.—Approv. Mar. 29, 1898, 98, 535.
- WILSON CREEK**, Willapa, Wash. (S.) (Pacific County br.) PLANS.—Approv. June 28, 1907, 07, 828.
- WILTON WATERWAY**, at Tacoma, Wash.; **DAY ISLAND WATERWAY**, at Tacoma, Wash.; **STEILACOOM CREEK WATERWAY**, near Steilacoom, Wash.; **5TH STREET WATERWAY**, at Steilacoom, Wash.; and **CLIFF AVENUE WATERWAY**, at Steilacoom, Wash. (S.) (Northern Pacific Ry. Co.) PLANS.—Approv. Nov. 19, 1909, 10, 1025.

- WINTHROP COVE**, New London, Conn. (S.) (Central Vermont Ry. Co.) PLANS.—Reconstr. approv. Nov. 23, 1903, **04**, 715.
- WINTHROP COVE**, Crystal Avenue, New London, Conn. (S.) (City br.) PLANS.—Rebuilding approv. Nov. 14, 1906, **07**, 823.
- WINTHROP COVE**, New London, Conn. (S.) (New York, New Haven & Hartford R. R. Co.) PLANS.—Reconstr. approv. Jan. 2, 1907, **07**, 824.
- WISCONSIN R.**, Wis. (S.) (Union Br. Co.) PLANS.—Approv. Mar. 19, 1901, **01**, 665.
- WISCONSIN R.**, Kilbourn City, Wis. (S.) (Chicago, Milwaukee & St. Paul Ry. Co.) PLANS.—Rebuilding approv. June 14, 1902, **02**, 589.
- WISCONSIN R.**, near Lone Rock, Wis. (S.) (Lone Rock Br. Co.) PLANS.—Approv. Feb. 21, 1895, **95**, 478.
- WISCONSIN R.**, Merrimac, Wis. (S.) (Chicago & North Western Ry. Co.) PLANS.—Reconstr. approv. Oct. 9, 1901, **02**, 585.
- WISCONSIN R.**, Portage, Wis. (S.) (Town br.) PLANS.—Temporary br. to replace one destroyed by storm approv. Sept. 18, 1905, **06**, 802.
- WISCONSIN R.**, Prairie du Chien, Wis. (S.) (Chicago, Burlington & Quincy Ry. Co.) PLANS.—Reconstr. approv. Feb. 3, 1903, **03**, 648.
- WISCONSIN R.**, near Sauk City, Wis. (S.) (Chicago, Milwaukee & St. Paul Ry. Co.) PLANS.—Rebuilding approv. Oct. 5, 1909, **10**, 1024.
- WISCONSIN R.**, Spring Green, Wis. (S.) (Spring Green, Wyoming & Wisconsin River Wagon Br. Co.) PLANS.—Approv. Dec. 7, 1903, **04**, 716.
- WISCONSIN R.**, Wyoming and Spring Green, Wis. (S.) (Town br.) PLANS.—Approv. May 23, 1906, **06**, 807.
- WISHKA R.**, Wash. (S.) (United Railroads of Washington.) PLANS.—Approv. Oct. 2, 1897, **98**, 533.
- WISHKA R.**, Heron Street, Aberdeen, Wash. (S.) (City br.) PLANS.—Approv. Nov. 29, 1905, **06**, 803.
- WISHKA R.**, at Young Street, North Aberdeen, Wash. (S.) (City br.) PLANS.—Approv. Jan. 22, 1910, **10**, 1026; and plans for new br. at Cleveland and Lafayette Streets, in lieu of first approv., approv. Feb. 2, 1911, **11**, 1086. Later instrument canceled May 25, 1911, and br. at Young Street approv., **11**, 1089.
- WISHKA R.**, Chehalis County, Wash., in sec. 15, T. 18 N., R. 9 W., Willamette meridian. (S.) (Chehalis County br.) PLANS.—Approv. Feb. 8, 1910, **10**, 1027.
- WISHKA R.** (See Hoquiam R.)
- WITHLACOOCHEE R.**, Dunnellon, Fla. (S. and A.) (Silver Spring, Ocala & Gulf Ry. Co.) **89**, 2797; **94**, 429; **95**, 478. PLANS.—No proper draw span; very little navigation, **89**, 2797. Plans for new br. approv. June 14, 1894, **94**, 429. Modified plans submitted Feb. 6, 1895; approv. Feb. 23, 1895, **95**, 478.
- WITHLACOOCHEE R.**, Dunnellon, Fla. (S.) (Br. of Marion and Citrus Counties.) PLANS.—Approv. Nov. 25, 1903, **04**, 715.
- WITHLACOOCHEE R.**, near S. Dunnellon, Fla. (S.) (Standard & Hernando R. R. Co.) PLANS.—Approv. June 3, 1904, **04**, 719.
- WITHLACOOCHEE R.**, Istachatta, Fla. (S.) (Hernando County br.) PLANS.—Approv. Oct. 8, 1909, **09**, 915.
- WITHLACOOCHEE R.**, in Marion and Citrus Counties, Fla. (S.) (Tampa Northern R. R. Co.) PLANS.—Approv. Mar. 15, 1910, **10**, 1028.
- WITHLACOOCHEE R.** and **BLUE RUN** (Wekiva R.), near Dunnellon, Fla. (S.) (Seaboard Air Line Ry. Co.) PLANS.—Approv. Mar. 15, 1910, **10**, 1028.
- WITHLACOOCHEE** and **PEACE RS.** (A.) (Florida Southern, the South Florida, and the Florida R. R. & Navigation Co.) **88**, 2630. PLANS.—Brs. would have to be provided with draws if imp. be undertaken, **88**, 2631.
- WOLF R.**, Gills Landing, Wis. (S.) (Wisconsin Central R. R. Co.) PLANS.—For new br. approv. Dec. 7, 1893, **94**, 427. Modified plans approv. Feb. 5, 1895, **95**, 477.
- WOLF R.**, at Hortonville, Wis. (S.) (Outagamie County br.) PLANS.—Reconstr. approv. Oct. 27, 1909, **10**, 1025.
- WOLF R.**, Matteson, Wis. (S.) (Town br.) PLANS.—Approv. Sept. 13, 1905, **06**, 802.
- WOLF R.**, near Memphis, Tenn. (S.) (Illinois Central R. R. Co.) PLANS.—Approv. Feb. 9, 1909, **09**, 917.
- WOLF R.**, New London, Wis. (Sp., etc.) (Milwaukee, Lake Shore & Western Ry. Co.) LEGISLATION.—Company au. to constr. br. under act Sept. 19, 1890, sec. 7, and act of Wisconsin. PLANS.—For new br. approv. Mar. 22, 1892, **92**, 404.
- WOLF R.**, between Shawano and Door Streets, New London, Wis. (S.) (City br.) PLANS.—Approv. May 23, 1912, **12**, 1307.
- WOLF R.**, Northport, Mukwa, Wis. (S.) (Mukwa town br.) PLANS.—Approv. Jan. 12, 1898, **98**, 534.
- WOLF R.**, at Rouses Ferry, Miss. (S.) (J. P. Rouse.) PLANS.—Approv. Sept. 21, 1909, **10**, 1024.
- WOODBIDGE CREEK**, Perth Amboy and Woodbridge, N. J. (S.) (Middlesex County br.) PLANS.—Approv. July 12, 1901, **02**, 583.
- WOODBURY CREEK.** (See Schuylkill R.)
- WOODBURY CREEK**, near National Park, N. J. (S.) (Gloucester County br.) PLANS.—Rebuilding approv. Oct. 27, 1909, **10**, 1025.
- WORTH LAKE**, Palm Beach, Fla. (S.) (Jacksonville, St. Augustine & Indian River R. R. Co.) PLANS.—Approv. July 19, 1895, **95**, 479.

Y.

- YALOBUSHA R.**, Leflore County, Miss. (Sp.) (Yazoo & Mississippi Valley R. R. Co.) LEGISLATION.—Company au. to constr. br. by act July 7, 1898. PLANS.—Approv. July 16, 1898, 98, 532.
- YALOBUSHA R.**, mouth of Martins Creek, Miss. (Sp.) (Grenada County br.) Au. act Feb. 12, 1901. PLANS.—Approv. Apr. 1, 1901, 01, 660.
- YAMHILL R.**, near Lafayette, Yamhill County, Oreg. (Sp., etc.) (Oregonian R. R. Co.) LEGISLATION.—Company au. to constr. br. under act Sept. 19, 1890, sec. 7, and act of Oregon. PLANS.—Reconstr. plan approv. Dec. 12, 1891, 92, 402.

- YOUNGS B.**, Oreg. (Dr.) 02, 581.

SPECIAL SUBJECTS.

REPORTS, CHIEF OF ENGINEERS, U. S. ARMY, 1866-1912.

SECTION 2.—SUPERVISION OF STRUCTURES OTHER THAN BRIDGES IN CONNECTION WITH NAVIGABLE WATERS.

"Pursuant to the provisions of sections 9 and 10 of the river and harbor act of March 3, 1899, and of certain special acts of Congress, numerous applications for permission to build structures of various kinds, other than bridges (such as DAMS, WHARVES, DOLPHINS, BOOMS, WEIRS, etc.), in the navigable waters of the United States, have been examined with a view to the protection of navigation interests.

"Upon the recommendation of the Chief of Engineers, permits have been granted by the Secretary of War for the erection of a number of such structures, but specific reference is not deemed necessary except in the following cases:"

- ALVISO SLOUGH AND GUADALUPE R.**, Cal. (Sloughs emptying into.) (Dams—2—of A. C. Kuhn.) PLANS.—Approv. Sept. 22, 1909, 10, 1033.
- BARATARIA BAYOU**, near the entrance to Harvey Canal, La. (Dam of Jefferson and Plaquemine Drainage District.) PLANS.—Plans and map of location approv. June 7, 1912, 12, 1310.
- BEAR ISLAND LAKE**, Minn. (See Eve Lake.)
- BIRCH LAKE**, Minn. (See Eve Lake.)
- CASS LAKE** (outlet), Minn. (Dam of J. Neils Lumber Co.) PLANS.—Consent to constr. of temporary dam given May 6, 1911, 11, 1092.
- CHARLES R.**, Boston, Mass. (S.) (L. and d. of Mass.) ENGINEERS.—Chief of Engineers. R., 05, 730. PLANS.—General plans approv. May 18, 1904; detailed plans approv. Oct. 5, 1904, 05, 730.
- CHOCTAWHATCHEE R.**, near Newton, Ala. (Dam of Choctawhatchee Power Co.) Au. act Apr. 5, 1906. PLANS.—Approv. Apr. 2, 1907, 07, 830.
- CHOCTAWHATCHEE R.**, near Newton, Ala. (Sp.) (Dam of Choctawhatchee River Light & Power Co.) Au. act Mar. 10, 1908. PLANS.—Approv. Mar. 9, 1909, 09, 921.
- CLEARWATER R.** (N. Fork), at Bruce's Eddy, Idaho. (Dam of Clearwater Timber Co.) PLANS.—Approv. June 9, 1910, 10, 1033.
- CLEARWATER R.** (Middle Fork), at Kooskia, Idaho. (Dam of E. J. Hartman et al.) PLANS.—Approv. May 10, 1910, 10, 1033.
- CLINCH R.**, near Agee, Tenn. (S.) (Dam of Ruben Bollinger.) PLANS.—Approv. Jan. 19, 1909, 09, 921.
- COLORADO R.**, mouth of Pyramid Canyon, 22 m. n. of Fort Mohave, and at or near Black Pt., 20 m. n. of Ehrenberg, Ariz. (Dams of Chuacawalla Development Co.) PLANS.—Au. act Feb. 15, 1911, plans approv. May 10, 1911, 11, 1033.
- COOSA R.**, Ga. and Ala. (Sp.) (Dam of the Alabama Power Co., at site selected for L. and D. No. 12 under U. S. proj.) Au. act Mar. 4, 1907. PLANS.—Approv. Mar. 3, 1910, 10, 1033.
- CROW WING R.**, in Crow Wing County, Minn. (S.) (Dam of Cuyuna Range Power Co.) PLANS.—Approv. Apr. 12, 1912, 12, 1309.
- EVE, BIRCH, M'DOUGALL, and BEAR ISLD. LAKES**, Minn. (Dams—4—of the Fall Lake Boom Co.) PLANS.—Approv. Oct. 15, 1909, 10, 1033.
- FOX R.**, at Combined Locks, Wis. (Dam of Green Bay & Mississippi Canal Co.) PLANS.—Reconstr. plan approv. Apr. 19, 1911, 11, 1092.
- LAFOURCHE BAYOU**, La. (L. and d. of Atchafalaya and Lafourche Basin Levee Boards of La.) Au. act June 13, 1902. PLANS.—Approv. Dec. 17, 1902, and Nov. 20, 1903. Time for removal of temporary dam and constr. of locks extended to Jan. 1, 1910. 03, 641; 04, 709; 07, 830.
- M'DOUGALL LAKE**, Minn. (See Eve Lake, Minn.)
- MERMENTAU R.**, La. Act Jan. 10, 1903, au. Rice Irrigation & Imp. Association, State of Louisiana, to constr. l. and d. near mouth of R. Plans, specifications, maps approv. by Sec. of War, Mar. 12, 1903. 03, 641.
- MISSISSIPPI R.**, Augusta, Minn. (Dam of St. Cloud Electric Power Co.) Au. act June 28, 1906. PLANS.—Approv. Feb. 2, 1907, 07, 829.
- MISSISSIPPI R.**, Bemidji, Minn. (Dam of Beltrami Electric Light & Power Co., successor to Kirby Thomas, E. J. Swedback, and M. A. Spooner.) Au. act Mar. 3, 1905. PLANS.—General plans approv. Mar. 2, 1906; detailed plans approv. Apr. 29, 1907, 07, 830.
- MISSISSIPPI R.**, Des Moines Rapids, Iowa. (Sp.) (Dam of Keokuk & Hamilton Water Power Co.) PLANS.—Approv. May 9, 1908, 08, 875.

- port Water Power Co.) Au. act Apr. 5, 1904; amended act Feb. 5, 1907. PLANS.—Approv. June 11, 1907, **07**, 830.
- MISSISSIPPI R.**, at Sauk Rapids, Minn. (Dam of Sauk Rapids Water Power Co.) Au. act Feb. 26, 1904; amended act Mar. 2, 1907. PLANS.—Approv. Feb. 11, 1907, **07**, 830.
- MISSISSIPPI R.**, in Stearns and Benton Counties, Minn., above mouth of Watab R. (Sp.) (Dam of Watab Rapids Power Co.) Au. act Apr. 23, 1904. PLANS.—Approv. Apr. 6, 1905, **05**, 730.
- MISSISSIPPI R.**, at Coon Rapids, Minn. (Dam of Great Northern Development Co.) Au. act Jan. 12, 1911. PLANS.—Approv. Sept. 20, 1911, and amended Dec. 14, 1911, by eliminating "condition No. 3," **12**, 1309.
- MISSISSIPPI R.**, at or near the foot of Des Moines Rapids. (Dam of Keokuk & Hamilton Water Power Co.) PLANS.—Au. acts Feb. 8, 1901, and Feb. 9, 1905. Plans approv. Apr. 5, 1911. **11**, 1092.
- MISSISSIPPI R.**, in Madison County, near Royalton, Minn. (Dam of Pike Rapids Power Co.) Au. acts June 4, 1906; Mar. 7, 1907; and Mar. 4, 1911. PLANS.—Approv. July 1, 1912, **12**, 1310.
- MISSOURI R.**, near Canyon Ferry, Mont. (Sp.) (Dam of Helena Power Co., successor to Missouri River Power Co.) PLANS.—Approv. Oct. 19, 1905, **06**, 810.
- MISSOURI R.**, in vicinity of Buck Rapids, Mont. (Dam of Capital City Imp. Co.) Au. act Apr. 12, 1906. PLANS.—Approv. Aug. 17, 1906, **07**, 829.
- MISSOURI R.**, Ox Bow Bend, Mont. (Sp.) (Dam of the Ox Bow Power Co.) Au. act Apr. 28, 1904. PLANS.—Approv. Apr. 15, 1905, **05**, 730.
- MISSOURI R.**, Wolf Creek, Mont. (Sp.) (See above.) Dam of Capital City Power Co., successor to Capital City Imp. Co.) Au. act Apr. 15, 1906. PLANS.—Approv. Apr. 14, 1908, being in lieu of plans for dam at Buck (see above) Rapids which was approv. Aug. 17, 1906, **08**, 875.
- MYSTIC R.**, near Cradock Br., Medford, Mass. (Dam of Mass.) PLANS.—Approv. Sept. 6, 1906, **07**, 829.
- NORTH R.**, Wash. (Dam of Loggers Boom & Driving Co.) PLANS.—Approv. Mar. 17, 1910, **10**, 1033.
- RAINY LAKE R.**, Minn. (Sp.) (Dam of the Koochiching Co.—Rainy River Imp. Co.) Au. act May 4, 1898, and amendatory acts. PLANS.—Approv. Sept. 21, 1909, and instrument suppl. thereto dated Feb. 19, 1910, **10**, 1033.
- ROCK R.**, Carrs and Vandruffs Islds., Ill. (Dam of Samuel S. Davis.) Au. act May 1, 1906. PLANS.—Approv. Feb. 16, 1907, **07**, 830.
- ROCK R.**, Grand Detour, Ill. (Sp.) (Dam of Spencer B. Newberry.) Au. Feb. 16, 1906. PLANS.—Approv. Feb. 4, 1909, **09**, 921.
- ST. CROIX R.**, between Stillwater and Taylors Falls, Wis. and Minn. (A.) PLANS.—Booms, ps., and logs of the St. Croix Boom Co. form obstrs. to navigation for weeks, and sometimes months, of the season of navigation, **89**, 2798.
- ST. CROIX R.**, St. Croix, Wis. (Sp.) (Dam of St. Croix Falls (Wis.) Imp. Co., and the St. Croix Falls (Minn.) Imp. Co.) PLANS.—Constr. of a dam au. act Feb. 7, 1903; approv. Sept. 16, 1904, **05**, 730.
- ST. JOSEPH R.**, near Berrien Springs, Mich. (Dam of Berrien Springs Power & Electric Co.) Au. act Apr. 5, 1906. PLANS.—Approv. Apr. 19, 1907, **07**, 830.
- ST. JOSEPH R.**, Mich. (Dam of City of Sturgis, Mich.) PLANS.—Constr. au. act Jan. 12, 1911; plans approv. Apr. 14, 1911, **11**, 1092.
- ST. JOSEPH R.**, near Motville, Mich. (Dam of Herman L. Hartenstein.) Au. act Feb. 13, 1911. PLANS.—Approv. Feb. 13, 1912, **12**, 1309.
- ST. LAWRENCE R.**, between Adams and Les Galops Islds. (Sp.) (Dam of Dominion of Canada.) Au. act June 18, 1902. PLANS.—For constr. approv. Aug. 18, 1903; modified plans providing for an increase in height of dam approv. Oct. 10, 1904, **05**, 730.
- ST. LOUIS R.**, below Fond du Lac, Wis. (A.) PLANS.—St. Louis Boom Co. maintains a log boom which is an obstr. to navigation, **89**, 2798.
- SAVANNAH R.**, Gregg Shoals, S. C. (Sp.) (Dam of Savannah Power Co.) Au. act June 21, 1906, and Feb. 5, 1907. PLANS.—Approv. Aug. 8, 1907, **08**, 875.
- SAVANNAH R.**, near Prices Isld., S. C. (Sp.) (Twin City Power Co.) Au. act Feb. 28, 1908. PLANS.—Approv. Feb. 20, 1909, **09**, 921.
- SAVANNAH R.**, at or near mouth of Stevens Creek, between the counties of Edgefield, S. C., and Columbia, Ga. (Dam of Georgia-Carolina Power Co.) PLANS.—Approv. July 20, 1910, **11**, 1091.
- SNAKE R.**, Idaho, Oreg., and Wash. (Dam of Burbank Power & Water Co., in vicinity of Fivemile Rapids.) PLANS.—Approv. Sept. 10, 1906; modified plans approv. Nov. 2, 1909, **10**, 1033.
- SUSQUEHANNA R.**, near Conowingo, Md. (Susquehanna Power Co.) PLANS.—Approv. Apr. 9, 1907, **07**, 830.
- TENNESSEE R.**, at Hales Bar, below Chattanooga, Tenn. (Dam of Chattanooga & Tennessee River Power Co.) PLANS.—Approv. Aug. 26 and Oct. 14, 1910, **11**, 1092.
- WALLICUT R.** (N. and S. Forks), Wash. (Dam of commissioners of diking district No. 1, Pacific County, Wash.) PLANS.—Approv. Sept. 23, 1910, **11**, 1091.
- WHITE R.** (E. Fork), 4 m. below Shoals, Ind. (Dam of Shoals Power Co.) PLANS.—Approv. Apr. 20, 1911, **11**, 1092.
- WHITE R.**, near Forsyth, Taney County, Mo. (Dam of Ozark Power & Water Co.) Au. act

Feb. 4, 1911. PLANS.—Approv. Nov. 24, 1911, 12, 1309.

WHITE R., E. Fork, Williams, Ind. (S.) (Dam of Bedford Power Co.) PLANS.—Approv. Feb. 27, 1909, 09, 921.

WILLAMETTE SLOUGH, near Portland, Oreg. (S.) (Dam of Ruth Trust Co.) PLANS.—For str. to replace one built by the U. S. approv. May 12, 1909, 09, 921.

WISCONSIN R., Kilbourn, Wis. (Sp.) (Dam of P. L. Spooner.) PLANS.—Approv. Feb. 7, 1906, 06, 810.

WISCONSIN R., near Prairie du Sac, Wis. (Dam of Badger Hydro-Electric Co.) PLANS.—Approv. Aug. 4, 1909, 10, 1032.

WISCONSIN R., near Prairie du Sac, Wis. (Dam of Wisconsin River Power Co.) PLANS.—Approv. Feb. 3, 1911, 11, 1092; and May 11, 1912, 12, 1309.

WITHLACOOCHEE R., Dunnellon, Fla. (Sp.) (Dam of Camp Phosphate Co.) Au. act June 13, 1902. PLANS.—Approv. Apr. 16, 1904; modified plans approv. Sept. 23, 1905, 06, 810.

¹ Supposed to be.² Removed by owners.³ Removed by gunboat *Vesuvius*.⁴ No serious menace to navigation.⁵ Removed by U. S. snag boat *Columbia*.

SPECIAL SUBJECTS.

REPORTS, CHIEF OF ENGINEERS, U. S. ARMY, 1866-1912.

SECTION 5.—SUMMARY OF APPROPRIATIONS—RIVER AND HARBOR WORKS.¹

| NOTES.—The matter in this section is composed of the following: | | Pages of this index. |
|---|--|----------------------|
| Part A: | | |
| Table 1.—Appropriations by act, 1802 to 1915..... | | 2279 |
| Table 2.—Appropriations, South Pass, Mississippi River, Eads project..... | | 2283 |
| Table 3.—Expenditures, wreck removal..... | | 2284 |
| Table 4.—Expenditures, operating and care of canals..... | | 2284 |
| Table 5.—Expenditures, examinations and surveys, at South Pass, Mississippi River..... | | 2284 |
| Table 6.—Maintenance by United States of South Pass Channel, Mississippi River..... | | 2285 |
| Table 7.—Expenditures, snag and dredge boats, Upper Mississippi River..... | | 2285 |
| Table 8.—Expenditures, removal of snags and wrecks, Mississippi River..... | | 2285 |
| Table 9.—Expenditures, gauging, Mississippi River..... | | 2286 |
| Table 10.—Expenditures, snag boats, Ohio River..... | | 2286 |
| Recapitulation and grand total..... | | 2286 |
| Part B: | | |
| Table 11.—Totals, by works of improvement, as detailed in this index, pages 28 to 1690..... | | 2287 |
| Table 12.—Totals, by districts, as detailed in this index, pages 28 to 1690..... | | 2302 |

PART A.

TABLE 1.—*River and harbor appropriations, by acts, Apr. 6, 1802, to Mar. 4, 1915.*

Quoted from H. D. 1491, 63d, 3d, p. 387.

| Date of act. | Rivers. | Harbors. | Canals. | Examinations, surveys, and contingencies. | Total. |
|--------------------|-------------|-------------|-------------|---|-------------|
| Apr. 6, 1802..... | \$30,000.00 | | | | \$30,000.00 |
| Apr. 18, 1806..... | 448.71 | | | | 448.71 |
| Feb. 10, 1809..... | | | \$25,000.00 | | 25,000.00 |
| Feb. 15, 1819..... | | | | \$6,500.00 | 6,500.00 |
| Apr. 14, 1820..... | | | | 9,500.00 | 9,500.00 |
| Mar. 3, 1821..... | 150.00 | | | | 150.00 |
| Do..... | | | | 2,500.00 | 2,500.00 |
| May 7, 1822..... | | \$34,200.00 | | | 34,200.00 |
| Mar. 3, 1823..... | | 6,000.00 | | 150.00 | 6,150.00 |
| Apr. 30, 1824..... | | | | 30,000.00 | 30,000.00 |
| May 24, 1824..... | 75,000.00 | | | | 75,000.00 |
| May 26, 1824..... | | 40,000.00 | | | 40,000.00 |
| Feb. 21, 1825..... | | | | 28,587.00 | 28,587.00 |
| Mar. 6, 1825..... | | 52,972.56 | | | 52,972.56 |
| Mar. 3, 1825..... | | | 300,000.00 | | 300,000.00 |
| Do..... | | 11,712.00 | | 400.00 | 12,112.00 |
| Mar. 3, 1826..... | | | | 20,000.00 | 20,000.00 |
| Mar. 25, 1826..... | | 20,184.90 | | 50,000.00 | 70,184.90 |
| May 13, 1826..... | | | 100,000.00 | | 100,000.00 |
| May 18, 1826..... | | | 150,000.00 | | 150,000.00 |
| Do..... | | 50,000.00 | | | 50,000.00 |
| May 20, 1826..... | 25,000.00 | 57,320.00 | | 3,000.00 | 85,320.00 |

¹ For a summary of appropriations for fortifications, see p. 1801 of this index. No summary of appropriations for miscellaneous works would serve any practical purpose, and hence there is no summary for part III of this index.

| Date of act. | Rivers. | Harbors. | Canals. | Examinations, surveys, and contingencies. | Total. |

¹ As amended by act of June 28, 1902.

² Includes payment of \$45,000 to C. P. Goodyear for work at Brunswick outer bar, Georgia.

³ This is the actual amount allotted from the app. of \$3,000,000 made by this act; the balance, \$2,164,725.66, by the terms of sec. 8 of the act of Mar. 3, 1905, being made available to apply upon the cost of imps. enumerated in that act, thereby reducing to \$16,017,149.75 the actual amount app. by the act of 1905.

⁴ Does not include \$50,000 app. for expenses of the Permanent International Association of Navigation Congresses, \$1,875 for services of Hon. John H. Bankhead, and \$1,000,000 for waterway from Lockport to mouth of Illinois R., repealed by act of Mar. 4, 1915.

⁵ Does not include \$1,500,000 deducted from app. for Mississippi R. in accordance with the provisions of the act of Apr. 30, 1912, and \$300,000 allotted to ex., sur., and contingencies from previous app. for emergencies.

⁶ Reserved for emergencies.

⁷ Omits \$300,000 applied to examinations, surveys, and contingencies under the provisions of the act of July 25, 1912.

South Pass Jetties.

TABLE 2.—Statement of appropriations and expenditures provided by act of Mar. 3, 1875, and amendatory acts for improvement of South Pass, Mississippi River, by James B. Eads and his legal representatives.

| | | | |
|--|-------------|--|-----------|
| Under the act of Mar. 3, 1875, and amendatory acts, there was to be paid James B. Eads or his legal representatives, upon securing certain widths and depths of channel, the sum of..... | \$4,250,000 | One-half of the \$1,000,000 retained to be then released..... | 500,000 |
| 80 quarterly payments of \$25,000 each for maintenance..... | 2,000,000 | 20 semiannual payments of 5 per cent interest on the \$500,000 still retained as a pledge, amounting to..... | 250,000 |
| 20 semiannual payments of 5 per cent interest on the \$1,000,000 retained as pledge, amounting to..... | 500,000 | Remaining one-half of the \$1,000,000 retained to be then released..... | 500,000 |
| | | Total..... | 8,000,000 |

Wrecks.

TABLE 3.—*Expenditures under permanent indefinite appropriations provided by acts of June 14, 1880, and Mar. 3, 1899, for removing sunken vessels or craft obstructing or endangering navigation.*

| Fiscal year ending June 30— | | Fiscal year ending June 30— | |
|-----------------------------|------------|-----------------------------|--------------|
| 1881 | | 1900 | \$37,345.39 |
| 1882 | \$8,574.58 | 1901 | 47,582.00 |

| Table 5..... | 239,453.96 | | |
| Table 6..... | 1,213,821.72 | Total..... | 1,850,551,708.25 |

¹ Includes all appropriations pertaining directly to the improvement of rivers and harbors, but does not include appropriations for prevention of deposits in New York Harbor, National Waterways Commission, International Waterways Commission, enlargement of Governors Island, Permanent International Association of Congresses of Navigation, U. S. Lake Survey, building for river and harbor instruction at U. S. Engineer School, and other appropriations not directly connected with the execution of river and harbor improvements.

PART B.

TABLE 11.—Totals of river and harbor appropriations, by works of improvement or waterways, as detailed in this index, pages 28 to 1690.

NOTE.—This table is not an attempt to arrange the appropriations by States, but by watershed districts. For example, District A contains waterways in both Maine and New Hampshire, and District B contains waterways in New Hampshire and Massachusetts. What might be termed the "New York districts" pertain to waterways in New York, Vermont, and New Jersey. The arrangement, in brief, is according to the natural situation of the waterways with respect to one another, rather than an arrangement within purely arbitrary State lines.

The simplest method of making the appropriations for the Mississippi, the Missouri, the Ohio, and the Columbia stand out clearly is to treat these waterways by themselves rather than in connection with any waterway district.

In considering the totals for Districts S, and from V-KK, the total for HH (Mississippi River) should be considered as connected therewith.

In considering the totals for Districts AA-FF, the total for CC (Ohio River) should be considered as connected therewith.

In considering the total for GG, it is to be remembered that it includes the total for the Missouri.

In considering the totals of Districts VV, WW, and XX, it is to be remembered that the total for the Columbia (p. 1616 of this index) should be considered therewith.

There should be pointed out that intracoastal waterways, as on the Atlantic coast and on the Gulf coast, might be considered apart from the waterway groups, as they serve a special purpose, like the Mississippi, the Ohio, the Missouri, and the Columbia, in linking or connecting waterways. The same might be said of St. Marys River, and of Detroit River, these two waterways linking together the various waterways of the Great Lakes in a special manner.

Nor should it be forgotten that harbors of refuge serve the commerce of the whole United States, with no reference to the benefit of a particular locality.

It should be pointed to, also, that in order to have an equitable consideration of some of the totals of the table below, some harbors should be considered as though they served not local but wholly national purposes. Some of these harbors are as follows:

Portland, Me.
Boston, Mass.
Newport, R. I.
New London, Conn.
New York, N. Y.
Philadelphia, Pa.
Wilmington, Del.
Baltimore, Md.
Norfolk, Va.
Wilmington, N. C.
Charleston, S. C.
Savannah, Ga.
Jacksonville, Fla.

Key West, Fla.
Tampa, Fla.
Mobile, Ala.
New Orleans, La.
Galveston, Tex.
Los Angeles, Cal.
San Francisco, Cal.
Portland, Oreg.
Seattle, Wash.
Honolulu, Hawaii.
San Juan, P. R.
Etc.

DISTRICT A.—PORTLAND, ME.

| Z | See District HH below. | | | | |
| AA | Chattanooga and Nash- ville, Tenn..... | 15,983,783.82 | | Grand total..... | 730,277,914.70 |

NOTE.—The grand total in this table is merely the total up to 1912 of the amounts reported by the district officers in their individual annual reports, and it is not, hence, to be compared with the grand total of Tables 1-10 (\$850,551,708.25), which covers up to 1915, etc.

SPECIAL SUBJECTS.

REPORTS, CHIEF OF ENGINEERS, U. S. ARMY, 1866-1912.

SECTION 6.—ALPHABETICAL LIST OF ENGINEERS IN DIRECT
CHARGE OF RIVER AND HARBOR WORKS.

NOTE.—The abstracts of reports on river and harbor works embraced within Part I (Rivers and Harbors) of this index give the names of the engineers in charge of each work under the subhead "In charge."

The following is an alphabetical list of those names. The list is so arranged that it shows the last title of the officer or engineer, the period within which he was probably in charge of river and harbor works, and the district or districts within which lie the river and harbor works reported upon by the officer. (See also p. 21 of this index.)

The districts in the last column are named in the order which indicates, approximately, the changes of station of the engineer in charge. It is desirable to lay emphasis on the fact that the last column does not contain a list of the districts of which the engineer named had charge; the list is of the districts embracing the waterways reported upon by the engineer officer, as those districts are shown now on the frontispiece map of this index. It should be borne in mind that with the growth of the work of the Corps of Engineers it was necessary to change the limits of the districts from time to time. As said at the beginning of this paragraph, however, the districts as named show approximately the order in which the engineer officer assumed charge of works throughout the United States.

| Name of engineer officer. | Rank. | Period. | Reports, as engineer in charge, on waterways in the following districts. |

SPECIAL SUBJECTS.**REPORTS, CHIEF OF ENGINEERS, U. S. ARMY, 1866-1912.****SECTION 7.—ALPHABETICAL LIST OF CONTRACTORS ON RIVER AND HARBOR WORK, 1901-1912.**

NOTE.—The Chief of Engineers reports in his annual reports what contracts have been entered into for public works during the fiscal year. In Part I (Rivers and Harbors) of this index these contracts are referred to under the subtitle "Contracts," the arrangement being according to time only.

As it is often important to know something of the experience of a contractor, without making an extended reference to office files, or having recourse to correspondence with various offices, the following list of contractors on river and harbor work has an obviou value.

The list is composed only of those contracts or contractors reported in the period 1901-1912, it being doubtful if the value of the list would be increased by listing contracts prior to 1901.

The names of contractors are arranged alphabetically. The approximate number of contracts is given, and then follows a brief reference to the nature of the work done. The final column names the districts within which the work was done. The address of the office of a district is printed at the beginning of the abstracts of a waterway group in Part I of this index. A glance through the contracts in the abstracts of a waterway group (pp. 23-1691 of this index) furnishes details concerning prices, etc., and furnishes also the volume and page reference to those reports which give the contract details completely.

| Contractor. | Approximate number of contracts. | For— | For works in districts— |

SPECIAL SUBJECTS.

REPORTS, CHIEF OF ENGINEERS, U. S. ARMY, 1866-1912.

SECTION 8.—INDEX TO LAWS AFFECTING THE CORPS OF ENGINEERS, U. S. ARMY.

Copies of laws affecting the Corps of Engineers printed as a part of the annual reports of the Chief of Engineers.—Each annual report of the Chief of Engineers since 1873 has contained, for the convenience of those using the reports, copies of the laws passed by Congress which affect the work or operations of the Corps of Engineers, United States Army.

Classification of the laws.—Most of the laws relate to appropriations for public works, such as fortifications, rivers and harbors, roads, canals, etc. A large number of the laws relate to authorization of private construction of bridges, dams, etc., under the supervision of the Chief of Engineers. Other of the laws relate to the general conduct of public affairs, or to the Corps of Engineers as a part of the Army of the United States.

River and harbor laws.—The "Laws of the United States Relating to the Improvement of Rivers and Harbors, Aug. 11, 1790, to Mar. 4, 1913," have been collected by the Chief of Engineers into a set of three volumes, and printed as H. Doc. 1491, 62d Cong., 3d sess.,¹ with a detailed index thereto. It is not necessary, hence, to make a detailed reference to such laws under the above heading. Some of the titles of the general subjects are given below in order to show what subjects come properly under the head of river and harbor laws. (See also pp. 2090 of this index.)

Laws relating to bridge construction, etc.—The laws which authorize the construction of specific bridges, etc., that is, by name, are covered amply in this index under the heading of "Bridges," or "Structures other than bridges." (See pp. 2137 of this index.)

Laws relating to fortifications, public buildings, etc.—These are referred to in this index, in practical detail, in connection with the subjects of "Fortifications," and "Miscellaneous." (See pp. 1793, 2039 of this index.)

Military laws.—These laws, in greater detail than given in the reports of the Chief of Engineers, will be found in the published volumes of the military laws of the United States. See "The Military Laws of the United States, 4th edition. Prepared under the direction of the Hon. Elihu Root, Secretary of War. By Brig. Gen. George B. Davis, Judge Advocate General, United States Army. With Supplement by Lt. Col. John Biddle Porter, Judge Advocate General, United States Army. 1911." Printed as War Dept. Doc. No. 395. Revised and corrected to date of June 1, 1914, under the supervision of Brig. Gen. E. H. Crowder, Judge Advocate General of the Army, in War Dept. Doc. No. 472.

General laws.—Some of the more general laws which have a bearing upon the work of the Corps of Engineers are referred to very briefly below.

A.

Abandonment of improvements.*

Accounts.

Time extended for examination. (Mar. 2, 1901.)

Allowances to officers for losses in War with Spain. (Mar. 2, 1903.)

Unexpended balances to be covered into Treasury, etc. Permanent appropriations must be created by specific terms. (Mar. 4, 1909, sec. 10.)

Unexpended amounts for river and harbor works not to be covered into Treasury. (June 25, 1909.)

Falsification, etc., prohibited under penalty. (Mar. 4, 1911.)

Additional employees authorized to administer oaths to expense accounts. (Aug. 24, 1912, sec. 8.)

Acids in navigable waters.*

Acquisition of land.*

Adjustments for claims.*

Advertisements.*

Aids to navigation.*

Alaska.

Railroad commission created. (Aug. 24, 1912, sec. 18.)

Allotments.*

*See H. Doc. 1491, 62d Cong., 3d sess.

¹ Volume III (150 pages) of H. D. 1491 was prepared in the office of the Judge Advocate General, U. S. Army, and it is described in its preface as being "an attempt * * * to classify and annotate the statutory provisions having a general application, regulating the improvement, protection from obstructions to navigation, and the bridging, etc., of the rivers and other navigable waters of the United States."

Anchorage grounds.***Anchoring.*****Annual appropriations.*****Annual estimates.*****Annual reports.*****Antiquities, American.**

Penalty for unauthorized excavations, etc.

Historic lands may be set aside by the President.

Regulations concerning collections.

(June 8, 1906.)

Appropriations.*

Army War College, etc. (June 30, 1902.) (And see acts for Army, etc.)

Expenditures in excess of appropriations forbidden. Voluntary service forbidden. Apportionment of appropriations into monthly allotments to prevent deficiencies. (Mar. 3, 1905, sec. 4.)

Acts must declare in specific terms that an appropriation is made, or that a contract may be executed. (June 30, 1906, sec. 9.)

Contingent funds, etc. Apportionment of amount to be expended by each office or bureau. (Aug. 23, 1912, sec. 6.)

Regular appropriations restricted to fiscal year. Exceptions, rivers and harbors, etc. (Aug. 24, 1912, sec. 7.)

Army officers.*

Entrymen under homestead laws who have served in Army or Navy of the U. S. during Spanish-American War shall have certain service deducted. (Mar. 1, 1901.)

Provisions for General Staff, etc. (Feb. 14, 1903.) (See also Military Laws, etc.)

Arrests, offenders against river and harbor laws, etc.***Ashes, depositing in waters, etc.*****Attorney General (in connection with river and harbor violations).*****Awards.*****II.****Badges. (See Military Laws.)****Balances.*****Barges.*****Beacons.*****Bering Sea.*****Bidders.*****Bids.*****Binding.*****Boards and commissions.*****Boats.*****Bonds.***

Required from all persons making U. S. disbursements, except officers of the U. S. Army. (June 23, 1866, sec. 3; Mar. 2, 1867, sec. 3.)

Books.***Brick deposits, navigable waters.*****Breakwaters.*****Bridges.*****Buildings.*****Bulkhead lines.*****Bulkheads.*****Buoys.*****C.****Canada, Dominion of.*****Canals and waterways.*****Causeways. (See Bridges.)****Care and maintenance of rivers and harbors.*****Certification, printing.*****Channels.*****Charges, tonnage.*****Charts.*****Checks.**

Lost cheques may be duplicated. (Mar. 23, 1906; June 19, 1906; Feb. 23, 1909.)

Chief of Engineers.* (See Military Laws, Army Regulations; and Regulations, Engineer Department.)**Cinders.*****City limits and river and harbor improvements.*****Civilian employees.*****Civilian engineers.*****Civil Service. (See reports, etc., Civil Service Commission; Regulations, Engineer Department.)****Claims for damages, etc.***

False claims prohibited, etc., or purchase of claims, etc. (Feb. 25, 1897; May 30, 1908.)

Clams.* (Fishing for, etc.)**Collisions of vessels.***

Regulations to prevent, etc. (June 7, 1897.)

Collection districts, U. S.***Collectors of U. S. customs.*****Coals.**

To be tested for the U. S. free of charge. (Mar. 4, 1907; May 27, 1908.)

Combined works of improvement.***Commerce.*****Commercial statistics.*****Commissions.* (See Boards.)****Committees, congressional.*****Compensation for displacement of tide-water.*****Compensation to U. S. employees for injuries.*****Compilations.*****Completion of projects.*****Concurrent resolutions of Congress.*****Condemnation proceedings, for land, easements, rights of way, etc.*****Congress.*****Congresses of Navigation.*****Congressional committees.*****Congressional documents.*****Consolidated works.*****Contingencies, appropriations for.*****Continuance of works.*****Continuing contracts.*****Contractors.*****Contracts.***

Advertisements for; appropriations; awards; bonds; combined; continuing; eight-hour laws; proposals; prosecution; protection; punishment; regulations.

Cooperation, local; public works.***Corporate limits, works of improvement.***

Corporations.*

Corps of Engineers. (See also Chief of Engineers.)

Officers increased, etc. (Apr. 23, 1904, sec. 22;
Feb. 27, 1911, sec. 5.)

Court-martial. (See Military Laws.)

Craft, water.*

Creditors.*

Crimes committed on Mississippi River.*

Crimes.*

Customs, collectors of.*

D.

Damages.*

Dams.* (See pp. 2041 and 2249 of this index.)

Datum plane.*

Débris, mining.* (See pp. 1580 and 2041 of this index.)

Decay in works.*

Defacement of public structures.*

Defenses. (See also Fortifications.)

Injury.—It is a penal offense to injure or destroy harbor defenses or material thereof, or to violate any rule of the War Department for the protection of defenses. Penalty: Fine, imprisonment, or both, at the discretion of the U. S. court. (July 7, 1898.)

Material.—American material is to be preferred, but foreign material, when such is found preferable, may be purchased in limited quantities and shall be admitted free of duty. (Aug. 4, 1894; Mar. 2, 1895; June 6, 1896; Mar. 3, 1897; May 7, 1898; Mar. 3, 1899; May 25, 1900.)

Department of War.*

Deposits in navigable waters.*

Depths.*

Derelicts.* (See Wrecks.)

Destruction of public structures by private parties.*

Deterioration in works.*

Digging for gold.*

Dikes.*

Dirt, deposits of.*

Disbursement of funds.*

Disbursements.

No disbursing officer in the Army shall receive commissions or compensation for disbursements made. (June 23, 1866, sec. 3; Mar. 2, 1867, sec. 3.)

Bonds required from all persons making disbursements, except officers in the Regular Army. (June 23, 1866, sec. 3; Mar. 2, 1867, sec. 3.)

Frequent inquiries to be made by officers of the inspection department of the Army as to the necessity, economy, and propriety of all disbursements by disbursing officers of the Army, and their conformity to the law appropriating the money, and also to the law relating to the manner of keeping accounts and making disbursements. (Apr. 20, 1874.)

Disbursing officers.*

Substitutes authorized. (Mar. 4, 1909, sec. 8.)

Discharge measurements.*

Discontinuance of improvements.*

Displacement of tidewater.*

District attorneys, U. S.*

District engineers.*

District of Columbia. (See p. 2039 of this index.)

Districts, collection.*

Ditches, mining.*

Dock lines.*

Docks and ferries.*

Documenting of foreign-built dredges.*

Documents, public.*

Dolphins.* (See p. 2249 of this index.)

Dominion of Canada.*

Donations of land, etc.*

Draftsmen, skilled; employment of.*

Drawbridges. (See p. 2137 of this index.)

Drawings.*

Dredge boats.* (See p. 3337 of this index.)

Dues, tonnage.*

Dumpings.*

Duties, tonnage.*

E.

Easements.*

Edgings, deposit of.*

Eight-hour law.*

Emergency appropriations.*

Employees.*

Additional clerks and other employees necessary during Spanish-American War transferred to classified service. (Apr. 28, 1902, sec. 3.)

Extortion prohibited. (June 28, 1906.)

Compensation for injuries, etc. (May 30, 1903; Mar. 11, 1912.)

Attendance at conventions permitted under conditions, etc. (Aug. 24, 1912, sec. 10.)

Eight-hour law. Public contracts to provide for. Inspectors to report violations. (June 19, 1912.)

Punishment for violating law requiring specific appropriations for etc. (Aug. 23, 1912, sec. 5.)

Incapacited employees.—It is unlawful to establish, under appropriations for the executive, legislative, and judicial departments, a civil pension roll or an honorable service roll, or to exempt officers, clerks, or persons in the public service from existing laws concerning public employment. Annual leaves of absence of 30 days, exclusive of Sundays and legal holidays, however, may be granted. (Feb. 24, 1899; Mar. 3, 1901.)

Employment.*

Enforcement of laws, navigable waters.*

Engineer officers.* (See p. 2303 of this index and see Chief of Engineers above.)

Engineers, assistant.*

Engineers, boards of.*

Engineers, Chief of.*

Engineers, civil.*

Engineers, civilian.*

Engineers, Corps of.*

Composition of, reorganization of U. S. Army. (Feb. 2, 1901, sec. 11.)

Engineer School, Washington, D. C.* (See p. 2039 of this index.)

Engravings.*

Entry, ports of.*

Equipment, motor boats, etc.*

Estimate of funds required.*

Estimates.

To be submitted exactly as required by law.

(Aug. 23, 1912, sec. 9.)

Lump-sum appropriations exceeding \$250,000

to be accompanied by detailed statements of proposed use, etc. (Aug. 24, 1912, sec. 6.)

Examinations and surveys.* (See p. 22 of this index.)

Excavations in navigable waters.*

Executive documents.*

Expenditures, fiscal.*

Expenses.*

Experimental towboats.*

Explosives.

Detailed provisions for promoting safe transportation of. (May 30, 1908.)

F.

Fillings.*

Filth.*

Fines.*

Fiscal-year appropriations.*

Fisheries.*

Fishing or dredging in navigable waters.*

Fishways.*

Floating of logs, etc.*

Flood reservoirs.*

Flumes, mining.*

Fog signals.*

Foreign-built dredges.*

Foreign (insular) possessions.*

Forest reserves, etc.*

Forests.

Transfer of reserves from Interior Department to Department of Agriculture. Water rights for mining. Regulations. (Feb. 1, 1905, sec. 4.)

Fortifications.* (See also Defenses.) (See p. 1793 of this index.)

Fortifications may be erected in cases of emergency upon the written consent of the owner of the land upon which such work is to be placed temporarily. (Joint resolution approved Apr. 11, 1898.)

Freight statistics.*

Funds, surplus.*

G.

Garbage.*

Gauging.*

Gold mining.*

Government employees.*

Government funds.*

Government property.*

Gravel.*

Great Britain.*

Guaranties.*

H.

Harbor lines.* (See p. 2253 of this index.)

Harbors and rivers.* (See pp. 3 and 2041 of this index.)

Hiring of labor.*

Hire of private dredging plant.*

Hiring public property.*

Holidays. (See Regulations, Engineer Dept.)

Labor Day, the first Monday in September of each year, made a public holiday. (June 28, 1894.)

House of Representatives.*

Hyacinths.* (See p. 572 of this index.)

Hydraulics.*

Hydrology.*

I.

Improvements.*

Illustrations.*

Impaired works, restoration.*

Imperial Valley, Cal.*

Imposts on tonnage of shipping.*

Imprisonment.*

Improvements, river and harbor.*

Private parties may make improvements at own expenses, etc., subject to approval of Secretary of War and Chief of Engineers. (June 13, 1902, sec. 1.)

Indefinite appropriations.*

Indemnities.*

Index, Reports, Chief of Engineers.

"Raymond" Index called for. (June 13, 1902, sec. 13.)

Ordered brought up to date. (July 25, 1912, sec. 6.)

Indexes.*

Individuals, private.*

Injury to Government employees.*

Injury to public structures.*

Inland Waterways Commission.*

Inlets within shore lines, etc.*

Inner harbors.*

Inspectors.*

Insular possessions.*

International commissions.*

International Joint Commission.*

International Waterways Commission.*

Interoceanic canals.* (See p. 2357 of this index.)

Intracoastal waterways.*

Island (foreign) possessions.*

Isthmian Canal.* (See p. 2357 of this index.)

J.

Jetties.*

Jurisdiction, crimes, Mississippi River.*

Justice, Department of.*

K.

Klamath Indian Reservation.*

L.

Labor.* (See Public works.)

Eight hours shall constitute a day's work for all laborers, workmen, and mechanics employed by or on behalf of the U. S. (June 25, 1868.)

Limited to eight hours in any one calendar day for all laborers or mechanics employed by the Government, or by any contractor upon any public work of the U. S. (Aug. 1, 1892.)

Ladders, fish.*

Land.*

Land, deeds to.

Deeds to land in District of Columbia and Territories may be acknowledged before notaries of Philippines and Porto Rico. (Mar. 22, 1902.)

Lands, public.

Former grants to railroads canceled, with some exceptions, etc. (Feb. 25, 1909.)

Laws of Congress.*

Leases.*

Legal proceedings.*

Department of Justice shall conduct, where necessary to enforce laws for protection of public property, works, etc. (Mar. 3, 1899, sec. 17.)

The U. S. Attorney General or special counsel, etc., may conduct legal proceedings. (June 30, 1906.)

Legislation.*

Levees.*

Levels, water.*

Levying of tonnage duties.*

M.

Mall.

Record of, to be kept. Limitation of penalty privilege. (June 26, 1906.)

Maintenance of rivers and harbors.*

Marine commerce.*

Materials and plant.*

Mean low water.*

Mechanics, eight-hour law.*

Metals, precious.*

Mileage. (See Officers.)

Allowances to officers. (Mar. 2, 1901; June 12, 1906.)

Militia.

Defined. (Jan. 21, 1903.)

Mining.*

Moneys.*

Motor boats.*

Movement of vessels.*

Mud.*

Municipal corporations.*

Municipal limits.*

N.

National defense.

Penalties for disclosures. (Mar. 3, 1911.)

National Waterways Commission.*

Naval officers, retired.*

Navigable waters.*

Compilation of existing laws enacted from time to time by Congress for the maintenance, protection, and preservation of the navigable waters of the U. S., and draft of an act embodying such revision and enlargement of the aforesaid laws as the experience of the Corps of Engineers has shown to be advantageous to the public interest. (Annual reports of the Chief of Engineers, 1897, p. 4138.)

Bridges injuring channels or banks of rivers.

Removal of wrecks.

Bridges obstructing navigation.

Construction of piers, bridges, etc.

Depositing material in navigable waters.

Unlawful obstructions forbidden and penalties prescribed.

Method of enforcing laws forbidding obstructions to navigation.

Injuries to Government piers, etc.

Harbor lines.

Opening of drawbridges.

Regulations for canals.

The term "navigable waters" (Alaska) held to include all tidal waters up to the line of ordinary high tide, and all nontidal waters navigable in fact up to the line of ordinary high-water mark. (May 14, 1898.)

Public vessels may be detailed to provide for safety of life during regattas, etc. (Apr. 28, 1908.)

Bureau of Lighthouses in the Department of Commerce and Labor established. (June 17, 1910.)

Enforcement of rules. (June 13, 1902, sec. 6.)

Creation of any obstruction not affirmatively authorized by Congress prohibited. (Mar. 3, 1899, sec. 10.)

Navigation.*

Nicaraguan canal route. (See p. 2357 of this index.)

Nonnavigable waterways.*

Nontidal waters.*

Notices to alter bridges.* See p. 2137 of this index.)

O.

Obstructions. (See Navigable waters.)

Obstructions in navigable waters.* (See pp. 21, 2137 of this index.)

Occupancy of public structures.*

Occupancy of public works.

Temporary use of certain public works may be permitted. (Mar. 3, 1899, sec. 14.)

Ocean steamships.*

Offenders against laws for protection of navigable waters, etc.*

Office of the Chief of Engineers.* (See Chief of Engineers above, and p. 2039 of this index.)

Officers.

Detail to instruction schools. (Feb. 26, 1901.) (See Mileage.)

Mileage and transportation; leaves; sea travel, etc. (Mar. 2, 1901.)

Officers of the Army and Navy.* (See Military Laws of the United States.)

Officers of the Corps of Engineers.* (See Corps of Engineers above.)

Oysters.*

F.

Pamphlets.*

Panama.* (See p. 2357 of this index.)

Parcels of land.*

Parties, private.*

Pay, extra.

Instructor, military engineering. (Mar. 2, 1901.)

Officer in charge of public buildings and grounds, D. C. (Mar. 2, 1901.)

Payments.*

Penal laws.*

Penalties.*

Percentage and reimbursement basis of payment.*

Permanent appropriations.*

Permanent International Congresses of Navigation.*

Permits.*

Personal services.*

Persons, private.*

Philippines.

Bonds and funds for public works. (Feb. 6, 1905.)

Providing for administration, etc. (July 1, 1902.)

Photographs.*

Pierhead lines.*

Piers.*

Pipes, mining.*

Planes of reference.*

Plans.*

Plant.* (See p. 2337 of this index.)

Ports of entry.*

Precious metals, mining.*

Preservation and repairs.* (See p. 1797 of this index.)

Printing.*

Duplicating and filing devices to be transferred to Public Printer. (June 28, 1902, sec. 1.)

Illustrations. Special act required. (Mar. 3, 1903; Mar. 3, 1905, sec. 1.)

Cost of preparing documents chargeable to department originating matter; remainder of cost to be distributed. (Mar. 30, 1906.)

Documents to be printed in two or more editions to avoid unnecessary printing, etc. (Mar. 30, 1906.)

Estimates for documents required by departments to be submitted. (June 30, 1906, sec. 2.)

Printing of reports on examinations and surveys authorized, as congressional documents. (June 30, 1906; Aug. 5, 1909.)

Documents submitted in response to inquiries of Congress to be submitted with estimate of the probable cost of printing. (Mar. 1, 1907.)

Private persons.*

Proceedings, legal.*

Proceeds from various sources, etc.*

Process, swearing out, etc.*

Projects.* (See p. 22 of this index.)

If amount provided for completion of any project under continuing contract be less than the cost as estimated, proposals for bids shall be invited without further action by Congress. (Mar. 3, 1899, sec. 21.)

Property.*

Property returns.

Only certificates of loss are to be forwarded to the Treasury accounting officers, and the effect of such certificate shall be the same as if the facts set forth therein had been ascertained by the Treasury officials when accounting. The manner of making returns to the bureau or department concerned not affected by this act, except as provided above. The officer or agent shall, however, have an opportunity to relieve himself from liability. (Mar. 29, 1894.)

Proposals.*

Prosecutions.*

Prosecution of work.*

Protection of waters, etc.*

Protection of persons furnishing labor and materials.*

Protection of lands, etc.*

Publications.*

All work connected with distribution of publications to be done by the Public Printer. (See Printing above.) (Aug. 23, 1912, sec. 8.)

Public lands and buildings.

Reservations in Porto Rico authorized. (July 1, 1902.)

Public moneys. (See also Disbursements.)

Shall not be expended on any site or land for public works hereafter until the validity of the title thereto is established and the consent of the State legislature given to the purchase. Attorney General to examine titles to all lands or sites purchased by the U. S. (Sept. 11, 1841.)

Public property.*

Proceeds from, to be reported. (June 30, 1906, sec. 5.)

Public works.* (See also Repairs.)

Labor on, limited to eight hours per day for laborers, mechanics, and workmen. (June 25, 1868; Aug. 1, 1892.)

Material required for construction of public works and found on bars and islands, or adjacent to said works, may be taken under certain provisions. (July 5, 1884, sec. 6; Apr. 24, 1888.)

No public work to be deemed as entered upon until appropriations therefor shall have been actually made by Congress. (Aug. 11, 1888, sec. 14; Sept. 19, 1890, sec. 18.)

Title to land for public works to be established before any moneys are expended thereon. (Sept. 11, 1841.)

Payment for material and labor for.—Contractors on public works shall furnish penal bond to include security for labor and materials purchased. Action may be brought by the owner of such labor or materials, on this bond against the contractor, after fully setting forth the facts in the case to the department. The U. S. shall be at no expense. Security for costs in case of judgment for the defendant shall be required by the court. (Aug. 13, 1894.)

Public works, injury of.

✓Certain U. S. employees have power of arresting violators. (Mar. 3, 1899, sec. 17.)

Punishments.*

Purchases.*

Q.

Quarantine anchorages.*

Quarantine service.*

Quarantine stations.

Control vested in Secretary of Treasury. (June 19, 1906.)

R.

Radio communication.*

Rafts.*

Railroads.*

Reappropriations.*

Receipts.*

Reference planes.*

Refuse matter.*

Registration.*

Regulations and rules.*

Renting of public property.*

Repairs, preservation, etc.*

Repeal of laws, etc.*

Reports.* (See also pp. 1-22 of this index.)

No supplemental reports shall be rendered to Congress unless authorized. (June 13, 1902, sec. 2.)

Representatives, House of.*

Reservations, forest.*

Reservoirs.*

Resolutions, congressional.*

Restoration, repairs, etc.*

Retired officers of the Army and Navy.*

Revenue, amount collected, etc.*

Revenue officers.*

Revocable licenses.*

Rights of way.*

Rivers and harbors.*

Rivers and harbors, restoration of.

Allotments from emergency appropriation must be recommended by local engineer and the Chief of Engineers. \$10,000 maximum. Advertising for bids may be dispensed with. (June 13, 1902, sec. 1.)

Roads.

Provisions for construction of, Alaska. (May 14, 1906, sec. 2; Jan. 27, 1905.)

Rocks, depositing in waters, etc.*

Routes, transportation.*

Rubbish deposits.*

Running of logs, etc.*

S.

Sack rafts, etc.*

Salaries.

Annual compensation to be divided into 12 equal installments. (Apr. 28, 1904, sec. 4; June 30, 1906, sec. 6.)

Sales.*

Sawdust deposits.*

SPECIAL SUBJECTS.

REPORTS, CHIEF OF ENGINEERS, U. S. ARMY, 1866-1912.

SECTION 9.—CLASSIFIED AND ALPHABETICAL LISTS OF THE FLOATING PLANT OF THE U. S. ENGINEER DEPARTMENT.¹

NOTE.—The floating plant or equipment operating under the direction of the Chief of Engineers, U. S. Army, ranges in character from seagoing suction dredges to fleets of rowboats. (See p. 2115 of this Index.)

The following is a summary of the more important tables of the floating equipment, each table of craft-names being arranged alphabetically.

For a complete list of the floating plant, see 10, 2514; 11, 2801; 12, 2902.

TABLE 1.—SEAGOING HOPPER DREDGES.

| Name, number, or letter. | Dis- place- ment. | Dimensions. | | | Material. | Comple- ment. | | District. |
|--------------------------|-------------------------|-------------|----------|---------|------------|------------------|------|------------------------|
| | | Length. | Breadth. | Depth. | | Offi- cers. | Men. | |
| | Tons. | Ft. in. | Ft. in. | Ft. in. | | | | |
| Atlantic..... | 2,670 | 288 0 | 47 6 | 25 0 | Steel..... | 9 | 51 | Wilmington, N. C. |
| Benysaard..... | 2,978 | 271 6 | 47 6 | 23 0 | ..do..... | 10 | 53 | New Orleans. |
